Sir,

Subject:- Madras Educational Services -- Sri A. Srinivasan, Overseas Scholar -- Extension of study leave.

Reference:- Government T.M. No.97041-A1 Edn., dated 29--12--1948.

(X)/165 CF.R

In G.O.No.1156 Edn., dated 11-6-46 Sri A. Srinivasan, Permanent Laboratory Assistant, College of Engineering, Guindy, was granted study leave for a period of two years from 17-11-45. He returned to India and landed in Bombay on 11-3-48. He had thus overstayed the study leave by a period of 3 months and 23 days (i.e. from 17-11-47 to 10--3--48). The letter dated 5-1-49 of Sri A. Srinivasan requesting to treat this period as extension of study leave is enclosed.

2. After completing the degree course in the Illinois Institute of Technology, Chicago, Sri A. Srinivasan entered practical training for a period of six months in the Transformer Works, Allis Chambers as a special graduate trainee. Referring to this matter Dr. Rudra had stated as follows: in another connection

"The authorities of the Indian Government have had great difficulty in arranging the practical training of our students in U.S.A. Mr. Srinivasan succeeded in not only getting his practical training arranged through his college but also in getting practical training of a most unusual character in the Design and Development Department of Messrs. Allis-Chambers, one of the leading Electrical Firms in U.S.A. The Design and Development Department of a manufacturing firm is a Holy of Holies".

It is on account of this practical training in Industry, which is admitted to be very valuable, that the study leave of Sri A. Srinivasan has to be extended. He completed the training on 26-12-47 and sailed for India via United Kingdom on 17--1--1948. In the circumstances I recommend that Sri A. Srinivasan may be granted extension of study leave for the period from 17--1--47 to 10--3--1948.

3. Anticipating Sri A. Srinivasan's return to India in the first week of March 1948, Government were addressed in my letter No.C1.47/47 dated 23--2--1948 to post him as Instructor in Electrical Engineering in the College of Engineering, Guindy. As orders in the matter were passed only in April 1948 (G.O.802 Edn., dated 6--4--48), Sri Srinivasan had to wait for a posting from 11--3--1948. He took charge in the Engineering College, Guindy on 16--4--1948 afternoon. I recommend that the period from 11--3--1948 to 16--4--48 may be treated as duty upto 6--4--48 under Fundamental Rule 9 (6) (b) and as joining time from 7--4--48 to 16--4--48.

4. The rate of pay to be allowed to the Officer for the period from 11--3--1948 to 6--4--1948 has to be determined by Government, with reference to F.R.20. As A. Srinivasan was a

regular probationer in the post of Junior Instructor in Electrical Engineering which he would have held but for his deputation Overseas, I recommend that Government may authorise him to draw the pay of Rs.260/- a month; the minimum of the scale of pay of the post of Junior Instructor.

Yours faithfully

For Director of Public Instruction.

Pl. ascertain from Sri A.Srinivasan and
report:

(1) whether intimation sent by this Govt.
(in their letter No. 2300-Edn., d/- 30-10-47, and cable dated
12-11-47, to the Indian Embassy) that he need not visit
works in England, did not reach him before he completed his
practical trg. in U.S.A. on 26-12-47;

(2) ^{if it did,} why he sailed to India, back from U.S.A.,
Via ^{U.K.} ~~U.S.A.~~ and why he did not come direct to India; and

(3) when he reached England and when he
left that country and how he utilized the period of his
stay there.

Note: This is req. to
know whether there is justification
to include the period
of his travel & stay in U.K.
in the study leave.
Similar information was
obtained in S. Srinivasan's
case.

the earliest boat to India via U.K. on 17--1--'48, and thus
I had utilised every day of my stay in U.S.A. to good advantage.

4. I had to wait for 3 weeks in England to get the boat
to India, and I landed in Bombay on 11--3--1948 and reported soon
after that to the Principal, Engineering College, Guindy on 15/3/48.

I understand

5. Immediately that study leave may be sanctioned upto a
maximum of 28 months and I therefore request that in view of the
valuable training I acquired in U.S.A., you may be pleased to
recommend to the Government that the period between November '47
and March '48 may be considered as an extension of the study leave.
Though I reported at Madras on 15--3--1948, I was posted as Instruc-
tor in Electrical Engineering only on 16--4--1948 and hence I re-
quest that that period may be treated as joining time.

Yours faithfully,

1. A letter from the Educational Liaison Officer at Washington D.C. dated 17.11.1947 was received by me while I was at Pittsburgh, U.S.A., that I was not permitted to visit works in England and France.

2. All the arrangements for the return passage were made by the Education Department of the Embassy of India at Washington D.C. since there was absolutely no direct passage available to India from U.S.A. at that time, the Embassy sent all the returning Indian students, via., United Kingdom and I had no other option. I was one of the fifty Over-seas scholars who were asked to return to India via United Kingdom. I caught the first available boat to Southampton on 17.1.1948 at New York, *since I completed my practical training at Milwaukee, Wisconsin on 26-12-1947.*

3. I reached England on 23.1.1948 and the passage to India was available only by a boat leaving Tilbury, on 17.2.48. Even this passage had to be obtained only after a great deal of pressure and there was no sailing earlier. Thus I was compelled to stay in United Kingdom for 3 weeks. I utilised this period of 3 weeks in England, to visit the leading Technological institutions and also some of the Research Laboratories and electrical works near London, which are detailed below. I may also add that these visits to the Manufacturing firms and Universities, have ~~not been~~ been of immense benefit to me to organise and equip the Electrical Laboratory of the College.

M.E.S. - Sri A. Srinivasan, offg. Prof. of Engg. -
Extension of study leave.

The D.P.I.'s letter at pp. 3-4 C.F.

may be seen. Sri A. Srinivasan, tempy. Prof. of Elec. Engg.,
College of Engg., Anantapur, overstayed his study leave, which
ended on 16-11-47, and joined duty on 16-4-48 a.n. The over-
stayal was due to the following reasons:-

1. His training in U.S.A. was completed only on 26-12-47.
2. He got his return passage from U.S.A. via U.K. only on 17-1-48.
3. He was held up in England from 23-1-48 to 17-2-48.
4. There was delay in Govt.'s issuing the order of his posting - after he returned to India on 11-3-48.

The Dir.'s recommendation is that

the period from 17-11-47 to 10-3-48 may be treated as study leave, that from 11-3-48 to 6-4-48 as duty, and that from 7-4-48 to 16-4-48 as joining time, and that for the period from 11-3-48 to 6-4-48, the officer may be allowed a pay of Rs. 260 p.m.

Another officer, Sri S. Srinivasan,

who returned to India from U.S.A. via U.K. and who visited electrical works in U.K., similarly overstayed his study leave. The period of his overstayal was treated only as ordinary leave for which he was eligible, the reason being that the Govt.'s prior permission for his visiting electrical factories, etc. in U.K. was not obtained. Such permission was not granted for Sri A. Srinivasan, either. But his case is different in view of the cires. expld. at p. 9 C.F. The period involved in Sri S. Srinivasan's case was only 19 days. The period here is longer, and to debit it against ordinary leave earned, would not be fair. As Sri A. Srinivasan has stated that no direct passage from U.S.A. to India was available and that he visited works in England because he wanted to utilize to his benefit the period for which he was compelled to stay in that country, this dept. may propose that

Please see E.P.H.'s note from p.1 above. After completing the degree course in the Illinois Institute of Technology, Chicago, Sri A. Srinivasan entered practical training for a period of 6 months in the Transformer Works of Allis chambers as a special graduate trainee. It was mainly due to this that the period of study leave granted to him had to be extended. Whatever may be the advantages of and value of the above training, the fact remains that Sri A. Srinivasan did not obtain the prior sanction of the Govt. for his entering practical training in the Transformer Works. However in the circumstances explained by him at A on P.S.C.F. the proposal at A above may be agreed to. C.S, H.N (Fin) & H.N. may see as it involves relaxation of the provision in FR.
