ANNAMALAI UNIVERSITY

11th May, 1948.

No. _____

From

THE REGISTRAR,
ANNAMALAI UNIVERSITY,
ANNAMALAINAGAR.

To

The Secretary to Government,
Education and Public Health Department,
Fort St. George, Madras.

36709
Sir,

I request the favour of sanction of a recurring grant to the extent of Rs.2,39,046 to enable the University to pay Dearness Allowance to all employees of the University at existing Governmental rates detailed in G.O.No.99 d. 29-1-1948 and also to enable revision of salaries on the basis of the grades recommended by a Special Committee and approved by the Syndicate and the Senate.

I hereunder detail the recommendations re: grades proposed. These proposals were the result of the detailed consideration of a Special Committee constituted by the Syndicate consisting of Sir A. Lakshmanaswami Mudaliar (Vice-Chancellor of the Madras University), Mr. D.S.Reddi, the Director of Public Instruction, the Kumara Rajah Sir M.A.Muthia Chettiar of Chettinad, sometime Minister of Education for the Government of Madras, Mr. R.Vinayakam, M.A.,B.L. a member of the Syndicate, and the Vice-Chancellor of the University. The Committee met and discussed the question at their meetings held on the 4th and 20th of March, 1948. They took into consideration the financial resources of the University and explored the possibilities of increasing the present income. They also considered the amount that should be provided to meet the payment of dearness allowance and improved salaries. They noted that the present salaries required some revision. The exodus of teachers that has been noticed in the recent history of the Institution has compelled them to make these recommendations. These recommendations were placed before the Syndicate and the Academic Council at their meetings on the 30th March and before the Senate at its meeting on the 31st March, 1948. All the bodies

3
felt that these proposals were most essential to relieve the anxiety on the part of the members of the Staff in the Arts, Science and Oriental Faculties.

3
I have indicated in my application No.11691 d. 16-3-1948 their recommendations in respect of the Faculty of Engineering and Technology. This application is in furtherance of the interests of the existing departments in the Arts, Science and Oriental Faculties.

Separate file -
sub-
separately
PP 5/2/46
of (X)
I may be permitted to mention that for the teachers in these three Faculties, an application was made for grants towards enhancement of salaries in this Office letter d. 15-10-1945. In answer to a request for a grant of Rs.2.04 lakhs, Government in G.O.No.Ms.735 d. 4-4-1946 sanctioned a grant of Rs.1 lakh and specifically empowered the authorities to make adjustments accordingly. The adjustments have been duly made. The proposals then made were very modest as the scales proposed then did not come anywhere near the scales in the Madras and other universities in the province and salaries now recommended by the Special Committee have been accepted by the Syndicate and the Senate.

The recommendations of the Special Committee mentioned above are:

"In view of the financial resources of the University the Committee was of opinion that it would not be feasible to expand the existing departments nor to institute new departments of study like Agriculture and Commerce or to open Honours courses in such subjects as Philosophy, Botany and Statistics unless grants were specifically provided for such purposes by the Government.

"Of the Professors, 4 may be provided with salaries up to Rs.700/-

"The question of number of cadres of lecturers and the desirability of having only one grade as at the Madras University mofussil Colleges was next considered."

It has been decided to have (i) 50% Lecturers on the grade of Rs.100-5-150 to allow the recruitment of persons without any or sufficient teaching experience to be recruited to this II grade and (ii) 50% lecturers on Rs.150-10-250 so that duly qualified Lecturers of the II grade might have a chance of promotion to the I grade of Lecturers. Promotion to the place of Lecturers of

I grade will be on the recommendation of the Vice-Chancellor. Language Lecturers with titles and other teachers of languages with degrees will be given the same grades according to their experience and qualifications.

"The Committee is of opinion that with the present resources unless they are augmented considerably henceforth, no new departments could be opened, no higher grade of instruction could be attempted and no items of building work could be undertaken except those specifically indicated in these recommendations.

"The Committee recommends:

- 1) that Governmental rates of dearness allowance as per G.O. No.99 d.29-1-1948 may be paid to all employees with effect from 1-4-1948, i.e. the first payment will be made on 1-5-1948;
- 2) that revision of scales of salaries for teachers in the Arts, Science and Oriental Faculties may be granted with effect from 1-7-1948, i.e. the first payment will be paid on 1-8-1948;
- 3) that Government be approached for recurring grants
 - a) to enable the University to pay dearness allowance at Governmental rates and revision of salaries on the lines indicated;
 - and b) for capital grants towards the cost of hostels and staff quarters.

"In fitting the present members of the staff to the new grades every period of 4 years of service in the existing grade shall count for one increment in the new scale in the case of Lecturers and Assistant Lecturers, Tutors and Demonstrators. This will be according to the practice of Government in respect of non-Gazetted Officers only."

I have therefore, by direction, to request that Government may be pleased to consider the University's request for an enhancement of grants and sanction an additional recurring block grant of Rs.2,39,046 in order to meet the extra cost on staff

4 5 7
A to be incurred by the University on account of payment of
increased rates of dearness allowance and the improved grades
of salaries.

I have the honour to be,

Sir,

Your most obedient servant,

Fordeppel
Ag.Registrar.

Sir,
Sub: Annamalai University - Grant of Dearness Allowance at Government rates for all employees of the University and revision of scales of pay of the teaching staff in the University.

PP1-7 ank Ref: My letter d. 11-5-48 for an addition to the Recurring Grant

PP1-7 ank In my letter dated 11-5-1948, I requested sanction for an addition to the recurring grant by 2.39 lakhs to help the University in paying dearness allowance to all employees of the University at existing governmental rates detailed in G.O.No.99 d.29-1-48 and G.O.78 (Finance) d. 6-2-1947 and Government Memorandum No.25188 Salaries -47/ dated 26-4-1947 (Finance) in paying salaries in the revised scales on the basis of scales recommended by a Special Committee consisting of Sir A. Lakshmana swami Mudaliar (Vice-Chancellor of the Madras University), Mr.D.S.Reddi, the Director of Public Instruction, the Kumara Rajah Sir M.A.Muthia Chettiar of Chettinad, sometime Minister of Education for the Government of Madras, Mr. R.Vinayakam, M.A.,B.L., a member of the Syndicate and the Vice-Chancellor of the University. These scales were approved by the Syndicate and the Senate at their meetings held in March, 1948. I may add that the University has been paying Dearness Allowance at these rates with effect from 1-4-1948 to all employees of the University and has also been paying members of the teaching staff salary in the revised scales of pay from 1-7-1948.

In the circumstances, I request the favour of early orders or sanction of the grant prayed for, by including it in the supplemental budget for the year.

Yours faithfully,

K. R. Nandawar

Sir,

Sub: Annamalai University - Grant of Dearness Allowance at Government rates for all employees of the University and revision of scales of pay of the Teaching Staff in the University.

Ref: My letter B.4559 d. 7-8-48.

May I solicit a reference to my letter d. 7th August 1948 requesting that Government be pleased to sanction a grant towards paying

all employees of the University Dearness allowance at Government rates and in paying salaries according to the revised scales of pay on a higher basis to all the teachers of the University, as recommended by a Special Committee? I have not had a reply so far.

I need hardly mention that it is necessary that Government do come to the help of the University in paying increased salary at the new rates and dearness allowance at Government rates as stated above.

As pointed out in my letter under reference, the University has been paying dearness allowance at Government rates from 1-4-1948 and enhanced salary from 1-7-1948. The experience of the University has shown that even with these revised scales of pay it has not been possible in the last few months to attract proper persons to take up certain teaching posts in the University.

May I submit that Government grant for this purpose is absolutely necessary?

The University will be deeply grateful if early orders are passed sanctioning the grant prayed for by making provision in the supplemental budget for the year 1948-49.

Yours faithfully,
S. Sabarwal
Registrar.

Part II Scheme for 1949-50

(SUB:- University - Annamalai - Staff - Payment of Dearness allowance at Govt. rates - Revision of scales of pay of the teaching staff - Grant.)

Head of account.	Item of expenditure.	Recurring.	
		Ultimate cost. Rs.	Cost in 1949-50. Rs.
37-Education - a- Grants to Universities - C. Annamalai University Voted - Recurring.	Grant to the Annamalai University for payment of		
	(1) enhanced scales of pay to the teaching staff, and	50,000/-	50,000/-
	(2) dearness allowance to staff at Govt. rates.	78,000/-	86,000/-
		1,28,000/-	1,36,000/-

The Registrar, Annamalai University has applied to the Govt. for payment of a recurring grant block grant of Rs. 2,39,046/- per annum to meet the extra cost on account of (1) the revision of scales of pay of the teaching staff of the University from 1.7.48 (Rs. 83,000/-) and (2) the payment of increased rates of dearness allowance at Govt. rates to the staff of the University, from 1-4-1948 (Rs. 1,56,000/-).

2. As regards the request of the University for a grant towards payment of D.A. to the staff, it was proposed not to accede to the University's request, as the Govt.

have not so far paid any grant to the Universities for payment of D.A. to the staff employed by them.

3. The extra cost to the University on account of the present revision of scales of pay of the teaching staff based on average cost amounts to Rs. 50,000/- per annum. The estimated cost on account of the additions to the teaching staff in 1945-46 and on account of the present revision of scales of pay of the teaching staff is Rs. 2.54 lakhs (i.e. Rs. 2.04 lakhs plus Rs. 50,000/-). On the analogy of the two-thirds grant sanctioned to the Andhra University for the new courses of study in Geophysics, the grant payable to the Annamalai University for this purpose will be Rs. 1.69 lakhs (i.e. $\frac{2}{3} \times 2.54$ lakh) and after deducting the grant of Rs. 1 lakh already sanc-

P. T. O.

was not in favour of the proposal; they pointed out that the finances of the University should be deemed to be sound as it is able to transfer moneys to various funds and that by curtailing these transfers and raising fees to the extent possible, the University should be able to meet the extra cost in this case.

4. The Finance Department's views were first accepted in circulation. The file was again called for by H.M.(Finance) and he minuted as follows on 14-12-48:-

"The Annamalai University Vice-Chancellor met me yesterday and explained how the revision of salaries and the dearness allowance as per Government rules would affect the financial position this year and how it will affect in the coming years. I have asked him to send the latest position of accounts and he will be sending it soon. So this may be included provisionally as Part II Scheme pending final decision by the Standing Finance Committee and the Cabinet."

5. It is assumed that the orders are that the question of a grant to the University should be considered not only in respect of the revision of the scales of pay of the teaching staff but also for the payment of dearness allowance to the staff. On this assumption, it is proposed to treat the request for both the purposes as a Part II Scheme for 1949-50 and include the necessary provision in the estimates for 1949-50, the grant for payment of dearness allowance being limited to one half of the estimated cost as in the case of aided institutions.

M.V. SUBRAMANIAN,
Secretary to Government.
(17--12--48)

Gn/17-12

Annamalai University

37
20/18

PP1-7 ante - Application made, d. 11-5-1948, for Rs.2.39 lakhs for

1. Revision of Salaries

- (a) in the Arts, Science and Oriental Studies Faculties as per recommendations of the Dr.Sir A.Lakshmanaswami Mudaliar Committee, and
- (b) in the Faculty of Engineering and Technology (vide letter d. 16-3-1948);

2. Dearness Allowance for

- (a) teachers in all four Faculties and
- (b) the subordinate staff in all the Departments and Faculties;

3. Revised Dearness Allowance for all employees of the University at new Governmental rates.

The ex recommendations of the committee were considerably modified by the authorities of the University

- (i) in respect of total numbers of teaching staff, as also
- (ii) in the number of senior lectureships as against the original provision of smaller numbers;
- (iii) most of the subordinate staff also were given the benefit of revised grades, and
- (iv) some cases are yet being considered.

All the revision in salary has been given effect to from 1-7-1948 and enhancement of dearness allowance from 1-4-1948.

In previous cases, where applications for grants were made effect was given only after grants were in sight. But as per special recommendations of the several authorities, the revision was given effect to in anticipation of grant, as the matter was considered most urgent and as the Madras Government have themselves suggested increased salaries in their letter d. 20-4-1947. and the Government of India also urged higher grades in the Faculty of Engineering and Technology with a view to raising the standard of instruction in their letter F.6/4 of 46 d. 23-10-1946.

The Committee's finds are:-

- i. That the resources of the Arts, Science and Oriental studies had been diverted to the starting of the Engineering Faculty to the detriment of the original three Faculties;
- ii. The separation of the Engineering and Technology Faculty from the Arts and Science Faculties and the enhancement of grants to the extent of Rs.2.39 lakhs for the Arts,

Science and Oriental Faculties and Rs. 3 lakhs for the Faculty of Engineering and Technology. As the resources of the University will not permit of any allotment from the existing University funds either for revision of salary or Dearness Allowance, an application to Government for Rs. 2.39 lakhs was made.

Prior to the application, the Dearness Allowance rates at the University were only at the rates of Rs. 6 and Rs. 12 and that only for those who had less than Rs. 100/- as salary, as the University could not afford to pay more and as that amount of relief was then considered adequate in the rural atmosphere of Annamalainagar.

As salaries were very low compared with salaries in the Madras and Andhra Universities and as there was a universal demand for Government rates of Dearness allowance being adopted in all institutions, the Committee and the other authorities felt the need to increase Dearness Allowance rates to Governmental ones. Aided Colleges and Schools in Madras and Andhra University areas have been given grants to enable the governmental rates of Dearness Allowance being given. Other institutions also gave Government grants in their Colleges in the two areas dearness allowance incurred at full cost. The Bombay University, for instance, was sanctioned a special grant of Rs. 1 lakh for D.A. only. It has therefore been requested that grants for revision of salaries and dearness allowance be sanctioned for this University by the Madras Government.

The Andhra University has insisted on new scales of salaries for their Colleges and added that in view of Government grants, dearness allowance be paid at Government rates. Our request therefore for grants both towards Dearness allowance and revision of salaries will be found to be quite proper.

As after the applications, because of the modifications made by the authorities, the commitments have increased from 2.39 to 3.53 lakhs, the original application may be considered as for Rs. 3.53 lakhs and the requested grant on that basis, for the new figure has been the result of a close calculation on the basis of actual disbursement for more than half the year 1948-49.

Unless Government comes to our rescue we will be in an unenviable position of debts to pay without any corresponding resources. Unfortunately, the University cannot command credit to borrow, nor will it be allowed huge overdrafts.

20 22 24

A few points in the application require reiteration:-

1. The original application of 1928 for the three Faculties or Arts, Science and Oriental Studies requested a recurring block grant of Rs.3 lakhs or Rs.2 lakhs with 40 lakhs and 60 lakhs for permanent endowment. The actual grant was only 27 lakhs on the capital account and Rs.1.5 lakhs on the recurring account.
2. In 1940, after several attempts, the University had an additional recurring grant of Rs.40,000 where Rs.60,000 was asked for. In 1946, for revision of salaries that were unduly low, the grant was Rs.1 lakh where 2.04 lakhs was asked for. The Government in their order regretted that they could not give more and advised adjustment of scales on the basis of the 1 lakh grant. As the resources of the University have been shown to be little by reason of the expert opinion of the statutory Finance Committee in 1939 on the eve of its dissolution as also by the experience of the University in the first ten years of its existence, and after the revision of 1948, has to be made only with the funds granted by Government.
3. The University has had donations from H.H. the Maharajah of Travancore and H.H. of the Tirupanandal Mutt, but they were for capital expenditure or for ear-marked purposes. As the one lakh grant was only half of what was asked for, the University cannot commit itself to an expenditure on the maximum basis of more than Rs.5,000 out of its funds in addition to the one lakh of grant. As several of the teachers had been staying on the maxima of their old scales, step-pings up in the new grades were necessary. In the first year, several increments in the new grades had to be given and yet the exodus from the University to service under the Madras Government, service in new Colleges in the Madras University and in the Madras and the Andhra Universities was merrily going on in spite of protests and representations to H.H. the Chancellor, the Chancellor of the three Universities and the Head of the Provincial Government administration, Madras. Even now the salaries as now revised and the D.A. at new scales do not bring the remuneration to the employees of this University to the level of the Madras and Andhra University grades.
4. Because the University has been carefully administering its funds and erred to the extent of giving bare subsistence

Vivekananda
G. No 735 Edw
4.4.46
at (X)

page 4-5

23 4.3

wages, it has evoked jealousy and frequent defections from its ranks ^{have resulted} and rumours of its fabulous wealth are set afloat; the close scrutiny by the statutory Finance Committee functioned from 1929 to 1939 resulted in their findings recorded in 1939. As the Committee was found useful, as a weighty committee giving excellent valuable advice as to the future of the University, an advisory Finance Committee with practically the same constitution was functioning as an advisory body till last year, when a wave of democratic enthusiasm swept away the valuable steadying elements in its constitution.

The resources of the University will compare most unfavourably with both the Madras and the Andhra Universities, for both in Madras and Andhra Universities, examinations are a source of a larger or smaller surplus. Similarly publications give a fairly good net profit. Their responsibilities as non-residential Universities are less. Their staff are in most cases not resident; the students under instruction at the University are few, as they do not burden themselves with as many courses as this residential University has. Andhra competed with its affiliated Colleges in the matter of ~~XXXXXXXXXXXX~~ B.A. pass instruction till recently and is now doing Honours and Research courses only. Madras has no Honours to trouble itself about and contents itself only with supplementing the research attempted also in its various constituent and affiliated Colleges. But Annamalai has to do Intermediate, pass, Honours and Research with resources which do not come anywhere near the resources of the other two Universities.

Its slender resources have been husbanded with great care. The original endowment/grant of 27 lakhs has, because of conversion resulted in loss of income by way of interest from 6% to 2½% i.e. to less than half the percentage. Aiming at stability of income, the Permanent Endowment Fund added to from time to time now stands at 70 lakhs face value. Yet there is a fall in interest to the tune of Rs.36,000/- in spite of an addition of 22 lakhs of capital and a further fall in 1954-55 of another Rs.36,000 is most likely. The original buildings and equipment grant of Rs.7.5 lakhs has helped the University to buildings worth Rs.30 lakhs, the science extension grant of Rs.2.25 lakhs to Rs.2.37 lakhs, the Engineering Capital grant of Rs.10 lakhs to Rs. 9 lakhs

2245
24 45

so far for Engineering buildings and the Hostel grant of Rs.38,000 to an expenditure of Rs.76,000/-.

The above scale of expenditure has been possible simply because of transfers from one account to another. These transfers are on the lines of the traditions set up by the older Universities of Madras and Andhra. Madras had till recently grants of specified sums for each one of the 12 purposes of the University and custom had permitted the diversion of funds from one account to another. The surpluses after these transfers have resulted in Madras having Rs.100 lakhs investments in various accounts today. Similarly, Andhra has made transfers and contributions by way of donations to capitalising funds and the Foundation Fund. In Annamalai sums are transferred to a reserve fund made out of the casual savings of the allotments from year to year. This is on the principle that unspent balances are best set apart for capital expenditure in succeeding years either for new departments or expansion of existing departments. These stray savings (funded as they are) cannot be used for recurring expenditure like dearness allowance and revision of salaries.

pg ante
pyskws nf

In sanctioning grants the University has been requesting that the grants be fixed on the basis of the maxima of the scales introduced. Even the new proposed scales are considerably lower than in the other Universities and Colleges with whom this University has been often compared in popular estimation. Because of the present dearth of teachers even on the new scales, teachers have had to be started on salaries higher than the actual start of the grade. In some cases, the maxima have also been granted. In a few cases, within a few months of the teachers' coming in, requests for promotion and personal allowances have been made and granted. In spite of these, the places of the Professor of Chemistry and of some of the members of the staff of the Engineering and Technology Department have for a considerable time remained unfilled. In the case of a big institution like the State, with a large number of employees, it may be possible to estimate very closely the actual expenditure of the scheme by the process of averages. But in a small Residential University competing with the State and other Univer-

23 25 478

sities with better resources by way of Examination Fees and publication profits, the commitments on the maxima basis have alone to be taken into account. The University has been uniformly urging for this consideration in all its requests and experience has actually shown that the maxima do form the real basis in the case of this University, as several of the teachers had been stagnating on the maxima of previous years in 1946 and as their claims could not be adequately and fully considered in 1946, a revision had to be made in 1948.

Amongst the remedies suggested by experts are:

- i) Raising of tuition fees;
- ii) Constitution of new funds and transfer of casual savings by way of surplus to those funds in order that the maintenance of proper standards might be possible;
- iii) Dropping of departments that ^{should} not be duplicated in this University as neighbouring Universities and other institutions have provided for them;
- iv) Cut of allotments for equipment in the Library, the Laboratories, play-grounds etc.

All these remedies have been adopted.

1) In the case of tuition fees, there was a revision in 1941 and (again 1941 and) again in 1948. For instance, in intermediate the tuition fees were raised from Rs.28/- to Rs.30/- per term in 1941 and to Rs.45/- in 1948, resulting in an increase of 60%. This remedy was suggested by the Finances Reorganization Committee and the Government of Madras. It has been duly given effect to. Increasing it further so soon after the recent revision may not be possible.

2) Towards the fall in income for instance in the Permanent Endowment Fund, additions during these 20 years to the extent of Rs.11 lakhs have been made. On a close calculation, to further combat the loss of income, a sum of Rs.1,50,000 was decided necessary by the Sir A. Lakshmanaswami Mudaliar Committee. But that has not been given effect to because it was felt that a transfer of Rs.1,50,000 every year will take away from the present resources of the University to such an extent as to impair efficiency of instruction.

3) The third remedy, namely, dropping of departments was attempted in 1934 on the basis of the recommendations of the Ad Hoc Committee in 1933. It was again attempted in 1941. This brought the University a certain amount of unpopularity

24 26 7

and various kinds of charges have been laid at the doors of the University administration. This kind of dropping out of Departments might be necessary if the request for enhancing enhancement of grant for revision of salaries and dearness allowance is not granted. Having had experience twice of cutting of departments and retrenchment in its several aspects, the University shudders to think of dropping of departments.

4) The next remedy was attempted in 1941 on the basis of the recommendations of the Finance Reorganization Committee. As the Committee itself has said:

'In the remedies proposed, namely reduction of (i) equipment grant, (ii) number of scholarships, (iii) allotment for research publications and (iv) allotment for books and periodicals, these reduction might begin to tell on the efficiency of instruction if they are to continue for long. As the statutory finance Committee has pointed out, a need for providing for deficits towards drainage, water-supply and electricity may arise and has to be provided for'.

Hence this request for a government grant towards revision of salaries and dearness and allowance which is also a part of salaries. Even after taking into account both, the Annamalai University teacher cannot find his position as comfortable as that of a Madras or Andhra University teacher.

The following statements are enclosed in proof of the position held in the above memorandum:

- PPS-61 *infr* 1. Extracts from the opinions of experts on the financial resources of the University;
- P63 2. Comparative statement of cost on salaries of staff and establishment before and after the revision given effect to on 1-7-1948;
- PPS-75 3. A statement to show the difficulties in recruitment and retention of staff as experienced in recent years;
- not recd* X 4. A statement of publications and Research work in the University;
- P77 *infr* 5. A copy of a letter from Government of Madras d. 24-9-47 suggesting revision of salaries;
- P77 6. A copy of letter from the Government of India d. 23-10-46 re Engineering courses;
- P79 7. Scales of salaries in the Andhra and Annamalai Universities;
- not recd* X 8. Copy of original scheme requesting an endowment grant of Rs. 40 or Rs. 60 lakhs to assure proper financial backing for the University;

25 27 8.51

9. A statement showing the present position of the Permanent Endowment Fund Account, additions made to it and the ~~loss~~ loss of income from Rs.2.80 lakhs to Rs.2.42 so far.

10. A statement of expenditure on buildings in the University so far, out of Rs.7.5 lakhs granted in 1929, Rs.2.25 lakhs granted in 1945, Rs. 10 lakhs promised for the Engineering College and the promised grant of Rs.4.5 lakhs for Hostels.

11. A statement of Tuition fees and the two revisions effected in the years 1941 and 1948.

28 9 53
26

1. The Statutory Finance Committee, on the eve of their laying down of office in 1939:-

The Committee recorded the following observations for future guidance:-

"A surplus of Rs.56,000 in the General Fund to be transferred to the Building Fund may be satisfactory from the point of view of the budget for the year 1939-40, but the following points demand anxious consideration:-

- i. The revenue of the University is inelastic;
- iii. The provision of the prescribed salary for the Vice-Chancellor when the honorary services of the Right Hon'ble V.S. Grinivasa Sastriar and Sri T.R. Venkatarama Sastriar may no longer be available, may entail an expenditure of Rs.24,000/-.
- iv. The expenditure on repairs to the buildings that are now new may mount up to Rs.35,000 where now only Rs.16,500/- is provided;
- v. The maintenance charges towards electric-lighting, water-supply, drainage etc. will require a sum of at least Rs. 15,000/-;
- vi. The increments to staff on the present scales require an additional expenditure of Rs.58,300/-.

These and other inevitable additions to recurring expenditure would preclude all possibilities of expansion either by way of additions to numbers on the staff or by way of addition of new departments. Measures will soon have to be devised to augment the income of the University by appeals for funds from the public and local bodies, as has been done in the Andhra University."

II. Recommendations of the Ad Hoc Committee (1933).

"The programme of building work to be taken on hand as early as possible is set out in the annexure.

The Committee feels that as no more than Rs.4.25 lakhs can be safely expected as the normal income, no better salaries than those recommended above can be sanctioned for ten years to come; with the present resources no new department can be opened, no new grades can be sanctioned and no new items of building work attempted except those indicated in the programme given in the annexure. As all the available resources are needed for the schemes and courses outlined in the programme and General Funds, such savings as are effected under the Buildings and General Funds, such savings as are effected under the Building Fund should be transferred from year to year to the Building Fund as has been hitherto done.

Programme of work -- Remarks show what work has been completed and what amount yet remains to do in the year 1946.

	Remarks.
Staff Club.	Completed.
Quarters for the Post-office, the Post-master and servants and for Police Station and Police lines	Quarters for servants in Post Office yet to do.
Drainage Scheme.	Revised estimate submitted.
Water-supply scheme.	Half done.
Union buildings.	Completed.
Co-operative stores and small stalls	Half done.
Additional Hostel residential rooms	Rs. 9 lakhs work yet to do.
Additional kitchens, dining halls and bath rooms.	Half done.
Additional quarters for staff.	8 lakhs work yet to do.
Extension to Science Laboratory and Museum.	Museum yet to do.

III. Recommendations of the Finances Re-organization Committee. (1941).

(a) Interim Report.

On a careful consideration of the income and expenditure of the University for the past 12 years the Committee is convinced that unless the finances are put on a proper basis, the University will inevitably find itself in a difficult position as the years go by. A detailed statement about the finances will be submitted in the final report. The Committee feels that early action is necessary in regard to certain matters and this Interim Report is therefore forwarded for consideration and acceptance with a view to giving effect to such recommendations as are feasible from the commencement of academic year 1941-42.

After examination of the income of the University from various sources, the Committee is convinced that the income is bound to progressively diminish owing to the investments in the Permanent Endowment Fund yielding considerably less interest in the years to come, and the expenditure is bound to increase on account of commitments by way of increments in the salaries of the Staff consequent on the Time-scale, the small additions to buildings and expenditure connected with the maintenance of the existing buildings and the additions. Unless therefore a certain sum is laid by as capital to yield an income to meet these charges, the University

28 30 H 57

will be faced with a deficit with no possibility of meeting it from any other extraneous source. The Committee therefore recommends:-

1. The statutes fix the salary of the Vice-Chancellor between 1500 and 2,500. The University cannot afford more than Rs.1,500/- per month.

2. The Committee does not recommend any change in fees now collected from students for the different examinations. It would however suggest to the Syndicate the desirability of minimising the expenditure incurred in the constitution of Examination Boards and request that the necessity for an Oral Examination in regard to the Honours may be further considered. Such oral examinations are not in vogue in many other Indian Universities. In regard to the constitution of Examination Boards, ~~the~~ for both question-paper setting and conducting, the desirability of limiting the number in the conducting board may be considered.

4. Library. The allotment for books and periodicals should be reduced from Rs.15,000 to Rs.12,000 and made a block grant.

5. Physical Education. The Committee is generally of opinion that Athletic fees realised should cover the cost of all the Games and upkeep of courts etc. i.e. all expenditure in Physical Education except the salary of the teaching staff and a clerk. The fees for Tennis may be increased from Rs.12 to Rs.15 per year to be collected in two instalments. It is expected that the fees should cover expenses of annual maintenance of courts, the cost of balls, of markers, pickers, as also of relaying of courts once in six years.

6. Tuition fees. The Committee notes that the tuition fees have not been revised in the Annamalai University, as they have been in practically all other colleges subsequent to the G.O. issued in May, 1938. Suggests revision of tuition fees.

8. Hostel. Towards depreciation ~~at~~ for the buildings, a sum of at least 2%, i.e. 12,000 must be realised as rents.

The Committee notes that the Annual budget has already been prepared and submitted to the Senate. Under the circumstances it is not possible now to revise any of the budget figures; it observes that the Syndicate should reserve to itself the right to submit revised proposals to the Senate at the next meeting in the light of the recommendations of the Committee.

(b) Final Report.

The income is bound to diminish progressively owing to the investments in the permanent Endowment Fund yielding considerably less interest in the years to come as it has already come down from 2,41,457 in 1931-32 to Rs.2,34,673 in 1939-40, despite additions made to the Permanent Endowment Fund in the last six years. With the bifurcation of courses in the High School stage and the vocational bias that is proposed to be given in the high school

4 29 31 59
stage and the fall in strength consequent on the smaller provision for scholarships and stipends and the withdrawal of hostel privileges and the abolition of some courses, such numbers as have been studying these years may not seek admission in the years to come. Thus a fall in the fee-income is likely. The only other source of income is the statutory grant. It has been fixed at 1.50 lakhs and the University's application for additional recurring grants have not been viewed favourably so far by Government. The expenditure is bound to increase on account of commitments by way of increments to the staff consequent on the time-scale, small additions to buildings etc.

It is therefore safe to expect not more than an income of 5 lakhs till 1954-55 and 4.75 lakhs after 1956 and towards this an extra expenditure of 4.07 lakhs Rs.1.55 lakhs towards teaching staff, Rs..36 lakhs for University administration and Rs.2.16 lakhs for items of expenditure other than staff, leaving only a surplus of Rs.1.06 lakhs to be utilised towards additions to capital to counteract the fall in income.

In the remedies proposed, namely reduction of (i) equipment grant, (ii) number of scholarships, (iii) allotment for research publications and (iv) allotment for books and periodicals these reductions might begin to tell on the efficiency of instruction if they are to continue for long. As the statutory finance Committee has pointed out, a need for providing for deficits towards drainage, water-supply and electricity to the extent, as they estimate, of at least Rs.15,000 may arise and has to be provided for. This deficit may increase in the course of years.

The Committee therefore suggests that the financial position be revised once in every five years, so that enough thought may be taken of the directions in which changes could be made in the next quinquennium.

IV. Recommendations of the Sir A. Lakshmanaswami Mudaliar Committee for revision of salaries.

The Committee resolves

1. that Governmental rates of dearness allowance as per G.O.No. 99 d. 29-1-48 may be paid to all employees with effect from 1-4-48, i.e. the first payment will be made on 1-5-1948;
- ii. that revision of grades of salaries for teachers in the Arts, Science and Oriental Faculties may be granted with effect from 1-7-1948, i.e. the first payment will be paid on 1-8-1948;
- iii) that Government be approached for recurring grants
- (a) to enable the University to pay dearness allowance at Governmental rates and revision of salaries on the lines indicated below;

5 30 32 12 61
and b) for capital grants towards the cost of hostels and staff quarters -

Summary of the recommendations.

Salaries and Classification recommended for the Arts, Science and Oriental Faculties.

17 Professors.	Rs. 200--15--300--20--450--25--500
	4 of them going up to Rs.700).
31 Lecturers.	... Rs. 150-10-250.
32 Assistant Lecturers.	Rs.100--5--150.
23 Language Assistant Lecturers (with titles)	Rs. 75--5--125.
12 Tutors and Demonstrators.	Rs. 75--5--100.

In fitting the present members of the staff to the new grades every period of 4 years of service in the existing grade shall account for one increment in the new scale in the case of Lecturers and Assistant Lecturers, Tutors and Demonstrators. This will be according to the practice of Government in respect of non-gazetted officers only.

In making the above recommendations for the acceptance of the authorities, the Committee feels that the best that can be done to improve the position of the teachers and the other employees has been done, taking into account the financial resources of the University which it is hoped will be augmented by Government grants.

Sl. No.	Name	Grade	Remarks
1	Mr. M. S. Duraiswamy	Rs. 55	2 increments.
2	Mr. S. Krishnamurti	Rs. 50	1 .. Since left for Sholapur.

No. 5. Copy of letter No. 27845-G3/47 -12 Edn. 40
d. 24-9-47 from the Secretary to
the Government of Madras (Education Dept.)

Sir,

Sub: Post-war reconstruction-schemes for the period
ending 31-3-1947.

Ref: Your letter d. 16-6-1947.

I am directed to state that the Government have already sanctioned a recurring grant of Rs. 1 lakh for the revision of salaries of the Teaching Staff of the University and that in spite of this fact the scales of pay in force in the University are low compared either with those in the Government Colleges or in the Madras University. The Government are therefore of the opinion that the University will be well advised to adopt at least the scales of pay suggested by the Government of India, Education Department in their letter No. F.6/4/46-P dated 23-10-1946 communicated with this Department letter No. 34201-G3 46-7, Education d. 21-11-46. I am accordingly to request that steps may be taken to adopt these scales and a report sent to Government.

Your obedient servant,
Sd. ...

Secretary to Government.

No. 6. Copy of letter No. 34201 G3-46-7 Edn. d. 21-11-46
from the Govt. of Madras communicating extract from
letter No. F.6/4/46 -P d. 23-10-46 from the Government
of India.

Sir,

Sub: Post-war Reconstruction - Scheme for the period
ending 31-3-47 -correspondence resting with your
letter No. F.4205 d. 24-6-46 and No. 2859 d. 19-7-46.

I am directed to communicate an extract from letter
from the Government of India, Department of Education, No. F-6/4
46-E d. 23-10-46 for necessary action and to request that the
action taken may be reported to Government.

Your obedient servant,
Sd. ...

For Secretary to Government.

Extract of letter.

Scheme No. 17 (2) - Grant to the Annamalai University for a
new College of Engineering.

Except for the Head of the Department and the professors
the scales of pay proposed for the rest of the teaching staff
are definitely on the low side. For the lecturers the scale of
pay of Rs. 250--15--400 and for the Assistant Lecturers a scale of
pay of Rs. 150-10-250 is suggested. The proposed introduction of
a new grade, namely "Selection grade Lecturer" seems to be un-
necessary."

Annamalai University

87
45 43

Application made, d. 11-5-1948, for Rs 2.39 lakhs, for

1. Revision of salaries

(a) in the Arts, Science and Oriental Studies as per recommendations of the Dr. Sir. A. Lakshmanaswami Mudaliar Committee, and

(b) in the Faculty of Engineering and Technology (vide letter dated 16-3-48)

2. D.A. for (a) teachers in all four Faculties and (b) the subordinate staff in all the Departments and Faculties.

3. Revised D.A. for all employees of the University at new Governmental rates.

The recommendations of the committee were considerably modified by the authorities of the University in respect of total numbers of teaching staff as also in the number of senior lecturerships as against the original provision of smaller numbers: most of the subordinate staff also were given the benefit of revised grades and some cases are yet being considered. All the revision in salary has been given effect to from 1-7-1948 and enhancement of dearness allowance from 1-4-1948.

In previous cases where applications for grants were made, effect was given only after grants were in sight. But as per special recommendations of the several authorities, the revision was given effect to in anticipation of grant, as the matter was considered most urgent and as Government have themselves suggested increased salaries in their letter d. 20-4-1947 and the Government of India also pressed for higher grades in the Faculty of Engineering and Technology with a view to raising the standard of instruction in their letter F.6/4 of 46 dated 23-10-46.

The Committees findings were:

i. That the resources of the Arts, Science and Oriental studies had been diverted to the starting of the Engineering Faculty to the detriment of the original 3 Faculties.

ii. They have recommended the separation of the Engineering and Technology Faculty from the Arts and recommended the enhancement of grants to the extent of Rs 2.39 lakhs for the Arts, Science and Oriental Faculties and Rs 3 lakhs for the Faculty of Engineering and Technology. iii As the resources of the University will not permit of any allotment from the existing University funds either for revision of salary or D.A. an application to Government for

Secy
P.L.
27.12.48

93124

3

6

(discussed)

88
2.39 lakhs was made.

4) Prior to the application, the D.A. rates at the University were only at the rates of Rs 6 and Rs 12 and that only for those who had less than Rs 100/- as salary, as the University could not afford to pay more and as, according to the authorities of the University that amount of relief was adequate in the rural atmosphere of Annamalaiagar.

5) As salaries were very low compared with salaries in the Madras and Andhra Universities and as there was a universal demand for Government rates of D.A. being adopted in all institutions, the committee and the other authorities felt the need to increase D.A. rates to governmental ones. Aided Colleges and schools have been given grants to enable the governmental rates of D.A. being given. Other institutions too followed; the Bombay University for instance, was sanctioned a special grant of 1 lakh for D.A. only. It has therefore been requested that grants for revision of salaries and D.A. be sanctioned for this University by the Madras Government.

6) The Andhra University has insisted on new scales of salaries for their colleges and added that in view of Government grants D.A. be paid at Government rates. Our request therefore for grants both towards D.A. and revision of salaries will be found to be quite proper.

7) As after the applications, because of the modifications made by the authorities, the commitments have increased from 2-39 to 3.50 lakhs, the original application may be considered as for Rs 3.5 lakhs, and the request granted on that basis, for the new figure has been the result of a close calculation on the basis of actual disbursement for more than half the year 1948-49.

Unless Government comes to our rescue we will be in an unenviable position of debts to pay without any corresponding resources.

Unfortunately, the University cannot command credit to borrow, nor will it be allowed huge overdrafts.

A few points in the applications require reiteration:-

8) 1. the original application of 1928 for the three faculties of Arts, Science and Oriental Studies requested a recurring block grant of Rs 3 lakhs or Rs 2 lakhs with 40 lakhs and 60 lakhs for permanent endowment. The actual grant was only 27 lakhs on the capital account and Rs 1.5 lakhs on the recurring account.

2. In 1940, after several attempts the University had an additional

89 44
46
46
recurring grant of Rs 40,000 where Rs 60,000 was asked for. In 1946, for revision of salaries that were unduly low, the grant was Rs 1 lakh, where 2.04 lakhs was asked for. The Government in their order regretted that they could not give more and advised adjustment of scales on the basis of the 1 lakh grant. As the resources of the University have been shown to be little by reason of the decision of the statutory Finance Committee in 1939 on the eve of its dissolution as also by the experience of the University in the first ten years of its existence, the revision had to be made only with the funds granted by Government. The University has had donations from H.H. the Maharajah of Travancore and H.H. of the Tirupanandal Mutt, but ~~these~~ they were for capital expenditure or for car-marked purposes. As the grant was only half of what was asked for, the University cannot commit itself to an expenditure on maximum basis of more than Rs 5,000 out of its funds in addition to the 1 lakh of grant. As several of the teachers had been staying on the maxima of their old scales, stepping up in the new grades were necessary. In the first year, several advance increments in the new grades had to be given and yet the exodus from the University to service under the Madras Government service in new colleges in the Madras University, and in the Madras and the Andhra Universities was merrily going on in spite of protests and representations to H.E. the Chancellor, the Chancellor of the three Universities and the Head of the Provincial administration, Madras. Even the revision now attempted does not bring the grades to the levels of the Madras and the Andhra University grades.

Because the University has been carefully administering its funds and erred to the extent of giving bare subsistence wages, it has evoked jealousy and frequent defections from its ranks and rumours of its fabulous wealth are set afloat; the close scrutiny by the statutory Finance Committee functioning from 1929-1939 resulted in their findings recorded in 1939. As the committee was found useful, as a weighty committee giving excellent valuable advices as to the future of the University, an advisory Finance Committee with practically the same constitution was set up by the Syndicate till last year, when a wave of democratic enthusiasm swept away the valuable standing elements in its constitution.

The resources of the University will compare most unfavourably with both the Madras and the Andhra Universities, for both in Madras and

90
--4--
Andhra Universities, Examinations are the sources of a larger or smaller surplus. Similarly publications give a fairly good net profit. Their responsibilities as non-residential Universities are less. Their staff are in most cases not resident; their alumni are few, as they do not burden themselves with a many courses as this residential University has. Andhra competed with its affiliated colleges in the matter of B.A. Pass instruction till recently and is now doing Honours and Research courses only. Madras has no Honours to trouble itself about and contents itself only with supplementing the research attempted also in its various constituent and affiliated colleges. But Annamalai has to do Intermediate Pass, Honours and Research with resources which do not come anywhere near the resources of the other two Universities.

11 Its slender resources have been husbanded with great care. The original endowment grant of 27 lakhs has, because the conversion brought down income by way of interest from 6% to 2 3/4% i.e. to less than half the percentage. Aiming at stability of income the Permanent Endowment Fund now stands at 70 lakhs face value. Yet there is a fall in interest to the tune of Rs 36,000 in spite of an addition of 22 lakhs of capital and a further fall in 1954-55 of another Rs 36,000 is most likely. The original buildings and equipment grant of Rs 7.5 lakhs has helped the University to 12 buildings worth Rs 30 lakhs the Science extension grant of Rs 2.25 lakhs to Rs 2.37 lakhs; the Engineering Capital grant of Rs 10 lakhs to Rs 9 lakhs so far for Engineering buildings; the Hostel grant of ; 38,000 to Rs 76,000. A similar original grant of Rs 7.5 lakhs to the Andhra University has helped them to Rs also because of transfers.

This careful expenditure has been possible simply because of transfers in the main from one account to another. These transfers are on the lines of the tradition set up by the older Universities of Madras and Andhra. Madras had till recently grants of specified sums for each one of the 12 purposes of the University and custom had permitted the diversion of funds from one account to another. The surpluses after these transfers have resulted in Madras having Rs 100 lakhs investments in various accounts today. Similarly Andhra has made transfers and contributions by way of donations to capitalising funds to the extent of Rs 388,000. In Annamalai sums are transferred to a reserve fund made out of the casual savings or the allotments from year to year. This is on the principle that unspent balances are best set apart for unforeseen expenditure in succeeding years either for

91 AS
5. 47
new departments or for capital expenditure. These stray savings (funded though they may be) cannot be used for recurring expenditure like Dearness Allowance and revision of salaries.

ANNAMALAI UNIVERSITY
ANNAMALAINAGAR

Camp. Maras.

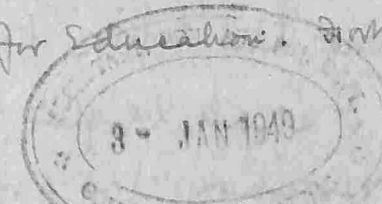

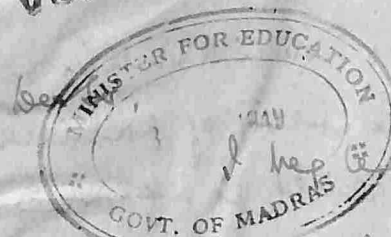

8 JAN 1949

31.12.1948.

The Hon. S. T. S. Anandalingam, M.A., M.L.A.

Minister for Education, Govt. of Madras.

0222

I beg to submit herewith a copy of the Memorandum which I left with Mr. M. V. Subramaniam, the Secretary, three days ago, when I could not meet you at the Secretariat.

The increase in scales of pay in line with the Maras University scales of pay for its affiliated colleges in accordance with Government mofussil rates for those in administrative posts, has led to appoint men higher up in the scale, sometimes even at the maximum for one or two cases, or special pay, the granting of dearness allowances at 40% rates to all members of the staff, teaching, administrative & inferior, have mounted the cost of running the University under the strain of salaries.

I desired to discuss the matter with you but it could not be done this week, I am submitting the memorandum, answering some of the criticisms that have

74
UNIVERSITY OF MADRAS
MADRAS

PP 111-157 info

been levelled - the appendices have been included in order to show how little they are based on facts.

I shall be glad, Sir, if on a consideration of the real position, the grant in the form of salaries is reconsidered & substantial relief is afforded to the University.

I may be permitted to add that the revision of salaries & the grant of Dearness Allowance at Govt. rates was largely effected on the initiative of the Govt.

As the office might require time for putting up the facts for your scrutiny, the memorandum may be ordered to be examined shortly.

An opportunity may also be given to me if any clarification on any point is required.

Thanking,

Yours sincerely,

S. G. Manavala Ramanujan
Vice-Chancellor.

Annamalai University 4953

49

Application made, d. 11-5-1948, for Rs.2.39 lakhs for

1. Revision of Salaries

- (a) in the Arts, Science and Oriental Studies Faculties as per recommendations of the Dr. Sir A. Lakshmanaswami Mudaliar Committee, and
- (b) in the Faculty of Engineering and Technology (vide letter d. 16-3-1948);

2. Dearness Allowance for

- (a) teachers in all four Faculties and
- (b) the subordinate staff in all the Departments and Faculties;

3. Revised Dearness Allowance for all employees of the University at new Governmental rates.

The ~~ex~~ recommendations of the committee were considerably modified by the authorities of the University

- (i) in respect of total numbers of teaching staff, as also
- (ii) in the number of senior lecturerships as against the original provision of smaller numbers;
- (iii) most of the subordinate staff also were given the benefit of revised grades, and
- (iv) some cases are yet being considered.

All the revision in salary has been given effect to from 1-7-1948 and enhancement of dearness allowance from 1-4-1948.

In previous cases, where applications for grants were made effect was given only after grants were in sight. But as per special recommendations of the several authorities, the revision was given effect to in anticipation of grant, as the matter was considered most urgent and as the Madras Government have themselves suggested increased salaries in their letter d. 20-4-1947 and the Government of India also urged higher grades in the Faculty of Engineering and Technology with a view to raising the standard of instruction in their letter F.6/4 of 46 d. 23-10-1946.

The committee's ^{findings} ~~finds~~ are:-

- 1- That the resources of the ^{Faculty of} Arts, Science and Oriental studies had been diverted to the starting of the Engineering Faculty to the detriment of the original three Faculties;
- ii. The separation of the Engineering and Technology Faculty from the Arts and Science Faculties and the enhancement of grants to the extent of Rs.2.39 lakhs for the Arts,

96
Annexure B

Application made, B. 11-3-1948, for Rs. 30 lakhs for
1. Revision of salaries
(a) in the Arts, Science and Oriental Studies Faculties
as per recommendations of the Dr. Sir A. Lakshmanan-
swami Murthi Committee, and
(b) in the Faculty of Engineering and Technology (vide
letter B. 10-3-1948).

2. Dearness Allowance for
(a) teachers in all four Faculties and
(b) the subordinate staff in all the Departments and
Faculties.

3. Revised Dearness Allowance for all employees of the Uni-
versity at new Governmental rates.

The recommendations of the committee were considered
only modified by the authorities of the University
(i) in respect of total number of teaching staff, as also
(ii) in the number of senior professorships as against the
original provision of similar numbers;
(iii) most of the subordinate staff also were given the bene-
fit of revised grades, and
(iv) some cases are yet being considered.

All the revision already has been given effect to from
1-4-1948 onwards. The Dearness Allowance from 1-4-1948
in previous cases, where applications for grants were made
effect was given only after grants were in sight. But as per
special recommendations of the several authorities, the revi-
sion was given effect to in anticipation of grant, as the
matter was considered most urgent and as the Madras Govern-
ment have themselves suggested increased salaries in their
letter B. 10-4-1947 and the Government of India also agreed
higher grades in the Faculty of Engineering and Technology
with a view to retaining the standard of instruction in their
letter B. 10-4-1947 of 10.10.1947.

The Committee's recommendation is that the resources of the Arts, Science and Oriental
Studies Faculties be diverted to the benefit of the original three
Faculties.

4. The revision of the Engineering and Technology Faculty
from the Arts and Science Faculties and the Government
of Madras to the extent of Rs. 30 lakhs for the year 1948-49.

2 50 97-5

Science and Oriental Faculties and Rs. 3 lakhs for the Faculty
of Engineering and Technology. As the resources of the
University will not permit of any allotment from the
existing University funds either for revision of salary or
Dearness Allowance, an application to Government for
Rs. 2.39 lakhs was made.

Prior to the application, the Dearness Allowance rates
at the University were only at the rates of Rs. 6 and Rs. 12 and
that only for those who had less than Rs. 100/- as salary, as
the University could not afford to pay more than that and as that
amount of relief was then considered adequate in the rural
atmosphere of Annamalai Nagar.

As salaries were very low compared with salaries in the
Madras and Andhra Universities and as there was a universal
demand for Government rates of Dearness allowance being adopted
in all institutions, the Committee and the other authorities
felt the need to increase Dearness Allowance rates to Govern-
mental ones. Aided Colleges and Schools in Madras and Andhra
University areas have been given grants to enable the govern-
mental rates of Dearness Allowance being given. Other insti-
tutions also gave Government grants in their Colleges in the two
areas Dearness allowance incurred at full cost. The Bombay
University, for instance, was sanctioned a special grant of
Rs. 1 lakh for D.A. only. It has therefore been requested that
grants for revision of salaries and Dearness allowance be sanc-
tioned for this University by the Madras Government.

The Andhra University has insisted on new scales of sala-
ries for their Colleges and added that in view of Government
grants, Dearness allowance be paid at Government rates. Our
request therefore for grants both towards Dearness allowance
and revision of salaries will be found to be quite proper.

As after the applications, because of the modifications
made by the authorities, the commitments have increased from
2.39 to 3.53 lakhs, the original application may be considered
as for Rs. 3.53 lakhs and the request granted on that basis,
for the new figure has been the result of a close calculation
on the basis of actual disbursement for more than half the
year 1948-49.

Unless Government comes to our rescue we will be in an
unenviable position of debts to pay without any corresponding
resources. Unfortunately, the University cannot command credit
to borrow, nor will it be allowed huge overdrafts.

A few points in the application require reiteration:- 51

1. The original application of 1928 for the three Faculties of Arts, Science and Oriental Studies requested a recurring block grant of Rs.3 lakhs or Rs.2 lakhs with 40 lakhs and 60 lakhs for permanent endowment. The actual grant was only 27 lakhs on the capital account and Rs.1.5 lakhs on the recurring account.
2. In 1940, after several attempts, the University had an additional recurring grant of Rs.40,000 where Rs.60,000 was asked for. In 1946, for revision of salaries that were unduly low, the grant was Rs.1 lakh where 2.04 lakhs was asked for. The Government in their order regretted that they could not give more and advised adjustment of scales on the basis of the 1 lakh grant. As the resources of the University have been shown to be little by reason of the expert opinion of the statutory Finance Committee in 1939 on the eve of its dissolution as also by the experience of the University in the first ten years of its existence, and after the revision of 1948, has to be made only with the funds granted by government.
3. The University has had donations from H.H. the Maharajah of Travancore and H.H. of the Tirupanandal Mutt, but they were for capital expenditure or for ear-marked purposes. As the one lakh grant was only half of what was asked for, the university cannot commit itself to an expenditure on the maximum basis of more than Rs.5,000 out of its funds in addition to the one lakh of grant. As several of the teachers had been staying on the maxima of their old scales, stepplings up in the new grades were necessary. In the first year, several increments in the new grades had to be given and yet the exodus from the University to service under the Madras Government, service in new Colleges in the Madras University and in the Madras and the Andhra Universities was merrily going on in spite of protests and representations to H.H. the Chancellor, the Chancellor of the three Universities and the Head of the Provincial Government, Madras. Even now the salaries as now revised and the P.A. at new scales do not bring the remuneration to the employees of this University to the level of the Madras and Andhra University grades.
4. Because the University has been carefully administering its funds and erred to the extent of giving bare subsistence

49 10/52
4
wages, it has evoked jealousy and frequent defections from
defections from its ranks ^{have resulted} and rumours of its fabulous
wealth are set afloat; the close scrutiny by the statutory
Finance Committee functioned from 1929 to 1939 resulted
in findings recorded in 1939. As the Committee was
useful, as a weighty committee giving excellent
advice as to the future of the University, an
Finance Committee with practically the same con-
on was functioning as an advisory body till last
in a wave of democratic enthusiasm swept away the
valuable steadying elements in its constitution.

The resources of the University will compare most un-
favourably with both the Madras and the Andhra Universities,
for both in Madras and Andhra Universities, examinations
are a source of a larger or smaller surplus. Similarly
publications give a fairly good net profit. Their res-
ponsibilities as non-residential Universities are less.
Their staff are in most cases not resident; the students
under instruction at the university are few, as they do
not burden themselves with as many courses as this resi-
dential University has. Andhra competed with its affili-
ated Colleges in the matter of ~~XXXXXXXXXXXXXXX~~ B.A.
pass instruction till recently and is now doing Honours
and Research courses only. Madras has no Honours to trouble
itself about and contents itself only with supplementing
the research attempted also in its various constituent and
affiliated Colleges. But Annamalai has to do Intermediate,
pass, Honours and Research with resources which do not come
anywhere near the resources of the other two Universities.

its slender resources have been husbanded with great
care. The original endowment/grant of 27 lakhs has, because
of conversion, resulted in loss of income by way of interest
from 6% to 2½% i.e. to less than half the percentage.
Aiming at stability of income, the Permanent Endowment Fund
added to from time to time now stands at 70 lakhs face value.

there is a fall in interest to the tune of Rs.36,000/-
in spite of an addition of 22 lakhs of capital and a further
fall in 1954-55 of another Rs.36,000 is most likely. The
original buildings and equipment grant of Rs.7.5 lakhs has
helped the university to buildings worth Rs.30 lakhs, the
science extension grant of Rs.2.25 lakhs to Rs.2.37 lakhs,
the Engineering Capital grant of Rs.10 lakhs to Rs.9 lakhs

so far for Engineering buildings and the Hostel grant of Rs.38,000 to an expenditure of Rs.76,000/-.

The above scale of expenditure has been possible simply because of transfers from one account to another. These transfers are on the lines of the traditions set up by the older Universities of Madras and Andhra. Madras had till recently grants of specified sums for each one of the 12 purposes of the University and custom had permitted the diversion of funds from one account to another. The surpluses after these transfers have resulted in Madras having Rs.100 lakhs investments in various accounts today. Similarly, Andhra has made transfers and contributions by way of donations to capitalising funds and the Foundation Fund. In Annamalai sums are transferred to a reserve fund made out of the casual savings of the allotments from year to year. This is on the principle that unspent balances are best set apart for capital expenditure in succeeding years either for new departments or expansion of existing departments. These stray savings (funded as they are) cannot be used for recurring expenditure like dearness allowance and revision of salaries.

In sanction^{ing} grants the University has been requesting that the grants be fixed on the basis of the maxima of the scales introduced. Even the new proposed scales are considerably lower than in the other Universities and Colleges with whom this University ~~has~~ is often compared in popular estimation. Because of the present dearth of teachers even on the new scales, teachers have had to be started on salaries higher than the actual start of the grade. In some cases, the maxima have also been granted. In a few ~~fa~~ cases, within a few months of the teachers' coming in, requests for promotion and personal allowances have been made and granted. In spite of these, the places of the Professor of Chemistry ~~xxxx~~ and of some of the members of the staff of the Engineering and Technology Department have for a considerable time remained unfilled. In the case of a big institution like the State, with a large number of employees, it may be possible to estimate very closely the actual expenditure of the scheme by the process of averages. But in a small residential University competing with the State and other Univer-

51 54 105

sities with better resources by way of Examination Fees and publication profits, the commitments on the maxima basis have alone to be taken into account. The University has been uniformly urging for this consideration in all its requests and experience has actually shown that the maxima do form the real basis in the case of this University, as several of the teachers had been stagnating on the maxima of previous years in 1946 and as their claims could not be adequately and fully considered in 1946, a revision had to be made in 1948.

Amongst the remedies suggested by experts are

- i) Raising of tuition fees;
- ii) Constitution of new funds and transfer of casual savings by way of surplus to those funds in order that the maintenance of proper standards might be possible;
- iii) Dropping of departments that ~~might~~^{should} not be duplicated in this University as neighbouring Universities and other Institutions have provided for them;
- iv) Cut of allotments for equipment in the Library, the laboratories, play-grounds etc.

All these remedies have been adopted.

1) In the case of tuition fees, there was a revision in 1941 and again in 1941 and again in 1948. For instance, in intermediate the tuition fees were raised from Rs.28/- to Rs.30/- per term in 1941 and to Rs.45/- in 1948, resulting in an increase of 60 %. This remedy was suggested by the Finance Reorganization Committee and the Government of Madras. It has been duly given effect to. Increasing it further so soon after the recent revision may not be possible.

2) Towards the fall in income for instance in the Permanent Endowment Fund, additions during these 20 years to the extent of Rs.11 lakhs have been made. On a close calculation, to further combat the loss of income, a sum of Rs.1,50,000 was decided necessary by the Sir A.Lakshmanaswami Mudaliar Committee. But that has not been given effect to because it was felt that a transfer of Rs.1,50,000 every year will take away from the present resources of the University to such an extent as to impair efficiency of instruction.

3) The third remedy, namely, dropping of departments was attempted in 1934 on the basis of the recommendations of the Ad Hoc Committee in 1933. It was again attempted in 1941. This brought the University a certain amount of unpopularity

52 10/15
55 10/1
7
and various kinds of charges have been laid at the doors of the University administration. This kind of dropping out of Departments might be necessary if the request for enhancing enhancement of grant for revision of salaries and dearness allowance is not granted. Having had experience twice of cutting of departments and retrenchment in its several aspects, the University shudders to think of dropping of departments.

4) The next remedy was attempted in 1941 on the basis of of the recommendations of the Finance Reorganization Committee. As the Committee itself has said:

'In the remedies proposed, namely reduction of (i) equipment grant, (ii) number of scholarships, (iii) allotment for research publications and (iv) allotment for books and periodicals, these reduction might begin to tell on the efficiency of instruction if they are to continue for long. As the statutory finance Committee has pointed out, a need for providing for deficits towards drainage, water-supply and electricity may arise and has to be provided for'.

Hence this request for a government grant towards revision of salaries and dearness and allowance which is also a part of salaries. Even after taking into account both, the Annamalai University teacher cannot find his position as comfortable as that of a Madras or Andhra University teacher.

The following statements are enclosed in proof of the position held in the above memorandum:

1. Extracts from the opinions of experts on the financial resources of the University;
2. Comparative statement of cost on salaries of staff and establishment before and after the revision given effect to on 1-7-1948;
3. A statement to show the difficulties in recruitment and retention of staff as experienced in recent years;
4. A statement of publications and Research work in the University;
5. A copy of a letter from Government of Madras d. 24-9-47 suggesting revision of salaries;
6. A copy of letter from the Government of India d. 23-10-46 re Engineering courses;
7. Scales of salaries in the Andhra and Annamalai Universities;
8. Copy of original scheme requesting an endowment grant of Rs. 40 or Rs. 60 lakhs to assure proper financial backing for the University;

- 53 56 107 #
9. A statement showing the present position of the Permanent Endowment Fund Account, additions made to it and the ~~loss~~ loss of income from Rs.2.80 lakhs to Rs.2.42 so far.
 10. A statement of expenditure on buildings in the University so far, out of Rs.7.5 lakhs granted in 1929, Rs.2.25 lakhs granted in 1945, Rs. 10 lakhs promised for the Engineering College and the promised grant of Rs.4.5 lakhs for Hostels.
 11. A statement of Tuition fees and the two revisions effected in the years 1941 and 1948.

1. The Statutory Finance Committee, on the eve of their laying down of office in 1939:-

The Committee recorded the following observations for future guidance:-

"A surplus of Rs.56,000 in the General Fund to be transferred to the building fund may be satisfactory from the point of view of the budget for the year 1939-40, but the following points demand anxious consideration:-

- i. The revenue of the University is inelastic;
- iii. The provision of the prescribed salary for the Vice-Chancellor when the honorary services of the Right Hon'ble V.S. Srinivasa Sastriar and Sri T.R. Venkatarama Sastriar may no longer be available, may entail an expenditure of Rs.24,000/-.
- iv. The expenditure on repairs to the buildings that are now new may amount up to Rs.35,000 where now only Rs.16,500/- is provided;
- v. The maintenance charges towards electric-lighting, water-supply, drainage etc. will require a sum of at least Rs. 15,000/-;
- vi. The increments to staff on the present scales require an additional expenditure of Rs.58,300/-.

These and other inevitable additions to recurring expenditure would preclude all possibilities of expansion either by way of additions to numbers on the staff or by way of addition of new departments. Measures will soon have to be devised to augment the income of the University by appeals for funds from the public and local bodies, as has been done in the Andhra University."

II. Recommendations of the Ad Hoc Committee (1933).

The programme of building work to be taken on hand as early as possible is set out in the annexure.

The Committee feels that as no more than Rs.4.25 lakhs can be safely expected as the normal income, no better salaries than those recommended above can be sanctioned for ten years to come, with the present resources no new department can be opened, no new grades can be sanctioned and no new items of building work attempted except those indicated in the programme given in the annexure. As all the available resources are needed for the schemes and courses outlined under the Buildings and General Funds, such savings as are effected out of the General Fund should be transferred from year to year to the Building Fund as has been hitherto done.

20
112

...
...
...

The Committee has considered the following questions for its future work:—
1. The question of the University's financial position.
2. The question of the University's physical development.
3. The question of the University's administrative organization.
4. The question of the University's social and cultural life.
5. The question of the University's extension work.
6. The question of the University's research work.
7. The question of the University's public relations.
8. The question of the University's staff and students.
9. The question of the University's buildings and equipment.
10. The question of the University's library and museum.
11. The question of the University's sports and recreation.
12. The question of the University's health and welfare.
13. The question of the University's public service.
14. The question of the University's international relations.
15. The question of the University's future development.
16. The question of the University's financial position.
17. The question of the University's physical development.
18. The question of the University's administrative organization.
19. The question of the University's social and cultural life.
20. The question of the University's extension work.
21. The question of the University's research work.
22. The question of the University's public relations.
23. The question of the University's staff and students.
24. The question of the University's buildings and equipment.
25. The question of the University's library and museum.
26. The question of the University's sports and recreation.
27. The question of the University's health and welfare.
28. The question of the University's public service.
29. The question of the University's international relations.
30. The question of the University's future development.

Programme of work -- Remarks show what work has been completed and what amount yet remains to do in the year 1948.

	Remarks.
Staff Club.	Completed.
quarters for the post-office, the post-master and servants and for police station and police lines	quarters for servants in Post Office yet to do.
Drainage Scheme.	Revised estimate submitted.
water-supply scheme.	Half done.
union buildings.	Completed.
Co-operative stores and small stalls	Half done.
Additional Hostel residential rooms	Rs. 9 lakhs work yet to do.
Additional kitchens, dining halls and bath rooms.	Half done.
Additional quarters for staff.	8 lakhs work yet to do.
Extension to Science laboratory and Museum.	Museum yet to do.

III. Recommendations of the Finance Re-organization Committee.
(1941).

(a) Interim Report.

On a careful consideration of the income and expenditure of the University for the past 12 years the Committee is convinced that unless the finances are put on a proper basis, the university will inevitably find itself in a difficult position as the years go by. A detailed statement about the finances will be submitted in the final report. The Committee feels that early action is necessary in regard to certain matters and this Interim Report is therefore forwarded for consideration and acceptance with a view to giving effect to such recommendations as are feasible from the commencement of academic year 1941-42.

After examination of the income of the University from various sources, the Committee is convinced that the income is bound to progressively diminish owing to the investments in the Permanent endowment fund yielding considerably less interest in the years to come, and the expenditure is bound to increase on account of commitments by way of increments in the salaries of the Staff consequent on the time-scale, the small additions to buildings and expenditure connected with the maintenance of the existing buildings and the additions, unless therefore a certain sum is laid by as capital to yield an income to meet these charges, the University

will be faced with a deficit with no possibility of meeting it from any other extraneous source. The committee therefore recommends:-
1. The statutes fix the salary of the Vice-Chancellor between 1500 and 2,500. The University cannot afford more than Rs.1,500/- per month.

2. The Committee does not recommend any change in fees now collected from students for the different examinations. It would however suggest to the Syndicate the desirability of minimising the expenditure incurred in the constitution of Examination Boards and request that the necessity for an oral Examination in regard to the Honours may be further considered. Such oral examinations are not in vogue in many other Indian Universities. In regard to the constitution of Examination Boards, the for both question-paper setting and conducting, the desirability of limiting the number in the conducting board may be considered.

4. Library. The allotment for books and periodicals should be reduced from Rs.15,000 to Rs.12,000 and made a block grant.

5. Physical Education. The committee is generally of opinion that Athletic fees realised should cover the cost of all the Games and upkeep of courts etc. i.e. all expenditure on Physical Education except the salary of the teaching staff and a clerk. The fees for Tennis may be increased from Rs.12 to Rs.15 per year to be collected in two instalments. It is expected that the fees should cover expenses of annual maintenance of courts, the cost of balls, of markers, pickers, as also of relaying of courts once in six years.

6. Tuition fees. The Committee notes that the tuition fees have not been revised in the Annamalai University, as they have been in practically all other colleges subsequent to the G.O. issued in May, 1938. Suggests revision of tuition fees.

8. Hostel. Towards depreciation of the buildings, a sum of at least 2%, i.e. 12,000 must be realised as rents.

The Committee notes that the Annual budget has already been prepared and submitted to the Senate. Under the circumstances it is not possible now to revise any of the budget figures; it observes that the Syndicate should reserve to itself the right to submit revised proposals to the Senate at the next meeting in the light of the recommendations of the Committee.

(b) Final Report.

The income is bound to diminish progressively owing to the investments in the permanent Endowment Fund yielding considerably less interest in the years to come as it has already come down from 2,41,457 in 1931-32 to Rs.2,34,673 in 1939-40, despite additions made to the permanent Endowment Fund in the last six years. With the bifurcation of courses in the High School stage and the vocational bias that is proposed to be given in the high school

It is therefore safe to expect not more than an income of 5 lakhs till 1954-55 and 4.75 lakhs after 1956 and towards this an extra expenditure of 4.07 lakhs Rs.1.55 lakhs towards teaching staff, Rs..36 lakhs for University administration and Rs.2.16 lakhs for items of expenditure other than staff, leaving only a surplus of Rs.1.06 lakhs to be utilised towards additions to capital to counteract the fall in income.

In the remedies proposed, namely reduction of (i) equipment grant, (ii) number of scholarships, (iii) allotment for research publications and (iv) allotment for books and periodicals these reductions might begin to tell on the efficiency of instruction if they are to continue for long. As the statutory finance Committee has pointed out, a need for providing for deficits towards drainage, water-supply and electricity to the extent, as they estimate, of at least Rs.15,000 may arise and has to be provided for. This deficit may increase in the course of years.

The Committee therefore suggests that the financial position be revised once in every five years, so that enough thought may be taken of the directions in which changes could be made in the next quinquennium.

IV. Recommendations of the Sir A. Lakshmanaswami Mudaliar Committee for revision of salaries.

the Committee resolves

- i. that Governmental rates of dearness allowance as per G.O.No. 99 d. 29-1-48 may be paid to all employees with effect from 1-4-48, i.e. the first payment will be made on 1-5-1948;
- ii. that revision of grades of salaries for teachers in the Arts, Science and oriental Faculties may be granted with effect from 1-7-1948, i.e. the first payment will be paid on 1-8-1948;
- iii) that Government be approached for recurring grants
(a) to enable the University to pay dearness allowance at Governmental rates and revision of salaries on the lines indicated below;

118

and the fact that in the past the University has been able to secure for its students and staff quarters and staff quarters and b) for capital grants towards the cost of hostels and staff quarters-

Summary of the recommendations.

Salaries and Classification recommended for the Arts, Science and Oriental Faculties.

17 Professors. Rs. 200--15--300--20--450--25--500
4 of them going up to Rs.700).

31 Lecturers. ... Rs. 150-10-250.

32 Assistant Lecturers. Rs. 100--5--150.

23 Language Assistant Lecturers (with titles) Rs. 75--5--125.

12 Tutors and Demonstrators. Rs. 75--5--100.

In fitting the present members of the staff to the new grades every period of 4 years of service in the existing grade shall account for one increment in the new scale in the case of Lecturers and Assistant Lecturers, Tutors and Demonstrators. This will be according to the practice of Government in respect of non-gazetted officers only.

In making the above recommendations for the acceptance of the authorities, the Committee feels that the best that can be done to improve the position of the teachers and the other employees has been done, taking into account the financial resources of the University which it is hoped will be augmented by Government grants.

119

Amount of increase or number of increments due to one lakh grant (1946)

Amount of increase or number of increments due to new revision 1948.

Remarks.

English.

Mr. M. S. Duraiswamy.	Rs. 55	2 increments.	
Mr. S. Krishnamurti.	Rs. 50	1 ..	Since left for Sholapur.
Mr. A. C. Subrahmanyan	Rs. 25 (5 increments)	Rs. 25 in 1947.	1 increment in 1948.
Mr. K. P. Karunakara Menon.	Rs. 10	..	Since left for Karaikudi.
Mr. C. R. Myleru.	2 increments.	4 increments.	
Mr. Gopalan Nair.	Rs. 25.	...	Since left for Govt. service.
Mr. V. Seturaman.	Rs. 2 increments.	Rs. 60.	increase
Miss A. Bhagirathi Ammal.	...	.15.	
Mr. G. Gopalakrishnan.	...	Rs. 150.	Direct recruitment as Senior Lecturer. There is still another vacancy and even a Senior Lecturer's scale does not attract proper men.
Vacant.			
Mr. W. V. Sitaraman	...	Rs. 15.	started on a salary
Mr. T. Subrahmanyan.	...	Rs. 15.	higher than the
Mr. S. Krishnan.	...	Rs. 15.	start of the grade.
Mr. T. R. Lakshminarasiah.	...	Rs. 100	Direct recruitment.

Philosophy.

Mr. R. Ramanujachariar.	2 increments.	...
Mr. D. I. Jesudas.	2 increments.	Rs. 30. plus Rs. 10.

History.

Mr. R. Rathianathaier.	Rs. 45.	3 increments.
Mr. R. Bhaskaran.	Rs. 100	... Left for Madras University Readership.
Mr. A. Krishnaswami.	Rs. 40	Rs. 30. Promotion to Junior grade and I Grade.
Mr. P. K. S. Raja.	2 increments.	Rs. 30.
Mr. C. Thangaiyan.	...	Rs. 130. Direct recruitment shut on Rs. 120/-.
Mr. D. Palasubrahmanyan.	...	Rs. 35/-

Economics.

Dr. R. N. Poduval.	2 increments.	... Left for Madras as Reader.
Dr. S. Chandrasekhar.	...	Direct appointment on Rs. 350. Left within the year to serve in the United Nations Secretariat.
Mr. V. G. Ramakrishnaier.	2 increments.	.55/- Promotion as Professor
Mr. C. M. B. Zacharias.	Rs. 200.	Lect for Madras University.

Nos. 5 and 6.

No. 5. Copy of letter No. 27845-G3/47 -12 Edn.
d. 24-9-47 from the Secretary to
the Government of Madras (Education Dept.)

Sir,

Sub: Post-war reconstruction-schemes for the period
ending 31-3-1947.

Ref: Your letter d. 16-6-1947.

I am directed to state that the Government have already
sanctioned a recurring grant of Rs. 1 lakh for the revision of
salaries of the Teaching staff of the University and that in
spite of this fact the scales of pay in force in the University
are low compared either with those in the Government Colleges
or in the Madras University. The Government are therefore of
the opinion that the University will be well advised to adopt
at least the scales of pay suggested by the Government of India,
Education Department in their letter No. F.6/4/46-P dated
23-10-1946 communicated with this department letter No. 34201-G3
46-7, Education d. 21-11-46. I am accordingly to request that
steps may be taken to adopt these scales and a report sent to
Government.

Your obedient servant,
Sd. ...

Secretary to Government.

No. 6. Copy of letter No. 34201 G3-46-7 Edn. d. 21-11-46
from the Govt. of Madras communicating extract from
letter No. F.6/4/46 -P d. 23-10-46 from the Government
of India.

Sir,

Sub: Post-war Reconstruction - scheme for the period
ending 31-3-47 -correspondence resting with your
letter No. F.4205 d. 24-6-46 and No. 2859 d. 19-7-46.

I am directed to communicate an extract from letter
from the Government of India, Department of Education, N. F.6/4
46-M d. 23-10-46 for necessary action and to request that the
action taken may be reported to Government.

Your obedient servant,
Sd. ...

For Secretary to Government.

Extract of letter.

Scheme No. 17 (2) - Grant to the Annamalai University for a
new College of Engineering.

Except for the head of the department and the Professors
the scales of pay proposed for the resting of the teaching staff
are definitely on the low side. For the lecturers the scale of
pay of Rs. 250--15--400 and for the Assistant Lecturers a scale of
pay of Rs. 150-10-250 is suggested. The proposed introduction of
a new grade, namely "Selection Grade Lecturer" seems to be un-
necessary."

[illegible]

10-10-1947

1 am directed to advise that the Government have already
 appointed a committee of the Privy Council to inquire into
 the state of the teaching staff of the University and that in
 the event of any further action being taken in the University
 the Government are desirous of co-operating with the University
 in the matter. The Government are desirous of
 knowing what the University will be well advised to do
 in the matter and are desirous of being kept informed of any
 further action taken by the Government in the matter.
 Yours faithfully,
 Secretary to Government.

[illegible]

...the Government of India, Department of Education, ...
...action had to be taken ...
...to be taken to government.
...action had to be taken ...

2. The fees for the second and third terms are payable in instalments.
3. The fees for the fourth term are payable in advance.

No. Statement of publications and Research work done
at the University.

Name of Publication.

Author.

History.

1. Bhôja Raja. Prof. P.T.Srinivasa Ayyangar.
2. The Nayaks of Tanjore. Diwan Bahadur C.S.Srinivasachari
3. History of Gingee. do.
4. History of later cholas. Mr. T.V.Panderathar.
5. History of Hoysalas. (Tamil) Mr. K.R.Venkatarama Ayyar.
6. Selections from Orme's Mss. and Tamil Document. Diwan Bahadur C.S.Srinivasa-chari.
7. Buddhism in Kerala. Dr. P.C.Alexander.

Economics.

1. Factory Labour in India. Dr. A. Mukhtar.
2. Distributive Cooperation in India. Mr. V.G.Ramakrishna Ayyar.
3. Small scale production. do.
4. The Madras Agriculturists' Relief Act - A Study. Dr. B.V.Narayanaswami Naidu.
5. Report on the Working of Prohibition in Madras Presidency. Mr. C.Jagannathachari.
6. Madras Sales Tax Act. Dr. B.V.Narayanaswami Naidu.
7. Road and Rail ~~Traffic~~ Transport. Mr.S.R.N.Badri Rao, M.Litt.
8. Groundnut. Dr.B.V.Narayanaswami Naidu,
9. Indian Trade. do.
10. Economy of South Indian Temple. Mr.V.G.Ramakrishna Ayyar.

Tamil.

1. Pari pattu. Mahavidvan Raghava Ayyangar.
2. History of Tamil Literature. do.
3. Advanced studies in Tamil prosody. Dr. A.C.Chettiar.
4. Sivaghanabodham Mr.A.S.Duraiswami Pillai,
5. Translation of Madura Vijayam. Mr.S.Tiruvengatachari,
6. Kurunthogai with commentary. Mahavidvan Raghava Ayyangar.
7. Saiva siddhanta Lectures. Mr.G.Subrahmanya Pillai.
8. A new approach to Tiruvacagam. Miss R.R. Chelliah.

Sanskrit.

X. Initial ~~max~~ out-lay on Buildings equipment etc. (Extra)

It is therefore necessary to take the budget of the year 1949-50 to see the real effect of the first year of the revision where several teachers have to be started on starts higher than the minimum of the new scales. The budget for 1949-50 has not yet been framed. It will be placed before the Syndicate at its January meeting.

Please see the DD from the U.C. Annals
University, and its enclosure
on pp. 1-65 ank. Action has
already been taken on another
copy of the memorandum which
was previously received and that
file has been sent to Fin. Co.
This may be added to that file
on its return.

E. & PH (G3)

ANNAMALAI UNIVERSITY

No. _____

23rd January, 1949.

From

THE REGISTRAR,

ANNAMALAI UNIVERSITY,

ANNAMALAINAGAR.

To

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St. George,
M a d r a s.

Sir,

Subject: University Accounts - Annamalai University -
Audited figures -- 1947-48 and Revised Estimates
1948-49.

Ref: Your telegram dated 18-1-1949.

I am forwarding herewith a statement of the audited accounts of the University for the year 1947-48 and also an abstract of the revised estimates for 1948-49 as required in the telegram quoted above. I have to make the following observations in respect of certain items in the audited accounts and the revised estimate.

2. Audited accounts for 1947-48.

There was a transfer of Rs. 5.20 lakhs to 'Constituted Funds' in the year. Barring minor items such as transfers to Annual Repair Fund, Gratuity Fund, etc., the major items under this head are the following:

- i) Permanent Endowment Fund; Rs. 55,000;
- ii) Reserve Fund. ... Rs. 4,00,000.

The Syndicate has been making an addition every year to the Permanent Endowment Fund in accordance with the recommendations of the University Finances Reorganization Committee of 1941, which expressed the view that such additions should be made in order to counteract the fall in income that would occur when the 4½% and 4% Government Securities mature.

The sum of Rs. 4 lakhs transferred to the Reserve Fund consists of savings under salaries of staff due to vacancies not having been filled up for want of suitable candidates, savings under provisions made for furniture renewals and also of unexpected increases

under certain heads of receipts. It is proposed to transfer this amount to a Building Depreciation Fund. The value of buildings and equipment provided so far amount to nearly Rs.30 lakhs and computing the life of the buildings at 50 years, a contribution of 2% on the total value should normally be made each year to the Depreciation Fund. This works out to Rs.60,000 a year. The University has, however, not been making any such contribution from its inception and hence the saving of Rs. 4 lakhs referred to above is being transferred to the Depreciation Fund.

It may be mentioned here that the principle of providing for a Depreciation Fund has been recognised and acted upon as early as from 1941 in regard to the Electrical Installations, and it is now proposed to extend it in respect of the buildings also as from that year.

3. Revised Estimates for 1948-49.

The receipts and charges for the current year amount to Rs.12.04 lakhs and Rs.12.34 lakhs respectively. Thus the year is expected to close with a deficit of Rs. 0.29 lakhs. At a meeting of the Finance Committee of the University which included Mr. D.W.Dodwell, I.C.S., the then Secretary to Government, Finance Department, held in January 1948, it was recommended "that the closing balance to be retained in the General Fund may be fixed at Rs.50,000 for the present, though a percentage of 5 on the total receipts of the University has been aimed at. Rs. 50,000 may enable immediate expenditure in April, May and June being met promptly." It is very essential that for the efficient working of the University this recommendation should be strictly adhered to. If provision is made for such a balance of Rs.50,000, the deficit for 1948-49 will increase to Rs. 0.79 lakhs. It may also be mentioned in this connection that the Salaries Revision Committee consisting among others of Sir A.Lakshmanaswami Mudaliar and Mr.D.S.Reddi, which went into the question of salaries of staff and the finances of the University in March, 1948, was of the opinion that the normal addition of Rs.55,000 to the Permanent Endowment Fund

Fund referred to in para 2 above would not be sufficient to compensate for the ultimate loss that might occur on the conversion of securities bearing higher interest to those on lower interest. The Committee's specific recommendation under this head was as follows:

"But the interest then at the new rate will be only Rs.2.06 lakhs, whereas the income was Rs.2.80 lakhs in the year 1946-47. It is reasonable to arrange to retain income by way of interest from this Fund at this level. In order to do so, an addition of Rs.1.50 lakhs every year may be necessary. The Committee notes that these additions are necessary in view of the depreciation of income from securities to retain the income at the same level."

In the ordinary course this recommendation will have to be given effect to from 1948-49, especially in view of the fact that the other recommendations of the Committee regarding revision of salaries etc. have been given effect to from this year. If this is done, the deficit for 1948-49 will further rise to Rs.2.29 lakhs.

4. It is presumed that the figures called for by Government are in connection with the application of the University for an additional grant to enable it to meet the extra expenditure on account of the revision of salaries of staff and the grant of Dearness allowance at enhanced rates. This revision was given effect to from 1st July, 1948, and the enhanced dearness allowance at full Government rates from 1-4-1948. The full financial effect of these two measures of improvement in the emoluments of staff will be seen only in the figures relating to the year 1949-50. I therefore venture to submit an abstract of the budget estimates for that year, which has just been framed. It will be seen that the receipts for that year will amount to Rs.11.54 lakhs as against the charges of Rs.13.37 lakhs, leaving a deficit of 1.83 lakhs. If provision is made for a closing balance of Rs.50,000 and for the transfers to Permanent Endowment Fund of a special sum of Rs.1.50 lakhs as indicated above, the deficit will be increased to Rs.3.83 lakhs. The grant of annual increments to staff in the revised scales will entail a progressive additional expenditure of about Rs.34,000 a year in succeeding years, the deficit in those years being correspondingly

168
4
raised.

When most of the members of the teaching staff reach the maximum of their scales of pay, the commitment under Departments of Studies which stands at Rs.6.03 lakhs in 1949-50 will be raised to Rs.8.40 lakhs. Unless there is any increase in receipt heads which it is not now possible to foresee, the deficit referred to in the previous paragraph will then increase by Rs.2.37 lakhs.

The Vice-Chancellor has carefully scrutinised the various items of expenditure provided for for 1949-50 and considers them essential for the efficient working of the Institution.

Unless Government comes to the rescue of the University there will be a serious dislocation in its financial position. The revision of salary was undertaken at the instance of Government and I request that the Government will be so good as to make a substantial lump sum grant towards the additional expenditure.

Yours faithfully,

K. P. S. Dasgupta
Registrar.

Vice-Chancellor's D.O. dated 31.12.48.

I am to ~~request~~ inform you that the ~~Govt~~ request for a grant for the revision of scales of pay of the teachers and payment of dearness allowance ^{to them} at Govt. rates may be revived when the audited accounts ~~for~~ of the University ~~are~~ ^{become}

S. G. MANAVALA RAMANUJAM
M. A., Ph. D. (Lond.), D. I. C. etc.
VICE-CHANCELLOR

ANNAMALAI UNIVERSITY
ANNAMALAINAGAR
(Via) CHIDAMBARAM
18th May 1949.

To

The Secretary to Government,
Education and Public Health Department,
Fort St. George,
M a d r a s.

Dear Sir,

Recently the scales of pay for the Teaching Staff of this University, as a result of agitation from the Staff and from the public, have been brought to the level of the scales of pay recommended by the University of Madras for its affiliated Colleges in the Mofussil. But most of the affiliated Colleges of the Madras University teach only up to the Pass standard, whereas in this University many subjects are taught up to the Honours standard and post-graduate research is also done in some departments. The Indian Universities Commission which visited the University recently had clearly remarked that the scales of pay in this University were ridiculously low and that something should be done immediately to raise the scales for the Professors. I expect that some severe comment will appear in their report about the scales of pay in this University.

I had, on a former occasion, written a D.O. letter to the then Hon'ble Minister for Education that the scales of pay for the Professors in this University may be brought at least to a level with those obtaining in the Mysore and Travancore Universities, namely, Rs.400--700. I am fairly certain that this scale of pay would be agreeable to you and I may further add that the maximum of this scale of pay does not exceed the pay of Lecturers in Government Colleges in the Presidency. That maximum at least should be guaranteed to the Professors in this University, where Honours and Research work are expected to be done in addition.

I therefore wish to suggest to you the following procedure in order that we may, as soon as possible, try to introduce this higher scale of pay. The introduction of this scale is an urgent need and Government may kindly agree to give the

38809

become available for
the year 1948-49. The request, when it is
again made, should be supported by a clear statement
to show the financial position of the University
according to these figures - 2 spare copies.

14.2.49

Yours faithfully,

186 3
84 95

the difference in salary that may arise as a result of this introduction between the expenditure now incurred on the Professors and the expenditure that would be incurred by the introduction of this new scale of pay. There is however one difficulty which has got to be overcome in the immediate future and consequently a different formula will have to be worked out for some time to come.

It is suggested for your consideration that as in Government Institutions two kinds of Professorship may be instituted (1) a Chief Professorship and (2) an Associate Professorship. Since most of the present Professors, on account of the lower scales of salary, have not got the requisite qualifications for this higher scale of pay, it may be necessary in many cases to recruit directly for the Headship of the Department on the new scale, viz. Rs. 400--700. It is therefore necessary to retain the existing Heads of Departments, where they are not appointed to the Headship in the new scale, on their present scale and designated Associate Professors of the Departments.

In effect, therefore, it will mean that the Government will have to be pleased to give us the average cost of the new appointments that may have to be made under the new scale. It may be added that the Associate Professorships will be abolished as and when these people retire or leave the University, so that in course of time the Associate Professorship may cease to exist. It has to be brought into existence as an interim measure.

The request will be sent to be a modest one, and one that has got to be sanctioned immediately in view of the sharp criticism levelled at us by all the members of the Universities Commission when they visited us last March.

I would request you to give your deepest consideration to this matter and let me know as early as possible so that we can make appointments under the new scheme even from July this year.

I am collecting details to work out the actual cost to Government of this proposal. Meantime I should be glad to know that the general principle involved in the above proposal has your

approval and on hearing from you I shall submit the necessary details of the proposal.

Thanking you for a favourable reply,

I am,

Yours sincerely,

S. G. Manabala Ramanujan

E. & P.H. (G.2)

Lr. Ref. No. 3889 82/82 Edn., dated 7/7/49

To

The Registrar, Annamalai University, Annamalainagar.

Sir,

Sub:-University - Annamalai - Teaching staff -scales
of pay - Revision - Creation of Associate
Professorships & Grant.

Ref:- Vice-Chancellor's letter Roc.No.3213-B1/49
dated 18.5.1949.

I am directed to invite your attention to
letter Ms.No.424 Edn., dated 17.2.1949 and to ask that
details proposals on the subject may be submitted to
Govt. after the audited accounts of the University
become available for 1948-49, together with a clear
statement of the financial position of the University.
and ^{the reasons} ~~reasons~~ in support of the proposals.

Yours faithfully,

^{21/6/49}
29.6.49
Note. - The Vice-Chancellor's proposals in the current
file are vague. The request in the current letter
is evidently for grants from the Govt. towards the posts
of Professors and Associate Professors ^{mentioned by V.C.} In the
concluding paragraph of the letter, the V.C. states
that he is collecting details to work out the actual
cost to Govt. of the proposals. In the meantime, he
wants to have the orders of Govt. on the general prin-
ciple involved and on hearing from the Govt., he states
he would submit the necessary ^{details of the} proposals.

~~But it is not~~ It does not appear that this
procedure need be adopted. It may be stated that the
question of a grant for revision of scales of pay has
been examined in the papers connected with Lr.Ms.No.

P.T.O.

Ms.No.424 Edn., dated 17.2.1949. The Registrar, Annamalai University, was informed ^{in that connection} already that his request for grant for revision of scales of pay of the teachers and payment of Dearness allowance to them should be revived after the audited accounts of the University for 1948-49 became available. The request in the current letter involves the consideration of almost the same question. ^{as before} Before the Govt. can consider the request, it seems to be ^{necessary} that detailed proposals together with full statement of financial position based on the latest audited figures of income and expenditure of the University should be ^{sub by the University} had. The Registrar of the University may be asked to submit such proposals on the ^{subject} subject. The draft letter overleaf is for approval. Finance may see. ~~the same~~

University - Annamalai - Staff - Payment of D.A. at Govt. rates and enhanced scales of pay for the teaching staff - Request for grant.

From the Registrar, Annamalai University, No.Nil, dated 11-5-48.

Please see the letter from the Registrar, Annamalai University, on pp. 1-7 c.f. and the statement on p. 9 c.f.. He requests the Govt to sanction an enhanced grant of Rs.2,39,046/- to enable the University to pay Dearness Allowance to the employees of the University at the existing Govt. rates and also to enable revision of salaries of the staff in the Arts, Science and Oriental faculties on the basis of the grades recommended by a special Committee and approved by the Syndicate and Senate of the University. The recommendations of the Special Committee are on pp. 3-5 c.f. and the statement of extra cost involved is on p. 9 c.f. The cost on account of the proposed revision of the grades and scales of pay of the staff comes to Rs.83, 194/- per annum and the cost on account of the grant of D.A. to the staff at Govt rates comes to Rs.1, 55,852/- per annum. The University requests that the ^{entire} extra cost involved may be met by Govt. by sanctioning ^{an} additional

recurring block grant of the amount (Rs.2,39,046). In 1945 the University applied to Govt. for sanction of a grant of Rs.2,04,000/- towards the cost of revising the scales of pay of the teaching staff employed by it. The request was examined in detail by Govt and a block grant of Rs.1/- lakh only per annum was sanctioned and the University was informed that with the aid of the grant it might adjust the scales of pay as it thought proper. The Regr. now states that the adjustments have been duly made, and that the grades and scales now proposed

the

scales of pay as it thought fit with the aid of the grant sanctioned. Now the University has applied for an additional grant of Rs. 83,194/- towards the revision of scales of pay of the teaching staff. For purposes of working out the extra cost on account of the revision of scales of pay, the University has taken into ^{account} the ~~expre.~~ ^{pay} contribution to the G.P.F. and ~~has marked out~~ the maximum of the posts. The actual extra expenditure on the ~~revised~~ revision is Rs.50,000/- per annum only as will be seen from the statement at (Y), if the average pay of the posts is taken into account. The University has since reported that these ^{revised} scales have been approved by the Syndicate and the Senate and ~~have been~~ given effect to from 1-7-1948. In this connection, it may also be mentioned that the Committee constituted by the University to go into ^{certain} ~~the question of~~ matters connected with the administration of the Annamalai University, has ~~since~~ ^{since} pointed out that in view of the substantial improvements sanctioned in the scales of pay, the legitimate grievances of the staff hitherto expressed should no longer prevail. In the circumstances, it is for orders whether the request of the University for a grant for revising the scales of pay of the teaching staff should be considered. ^{if so, the case} ~~may~~ ^{may} be sent to Finance u.o. for remarks, before circulation. (The report of the Committee referred to above is lying over pending the receipt of the remarks of the Syndicate on it).

The following statement shows in one view the scales of pay allowed to the teaching staffs of the three Universities in this Province:-

MADRAS UNIVERSITY	ANDHRA UNIVERSITY	ANNAMALAI UNIVERSITY
Professors.	Professors	Professors.
Rs.750-50-1000	Rs.750-50/2-1000	4 on Rs.250-15-400- 20-500-25-700
		10 on Rs.250-15-400-20-500

P.T.O.

MADRAS UNIVERSITY

~~PROFESSORS~~ ^{Readers.}
Rs. 400-25-600
~~Lecturers~~ Rs. 210-15-300
Rs. 150-10-200

ANDHRA UNIVERSITY

Rs. 400-40/2-600
Rs. 200-15/2-300
Rs. 150-10/2-200

ANNAMALAI UNIVERSITY

Readers: 3- 200 -- 10--300
~~Rs. 200-10-300~~
Lecturers:

I Grade. 43. 150-10-250
II Grade 43 100-10-150

(Language lecturers with Titles and other Lecturers with over 10 years' service to be considered eligible for this grade)

Tutors and Demonstrators.

12. Rs. 75-5-100

The scales shown under Annamalai University have been given effect to from 1-7-48. It will be seen from the statement that when compared with the scales allowed by the other two Universities, the scales of pay granted to the Annamalai University staff are lower.

The recurring grants paid to the Annamalai University are detailed below:-

(i) Block Grant fixed in 1929-30 when the University was started	Rs. 1.50 lakhs
(ii) Grant sanctioned in 1942 for additional expenditure on account of the various "courses"	.40 lakhs
(iii) Grant sanctioned in 1942 on account of the employment of a full-time Vice-Chancellor in lieu of honoraria paid to the previous Vice-Chancellors.	.12
(iv) Grant sanctioned in 1945 towards the establishment of an Engineering College.	2.00 Lakhs.
(v) Government grant sanctioned in G.O.No.735 Edn.d/4-4-46 towards the provision revision of the scales of pay of the staff.	1.00

TOTAL

5.02

When the block grant of Rs. 1.50 lakhs (Item above) was fixed in 1929-30, the following scales were

adopted for the staff:-

3 Professors	on	400 - 50 - 700
9 Readers	on	250 - 25 - 400
13 Lecturers	on	150 - 10 - 250
20 Assist. Lecturers	on	100 - 10 - 200
12 Assist. Lecturers		
12 Pandits	on	60 - 4 - 100
Registrar	on	250 - 25 - 400

R.

The strength of the teaching staff now employed in the Arts, Science and Oriental Studies is 115 as against 57 employed in 1929-30. The No. 115 includes the teaching staff augmented in 1946 by the employment of 3 additional professors, 3 Readers and 35 lecturers and Tutors.

As against a grant of Rs. 2.04 lakhs applied for the purpose of revising the scales of pay of the staff in 1945, a grant of 1 lakh was sanctioned in the G.O. cited (Item V, on p. 5 ante):- --- Vide Sir Thomas Austin's minutes on pages 14-15 nf. of (X). On the recommendation of a Committee constituted by the Syndicate to enquire into various matters connected with the administration of the University, the scales of pay of the staff have been revised from 1-7-48, as shown at pp 4-5 ante. The extra cost involved is Rs. 50,000/- a year as shown at 'Y'. The estimated cost on account of the additions to the teaching staff in 1945-46 and on account of the revised scales of pay given effect to, is 2.54 lakhs (2.04 lakhs plus .50 lakhs). Recently a 2/3 grant has been sanctioned to the Andhra University for the opening of M.Sc. course in Geophysics. If the above precedent is followed, the grant payable to the Annamalai University will be 1.69 lakhs (i.e. 2/3 X. 2.54) and deducting the grant of Rs. 1 lakh already sanctioned, the grant now payable will be .69 lakh. As however the net extra cost is only Rs. 50,000/-, the payment of this sum as a grant, may perhaps be considered, the proposal being considered as a Part II Scheme for the next year, i.e. for 49-50.

Finance (Exp. A)

The notes on page 1-7 above may be read.

Finance may agree to the proposal of E.O.H. to consider the question of giving a grant of Rs. 50,000/- to the Annamalai University (towards the extra cost of revising scales of pay of staff) as a part of scheme for 1948-50. E.O.H. will no doubt take orders in circulation including H.H. (Rn) also.

As regards the request of the University for a grant towards the dearness allowance, Finance may agree with the view of E.O.H. at M on p 3 above. The proposal of E.O.H. to communicate the above suggestion to the Registrar may be agreed to.

E and P.H. propose that a recurring grant of Rs. 50 lakhs p.a. may be given to the Annamalai University in order to meet the extra cost involved in having allowed revised scales of pay to the teaching staff in Arts, Science and Oriental Faculties with effect from 1st July 1948, as shown in page 9 of X. The revised scales are to be introduced in order to prevent the members of the staff resigning their appointments in the University in order to secure better scales of pay. It will be seen from the statement in page 4-5 above that even after this revision, the scales of pay in the Annamalai University are lower than those for corresponding posts in the Madras and Andhra Universities. It was agreed in July 1948 that this difference was

was inevitable, as the professors and lecturers in the Annamalai University were personally an inferior class and many of them were teaching for Intermediate and Pass degrees, while those in the other universities were doing Honours and Research work.

K p.15 NF
(X)

A recurring grant of Rs. one lakh was sanctioned to the Annamalai University in 1935-36. It was from 1946-47 onwards for enabling it to adjust the scales of pay of the teaching staff as it thought proper, so as to make them comparable and stick to their jobs. With the aid of this grant, the University took the opportunity of not only raising the scales of pay of the teaching staff but also to recruit it by the addition of 2 professors, 3 readers and 12 lecturers, although the aid was not complete at the time of issue of order in the 50. list. The extra cost on account of the salaries of the pay alone, excluding the additional staff employment was estimated at Rs. 1.50 lakh against Rs. one lakh grant sanctioned by the Govt. The present proposal to sanction an additional grant of Rs. 1.50 lakh towards the salaries, bearing fully the extra cost of Rs. 1.50 lakh, is a further indication of the heavy financial burden on the Govt. The Govt. has no obligation to foot the bill on account of the extra cost of the salaries of the staff every time such a revision is considered necessary. It has not been shown that the finances of the University are not strong enough to bear the extra cost in the present case and it is not possible to meet it by enhancing the tuition fees. In view of this and the fact that a grant of Rs. one lakh was sanctioned for the same purpose a while ago, it is proposed to sanction an additional grant of Rs. 1.50 lakh for the same purpose.

to sanction an additional grant of Rs. 1.50 lakh towards the salaries, bearing fully the extra cost of Rs. 1.50 lakh, is a further indication of the heavy financial burden on the Govt. The Govt. has no obligation to foot the bill on account of the extra cost of the salaries of the staff every time such a revision is considered necessary. It has not been shown that the finances of the University are not strong enough to bear the extra cost in the present case and it is not possible to meet it by enhancing the tuition fees. In view of this and the fact that a grant of Rs. one lakh was sanctioned for the same purpose a while ago, it is proposed to sanction an additional grant of Rs. 1.50 lakh for the same purpose.

20.9.48

of this and the fact that a grant of Rs. one lakh was sanctioned for the same purpose a while ago, it is proposed to sanction an additional grant of Rs. 1.50 lakh for the same purpose.

I think that the financial position of the University should be examined and if it is

A

A

unsatisfactory, the tuition fees should be compared with those in force in the Madras & Andhra Universities to see whether they could be enhanced to the extent necessary to meet the additional cost. Until such an examination is made the Govt. cannot commit themselves to an additional recurring grant - particularly as some additional staff (detailed at K in A.S.'s note) has been employed and this presumably means that the no. of students & i.e. the fee & middle have increased.

P3 ante
V/P7 ante

E. & P.H. (G.3)

The case relates to the application of the Annamalai University for a recurring block grant of Rs. 2,39,046/- per annum to meet the extra cost on ^{account of the revision of the scales of} staff ~~to be incurred~~ by the University ^{from 1-7-48 and} on account of payment of increased rates of dearness allowance ^{at Govt. rates} and the improved grades of salaries to the staff of the University from 1-4-48.

As regards the payment of dearness allowance, it may be observed that there is no precedent for such a commitment, as Govt. have not so far entertained a request for a grant for payment of dearness allowances in the case of any of the other two Universities. This Dept. have therefore suggested that the request of the University for a grant for D.A. may be negatived. Attention is invited to the note of the Secretary on the Registrar's letter reminder on p.p.25-26 e.f. The University would

appear to request at least a two-thirds grant or a half-grant for this purpose, if a full grant is not feasible. It is for orders whether the request should be further considered, on this basis.

The cost involved is Rs. 1.55 lakhs. If the request for a grant is favourably considered, it is possible that the other two universities may ask for grants for the same object. 5-11-48

With regard to a grant for revision of grades of salaries of the teaching staff of the University, it will be seen from the statement at (Y) that the extra cost on this account will be nearly Rs. 50,000/- per annum. The proposal is that a grant of this amount may be made to the University. According to the letter of the Registrar, the revision of scales of pay of the teaching staff has been given effect to from 1.7.1948. This Deptt. considered that the revised scales of pay proposed, were necessary, in view of the recommendations of the special committee on Annamalai University affairs, and also to make the staff more contented and to prevent frequent resignations. Finance draw attention to the recurring block grant of Rs. 1 lakh already sanctioned to the University in 1946 and point out that if an additional grant as now proposed is sanctioned, the Govt. would be bearing fully the extra cost on account of the revision of scales of pay of the staff, when they are not under an obligation to foot the bill on this account. They however suggest an examination of the financial position of the University with reference to the possibility of increasing the tuition fees, as compared with those in force in the Madras and Andhra Universities; and they have observed that until such an examination is made, the Govt. cannot commit themselves to an additional recurring grant.

As regards the financial position of the University, it will be seen from the Annual Report of the Annamalai University for the year 1947, that the total receipts and expe. for the year ending 31.3.47 were Rs. 13,10,216/- and Rs. 12,83,230/-, thus leaving a balance of Rs. 26,986/-. The financial position of the University cannot therefore be said to be satisfactory enough.

In accordance with the Finance Department's suggestion, figures of tuition fees levied in the Annamalai University in respect of the several courses have been obtained. So far as the Madras University is concerned, there is only one college maintained by it namely the Allagappa Chettiar College of Technology. The statement below shows in one view the rates of fees in force, in respect of the several courses in the Annamalai, Andhra Universities and the C. College of Technology and the affiliated Colleges.

Colleges of the Madras University. It will be seen that the fees levied at the Annamalai University are not less than those levied by the Andhra University. When compared with the rates of fees charged in the Presidency College, the rates levied by the Annamalai University are decidedly lower, but when compared with the other colleges, the rates in the Annamalai University are only slightly less. It is therefore very doubtful whether the Annamalai University can, without Government's help, raise the scales of tuition fees further, so as to meet the present revision. If it is conceded that Govt. aid is necessary, it is for consideration whether this Department may press the request of the University for an increase of grant by Rs. 50,000/- towards revising the scales of pay of the teaching staff. Finance may see the case again with reference to their previous notes on pp 7-9 ante.

Apparently the Committee referred to on page 1 of did not feel that any revision was called for. 22-11-48

Finance (Exp.-A) Deptt.

(Previous Finance note on pp. 7-9 above).

The further note of E.P.H. on pp. 9-11 above

may be perused.

2. With reference to this Deptt.'s suggestion that the financial position of the University should be examined, E.P.H. have stated that the year 1946-7

has resulted in a surplus of Rs. 26,986 and that the financial position cannot therefore be said to be satisfactory enough. It is submitted that this represents the position at the end of 1946-7. The audit of the income and expenditure for the year ending 31-3-48 of the University should now be available. The latest financial position will be revealed by this. E.P.H. may obtain the figures and examine whether the financial position is satisfactory with reference to these figures.

3. Further, the comparative statement of the scale of tuition fees levied in the 3 universities ^{in Govt colleges} shows that the scale of fees in the Annamalai is definitely lower in the Inter and B.A. and B.Sc. courses than the fees in certain Govt. colleges. As at present, there is great demand for collegiate education and as the University is in need of funds, the University may raise the tuition fees in these cases so as to meet at least a portion of the extra expenditure involved.

4. If there is some truth in the complaints referred to by E.P.H. Secretary, viz., that there is some surplus reserve fund with the University, it might be possible to meet the excess expenditure involved in the present revision by drawing upon the Reserve Fund. The question of Govt. bearing the expenditure may arise if at all, only if no funds belong to the University are available by any means. ^{ing} E-PH may obtain also information regarding the amount to the credit of the University in the Reserve Fund.

5. The proposal is a 'new service' and the 'new service' procedure will also have to be followed and the matter placed before the S.F.C. and the Cabinet if the proposal is to be sanctioned.

The accounts for 1946-47 appended to the Nineteenth Annual Report of the Annamalai University for 1947 clearly show that the University can very well meet from its own funds the extra expenditure on account of

the revision of pay given effect to from the 1st July 1948. The figures are as follows:-

R on p. 10 above

(L)

For the time being, the fee is less than that in Govt colleges.

S on p. 11 above

For the time being, the fee is less than that in Govt colleges.

NET TRANSACTIONS OF THE YEAR - SURPLUS		0.02
CLOSING BALANCE.		0.27

It will be observed from the above that apart from the normal expenses, the accounts include transfers to other funds amounting to a total sum of Rs 5.90 lakhs and advances remaining unadjusted to the extent of Rs .26 lakh. These two sums cannot be deemed to form part of normal recurring expenses of the University. The sum of Rs 5.90 lakhs referred to above includes Rs 2.30 lakhs for transfers to, the Building Fund (Rs 2.15 lakhs), the Electricity Depreciation Fund (Rs .13 lakh) and Gratuity Fund (Rs .02 lakh). Even excluding these, there is still a sum of Rs 3.60 lakhs shown as transfers to the Permanent Endowment Fund and Annual Repairs Fund. (If the expenditure on buildings is restricted, the transfer to Building Fund can be reduced). The need for

for an annual repairs Fund apart from a Building and expenditure on annual repairs is not clear. In any case, the above sum of Rs 3.60 lakhs plus Rs .26 lakh (unadjusted advance) or Rs 3.86 lakhs should be added to the surplus for the year and the real surplus for 1946-47 is therefore Rs 3.88 lakhs and not Rs .02 lakh. It should not therefore be difficult for the University to meet the extra cost on account of revision of pay as well as dearness allowance from its own funds. Further, as already pointed out in this department note on page 8 above, the University actually spent only Rs .66 lakh out of the grant of Rs 1 lakh given by the Government in 1946 for revision of pay and the balance of Rs .34 lakh should be deemed to be available out of the previous grant for the further revision of pay. In the circumstances Finance may strongly advise against the proposal to make a recurring grant to the University for the further revision of pay made this year.

2. The University may be advised to raise the tuition fees to the extent possible. In the case of Honours courses, the fee levied by the University is less than that prevailing in Government Colleges in the mufassal.

The statement at (L) compares only the tuition fees. It is not known how the examination fees compare with those of other Universities. If these rates can be raised this may also be done. (The increase likely to be realised under this head may not be appreciable but will go some way towards meeting the extra cost.) Any deficiency still left will have to be met

by the University from its resources. Only the balance left after meeting this expenditure should be deemed to be available for transfer to the Permanent Endowment Fund, Building Fund etc. The expenditure on buildings should also be regulated with reference to surplus funds available.

As pointed out above the financial position of the University should be deemed to be sound as it is able to transfer moneys to various funds & by curbing these transfers & raising fees to the extent possible it

Quite so.

Edn. & P.H. Dept.

Please arrange for the examination of the request put in recently by the Annamalai University for the increased grant (beyond what they have already moved for) completely in time for the question to be taken up if necessary at the Meeting of the S.F.C. for Part II Schemes.

3-1-1949.

Secretary.

The request of the Registrar, Annamalai University has been examined in the foregoing pages and in view of the orders in circulation ^{on p.16 ante} it has been proposed that the following grants to the University should be considered in connection with Part II Estimates:-

Enhanced scales of pay to the teaching staff.	Rs.50,000
Dearness allowance to staff at Government rates.	Rs.78,000

Copies of the note for the Part II Scheme ~~concerning~~ have gone to him.

2. At the instance of H.M.(Fin.) the Vice-Chancellor has subd. a ^{Memorandum} ~~note~~ to show the present financial position of the University. The statement of cost to the University on acct. of the revision of the salaries and the grant of ^{dearness allowance} ~~d.a.~~ will be found on p.63 c.f. According to this statement the extra cost to be incurred for this purpose will be Rs.3.54 lakhs. (The V.C.'s salary should be Rs.1500 instead of Rs.2000 as in the statement) The V.C. has suggested that the original figure of Rs.2.39 lakhs on which the proposal for a grant is based shd. be altered to Rs.3.53 lakhs. This increase is stated to be due to modifications made by the ^{University} authorities in the scales of pay, after the original appln. was made. The V.C.'s request in the Memorandum is that the appln. for the grant may be considered as for Rs.3.53 lakhs and that the new figure is the result of a close calculation on the basis of actual disbursements in the current year. This figure will have to be reduced to Rs.3.47 lakhs in view of the alteration suggested on account of the present V.C.'s salary.

3. The need for the revision of the salaries of the staff has been stressed by the Spl. Committee presided over Dr. Sri A. Lakshmanaswami Mudaliar. The Committee has suggested

a grant for this revision and for d.a. for the staff ^{at Govt. Rates - The revision has been given effect to from 1.7.48 & Dearness allow. from 1.4.48.} The reasons given by the V.C. for the request for Govt. aid for this expre. are:-

- (1) The expre. on higher salaries and d.a. has become essential and ~~cannot~~ ^{cannot} be met unless Govt. come to the rescue of the University. ^{The University does not command credit facilities.}
- (ii) The resources of the University compare most unfavourably with both the Madras and ^{The} Andhra universities as in the case of these

these Universities examinations and publications bring surplus.

(iii) The Commitments and responsibilities of the ^{University} ~~univ~~ are larger than these of the two other Universities as

Annamalai ~~univ~~ is a residential University and has to do Intermediate, Pass, Honours and Research; this is not the case in the case of the other two Universities.

(iv) Increase of tuition fees has been given effect to; the increase is from Rs.28 (before 1948= to Rs.45 (in 1948) in the case of the Intermediate. (The rates for other courses are found in the Statement at p.85 c.f.) Further increase is not possible.

(v) Reduction of expre. by means of abolition of depts. or in allotment for equipment is not feasible as in these directions will bring unpopularity to the Uny. and tell upon its efficiency.

(vi) There is a fall in income from interest on Permanent Endowment Fund due to the drop in the rate of interest from 6% to 2% ^(on this fund) ~~(from 6% to 2%)~~ in 1948-49. The interest realised in 1947-48 was only Rs.2,42,622 ^{Rs. 2,79,757 in 1946-47. The income from the fund is Rs. 36,000/-} against Rs.2,79,757 in 1946-47.

4. The University's main sources of income and the rough details of that income will be as below:-

Govt. grant now being made.....	Rs.5.02 lakhs.
Tuition and other fees.....	Rs. 3.00 lakhs.

Interest on Permanent Endowment Fund.	Rs. 2.42 lakhs.
Total	10.42

As against this ~~income~~ the recurring cost on account of the salaries and d.a. to the staff alone works out to Rs.8-60 lakhs, and there are other miscellaneous items of expre. to be taken into acct. The over-all expre. is likely to be well above the income. The plea of the V.C. that without Govt. aid the expre. on revision of scales of pay and d.a. at Govt. rates cannot be financed by the Uny. seems to be reasonable.

5. It will be seen that Govt. propose to consider the making of a grant of Rs.1.28 lakhs for these two items of expre. The V.C. now wants

6. In the case of the University's Request for a grant for its scheme for the Construction of ^{quarters for the staff} ~~quarters~~ the Govt. have recently passed orders refusing to ~~for~~ accede to the Request as the University could finance the expenditure on the scheme by Diversion from the Permanent Endowment Fund. It is seen from the Vice Chancellor's memorandum that the University is already making such transfers of funds for its non-recurring expenditure. Such Diversion can only be occasional & cannot be depended upon for recurring expenditure on the salaries of the Staff. It is for consideration

(1) Whether the University's Request for a grant for the Revision of the salaries of the staff and Dearness allowance to the staff at the Govt. Rates may be finally admitted, as already proposed,

and (ii) whether the amounts of grants

It appears to be too late to make any alteration in the Part II note.

Finance (Exp.-A) Deptt.

(Last Finance note on p.17 above).

The memorandum on pp.37-85 c.f. submitted by the Annamalai University and the note of the E & P.H. Deptt. on pp.18-21 above may be perused.

2. The original request of the University was for a recurring block grant of Rs. 2.39 lakhs p.a. to meet the extra cost on account of revision of scales of pay and the payment at increased rates of dearness allowance to the staff. The present request is for Rs. 3.53 lakhs. The increase in the amount is stated to be due to a recalculation on the basis of actual disbursements during the current year--please see the statement at p.61 c.f. A scheme for the grant of Rs. 1.28 lakhs is proposed to be considered as a Part II scheme for ¹⁹⁴⁵⁻⁵⁰ the current year. For the reasons set out at 'A' and 'B' on p.21 above, the E & P.H. Secretary considers that a grant of at least Rs. 2½ lakhs would be required by the University ^{for the purpose} and may be granted.

3. The chief reason why this Deptt. advised against the proposal is that the University was able to work at a surplus even after transferring large amounts to separate funds.

(During 1946-7 a sum of Rs. 5.9 lakhs has been transferred to the Endowment Fund, Building Fund, etc.)

It is submitted that though diversions from the permanent funds cannot meet the increase in recurring costs, it may be possible to stop further contributions to these funds to the extent necessary so as to make available to the University sufficient funds for meeting recurring expenditure. If in the current year it is not possible to meet the extra expenditure, the University may transfer from the Permanent Endowment Fund or Annual Repair Fund a suitable amount.

As regards the request for the payment of a grant to the University for meeting the extra cost on the payment of d.a., as already stated, the request cannot be granted as the Govt. have not so far paid any grant to the Universities for payment of d.a. to the staff.

4. If the proposal for giving a grant of Rs. 2½ lakhs is to be pressed, the procedure stated by E & P.H. Secretary at 'C' on p.21 above may be followed.

14A

6149

11.49

The Annamalai University originally asked for a recurring grant of Rs. 2.39 lakhs p.a. as detailed below:--

(1) Revision of scales of pay of teaching staff ..	.83
(2) Payment of dearness allowance at increased rates ..	1.56

	2.39

The E & P.H. Deptt. recommended a grant of Rs. .50 lakh p.a. for item (1) above. They did not recommend any grant for item (2) above on the ground that the Govt. had not so far paid a grant to any University for payment of dearness allowance to their staff. The Fin. Deptt. advised against even the proposal of E & P.H. for a grant of Rs. 50,000 p.a. on the ground that the financial position of the University was such that it could meet the extra cost from its own resources. H.M.(Fin.) originally agreed with this view, but subsequently, on the representation of the Vice Chancellor of the Annamalai University, agreed to the proposal being included provisionally as a Part II scheme for 1949-50.

The University has since sent a further representation that it requires a grant of Rs. 3.53 lakhs as against Rs. 2.39 lakhs previously asked for. It is stated that the requirements were not estimated properly before.

Secretary, E & P.H. has estimated the requirements of the University roughly at Rs. 2½ lakhs p.a. taking account of the factors mentioned in his note at 'B' on p.21 above and recommends a grant equal to this amount.

In justification of the grant, it is now pointed out that the diversions from the General Account to the

Permanent Endowment Fund are designed to secure a stable level of income by way of interest for the running of the University. Mention was made in this department note on p.13 above not only of the diversion of Rs. 3.11 lakhs to the Permanent Endowment Fund but also of the diversion of Rs. 2.15 lakhs to the Building Fund. The argument advanced at 'X' above in regard to diversion ^{to} ~~of~~ the Permanent Endowment Fund will not apply to the diversion to the Building Fund. As already pointed out by this department, the building programme of the University should be regulated with reference to its resources. The Government have themselves curtailed their building works very considerably. If the University wants to construct buildings for any essential purpose, it may, if necessary, take a loan from the Govt. and meet the interest and amortisation charges from its General Account. This will give considerable relief to the General Account.

Even in regard to Permanent Endowment Fund, it is not clear whether it is essential to continue diversions from the General Account every year. The reasons for the fall in income from interest from Rs. 2.80 lakhs in 1946-7 to Rs. 2.43 lakhs in 1947-8 have not been properly explained. The fact that interest at 6% p.a. was got on deposits some 25 years back (referred to at 'K' on p.43 c.f.) cannot explain the decrease from 1946-7 to 1947-8. If the audited accounts of 1947-8 and lists of securities held in 1946-7 and 1947-8 are given, it may be possible to verify the correctness of the figure given for 1947-8. It will be seen from the statement of money market quotations issued by the Reserve Bank on 29-12-1948 (flag 'Z') that the highest rate of interest carried by Govt. securities now in the market is only 4½% p.a. (Govt. of India 1955-60 loan). If the University holds this security to a considerable extent, there may be a loss in 1955 or later. It is probably with reference to this that the University anticipates a fall in interest receipts to the extent of Rs. 36,000 in 1954-55. As against this, the diversions mentioned in this deptt. note on p.13 above amount to Rs. 5.90 lakhs. Even the further loss anticipated will not therefore make it impossible for the University to find the extra expenditure on account of revision of pay and dearness allowance.

A on p.21 above
X
A on p.13 above

foot of p.13 above

A on p.81 c.f.

on p.43 c.f.

on p.43 c.f.

As the present interest income from Permanent Endowment Fund is more than that realised before 1943-44, is only slightly below that in 1943-44 to 1945-6, and a further loss is anticipated only in 1954-55, it is clear that on present figures, the University can find the extra expenditure referred to above from its own resources, if the diversions to the Permanent Endowment Fund, Building Fund, etc., are limited to the amount available after meeting the essential expenditure and if a loan is taken, if necessary, for financing essential expenditure on buildings.

Another point to be mentioned is that the Govt. have not so far given a grant to any University for payment of d.a. to staff. If the Annamalai University is now given a grant for the purpose, the Andhra & Madras Universities may ask for similar grants. The E & P.H. Deptt. have an ambitious programme for the introduction of compulsory elementary education throughout the province in ten years which will involve an expenditure of Rs. 63 lakhs p.a. The commitment of the Govt. in regard to University education cannot also be increased continuously. The resources of the Govt. are also limited. The Govt. of India have advised that the budget should be balanced without drawing from the Revenue Reserve Fund. In view of all these considerations, Finance may advise that no grant need be given to the Annamalai University at present for revision of pay or payment of dearness allowance at increased rates and that the University may apply for a grant when it actually finds that it is not possible to meet all its essential expenditure excluding diversions to other funds from its own resources.

col. 13, p. 81 c.f.

of para 1, p. 3 above

(Taken from the
note for the
Govt. in the
subject)

E & P.H.

I am afraid that the information given at p. 37-38 c.f. does not answer the case much further. Whatever the merits of the diversions amounting to Rs. 5.90 lakhs made in 46-47 may be, the fact remains that there is a liability in the general account.

26
to make it possible for the University to add
to the Permanent Endowment Fund, Building Fund etc.
Even assuming that the revision of the scales
of the dearness allowance at increased rates
involve an additional expenditure of Rs. 3.53
lakhs, the normal receipts of the normal expenditure
would still leave a surplus of (Rs. 5.90 - Rs. 3.53)

= Rs. 2.37 lakhs and it cannot be
said that the University is not in a position
to meet its current expenditure from its
current revenues & that an increase in
the recurring grant is necessary. It
is only on some such ground that any
special case in favour of this University
as against the Madras & the Andhra Universities
can be made out. It may be true that in
course of time the income from investments
will go down - but this will be a long term

X / process & the Govt. cannot agree to increase
this grant to enable the University to go on
adding to its reserves. If the question is to be
pursued the matter may be taken up when
the audited accounts for 47-48 become available.

A This Dept. would however suggest that the University
may be advised to come up to Govt. again if & when
the audited accounts for any year show that
there is a deficit in the general account [i.e.
of giving transfers to other funds]

E. & P.H. (G.3)

27.

The Annamalai University originally made a request
for grants of Rs. 0.83 lakhs and Rs. 1.56 lakhs respect-
ively for the expenditure on the revision of the scales
of pay of the teaching staff and payment of dearness
allowance at Government rates to the staff. The
grants asked for by the University aggregated to
Rs. 2.39 lakhs. E. & P.H. Department was not inclined
first to recommend a grant for the payment of Dearness
Allowance to the staff as there was no precedent for
such a grant. They however recommended a grant of
Rs. 0.50 lakhs per annum towards the revision of
scales of pay of the staff. Finance Department
advised against even this proposal. On a representa-
tion from the Vice-Chancellor of the Annamalai Univer-
sity, H.M. (Finance) agreed that Government aid would
be necessary to the University for these two items of
expenditure and ordered that the proposal for grants
for these two items be tentatively considered as a
Part II Scheme for 1949-50, pending final decision by
the Standing Finance Committee and the Cabinet. A
Part II ~~note~~ scheme note was accordingly prepared and
furnished to the Finance Department, proposing a grant
of Rs. 1.28 lakhs which is made up of Rs. 0.50 lakhs
for revision of scales of pay and Rs. 0.78 lakhs for
payment of dearness ~~allowance~~ allowance. Mr. M.

H.M. (Finance) had also asked the Vice-Chancellor
of the University to submit a statement of the latest
financial position of the University, in order that
the matter might be more fully examined later. The
Vice-Chancellor has submitted a statement showing the
financial position called for. His present representa-
tion is that the expenditure on the items referred to
above, which was originally estimated at Rs. 2.39 lakhs
should now be put down as ~~Rs. 3.53 lakhs~~ Rs. 3.53 lakhs
and this increased amount will be necessary in view of
the

the modifications in the scales of salaries made by the University authorities after the original application for grant was submitted. This Department has noted that it is fairly clear from the figures furnished by the Vice-Chancellor that diversions from the General Fund to the Permanent Endowment Fund referred to in the Finance Department's notes were made by the University with a view to securing income at a stable level by way of interest for the running of the University and that it would ~~be~~ not be feasible to make diversions from the Fund to meet the increase in the recurring costs. For this reason and in view of the need for the levelling up of some of the grades of the staff and the grant of advance of increments in some cases in order to prevent defections from the staff and the grant of dearness allowance at increased rates, E.& P.H. Deptt. consider that a ~~max~~ grant of at least Rs. 2½ lakhs would be required ~~to implement the scheme of increase in pay and dearness allowance~~ ^{by the University} and have suggested that this amount may be granted to it.

The Finance Deptt. have reiterated their previous arguments against the making of any grant at all to the University. They have argued on the basis of the figures for 1946-47 that as the University was able to make diversions to the tune of ~~about~~ Rs. 5.90 lakhs to the Permanent Endowment Fund, in that year, it should be taken that the University had a surplus in the General Account and that it cannot be stated therefore that it is not in a position to meet ~~this~~ its current expenditure from its current revenues and that ~~the~~ an increase in the recurring Govt. grant is necessary. They have finally suggested that if the question is to be pursued, the matter may be taken up when the audited accounts of the University for 1947-48 become available, and that the University may be advised to come up to Government again, if and when the audited accounts for that year show that there is a deficit in the General Account.

It is for consideration whether the arguments of the Finance Deptt. which are based on the figures for 1946-47 should be accepted. It cannot be denied that reduced interest

Fin Secy's
note on p 26 ante

rates have affected the interest accruals from the Permanent Endowment Fund, that after 1946-47, the commitments and responsibilities of the University have increased and that for the revision of the scales of pay and payment of dearness allowance at enhanced rates, the University will have to incur additional expenditure ~~xxxxxxx~~ of at least Rs. 2.50 lakhs roughly. Whatever might have been the position in respect of the year 1946-47, it is doubtful whether, ~~in~~ without Government aid, the University will be able to incur this large additional expenditure. It is for orders whether as suggested by Finance, the proposal should be deferred until the audited accounts for 1947-48 become available, ~~and~~ ~~which apparently mean that the question will have to be reopened next year.~~

or whether the E.&P.H. Deptt.
8.1.49. proposal for a grant of
Rs. 2½ lakhs to the University
in 1949-50 will be accepted.
8.1.49

With reference to the orders in circulation on page 16 ante, a tentative provision of Rs. 1.28 lakhs has been suggested in Part II of the next year's budget for payment of grant to the Annamalai University towards the revision of salaries of the staff and payment of dearness allowance at Government rates and ~~has~~ ^{previously} estimated to cost Rs. 2.39 lakhs a year by the University Registrar and the necessary note in this regard has been sent to the Finance Department. Memoranda since received from the Vice-Chancellor are at pages 35 - 85 and 87-91 cf. The Vice-Chancellor has asked that the grant for the University should be based on the estimated extra cost of Rs. 3.53 lakhs a year on

account

of the revision of salaries and dearness allowance allowed from 1-7-48 and 1-4-48 respectively. On an examination of the Memoranda this Department considered that a grant of atleast Rs.2.50 lakhs as against Rs.1.28 lakhs already suggested in the Part II note would be required for the objects mentioned above. The Finance Department are however of the view that this grant may not at all be necessary as the University was in a ^{position} ~~provision~~ to divert Rs.5.90 lakhs from its revenues to the Endowment and Buildings Fund Accounts in 1946-47. With regard to this, it does not appear that there will be a surplus of Rs.5.90 lakhs every year. For instance while a sum of Rs.3.11 lakhs (included in the 5.90 lakhs referred to above) was added to the permanent Endowment Fund in 1946-47, in the subsequent year the amount so added was only Rs.20 lakh. Again in the year 1946-47 the grant of Rs.6.12 lakhs paid to the University included a grant of Rs.1.10 lakhs ^{paid} for the Overseer classes which are not now ~~enormous~~ in existence; the normal annual recurring grant is however only Rs.5.02 lakh ^{is} detailed on page 5 ante. It may also be mentioned that in 1946-47 the Engineering College was in its initial stage, the institutions having been opened only in the previous year; it is only in the current year that it has become a full fledged institution with all the four year classes. Thus it does not seem to be fair to base on the figures for 1946-47 the amount of grant required for the additional expenditure to which the University was committed itself in the current year. As pointed out in the note on page 21 ante, the diversions already made from savings to the Permanent Endowment Fund are intended only as a safeguard against large reduction in interest on the Permanent Endowment Fund which is one of the main source of income for the University. In spite of such safeguards, there was a fall of Rs.37,000 in interest in 1947-48 as compared to that 1946-47. In view of these facts there

there appears to be justification for making a substantial grant to enable the University to meet the increased expenditure on the emoluments of staff.

The file may be circulated to H.M.(Education) and H.M.(Finance). The amount of grant to be paid to the University (viz., Rs.1.28 lakhs ^{in Part II of the next year's estimates} as a Part II provisionally suggested with reference to the orders on page 16 ante, or Rs.2.50 ^{lakh} as suggested by Secretary on page 21 ante or nil as now proposed by Finance) may be raised at the meeting of the Standing Finance Committee to be held on 16-1-1949.

CNO 36709/48

Let the Accounts be scrutinized before we can take a decision.

ASSISTANT SECRETARY TO GOVERNMENT
25 JAN 1949
4464
FINANCE DEPARTMENT

Finance (Exp.-A) Deptt.
(Last Finance note on pp.22-26 above).

Please see the orders in circulation on p.31 above, the further representation of the Annamalai University on pp.165-181 c.f., and the further note of E & P.H. on pp.31-32 above. E & P.H. propose to take orders in circulation ^{on the point} whether in view of the decision of the Standing Finance Committee (extracted on p.31 above) no further examination need be made now and whether the Registrar may be informed of the Government's decision.

2. Attention is invited to the portion marked

102 114 33
'A' of the Finance Secretary's note on p.26 above. The University has now submitted its audited accounts for the year 1947-8. They will be found on pp.169-174 c.f. The total receipts amount to Rs. 12,02,700-4-6 while the total expenditure comes to Rs.12,00,834-5-8. It is seen that even after transferring a sum of Rs. 5,20,500 to constituted funds there is a surplus of Rs. 1,865-14-10. Judged from this, there will be no case for the grant asked for.

The University authorities have also submitted the revised budget estimate for 1948-9 and the budget estimate for 1949-50. It will be seen that there will be deficits in these budgets. The budget for 1948-9 is expected to close with a deficit of Rs. 29,661 while in 1949-50 it is anticipated ^{that there will be} to have a deficit of Rs. 1.83 lakhs. The University authorities have stated that the above deficits will be increased by Rs. 2 lakhs, if a minimum closing balance of Rs. 50,000 is to be had and a contribution of Rs. 1.50 lakhs to the Permanent Endowment Fund should also be made. Compared with the audited accounts for 1947-8, the anticipated receipts and expenditure in these two years show large variations. For instance there is an under-estimate of about Rs. 8,000 under "Examination Fees", under charges, large increases occur under--

Administration ..	Rs.	15,011
Garden ..		6,331
Library ..		5,696
Physical Education ..		15,026
Departments of Studies ..		1,90,084
Research ..		16,070
Lands and Buildings ..		67,206
Health & Sanitation ..		5,359
Electricity ..		11,149
Furniture ..		56,535
Improvement to Island grounds..		10,000

In view of these large variations over the actuals for 1947-8, it cannot be said with any degree of accuracy whether the year will really close with a deficit or not. Only audited accounts for these years will be the correct basis for assessing the financial position of the University. As disclosed by its audited accounts for 1947-8, there is

pto.

a surplus and there is no case for any grant towards revision of salaries or dearness allowance. The audited accounts for 1948-9 will become available only next year. In view of the above, Fin. may agree with E & P.H. that the Registrar may be informed about the decision of the S.F.C. (E & P.H. propose to take orders in circulation.)

On B 36709/48

on p. 32 above.

1A
29.1.49
The increase under "Land and Buildings" and "Furniture" in 1948-9 as compared with 1947-8 should be deemed to be purely non-recurring. If these are excluded, the 1948-9 figures will show a surplus of Rs. 1.9 lakhs instead of a deficit of Rs. 29 lakhs. It is not known to what extent the increase under other items are non-recurring. No reasons have been given for justifying the increase under the above items or the large increase of Rs. 1.9 lakhs under "Dept. of Studies". The figures of 1947-8 show a further increase of Rs. 1 lakh under "Dept. of Studies" and increase under a number of other items also. In the absence of adequate explanation of the necessity for the increased provision these figures cannot be deemed to be normal figures. The S.F.C. has

ADS
E & P.H.

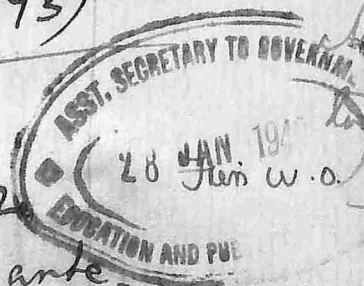

1.26

Finance (Exp A)

(Last Finance note on pp 32-34 above)

Please see the minute of H.M. Education and the note of E & P.H. above.

2. The recommendation of the Standing Finance Committee in this case was that the question of making a grant may be taken up again after a detailed examination of the audited accounts of the current year (1948-9). The University

authorities submitted the audited accounts of 1947-8, the revised estimates for 1948-9 and the budget estimates for 1949-50 and reiterated the request for a grant. These have already been examined by Finance - see the note on pp 32-34 above. This Dept. considered that based on the audited accounts of 1947-8, there is no case for any grant towards the revision of salaries and dearness allowance and that the figures for 1948-9 and 1949-50 furnished by the University authorities cannot be deemed to be normal in view of the large variations without adequate justification. This Dept. therefore advised that the consideration of the question may be deferred till the audited accounts of 1948-9 become available.

In view of the above, no further remarks are called for in Finance now.

ISA
22/09

ETPH

The audited 47-48 accounts show a small surplus after transferring Rs 5.20 lakhs to other funds. The transfers to "the Annual Repairs Fund" "Gratuity Fund" to "Electricity Depreciation Fund" might be treated as transfers which are necessary to keep the University going, but the

104

transfers to other 3 Funds (aggregating Rs 4.30 lakhs) certainly represent a surplus over what can reasonably be regarded as current expenditure.

For 48-49 + 49-50 we have only estimates + the estimated deficit for 48-49 is in any case less than Rs 30,000. The University can well afford to wait until the audited accounts for 48-49 are available. I do not see why the University should try to make Govt. into something an increased grant now.
