A The question of taking up the adjacent private building on rent, if possible or acquiring it for the school is under correspondence with the Inspectress of Girls schools IV circle, Salem. As regards the provision of doors and windows to the new block of class rooms the Executive Engineer has forwarded an estimate for the work. He desires that the Consulting Architect to Government may be consulted regarding the desirability of providing doors and windows as the original design based on which the class-rooms have been constructed does not provide for doors and windows. A reference is therefore being made to the Joint Consulting Architect to the Government in this regard. I shall submit my final report as soon as I get a reply from the Inspectress and the Joint Consulting Architect.

I have the honour to state that the estimate for the provision of
doors and windows to the new block of class-rooms, has since
been approved by me, in consultation with the Joint Consulting
Architect and returned to the Executive Engineer for carrying
out the work.

As regards taking up the adjacent building on rent for
the school, the Rent Controller, Karur, allotted the building
for the school, but it has not so far been taken possession of
by the school. The Inspector reports that the owner of the build-
ing has filed an appeal in the Sub-Court against the orders of the
Rent Controller, that an interim stay order has been issued by the
Sub-Court and that the case is being adjourned. The judgment of
the Sub-Court is awaited.

Sir,

Subject: Buildings - Government Secondary and Training
School for women, Karur - Construction of 3
additional class-rooms at an estimated cost
of Rs.31,970/- - Proposals - Submitting.

In connection with Part II of the Budget Estimate for
1950-51, I have the honour to submit for the favourable con-
sideration of Government, the following proposal for the cons-
truction of 3 additional class-rooms for the Government Sec-
ondary and Training School for women, Karur.

The accommodation now available for the school is tho-
roughly inadequate. The strength of the school exceeds 550
and there are sixteen sections, in all, in the school. For
want of accommodation, 4 classes are held in verandahs, and
forms VI and the Sanskrit Class are located in the small shed
(30' x 6') formerly used for Music class. Almost all the
present class-rooms are unsuitable being very small, measur-
ing 20' x 15'. It is therefore absolutely essential that
additional accommodation for the school, is provided very
urgently. In this connection I may also invite the atten-
tion of Government to the correspondence ending with my
letter ROC.No.1329-K.1/49 dated 5-9-1949 (Vide Government
Memo.No.92116/48-1 C.1 Edn dated 15-12-1948).

The proposal is to construct three additional class-
rooms in continuation of the block of 2 class-rooms cons-
tructed recently (vide G.O.Ms.No.100 P.W.D. dated 10-1-1946
and G.O.Ms.No.3014 P.W.D. dated 16-11-1946). The work is
estimated to cost Rs.31,970/- vide letter No.2207 M
dated 2-9-1947 from the Executive Engineer, Tiruchi Division
(copy enclosed). The plan referred to by the Executive
Engineer is also enclosed.

I request that Government may kindly accord their
approval to the scheme and provide necessary funds for the
purpose in the budget for 1950-51.

In his letter Roc.No.1329-Kl/49 dated the 5th
September 1949, the Director of Public Instruction has reported
that the question of taking over the building adjacent to
the school Government Secondary and Training School for Women,
Karur, for accommodating some of the classes, is pending the
order decision of the Sub-Court, Karur, on the appeal preferred
by the owner of that building and that the question of acqui-
sition of that building is ^{also} under correspondence with the

The Director is requested to consider and report whether the construction of three additional class rooms for the school at an estimated cost of Rs. 31,970/- should not be deferred for the present, ~~as it will not be necessary in the event of~~ if the court orders the allotment of the building to the school or ~~if~~ if it is decided to acquire it for the school.

Subject:- GOVERNMENT SECONDARY AND TRAINING SCHOOL FOR

Reference:- Government Memorandum No.92116-C1/48-2 Edn.,
dated 8-10-49.

I have the honour to state that the judgment in the appeal filed by the owner of the private building adjacent to the school is still awaited and in case it is favourable and if the private buildings is made available there will be no need to construct the additional class rooms proposed in my letter Rc.1359 K1/49 dated 27-9-49. But the possibility of securing that building cannot at this moment be predicted with any certainty and hence proposals were submitted for the construction of additional class rooms as the school is badly in need of additional accommodation.

2. I may also point out that in case the present proposal is deferred and the judgment of the Court is unfavourable, acquisition proceedings have to be launched almost immediately for acquiring the buildings under the Land Acquisition Act. Even after acquiring the building, alteration might become necessary to suit the needs of the institutions as being a residential bungalow it may not be of the required standards. Taking all the above points into consideration, I feel that the proposal to construct additional class rooms will be economical and therefore request that necessary provisions may kindly be made in Part II of the estimate for 1950-51.

For H.M. (Education)

I visited the Government Training School for Women at Karur on the 6th instant. A representation made by the students of the institution is attached. The accommodation in the school is small compared to the number of students on the rolls. It was suggested that the adjacent building may be purchased for the school. This may be done if it is possible.

A new block is under construction in the school compound. I am told the estimate for this building does not provide for doors and windows. I think this should be provided for, in the interests of safety of the school property. The work will be much

PART II SCHEME FOR 1950-51.

Construction of 3 additional class rooms for the Government Secondary and Training School for Women, Karur.

Estimated Cost - Rs 31,970.

Please see the E.& P.H. Department's notes on pages 2-3 above.

For accommodating some of the classes in the Court, Secondary & Training School for Women, Karur, the Rent Controller, Karur, allotted an adjacent private building for the School. The owner of the building has, however, filed an appeal ^{in the court} against the orders of the Rent Controller. The judgment in the appeal is awaited. In the meanwhile, the D.P.I. has submitted the present proposal for constructing 3 additional class rooms for the School at an estimated cost of Rs 31,970. It may be observed that if the Court orders the allotment of the building to the school, there will be no necessity for the construction of the additional class rooms. In any case, the construction of new class rooms cannot be considered to be really and immediately essential - cf. 'A' on p.2 above - though desirable.

In view of the present financial stringency, it seems that this work can very well wait for better times. Finance may therefore suggest that the proposal may be deferred.

Please see the remarks of E.H.D and Finance dept on p.3-4 above. Finance dept suggest that the proposal for the construction of three additional class rooms for the Govt Secondary and Training School for women, Karur may be postponed for a year in view of the present financial stringency. It is for order whether the advice of Finance may be accepted. Please see the Secy's letter on p.13 CF
