Grants - Teaching - Local Bodies - Secondary Schools - Recommendations of the Retrenchment and Reorganisation Committee - Orders passed.

Order No. 2669 Education, dated 23-8-49
Ms.

With effect from 1-1-'47, teaching grants are being paid to all Secondary schools under Local bodies on the basis of one half of the approved net cost of maintenance of the schools in the preceding financial year subject to the proviso that in the case of those Secondary Schools for which fixed subsidies were being paid previously the teaching grants paid under the revised system should not be less than the subsidies to which they were entitled. An exception^{to} this general principle ~~has been~~ ^{has been} made in the following cases:-^{NK} In respect of bifurcated courses of studies newly introduced in selected secondary schools from 1948, the Government ~~have undertaken~~ ^{have undertaken} to pay teaching grants on the basis of three-fourths of the net cost of ~~running~~ the courses during the preceding financial year subject to a maximum of Rs.1450 for each ~~school~~ ^{course} for a period of five years from the introduction of the courses. Similarly in respect of middle and High Schools for boys newly opened in taluks in which there is not even a middle or high school and in respect of middle Schools for girls newly opened in centres not served by such Schools, the Government ~~have undertaken~~ ^{have undertaken} to pay teaching grants on the basis of the full net cost of maintenance of each ~~school~~ ^{school} subject to a maximum of Rs.3,300/- per annum for a middle School and Rs.4,000 per annum for a high school for a period of five years from the opening of the school and to review the position at the end of that period, as without this encouragement local bodies ~~may~~ ^{might} not come forward to introduce the new courses in the existing schools or to open new schools in backward taluks and centres.

2. In 1948, the Retrenchment and Reorganisation Committee made the following recommendation:-

The Committee considers that there is no need for meeting the full cost of the Schools opened recently. The same system as obtains with reference to schools established earlier may be followed. *If increase in the pay of teachers will be common to both & no differentiation seems called for*

According to the Committee's recommendation, teaching grant to secondary Schools under local bodies should not exceed half the net cost in all cases. They have carefully considered the recommendation and have come to the conclusion that without the system of extra aid it ~~will~~ ^{would} not be possible to implement expeditiously the policy of Government in regard to the introduction of bifurcated ^{courses} and that ~~at least one~~ ^{at} least one high school for boys in each taluk not served by such school and at least one middle school for girls in towns with a population of over 10,000 which is not served even by a middle school. ^{would be retarded.} They have therefore decided that

(1) the system of payment of teaching grants on the basis of three-fourths of the net cost subject to a maximum limit for a period of five years and subject to revision at the end of that period ~~should~~ ^{should} be continued in respect of bifurcated courses to be introduced hereafter in Secondary Schools under local bodies and that grants on this basis should be continued to the schools in which the courses have already been introduced;

(2) the system of special aid given to Secondary Schools for boys and girls newly opened in taluks not served by any middle or high school for boys and in centres not served by any girls' schools may be continued and that the question of allowing the concession to the institutions that may be newly opened in future should be considered separately. *They have also decided that teaching grants may continue to be paid towards the full net cost of maintenance of the Muslim High School at Bellary.*

3. The D.P.I. is requested to report whether the concession of making teaching grants on the basis of the full net cost for secondary schools newly opened ~~opened~~ in taluks not served by any middle school or high school for boys and in centres not served by any girls' school may be withdrawn and if not whether it may be restricted to three-fourths of the net cost for a period of three years from the opening of the school for institutions that may be newly opened in future.
