"Brindavan"
Mayavaram (S.I. Ry)

To
The Secretary
Public Works Dt.,
Gt., of Madras.

Sir,

I am a Government of Madras scholar selected in the year 1945 to study Marine Engineering at the King's College in Newcastle on Tyne. (File No E.A.5238 Education Dt., India House London). I have Graduated in Mar., Eng., and Naval Arch., and have had one year of training in the British Ship yards.

There is a vacancy in H.M.I. Dockyard Bombay for the post of an Assistant Manager Constn., Dt., for which my qualifications and training are well suited. Since there is little scope for constructional or repair work under the contrroll of the Madras Gt., of sea going vessels, I request you to kindly forward the enclosed application to The Sec F.P.S. New Delhi, with your recommendations and oblige.

Thanking you

Yours faithfully,

S. Paramanandhan

LETTER REF. NO. 88924 A/45-22 EDN., DATED 9.12.48

Copy to Mr.
Sri S. Paramanandam
Minister of
Govt. New Delhi.

To

The Secretary,
Federal Public Service Commission,
NEW DELHI (with enclosures)

attached below

Sir,

Sri S. Paramanandam

"Paramanandam"

Mayavaram (S.I. Paly)

Sri Paramanandam - Application for the post of
Assistant Manager, Construction Department,
H.M.I. Dockyard, Bombay.

I am directed to enclose an application submitted by
Sri S. Paramanandam for the post of Assistant Manager,
Construction Department, H.M.I. Dockyard, Bombay, together
with a copy of employment form relating to him received
from the Govt. of India.

Sri Paramanandam was sent by this Govt. for advanced
studies overseas in Marine Engg. with the intention of
appointing him on the staff of one of the Govt. Engg.
Colleges. According to the bond executed by Paramanandam
he is bound to serve the Govt. for a period of 5 years,
if his services are required by them. The Govt. have
not yet opened a course in Marine Engg. in any of their
Engg. Colleges and the matter is still under consideration.
It will take some time before a course in Marine Engg.
is actually opened. ~~They have, therefore, no suitable~~
~~post at present in which the knowledge gained by Sri~~
~~Paramanandam in Marine Engg. can be utilised.~~ In the
circumstances, the Govt. have no objection to Sri
Paramanandam being appointed to the post in question if
he is selected by the Commission, on the condition that
his services are made available to this Govt. if and
when a course in Marine Engg. is opened.

Yours faithfully,

7/12/48

Extract of the confidential letter No.73/48, dated 8th December 1948, from the Director of Public Instruction to the Secretary to Government, Education and Public Health Department.

Sub:- Madras Educational Service - Instructors in Mechanical Engineering = Vacancies in Engineering Colleges, Kakinada and Guindy - Appointment of candidates.

Ref:- Govt. Memo. No.84420-A1-Edn., dated 19th Novr. 1948.

1. The following posts of Instructors in Mechanical Engineering in the Madras Educational Service are at present vacant.

1. Instructor in Mechanical Engineering, College of Engineering, Kakinada (temporary post sanctioned in G.O.No.1878-Education, dated 28--7--1948).
2. Instructor in Mechanical Engineering, College of Engineering, Guindy (Mr.J.Abdulla Hussain posted to the vacancy did not join duty.)

The post is kept vacant in the Engineering College, Kakinada, against the return of overseas scholars. As Sri S.Paramanandam who is intended for absorption in the teaching personnel of Engineering Colleges (Mechanical Engineering unit of the Madras Educational Service), is reported to have arrived in India, I recommend that he may be appointed immediately as Instructor in Mechanical Engineering in the College of Engineering, Kakinada, under rule 9(a)(i) of the General Rules for Provincial and Subordinate Services. The qualifications of this candidate will be examined and reported on in due course.

Sir,

Sub:- Application for the post of Mechanical Engineer
Port Trust Bombay.

From our recent correspondence (your letters dated 9th & 10th Decr '48 and 10th Jan '49) I understand that it would be some time before the Marine Eng course is opened in The Madras University and so the chances of my employment in the said department are very little for the present.

Till such time as the course is opened, I have been permitted by your office to apply for a job with The Bombay Dockyards, (Defence Dt.) (refr your letter dtd 9th Decr '48)

There had been a similar job advertised by The Bombay Port Trust. Pending any definite reply from The F.P.S.C. I have sent in an application to The Bombay Port Trust as well. I request you to kindly permit me to proceed with the application, just as you have permitted me to seek employment with The Bombay Dockyards. I am prepared to agree to the same conditions you have stipulated in the last paragraph of your letter Dtd 9th Decr., '48.

Thanking you

Yours faithfully,

S. Paramanandhan

To

The Secretary to the Government of India,
Ministry of Education,
New Delhi.

SUBJECT:- APPOINTMENT OF ASSIST. MANAGER CONSTRUCTION DEPARTMENT
H.M.I. DOCKYARD, BOMBAY.

Dear Sir,

I sent in an application for the above mentioned post through the Madras Government on the 25th November, 1948. It is more than five months since the application was made, yet there had been no communication except that it was accepted through letter No. F.I./369/48-E.R. No. I on the 3rd December,

I have made repeated enquiries to the F.P.S.C. but haven't received any reply. Even the date for interview has not yet been fixed, five months after sending in the applications. This extraordinary delay is causing lot of anxiety and inconvenience.

Pending any definite reply from the authorities concerned, I cannot be employed by the Madras Government or apply for any suitable job through them, which is essential for a Government scholar.

In the light of these facts I request the authorities to make it clear,

- (i) Whether the post has already been filled up.
- (ii) If not the probable date of interview
- (iii) Whether according to the Memo. No. 86394-C2/48-3 Edn. dated 16-12-48. (Copy Education Dt. Govt. of India New Delhi). I would be released from the Bond, since I complete the five months waiting period after the 27th of Apl.

I request the authorities to consider this specially urgent and forward favourable orders.

Thanking you.

Yours faithfully,

The Secretary, Education Department,
Government of Madras,
Fort St. George,
Madras.

Dear Sir,

Sub: Application for the post of
Assistant Engineer, Port Trust,
B o m b a y.

Ref: My letter dated 4th February '49.

p. bante From your letters dated 9th December '48 and 10th January '49 I understand, that the chances of a suitable job being offered is little since it would be long before the Marine Engineering course is opened in the Madras University. *p 3 anti*

Till such time as the course is opened I have been permitted by your office to apply for the post of Assistant Manager, H.M.I. Dockyard, Bombay. The application was sent on the 25th of November '48 and till now, even five months after sending in the application, (Ref: your letter of 9th December '48) I have not received any reply from the Federal Public Service Commission, Delhi. *p. bante*

1. I reported my arrival on the 8th of November 48, more than six months back.

2. The Government of Madras recommended my application to The Federal Public Service Commission (Ref: your letter No. 88924-A/48-2.C2-Edn dated 9th December 48) since no suitable job could be offered for some time to come. *(N)*

According to your Memo No. 86394-2C/48-3.Edn. dated 16-12-1948 I am free to seek employment elsewhere, since I have not been offered a suitable job for more than six months.

24

- 2 -

191

I request the Government to reconsider my application to the Bombay Port Trust and permit me to accept their offer before the 1st of June.

The Port Trust is under the direct supervision of the Central Government and according to our agreement we have to serve either the Provincial or the Central Government. I request the authorities to consider this point as well.

In case if this request could not be complied with I am sure the Government would graciously permit me to seek employment elsewhere.

It is very disheartening, as my application and subsequent reminders to The Federal Public Service Commission have not been answered and it is more hard that I am not being permitted to apply for other jobs for the past six months.

Considering the abovementioned reasons I request the authorities to pass favourable orders.

Thanking you,

Yours faithfully,

S. Paramanandhan

Sub: Overseas Scholar - Request for release
from bond.

Ref: Your letter dated 4th June 1949 and
reminder, Memorandum No. 42979-A-2, Ed.,
dated 23rd June 1949.

Dear Sir,

I am sorry for the delay in replying your above communications. I have been away between Bombay and Delhi and hence the delay in replying to your communications.

With reference to your communication ref: Memorandum No. 42979-A-1-Edn., dated 4th June, 1949, I submit for your consideration the following:

1. I am a qualified Marine Engineer and a Naval Architect.
2. I had the benefit of one year practical industrial training in British shipyards during the period of my scholarship in England.
3. Both my knowledge and training could be put to proper use only if I am employed in a field that deals with ships, ships' mechaneries and Naval Architecture.
4. I may be permitted to state that I can prove useful only in the sphere of National Naval Industry.
5. I cannot do justice to the duties of a Mechanical Instructor and all my knowledge and training in sphere for which I was sent on scholarship would be an absolute waste if I am posted as a Mechanical Instructor.

More than seven months ago, soon after I reported my return early in November 1948, your office was considering appointing me as Instructor in Mechanical Engineering and your office was good enough to forward my application to the Federal Public Service Commission for a post in the Government of India.

It is one thing to consider offering a job and another to offer a suitable job. I submit that no 'suitable' job was offered to me so far either by the Provincial Government or by the Central Government.

Let me here bring to your recollection that a student who is selected for overseas scholarship is promised on his return a 'suitable' job. Certainly, the post of a Mechanical Instructor for one who is specially trained in Marine Engineering is anything but a suitable job and if the post of a Mechanical Instructor is conferred on me, it would not benefit either our country or me.

- Turn over, please.

29
Even as early as 17th May, you wrote to me that my application to the F.P.S.C. was still under their consideration and the question of appointing me as an Instructor in Mechanical Engineering would be taken up after the receipt of a definite reply from the F.P.S.C. My application is still pending before the F.P.S.C.

11.23-24
I wrote to you on the 15th May seeking your permission to accept a job in the Bombay Port Trust as I heard nothing till that date from the F.P.S.C. The Port Trust is a quasi government organisation under the direct supervision of the Central Government. Consequently, service in a major Indian port will amount to service in the Government of India.

In the light of all that I have stated above, I request you once again to grant me an unconditional release from the bond to enable me to accept a post in the Bombay Port Trust.

Thanking you,

Yours faithfully,

S. Paramanandhan

Copy of letter No.L.A.5238 dated the 9th June, 1949, from the High Commissioner for India, London, to the Ministry of Education, New Delhi.

Subject:- Advanced Studies overseas in respect of Mr. S.Paramanandhan, 1945-46 Madras Government sponsored scholar.

We have received your cable of the 7th June, 1949. In reply I am directed to send you here- with copies of testimonials from Prof. Burstall and Burrill on behalf of Mr. Paramanandhan, dated July and May, 1948.

Copies of these testimonials were sent to you at that time but we are sending these two certificates again from our files.

TESTIMONIAL

27

TO WHOM IT MAY CONCERN

Mr. S. Paramanandhan entered the Department of Marine Engineering at King's College, Newcastle upon Tyne, in October 1947 in the 3rd or final year of the course of Pass Degree for B.Sc. in Marine Engineering of the University of Durham. It is most unusual to allow a new student to enter the 3rd year of a degree course, but an exception was made in the case of Mr. Paramanandhan in view of his excellent record at the University of Madras. The exception was justified the following June, when he sat the final examination for the Pass Degree and passed in all subjects. The University regulations required him to spend a further years residence before taking his Degree, and accordingly he was transferred from this department to the department of Naval Architecture as he desired to continue his studies in that department. During his studies in the department of Marine Engineering, he showed himself to be diligent and possessed of ability considerably above average.

UNIVERSITY OF DURHAM.

Department of Naval Architecture.
Professor L.C.Burrill, M.Sc., Ph.D., M.I.N.A.

King's College,
Newcastle upon Tyne, 1.

12th July, 1948.

Telephone: Newcastle 23401.

SUBJECT: S. PARAMANDHAN.

Mr. S. Paramandhan has asked me to furnish him with a testimonial in connection with his application for employment following the period which he has spent here in the Department of Naval Architecture, and I am very pleased indeed to do this for him.

I first met Mr. Paramandhan about two years ago when he was working in Sunderland and wished to enter the Department here to study Naval Architecture. Unfortunately, at that time we were not able to accommodate him in the Department, and it was therefore arranged that he should spend the first year of his time at the University in the Department of Mechanical and Marine Engineering. During this year he took the normal course of lectures for the Final B.Sc. in Marine Engineering, and as a result of his successful accomplishment in the June examinations 1947 he was admitted to the Naval Architecture Department in October 1947, with a view to his taking the Endorsement Course in Naval Architecture, which we arrange for postgraduate Engineering students. During this last year he has, in effect, carried out the work which is usually covered by the second and third year courses in Naval Architecture, and the result of his examinations in the Final B.Sc. Naval Architecture examination this June has been very satisfactory. He will therefore be granted a Degree Certificate in Naval Architecture and Marine Engineering. In the Final examinations this June he obtained an average of just under 70% in his Naval Architecture subjects, and I consider this to be a very good performance.

During the period when he was taking the Marine Engineering Course, he was very keen to carry on with Naval Architecture drawing, and he was therefore permitted to carry out ship drawing in the Naval Architecture Department, and he also worked through the summer vacation from July 1947 till August 1947 on this work. In September 1947 he spent some time visiting various shipyards and engine works in Scandinavia. During the past year he has been carrying out the normal drawing office programme which we require from our Endorsement students in Naval Architecture. His performance in the drawing office shows he is very keen and a hard worker, although his output has not been quite as good as his theoretical attainments, owing possibly to the fact that this is his first experience of ship drawing work.

So far as his general personality is concerned, I have much pleasure in telling you that he has a most lively personality, is well liked by the other students and that he takes a very leading part in various student activities. I have no doubt he is a man who will be able to organise well and that he would make a very good leader in due course. I consider that Paramandhan should make a very good candidate for a teaching post in one of your Universities, and that he will make a very excellent lecturer, and I must say that I have been very pleased to have him here in the Department.

10. Nakskov. "	Sideways launching and cargo ships.	Nakskov "

128 43

From the above reports it would be clear, that I am qualifying for a combined degree in Marine Engineering & Naval Architecture and as such I would be able to handle the Departments and subjects confidently; Both being allied subjects.

Including the training fixed up for this summer, I would be completing nearly one year of Industrial training, which has enabled a good grasp of modern practices in Marine Engine and Shipbuilding practices.

The visit to the Scandinavian Shipyards gave a comparative study of Engineering and Shipbuilding Practices. The all welded tankers and the B & W type of Diesel Machinery and such modern practices were very instructive.

Four weeks of work at Hook's Hydrofinn gave me a first hand and very instructive study of the most modern types of Hydrofoil Boats.

Detailed reports on everyone of these activities have been submitted already.

Yours faithfully,

P. Karawana

Sub: OVERSEAS SCHOLAR - 1945 - Sri. S. Paramanandhan
Return to India.

Ref: From Sri. S. Paramanandhan, letter dated 25-11-48

To A.D.S.

Please see the letter from Sri. S. Paramanandhan at p. 1 c.f. and the ~~enclosed~~ application to the Secretary, Federal Public Service Commission ^{at 43-64} Sri. S. Paramanandhan is a candidate who was awarded an overseas scholarship in 1945-46 for the subject 'Marine Engineering' and he is intended for absorption in the Education Department after the completion of his overseas studies. He returned to India in the first week of November 1948. He has now applied for the post of an Assistant Manager, Constn. Dt., in the H.M.I. Dockyard, Bombay, and requests that the application may be forwarded to the Secretary, Federal Public Service Commission.

2. It may be mentioned that the question of appointing him as Instructor in the Madras Educational Service is separately under consideration in the E & P.H. Deptt. It appears that the candidate has applied to the E & P.H. Deptt. for certified copies of certain testimonials enclosed with the employment form, to enable him to apply to the Federal Public Service Commission for the post referred to at 'A' above. The E & P.H. Deptt. propose to inform the candidate that his application will not be forwarded as his services are required for appointment as Instructor in the Madras Educational Service.

3. The file may be transferred to E & P.H. for necessary action.

ASST. SECRETARY TO GOVERNMENT
29 NOV 1948
EDUCATION AND PUBLIC HEALTH DEPT.

As directed by H.N. a draft letter is subd. Finance may see before copy.

2/12/168 S

The file was sent up to H.M. (Education) only for his information. I did not have an opportunity of noting on the case before he decided to take the line of action embodied in the draft.

The question as between us and the Federal Public Service Commission is only whether we can forward the application to the Commission or not. We cannot appropriately make the stipulation to the Commission as at 'M' in the draft.

With reference to 'N' in the draft, I would point out that it is not essential that we should offer the candidate a post related to the subject in which he specialized overseas. The undertaking in the bond was that we ^{try to} could provide a suitable gazetted appointment to the candidate. As already mentioned in another file on the case, which was put up to H.M. (Education), there is a vacancy of Mechanical Engineering Instructor in which it would be possible to appoint this candidate, as he is qualified in Mechanical Engineering, and the proposals have been called for from the D.P.I. in that respect. If he is offered that job, the candidate is bound to accept it under the terms of the Bond, and it is obviously to our advantage to have him appointed in that capacity pending

Univer.

(A) / 3

the formulation of proposals for starting a Marine Engineering course in connection with which his service may later on be utilized. It is also pertinent to note that if that process should actually take more than 5 years, we cannot legally hold him to his Bond and we may not be able to implement the suggestion at 'M' in the draft.

the draft.

In some similar cases all that we have done is to forward the application to the Commission mentioning there that the candidate is bound to serve us for a period of 5 years if he is offered a suitable gazetted appointment, that the question of offering him an appointment is under consideration and that ⁴after he is actually appointed, he will not be available for the post for which he has applied. I suggest that nothing further than that should be done in this case as far as the application is concerned, and that the question of giving him an appointment as Instructor in Mechanical Engineering should be pursued in due course. If it happens that the proposal does not actually materialise, then we will have to consult the other Departments of this Government also as to whether they have any appointment to give him, and the Govt. of India too, before we actually release him from his appointment. *bound.*

2-NEW 1948

~~014/11~~

'A' on page 3 n.f. may be accepted but I think 'M' is not inconsistent with 'A'. A revised draft may be put up. ~~N. may be omitted~~

15A

5.12.48

Submits to
'M' would be inconsistent with
'A' since if 'M' made be
acknowledged by the Commission
(in connection with the S. & G.) we
would lose the services of the trainee
for the time being (when we have utility
then in the form of an alternative); &
there is also the point mentioned as
'P' or p. 3 ante.

The point is, that in the absence of our starting Marine Engineering in our Engineering Colleges, this boy's training will be best utilised by the Government of India in some department of Marine Engineering and the application is for employment in some department of Marine Engineering. But the condition that we are putting in our recommendation is that when Marine Engineering is started, he must be given back to us. I think a draft may be put up in these lines. As the matter is urgent, it may be put up immediately.

15A

The draft has been amended. The file may be circulated to H.P. (Fin) and H.P. also.

9/12/48
H.P. (Fin.)

CF.3 (Issued as letter no. 88924 A/48-2-62, dt. 7.12.48)
From the D.P.I., No. 73/48, dated 8.12.48.

The D.P.I. has now recommended that

S. Paramanandam be apptd. as Instructor in Mechanical Engg. in the Kakinada Engg. College. Acg. to H.M. (Edn.)'s ^{minutes} at middle of p.4 ante, and the letter at p.3 C.F. issued to the F.P.S.C. w.r.t. those minutes, if the scholar is now apptd. as Mechanical Engg. Instructor and supposing a few days later he is selected by the F.P.S.C. for the post for which he has applied under the G. of I., he cannot be continued under this Govt. in the Mechanical Engg. post and the FPSC cannot be told that his services are reqd. under this Govt.; he will have to be relieved from the Instructorship, to enable him to take up the G. of I. job, and he can be called back to this Govt.'s service only if and when a Marine Engg. course is started and started within 5 years. Ordinarily, one's appointment to a post and his relief therefrom after a short period, in the middle of a college year, is not quite desirable. But, in this case, if the candidate is not provided with an appointment within 3 months, it is open to him to seek release from the bond. It cannot be said whether the result of his application to the FPSC will be known before the expiry of 3 months from the date of his return to India. In order, therefore, that the Govt. may have a hold on the scholar, the Dir.'s recommendation may be accepted and the procedure at B above followed if necessity arises.

May be cired.

I am rather surprised at this being put up again when the matter was settled in the previous page. That may be done.

ISA

17-12-48

Resd. in
interferes for
H.M. (Edn.)
minutes
by
17/12/48

H.M. (Edn.)'s minutes at p. 6 ante.

Subd. that the minutes at pp.4-1 ante covered the point about the transmission of the scholar appln. to the F.P.S.C. and that it was not specifically decided on those pages that the scholar shd. be apptd. as Instructor in Mechanical Engineering under this Govt. until he got the post for which he applied to the F.P.S.C. In fact, the Dir.'s ^{propos.} proposal for the appointment has been received, and the question of appointment is ripe for decision, only now. All proposals for gazetted appointments should be subd. in circulation for orders. ^{Further C at p.6 ante had to be pointed out.} In view of these reasons, the file was cired. to H.M. (Edn.), again, at p.6 ante.

The file was marked for H.M. (Edn.)

too because he did not see it at p.5 ante and because the understanding there was that he shd. see it after the draft letter to the G. of I. issued. ^{had been} If it is proposed that the candidate was not to be appointed as Instructor in Marine Engineering, then the Dir. should have been consulted before the draft letter was issued.

There is no point in utilising a man who has been sent up for Marine Engineering for Mechanical Engineering. That is how we do things. After all, we are allowing him to apply to the Government of India, in the Marine Engineering subject to the conditions that he must come back when

The question is decided now is whether the candidate's application to the F.P.S.C. is to be considered or not. This point was not decided previously, & if he actually arises and is appointed for his appointment, he will be appointed as Instructor in Mechanical Engineering or as Instructor in Marine Engineering. The Dir. is to be consulted before the draft letter is issued.

Circ. letter for personal of the appln. may be done after order of appt. are issued.

Memo no. 92930 H-2 Edu & 10.1.49
Telegram for the (regd.) & 25.1.49.

The Orgs have been asked for information regarding the latest position of employment of Sri S. Paramanandam. A copy of the Memo at 6 c.f. may be sent to him. A draft letter is submitted for approval.

10.1.49
10/1/49

Eno. 7973/49 From Sri S. Paramandam & Co.

Sri S. Paramanandam's appln for the post of Asst Manager, Constrn. Deptt, H.M.I. Dockyard Bombay, was forwarded to the F.P.S.C. on condition that his services would be made available to this Govt if and when a course in Marine Engg was opened. Pending the result of that appln, the Govt have decided that the question of appointing him in their services need not be considered, though a post of Instructor in Mechanical Engg, College of Engg, Kakinada, is vacant. The scholar now represents that he has sent an appln to the Bombay Port Trust for the post of Mechanical Engineer and requests that he may be permitted to proceed with the appln. He states that he is prepared to agree to the condition at x above. In order whether the scholar may be permitted to do so on the condition at x above.

For the
purpose
of the
employment
of the
scholar?

Mechanical Engineer's job & is to be done in the Government's service. The Government of Madras is the only authority which can grant the job. It is the duty of the Government to see that the job is given to the person who is best qualified for it. I do not think his services should be extended.

to be done now & alone, he may be offered it.

8.2.49

CP 14
~~Letter sent for home~~

J.S., E.& P.H.

I understand that the application of Sri S. Paramanandh a scholar sponsored by this Govt. for training abroad in Marine Engineering, for appointment as Mechanical Engineer under the Port Trust, Bombay, has been withheld by the Govt. As it is more than five months since he returned to India after his foreign studies and as this Govt. have no suitable post to offer him, I think he may be released from the bond executed by him.

29.4.49
H.M. (Edn)

E. & P. H. Dept. (E2)

The subject in which Sri Paramanandam underwent studies overseas is "Marine Engg." . At the time of sending him abroad, it was anticipated that a course in Marine Engg. would be started in one of the Govt. Engg. Colleges. But that anticipation has not materialized and the Govt. of India have recently been told that the question of the opening of that course at Vizagapatam should appropriately be tackled by themselves and that, however, this Govt. will attend to the matter if the Centre agrees to defray the whole expenditure in respect of it. On his return to India, it was decided that Sri Paramanandam should be allowed to get, if possible, even elsewhere than in this Govt.'s service, an appointment in which he could put to proper use the knowledge which he gained abroad in "Marine Engg.". The post in the Bombay H.M.I.S. Dockyard is one such appointment. That is why his application for that post was forwarded previously to the F.P.S.C. The condition that if and when this Govt. opened the Marine Engg. Course, the candidate's services should be made available to them, was also made known to the F.P.S.C. The result of that application is awaited.

The post in the Bombay Port Trust for which the scholar subsequently applied ^{dated - 7.12.58} is not an appt. connected with Marine Engg. It is only a Mechanical Engineer's job. A similar

appointment, Mechanical Engg. Instructorship, can be offered to Sri Paramanandam in this Govt.'s service itself. Two Instructors' posts are vacant. He having studied at this Govt.'s expense, he should accept an appointment under them in preference to the Port Trust appt., if both the jobs are concerned only with Mechanical Engg., even though the Port Trust appt. carries higher pay. If Marine Engg. course is opened in due course (nothing definite can be said about this now), his services can be transferred from the Mech. Engg. branch to the Marine branch. The question of releasing him from the bond will arise only if a post, the qualification for which he possess, cannot be offered to him. But, as explained above, that is not the case here.

The above are the reasons for his appln. for the Port Trust Bombay, not having been "endorsed" officially. Submitted that there is no justification to revise the previous decision at p.9 ante.

DM
5/5/49

What is he doing now

② What is his pay

③ What is the pay of Instructorship in Mechanical Engineering - how he is appointed to it, pursuing a post in Marine Engineering

260-40/2-
500-50/2-
700-

① & ② in J.S.'s note. Submitted that

Sri Paramanandam has not been offered any employment.

③ in J.S.'s note. The pay of the post of Instructor

in Mechanical Engineering is Rs 260-40/2-500-50/2-700.

There is no objection to his being appointed to the post of Instructor in Mechanical Engg. But as pointed out in the notes above as his application for a post in Bombay H.N.I.S Dockyard is under the consideration of the F.P.S.C. it would seem desirable

to await the result of that application before he is appointed to the post of Instructor in Mech. Engg.

C No. 38091/49 From S. Paramanandam d. 16/5/49.

SPECIAL:

Secy., E. & P.H.

I understand that Sri S. Paramanandham, a scholar sent by this Govt. for training abroad in Marine Engineering, has reported to Govt. after his return some six months back and that he has not been offered any post under this Govt. ^{so far} According to the bond executed by him he has to be offered a suitable post in the Marine Engineering Dept. within five months of his return from abroad. This could not be done as there is, at present, no Marine Engineering course in any of the Engineering Colleges here. He has, therefore, to be released from the bond so as to enable him to seek employment elsewhere. This may be done without further delay as, it is said that the candidate has already secured a job at Bombay and has to join duty there before 1st June 1949.

20/5/49
H.M. (Edn)

E & P.H. (E2).

With ref. to H.M.'s minutes above attention is invited to the notes at p.11-12 ante where the employment position of Sri S. Paramanandham is fully set out. At 'B' in H.M.'s minutes, it is stated that the scholar has to be offered a suitable post in the Marine Engg. deptt. It is submitted that this is not so. Under the terms of the bond executed by him Sri Paramanandham has to serve H.E. the Governor of Madras, if required to do so, as a gazetted Officer or to take up other employment indicated by the Governor for a minimum period of five years and, if his services are not required in that manner, to serve H.E. the Governor-General, if required to do so, as a gazetted Officer of the Central Govt. or to take up other employment indicated by the Governor-General.

p.t.o.

15

2. The post in the Bombay Port Trust for which the scholar has been selected is not an appointment connected with Marine Engg. It is only a Mechanical Engineer's post. A similar appointment, namely, Mech. Engg. Instructorship can be offered to Sri Paramanandham in this Govt's service itself. Two instructors posts are vacant. Having studied at this Govt.'s expense he should accept an appointment under them in preference to the Port Trust appointment. The question of releasing from the bond will arise only if a post cannot be offered to him by this Govt. But as stated above that is not the case here. In the circumstances it is for orders whether Sri Paramanandham will be released from his bond.

Fin. may see before circulation.

24/5/49

3/24/5/49

EPH 40 88924A.E2/49

Fin (Edn.)

Please see the minutes of H.M(Edn.) on p.14 above.

In Memo No.86394 C2/48-3 (E.P.H.) dated 16-12-48 (V)

the Govt. communicated the decision to their sponsored scholars that if within five months of their return they were unable to offer any suitable posts in accordance with the terms of the bond, they would be released from the bond and thereafter they would be free to seek employment elsewhere. In the present case, Sri Paramanand as a sponsored scholar has not been offered a suitable job even though he had returned to India on 8-11-48 more than 6 months back. As the 5 months' limit in Memo at flag (V) is over, it is doubtful whether the Govt. can enforce the refund of the cost of the training if he takes up job elsewhere. In the circumstances have so developed that the candidate has a right to ask the Govt. to release him from the bond and the Govt. are morally bound to release him. Finance may suggest that in the circumstances of the case, the Instructor's post in the Engineering College may be offered to him forthwith

2

27.5.49

26.5.49

27/5/49

E.P.H.

EPH (Edn.)

With reference to 'Z' of the Fin. note above it has to be pointed out that the question of appointing Sri Paramanandham immediately as Instructor in Mech. Engg. in the Engg. College, Kakinada has already been considered. Please see the D.P.I's letter at p.4 c.f. and the notes at p.6-8 N.F. The previous Secy.(Mr.M.V.Subramanian) recommended that the Director's proposal to appoint Paramanandham forthwith as Instructor in Mech.Engg. might be accepted. The former H.M(Edn) did not, however, approve the proposal --Vide the minutes on p.7-8 N.F. It was therefore decided that pending the result of Paramanandham's application to the F.P.S.C. the question of appointing him as Instructor in Mech. Engg.might be deferred--Please see the memo. on p.6 c.f. Sri Paramandhan was also informed of this decision. It does not therefore seem that he has a right to ask Govt. to release him from the bond.

2. The file may now be circulated to H.M(Edn.) and H.M(Fin.) for orders on the suggestion made by Fin. that the Instructor's post in the Engg. College, Kakinada, may be offered to Paramanandham without awaiting the result of his application sent to the F.P.S.C.

Sri S. Paramanandam, Overseas scholar - Absorption in
a Government appointment.

Sri S. Paramanandam was selected as an overseas
scholar in 1945 for studies in "Marine Engg." He was
intended for eventual absorption in the teaching per-
sonnel of Engg. Colleges. The particulars of the course
of studies which he underwent in U.K. are contained in
the papers at (I) below. He recently returned to India
after completion of his studies. A course in 'Marine Engg.'
has not been started so far in any of the Govt. Engg.
Colleges. Portions Q at (Z)/2 and (A)/1 will show that
the D.P.I. is of the view that Sri Paramanandam can be
apptd. in one of the Mechanical Engg. vacancies. Con-
sidering the Dir.'s view and considering the point that
the candidate has to be provided with a gazetted appt.
before the expiry of 3 months from the date of his
return to India (otherwise he shd. be released from the
bond), the D.P.I. has been asked to send up proposals for
his appt. as Instr. in Mechanical Engg. They have not
been recd. The question, whether until 'Marine Engg.'
is started he should be utilised in the Mechanical Engg.
branch, was not specifically raised. But if "Marine
Engg." is started, his services will naturally be utilised
for that course. If, however, this course is not
eventually started by this Govt., the knowledge gained
by him will not be put to proper use in the dept. It
may be noted that if Sri Paramandam is not now taken in
in the dept., if and when the Marine Engg. course is
started, he is not likely to be available then.

This degree obtained
before going to U.K.
is B.S. (Mech.)
