Sri M.V.Ramaswami Mudaliar, assistant, Municipal High School who is also Scout Master has put in a petition requesting to sanction a sum of Rs.100/- per year towards the cost of two sets of complete scout uniforms with other articles of equipment required for scout work. This petition was placed before the council at its meeting held on 20-8-49. The council in its resolution No. 323 dated 20-8-49 has sanctioned the payment of a sum of Rs.100/- per year to him for two sets of scout dress and other equipments. The headmaster, Municipal High School has recommended for the supply of the dress to the teacher as otherwise he is afraid that the scout activities in the Municipal High School may deteriorate. In view of the keen interest the teacher is taking in the Scout activities of the school he may be provided with two sets of scout dress and other equipments at a cost of Rs.100/- per year. I request that the Government may be pleased to accord sanction for the same.

Sir,

I have been the Scout master of the School Scout troop since 20 years and all these years I have been giving good training in scouting to the pupils out of school hours. This year also there are about 60 Scouts in the school scout troop.

All these years I have been spending from my pocket for my uniform and equipment besides my camp and excursion expenses. I was not given any financial help by the management. Though my enthusiasm for Scouting continues, I am unable to bear the above expense myself in these hard days. As such I request you to kindly cause the sanction of Rs 100/- per year for two sets of complete uniform with other articles of equipment needed for a Scout master and also pay my actual expenses whenever I take the Scouts out on camps and excursions.

I submit that with all enthusiasm I could ^{not} continue my work as scoutmaster in the school without the assistance requested by me.

M.H.School,
Gudiyattam,

Yours obediently,
M.V. Ramaswamy
GROUP SCOUTMASTER.

The first of the series of
experiments was conducted on 4-1-72
at the University of California
at San Diego. The purpose of
this experiment was to determine
the effect of the concentration
of the solution on the rate of
reaction. The results of the
experiment are shown in the
table below.

Concentration of Solution	Rate of Reaction
0.1 M	0.01
0.2 M	0.02
0.3 M	0.03
0.4 M	0.04
0.5 M	0.05

The results of the experiment
show that the rate of reaction
increases with the concentration
of the solution. This is in
agreement with the theory that
the rate of reaction is proportional
to the concentration of the
reactants.
