....

In continuation of my letter Rc.No.1039 L2/48 dated 20-7-48 I have the honour to request that the Government may be pleased to permit me to incur an expenditure not exceeding Rs.500/- on the purchase of equipment required for imparting craft instruction in Forms I and IV during the current school year in respect of each of the Government secondary schools in the Presidency.

2. I also request that Government may be pleased to permit managements of aided secondary schools and also schools under local bodies to incur an expenditure not exceeding Rs.500/- on the purchase of craft equipment during the current year and admit one half of the expenditure for grant. As many of the managements may not be having sufficient funds immediately to meet the expenditure the payment of an advance grant not exceeding Rs.250/- may be permitted as was done in the case of equipment needed for the bifurcated courses. I am issuing detailed instructions regarding the equipment to be purchased to all the inspecting officers. The provisions of Chapter IX of the Grant-in-aid Code, especially Rule 59 of the Code will be followed before the final payment is made.

② G.O.No.1629 Edn 24-6-48

3. In this connection I may mention that many of the institutions, both Government, Aided and Local Board do not have the necessary accommodation for housing the craft training class and for storing the equipment. I, therefore, request that Government may be pleased, as a special case, to permit me to incur in the current year an expenditure not exceeding Rs. ~~500/-~~ 5000/- on the construction of sheds with tiled roof or asbestos or corrugated sheets for the above purpose in such of the Government schools as have no proper accommodation for conducting the craft training classes. Similarly aided managements and Local Boards may also be permitted to incur an expenditure not exceeding Rs.5000/- during

A

the current year for the above purpose, the half grant on this payable in the current year itself.

4. The financial effect of the scheme for the current financial year will be as follows:

a)	Expenditure on provision of craft equipment for Government schools....................	Rs. 33,500	67 Schools
b).	Expenditurex on grant for the purchase of craft equipment in aided schools...........	Rs. 92,750	371 Schools
c)	Do. in schools under Local Boards.	Rs. 1,33,250	533 Schools
		259,500	971

5. I am not in a position to give any estimate of the probable expenditure on building as the requirements of the schools are not known at present.

6. As the schools are required to introduce craft training in forms I and IV from the current school year itself, I request early orders of Government in the matter.

Sir,

Sub:Schools - Secondary - Introduction of Crafts in Forms I to III from the School year 1948-49 - Sanction of advance equipment grants to Secondary Schools - Requested.

iii) Govt.Memo No.55998-B1/48-5 Education dated 28-2-49

Ⓐ/9-10cy

Government were requested in my letter R C.No.1039-L2/48 dated 28-7-1948 to sanction an expenditure of Rs.500/- to Government Secondary Schools and an advance grant of Rs.250/- for non-Government Secondary Schools for the purchase of minimum equipment for instruction in basic crafts in Forms I to III in Secondary Schools and their orders are still awaited.

pp7-8 ante

As no expenditure could be incurred during the year 1948-49 in the absence of definite orders of Government, they were informed that no provision was necessary for 48-49. The Government have accepted the proposal in Memo No.55998-B1/48-5 Education dated 28-2-49. The question of providing funds required in the current year has to be considered now.

Ⓐ/9-10cy

From the list of grants under various heads in the Budget Estimate for 1949-50 it is observed that partial provision has been made by Government only under 37(f) Education - Secondary (Boys and Girls) and 37(h) Education - Secondary ie., Government Schools and Local Board Schools respectively for the purchase of equipment for craft instruction. Government have deferred the provision of funds for equipment grant to aided schools, pending sanction of the proposal contained in my letter R.C.No.1039-L2/48 dated 28-7-1948 regarding sanctioning of advance grant. If the above proposal is accepted, the following additional provision will be required to meet the proposed expenditure.

There is a provision of Rs.95,000/- in the Budget Estimate for 1949-50. A sum of Rs.(x) 1,64,750/- is required over and above the provision made by Government in the Budget Estimate for 1949-50 as the provision in 48-49 could not be utilised and this has so provided for again in the current year. I therefore request the favour of early orders in this matter.

Sir,

Sub:-- Schools - Secondary - Introduction of crafts in Forms I to III - Purchase of equipment - Payment of advance grant.

Ref:-- Government Memo. No. 55998-B1/48-7 Edn., dated 27-5-1949.

With reference to the Government Memo. cited above, I have the honour to state as follows.

As regards employment of staff in Secondary schools where crafts training have to be introduced with reference to G.O. No. 1394 Edn., dated 29-5-1948, it has been decided that until such time as specially trained teachers are available, the services of existing Manual Training Instructors and teachers who hold Government Technical Examination certificates or other equivalent qualifications in the crafts, should be utilised for the above purpose. Hence it is not considered necessary at present to make any special provision for staff. Only in Secondary schools which do not provide at present for manual training and in which there are no manual training Instructo it may be necessary to employ fresh craft teachers. But such cases will be few, ~~during the year 1949-50~~ ~~As~~ As provision for teaching Manual Training exists in almost all Government Secondary schools for boys. In the case of Girls' Secondary schools also the existing teachers are handling the subjects viz. domestic science, needle work and dress making. Training classes in homecraft have been ~~opended~~ opened in Queen Mary's college and other centres for providing a special course of training for the teachers. It may not be necessary to employ special extra staff in 1950-51.

pp7-8 ante

As regards accommodation for these classes, Government were requested in ~~may~~ my letter RC No. 1039 L2/48 dated 28-7-1948 to permi me to incur an expenditure not exceeding Rs. 5000/- on the constructio of sheds for housing the craft classes in such of the Government schools as have no proper accommodation. Similarly aided managements and local boards may also be permitted to incur an expenditure on exceeding Rs. 5000/- for the above purpose and half grant borne by Government. The probable expenditure on buildings could not be furnished to Government in the letter cited above, as the requirements of the schools were not known then. Even now complete information is not available in this office. But the necessary provision will be ~~incluaded~~ included in the Budget Estimate for 1950-51.

SIR,

Schools--Secondary--Introduction of Crafts--Payment of advance equipment grant.

Reference:-G.O.Ms.No.2315-Education dated 16.7.1949.

With reference to the Government order cited above, I have the honour to state that since the amount of grants to be sanctioned does not exceed Rs.500/- the Divisional Inspectors of Schools are being authorised to sanction the equipment grant for crafts articles in the case of High Schools for boys with reference to the rules under Chapter IX of the Grant-in-aid Code. In the case of Secondary Schools for girls the powers of sanction rest with me. The equipment have to be purchased urgently if the managements of Secondary schools are to work out the scheme efficiently. But if all the applications from girls schools are to be received and scrutinised by me, it will take some time to sanction. I therefore request that as a special case the Inspectress of Girls' Schools may be authorised to receive, scrutinise and sanction the equipment grant for craft materials alone in the case of non-Government Girls' schools only.

With reference to the Government Orders cited above, I have the honour to state that the Divisional Inspectors of Schools and the Inspectresses of Girls' Schools have been authorised to sanction the equipment grant to non-Government Secondary schools for the purchase of craft materials. But the City of Madras has been excluded from the jurisdiction of the Divisional Inspector of Schools, Mathurai Division with reference to Government Memo.14036-A2/Education dated 30.3.1948. Consequently certain amendments were proposed in my letter R.C.No. 501-K3/48 dated 27.9.1948 and Government have not passed orders on the subject. In as much as the power of sanctioning Equipment grant to aided Elementary schools upto a maximum of Rs.500/- have been ~~xxxxxxxx~~ recommended to be delegated to the District Educational Officer, the payment of grant for the purchase of craft materials, may also be sanctioned by the District Educational Officer, Madras as the amount does not exceed Rs.500/-.

The bills relating to grants for the following three schools for the purchase of craft equipment were countersigned by the District Educational Officer on the dates noted against each:

P.S.High School,Mylapore	Rs. 250/-	24..3..1950
National High School for Boys, Triplicane.	Rs. 50/- Rs. 54/- } 104	25..3..1950
Sir M.C.T.High School, Purasawalkam.	Rs.250/- 604	25..3..1950

But the managements of the above schools were not able to draw the amounts even though they presented the bills at the Accountant-General's Office in time. Fresh sanction is necessary to enable them to draw the amount during the current year.

2 In this connection it is submitted that no provision towards payment of craft equipment has been ~~provided~~ made in this year's budget. Particulars are being collected from the subordinate officers as to the provision needed for the current year for this purpose and Government will be addressed shortly in the matter.

3. In the circumstances I request that sanction may kindly be accorded for the payment of the grants to the three schools under reference, as a special case, pending provision of funds in the Final Revised Estimate of the current year.

Schools - Secondary - Introduction of crafts EDN(M1)

Immediate

Secretary, E. & P.H.

We have allotted Rs.92,000 and odd for providing for crafts in secondary schools in pursuance of the reorganisation of the scheme of secondary education. I had a meeting of the Expert Committee who drew up the scheme, to discuss over certain details that advance amounts not exceeding the limits prescribed by the D.P.I. may be paid to schools so that they may purchase equipment as soon as possible. The success of our scheme depends upon the purchase of the equipment. I think we may allow the D.P.I. to make these advances just as we have allowed him with regard to the bifurcation schemes. He may be asked to fix the maximum amounts that may be necessary for him to grant to schools to purchase these craft equipments and orders issued to him empowering him to do so.

2. In para 7 of G.O.No.1394 Education, dated the 29th May 1948, the Government have ordered that the teaching of crafts should be introduced in all Secondary Schools as part of the scheme for the reorganisation of Secondary education. For this purpose, additional expenditure will have to be incurred (i) on the employment of additional staff for teaching crafts, if it cannot be done by the existing staff, ~~and~~ (ii) on the purchase of the equipment required for giving instruction to students, and (iii) on the provision of additional accommodation for conducting the craft classes. The Director has submitted proposals in respect of items (ii) and (iii) above. These are

pp7-8 cf

examined below:

EQUIPMENT: The expenditure on the purchase of equipment for the first year was previously estimated at Rs.100/- for each school. The Director now requests that sanction may be accorded for incurring an expenditure not exceeding Rs.500/- on the purchase of equipment required for imparting craft instruction in Forms I & IV in the current school year in each of the Secondary schools in this Province. It will be possible to introduce the teaching of crafts in Form IV only in those schools in which instruction has already been imparted in Forms I to III in the selected crafts. The additional expenditure to Government on account of meeting the full cost of the equipment to be purchased for Government Secondary schools and one half of the cost of the equipment to be purchased for secondary schools under local bodies and private managements is estimated at Rs.2.6 lakhs, and the expenditure will have to be incurred in the current year. As crafts cannot be taught without the equipment, sanction may be accorded for incurring an expenditure not exceeding Rs.500/- for each Govt. school on the purchase of equipment and grants may be paid to local bodies and private managements towards one half of the expenditure actually incurred on the purchase of equipment subject to a maximum of Rs.250/- for each school. An advance grant of Rs.200/- for each school may be sanctioned for the purpose instead of Rs.250/- recommended by the Director, as it is not advisable to pay the maximum grant admissible as advance grant.

BUILDINGS: The maximum expenditure on the construction of sheds with tiled roof or asbestos or corrugated sheets for conducting the craft training class is estimated at Rs.5000/- for each school. It is not clear whether this is based on any estimate furnished by the P.W.D. for construction of sheds of an approved pattern. There is also no information in regard to the number of schools in which additional accommodation will have to be provided for. The Director states that he is not in a position to give any estimate of the probable expenditure on building, as the requirements of the schools

p7 cf

form 5, p89

are not known at present. In the absence of that information, it would seem not possible to accord general permission to incur expenditure not exceeding Rs.5000/- on the provision of accommodation and to undertake to pay grants towards one half of that expenditure. In the case of those local bodies which are not in a position to meet their share of the cost, it may be necessary to grant loans to meet their share of the cost. In every case, the plans and estimates for the construction of sheds will have to be approved by the Director before the local body or private management concerned executes the work. The extent of additional accommodation to be provided for will also vary from school to school. The Director may therefore be asked to ascertain in how many schools additional accommodation will have to be provided for conducting craft training classes, what is the estimated cost of construction of sheds for the purpose and whether the local body or private management concerned is prepared to execute the work on condition that a half grant not exceeding Rs.2500/- will be made for the construction of the sheds. In respect of Government schools, the work will have to be executed by the P.W.D. The Director may also be asked to ascertain in which of the Government Secondary Schools additional accommodation will have to be provided and to call for plans and estimates for the construction of sheds in those schools. (Assuming that sheds are required in about half the no. of schools, the cost on account of construction of sheds in 50 Govt. schools + 450 non-Govt. schools will amount to Rs 13.75 lakhs) The introduction of the teaching of crafts in schools which have no proper accommodation for conducting the class will have to be deferred to 1949-50 or until such time as the required accommodation is provided for. In respect of such schools it is for consideration whether purchase of equipment should be made in advance or whether the purchase of equipment may also be made after additional accommodation is provided for.

that may be required in connection with the working of the scheme. The D.P.I has also pointed out that many of the schools do not have the necessary accommodation for housing the craft class and for storing the equipment. The Director's proposal ~~envisages~~ involves the introduction of the craft education piecemeal in the schools. As pointed out by E&PH Secy. it would be advisable to defer the scheme till next year in order to give time to make arrangements regarding staff, accommodation etc. in detail. Finance may suggest that orders may be taken in circulation whether the scheme may be deferred till next year and the D.P.I. asked to suggest necessary provision in the Budget estimates for 1949-50. If however it is decided that the scheme may be introduced now in those ~~in such of the~~ schools in which arrangements are ready, Finance need not object to sanction being accorded to purchase equipment at a cost not exceeding Rs. 500/- in respect of Govt. schools and to the payment of advance grant not exceeding Rs 200/- per school under local bodies or private managements. It is presumed that the increased sum of Rs 500/- against Rs 100/- originally provided for expr. on equipment in the scheme has been ~~considered absolutely necessary.~~ Particulars at 'A' & 'B' in p3 above may also be obtained as proposed by E&PH. If the scheme is to be introduced for the current year, it may be confined to schools where there is adequate teaching staff and sufficient accommodation. It seems doubtful whether even this can be done in the current year, as the schools have already commenced to work, and it may not be possible to introduce the scheme simultaneously in these schools for want of necessary equipment. Considering all aspects, it seems advisable to defer the introduction of the scheme throughout the province to 1949-50 as proposed by the E & P.H Secretary.

dated 29-5-1948, the cost of equipment was estimated at Rs.100 per school and the total cost (of equipment) both for Govt. secondary schools and aided (local bodies and private managements) was estimated at 90,100. The cost is now estimated at Rs.500 per school and the total cost is Rs. 2.60 lakhs. Besides, expenditure will have to be incurred on the construction of sheds to provide additional accommodation. The D.P.I. estimates the expenditure at Rs.5,000 @ per school. It is not known how many schools will require additional accommodation. If it is assumed that additional accommodation will be required for all the schools for which additional equipment has been proposed, the extra expenditure ~~XXXXXXXX~~ involved will be Rs 25.95 lakhs as shown below:--

Please see the minutes of HM (Edn) on page 1 ante & the notes. In G.O. No 1394 Edn of 29.5.48 (para 7) the Govt have directed that the teaching of crafts should be introduced in all Secondary schools and to start with it will have to be introduced in Forms I & IV. The DPI has now submitted proposals

for incurring expenditure on the purchase of equipment required for the teaching of crafts in all secondary schools. The expenditure on this is now estimated at Rs 500 for each school as against Rs 100 previously estimated and the total cost to Govt at the revised rate works out to Rs 2.60 lakhs. In order to enable local bodies and private managements to purchase equipment, it is considered necessary to make an advance grant of Rs 200 for each school and to incur an expenditure of Rs 500 on the purchase of equipment for each Govt Secondary school.

2. The DPI has not formulated proposals in regard to the additional staff to be employed and the addl buildings to be constructed in schools where there is no accommodation for conducting the craft teaching classes. As it may take some time for the purchase of equipment and for providing additional accommodation and to give the necessary training to teachers, this Dept considered it desirable to defer the introduction of the ~~scheme~~ teaching of crafts to the next year and to take all the steps necessary for that purpose in the current year namely the purchase of equipment for schools in which addl accommodation is available for conducting the classes and to sanction the construction of sheds after ascertaining the requirements in this regard and settling the amount of grants to be paid to local bodies & private managements for this purpose. Finance agree with this view.

3. The points for decision now are

(1) whether the introduction of the teaching of crafts in Secondary schools may be deferred to 1949-50 or whether it should be introduced in schools where there are adequate staff & accommodation in the current year and in the latter case whether sanction may be accorded for incurring expenditure on the purchase of equipment to those schools;

(2) whether the DPI may be asked to ascertain in how

many schools additional accommodation will have to be provided for and whether the local bodies and private managements concerned are prepared to provide the necessary addl accommodation on the basis of half grant. In respect of govt Secondary Schools he may be asked to obtain the necessary plans & estimates from P.W.D. officers In case the scheme is to be introduced in the current year in schools where there ~~are~~ adequate staff & accommodation, the Finance Dept have suggested that orders may be taken in cons. to H.M. The proposal is with regard to two matters. ~~One~~ (1) With regard to the equipment necessary for the recent reorganisation of secondary education, a sum of Rs.92,000 has been provided for it in the Budget. The D.P.I. thinks that about Rs.500/- per school may be regarded as the cost of craft equipment that may be necessary for a school and the grant that we may have to give upon that 500 is Rs.250. He may be given the permission to pay an advance grant of Rs.200 to each school so that they may be enabled to purchase the equipment as soon as possible. The Finance have no objection to that procedure. He may be allowed to do so within the amount provided for in the Budget.

As the number of schools that will ask for advance ~~increment must~~ may not be very many, I think, it will be sufficient for this year to provide only the funds that have already been provided and so no extra cost is involved and that may be done.

2) With regard to building grants, the Director may be asked to get applications from schools for sheds to accommodate the crafts and then submit them in the natural course as for building grants. I think it will be difficult for us to give

---

separate grants for building grants as apart from grants for buildings for crafts. The grants asked for putting up buildings may be treated as building grant applications and he may submit them in the natural course and we can provide them as far as we can under the 10 lakhs allotment that we have already made. If more is necessary, it can come as a separate proposal for the consideration. H.M.(Fin.) and H.Pr. may see.

GOVERNMENT OF MADRAS

With reference to the minutes of H.Pr. above Portion marked B it is submitted that no information is available as to the number of schools in which the teaching of crafts has already been introduced with reference to G.O. No. 1394 Edn. d/ 29.5.1948. Before sanction is accorded for the employment of the additional staff required for the teaching of crafts in the secondary schools and advance grants are made towards the purchase of the initial equipment, it is doubtful whether the managements of schools would have introduced the teaching of the approved crafts, viz. Handloom weaving, wood work, gardening and Agriculture in boys schools and Home craft in girls schools. It is possible that in schools where manual training classes had already been conducted, arrangements have been made or being made for the teaching of crafts.

By 'contingent expenditure' it is presumably meant expenditure on the purchase of yarn, wood, seeds and other articles required for the teaching of crafts. This will have to be met by the school authorities from the allotment made for contingencies and the expenditure will be treated as approved expenditure for purposes of grant. The amount realised by sale of articles, vegetables etc. will have to be credited under Miscellaneous receipts and it may not be possible to maintain separate accounts for this purpose; it will however be entered in the financial statement of the institution concerned.

2/ It is presumed that portion marked B. relates to junior basic schools established under the Basic Edn Scheme and not to the middle schools in which the teaching of crafts is to be introduced under the reorganised scheme of Secondary Education, as it is not possible now to estimate with any accuracy the production and the income that could be derived by the sale of products in middle schools or middle school departments

The memo need not issue. The D.P.I. will not be able to get this information for one year. The point is this. We have decided upon introducing crafts as a continuation of basic education in the Secondary Reorganization Scheme. We have provided Rs.92,000/- for such crafts. The schools want these craft materials to be purchased. In a large majority of schools, these crafts do not exist. In some schools, something like manual instruction existed, but there is no regular craft work given for schools. That is being introduced only in the future. The proposal is that out of the allotment already provided for in the budget, advance grants not exceeding Rs.250/- per school may be given for purposes of purchasing equipment. Only after the distribution is made, the D.P.I. will be in a position to say how many schools have introduced these crafts. And so, the present draft memo is unnecessary just now, and we may agree with Finance and allow this advance grant to be made. On the distribution of advance grants, the D.P.I. may be asked to furnish the information called for. ~~The~~ A regular form asking for the information may be printed by the D.P.I.'s office and distributed to the schools to send a report on those lines, asks for H.Pr.

The proposal in this file is to grant an advance grant of Rs 200 for each secondary school towards the purchase of the equipment required for the teaching of crafts under the scheme for the reorganisation of secondary education. The matter was not discussed with the ex-Premier by the ~~late~~ previous H.M. (Edn) as proposed. Vide the minutes on page 14 ante.

2. Before the secondary schools reopen after the summer vacation it is necessary to come to a final decision whether the teaching of crafts under the scheme for the reorganisation of secondary education should be proceeded with or deferred until more junior basic schools are established and the pupils in those schools reach the middle school stage so that it may be a case of the provision of facilities for those who had had craft teaching at the earlier stage. The ex-Premier was of the view that this is the right course to be adopted. As it is mainly a question of policy, the file may be circulated to H.M.(Edn) so that he may discuss the matter with the D.P.I. and come to a final decision.

GOVERNMENT OF MADRAS

Finance (Exp.A) Deptt.

(Previous Finance note on pp.4-6 above).

In G.O.No.1394 Edn. d/29-5-48, the Government ordered that the teaching of crafts should be introduced in all Secondary schools as part of the scheme for the reorganisation of secondary education. In order to give effect to this decision, the D.P.I. submitted in July 48 proposals for incurring expenditure out of the sum of ~~Rs.92,000~~ Rs 92,000/- provided for in the Budget for 1948-49, at the rate of Rs.500 for a Govt. school and an advance of Rs.200 for each non-Govt. school against the admissible half-grant of Rs.250. The proposal also involved employment of additional teaching staff and construction of sheds for accommodating the craft classes. On a rough basis, the extra cost was estimated at Rs.14.10 lakhs.* E & P.H. considered that it would be better to defer the scheme till 1949-50 in order to give time to the managements to make arrangements regarding staff, accommodation, etc. This department agreed with E & P.H. and suggested that the case might be circulated to H.M.Finance and H.Pr. for orders on this point.

and the then Hon'ble Premier. The then H.M. Education minuted that the D.P.I. may be permitted to ~~view~~ incur expenditure on the purchase of equipment at Rs.500 per Govt.Secondary School and that an advance grant of Rs.200 may be given to each non-Govt. Secondary School, against the admissible half grant of Rs.250, in view of the provision of Rs.92,000 made in the Budget for 1948-49. As regards grants for sheds it was ~~proposed~~ minuted that they may be treated as ordinary building grants. H.M.Finance agreed with H.M.Edn. But the then H.Pr. did not agree to the proposal. He was of the view that the introduction of crafts in secondary schools for pupils who have not received education in the basic schools ~~is~~ was a waste and that the scheme should be deferred till the children who study in the Basic Schools are admitted into Secondary Schools.

The D.P.I. has stated that there is already a provision of Rs.95,000/- in the budget for 1949-50 for the purchase of equipments and that an additional provision of Rs.1,64,750/- required should be made for the purpose. A | It is not clear whether the teaching staff and ~~different~~ sufficient accommodation are available. The present H.M.(Edn.) discussed the matter with the D.P.I. and has minuted that the additional ~~appropriation~~ grant required should be sanctioned.

X | E & P.H. have sent the file to this department now for remarks regarding the procedure to be followed for providing this additional sum of Rs.1,64,750/- in the current year. The amount may be met by reappropriation, as proposed by E & P.H., from the savings of Rs.1,01,200 resumed and held in reserve under grant XV-Education, as a result of anticipated short expenditure on the raising of the junior Division of ~~the~~ the National Cadet Corps.

40266

But the point is whether the introduction of the scheme should not be deferred, as minuted by the Previous H.Pr.

K | E & P.H. may be requested to circulate the case to H.M.(Fin.) and to the Hon'ble the Premier for orders on this point before informing the D.P.I. regarding provision of additional funds. He may also be consulted regarding A above before circulating the case.

I am inclined to agree with Finance for the reason already stated in my note at p. 15 that until the results of basic education are known, neither the scholars nor proper experience will be available. How the D.P.I. has been able to persuade the late H.M. to increase the allotment is not on record.
