Office of the
Director of Public Instruction
Madras, dated, 20th Oct. 1949.

From The Director of Public Instruction
Madras.

To The Secretary to Government
Education and Public Health Department
Fort St. George, Madras.

Sir,

Sub:- College of Engineering, Guindy - L.C.E.
and Overseer classes -- Permission to failed
students to continue their studies in the
next higher classes.

84940

In enclosing herewith a copy of the letters R.C.No.116 B1/49 dated 16-8-49 and 20-9-49 from the Principal, College of Engineering, Guindy, I have the honour to state that the L.C.E. Course is now in the process of gradual abolition and considering the overwhelming demand for technical personnel, there is a definite need to provide for the completion of the course of study by both the L.C.E. and Overseer candidates without any break or waste of time. As there is such a provision already in the case of the higher B.E. Degree Course, I recommend that the proposal of the Principal to permit the failed L.C.E. and Overseer students to continue their studies in the next higher studies may be approved with effect from the current year. The Principal will hold Special Examinations for the failed candidates to enable them to make up their deficiency and qualify themselves to sit for the final examinations. The action of the Principal in having continued the failed students in the next higher classes in the current year may also be approved.

Yours faithfully

For Director of Public Instruction

35/29/10.

Copy of letter R.C.No.116 B1/49 dated 16-8-1949 of the Principal, College of Engineering, Guindy, Madras 15, to the Director of Public Instruction, Madras.

I have the honour to inform you that according to the revised Regulations of the University of Madras, students who fail in any one of the first, second or third in B.E. Examinations in any year are permitted to continue their studies in the next higher classes and appear for the examination and also to appear for the subjects in which they have failed. The change of the old regulations has been one of the greatest boons to the students as well as to the institution. According to the present

(P.T.O.)

arrangement, a student has every opportunity to complete his course without stagnating in the College. In addition an Institution can always turn out a maximum number of students in each year without difficulties of accommodation, equipment and staff. Besides Engineers and Engineering Supervisors are required in large numbers at the present moment and it is very desirable that they complete their college course with the least possible delay. In order that these personnel may fit into a department and be useful in the same, it is necessary for them to acquire practical experience in Field Engineering which is prevented if they have not completed their course. For the reasons stated above, it is desirable that every opportunity should be given to students studying in the Engineering and Overseer Classes to complete their courses within the prescribed period.

2. In conformity with the above procedure, the students of the IInd year Licentiate in Civil Engineering and the 1st year Overseer classes who have failed in their annual examination due to lack of minimum marks in the aggregate as well as group minimum were permitted by me to continue their studies in the next higher classes. They will have to, however, appear for the special examinations to be held during the Michaelmas Holidays to enable them to obtain the minimum in the group as well as the aggregate. If they happen to fail in the special Examination, they may still be allowed to study in the higher classes and sit for the examination in March 1950. Students who have completed their course and failed may be permitted to sit for a special Examination to be held during Michaelmas Holidays. Further chances may be given in successive examinations if necessary.

3. I request that my action in having permitted the failed students of the Licentiate in Civil Engineering and Overseer Classes may kindly be approved. It is requested that I may also be permitted to hold a Special Examination during the Michaelmas Holidays.

Copy of letter No. 116 B1/49 dated 20-9-49 of the Principal, College, of Engineering, Guindy, Madras 15., to the Director of Public Instruction, Madras.

Sub: Failed L.C.E. and Overseer Students -- Names of students with marks -- Submitted.

With reference to your Telephonic message cited above, I am herewith submitting a list of students who have failed at the IInd year L.C.E. and Overseer examinations held in March and June of 1949 respectively and who have been permitted to continue their studies in the next higher classes during the current session. The marks awarded to the students mentioned above at the examinations are noted against their names.

2. In this connection, I have the honour to inform you that permitting the failed students to continue their studies in the next higher classes does not require additional seats in the higher classes as the number remains within the authorised strength.

NAMES OF FAILED STUDENTS AT THE IIND YEAR L.C.E. AND 1ST YEAR OVERSEER EXAMINATION -- College of Engineering, Guindy.

IIND YEAR L.C.E. Maximum Marks 1950
Minimum required for a pass. 950
