Dated 29th October 1949.

[Despatch Abstract.]

Overseas Scholarships - Followships & Scholarships offered by the Government of Australia - Papers Recorded -

New Delhi,
26th September 1949.

74910

My dear Lobo Prabhu,

I forward herewith a copy of our circular letter No.F.64-1/49-A1 dated 24-9-49 to all Indian Universities regarding Fellowships and Scholarships offered by the Government of Australia for Indian students for advanced studies in Australia.

2. I shall be very grateful if you would bring the correspondence to the notice of the other Departments of your Government and ask them to collect and forward to us applications from outstanding scholars for the various kinds of scholarships.

Yours sincerely,

(Humayun Kabir)

Shri J.M. Lobo Prabhu, ICS.,
Secretary, Department of Education,
Government of Madras,
Madras.

No. F. 64-1/49-A1(S)
Government of India,
Ministry of Education,
New Delhi, the September 1949.

Subject:- Offer of five Fellowships and one Scholarship by the Government of Australia to Indian students for study in Australia.

Dear Sir,

Please refer to this Ministry's letter No. F. 64-1/49-A1 (S) dated 1st August 1949 regarding the Fellowships and Scholarships offered by the Government of Australia to Indian students for studies in Australia.

2. The Selection Committee set up by the Government of India to select candidates for these Fellowships have since met and I am sorry to say that they found the standard of applicants below the expected standard.

These scholars would be considered as unofficial representatives of India abroad. Besides if India is to get the maximum benefit out of these scholarships, the students selected should really be first-rate men, so that on their return they may enrich the country by their experience gained abroad. We are, therefore, anxious that we should select only outstanding persons. We have, therefore, decided to call for further applications before making the final selection for these Fellowships and the scholarship.

The object of this letter is to request you to help us in getting applicants of really outstanding calibre to apply for these posts.

As you would have seen from our circular letter of 1st August 1949, the Fellowships awarded by the Government of Australia fall under two categories, namely, Senior and Junior Fellowships.

The Senior Fellowship is intended to provide higher training facilities and general experience within Australia to a senior person who is already engaged in responsible work connected with the development of India. The facilities to be

provided will not necessarily be of the types available from academic institutions. The Selection Committee decided that for this purpose we should go in for candidates who have had a first class career from the Intermediate upwards up to and including the M.Sc. degree or B.Sc. (Hons) degree of three years' duration. Besides a first class academic career, the persons should have done recognised research work or given other evidence of equal achievement. Preferably, candidates for the Senior Fellowships should be in the age group of 28-40 although in special cases the limit could be extended either way. With a view to getting as many persons as possible trained abroad, we should not like to consider cases of persons who have already been abroad once, unless such persons have exceptional qualifications and other suitable persons who have not so far gone abroad are not available.

Junior Fellowships are intended to provide opportunities for post-graduate study and research in Australian educational institutions for Indian students who have recently completed course of academic, professional, technical or rural training, but whose eventual contribution to the development of India may be increased by a period of further training. These Fellowships, which will extend for a period of six months to two years, may, in certain cases, enable the holders to proceed to a formal degree. For this class of Fellowships, the Selection Committee have in mind promising candidates who have had a brilliant academic career up to the M.A. or M.Sc., standards (with first class in all the post-Matriculation examinations) and with some research experience to their credit. These students should be of about the age of 22 to 28.

The Australian Government have also offered a Scholarship to enable a student to undertake an undergraduate course up to four years. For this Scholarship the Selection Committee desire to have applications from those who have completed at least their B.A. or B.Sc. with first class both in the Intermediate and Degree examinations. Candidates for this scholarship should be below the age of 21 and should be persons interested in sports so that they could actively participate in extra-curricular activities.

We understand that Australia could provide excellent facilities for studies and training in Agriculture, Animal Husbandry, Dairying, Metallurgy, Physics, Geo-Physics, Geology, Mining, Radio Engineering, Anthropology, Psychology, Social Service and Educational Administration. The Selection Committee have tentatively decided that the five Fellowships should be distributed approximately, three for Science and Technical Subjects and two for Humanities. For the former, preference will be given to candidates desiring to go in for studies in (a) Physics or Geophysics, (b) Radio Engineering, (C) Chemistry and Metallurgy, (d) Agriculture including Dairying and Animal Husbandry and Food Preservation, and for the latter, Anthropology, Psychology and Education and Social Science.

I shall be very grateful if you would be good enough to bring the contents of this letter to the notice of your Heads of Departments and let us have some applications with your comments before the 8th October 1949. Applications of those who have already once applied need not be sent again.

The selections were to have been made and the names of the selected candidates communicated to Australia before the 30th of September 1949, but in view of the fact that we have had to advertise these vacancies again we have obtained an extension in the last date up to the 15th October 1949. I shall, therefore, be grateful if your revised recommendations could reach us before the 8th October 1949, at the latest.

Yours sincerely,

Humayun Kabir

(Humayun Kabir)

The purpose, terms and conditions of the award of the Fellowships and the Scholarships, open to men and women by the Government of Australia.

- - - - -

SENIOR FELLOWSHIPS

Purpose: To provide higher training facilities and general experience within Australia to a senior person who may or may not be a University graduate and who is already engaged in responsible work connected with the development of India. The facilities to be provided will not necessarily be of the types available from academic institutions. The Australian Govt. will be prepared to make special arrangements with one or more of its own Departments, or with State Govt. Departments or with private firms, to ensure that the selected Fellow is afforded the educational experience that he required. He is, however expected not to proceed to a formal degree.

Terms and conditions of Fellowships: The selected student will be given appropriate training and experience for a period of twelve months. During his stay in Australia he will be paid living allowance valued (after taxation deductions necessary under Australian Law have been made) at least £.11(Aust.) per week, and certain additional funds will be made available to meet the cost of necessary travel within Australia, tuition, books and instruments and medical aid. Cost of travel to and from Australia will be paid by the Australian Government, which also will arrange for suitable reception and accommodation.

JUNIOR FELLOWSHIPS

Purpose: To provide opportunities of post-graduate study at Australian Educational Institutions for Indian students who have recently completed courses of academic, professional, technical or rural training, but whose eventual contribution to the development of Indian may be increased by a period of further training. He may in certain circumstances proceed to a formal degree.

Terms and conditions of Fellowship: The period of training under the Junior Fellowship will also be of six months, to 2 years. The selected student will be provided with living allowance valued (after taxation deductions necessary under Australian Law have been made) at about £.7(Aust.) per week and additional funds will be made available to meet the cost of essential tuition, books, medical aid and travel within Australia. Cost of travel to and from Australia will be paid by the Australian Govt. which will arrange for suitable reception and accommodation.

SCHOLARSHIPS

Purpose: To provide the opportunity for a student to undertake a course up to four years in duration at an institution providing professional, academic, technical or rural training in Australia leading to formal degree.

Terms and conditions of the Scholarships: The selected student will be provided with living allowance valued(after deductions of taxes necessary under Australian Law have been made) at about £.3.15.0(Aust.) per week and additional funds will be made available to meet the cost of essential tuition, books and travel within Australia. The cost of travel to and from Australia will be paid by the Australian Government which will arrange for suitable reception and accommodation.

A P P E N D I X

Courses available for Holders of Australian Scholarships and Fellowships:

P A R T I

Courses available for Scholarships Holders:

1. Universities:

In regard to the degree courses in Arts and Sciences, the subjects mentioned here are those which, it is thought, will be of most interest. A considerable number of other subjects are, of course, comprised in those Faculties:

A. University of Sydney:

(i) Degree Courses:

(a) Arts — Among the subjects are:-

English Language and Literature, Mathematics, Philosophy, Psychology, Education Anthropology.

(b) Law.

(c) Science. — Among the subjects are:-

Physics, Chemistry(Organic and applied) Geology, Mining Geology, Agricultural Geology, Geography, Botany, Zoology, Biochemistry.

(d) Engineering.
(e) Civil Engineering.
(f) Mechanical Engineering.
(g) Electrical Engineering.
(h) Aeronautical Engineering.
(i) Metallurgical Engineering.
(j) Veterinary Science.
(k) Agriculture.
(l) Economics.
(m) Architecture.
(n) Chemical Engineering.

(ii) Diploma Courses:

(a) Social Studies.

(b) Physical Education.

B. University of Melbourne:

(i) Degree Courses.

(a) Arts. — Among the subjects are :-

English, Philosophy, Mathematics, Psychology.

(b) Economics and Commerce.

(c) Science — Among the subjects are:-

Physics, Chemistry, Metallurgy, Biochemistry, Geology, Botany and Zoology.

(d) Agriculture and Veterinary Science.
(e) Mechanical Engineering.
(f) Electrical Engineering.

6 7/6 15

Application for Senior/Junior Fellowships/Scholarships offered by the Government of Australia to Indian students for studies in Australia during 1950.

- - - - - -

1. Full Name (In block letters).

2. Father's Name and address.

3. Age and Date of Birth.

4. Educational Qualifications:

Name of School or College and University.	Date of entering and leaving.	Examinations passed.	Year of passing	Division obtained	Subjects of studies

5. Research or Technical experience (if any).

6. Practical training (if any).

7. Professional appointments held (if any).

8. Present Occupation.

9. Proposed subject of study and whether it is desired to proceed to a formal degree.

10. If selected, what the candidate proposes to do on return.

11. References:

(g) Civil Engineering.
(h) Law.
(i) Architecture.
(j) Education

2. Diploma Courses in Technical Colleges and Schools of Mines:

A. New South Wales:

Accountancy.
Architecture.
Art (Commercial Illustration, Design and Crafts, Modelling and Sculpture, Painting).
Building.
Chemistry.
Electrical Engineering.
Radio Engineering.
Chemical Engineering.
Aeronautical Engineering.
Civil Engineering.
Coal Mining Engineering.
Mining Engineering.
Mechanical Engineering.
Food Technology.
Metallurgy.
Naval Architecture.
Optometry.
Personnel Science.
Physics.
Quantity Surveying.
Sanitation and Hygiene.
Science (Four programmes)
1. Bio-Chemistry.
2. Geology - Chemistry
3. Physics - Mathematics
4. Physics - Chemistry.

These courses in New South Wales are part-time courses, open to those engaged in employment related to the course. In some cases it may be possible to arrange for a beneficiary to take one of these courses and to be placed in suitable employment.

B. Victoria:

Accountancy
Commerce
Architecture.
Bulding and Contracting
Painting
Modelling & Sculpture
Advertising Art
Industrial Design.
Cookery & Institutional Management.
Needlecraft
Applied Chemistry.
Chemistry of Dyeing.
Civil Engineering.
Communication Engineering
Electrical Engineering
Mechanical Engineering
Radio Engineering.
Marine Engineering.
Automotive Engineering.
Aeronautical Engineering
Mining Engineering.
Metallurgy.
Textile Chemistry
Textile Engineering.

C. South Australia:

Fellowship Diplomas:

Mechanical Engineering
Electrical Engineering
Civil Engineering
Architectural Engineering.
Chemical Engineering
Mining
Metallurgy.

Associateship Diplomas:

Architecture	Electrical Engineering.
Civil Engineering	Industrial Chemistry.
Mechanical Engineering	Mining and Metallurgy.

3. Miscellaneous Courses:

(a) There are courses which are available in Universities in some States and at special institutions in other States. The courses in each case are of similar standard. Among these are the following :-

(i) Physiotherapy: This is full time diploma course in the Universities of Adelaide and Queensland. Training is also given by the Masseurs' Registration Board (Deptt. Health) Victoria, and the Australian Board (Deptt. Health Victoria, and the Australian Physiotherapy Association, New South Wales Branch.

(ii) Music: A degree course can be taken in the Universities of Adelaid and Melbourne or a diploma course can be taken in the State Conservatorium of Music, New South Wales.

(b) Other miscellaneous courses are as follows:-

(i) Forestry: Students taking the Degree of Bachelor of Science in Forestry do two years of the Science course at any Australian University and a further two years at the Australian College of Forestry, Canberra.

(ii) Dietetics: One year course in the Universities of Sydney, Melbourne and Perth after completion of the Science degree.

(iii) Librarianship: A one year course including training at the Institution is available at the New South Wales Public Library and the Melbourne Public Library.

(iv) Occupational Therapy: Full time course at the Occupational Therapy Training Centre, Sydney, or the Occupational Therapy School of Victoria.

(v) Kindergarten Teachers: Full time courses of three years duration are available in the Kindergarten Training centres at Sydney, Melbourne, Brisbane, Adelaide and Perth.

(vi) Teacher Training: Full time courses of two years with longer courses for specialised teaching are available in all States. There are several Teachers' Colleges in New South Wales and Victoria and one in each of the other state capitals.

(vii) Agricultural Courses: Diplomas in Agriculture are available at Gatton Agriculture College, Queensland, Hawkesbury Agricultural College, New South Wales, Dookie Agricultural College, Victoria, Roseworthy Agricultural College, South Australia and Muresk Agricultural College Western Australia. In addition Diplomas in Dairying are available at Gatton and Hawkesbury.

(l) Surveying.

(ii) DIPLOMA COURSES:

(a) Commerce.
(b) Public Administration.
(c) Agriculture.
(d) Physical Education.
(e) Industrial Welfare and other Social Studies specialties.

C. University of Adelaide:

(1) Degree Courses:

(a) Arts	Among the subjects are :- English Language and Literature, Geography, Psychology, Philosophy, Mathematics.
(b) Economics.	
(c) Science.	Among the subjects are :- Mathematics, Physics, Chemistry, Botany, Zoology, Biology and Geology.

(d) Agricultural Science.
(e) Metallurgical Engg.
(f) Mining Engineering.
(g) Electrical Engg.
(h) Mechanical Engg.
(i) Civil Engineering.
(j) Architectural Engg.
(k) Law.
(l) Music.

2. Diploma Courses:

(a) Education.
(b) Physical Education.
(c) Commerce.
(d) Public Administration.
(e) Social Science.
(f) Physiotherapy.
(g) Optometry.

D. University of Queensland:

(i) Degree Courses:

(a) Arts.	Among the subjects are :- English, Philosophy, Psychology, Mathematics.
(b) Science.	Among the subjects are :- Chemistry, Mathematics, Biology, Botany, Zoology, Geology, Physics.

(c) Applied Science.
(d) Civil Engineering.
(e) Mechanical Engg.
(f) Electrical Engg.
(g) Mining Engg.
(h) Chemical Engineering.
(i) Surveying.
(j) Commerce.
(k) Agriculture.
(l) Law.
(m) Medical Science.
(n) Education.

(ii) Diploma Courses:

(a) Journalism.
(b) Engineering.
(c) Architecture.
(d) Commerce.
(e) Physiotherapy.
(f) Physical Education.
(g) Education.

E. UNIVERSITY OF WESTERN AUSTRALIA:

(i) Degree Courses:

(a) Arts — Among the subjects are:-

Economics, English, Philosophy, Psychology.

(b) Science. — Among the subjects are :-

Biology, Botany, Chemistry, Geology, Mathematics, Physics.

(c) Electrical Engineering.
(d) Mechanical Engg.
(e) Structural and Hydraulic Engg.
(f) Mining Engg.
(g) Metallurgical and Chemical Engg.
(h) Architectural Engg.
(i) Surveying.
(j) Law.
(k) Agriculture.
(l) Education.

(ii) Diploma Courses:

(a) Commerce.
(b) Journalism.
(c) Agriculture.

F. UNIVERSITY OF TASMANIA:

(i) Degree Courses:

(a) Arts — Among the subjects are :-

English, Political Science, Logic and Psychology.

(b) Law.
(c) Science — Among the subjects are :-

Mathematics, Physics, Chemistry, Botany, Zoology.

(d) Engineering Science.
(e) Commerce.

(ii) Diploma Courses:

(a) Commerce.
(b) Public Administration.
(c) Education.

PART II

Fields of study for Holders of Fellowships:

Facilities for observation and experience in the following fields will be available for mature fellows:-

(a) Primary Industries:

Wool, Wheat, Dairying, Fruit, Forestry, Meat, Sugar Growing.

(b) Secondary Industries:

Mining, Steel, Sugar Processing, Textiles, Food Preparation.

(c) Public Services:

Railways and Roads (General Administration, Workshops, etc.) Public Health, Education and Educational Administration, Social Services, Libraries, Vocational Guidance, Irrigation, Radio, Journalism.

(d) General Administration:

State Administration, Local Government Administration, (Water, Electricity, Gas, Fire Brigades).

For those desirous of doing specific post-graduate work, it may be possible to arrange study in the Universities. In general, there are limited facilities for post-graduate study in all courses in which a degree is given.

I forward herewith two applications, (1) from Sri M. Anantaraman, Research Officer, Madras Helminthiasis Scheme (Gazetted Officer) and (2) Sri C. Venkateswara Rao, Assistant Lecturer in Hygiene, Madras Veterinary College for Senior Fellowships to be offered by the Government of Australia. The proposed subject of study by Sri M. Anantaraman is 'Parasitology' and that by Sri C. Venkateswara Rao is 'Sheep Husbandry'. Full particulars about their academic and technical qualifications and periods of training and experience in the subjects are given in their respective applications. Both the Officers are quite suitable for the offer of the Fellowships and I strongly recommend that their cases may be considered.

Sub.- Advanced studies Overseas - Offer of Fellowships and scholarship by the Government of Australia.

Ref.- Govt. of India, Ministry of Education letter No.F/64-1/49-A1(S) dated 24.9.49 to the Govt. of Madras, Education and Public Health Department.

Under instructions from the Government of Madras, Education & Public Health Department, I have the honour to forward herewith two applications from

1) Sri B.V.Ananda Rao, Divisional Electrical Engineer, Vizagapatam Power System and

2) Sri K.S.Ramu, Assistant Engineer (Elecl.), Technical Branch, Madras

for consideration for the Senior Fellowships offered by the Government of Australia during 1950 to Indian Students in Australia.

2. This Department is interested in some of its officers gaining specialised training in the use of lignite or brown coal for power production, as extensive deposits of such coal have been located in this Province and await exploitation. Facilities for such training are believed to be available in Australia as brown coal is actually being used for large scale power production at Yallourn in Victoria.

3. As Senior Fellowships are intended to afford higher training facilities and general experience to those already engaged in responsible development work, and as Messrs. Ananda Rao and Ramu are senior officers of this Department with considerable experience in power station operation, I commend their applications for favourable consideration.

G Sundaram

To
The Secretary to Government,
Education and Public Health Dept.,
Fort St. George, Madras.

Letter No.6583-E1/49-G.P., dated 26-10-1949.

Sir,

Advanced Studies--Overseas--Offer of Fellowships and Scholarships by the Government of Australia.
Ref: Education and Public Health Department, Memorandum No.74910-E2/49-1, dated 20th September 1949.

The subject 'Civil Engineering' is not included as one of the subjects which will be given preference by the Selection Committee set up by the Government of India, to select candidates for the Fellowships and Scholarships offered by the Government of Australia. Therefore no candidates from the regular P.W.D. could be deputed under the scheme.

2. "Radio Engineering" is included as one of the subjects for which preference will be given. Therefore applications were called for from the Officers of the Provincial Broadcasting Department.

3. In response to this call, applications from the following individuals were received.-.

(i) Sri H.Joga Rao, B.Sc. (Hons)., Radio Engineer.
(ii) Sri M.N.Parthasarathy, B.Sc.(Hons)., Assistant Radio Engineer (Special).
(iii) Sri D.Kodandaramaswamy, M.Sc., Research Assistant.
(iv) Sri G.G.Somayajulu, M.Sc., Research Student.
(v) Sri M.N.Thirunarayanan, B.Sc.(Hons)., Research Student.

4. On a scrutiny of these applications, I find that, excluding that of Sri H.Joga Rao, the rest are not very suitable for the Fellowships offered.

5. As regards, Sri H.Joga Rao, Radio Engineer, his services cannot be spared at present as a suitable substitute cannot be had in his place. His case may be considered at the next opportunity if, in the meanwhile, a selection is made of a suitable officer for promotion as Radio Engineer.

6. Hence, no application has been sent from this Department.

Sub: Offer of five Fellowships and one scholarship by the Government of Australia to Indian students for study in Australia.

...

I am directed to state that the Government of the Commonwealth of Australia have offered five Fellowships and one Scholarship for 1950, to Indian students for studies in Australia. These awards are open to both men and women. Of the five Fellowships offered the Government of India will determine at a later stage as to how many should be Senior and how many Junior in light of the terms and conditions of the awards enclosed.

I am to request you to recommend suitable persons for the above stated awards who in your opinion would benefit by their study in Australia and who would contribute to the development of India in their own sphere on their return after the training. It is requested that your nominations may kindly be sent to this Ministry in any case not later than the 27th August 1949, as they are required to be forwarded to the Australian Government at an early date. I am enclosing herewith five copies of the sets of the application form along with copies of the terms and conditions of the awards and copies of the courses available for holders of the Australian scholarship and Fellowships. The applications are to be made in duplicate by students whom you consider suitable for the awards. It is requested that attested copies of testimonials along with the details history of the student's academic career and family background may be enclosed.

Sd. ----------

for Deputy Secretary.

Copy forwarded to:-

The Press Information Officer with the request that publicity may be given to this immediately and applications may be invited so as to reach this Ministry (Section A.1) by the 27th August 1949 through the Heads of the Institution in which candidates are studying or are employed.

Ministry of External Affairs for information. The offer of the Government of Australia has been accepted with thanks and necessary action is being taken in the matter.

The Ministry of Information and Broadcasting with the request that suitable persons if any may be nominated for training in the field of the Press and the Radio. Nominations are to be sent by the 27th August 1949 by the latest.

Copy to the Ministry of Agriculture, with the request that suitable persons may be nominated for training in Agriculture in Augstralia. Nominations are to be sent by the 27th August, 1949 at the latest.

Copy to the Department of Scientific Research with the request that suitable persons may be nominated for scientific studies in Australia. Nominations are to be sent by the 27th August 1949 at the latest.

Sd. ----------

Assistant Secretary.

Copy of letter No.F.64-1/49-A1(S), dated the 24th September 1949, from the Government of India, Ministry of Education.

Subject: Offer of five Fellowships and one Scholarship by the Government of Australia to Indian students for study in Australia.

Please refer to this Ministry's letter No.F.64-1/49-A1 (S) dated 1st August 1949 regarding the fellowships and Scholarships offered by the Government of Australia to Indian students for studies in Australia.

2- The Selection Committee set up by the Government of India to select candidates for these Fellowships have since met and I am sorry to say that they found the standard of applicants below the expected standard.

These scholars would be considered as unofficial representatives of India abroad. Besides if India is to get the maximum benefit out of these scholarships, the students selected should ideally be first-rate men, so that on their return they may enrich the country by their experience gained abroad. We are, therefore, anxious that we should select only outstanding persons. We have, therefore, decided to call for further applications before making the final selection for these Fellowships and the scholarship.

The object of this letter is to request you to help us in getting applicants of really outstanding calibre to apply for these posts.

As you would have seen from our circular letter of 1st August 1949, the Fellowships awarded by the Government of Australia fall under two categories, namely, Senior and Junior Fellowships.

The Senior Fellowship is intended to provide higher training facilities and general experience within Australia to a senior person who is already engaged in responsible work connected with the development of India. The facilities to be provided will not necessarily be of the types available from academic institutions. The Selection Committee decided that for this purpose we should go in for candidates who have had a first class career from the Intermediate upwards up to and including the M.Sc. degree or B.Sc. (Hons) degree of three years' duration. Besides a first class academic career, the persons should have done recognised research work or given other evidence of equal achievement. Preferably, candidates for the Senior Fellowships should be in the age group of 30-40 although in special cases the limit could be extended either way. With a view to getting as many persons as possible trained abroad, we should not like to consider cases of persons who have already been abroad once, unless such persons have exceptional qualifications and other suitable persons who have not so far gone abroad are not available.

Junior Fellowships are intended to provide opportunities for post-graduate study and research in Australian educational institutions for Indian students who have recently completed course of academic, professional, technical or rural training, but whose eventual contribution to the development of India may be increased by a period of further training. These Fellowships, which will extend for a period of six months to two years, may, in certain cases, enable the holders to proceed to a formal degree. For this class of Fellowships, the Selection Committee have in mind promising candidates who have had a brilliant academic career up to the M.A.

Nos 25 (25) E71/52

Fellowships & Scholarships offered by the Govt of Indian Students.

From Mr Humayun Kabir. dt 26.9.49.

Please see D1/3 of Secy's order on p1 cf. A copy of the letter dated 1.8.49 referred to in para 1 on p 3 cf, was not received by this Govt. The Govt of I sent a copy direct to the Govt of D P. and it is not known what action the latter took on it.

2. The letter at pp 3.5 cf is a copy of the circular addressed to all the Universities by the Govt of I — Vide para 1, p 1 cf. It does not therefore seem necessary for this Govt to communicate copies to the Universities of this Province.

3. Regarding Secy's suggestion about a press note, it is submitted that the original Scheme (copy at (A)) was published in the Press and applications were invited. — Vide 'X' on p 1 of (A). The further extension of time now granted by the Govt of I for the receipt of applns may also be given Press publicity by the Govt of I and it seems that they should do it if it is necessary.

4. A draft memo to the Heads of Depts is submitted for approval.
