OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION
Madras 21--6--1949

From

The Director of Public Instruction,
M A D R A S

To

The Secretary to Government,
Education and Public Health Department
Fort. St. George Madras.

Sir,

Sub :- Buildings--Office of the Director of Public
Instruction Nungambakkam--Sinking of a bore
well in the compound--expenditure sanction
Requesting.

48623

The Commissioner Corporation of the Madras has objected to the using of corporation water for garden purposes. Further the requirements of water for lavatories, gardening and cleaning purposes, are far in excess of what can be got from the Corporations. This office compound is a vast one of about 20 acres and several other offices are also located here. Due to absence of adequate water supply the members of the staff of the offices are put to great inconvenience and hardship throughout the day and especially so in the Summer. There is also no hope of any increase in the corporation supply in the near future. In the circumstances, the best solution of the water scarcity problem is to have a bore-well in the compound. As this compound is close by the river, the water table could not be very low and therefore the cost of sinking a borewell is not likely to be much.

2. The Assistant Engineer P.W.D. who was consulted in the matter, informs me that the exploratory work of finding out the proper place for boring a well in the compound may cost about Rs.300/- and that this expenditure has to be met by the Department. As this is not a usual item of contingent expenditure I request that Government may kindly accord their sanction for incurring the same from this Departmental budget. The expenditure may be debited to "37- 0. Education- General Direction- Other contingencies--Office expenses"

3. I request the favour of very early orders in the matter.

Yours faithfully
