The Secretary to the Government of Madras Education and Public Health Department, Fort St. George, Madras

Enclosures: No. 883/47-A3 dated 12-11-1948.

Rc. Sir.

Sub;- Education- Secondary- Board High school Puttur - conversion into a High school- 1947-48- Assessment of grant- Requested.

Ref;- Govt. Memo No. 61495/46-5 Bl Edn. dated 8-4-47.

With reference to the above

Government Memorandum, the Board Middle school Puttur was raised to the status of an incomplete High school from 1947-48. A maximum of Rs. 4,000/- as recurring subsidy towards the actual next cost of maintenance of the High school noted below was sanctioned for a period of five years from 1947-48. I furnish hereunder the total receipts and charges for the school, in question during 1947-48.

Name of the school.	Total ordinary recurring charges.	Income from fees.	Other receipts.	Net cost (col 2 minus total cols 3 & 4)
1	2	3	4	5
	Rs	Rs	Rs.	Rs.
Board High school Puttur.	13,300	9,137	163	4,000

I therefore request that the maximum net cost of Rs. 4,000/- allowed as per the above government.Memo. may be disbursed to this District Board during the current year being the 1st Annual subsidy.

Further an advance sum of Rs. 4,000/- may be sanctioned towards the cost of the recurring expenditure for the current year.

copy at (Z)

The Board Middle School at Puttur was developed into a High School during the year 1947-48 under the special subsidy scheme in accordance with the conditions laid down in Govt. Memo. No. 61495/46-5 Edn. dated 8/4/1947. One of the conditions laid down in the Government Memo. referred to is that the Middle schools so developed will be paid a recurring subsidy towards the actual cost of maintenance of each school subject to a maximum of Rs.4000/- per annum for a period of five years from the opening of the schools. Adverting to this condition the Special Officer requests payment of a subsidy of Rs. 4000/- to the school for the year 1947-48 according to the particulars receipts and charges furnished by him in his letter under reference for the year 1947-48.

During the year 1947-48 the school under reference opened Form IV at first under the Scheme referred to above and again opened Form V ~~at~~ subsequently during the same year. But since according to Govt. Memo. No. 61495-B1/46-5 Edn. dated 8/4/47, a Middle school developing into a High School under the scheme under reference should open form IV in the first year and Forms V & VI in the succeeding years, Form V in the Board High School, Puthur though opened during 1947-48 is not eligible for the special subsidy under the scheme in question for 1947-48, being eligible only from the year 1948-49 onwards. Attention is, in this connection, invited to Government Memo. No. 53150-B1/47-1 Edn. dated 5/7/47 wherein they have stated that "the action of the Director of Public Instruction in having permitted the opening in the current year of Form V subject to the condition that no subsidy will be paid for the Form for this year is approved". The school has again opened form VI during the current year. But according to Govt. Memo. No. 61495/46-5 Edn., dated 8/4/47 Forms IV, V & VI in the school will be eligible for the special subsidy only from 1947-48, 1948-49 and 1949-50 respectively though they are opened earlier.

The Special Officer, in submitting his application under reference, seems to be under the impression that the High School, though incomplete during 1947-48, should be paid teaching grant under the Special Subsidy Scheme under reference upto a maximum of Rs.4000/- for that year. It is also not clear whether the particulars of Receipts and Charges furnished by him for 1947-48 are in respect of only Forms IV & V or for forms I to V. However, attention is invited to G.O.No. 304 Education dated 17/2/1948 wherein

(245)

wherein Government have clarified the position stating that the maximum limit of Rs.4000/- fixed for teaching grants to the Middle Schools developed into High Schools under this Scheme is for the whole High School Department comprising Forms IV to VI, that the grant for the Middle School Department of such High Schools should be calculated on the basis of half the net cost and that for the Higher forms with reference to the actual net cost subject to the maximum limit specified above. The Special Officer may, therefore, kindly be informed accordingly.

Incidentally, the following issues arise for clarification:

1. Since according to G.O. No. 304 Education dated 17/2/1948, the maximum grant of Rs.4000/- relates to the whole High School Department comprising Forms IV to VI, the question of assessing teaching grant on the actual net cost basis subject to a maximum of Rs. 4000/- in respect of a Middle School which was permitted to develop from 1947-48 arises only in regard to the grant for the High School Department of that school for 1949-50. Such being the case, how the teaching grant has to be assessed for Form IV of the school for 1947-48 and for forms IV and V for the year 1948-49 has to be considered.

2. In regard to Forms V & VI in the school under reference (i.e.) Board High School, Puttur, since, as stated above, these forms are not eligible for the special subsidy for the year 1947-48 and 1948-49 respectively (they will be eligible for the special subsidy only from 1948-49 and 1949-50 respectively), it is presumed that they have to be assessed teaching grant only on half net cost basis in respect of these years.

In regard to the forms it is submitted that consequent on the opening of Form IV in a Secondary School the increase in the staff will ordinarily be only an L.T. Assistant for each section of Form IV and a Headmaster for the whole school, because, according to Rule 17 of the Madras Educational Rules, the Headmaster of a Middle school will ordinarily be treated as one of the class-teachers while in regard to a high school the Headmaster's post will be in addition to the No. of class teachers required and hence the posts of an L.T. Assistant for each section of Form IV and of the Headmaster have to be created when a Middle School is developed into a High School by the opening of Form IV. Hence, the expenditure that the Local Body has to incur consequent to the opening of Form IV will be practically only towards the employment of the staff as stated above though, of course, there may also be some small expenditure by way of contingencies in regard to this form. But since the Headmaster's post that is created as a consequence of opening Form IV in the school caters to the needs of not only for form IV but also of the entire school, the aid granted from provincial funds towards the maintenance of this post can be taken as sufficient, compensation for the expenditure which the local body incurs by way of contingencies in regard to this form. It will, therefore, suffice, if in regard to the assessment of teaching grant for a secondary school which has developed and opened forms IV & V

under the special subsidy scheme grant for the whole school is calculated on half the net cost basis and to the resultant amount, an amount equal to half the expenditure towards the maintenance of the post of the L.T. Assistants and of the Headmaster where only form IV has been opened or where form V also has been opened is added in fixing the amount of the teaching grant payable for the school.

Similarly, in regard to the Second issue referred to above (i.e.) in regard of assessing teaching grant for Forms V & VI in the Board High School Puttur for 1947-48 and 1948-49 respectively, grant may be calculated for the entire school on half the net cost basis and to the resultant amount an amount equal to half the expenditure towards the post of one L.T. assistant and the Headmaster for 1947-48 in respect of Form IV and two L.T. assistants and the Headmaster for 1948-49 in respect of Forms IV and V may be added in fixing the amount of the teaching grants payable to the school in the respective years.

What has been discussed so far is in regard to a Middle School which has been developed into a High School under the Special Subsidy Scheme. But there are also the cases of another type. For example, Board Middle School Podili of Nellore District and Board Middle School, Sidhavattam of Cuddapah Dt., were opened during 1947-48 under the special subsidy Scheme and this year the local bodies have opened form IV in these schools of their own accord and not under the Special Grant Subsidy Scheme. The Middle School Department, in these cases, has, therefore, to be assessed teaching grant on full net cost basis according to the Special Subsidy Scheme while the High School Department has to be assessed on the half net cost basis. In regard to the assessment of teaching grant to these schools when they open only form IV or Forms IV & V as the case may be, following the procedure suggested above, grant may be calculated for the whole school on full cost basis and from the resultant amount, an amount equal to half the expenditure incurred towards the posts of L.T. Assistants at the rate of one for each section of Forms IV or V and of the Headmaster may be deducted so as to fix the amount of teaching grant payable for the school.

It is, therefore, requested that Government may be pleased to pass orders in regard to the points referred to above.

It is also requested that Government may be pleased to advise local bodies to see that in regard to schools wherein the Middle School Department or High School Department is opened under the Special Subsidy Scheme, the Schools maintain separate accounts for the respective Departments and also to submit separate financial statements in this regard.

To: for Director of Public Instruction.

under the special subsidy scheme grant for the whole school is calculated on the net cost basis and to the resultant amount, an amount equal to half the expenditure towards the maintenance of the post of the L.T. Assistant and of the Headmaster where only Form IV has been opened or where Form V also has been opened is added in fixing the amount of the teaching grant payable for the school.

Similarly, in regard to the second form referred to above (i.e., the 1st of assessing teaching grant for Forms V & VI in the Board High School for 1947-48 and 1948-49 respectively, grant may be calculated for the entire school on half the net cost basis and the resultant amount an amount equal to half the expenditure towards the post of one L.T. Assistant and the Headmaster for 1947-48 in respect of Form IV and two L.T. Assistants and the Headmaster for 1948-49 in respect of Forms V and VI may be added in fixing the amount of the teaching grant payable for the school in the respective years.

What has been discussed so far is in regard to a Middle School which has been developed into a High School under the Special Subsidy Scheme. But there are also the cases of another type. For example, Board Middle School, Helliore District and Board Middle School, Hiranandam in Pathapatnam Taluk were opened during 1947-48 under the special subsidy scheme and this year the local bodies have opened Form IV in these schools of their own accord and not under the special subsidy scheme. The Middle School Department, in these cases, has, therefore, to be reassessed the teaching grant on full cost basis according to the Special Subsidy Scheme while the High School Department has to be assessed on the half net cost basis. In regard to the assessment of teaching grant to these schools when they open only Form IV or Forms IV & V as the case may be, following the procedure suggested above, grant may be calculated for the whole school on full cost basis and from the resultant amount, an amount equal to half the expenditure as incurred towards the post of L.T. Assistant and of one for each section of Forms IV or V and of the Headmaster may be added as to fix the amount of teaching grant payable for the school.

If, therefore, requested that Government may be pleased to pass orders in regard to the points raised above.

It is also requested that Government may be pleased to advise local bodies to see that in regard to schools wherein the Middle School Department or High School Department is opened under the special subsidy scheme, the schools maintain separate accounts for the respective departments and also to submit separate financial statements in this regard.

Education and Public Health Department.

MEMORANDUM No.61495-B1/46-5 Edn.,dated 8th April 1947.

Schools--Secondary--Opening of new middle schools for boys and conversion of middle schools into high schools--Payment of subsidies to local bodies from 1947-48.

School at Puttur into a High school--Permission for the opening of Form V also in 1947-48.

There are certain taluks in this Province which have not got the benefit of even a single high school. The Government consider it essential that each taluk should be served atleast by one High School; that to begin with a middle school with classes 4 and 5 and Forms I to III should be opened in taluks which have not even a middle school and that it should be developed into a high school in due course and that in a taluk where there are only middle schools, one of the middle schools should be converted into a High School by the opening of Form IV in the first year and Forms V and VI in the succeeding years. With a view to encourage local bodies to open schools in such taluks, the Government propose to grant, as a special case, non-recurring subsidy towards the full cost of the initial equipment subject to a maximum of Rs.3,000/- (Payable in two instalments of Rs.1,500/- each in successive years) and a recurring subsidy towards the actual cost of maintenance of each new school subject to a maximum of Rs. 3,300/- per annum for a middle school and of Rs.4,000/- per annum for a high school for a period of five years from the opening of the schools. The subsidy will be converted into a fixed lump sum subsidy at the end of the five year period. The new schools should be located in rented buildings if suitable buildings belonging to the local bodies are not available and no building grant will be sanctioned at the outset.

2. Provision has been made in the Budget for 1947-48 for the payment of subsidies to local bodies for four new middle schools and two high schools to be opened under scheme outlined in paragraph 1 above. The following taluks have been selected for the purpose.

For the opening of Middle Schools.

Vizagapatam District.	.. Pathapatnam Taluk (Hiramandalam)
Cuddapah District.	.. Siddhavattam taluk
Nellore District.	.. Darsi Taluk
The Nilgiris District.	.. Gudalur Taluk.

For the conversion of middle schools into High Schools.

Coimbatore District.	.. Palladam Taluk
Chittoor District	.. Puthur Taluk.

The new Middle school may be located at any convenience centre in the taluk and it need not necessarily be at the taluk headquarters.

The Director of Public Instruction is requested to ascertain and report whether the District Boards concerned are willing to open new middle schools or to convert the existing middle schools into high schools at the selected centres on the terms proposed and if so to instruct them to submit necessary proposals in the matter supported by a resolution of the District Board. He is requested to suggest to the District Boards the suitable centres for the establishment of new middle schools. The Vizagapatam District Board had already proposed to open a new middle school at Hiramandalam in Pathapatnam Taluk and the centre is approved.

Grant - Teaching - 1947-8-Board High school, Puttur - Payment in 1948-9.

From the S.O. Dt Bd. Chittoor, No 883/47-A3 dated 12-11-48

From the D.P.I., R.C.No 2512 62/48 dated 28-12-48

Memorandum No 85145-8/48-2Edn dated 18-1-49

The S.O. Dt Bd, Chittoor, is informed that in respect of middle schools developed into high schools in taluks not served by high schools under the system of special aid, the grant for the middle school department of such high schools will be calculated on the basis of one half of the approved net cost and for the high school department on the basis of the full net cost subject to a maximum of Rs 4,000. It is therefore necessary to maintain separate accounts for the middle and high school departments in such high schools and to submit

inter
with the

separate financial statements showing the receipts and expenditure for each department. The teaching grant for ~~1947-8~~ 1947-8 payable in the current year for the Board High school, Puttur, will have to be assessed on the above basis. The S.O. is requested to report whether the receipts and charges of the school reported in his letter cited above is for forms 1 to V or only in respect of forms IV and V only. He is requested to furnish financial statement in the prescribed form showing the receipts and charges for the middle school dept and high school department. ^{As per D.P.I.} As grant will be admissible for the newly ~~opened~~ ^{opened} Form IV only for 1947-8, the receipts ~~xxx~~ and expenditure in respect of that form only should be reported furnishing particulars of posts newly created for the IVth form. ~~newly opened opened in 1947-8~~ ^{separately} The grant for Form V will be admissible only from 1948-9 as normally the additional form should have been opened only in the current year.

2. The S.O. Dt Bd is also informed that advance teaching grant ~~will not~~ ^{generally} be paid unless the Govt are satisfied that the financial position of the Dt Bd is such that it cannot meet the cost of maintenance of the high school from its general funds without some advance grant. The S.O. Dt Bd Chittoor is requested to ~~report~~ ^{justify} his claim for the

Grants - Teaching - ~~Secondary schools~~ Middle schools and high schools newly opened in taluks not served by such schools - Assessment of grant for the department which is eligible for special aid - Instructions Issued.

From the S.O., Dt.Bd. Chittoor, Rc.No.883/47-A3 dt.12-11-48
From the D.P.I. Rc.No. 2512-G.2/48 dated 28-12-48.

ORDER/MS. NO. 344 EDN. DATED 10.2.49

With a view to provide atleast one high school for boys in each taluk, the ^{policy is} ~~Govt.~~ have decided that a new middle school should be opened in a taluk which has not even a middle school and it should be developed into a high school later on and that ⁱⁿ taluks where there are middle schools but no high school, one of the existing middle schools should be converted into a high school by opening Form IV in the first year and Froms V & VI in succeeding years. With a view to encourage local bodies to open new middle schools and high schools in such backward taluks, the Government have undertaken to pay, as a special case, teaching grants based on the entire net cost of maintenance of the new middle and high schools subject to a maximum of Rs.3,300 for a middle school and of Rs.4,000 for a high school for a period of five years from the opening of the school instead of the usual grant. Under this system of special aid, the opening of ^{some} new middle schools and the conversion of certain middle schools into high schools ~~and~~ has been sanctioned in 1947-8 and 1948-9. In respect of these, it will be necessary to assess teaching grants to the middle and high school departments on a different basis. The local bodies concerned should therefore maintain separate accounts for the ^(middle & high school) departments ~~and~~ ^{schools & form} submit separate financial statements ^{in 2 Pgs.} ~~from the next year onwards~~ onwards.

2. In order to facilitate the assessment of teaching grants in the current year to secondary schools which are partly eligible for ordinary aid and partly for special aid, the D.P.I. has suggested as follows:-

P.T.O.

Approved by
10/2/49

A on p. 1

(1) that in the case of middle schools converted into high schools by opening higher forms under the system of special aid, grants may be assessed on the basis of half the net cost for the ~~entire~~^{whole} school and a grant equal to one-half of the expenditure on the employment of additional staff for the higher forms may be added to it as the maximum limit of Rs.4,000 for the high school department/^{alone} will become operative only when the school becomes a complete high school, and

(2) that in the case of a middle school which is eligible for special aid and ^{in which} higher forms have been opened by the local body concerned without special aid, grant may be assessed on the basis of the net cost for the ~~entire~~ ^{whole} school and from the grant thus arrived at, one-half of the expenditure incurred on the employment of the additional staff for the higher forms ^{may} ~~should~~ be deducted.

The Government accept the Director's suggestion.

The admissible increase in staff consequent upon the opening of higher forms will ordinarily be an L.T. Assistant for each section of ~~from~~ ^{or Forms IV} IV and V ^{as the case may be} and a headmaster ~~for~~ ^{for the whole} ~~school~~ ^{school} ~~for~~ ^{for} the ~~entire~~ ^{entire} grade. The aid given from Provincial Funds for the newly created post of Headmaster will be considered to be sufficient ~~to~~ compensation towards the expenditure incurred ~~on~~ ^{on} ~~the expenditure of~~ ^{the expenditure of} ~~on contingencies in regard to~~ ^{on contingencies in regard to} the higher forms.

3. The Government accept the recommendation of the D.P.I. that for the Board High School, Puttur, teaching grant may be assessed on the basis of half the approved net cost ^{for the whole school} and the additional grant equal to one-half of the additional staff employed for the higher forms may be limited to Form IV for 1947-8 and Forms IV and V for 1948-9 as ^{would be} ~~this~~ ^{if the forms had been ^{opened} one after another} only ~~will be~~ admissible in the normal course, ~~and~~ ^{Forms} ~~From~~ V and VI will not be eligible for special subsidy for 1947-8 and 1948-9 respectively.

Grant - Teaching - ~~Secondary~~ schools under local bodies - middle schools converted into high schools - Assessment of grant for the department which is eligible for special aid.

From the D.P.I. Rc.No.2512-G2/48 dated 28--12--48.

The policy of Govt. is to provide at least one high school in each taluk. In order to achieve this object in taluks where there is not even a middle school, a middle school should be newly opened and it should be developed into a high school later on and in taluks where there are middle schools but no high school, one of the middle schools should be converted into a high school by the opening of Form IV in the first year and forms V & VI in succeeding years. With a view to encourage ^{ing} local bodies to open new middle schools and high schools in such backward taluks, the Govt. have undertaken to pay teaching grants on the basis of the entire net cost of maintenance of the new middle and high schools subject to a maximum of Rs.3,300 for a middle school and of Rs.4000 for a high school for a period of five years from the opening of the school instead of ^{The} ~~usual~~ one-half of the net cost. Under the system of special aid, two middle schools were converted into high schools in 1947-8 and the conversion of three ^{middle} ~~high~~ schools into ^{high} ~~middle~~ schools has been sanctioned in the current year.

2. In order to facilitate the assessment of teaching grant for such schools, the D.P.I. recommends that local bodies may be advised to maintain separate accounts for the middle ^{and} high school departments and to submit separate financial statements in this regard.

The Director's recommendation may be accepted and instructions may be issued accordingly.

3. In connection with the assessment of teaching grants to secondary schools which are partly eligible for ordinary aid and partly to special aid, the D.P.I. has raised certain points for clarification. These are dealt with below.

P.T.O.

(1) Middle schools converted into a high school - Teaching.

Grant for higher forms:- In respect of such schools,

grant on the basis of full net cost will be admissible

for Form IV in the first year, Form IV & V in the

second year and Forms IV to VI in the third year. The

maximum limit of Rs.4,000 will become operative only

for the assessed grant in the first two years after the opening of the school. It is not known whether separate

accounts have been maintained by the local bodies

concerned for the forms newly opened under the system

of special aid. In order to facilitate the assessment of teaching

of grant, the D.P.I. suggests that grants may be

assessed on the basis of half the net cost and a grant

equal to one-half of the expre. incurred on the employ-

ment of addl. staff leaving out of consideration the small

extra expre. under contingencies. He has specified the

extra staff to be admitted for the purpose in para 6 of

his letter on p.3.c.f. Similarly in the case of the

other type in which higher forms have been opened by a

local body in a middle school which is eligible for spl.

aid without applying for special aid for the higher

forms, D.P.I. suggests that grant may be assessed on the basis

of the net cost for the entire school and from the grant

thus arrived at, one-half of the expre. incurred on the

employment of additional staff for the higher forms may be

deducted. The Director's suggestion may be accepted for

assessment of grants in the current year.

(ii). In the case of the Board High School, there

is another complication due to the action of the Dt. Bd. in

having opened forms IV & V in the first year instead of

Form IV only in 1947-8 and form VI in 1948-9 instead of in

1949-50. The opening of Form V in 1947-8 was permitted

subject to the condition that no subsidy will be paid by Govt.

towards its opening and maintenance. The D.P.I. now recommends

that teaching grants may be assessed on the basis of half the

net cost for the higher forms opened in 1947-8 and 1948-9

and the...

and the additional grant of half the cost of the additional staff employed for the higher forms may be limited to Form IV for 1947-8, Forms IV & V for 1948-9 as this only will be admissible in the normal course.

The Director's recommendation may be accepted.

The remarks of Finance may be invited u.o.
