OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION
Madras dated 23--6--1949

From

The Director of Public Instruction,
M A D R A S

To

The Secretary to Government,
Education and Public Health Department,
Fort. St. George, Madras.

Sir,

Sub :- Schools--Secondary introduction of bifurcated
courses--calculation of teaching grant--clari-
fication requested.

Ref :- G. O. Ms. No. 1395 Edn. dated 29--5--1948.

In para 4 of the G.O. cited, it has been laid
down that teaching grants should be made as a special case calculat-
ed at three fourths of the net cost of running the courses during
the preceding financial year subject to a maximum of Rs.1450/-
per annum to each school for the introduction of bifurcated courses.
In respect of those secondary schools under local bodies and
private managements which introduced the bifurcated courses during
the last year (1948-49) with reference to G. O. No. Ms. 1504 Edn
dated 7--6--1948 the teaching grant is to be paid during this year
1949--50

For determining the amount of teaching grant
due to each secondary school for the introduction of bifurcated
courses, the net cost on running the course during the preceding
financial year (i.e. 1--4--48 to 31--3--1949) has to be determined
and three fourths of this net cost is to be sanctioned as teaching
grant subject to a maximum of Rs.1450/-. But the exact significance
of the terms net cost needs to be clarified. The terms net cost
of the year 1948--49 (fee and other incomes) should be deducted from
the expenditure incurred for that year on running the course and
the net cost arrived at.

But so far as 'income' is concerned it does not
seem desirable that the fees collected from the pupils who have
taken the bifurcated courses should be separated from the general

fee income of the school and shown as income under the bifurcated courses of studies as these pupils have to attend the major part of the periods prescribed for the general subjects common to all pupils. No special fees are to be levied from the pupils who have taken the bifurcated courses.

I therefore request to be informed whether for the purposes of arriving at the net cost, the following items of expenditure alone may be taken into account as being admissible items and the grant calculated.

1) The salary paid to the staff with reference to G. O. No. 1580 Edn. dated 17--6--48.

2) All recurring items under contingencies such as feeding of cattle, purchase of ropes, seeds etc., connected with the bifurcated courses.

Any income derived by the management i.e. sale proceeds of articles produced or prepared or manufactured by the pupils of the bifurcated courses will however be deducted from the total expenditure under 1) and 2) above and 3/4ths of this net amount will be sanctioned as teaching grant subject of course, to a maximum of Rs.1450/-

I request the favour of early orders.

Yours faithfully

M. K. R.

In para. 4 of G.O. 1395 Exp H of 29.5.48, p. 1, (2)
it is laid down that the maximum grant of
Rs. 1450 per annum will be for each school. But
in the draft order overleaf, it is stated that
the maximum will be for each subject. Exp. H.
may be requested to elucidate the position, as
the modification seems to have been made with
a definite purpose and basis.

Please see the note of the Finance
Department above. Generally a secondary school is
permitted to introduce only one bifurcated course. But
in G.O. no. 1504 Etn dated 7.6.48, the Government
have permitted the St. John's High School, Buntar,
to introduce (in 1948-9) two courses, namely, Science
(Civil and Domestic Science). The management
of the school would necessarily have to employ

Staff for each of the two courses as laid down in G.O.
1580 Etn dated 17.6.1948. It is therefore necessary
to allow the teaching grant for each of the courses subject
to the maximum of Rs. 1,450 for each school
in para. 4 of G.O. no. 1395 Etn of 29.5.48
