Extract of the notes recorded after discussion with the Director, National Cadet Corps, on 29-12-1948.

During the discussions in the room of H.M.(Education), the Director suggested that it might be sufficient if Junior Cadet Corps Units had instead of armoury buildings, a safe where the arms could be kept with a strong lock and kept in a secure place in the building (the adequacy of the arrangements to be approved by the Police). The D.P.I. will ~~be~~ in consultation with ~~the~~ Major Joshi decide on a suitable kind of safe.

P.T.O.

Copy of para 2 of Government Memo No. 86281-B1/48-7 Egn.
dated the 21st January 1949 to the D.P.I

2. During the discussion which took place on the 29th December, the Director, National Cadet Corps, suggested that it might be sufficient if the Junior Cadet Corps Units had instead of armoury buildings, a safe where the arms could be kept with a strong lock and kept in a secure place in the building and that the adequacy of the arrangements should be approved by the Police. The D.P.I. is requested to report whether he has consulted Major Joshi, the Officer Commanding the 1st Madras Battalion, NCC, in regard to the ~~suitability~~ suitable kind of safe to be ordered for the purpose and if so, what will be the cost of purchasing such a safe for each troop. He is requested to treat the matter as urgent, as necessary arrangements should be made for the safe custody of arms and equipment of the units before the units are raised.

Copy of para 3 of letter Roc.No. 1208-E4/48 dated 24-2-1949 from the DPI.

Regarding the point raised in paragraph 2 of the memo quoted above, I may state as follows:- I addressed Messrs. Godrej and Boyce Manufacturing Co., Ltd, and Ajax Products Ltd, requesting them to let me know whether they would be in a position to manufacture the steel boxes of the type design specified for storing rifles etc. intended for Units of NCC and also called for quotations from them. They inspected the specimen in the armoury. Messrs. Godrej and Boyce Co, have since replied stating that

PTO

3

(M)

they are unable to undertake the manufacture of the ~~my~~ steel boxes. A reply from Ajax Co, Ltd is, due and they have been reminded. I have also requested the Principal, College of Engineering, Guindy, to report whether strong wooden boxes of the type used in Military Department could not be used for storing rifles etc, and if so, to state whether they can be manufactured in the college workshop. An estimate of cost in this respect had also been called for. I shall submit a further report in this regard in due course.

Subject:- National Cadet Corps -- Junior Division --
Wooden boxes for storing rifles intended
for units of Junior Division of National
Cadet Corps - report regarding the -
submitting.

bb 2-3 ante
(copy)

With reference to the concluding portion of my letter
R.O.C.No.1208 E4/48 dated 24--2--1949, I submit herewith a
sketch of the model rifle box for holding 30 rifles prepared
by Lt. Col. Paul, Principal, College of Engineering, Guindy.
The Principal reports that to ensure the safety of the contents
in the box, iron bands will be put up and the box will be made
specially heavy. These boxes could be manufactured in the
College Workshop and the approximate cost of manufacturing a
box is reported to be Rs.100/-.

placed
below

Separate file

2 Thirty five Units and 2 Sub-Units of National Cadet
Corps Junior Division have been allotted to 46 schools in the
Province. Each school may be supplied with a box to store the
rifles (both dummy and service) of the Units allotted to it.
So about 46 boxes will have to be manufactured and the cost
therefore will come to Rs.4,600/-. Schools to which only a Sub-
Unit or two have been allotted may not need such a big box at
present. It, however, appears to be advisable to have a box for
each school so that in the event of some more units being allotted
in future, the box can be readily used for storing any increased
quantity of arms supplied to it.

3 I request the favour of Government orders on the proposal
and necessary sanction for the manufacture of the boxes.

4 The Principal reports that the boxes can be manufactured
in the College workshop during the summer vacation.

5 The sketch may be returned to me after perusal.

6 These boxes can be kept in the school itself. If the
school is considered unsafe the boxes can be kept in the Police
Armoury in each place. The Inspector General of Police has to
be consulted in this matter.

1 The question of extending the armouries in each place
to provide increased accommodation for the expanding units has
to be taken up for consideration even now.

Yours faithfully

K. S. Narayana

For Director of Public Instruction

National Cadet Corps - Junior

22017 Division - Storing of arms in wooden boxes.

From the Director of Public Instruction, Rec. no. 1208-E+148 dated 11.3.1949.

Memo. no 22017-B1/49-1E+PH D 21/3/49.

During the discussion which took place with the Director, National Cadet Corps on 29.12.1948, it was suggested that it might be sufficient, if the units of the Junior Division of the National Cadet Corps had, instead of armoury buildings, a safe where the arms could be kept with a strong lock and kept in a secure place and that this arrangement should be approved by the Police from the security point.

P.T.O.

6

of view. The D.P.S. who was consulted in the matter, has reported that a model wooden box as per the sketch enclosed may be manufactured ^{capable of holding 30 rifles} ~~for the purpose~~ and that to ensure the safety of the contents, iron bands may be put up and the box may be specially made heavy. The Inspector - General of Police is requested to report whether the box will be adequate from the security point of view and ~~whether~~ ^{if} it may be kept in the police armories in ~~the~~ ^{secure} places where it has been reported that accommodation is available for keeping the arms of the

units of the Junior Division and in other places in a strong room in the schools in which the units are raised. As the arms to be supplied to the units of the Junior Division will be small ^{when} compared with the arms to be supplied to units of the Senior Division, the expenditure on the construction of an armory & a separate police guard for each unit of the Junior Division can be avoided if the arrangement proposed is acceptable from a security point of view. If necessary the schools in which the units of the Junior Division are ~~proposed to be~~ raised may be required to employ a Gurkha watchman to guard

page

To
The Secretary to the
Government of Madras,
Education & Public Health
Department.

Re No. 293-9/s A/cg Dated 10th June 1949.

Sir,
11 JUN 1949
Sub: National Cadet Corps - Junior Division Storing of arms in wooden boxes -
Ref: Memorandum No. 22017-B1/49-1, Education, dated 21-3-1949.

I agree that separate armouries need not be constructed for the arms of the units of the Junior Division of the National Cadet Corps, and that they may be kept in a secure place in safes which have strong locks. I, however, consider that, in view of the influence that communists have over certain sections of students in some places, it will be unsafe to keep such safes in schools.

2. According to Police Standing Order 713, cash chests of Post Offices may be embedded in the floor of Treasury Guard rooms or police stations provided they are securely sealed. I suggest that a similar procedure may be adopted to safeguard the arms of the Junior Division of the National Cadet Corps. In all places, except Karaikudi and Madras City, where the units of the Junior Division have to be raised, there is a Sub-Jail or Treasury Guard. Arrangements can therefore be made in all those places to keep the arms in specially made boxes embedded in the floor of the guard room. If embedding in the floor is not feasible, the box may be kept locked and sealed in the premises of the Treasury or Sub-Jail Guard Room and chained to a pillar or post. The responsibility of the police will be restricted to seeing that the locks and seals on the safe are in tact. In the Madras City and at Karaikudi in the Ramnad District, where there is no Sub-Jail or Treasury Guard the arms box may be kept embedded in the floor of the nearest police station.

3. If these arrangements are made there will be no necessity to keep the arms of the Junior Division in the Police armoury at any place. It is reported that there is room for keeping the arms of the Junior Division in police armouries only at Vizagapatam, Rajahmundry, Masulipatam, Cuddalore, Coimbatore and Chittoor. Arrangements have already been made to strengthen the armament of the taluk police in this Province and when these fructify, there will be no room for the arms of the Junior Division of the National Cadet Corps in police armouries even at the places mentioned above. I, therefore, request that permanent arrangements may be made as suggested in paragraph 2 above for the safe custody of the arms of the Junior Division of the National Cadet Corps in all places where units are to be raised.

4. The embedding or chaining of the boxes may be done by the Public Works Department in consultation with the District Superintendent of Police concerned.

5. The sketch of the wooden box received with the memorandum is returned herewith. *Placed below*

of arms in wooden boxes instead of in armories

Extract on page 10

of 2002 I am directed to state that during the discussions that took place in December last at Port St George, it was considered that instead of constructing armories for the safe custody of the arms to be supplied to the units of the Junior Division ^{it would be sufficient to supply} proposed to be raised in this Province, ^{in this Province, safe in which the arms could be} kept with a strong lock ~~could be supplied~~ ^{provided the} Police approve the arrangement. ~~As the manufacturing~~ ^{from a security point of view} concerns are not in a position to undertake the supply of steel boxes of the type required for the purpose, the D.P.D. has proposed that wooden boxes as per

11-23d

10

Sketch enclosed, can be made in the workshop of the College of Engineering, Guindy, at a cost of Rs 100 each and to ensure safety of the contents, the boxes can be made specially heavy & fitted with iron bands. The D. G. of Police who was consulted in the matter has agreed to the proposal; Copy of his letter RC-293-9/S.A/49¹⁰⁻⁶⁻⁴⁹ is enclosed - I am directed to enquire whether you agree to the above arrangement. As the units of the Junior Division will have to be raised shortly and it is necessary to supply boxes for keeping the arms before the arms are despatched, I am to request ~~that~~ you to ~~reply~~ reply at an early date. The sketch of the box may also be returned with your reply.

yours faithfully

page 84

The Additional Chief Engineer, P.W.D., is
informed that the Government have decided to raise 21
units and 2 sub-units of the Junior Division of the
National Cadet Corps in the high schools noted in the
location statement enclosed. In order to avoid the
expenditure on the construction of armouries for the
storage of the arms and ammunition that will be supplied
to those units by the Ordnance authorities, it is proposed
to keep them in the specially made boxes as per the sketch
enclosed, to be manufactured in the College of Engineering
Guindy. To ensure the safety of the contents of the boxes,
the I.G. of Police has suggested that the procedure now
in vogue, under which the cash chests of post offices are
embedded in the floor of the Treasury Guard Rooms or Police
stations may be adopted, as there are necessary facilities

LETTER No. 5363 wks/49-1, dated 24th August 1949.

Sir,

Sub: National Cadet Corps - Junior Division - Raising of units in 1949-50 - Storage of arms and ammunition in wooden boxes - Govt. Memo. No. 22017-B1/49-4, Edn. dated 30-7-1949.

I have the following remarks to offer, on the proposal referred to in the Government Memo. cited above:

1.1. As for the iron braces at each corner of the box, it is desirable to increase the number to 3 instead of 2 as now provided. One brace may be just above the bottom of the box, one may be just below the top of the box and the third about the middle height of the box. Each leg of the corner brace may be 6" long instead of 4" proposed in the sketch. All the corner braces including the two straps going round the bottom sides may be of M.S. Straps 1½" wide.

1.2. As for the safe custody of these boxes, embedding them in the floor is not desirable. The alternative suggested in the Govt. Memo., to chain them to pillars or posts is preferable. But, no provision has been indicated in the design of the box for attaching the chain. A 3" ring of 1/2" dr. rod may be fixed to the side of the

p.t.o.

(Buildings).

A copy of the letter from the CE. P. 133 cited above is communicated to the D.D. and he is requested to furnish a revised estimate of cost for the manufacture of ⁴⁶~~30~~ boxes carrying out the suggestions made by the CE. ~~The Director~~ ^{withing the cost} of iron chain and strong padlocks required to secure is informed, that ~~in view of the urgency to~~ supply the boxes to the schools in which the units of the Junior Division of the REC are

FOR DIRECTOR OF PUBLIC INSTRUCTION.

C.No.19/SK/49

College of Engineering, Guindy,
Madras - 15, dated 15th September, 1949.

From:

Lieut-Col. S. Paul. B.E.,
Principal, College of Engineering,
Saidapet P.O., Madras.

To:

The Director of Public
Instruction,
Madras.

Sir,

Ref:-- Proceedings of the Director of Public Instruction, Madras,
R.C.No.11/49-W4/49 dated 3-9-1949.

Sub:-- National Cadet Corps--Junior Division--Shortage of arms and
ammunition in wooden boxes.

With reference to the Proceedings of the Director of Public Instruction

read above I am enclosing herewith a revised estimate incorporating the sugges-
tion made by the Chief Engineer, Public Works Department, Madras. It will be
noticed that there is very little difference in the previous estimate and the
present one as the alterations are very small and do not, therefore, materially
change the cost of each rifle box. The Chief Engineer in his letter has sugges-
ted that instead of embedding them in the floor the boxes may be chained to
pillars or posts and suitable hinges provided in the side of boxes. It is not
known whether there are such suitable pillars to which the boxes can be securely
chained. In the guard rooms mentioned in the letter, a very simple alternative
suggestion is to bolt the boxes down to the floor, the bolts being specially
grout-like foundation bolts as shown in the sketch. If the boxes are secured
to the floor it will not be possible to remove the same. This seems to be a
better alternative than that suggested by the Chief Engineer and may, therefore,
be approved.

The College of Engineering workshop has from time to time undertaken ur-
gent work connected with the Education Department and other Government depart-

The allotment sanctioned for workshop spares and equipment as well as
Roll charges paid from contingencies has been on the basis of the work
be done for the College and does not take into consideration any work
Government departments. In order, therefore, that the work
with this College may not be adversely affected for want of funds the
of the manufacture of the 46 rifle boxes amount to Rs. 4,830/- may be
the disposal of the Principal, College of Engineering, and he may be
used to draw on the same to meet the cost of the manufacture of these boxes.

Early orders on the above may kindly be given.

dated the 10th June 1949.-

From the Director, National Cadet Corps, No.0028/49/NCC
dated the 2nd July 1949.

From the C.E., P.W.D. (Buildings), No.5363-Wks/49-1
dated the 24th August 1949.

From the Director of Public Instruction, Roc.No.1149-W4
of 1949 dated the 19th September 1949.

ORDER MS.NO. 3230 EDUCATION, dated 22.10 - 1949.

The Government consider that it will be sufficient, for the present, to supply wooden boxes for the storage of the arms and ammunition supplied to the 21 units and 2 sub-units of the Junior Division of the National Cadet Corps mentioned in the annexure to this order, which have been raised in this Province during the current school year. Sanction is, accordingly, accorded to the manufacture of 28 boxes (twenty eight) boxes in the Engineering College, Guindy, at an estimated cost of Rs.2,940/- (Rupees two thousand nine hundred and forty only) at the rate of Rs.105/- per box.

2. The Accountant-General is requested to place the amount at the disposal of the Principal, Engineering College, Guindy, who is authorised to draw the amount to meet the cost of the manufacture of the boxes in the college workshop. The expenditure will be met from the provision in the current year's budget and debited to "37.r. Education - General - Miscellaneous - (1) Excluding P.W.R. - 11. National Cadet Corps - Junior Division".

3. The boxes should be ^{kept} embedded in the Treasury

Guard Rooms or Police Stations ^{at or near} the places where it is possible and in other places ^{they} ~~it~~ ^(kept locked & sealed +) should be chained to a pillar or post. The embedding or chaining of the boxes will be done by the P.W.D. ^(in consultation with the District Supply of Police Concerned.) The expenditure on this work will be debited to "50.a. Civil Works - Original Works - Buildings - K. Education - Excluding P.W.R. - I. Ordinary areas - K. Education - Minor Works".

wooden boxes - Number of boxes - Classification
requested for.

Ref: G.O.Ms.No.3230 Edn., dated 22-10-1949.

In para 2 of my letter Rc.No.1208-E4/49 dated 11-3-49, I suggested that 46 boxes may be manufactured and supplied to 46 schools wherein 35 units and 2 sub-units were proposed to be formed. Subsequently it was found possible to raise 21 units and 2 sub-units in 35 schools.

In para 2 of the G.O.quoted above, sanction is accorded to the manufacture of 28 boxes only. Schools to which only a sub unit or two have been allotted may not need such a big box at present. However it appears to be advisable to have a box for each school so that in the event of some more units being allotted during 1950-51 the box can be readily used for storing any increased quality of arms supplied to it. I request Government may be pleased to sanction the manufacture of 7 more boxes or enlighten me how the 28 boxes have to be distributed to 35 schools.

Yours faithfully,

[Signature]

W4/49 dated the 7th November 1949.

MEMO NO. 88076-BI/49-2 E M D 22/11/49

In modification of the orders issued in para 1
of G.O.No. 3280 Education, dated the 22nd October 1949,
the Government sanction the manufacture of 35 wooden boxes
in the Engineering College, Guindy, at an estimate of cost
of Rs.3,675/- (Rupees three thousand six hundred and seventy
five) at the rate of Rs.105/- (one hundred and five) per
box, for the storage of the arms and ammunition to be
supplied to the units of the Junior Division of the National
Cadet Corps in this Province. The boxes should be
supplied at the rate of one ^{for} each of the 35 secondary schools
mentioned in the annexure to the G.O. referred to above,
where the units have been raised during the current year.

Copy to the Bd of Rev.
Two S.Cs.

NOTE:- Please see the letter from the D.P.I. on page 1 c.f.
21 units and 1 sub-unit have been raised during the current
school year in 35 secondary schools. Some of the schools
have formed only one or two sub-units. It is proposed to
form 23 units during the next school year and those ³⁵ schools
may be allotted some more sub sub-units in that year so
that they may have one complete unit. The supply of a box
for each of the 35 schools will not, therefore, be a waste.
The Director's proposal to manufacture 35 boxes instead of
the 28 as previously ordered may be approved. The draft

27

Roc.No.1149 W4/49 dated 15-4-50.

Sir,

National Cadet Corps - Junior Division - Storage of
arms and ammunitions - Supply of wooden boxes.

In their Memorandum No.88076 B1/49-2 Edn., dated 22-11-1949
Government sanctioned a sum of Rs.3675/- for the manufacture of
35 wooden boxes at Rs.105/- per box in the College of Engineering
Guindy for the storage of arms and ammunition for the Junior Division
units of the National Cadet Corps.. The Principal now reports
that due to the increase in the cost of timber as charged by the
Forest Department - from Rs.8/- to Rs.12/3 per cubic foot the
estimated cost per box comes to Rs.133-8-0 per box. Thus the
total estimated cost of manufacturing 35 boxes comes to
Rs.4672-8-0. The rise in the cost per box is also reported to be
due to the wastage in sawing which is greater than was expected.

I request that Government may be pleased to sanction an
additional expenditure of Rs.1000/- over and above Rs.3675/- sanctioned
in Government Memorandum No.88076 B1/49-2 Edn., dated 22-11-1949.

Yours faithfully,

for Director of Public Instruction. 18/4

From the S. B. of Police, R.C. no. 293.9/SA/49 dated 10.6.1949.

vide the location statement at (A)

Twenty four units and 2 sub. units are proposed by the Junior Division of the NCC and proposed to be formed in ~~the~~ the current year in the various schools in this Province. The arms required for these units will be ~~arranged to be~~ supplied by the Government of India from the Ordnance Depots ^{normally} they will have to be kept ~~in~~ ^(or in the existing Police armouries) in the armouries constructed for the purpose. During the discussion which took place with the D. P. G. on 29.12.48, it was suggested that it might be sufficient, if the units of the Junior Division had, instead of armoury buildings, a safe where the arms could be kept in a secure place & that this arrangement should be approved by the Police from the security point of view. The D.P.G. who was consulted in the matter has suggested that a model box as per the sketch placed below may be ~~made~~ at a cost of Rs 100/- each may be manufactured in the workshop of the Engineering College, Guindy, and then to ensure safety of the contents, iron bands may be put up & the box may be made specially heavy. The cost of manufacturing 30 boxes, (one for each of the 24 units & one for each of the two sub-units & five spare boxes) works out to Rs 3000/-.

2. The S. B. of Police was asked to report whether the box will be adequate from the security point of view and whether it may be kept

in the police armories in places where it has been reported that accommodation is available for keeping the arms and in other places in a secure room in the schools in which the units are to be raised. The J.C. has agreed that separate armories need not be constructed for the arms of the units of the Junior Division and that they may be kept in a secure place in safes strongly locked. In view of the existing influence of the Communists over certain sections of the students, he, however, considers that it will ^{not} be safe to keep the hoses in schools. He therefore suggests that the arrangements now in vogue, under which cash chests of Post offices are embedded in the floor of the Treasury Guard rooms or police stations provided they are securely sealed, may be adopted in the case of these hoses also. It has been reported that in all places except the city of Madras where the units are proposed to be formed, there is a jail or treasury guard where the proposed arrangement can be made and ^{that} in the city of Madras, the hoses may be kept embedded in the floor of the nearest police station. This arrangement will avoid the necessity for keeping the arms in the police armory at any place. The suggestion seems to be acceptable and may be approved. The embedding or the chaining of the hoses, as the case may be, will have to be done by the P.W.D. and ~~Sanction may be accorded to the incurring of the necessary expenditure treating it as a minor work on estimate of cost incurred on this account.~~

3. Before issuing orders for the manufacture of the hoses in the College of Engineering, it is submitted for orders whether the Dir, N.C.C. should be consulted on the above arrangements. The expenditure on the manufacture of the hoses may be met

[Letter ref. m. 22017-101/49. 2 P.D. dated 21.6.49]

From the Dir, N.C.C. no. 2201/49, N.C.C. D. 217/49.

The Dir, N.C.C., has agreed to the proposal to keep the arms of the units of the Junior Division of the N.C.C. in the proposed specially made box and to keep them embedded in the Treasury Guard rooms or police stations. ~~As~~ Some of the teachers selected for undergoing training with Regular Army units have not joined the training, the total number of units to be raised in 1949 has been reduced to 21 units + 2 sub-units + the total number of hoses required is therefore 23. However, 20 hoses may be manufactured as noted on p. 1 ante, so that the spare hoses may be used

P.T.O.

for the units to be raised in future.

2. The ammunition ^{which will be} supplied by the Ordnance authorities to the units is as follows:-

- 22 Ball - 10 rounds per Cadet
- or
- 900. for a troop or 300 for a sub unit.

The above ammunition may also be kept in the proposed box along with the arms or if this is not possible in a separate box at the same place where the arms are kept.

3. The file may now be sent to Home,

P.W.D. and Finance U.O. for remarks as noted on page 3 ante.

(Government Memo No. 22017--BI/49-4 Education, dated 30-7-1949). pp 12-13 cy
From the Chief Engineer, P.W.D., No.5363-Wks/49-1 dated the
24th August 1949. pp 15-16 cy

Please see the letter from the C.E., P.W.D., on
pages 15-16 c.f. The alterations suggested by him to the
wooden box may be accepted. The I.G. of Police has reported
already that the boxes may be chained to a pillar ^{or post} if embedding
is not feasible. The suggestion of the C.E. to chain the boxes
instead of embedding may also be accepted. A copy of the
C.E.'s letter may be communicated to the D.P.I. and he may be
requested to furnish a revised estimate for the manufacture
of ~~the 30 boxes~~ ^{the required no of boxes} taking into account the alterations suggested
by the C.E. He may also be asked to ^{include in the} ~~furnish an~~ estimate ~~of the~~
cost involved on the chaining of the boxes to a pillar ^{in provision of}
~~iron chain and strong locks.~~

2. The units of the Junior Division are now being
organised by the Liaison Officer who has already taken charge.
The arms and ammunition required for the units according to
the scale of N.C.C. will be supplied by the Ordnance Depots
shortly. It is, therefore, necessary to manufacture the boxes
urgently. The Director may be informed that pending the issue
of orders, he may make necessary preliminary arrangements
for the manufacture of the boxes.

A draft memo is submitted below for approval. P.W.D. & Finance
3. ~~The file may be sent to P.W.D. and Finance U.O. for~~
~~remarks, if any, before a reply is given to the Director~~
(P.W.D. & Finance have already seen (pages 4 & 5 only))

[Memo. no. 22017-61/49-5 Gdn. dated 31.8.49] p19 cy

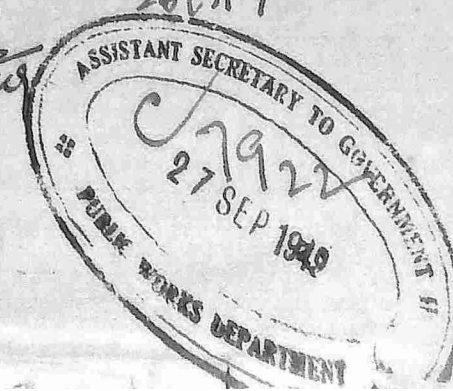

From the D.P.I., RC. no. 1149. W4/49 dated 19.9.1949. pp 20-23 cy

Please see the letter from the D.P.I. on
pages 20-23 cy. The Principal, Engg. College, Baidya,
has now furnished a revised estimate for no. 4930,
Rs. 5.00

for the manufacture of 46 boxes at the rate of Rs. 105/- each. The manufacture of the boxes may
be sanctioned. Only ²⁸/₂ boxes are required during
the current year, as 21 units + 2 sub-units have
been raised. The remaining ¹⁸/₂ boxes may be
kept for supply to the 23 units proposed to be
formed during the next year.

2. The C.E. suggested that the boxes may
be chained to the pillar ^{or post} instead of ^{being} embedded in
the floor. The Principal, Engineering College considers
it better to embed the boxes in the floor. The
embedding of the boxes may not be feasible in
all the places where the units of the Junior Division
have been raised. The boxes may therefore be kept
embedded in the Treasury Guard Rooms or
Police stations in places where it is possible
and in other places it may be chained to a
pillar or post as suggested by the I.G. of Police.
The embedding ^{for chaining} of the boxes may be ordered to
be done by the P.W.D. & the expenditure ^{maybe} debited
to S.O. a. Civil works - Gdtn. works - Buildings -
Excluding P.W.R. - I. Gdtn. areas - K. Edn. -
Minor works. The expense on this work may be
met by reappropriation from the provision of
no. 50, 1947- made for the construction of minor works,
more rooms, etc for the NCC units in the current
year's budget under '37. Edn'.

3. A draft order is submitted
below for approval. P.W.D. ^{Home &} Fin may see
for acceptance of the order before issue. Rev. also
may see.

Fin (Expn)

(Prev. Fin note on p 5 above)

In the previous note on p 5 above, Fin have agreed to the manufacture of 30 boxes as the E.P.H. considered that the above number would be sufficient. In the draft order it is proposed to manufacture 46 boxes. E.P.H. have not stated why this number has to be altered. Fin may suggest that the original 30 boxes alone need be manufactured.

Subject to the above remarks the draft order may be accepted.

17.10.49

Only 28 boxes are now required. No decision to form additional units during next year may have to be reconsidered with respect to present financial stringency. Only the number of boxes now reqd need be sanctioned now. Draft may be modified accordingly.
