Sir,

Sub: Surplus stores - section E.C.S. of Catalogue No.2 - Electrical Engineering Stores, communication stores and Scientific instruments - Requirements of Engineering Colleges - Reported.

Ref: 1. Govt.Memo.No.67415-I A/46-1,(Development), dated 16-9-46
2. " 54622-3 (Gl.P.H.), dated 28-10-46.

Four lists of stores required for the Arthur Hope College of Technology, Coimbatore and the College of Engineering, Guindy are submitted herewith in duplicate for favour of transmission to the Director General of Disposals, New Delhi. The Principal, Engineering College, Cocanada has reported that none of the items shown in the catalogue are needed for his college.

2. The cost of the surplus stores needed for the Arthur Hope College of Technology, Coimbatore can be met from the current year's budget allotment. The sanction of the competent authority will be obtained after ascertaining the exact cost of the stores indented for as the prices of items 1 to 3 of the indent are not now known. The Director-General may be requested to supply the stores expeditiously and in any case before the end of the current financial year.

3. In the case of the College of Engineering, Guindy the lists of requirements have been made out separately for the Electrical Laboratory, Power House and ~~the~~ Tele-communication Laboratory. In the absence of information regarding the prices of the stores indented for, it is not possible to estimate the total cost of the indents and to state whether financial sanction exists. The stores mentioned in the indent of the ~~the~~ Tele-communication department are so expensive that it will be possible to purchase them only if the Govt. are pleased to sanction a special non-recurring grant for the purpose.

4. In this connection ~~kind~~ attention is invited to the letter dated 12-11-46 (herewith enclosed) of the Professor of Tele-communication Engineering who has asked for complete details as to the present condition of the stores mentioned in the indent of his department. The authorities concerned may be requested to furnish the information required.

5. The stores indented for by the Principal, Engineering College, Guindy are required for instructional purposes in the College which had served as an important centre of war effort. I therefore request that the Govt. of India may be requested to supply the required stores FREE OF COST in consideration of the above fact.

for Director of Public Instruction.

Department of Electrical Engineering,
Dated 14th November 1946.

To

The Principal,

Sir,

Sub: Surplus Stores & Electrical Engineering Stores etc - Disposals of - Indents Called of - Vide D.P.I.'s Pros. R.C.No. 7100-A.2/46 dated 30.10.1946

I am herewith enclosing an indent for Electrical Stores in the prescribed form :

2. The first two items 15 H.P.D.C.Motor and 20 H.P., A.C. Motor are required (i) to form a motor generator set to give an auxiliary Direct Current power supply for the Electrical Engineering Laboratory (ii) to carry out an investigation on a slip ring Induction Motor of large size - at present there is no large size slip ring induction motor in the laboratory.

3. The third and fourth items 4 K.W. D.C.Generator and 5 H.P. A.C. Motor are required for providing extra number of tests in the Laboratory.

4. The Director has stated that the indents would be placed on the Disposals only after obtaining the sanction of the Government for funds. As there is every likelihood of delay in getting this sanction and as by this time the articles may be sold out, the Director may kindly be requested to address the Disposals to reserve these items of our indent for the College.

5. Further, since these are required for educational purposes, the Disposals may be addressed for special concessional rates.

ks/as.

Professor of Electrical Engineering.

Principal,
College of Engineering,

PTS.13/11/-

Department of Telecommunication Engineering,
College of Engineering, Guindy.
Dated: 12th November 1946.

To

The Principal,
College of Engineering, Guindy

18

Sir,

After carefully examining the various items of interest to this Department in 2nd Catalogue Section ECS circulated with your note of 4th November 1946, I have made up the enclosed list of items that we would like to have. In many cases, the values of the different items are not mentioned and there is also the question of the condition in which they are. Although this has been indicated by the letters F, G, etc., one cannot be too certain, and personal inspection is, I think, very essential.

2. Item 6 (radar equipment) is extremely expensive costing Rs.84,666/-. But we have information that this figure has been reduced to Rs.27,000 by the Directorate General of Disposals. Even at this price, it is extremely expensive and it will not be possible to purchase this equipment even out of the non-recurring grant of this Department. We would greatly like to have this apparatus for the instruction of the students as it incorporates some of the most recent developments in radio. I would therefore request that every attempt may please be made to obtain it as a gift to the College or merely for a nominal sum. Now that the War is over, this apparatus can be of no use either to the military authorities or to anyone else. The only use they can be put to is for the education of telecommunication students. And there can be no better use for them.

3. We would also like to have a Transmitter, and my list includes item No.9, viz., 10 DB/358-T.3040 H-Transmitter. Here again, the catalogue gives absolutely no information regarding the power, frequency etc., of the Transmitter. Nor does it mention anything about its cost. Until this information is available, I request that the inclusion of this item may be treated as just provisional.

4. We are greatly in need of telephone, and telegraph apparatus and also of a 16 m.m. Cinema Projector. There are several items of this type mentioned in the catalogue, but the details given are so meagre that it is impossible to find out whether they will be suited for our work or not. If there is any means by which fairly complete details can be made available, I shall be much obliged if I may have such information in order to decide upon their purchase.

K. Sreenivasan.

Professor of Telecommunication Engr

Ref: Letter from the D.P.J. No. R.D.C. 7100 A2/46 dated 19-11-46.

The D.P.J. is informed that the D.G.D. has not indicated the prices for the stores referred to above as they are not available with him. The prices will be fixed in due course at the rate that is considered reasonable and agreable by the Provincial Govt. and the D.G.D. The Director may take into consideration the prevailing market rate of the materials for the purpose of obtaining financial sanction. He is requested to submit proposals if necessary on this basis to the Govt. to provide the necessary financial sanction for the purchase. No indents can be forwarded to the D.G.D. without orders financial sanction/ orders for each item of the stores proposed to be purchased.

Director of Public Instruction, Madras.

To

The Secretary to Government,
Education and Public Health Department, Madras.

ASSISTANT SECRETARY TO GOVERNMENT
6 MAR 1947
EDN AND PUBLIC HEALTH DEPARTMENT

Sir,

Sub:- College - Engineering, Guindy - Indent for surplus stores - Electrical Engineering, Scientific instruments, Arms and Ammunitions.

Ref:- Government Memorandum No.218-1 G/1 P.H., dated 22-1-1947.

In submitting herewith a copy of the letter Rc.141 Sk/46, dated 25-2-1947 from the Principal, College of Engineering, Guindy, I request that Government may kindly sanction an expenditure not exceeding Rs.11,000/- (Rupees Eleven thousand) only, in 1947-48, being the approximate cost of the surplus stores included in the indents submitted with my letter R.C.7100 A2/46, dated 19-11-1946. The indents may be passed on to the Director of Industries and Commerce for transmission to the Director-General of Disposals, New Delhi.

2. The cost of all the stores, excluding the Radar equipment may be taken as Rs.11,000/- for the purpose of according financial sanction. If the actual cost were to exceed this amount, revised sanction of Government will be obtained.

3. The Expenditure will be met by reappropriation in 1947-48 as the provision for the purchase of surplus stores has been included in the Budget Estimate for the year.

I have the honour to be,
Sir,
Your most obedient servant,

for Director of Public Instruction

m.k.5/3.

R.C.141/SK/46.

College of Engineering, Guindy,
Dated 25nd February 1947.

To

The Director of Public Instruction,
M A D R A S.

Sir,

Ref: Your proceedings R.C.7100/A2/46 dated 24-1-47.

In the list of requirements for this College from the surplus stock of the Second catalogue section E.C.S., submitted with this office letter R.C.141/SK/46 dated 14-11-46, prices have been furnished for stores relating to the Power House and Electrical Engineering Laboratory.

2 Prices have not been shown against certain items relating to the Tele-communication department, for want of particulars regarding their size, power capacity and performance. Further, as these items are reported to be at different places, assessment of their values after personal inspection is also not possible. The articles relating to the Tele-communication department will not be useful to the Military authorities nor can they be used by other civilian departments. The best and perhaps the only use to which they can be put is by transferring them to the College for the education of Tele-communication Engineers. This College has been the centre of war effort and produced large number of Technicians and

P.T. O.

A1

other war personnel and it will be appropriate to transfer them free of cost. If however, this is not practicable, I suggest that a purely nominal charge may be made for each item.

The approximate cost for all the stores mentioned in the list including transport charges may be taken as Rs.11,000/- and this amount may please be provided as a separate allotment. This estimate excludes the cost of Radar equipment included in the above list as the same is proposed to be obtained for the College, as a gift.

Yours faithfully,

PRINCIPAL.

E.&P.H.G.I.

E.&P.H.G.I.

Please see the letter from D.P.I at p.1 ante. It may be transfered to the Education Dept. A section for according the necessary financial sanction.

2. At 'X' on p.1 ante, the D.P.I. has requested that the indents may be passed on to the Director of Industries & Commerce for transmission to the Director General of Disposals. The attention of the D.P.I. may be invited to the memo at p.45 of Memo No 218-I/GI/P.H. d. 22.1.47 and he may be informed that he should forward his indents to the Joint Director of Industries & Commerce.

Letter / Ref No. 18521-A(47)-2 Edn dt 21-4-47

To

The Director General of Disposals
Industries and Supplies Dept
Shajahan Road, New Delhi
with encls.

Sir,

Surplus stores - Electrical Eng: Stores
Communication stores - Scientific
instruments - Arms and Ammunitions -
Disposal of.

I am directed to forward four lists of surplus Engineering stores required for the Arthur Hope College of Technology Coimbatore, and the College of Eng: Guindy. It is requested that the stores required by the Arthur Hope College of Technology may be supplied as expeditiously as possible with details of their cost.

2 The stores required by the Eng: College, Guindy, are for instructional purposes in the College which had served as an important centre of war effort. The Principal of the College has reported that the stores required by the Tele-Communication dept will be useful neither to the Military authorities nor for other civilian depts and that the best and perhaps the only use to which they can be put is by transferring them to the college for the education of Tele-Communication Engineers. In the circumstances I am to request that

the Govt. of India would be good enough to consider the question of supplying the stores required by Engg. Colleges, free of cost.

College of Engg, Cuttack - purchase of surplus stores available with D.C.D. (Disposals)

C.No. 18521 A(4); From the DPI, No. 7100 Ac/4b & 4-3 dt. 49

Pl. see the memo on p 1 cf, the letter from the DPI on p 2 1 cf and the memo. on pp 43-44 cf of (M). The DPI has now submitted for the sanction of Govt an estimate not exceeding Rs 11,000 for the purchase of surplus stores required for the Engg. College, Cuttack. He has also requested that the indents submitted with his letter on p 2 1 cf of (M) may be passed on to the D.G.I.C. for transmission to the D.C.D., New Delhi.

No provision has been made for the expts in the budget 1947-48. The Director therefore proposes to meet the expts by reappropriation in 1947-48. The cost of the stores is now calculated at the prevailing market rates and it is quite likely that the cost may go up when the materials become actually available. In the case, the Director intends to get a revised sanction of Govt. As the stores are essentially required for instructional purposes in the college, the expts of Rs 11,000 may, perhaps be sanctioned.

The indents may be retd to the Director, inviting his attention to the Govt. Memo. on p 45 cf of (M).

Finance may see for remarks before circulation.

Finance (Exp. B)

Please see the note of E.I. P.H. above. The proposal at x above may be agreed to subject to

G.J. 22.3.47

to the following remarks:

In his letter dated 19.11.46, the Director of Public Instruction pointed out that the stores indented for by the Principal, Engineering College, Guindy, were required for instructional purposes in the college which had served as an important centre of war effort and suggested that the Govt. of India might be requested to supply the required stores free of cost. E. & P.H. supported the suggestion. The Principal, College of Engineering, Guindy, has pointed out that the articles required for the Tele-communication dept. of the college will be useful neither for the military authorities nor for other civilian depts. and that they may be obtained free of cost. E. & P. H. may be requested to consider the above suggestions.
