Memo No. 54018-B1/48-2 Edn Dt 11/8/48

The attention of the DPI is invited to the cutting from the "Hindu" dated 18.7.48 (copy enclosed) wherein it has been suggested that it would be very useful for the secondary schools if the finalised syllabuses for the various subjects under the reorganised course of secondary education are published in cheaply priced booklet form with copious explanations on reference books & teaching materials - The booklet may also contain the various instructions issued by the Govt & the Director on the subject. The Director is requested to offer his remarks on this suggestion. He is requested to report in consultation with the Supdt Govt Press the probable cost of publishing the proposed Guide book and the number of copies that

4

will have to be printed for the use of all schools. The price of the guide book may be so fixed as to cover the ~~cost~~ actual cost of publication so that the Govt may not be put to any extra expenditure on this account. The Director is requested to send his reply as soon as possible as it is necessary that the Guide book should be made available to all Secy Schools at a very early date

The publications of a booklet is under preparation by the Special Officer. The first part of the brochure consists of an explanation of the aim and contents of the reorganised secondary school courses. The second part will consist of the G.Os. The third part will consist of the finalised syllabuses and the fourth part of copies of the Director's Proceedings giving instructions for the guidance of the teachers in the various subjects including lists of reference books, equipment, practical activities, etc. The Superintendent, Government Press is to be addressed on the cost.

2. The first part is ready; for the second part, the G.Os have been collected. For the third part, however, the Secondary Education Board has not yet finalised the syllabuses. I suggest the printing of the syllabuses may be taken up only when they are finalised so that the guide book will be of permanent value. The fourth part requires only editing.

3. The University of Madras has called for 275 sets of syllabuses with copies of the Reorganisation Scheme and the G.Os. The brochure when printed will also be useful for that purpose as it is impracticable to prepare these copies separately.

Yours faithfully,

for Director of Public Instruction.

The booklet referred to in the Government Memo. cited priced at three annas per copy by the Superintendent, Government Press is different from the one which Government wanted to publish as a Guide Book in their Memo.54018-B1/48-2, Edn., dated 11-8-1948. pp 3-4 ante This Guide Book was mentioned as "brochure" in my letter to Government Rc.2370-E1/48 dated 24-9-48 page 7 ante which was divided into four main parts viz. (1) an introduction explaining reorganisation, (2) syllabuses, (3) G.Os and (4) instructions of the Director of Public Instruction. A specimen of the full materials for printing the brochure was sent to the Superintendent, Government Press on 29-10-48 and he was requested to fix the price assuming that 5,000 copies of the same might be required. So far no reply has been received and to my latest enquiry he has informed me that the previous references sent by me are not traceable in his office. The "brochure" runs to a large number of pages and therefore the price would certainly be higher than annas three.

The price of annas three for each booklet mentioned in my letter Rc.3148-E1/48 dated 7-2-49 p 15 ante refers to the Guide Book to be published on each subject for use by the teachers. This, I submit, is entirely different from the booklet referred to in Government Memo.54018-B1/48-2, Edn., dated 11-8-1948. pp 2-3 ante To avoid further confusion the latter may hereafter be called as "brochure" and the other "Guide Book for teachers".

Coming to the issue, I submit that the Superintendent, Government Press, has informed me that it would not be possible for him to undertake any fresh work owing to pressure of work. He also made me understand that it would probably take at least four months for him to attend to new work. As the publication of the "brochure" should be expedited, I submit that Government may be pleased to permit the printing of the "brochure" by private printers after calling for tenders and getting them approved by the Superintendent, Government Press. The Superintendent, Government Press will also fix a reasonable price in consultation with me. It is necessary to see that the "brochure" comes out for use by the public as quickly as possible.

It is also proposed to print the Brochure consisting of the introduction, the Government orders and the Proceedings regarding the re-organisation of Secondary Education. The syllabuses have already been printed separately. As a school will not require all the syllabuses, but only those for the subjects and languages chosen by it, it would be uneconomical to print all the syllabuses in one volume, and hence they are not included in the Brochure. GOVERNMENT OF MADRAS

PUBLIC (INFORMATION AND PUBLICITY) DEPARTMENT

Extract from The Hindu
of Madras, dated the 19th July '48

THE REORGANISED SCHEME OF EDUCATION

Sir,—While there are many thoughtful teachers who rejoice at the revolution that has been brought about in our education, they feel at the same time that they will be failing in their duty if they do not enter their protest against the way in which the reorganised scheme is sought to be introduced in the secondary schools. Neither the public nor the teaching profession had any idea of the impending changes that were in contemplation when the schools closed for the summer vacation. Even to-day when the schools have all re-opened, most of the teachers, why! even the Headmasters are groping in the dark without a clear knowledge of the nature and extent of the changes that have been effected. Departmental circulars come one after another urging immediate overhaul of the school system and the courses of study, but the Headmasters are in feverish search for the draft syllabuses which they have been asked to follow pending the receipt of the finalised syllabuses. The Government have facilely assumed that the draft syllabuses are in the hands of every teacher! But the fact of the matter is that not even the heads of institutions were supplied with copies of the draft syllabuses. Many teachers including myself brought this to the notice of the Government, but in vain. If these syllabuses had been printed in a special form and sent to all the schools in time, teachers would have utilised the summer vacation in acquainting themselves with their spirit and contents and in preparing themselves for the new teaching.

A

The Government would be doing a very useful thing if they publish the finalised syllabuses in cheaply priced booklet form with copious explanatory notes on reference books and teaching materials. The guide book promised to be published should be sent to all schools without waiting for orders to be placed with the publisher. The retraining of teachers to handle the new subjects that have been introduced does not seem to be going rapidly enough to enable every school to have one or two enthusiasts of the new education within this school year. Since the equipment needs for the bifurcated courses can be easily standardised for all schools, a certain amount of advance grant should be made towards their purchase and the schools should not be made to wait until the routine annual sanction of the other grants. It is of utmost importance that books based on the new syllabuses should not be allowed to be produced in haste on mere commercial considerations. They should conform in their get-up and content to the new spirit and outlook on which the Education Minister has been laying so much emphasis. Above all the Government should do away with the inequality in the salaries of teachers belonging to different managements as it militates against the sense of justice and destroys the powerful motive force behind their work.

this information.

3. The ~~intention is~~ suggestion on page 1 was to make the guide book a cheaply ~~printed~~ priced publication. There seems to be no case for supplying such a publication free of cost to all secondary schools as proposed by E&PH. ~~The schools can as well be asked to purchase the guide books instead of the Government undertaking to supply them free of cost to these institutions.~~ The price of the guide book may be so fixed as to cover the actual cost of publication, so that the Government may not be put to any extra expenditure on this account. If E.& P.H. ~~propose~~ wish to press their proposal to supply the guide books free of cost to all Secondary schools, they may be requested to take orders in circulation including H.M.(Fin.) after obtaining the information referred to at 'A' on page 2 above.

Please see the Director's letter on p19 cf. The Director states that the booklet containing 30 printed pages for which the price was fixed at 3 as per copy is different from the publication referred to in Memo no 54018 B1/48-2 Edn d 11.8.48 and that this 'brochure' runs to a large number of pages and that its price will be more than annas three. As the Superintendent Govt Press has reported that it will not be possible to undertake the printing of this for atleast four months, the Director requests that permission may be accorded for the

8

printing of the brochure by private printers after calling for tenders and getting them approved by the S.G.P. As the Director states that it is necessary to have the "brochure" reprinted for use by the public as quickly as possible, permission to have it printed at private presses may be accorded. The S.G.P may be asked to fix a reasonable price in consultation with the DPI.
