Re No. 1844 G2/48

Office of the Director of
Public Instruction, Madras
dated 23rd September 1949

From The Director of Public Instruction
Madras.

To The Secretary to Government,
Education & Public Health Department

Sir,
Subject: Subsidy - Buildings - Local bodies - Dt. Board,
Ramnad - Board High School Rajapalayam -
construction of a compound wall - subsidy for
1950--51

p2info

I submit herewith a copy of the letter Roc No. E.11 15956/47
dated 2-8-48 of the Special Officer, Dt. Board Ramnad on the subejct.

The plan and the estimate for Rs 7,550/- relating to the scheme
were approved in Director's proceedings Rc No1844 G2/48 dated 1-9-49
It is not clear whether provincial subsidy is admissible for
construction of compound walls to school buildings. However the
scheme is being included in the Part proposals for 1950--51 for
consideration of Government.

Yours faithfully,

Thiruvananthapuram

for Director of Public Instruction

Copy of letter No. E.11. 15956/47 dated 2-8-48 from the Special Officer, Dt. Board, Ramnad at Madura to the Director of Public Instruction, Madras.

Sub: Building - S.S. Board High School, Rajapalayam,
Construction of a compound wall, Septic tank
latrine and urinal

The Municipal Health Officer, Rajapalayam, has brought to my notice that the latrines and urinals are in a bad condition in the S.S. Board High School, Rajapalayam, and that arrangements should be made immediately to provide with a septic tank latrine of 6 seats and an urinal of 10 seats since the school is having a strength of nearly 1000. As the latrines are close to the residential quarters, he has also remarked that it is not only a source of nuisance but dangerous to public health and that the same nuisance can be averted by the construction of compound wall. The Divisional Engineer, Highways, Ramnad has furnished approximate cost noted below for the construction of the above items of work.

(i) Construction of a compound wall at south eastern corner latrine in S.S. Board High School, Rajapalayam	Rs 9,000
ii Construction of septic tank latrine 6 seats	6,000
iii Construction of two urinals	3,000
iv Construction of additional shed.	6,800

As the above works have to be taken immediately in the circumstances stated above, I request you to recommend to Government for sanction of half grant for the works mentioned above.

In this connection I have to state that the school building at Rajapalayam was constructed with half grant from Government.

clarification, verbal and signed a for instance at En. P. N. (R.)

75465/142 Subsidies - Ball bridge - Dr. B. R. Ramesh Babu - Board
High School - Rajapalayam - Construction of
Compound wall - Refused, only at 100

From the D.P.D. No. 1844 - G-2/48 of 23.9.49

Order
No.

3194 Edn. D/18.10.49

The S.O. Dr. B. R. Ramesh Babu is informed
that no subsidy will be sanctioned towards the
cost of construction of a compound wall
to the Board High School Rajapalayam
at an estimated cost of Rs 7,550, as the
Dr. B. R. Ramesh Babu can afford to meet the entire cost
from its own funds. His attention is in
this connection invited to the last sentence
of para 2 of go. no 2670 En. D 23.8.49

(B)

Education and Public Health Dept
B 1 section.

Subsidies - Buildings - Dt Bd Ramnad - Board High school Rajapalayam - Construction of compound wall and other works - Application for 1950-51

From the D.P.I. R.C.No 1844 G2/48 dated 23-9-49

The S.O. Dt Bd Ramnad has applied for subsidies ~~towards~~ in 1950-51 towards one half of the cost of construction of the following works in the Board High school, Rajapalayam:-

	Est. Cost	Subsidy
	Rs	admissible

Rajapalayam:-	Est. Cost Rs	Subsidy admissible Rs
(1) Construction of compound wall	7,550	3,775
(2) Construction of septic tank latrine	6,000	3,000
(3) Construction of two Urinals	3,000	1,500
(4) Construction of additional shed	6,800	3,400
	Total	<u>11,675</u>

The plans and estimate for item (1) has been approved by the D.P.I. He recommends that this may be considered as a Part II scheme for 1950-51. He has ~~not~~ recommended the remaining three works presumably because the plans and estimates for those works have not yet been prepared and got approved by the Director

2. The necessity for the construction of a compound wall is explained in the S.O.'s letter on page 2. C.F. As this is considered essential by the Health Officer this may be admitted for aid. The high school is one intended for boys and no subsidy can be sanctioned unless a case is made out that a subsidy is essential.

3. The remarks of the L.A. Department may be invited u.o. whether the financial position of the Ramnad Dt Bd will not permit the incurring of the entire cost of construction of the compound walls from its general funds and whether a subsidy towards onehalf of the cost is essential. They may be requested to treat this as very urgent.
