Copy of letter No. C.2295 E/47 dated 15-9-1947 from the Director of Public Instruction, Madras.

Sub: Scholarships - Increase in the rates of scholarships awarded in Colleges and increase in the number of instalments from 9 to 10 in secondary schools proposals - submitted.

I have the honour to state that in G.O. Ms. No.952 Edn. dated 7-5-1946 and in G.O. Ms. No. 1356 Edn. dated 13-7-46, Government were pleased to sanction the increase in the number of awards of General scholarships and in the rates of scholarships tenable to secondary schools and Colleges for all classes of pupils and special scholarships for Muslims and Mappillas with effect from 1946-47. In the case of scholarships awarded to Muslims to secondary schools in the plains and to Hill Tribes in the Agency secondary schools, the value of the scholarship only was increased. The above scholarships are awarded for nine months in the school or academic year.

2. In G.O. No.1246 Edn. dated 14-6-1947 and in G.O. Ms. No. 1431 Edn. dated 7-7-1947, Government directed that the rates of fees in Colleges should be increased by 25% and that the number of instalments of fees to be collected should be raised from 8 to 10 instalments in Secondary schools with effect from the current year. The above increase in the rates and in the number of instalments will be a hardship in the case of scholarship holders in view of the very high cost of living and of books and stationery. Scholarships are not fee concessions, but are really meant to be cover the college or school fees and incidental expenses. Before 1938, the scholarships were paid for 12 months, but in that year, it was reduced to nine months on the ground that fees are paid only for nine months. The same argument now justifies the recommendation to increase the rates of scholarships in colleges and increase the number of instalments of fees for which scholarships are awarded in secondary schools.

3. In view of the above, I consider that rates of scholarships now paid at Rs. 12/- in the Intermediate classes and at Rs. 16/- in the B.A. and Post Graduate classes should be raised to Rs. 15/- and Rs. 20/- respectively. The number of instalments remaining the same, on account of the revised rates of fees in Colleges and that the period for which scholarships are now awarded in Secondary Schools (i.e. nine months) should be increased by one month, so as to enable the pupils to pay the tenth instalment of fees in secondary schools.

4. The Financial effect of the above proposal is as follows:--

	Total estimated expenditure on scholarships in 1947-48 for nine months.	Amount required to raise the rate by 25% in Colleges and to pay scholarships for one more month in secy. schools
<u>In Colleges (excluding Research scholarships in the Presidency College and widow scholarships.)</u>	Rs. 75,888	Rs. 18,972
<u>In Secy. Schools.</u>		
For boys	1,89,030	21,003
For girls(excluding residential scholarships in the Govt. Mappilla Girls' High school, Thirur)	53,577	5,953
		26,956
Total	Rs. 45,928	

A sum of Rs. 45,928/- would be additionally required if the proposal referred to above is to be given effect to in the current year (i.e.) 1947-48 and in future years.

5. I request that the above proposals may be kindly considered by Government and approved with effect from the current year.

OFFICE OF THE
DIRECTOR OF PUBLIC INSTRUCTION,
R.O.C.No. 2295/E/47.

MADRAS: 22nd October 1948.

THE DIRECTOR OF PUBLIC INSTRUCTION,
M A D R A S.

THE SECRETARY TO GOVERNMENT,
EDUCATION AND PUBLIC HEALTH DEPARTMENT,
FORT ST. GEORGE, M A D R A S.

Sir,

78604
103 and
SUB:- Scholarships and Stipends - Information regard-
ing increase in the levy of fees during 1947-48
in Non-Government Colleges:

REF:- Government Memorandum No.13997/48-4 C.I. Edn.,
dated 24th August 1948.

With reference to Government Memorandum cited, I have to
state that several colleges have increased the rates of fees
during 1947--48. There is, however, no uniformity in the
rates of increase which varies from college to college.

2. I am submitting herewith a list of the colleges show-
ing the rates of fees in force during the years 1946--47 and
1947--48 and also the percent of increase.

Yours faithfully,

P. m e

for DIRECTOR OF PUBLIC INSTRUCTION.

PART II SCHEME - 1949-50

Scholarships - Colleges and Secondary Schools - Increase in the rates of scholarships in colleges and in the number of instalments in Secondary Schools.

Summary.

Head of Account	Item of Expenditure	Ultimate Cost Rs.	Cost in 1949-50 Rs.
37. q. Scholarships- A. General - 1 Ordinary areas (1) Excluding Post-War Reconstruction	1. Increasing the rates of scholarships awarded in colleges by 25%	19,000	19,000
	2. Increasing the number of instalments of scholarships tenable in secondary schools from 9 to 10 in a year	27,000	27,000
		46,000	46,000

EXPLANATORY NOTE

In Govt. Secondary schools the number of instalments of school fees collected prior to 1947-48 was 8. In July 1947, Govt. directed that the number of instalments be increased from 8 to 10 in the case of Non-Govt. secondary schools. At present the number of instalments of scholarship awarded in secondary schools is only 9. The D.P.I. considers that the increase in the number of instalments of fees will be a hardship in the case of scholarship holders in view of the high cost of living and he has therefore proposed that the number of instalments of scholarships in secondary schools may be increased from 9 to 10. As for colleges, the Govt. directed in July 1947 that the rates of fees levied in Govt. colleges be increased by 25%. Consequently most Non-Govt. of the colleges also increased the rates of fees levied by them. The rates of scholarships at present awarded in colleges are as follows:--

Intermediate classes - Rs.12 p.m. for nine months.

B.A. and Post Graduate classes - Rs.16 per mensem for nine months.

The D.P.I. has proposed that the rates of scholarships tenable in colleges may be increased by 25%.

The Retrenchment and Reorganisation Committee have also

observed that the present rates of scholarships are very low. An extract of their recommendation is given below.

H.E. 'A' on p.1 N.F.

This Dept. agreed with the proposal of the Director that the rates of scholarships awarded in colleges might be increased by 25% and ^{that} the number of instalments of scholarships tenable in secondary schools might be raised from nine to ten. The Fin. Deptt. have also accepted with the proposal.

This Dept. accordingly recommends that provision may be made in the B.E. for 1949-50 for the scheme as shown in the summary at the top.

PART II SCHEME - 1949-50.

Sub - Scholarships - Colleges and Secondary Schools - Increase in the rates of scholarships in colleges and in the number of instalments in Secondary Schools.

Summary.

Head of Account.	Item of Expenditure.	Recurring.	
		Ultimate cost. Rs.	Cost in 1949-50. Rs.
37.g. Scholarships A.General - 1.Ordinary areas -(i) Excluding Post-war Reconstruction.	1. Increasing the rates of scholarships awarded in colleges by 25 %.	19,000	19,000
	2. Increasing the number of instalments of scholarships tenable in secondary schools from 9 to 10 in a year.	27,000	27,000
		46,000	46,000

Explanatory Note.

The number of instalments of school fees collected in Government Secondary schools prior to 1947-48 was 8. In July 1947 Government directed that the number of instalments be increased from 8 to 10 as in the case of non-Govt. secondary schools. At present the number of instalments of scholarship awarded in secondary schools is only 9. The Director of Public Instruction considers that the increase in the number of instalments of fees will be a hardship in the case of scholarship holders in view of the high cost of living and he has, therefore, proposed that the number of instalments of scholarships in secondary schools may be increased from 9 to 10. As for colleges, the Government directed in July 1947 that the rates of fees levied in Government colleges be increased by 25 %. Consequently most of the non-Govt. colleges also increased the rates of fees levied by them. The rates of scholarships at present awarded in colleges are as follows:-

Intermediate classes - Rs.12 p.m. for nine months.

B.A. and Post-Graduate classes - Rs.16 per mensem for nine months.

The Director of Public Instruction has proposed that the rates of scholarships tenable in colleges may be increased by 25 %.

2. The Retrenchment and Reorganisation Committee have also observed that the present rates of scholarships are very low. An extract of their recommendation is given below.

" Education Department - There are scholarships attached to colleges given by the Education Department of a general nature and given on the basis of merit and poverty and these are given by the Director of Public Instruction. The number of scholarships is not distributed institution-wise but are given to promising boys of the presidency taken as a whole. The rates of scholarships are very low and if it is intended to help boys and girls really to continue their education, these are too small. The Committee would recommend that the same rates as are given for Harijans be adopted for all the scholarships to whatever community they may be granted and that there should be some scholarships attached to each institution and given on the basis of merit and poverty."

This Department agree with the proposal of the Director that the rates of scholarships awarded in colleges might be increased by 25 % and that the number of instalments of scholarships tenable in secondary schools might be raised from nine to ten.

This Department accordingly recommends that provision may be made in the Budget Estimate for 1949-50 for the scheme as shown in the summary at the top.

M.V. Subramanian,

Scholarships - Colleges and Secondary schools
Recommendations of the Retrenchment & Reorganization Committee.

Education Department - There are scholarships attached to colleges given by the Education Department of a general nature and given on the basis of merit and poverty and these are given by the Director of Public Instruction. The number of scholarships is not distributed institution-wise but are given to promising boys of the presidency taken as a whole. The rates of scholarships are very low and if it is intended to help boys and girls really to continue their education, these are too small. The Committee would recommend that the same rates as are given for Harijans be adopted for all the scholarships to whatever community they may be granted and that there should be some scholarships attached to each institution and given on the basis of merit and poverty.

Remarks of the Director of Public Instruction.

Regarding scholarships tenable in colleges, I have already addressed Government for the enhancement of rates (Vide my letter C-2295-E/47 dated 15-9-1947.) As regards the Educational Department, there are no separate rates for general scholarships tenable in colleges for Harijans and non-Harijans. The question of instituting some scholarships in each institution as suggested by the Retrenchment Committee may be dropped for the reason that it may involve additional expenditure to the State. The present practice of considering applications on a provincial basis may be continued as the most deserving candidates can secure scholarships. Moreover, regional considerations are even now borne in mind in sanctioning the scholarships. Each institution has got its own endowments, scholarships, free places, etc., from private sources to help deserving cases in each college.

E. & P.H. Deptt.

It is presumed that the Committee's Recommendations relate to scholarships in colleges. The recommendations are two-fold : (1) that the scholarships should be distributed institution-wise and (2) that the rates of scholarships should be increased at least to those given for Harijans.

The Director of Public Instruction for reasons explained above, has not favoured the acceptance of recommendation (1) above. It may be mentioned here that under G.O. No. 937, Education, dated 20-4-48, some scholarships will be available for each college. The Director of Public Instruction's views may be accepted. Regarding (2) above the Director says that so far as the Education Department is concerned, there is no difference in the rates of scholarships for Harijans and non-Harijans. Government scholarships are intended to cover the college or school fees and incidental expenses. The present rates are fixed with reference to these criteria and with reference to the recent increase in the rates of tuition fees the Director has proposed to increase all rates of scholarships which is noted below. Further, the principle of showing special considerations to Harijans in the matter of educational concessions has been accepted by Government for a long time past. In the circumstances, it does not seem that any change is necessary in the present system.

In the letter on pages 1-2 of the Director of Public Instruction has recommended that the rates of scholarships for Intermediate, B.A. and post Graduate courses may be raised from Rs. 12 and 16 to Rs. 15 and 20 respectively and that the instalments of scholarships in secondary schools may be increased from 9 to 10. The additional cost of the proposals is Rs. 46,000/- The Director's recommendation is reasonable and may be accepted. Finance may see for remarks.

M.V.S.
14/6/48.

(Please see pages 7-8 above.)

Finance (Epr.C) Deptt.

Finance may agree with the views of E. & P.H. at 'A' and 'B' on pages 7-8 above.

2. The following remarks are called on the proposal of the Director of Public Instruction in regard to the scholarships tenable in secondary schools and colleges:--

(a) Secondary schools - Students of Secondary schools are at present awarded scholarships for nine months in a year. The Director of Public Instruction has stated that prior to 1938, students were granted scholarships for 12 months and that the --

period was subsequently reduced to nine months on the ground that the fees were paid only for nine months. As the number of instalments of school fees has been raised from 8 to 10 instalments in respect of both Government and non-Government schools and in view of the increase in the cost of living, the Director of Public Instruction considers it reasonable to increase the number of instalments of scholarships also to 10. The expenditure involved in the proposal is Rs. 26,956/-. E. & P.H. support the proposal. Submitted that Finance need not object, but the proposal should ordinarily be brought forward as a part II scheme for 1949-50.

(b) Colleges - The rates at which scholarships are now granted to colleges students are as follows:-

Intermediate classes - Rs. 12 for nine months.

B.A. and Post graduate classes - Rs. 16 for nine months. The above increased rates were sanctioned in 1946, the rates prior to the increase being Rs. 9 and Rs. 14 respectively. The Director of Public Instruction has proposed that the existing rates may be increased to Rs. 15 and Rs. 20 respectively, i.e., by 25 per cent over the increased rates sanctioned in 1946, as the college fees have also been increased by 25 per cent. The extra expenditure involved is Rs. 18,972 per annum. E. & P.H. Support the proposal. The Retrenchment and Reorganization Committee also has observed that the existing rates are too small.

It is submitted that the rates of fees were increased 25 per cent in respect of Government Arts Colleges only. It is now known whether the non-Government colleges have followed suit. If not, there would be no justification for enhancing the rate of scholarships in respect of non-Government colleges. E. & P.H. may please verify this point and also whether the extra cost worked out by the Director of Public Instruction covers non-Government colleges also. In any case, this proposal also should ordinarily be brought forward as a Part II Scheme for 1949-50.

3. If it is considered that the concessions proposed by the Director of Public Instruction should be given effect to from the current year itself, the approval of the S.F.C. and the Cabinet is necessary, as the cost involved exceeds Rs. 20,000/- per annum recurring. H.M. (Finance) should see, before it is decided to place the matter before the standing Finance Committee.

x x x x

23/7/48.

E. & P.H. Deptt. (C.I.)

Please see the notes of the Finance Department above. The proposals may be taken up as a Part II scheme for 1949-50 as they do not appear to be very urgent. The point raised by Finance at 'B' may be clarified by a reference to the Director of Public Instruction in the matter. A draft memo is submitted for approval.

M.V.S.

24/8/48.

From the D.P.I., No. 2295-E/47 dated 22nd October 1948.

Please see the proposal of the D.P.I. on page 1 c.f. and the recommendation of the Retrenchment and Reorganisation Committee and the notes thereon on pp.1-2 ante. The proposals in the file are:-

(1) that the number of instalments of scholarships tenable in secondary schools may be raised from 9 to 10 and

(2) that the rates of scholarships awarded in Colleges may be increased by 25 per cent.

(1) above:- The Finance Dept. agreed to the proposal; but wanted that it should be considered as a Part II Scheme for 1949-50.

(2) above:- Before considering the proposal as a Part II Scheme for 1949-50 the Finance Dept. wanted it to be verified whether there had been an increase in the rates of fees levied in non-Govt. Colleges by 25 %. The report of the Director on this point is on page 5 c.f. It will be seen from the statement on p. 7 c.f. that out of 16 aided Colleges only 5 have not raised the rates of fees and that in the other Colleges the rates of fees have been raised, the percentages of increase varying from 5.5% to 33 1/3%. The Govt. scholarships are not ~~not~~ ^{allotted} specifically for Govt. Colleges and non-Govt. Colleges. Applications from students from all Colleges (both from Govt. and non-Govt.) are considered together and scholarships granted to the most deserving irrespective of the institutions in which they are studying. It does not seem that different rates of scholarships can be laid down with reference to the proportion in which fees have been raised in the several Colleges. A uniform increase in the rate of scholarships by 25 % as proposed by the Director may be supported in this Department. Though in some institutions the fees have

4

not been enhanced. There is no denying the fact that expenditure on education in all other directions, hostel charges, books, etc., have increased all round.

It may also be pointed out that extra cost worked out by the Director covers non-Govt. Colleges also. The file may be sent to Finance for remarks before circulation.
