Schools - Secondary - Local bodies + private management
Opening of new middle schools for girls in 1949-50

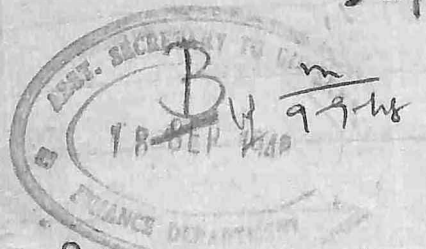

From the D.P.S. Memo 1992 G. 2/48 & 30-8-48

The D.P.S. enquires whether he may submit proposals for the opening of six new middle schools for girls in 1949-50 under the system of special aid - three by local bodies and three by private management. for consideration as a Part II scheme for 1949-50.

2. Secondary education for girls is in a very backward state and it requires a pullup. Even if special encouragement is given, local bodies and private management don't come forward to open girls' schools. The scheme for the opening of new girls' schools in centres not served even by a middle school for girls may therefore be considered to be imperative and immediately essential for the proper running of the department and the Director may be asked to submit proposals for aiding six such schools from 1949-50.

3. The Retrenchment Committee recommended that in respect of schools newly opened by local bodies, the same system as obtaining with reference to schools established earlier may be followed, as the Committee was of opinion that there is no need for meeting the entire net cost. The recommendation was placed before the Cabinet & it was deferred. The system of special aid may therefore be continued.

4. The remarks of Finance may be invited prior to given.

2. The Director suggests that provision may be made in the B.E. for 1949-50 for the opening of 6 middle schools for girls - 3 by local bodies and 3 by Private Agencies. His suggestion may be accepted.

3. The Director has recommended the provision of Rs 1,500/- for each school ^{presumably} towards the initial cost of equipment. He has not suggested any provision towards teaching grant. Normally the teaching grants for 1949-50 are payable only in 1950-51. But ^{in the case of} schools ^{opened} under the Special Subsidy Scheme, ^{an advance teaching grant is made} ~~and as there is a pressing need~~ ^{in the year in which the schools are opened} for the opening of these schools, an advance teaching grant of Rs 1,500 for each school may also be provided. ~~under~~ in the B.E. for 1949-50.

4. ~~Subject to orders~~ A draft Part II scheme note is submitted for approval. It may be sent to Fm U.O. for acceptance prior to circulation [the selection of centres at which the new schools should be opened will be made later on].

Total.		19,800	18,000	9,000	9,000

Secondary education among girls is in a very backward state. There are about 130 towns with a population of 10,000 and above and 190 towns with a population of over 5,000 and below 10,000 without any secondary school for girls. In order to provide more facilities for their education, it is necessary to encourage local bodies and private agencies to open secondary schools for girls by the grant of adequate teaching and equipment grants in addition to the opening of a certain number of such schools directly by the Government. In respect of middle schools for boys newly opened by local bodies, instalments not served by such schools, the Government have undertaken to pay as a special case teaching grants equal to the actual net cost of maintenance of the schools for a period of five years, subject to a maximum of Rs. 3,300 for each school and grant towards the full cost of the initial equipment, subject to a maximum of Rs. 3,000 for each school. The Director of Public Instruction recommended that teaching and equipment grants to the middle schools for girls to be newly opened by local bodies and private agencies at suitable centres might be paid on the same basis so that there may be uniformity in the payment of these grants. As local bodies and private agencies do not

generally come forward to open secondary schools for girls even to the extent they do in the case of boys, it was considered necessary to make grants at special rates as recommended by the Director for a limited period. Grants were accordingly sanctioned for the opening of six new middle schools in the current year. It is proposed to make similar provision for next year.

3. The proposal involves an ultimate recurring expenditure of Rs. 19,800 per annum, and a non-recurring expenditure of Rs. 18,000. The teaching grant for 1949-50 is normally payable only in 1950-51, but as local bodies and private agencies may find it difficult to meet the full cost in the first year of the opening of the schools without some financial assistance, it is proposed to make an advance teaching grant of Rs. 1,500 for each new middle school. To enable the managements to purchase the initial equipment in time before the reopening of the schools, it is proposed to make the first instalment of the equipment grant also in advance. This department, therefore, recommends that a provision of Rs. 18,000 be made for the purpose in the budget for 1949-50 as shown in the summary at the top of this note.

29/10/48
18000
29/10/48

2. The Retrenchment Committee recommended that in respect of schools newly opened by local bodies the same system as obtains with reference to schools established earlier may be followed as the Committee was of opinion that there was no need for making grants towards the entire net cost as a special case. This Deptt considered that if the policy of giving extra aid is revoked, there will be no inducement for local bodies & private agencies to open secondary schools for girls and the Govt's policy of providing for the opening of schools for girls in centres not served by such schools would be retarded & that the system of special aid should therefore be continued. The matter was placed before the Cabinet on 20-8-48 and it was deferred. It is proposed to place it again before the Cabinet. Pending official decision on the Committee's recommendation, it is proposed to make provision for payment of grants according to the existing practice.
