Sir,

Sub: Madras Educational Rules - Secondary grade teachers

Proposal for a short training course.

*Examinations

There has been a great dearth of qualified teachers and the problem in respect of teachers in the category of collegiate grade is most acute. From the report of the Andhra Secondary Education Standards Committee constituted under G.O.No.2066, Education, dated 26-9-47, it will be seen that of 1,400 posts for L.T. teachers in Andhra Districts, as many as 120 posts were left unfilled for want of qualified teachers. The position in regard to the rest of the Province is even worse. The present facilities for training teachers in the existing institutions are hardly sufficient to meet the demand, which has been only growing with the large increase in the number of new schools started in these last two years. Ways and means have, therefore, be found to increase appreciably the output of collegiate trained teachers. The proper thing would be to open new training colleges, but it is not practicable to solve the problem immediately that way. I am, therefore, inclined to suggest after the most careful consideration that secondary-grade trained teachers who are graduates may be enabled to undergo a short training course of three months at the satisfactory completion of which they could be granted 'collegiate teachers' certificates and these teachers may be treated on the same footing in all respects as other regular collegiate trained teachers. As an experimental measure, this concession may be tried in the first instance for a period of five years. If the above proposal is agreed to, an amendment to rule 138 of the Madras Educational Rules would be necessary in order to regularize the new category of teachers. I request that Government may be pleased to accept the proposal. The necessary amendment to the Madras Educational Rules will be submitted immediately for the approval of Government. I desire that the shortened course may be started in the Teachers' College, Saidapet this year itself and extended to other Training Colleges next year. If the proposal is accepted I can admit another 30 students in the regular L.T. class. I am enclosing a copy of the Principal's letter.

S. S. S.
DIRECTOR OF PUBLIC INSTRUCTION.

Copy of D.O. dated 8th July 1949 from the Principal, Teachers' College, Saidapet to the Director of Public Instruction.

I thought over your suggestion to overcome the objection raised by the University to increasing the strength of the College. Undoubtedly there is need to train more teachers of the B.T. Degree, in view of the increase in the number of secondary schools. This year I received applications from 283, but I could admit only 150, the maximum number permitted by the University. The number 283 includes Malayalam graduates (30). I consider that it is not desirable to reduce the period of training for all students, but it is both possible and desirable to reduce the training in the case of Secondary grade trained teachers who are graduates. These candidates have already undergone training for two years and they are teachers with considerable experience. To them a nine month training is unnecessary. For instance, they need not have teaching practice which is necessary for graduates who have no teaching experience. The Secondary grade trained graduates know enough of school administration, hygiene, etc., that this part of the syllabus may altogether be left out. It will also be enough if these teachers specialise in the one subject, which they studied for their B.A. under Group III and in addition a language, if necessary.

I consulted the staff and they agree that it will be easy to conduct a separate class for these teachers and that a period of 3 months will be adequate. All that I require is an additional Assistant Lecturer in the Subordinate Educational Service to give instruction in General Psychology and Principles of Education, who be in charge of the class and give tutorial instruction. I will be able to share the work with him.

Two points must be made clear so that the teachers may take this short course with confidence. One is an assurance that the Collegiate Teachers' Certificate issued by the Director is all that is required to enable a teacher to handle high school private management. The second is that the holders of this Certificate will be entitled to be placed in the B.T. grade of pay in schools under local bodies. This will require probably a change of Service Rules for local bodies. This is necessary as some of these teachers are already in the employment of local bodies.

No change in the Statutory Rules fixing B.T. qualification for teachers in Government schools need, however, be considered now. I find there are 27 Secondary grade trained graduates, of whom five are Malayalees, admitted to the Meston Training College. As they will not be required to give teaching practice there is no objection to admitting Malayalees also for this course. If there are women teachers in Lady Willingdon and if their number is small I have no objection to admitting them also for this shortened course. On the whole the number may be between 20 to 30 which will surely justify the opening of the course.

If orders are received sufficiently early I shall be able to start a course immediately and complete it before the Dasara Holidays in September.

N.B. The places that may be vacated by these students can be given to other fresh graduates. Quite a number of applicants are still hanging about seeking admission.

Rc.No.1862 E4/49, Madras dated 9th July 1949.

Sir,

MADRAS EDUCATIONAL RULES -- Secondary Grade teachers who are graduates -- Proposal for a short training course.

Ref: My letter C.No.1862 E4/49 dated 9.7.1949.

In continuation of my letter cited, I may state that I agree with the proposal of the Principal, Teachers' College, Saidapet that one additional Assistant Lecturer in the Madras Educational Subordinate Service would be required to conduct the course. I submit below an estimate of cost involved in the proposal:

One Assistant Lecturer in the			
scale of Rs.150-5-200-10-250	Rs.150 x 3	..	Rs.450/- or Rs.500/-
for three months			in round figures.

2. If the proposal is accepted, secondary grade teachers who are graduates and who are now studying in the B.T. class will be diverted to this new course. Vacant seats in the B.T. class resulting therefrom will be filled by fresh admissions. Unless the course is begun early enough, it will be difficult for students to be admitted hereafter in the B.T. class, to fulfil the requirement of percentage of attendance. I request therefore that Government may be pleased to pass immediate orders in the matter.

I shall submit proposals for continuing similar courses towards the end of this first course.

Yours faithfully,

Minister

for Director of Public Instruction, Madras.

- In his letter R.C. 692/49 dated 30-7-49 (copy enclosed) the Principal has submitted the following proposals on the shortened course for graduate secondary grade teachers approved in the G.O. quoted above:
1. To publish a modification in the gazette giving details about the courses as well as the scope and value of the certificate. The Principal requires 200 copies of the notification for supply to those who ask for particulars.
 2. To prepare and print application forms.
 3. The course which commenced on 20-7-49 will be completed on 31st October 1949 (due to intervening holidays), thus exceeding 3 months' duration by 12 days.
 4. To conduct a second course, from 3rd week of January 1950 to about the middle of April 1950. The Principal has promised to submit specific recommendations in this regard.
 5. To conduct an examination at the end of the course (both written and a practical one) and to award the certificates to successful candidates, the Examinations being conducted by a ~~Board~~ of Examiners appointed by the Commissioner for Government Examinations and
 6. The draft Rules of the scheme of the course.

I have accorded my general approval of the proposals of the Principal. Regarding the printing of the application forms, the Principal is being advised to use Cyclostyle annexure for additional particulars to the standardised printed application form for B.T. students. I request that Government may be pleased to accord necessary sanction for extending ~~three~~ months' training course by 12 days.

I shall submit a further report when proposals for the conduct of a Second course are received.

To The Director of Public
Instruction,
Madras.

Sir,

The short course for Secondary Grade trained graduates sanctioned in G.O. No. Ms. 2254 Edn. dated 12-7-49 was started on 20-7-49 and the present strength of the class is 21. I would have had more if publicity had been given to the scheme sufficiently early. Though I expected all the 18 students who were in the regular B.T. class to join the short course only 8 students actually joined. The rest having already started on the B.T. course desired to continue there. Though there were 22 secondary Grade trained graduates in the Meston Training College, no one cared to change over to the short course. One student from the Lady Willingdon Training College has joined. But from the enquiries received, I find quite a large number will take advantage of this course. After some time I shall be able to give the Director an idea of the number of candidates who may join the course if the second one is started. I find it necessary to give the candidates who ask for information a correct idea of the nature of the course and of the scope and value of the Collegiate Trained Teachers' Certificate. I, therefore, request permission to draft a notification giving details of the course and the scope and value of the certificate and have it published in the Fort St. George Gazette and to have 200 spare copies to supply to those who ask for particulars. I may also be permitted to prepare and print application forms, as the one which is used for the B.Ts., are not suitable.

The present course has to exceed 3 months on account of two reasons --first on account of the Dasara holidays which commence on 22nd September and end on the 4th October 1949. Secondly I wish to give these teachers also a course of instruction in Citizenship training along with the B.T. students. This will take away a week. I, therefore, recommend that the course which commenced on the 20th of July may be completed on the 31st October 1949, exceeding the 3 months limit by 12 days.

I also recommend that if sufficient number of applications are forthcoming a second course may commence during the third term which will be more convenient than commencing it in November. The second course may begin during the 3rd week of January and end by the middle of April. I shall submit my specific recommendations after I have ascertained the number of candidates likely to join the course.

I recommend that an examination be conducted by the end of the course both written one and a practical one and certificates awarded to successful candidates. The written examination may be conducted by a Board of Examiners appointed by the Commissioner for Government Examinations. I have given details of the scheme separately. Slight modifications in the wording of both in the Collegiate Teachers' Certificate and in the College Certificate are necessary and I am submitting recommendations separately.

I am enclosing draft rules of the scheme and they may be approved. I am enclosing a copy of the time table followed.

Yours faithfully,

PRINCIPAL.
