In connection with Part II of the Budget Estimate for 1949-50 I have the honour to submit for favourable consideration of Government the proposal for the opening of a Government Middle School for girls with Forms I to III at Nandyal by taking over the management of the Municipal Higher Elementary School for Girls, Nandyal.

The proposal for the opening of a Government Middle School for girls at Nandyal by taking over the management of the Municipal Higher Elementary Girls' School, Nandyal was submitted to Government in connection with the Part II Schemes for 1948-49 (Vide my letter R.C.No.1518-K3/47 dated 11.9.1947) but Government did not sanction the proposal. The Inspectress has renewed the proposal for consideration in connection with Part II schemes for 1949-50 as the public and the Municipality are keen on having a girls secondary school in the locality. The proposal is not new except that it is now proposed to open Forms I to III instead of Classes I to V and Forms I to III as was recommended last year. The expected strength of Forms I to III based on the strength of standards VI to VIII in the Municipal Higher Elementary

Sir,

Sub: Schools - Government Secondary and Training School for women, Ellore and Calicut - Opening of Form V - R Proposals - Submitted.

Ref: Govt. Memorandum No.47864-B.1/48-1 Edn dated 9th July 1948.

In connection with the Part II of the Budget Estimate for 1949-50, I have the honour to submit for favourable consideration and sanction of Government, the proposal for the opening of Form V in 1949-50 and Form VI in 1950-51 in each of the Government Secondary and Training School for women, Ellore and Calicut.

Government in their Memorandum cited above have stated that the opening of form V in the Government Secondary and Training School for women at Ellore and Calicut and in the Government Secondary Schools for girls, Palani should be considered for 1949-50 and unless there was a strength of at least 25 pupils in form IV in the Government Secondary and Training School for women, Ellore and the Government Secondary Schools for girls, Palni in the current year it would not be possible to open form V in the schools in the next year. In the case of the Government Secondary and Training School for women, Calicut it was stated that the promise given to the Hon'ble Minister for Education by the public to put up a shed should be fulfilled. The strength of the three schools in the current school year is furnished below:

Class or Form	Govt. Secy and Trg. School for women.		Govt. Secy School for girls
	Ellore	Calicut	Palni.
Class I	-	41	-
Class II	-	44	-
Class III	12	45	-
Class IV	22	45	-
Class V	45	46	-
Form I	66	77	50
Form II	41	66	35
Form III	36	42	25
Form IV	30	38	12

Government Secondary and Training School for women, Ellore: The strength of the first four forms is economic and is justification for the opening of higher forms in the school. The existing accommodation will be adequate.

Government Secondary and Training School for women, Calicut: Every class and form has economic strength. It is stated that additional accommodation has been provided in the school. The Inspectress of Girls Schools was also requested to inform the public to fulfil their promise made to the Hon'ble Minister for Education in regard to the puting up of a shed. The Inspectress reports that the accommodation is thoroughly [illegible] three girls' schools in the town so

of the Boys High Schools and that a separate girls section is being run in one of the Boys High School. From the statistics relating to 1947-48 it is found that the following number of girls were reading in higher forms in the two schools mentioned below:

	Form VI	V	~~IV~~
Zamorins College High School	18	14	20
Ganapat High School	38	23	40

There is therefore need for another High School in the locality and as accommodation is avilable in the Government Secondary and Training School for women, Calicut and as the strength of form IV is 38, the opening of higher forms in the school is necessary. The report re: the promise of the Public of calicut to put up a shed ~~xxxxx~~will be submitted on receipt.

Government Secondary School for girls, Palni: The accommodation provided for in the school is inadequate and the Municipal Council has promised to provide a building for the school - Vide Govt. Endt No.35056-B.1/48 ~~dxxx~~ Edn dated 17-5-48. The Inspectress has been requested to ascertain the exact proposal of the Municipal Council and her report is still awaited. Further the strength of form IV in the school is only 12 which does not satisfy the stipulation made in the Government Memorandum No.47864-B.1/48-1 Edn dated 9th July 1948. Hence the question of opening of higher forms in the school during 1949-50 may be deferred.

In the circumstances I request that Government may be pleased to sanction the opening of form V in 1949-50 and forms VI in 1950-51 in each of the Government Secondary and Training School for women, Ellore and Calicut.

The financial effect of the proposal is detailed below.

SIR,

Sub:- SCHOOLS - Government Middle School for Girls' Periakulam, Madura Dt. - Opening of Form IV - Proposals - submitted.

=:£@£:=

In connection with the Part II of the Budget Estimate for 1949-1950, I have the honour to submit for consideration of Government the proposal for the development of the Govt. Middle School for Girls', Periakulam, Madura District into a High School by opening Form IV in 1949-1950 and Forms V and VI in subsequent years.

The Government Middle School for Girls', Periakulam, was opened in June 1948 with Forms I to III as per the sanction accorded in Government Order No,910 Education, dated 16th April 1948. The present Form War Strength of the School is as follows:-

Form I	...	39.
Form II	...	34.
Form III	...	41.

The Inspectress reports that the school has made a good beginning and that the opening of Form IV in the +School in 1949-1950 is necessary. The strength in Form I to III is satisfactory and presents ample scope for the development of the school into a High School. The School is at present held in a rented building and the Inspectress reports that another suitable building adjacent to the school available for rent will be secured to provide additional accommodation.

In the circumstances I request that Government may be pleased to sanction the opening of Form IV in 1949-1950 and Forms V and VI in the subsequent years in the Government Middle School For Girls', Periakulam.

Sub: Schools - Secondary - Government - Opening of a middle school for girls, Gobichettipalayam by taking over the management of the Board Higher Elementary School for girls, Gobichettipalayam.

Ref: My letter Rc.No.1380-K3/47 dated 17-8-1948.

In continuation of my letter cited above, I have the honour to state that the Special Officer, Coimbatore Dt., Board has since reported that the Board's Resolutions No.s104 dated 15-4-48 (copy enclosed) and 505 dated 23-7-48(copy furnished enclosed) with my letter cited above) agreeing to transfer to Government the management of the Board Girls School, Gobichettipalayam with the equipment and building for the opening of a Government Middle School for girls, will hold good for 1949-50 also. Though Government have decided to open a middle school for girls in the locality in the current school year itself - Vide Govt. Post copy of Telephonic message dated 2-4-48 the school could not be opened for want of a suitable building. Since the Dt. Board has now agreed to transfer the building of the Board Higher Elementary School for girls, Gobichettipalayam, I recommend that Government may kindly sanction the opening during the school year 1949-50 of a middle school for girls at Gobichettipalayam by taking over the management of the Board Higher Elementary School in the locality. There is no time to examine the suitability of the building for the middle school or the question where the lower classes of the Board Elementary School will be located if the present building is given over to Government; but this will be done in due course. In the menatime the sanction may be renewed for next year.

I solicit attention to my letter C.No.1380-K3/47 dated 4-9-47 furnishing details in regard to the cost involved in the proposal, and as there is no change in the cost already furnished the same may kindly be adopted viz. 4000/- for 1949-50 and Rs. 5,800/- ultimately.

I am including the necessary provision in Part II of my Budget Estimate for 1949-50.

Sir,

Sub: SCHOOLS - Government Middle School for girls, Tirupati - Opening of higher forms - Proposal - Submitted.

-:@:-

In connection with the Part II of the Budget Estimate for 1949-50, I have the honour to submit for favourable consideration of Government the proposal for the opening of higher forms in the Government Middle School for Girls, Tirupati.

The need for opening higher forms in the Government Middle School for girls, Tirupati has already been explained in my letter Rc.No.1018-K3/47 dated 12-9-47 submitting the proposal for the consideration of Government in connection with Part II schemes for 1948-49. The present strength of the school is as follows:

pp 20-21 of (A)

Class V	45
Form I	43
Form II	50
Form III	20

The Inspectress expects a strength of about 35 to 40 girls in Form IV including the number that will be promoted to from Form III of the school. There is reason for this expectation to materialise since it is reported that some of the girls who have already passed the III form in the school and are now staying at home and some from the local boys school will join the school if Form IV is opened. The nearest girls high schools to the place are at Chittoor and Madanapallee at a distance of 42 and 85 miles respectively, and it is necessary that the school should be developed into a complete High School by opening form Iv in 1949-50 and forms V and VI in subsequent years.

Classes I to IV in the school have been abolished from the current school year and class V will be closed in 1949-50. The Inspectress reports that the accommodation released by the closure of the lower classes will be adequate for the higher forms proposed to be opened. However I consider that the opening of Form IV will necessitate the construction of an additional block for accommodating forms V & VI, for which Estimates will be submitted separately if Government are pleased to approve the present proposal.

In the circumstances I request that Government may be pleased to sanction the opening of Form IV in 1949-50 and Forms V & VI in the subsequent years in the Government Middle School for Girls, Tirupati.

REF: Government Memorandum No.47864-B1/48-1 Education dated 9-7-1948.

In continuation of my letter R.C.No.1366 K3/47 dated 21-9-1948 I have the honour to state that the Headmaster, Government Secondary and Training School for women, Calicut has reported that the public have not taken any steps so far for procuring funds to put up additional accommodation in the school as promised by them to the Hon'ble Minister for Education. The Headmistress has however, requested Dr. A. Chandu M.L.A. the leader of the Memroailists to take early steps fulfilling their promise.

In this connection it is submitted that sanction has been given for the construction of a shed with two rooms in the school during the current school year that the school will have sufficient accommodation for holding Forms V and VI when this shed is provided. Hence even if the accommodation promised by the public is not forthcoming there will be no difficulty in finding accommodation for Forms V and VI.

SIR,

Sub; Schools - Government - Opening of a Middle School for Girls at Gobichettipalayam by taking over the management of the Board Higher Elementary School for Girls, Gobichettipalayam proposal - deferring - Recommended.

REF: My letter R.C.No.1380-K3/47 dated 24th September 1948.

IN continuation of my letter cited above, I have the honour to state that the Inspectress of Girls' Schools, who has visited the Board Higher Elementary Girls' School, Gobichettipalayam has reported that the floor space available in the building of the Higher Elementary School would be just sufficient for a middle school with 35 pupils in each of forms I to III but would be inadequate for its future needs. The building itself is reported to be in a bad condition and that a large amount has to be spent on repairs and improvements - before a middle school could be held in it. The Inspectress has further reported that a dependable private agency viz. the Diamond Jubilee School Committee is willing to open a middle School in the locality and that the school will have a decidedly better future under this agency, as it has adequate funds and Endowments for the purpose. I am examining this proposal separately. Since a private agency has come forward to open a middle school for girls in the locality, I reqommend that the proposal for the opening of a Government Middle School for Girls at Gobichettipalayam submitted with my letter cited above, may be deferred.

The policy of Government is to encourage the education of girls by providing secondary schools at Government cost, although they rely mainly on private agencies and local bodies for the expansion of the facilities for the secondary education. To start with, middle schools are opened and they are later converted into high schools by adding high ~~school~~ forms.

2. In 1946, the Government opened three new middle schools and one high school. In 1947-48 no new middle schools were opened on account of the financial stringency; but in three schools the opening of Form IV was sanctioned. During the current school year, the Government sanctioned the opening of six new middle schools and an additional section in Form IV in the Government High School for Girls, Madura.

3. The Director of Public Instruction has now submitted proposals for the provision of additional facilities for secondary education of girls in 1949-50 as detailed below:

(i) Opening of two new middle schools for girls with Form I to III at Gobichettipalayam (Coimbatore District) and Nandyal (Kurnool District); and

(ii) Opening of higher forms (Form V in 1949-50 and Form VI in 1950-51) in the following schools:

(1) Government Secondary and Training School for Women, Ellore.
(2) Do Calicut.
(3) Government Middle School for Girls, Periakulam.

5. OPENING OF NEW MIDDLE SCHOOLS:-

GOBICHETTIPALAYAM: ~~The opening of a~~ This proposed to open a middle school with Forms I to III in this place ~~involves the~~ by taking over of the management of the Board Higher Elementary School at the place. The Dt.Bd., Coimbatore, has agreed to the transfer of the management of the school to Government with the equipment and building. The middle school is proposed to be ~~opened~~ accommodated in the building of the Higher Ely. School ~~and~~ The D.P.I. promises to submit a report to Government later on the suitablity of the building and also on the point where the lower classes (I to V) of the Higher Ely. School will be located.

~~The opening of this~~ Steps proposed to open a middle school ~~is not one as it was~~ is this however in the current year but as the question of transfer of the building of the higher Elementary school to ~~govt~~ was not decided ~~in~~ before the commencement of the ~~sanctioned during the current school year but was not opened for~~ school year, the proposal did not materialise. ~~work of a new building.~~ The Director's proposal to open a school from next year may be approved

NANDYAL: ~~In this case also,~~ the opening of the middle school

with Forms I to III involves the taking over of the Municipal Higher Elementary School, Nandyal, ~~with its present building~~ and Converted to standards VI to VIII into ~~its~~ Forms I to III. The municipality will run a lower elementary school. ~~and equipment~~. The Ml.Cl. has already agreed to transfer the school with ~~building and~~ the necessary equipment to Government. The building belongs to Govt. The existing two ~~of the school~~ is 39, 33 and 28 respectively ~~including those who are studying in the local boys' high school~~ and it is expected that it will improve further after the school is opened. The nearest high school for girls is at Kurnool, 63 miles away and there are no adequate facilities for girls' education at the place. The proposal may therefore be accepted.

OPENING OF HIGHER FORMS:

GOVERNMENT SECONDARY AND TRAINING SCHOOL FOR WOMEN, ELLORE:

The school is already having Form IV and it is proposed to open Forms V and VI in 1949-50 and 1950-51 respectively. The strength in Forms I to IV is economic and there is justification for the opening of higher forms. It is reported that the existing accommodation in the school will be adequate for the opening of the higher forms.

GOVERNMENT SECONDARY AND TRAINING SCHOOL FOR WOMEN,

CALICUT: Each of the Forms I to IV in the school has an economic strength. Even though there are three other high schools for girls at Calicut, on account of the inadequate accommodation in the Schools, a large number of girls are studying in the high schools for boys and a separate section is being run in one of the boys' schools. There is therefore need for another high school at the place and accommodation in the existing buildings of the school is reported to be adequate to locate the higher forms.

GOVERNMENT MIDDLE SCHOOL FOR GIRLS, PERIAKULAM: This school was opened in June last and the strength in Forms I to III is satisfactory and presents ample scope for the development of the school into a high school. This item for proposed to open higher forms & provide accommodation. ~~The higher forms are proposed to be located~~ in a rented building adjoining the school.

GOVERNMENT MIDDLE SCHOOL FOR GIRLS, TIRUPATI: The strength

that if Form IV is opened, some of the girls who have passed the III Form and studying privately will join it. The nearest high schools are at Chittoor and Madanapalle - 42 and 65 miles away respectively. The opening of higher forms in the school is therefore necessary.

Classes I to IV of the school have been abolished in the current school year and Class V will be abolished in 1949-50. It is reported by the Inspectress of Girls' Schools concerned that the accommodation released on account of the closure of these classes will be enough for the location of the higher forms. But the Director considers that it will be necessary to construct an additional block. The higher forms may be accommodated in the portion of the existing building of the school that will be released on account of the closure of the lower classes, pending the construction of an additional block.

7. The criteria laid down for Part II Schemes is as follows:

(a) Schemes included in the Five Year Programme of the Post-War Development Scheme or Schemes that can be treated as modifications of such schemes.
(b) Grow More Food Schemes.
(c) Schemes that are full remunerative.
(d) Schemes that are imperatively essential for the proper running of department.

The Post-War Education Sub-Committee has recommended that there should be an increase in the number of secondary schools for girls and that if other agencies are not able to open new schools, the Government should do so, although the proposal has not been included in the Five Year Plan. Secondary Education among girls is in a very backward state and requires a pull up. The opening of certain new middle schools and adding higher forms in existing schools may be considered as absolutely essential.

8. The Government have been opening, on an average, during the past five years, five new secondary schools for girls and adding higher forms in two schools. ~~During the current school year, the Government have opened six new middle schools and an additional section in Form IV in the Government High School for~~ (as detailed in para 2 above)

In the circumstances explained above, the entire

middle schools and adding of higher forms in four existing schools may be supported and may be put forward as a Part II scheme for 1949-50.

9. The remarks of Finance may be invited U.O. prior to circulation.

Part II Scheme for 1949-50.

The proposals in the file relate to

i) opening of two new middle schools for girls with Forms I to III - one at Gobichettipalayam (Coimbatore District) and another at Nandyal (Kurnool District) and

ii) opening of Form V in 1949-50 and Form VI in 1950-51 in the Government Secondary and Training Schools for women at Ellore and Calicut; and

iii) opening of Form IV in 1949-50 and Forms V & VI in the subsequent years in the Government Middle School for girls at Periakulam and Tirupati.

The financial implication of the proposals will be as follows:

Proposals (i) above: Opening of new schools: In 1947-48 no new middle schools were opened in view of the finan-

have sanctioned the opening of 6 new middle schools and an additional section in Form IV in the Government High School for girls Madura. The proposal cannot be considered to be so imperatively urgent and important that it should be introduced in 1949-50. The proposal does not satisfy any of the criteria laid down in G.O.765, Finance, dated 6-8-48 treating it as a Part II schemes. In the circumstances, Finance may advise that the proposal be deferred.

Proposals (ii) Opening of Higher Forms: The question of converting the two schools into full Secondary schools was considered last year. H.M.(Fin) then remarked that the proposal may be deferred. Attention is however invited to the remarks of H.M(Edn) at 'M' on p.2 n.f. of Flag (C). The strength in the two schools is reported to be economic. In the circumstances this department may agree to the proposal being considered as a Part II scheme for 1949-50.

Proposal (iii) above. Opening of additional Forms. It is proposed to open higher forms in the Government Middle School for girls, Periakulam, and Tirupati. The present strength in the first three forms in the schools is as shown below:

	Periakulam.	Tirupati.
I Form	39	43
II Form	34	50
III Form	41	20

The middle school at Periakulam was opened only during the current year. It would therefore seem advisable to watch the working of the school for two or three years to see whether it is working economically or not, before it is converted into a High School.

The strength in Form III in the school at Tirupati is not uneconomic, being lower than 25. The proposals to open higher forms in these two schools may therefore be

this may agree to open the new forms in this school as Part II scheme.

The notes from pages 1-6 ante may be perused. The proposals in this file are ~~the following~~ 22

(1) Opening of a middle school for girls with forms I to III at Srirachettipalayam and Nandyal,

(2) Opening of form V in 1949-50 and form VI in 1950-51 in the Government Lower Elementary and Training School (for women) at Ellore & Calicut, &

(3) Opening of form IV in 1949-50 and forms V & VI in the two succeeding years in the Government Middle School for Girls at Periakulam and Tirupati.

The extra cost involved in the above proposals ~~are as~~ is shown below..

2. The Finance Department have agreed to the opening of higher forms in the Govt Secy Schools at Ellore, Calicut & Periakulam (item 2 & part of item (3) above), being considered as a Part II Scheme for 1949-50.

~~Part II Scheme for 1949-50~~. In regard to the opening of new middle schools at Srirachettipalayam and Nandyal. They consider that it is not imperatively urgent and that therefore it may be deferred. The proposal to open the school at Srirachettipalayam is not a new one; it was proposed to be opened in the current school year itself; but it did not materialise, as the question of transferring the building of the Board's Higher Elementary School to the Government was not decided in time. The Dt. Bd. has now agreed to transfer the building for locating the proposed middle school.

As regards the opening of the middle school at ~~Gangole~~ Nandyal, the Mr. Ch., ~~Gangole~~ Nandyal has agreed to transfer the building of the Higher Ely School with the equipment to Government for the purpose. 3. The existing strength in forms I to III of the Govt Middle School for Girls, Tirupati, is 43, 50 & 20 respectively. As the strength in form III is not economic, the Finance Department advise that the opening of higher forms in the school may be deferred. It is submitted that the Retrenchment and Reorganisation Committee has fixed a minimum of strength of 20 pupils per class or form to consider it as economic and the strength in form III of the school (namely 20) cannot therefore be considered as uneconomic. It is expected by the Inspectress that, if higher forms are opened in the school, some of the girls who have passed III form and studying privately will join form IV and the strength will consequently improve. Further there are no high schools ~~in the neighbourhood of the place~~ and the nearest high schools are at Chittoor and Madanapalle - 42 and 85 miles away respectively.

EXPLANATORY NOTE.

The policy of Government is to encourage the education of girls by providing schools for them at Government cost, although they rely mainly on local bodies and private agencies for the expansion of facilities for secondary education of boys. To start with, middle schools are opened and they are later on converted into high schools by adding higher forms. In 1946, the Government opened three new middle schools and one high school. In 1947-48, no new middle schools were opened on account of financial stringency; but in three schools, the opening of Form IV was sanctioned. During the current year, the Government sanctioned the opening of six new middle schools and of an additional section in Form IV in one high school.

2. For 1949-50, the Director of Public Instruction has submitted the following proposals:-

(i) Opening of a new middle school with Forms I to III at Gobichettipalayam and Nandyal,

(ii) Opening of Form V in 1949-50 and Forms VI in 1950-51 in the Government Secondary and Training School for Women, Ellore and Calicut, and

(iii) Opening of Form IV in 1949-50 and Forms V and VI in the two succeeding years in the Government Middle School for Girls, Periakulam and Tirupati.

The Honourable the Minister for Finance has observed that the proposals in items (i) and (iii) specified above may be deferred; but the Honourable the Minister for Education on recirculation has expressed the view that ~~a~~ the entire proposals may go forward as a Part II Scheme for 1949-50. The ~~extra~~ cost involved in the two proposals is as follows:-

Proposals of H.M.Fin.	11,300	-	1,200	3,000

3. Local bodies and private managements do not come forward to open secondary schools for girls even to the extent they do in the case of boys. The Government have therefore to open new schools for girls directly under their own management. The proposals of the Director are very modest and essential. This Department recommends that ~~necessary provision~~ the entire proposals may be considered as a Part II Scheme for 1949-50 and that necessary provision as shown in the summary at the top may be made in the budget.

The Honourable the Minister for Finance has observed that the proposals in items (i) and (iii) above may be deferred; but the Honourable the Minister for Education on recirculation has expressed the view that the entire proposals may go forward as a Part II Scheme for 1949-50. The cost involved in the two proposals is as follows:-

	Ultimate.		Cost in 1949-50.	
	Recurring.	Non-recurring.	Recurring.	Non-recurring.
	Rs.	Rs.	Rs.	Rs.
Proposals of the Director of Public Instruction.	46,000	-	15,900	7,800
Proposals of the Hon'ble the Minister for Finance.	11,300	-	1,200	3,000

3. Local bodies and private managements do not come forward to open secondary schools for girls even to the extent they do in the case of boys. The Government have therefore to open new schools for girls directly under their own management. The proposals of the Director are very modest and essential. This Department recommends that the entire proposals may be considered as a Part II Scheme for 1949-50 and that necessary provision as shown in the summary at the top may be made in the budget.

M.V. Subramanian,
Secretary to Government.

School, Nandyal is

Form I .. 10; Form II .. 10; and Form III .. 8;

There are 72 girls studying in Form I to III in the local Boys school distributed as shown below:

Form I .. 29; Form II .. 23; and Form III.. 20.

The Inspectress reports that the parents are not in favour of co-education and they donot send their girls in large numbers to Boys schools. She expects that the strength of the forms I to III will improve a great deal after the opening of the school when girls from the Higher Elementary schools and the local boys High Schools will seek admission.

The building in which the Municipal Higher Elementary School for girls is held is a Government Building and the Municipality it is reported, is willing to transfer the management of the school with the building. The Municipality will be required to run a separate lower elementary school with standards I to V to provide for the pupils in Standards I to V, of the Municipal Higher Elementary School.

The nearest high school for girls is at Kurnool 63 miles away and there are no adequate facilities for girls education in the locality.

In the circumstances I request that Government may be pleased to sanction the opening of a Government Middle school for girls at Nandyal by taking over the management of the Municipal Higher Elementary school for girls, Nandyal from the school year 1949-50.

The financial effect of the proposal is detailed below:
