Enclosure.

Copy of letter from the Founder-Secretary and Correspondent, The National High School(Girls) Triplicane, Madras to the Director of Public Instruction Madras through the Inspectress of Girls' Schools, III Circle, Madras.

Sub:-Building Scheme for the Middle School.

Ref:-G.O.No.3200-Education dated 18.10.1949.

We hasten to thank the Government for the inclusion in the list of approved works our scheme for the construction of five permanent sheds for the Middle School at an estimated cost of Rs. 59,000/- as per plan and specification approved by the Joint Consulting Architect.

We also beg to thank the Government for the permission given to us as a special case to proceed with the execution of the work pending sanction of the Government.

In this connection we request the permission of the Government to place the work straightaway in the hands of our Engineering Contractors Messrs. Gannon Dunkerley(Madras)Ltd. dispensing with the usual practice of calling for tenders. You are aware that this Firm of Engineering Contractors had taken up the building of our High School and it is a matter of common knowledge and appreciation on all hands that, besides executing the work within the prescribed time, they have also done the work most efficiently and satisfactorily.

The Governor of Madras, some of the ministers of the Government, Educational Officers and other public men who had occasion to visit our new buildings have all expressed their admiration and appreciation of the excellent quality of work turned out by the contractors.

P.T.O.

More than this in the case of this Firm of Engineering Contractors, we shall have the facility to pay them in easy instalments as and when we get into possession of funds. They have had occasion to know in connection with the construction of our High School buildings, that we had to raise a substantive portion of our payments by public subscriptions and they have shown us every consideration and encouragement.

We may state that on the question of the valuation we shall abide absolutely by the valuation that may be put on the construction by the P.W.D. authorities and on the basis of their valuation, our grant may kindly be sanctioned.

On receipt of your kind permission we shall be in a position to request our contractors to proceed with the work so that before the end of the academic year, we shall be in a position to move our MIDDLE School to the sheds and avoid the shift system which from our actual working of the system we have found to be wholly unsatisfactory.

Thanking you,

/True copy/.
