Press, Madras - Instructions.

Consequent on the revival of printing of publications
such as Manuals, Codes, Library Catalogues, Reports, etc.,
work has greatly accumulated in this office. The printing
of a large number of publications has to be kept in abeyance
due to extreme pressure of other urgent works including
Electoral Rolls. I am therefore to request you not to send
for printing publications of the nature mentioned above
except Annual Administration Reports for a period of two
years or till such time the arrears are cleared in my office.

In continuation of this office letter mentioned above I have to state that, among the items of Book work pending in the Press, the printing of the publications, given in the annexure to this letter, has to be taken up urgently. The Indenting Officers concerned appear to be very anxious in getting these printed as quickly as possible, as many of the publications are out of print for a long time and any further delay in printing them may lessen their value.

2 The extreme pressure of ^{other} ~~ever~~ urgent works such as Budget Estimates, Electoral Rolls etc., do not, however, permit the taking up of new works for setting till April 1950. In this connection, I propose to form one or two new departments to deal with the enormous increase of Book work in the Press, since the last two years. But this will take some more time in view of the difficulties in finding the necessary staff and equipment, to run the department.

3 Under the above circumstances, I solicit orders of Government to get the printing of the publications under reference done partially in Private Presses after calling for quotation under my direct supervision so as to maintain the standard required for printing Government work and get them in flat sheets. The printing of preliminary matter such as title page, contents etc., and the binding of copies will be however be carried out at the Government Press.

dated 24th September 1949.

With reference to the above memorandum I beg to submit
as follows:

It is a fact that there is a heavy accumulation of work in the Government Press. The report of the Committee which is being submitted to the Government gives full details. The proposal of the Superintendent that the Establishment lists and similar relatively unimportant publications may be printed outside the Government Press may be approved. This arrangement may be in force for a space of one year and the position may be reviewed after that period. Since a small number of copies only are required in the case of Establishment lists, the Committee suggests that they need not be printed but may be roneoed. The Committee, however, considers that important publications should continue to be printed in the Government Press.
