Office of the
Director of Public Instruction
Madras, dated, 12th Sep. 1949.

From
The Director of Public Instruction
Madras.

10 SEP 1949

To
The Secretary to Government
Education and Public Health Department,
Fort St. George, Madras.

Sir,

Subject:- Government Arts College -- Coimbatore --
Repairs to gas ~~plant~~ plant -- Additional
allotment -- Sanction of.

In enclosing herewith a copy of the letter Ref. Ch. 3/49 dated 25-8-1949 from the Principal, Government Arts College, Coimbatore, I have the honour to state that necessary funds are not available in the current year's allotment to meet the expenditure of Rs.3,535/- on repairs to the gas plant in the College. However, in view of the urgency of the matter, I am permitting the Principal, in anticipation of Government approval, to carry out the repairs pending provision of funds. Necessary provision will be made for this purpose in the Final Revised Estimate for 1949-50. I request that my action may kindly be approved.

2. I also request that the Principal may be permitted to entrust the work to Messrs Mansfields Oil Gas Co., Calcutta in view of the circumstances explained by him in para 3 of his letter herewith enclosed.

Yours faithfully

For Director of Public Instruction

Copy to the Principal, Government Arts College, Coimbatore.

Copy of letter dated 20-8-1949 of the Principal, Government College, Coimbatore, to the Director of Public Instruction, Madras.

Re:- Pros. R.C.No.478 A2/48 dated 26-11-48.

The gas required for practical work in Physics and Chemistry was being produced by two producers installed in 1922. They were not repaired or renewed since then except for occasional painting, patch work, replacement of worn out parts etc. The fireclay fittings of both have crumbled completely. The Chimneys, the Chimney back and damper of both the producers and the outer casing of the smaller producer have completely given way. The overaged producers are therefore unfit for any more production of gas. The breakdown started sometime back and the gas was produced with makeshift arrangements. With the complete breakdown of the producers, the practical work in Physics and Chemistry have been temporarily suspended.

2. Quotations were invited from Messrs. Mansfield's Oil Gas Co., Calcutta, and Messrs. Vijayam & Co., Madras. The Calcutta firm quoted Rs.3,525/- (Rupees three thousand and five hundred and twenty five only) exclusive of taxes while the Madras firm gave a lump sum quotation for Rs.3,200/- (Rupees three thousand and two hundred and zero only).

3. The Assistant Lecturer in Chemistry, who is in charge of the gas plant, recommends the acceptance of the quotation of the Calcutta firm even though it is higher than the other by about Rs.325/- because of the good workmanship and reliability of the concern. He does not recommend the acceptance of the lower quotation just to avoid frequent renewals and repairs. The best will be the cheapest in the long term run.

4. I request that the expenditure as well as an additional allotment of Rs.3,525/- may kindly be sanctioned at an early date, under Laboratory charges to enable me to carry out the work immediately.

(SD.).....
Principal.
