Sub:--S.S.L.C. Reorganised Scheme--Gardening--Extension of--

Under the syllabus in General Science, Gardening forms part of one of the items and this should be taught to the pupils in earlier years. It is also a craft suggested under the reorganised scheme. The number of pupils in the High School who should be given training in Gardening is 450. For these pupils, 1300 Sq. yards of plot will be required at the rate of 4 Sq. yards each. In the existing garden attached to the Natural Science section which is used by the pupils 281 Sq. yards only are available for the pupils. It is therefore proposed to extend the garden to give more space for the use of the pupils of the Model High School.

Similarly the garden attached to the Kindergarten Section is also to be extended for the use of the children of classes 3,4 and 5 by 1122 Sq. yards--34 yds. by 33 yds.

I also propose to enclose the plot of ground opposite to the Principal's quarters and in the Hostel for the use of the students taking Basic Education as their optionals for the B.T. course and for the students of the Basic Secondary Training Section.

To enable me to have the proposal carried out, the plots have to be fenced first and then necessary tilling etc., have to be done. A sum of Rs.1200/- for fencing, for tilling, for the purchase of garden implements, manure and seeds, including labour charges will be required this year. I request that you will kindly sanction this amount (Rs.1,000/-) from the reserve or obtain the sanction of Government if necessary.

The annual recurring charges on account of garden work may be taken as Rs.500/- for manure, seeds etc.,
