for 1949-50

Memo No. 73690 B, 148-1 Edn d/ 16-10-48.

In annexure No 6, the D.P.I. has included a sum of Rs 4,000 for the middle school for boys newly opened at A Nagore, Pollachi, and the middle school for girls newly opened at Moodibidri. These two schools have been admitted to special aid and provision has been made in the current year's budget for payment of advance grant of Rs 1,500 for each school. The amount should be disbursed in the current year so that the provision may not lapse and the balance to be paid namely Rs 1,800 (assuming that the maximum grant of Rs 3,300 will become payable to each institution) should be provided for in Part I of the estimate for 1949-50. The Director is requested to submit proposals for the payment of advance grants in the current year to these two institutions. The provision suggested for these two schools in the Part II estimates will be omitted.

and scholarship schemes newly approved works out to Rs 1,32,600 as against a sum of Rs 1,14,400 made for such new schools and scholarship schemes in the current year's budget. The proposal may be put forward as a Part II scheme for 1949-50.

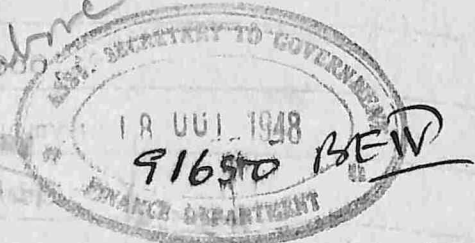

A draft memo to the D.P.I. is submitted below for approval. The file may be sent to Finance u.o. for remarks after the issue of the memo.

Please see the first copy of the T.M. from the D.P.G. at p. 5 of. It does not seem to be necessary that proposals should be submitted to govt in regard to grant of teaching grants to individual cases.

PART II SCHEME FOR 1949-50.

Sub:- Teaching grants to aided secondary schools under private managements.

SUMMARY.

HEAD OF ACCOUNT.	ITEM OF EXPENDITURE.	Ultimate cost.

		Rs.	Rs.

Total.		1,32,600	1,32,600

The policy of the Government is to rely mainly on aided agencies for the expansion of secondary education. The practice has therefore been to consider every year the question of budget provision for grants to ~~new~~ ^{newly} institutions recognised by the Director of Public Instruction.

2. Teaching grants: The managements of aided secondary schools were hitherto allowed to adopt such scales of pay as their finances could afford and the Govt. were giving them grants-in-aid for a year based on half the approved net cost in the preceding financial year. As no standard scales of pay were fixed by managements, the teachers, in most of the cases, were paid very poor salaries, ~~and~~ the Govt. ^{in June 1947} therefore decided to ~~insist~~ insist on managements of aided schools adopting at least the revised scales of pay fixed for teachers in secondary schools under local bodies. With a view to enable the managements to find the funds for meeting the extra cost involved, the Govt. ~~have~~ raised the basis of assessment of teaching grants from one-half to two-thirds of the approved net cost with effect from 1-6-47. The Govt. also decided that no new school should be permitted to come into existence unless it undertook to adopt at least the scales of pay approved for teachers in schools under local bodies. So all the

newly recognised schools will have to be paid teaching grants on the basis of two-thirds of the net cost. In addition, grants will also be paid as usual for the loss of fee income on account of the grant fee concessions to backward classes under rule 92 of the Madras Educational Rules and (2) towards one-half of the cost of scholarships and fee remissions awarded in accordance with schemes approved by the Director under rule 32 of the Grant-in-Aid Code. The provision of Rs. 1,32,600 suggested under this head is intended for 36 new ^{secondary} schools and 3 ^{second grade} colleges newly opened which do not provide instruction upto the standard of a University degree and for which teaching grants are assessable according to the rules for aided secondary schools.

3. The teaching grants recommended by the Director are absolutely essential for the proper maintenance of the institutions. This department therefore recommends that a provision of Rs. 1,32,600 be made for this purpose in the budget for 1949-50 as indicated in the summary at the top.

EXPLANATORY NOTE.

The policy of the Government is to rely mainly on aided agencies for the expansion of secondary education. The practice has therefore been to consider every year the question of budget provision for grants to institutions newly recognized by the Director of Public Instruction.

2. *Teaching grants.*—The managements of aided secondary schools were hitherto allowed to adopt such scales of pay as their finances could afford and the Government were giving them grants-in-aid for a year based on half the approved net cost in the preceding financial year. As no standard scales of pay were fixed by managements and the teachers, in most of the cases, were paid very poor salaries the Government decided in June 1947 to insist on managements of aided schools adopting at least the revised scales of pay fixed for teachers in secondary schools under local bodies. With a view to enable the managements to find the funds for meeting the extra cost involved, the Government raised the basis of assessment of teaching grants from one-half to two-thirds of the approved net cost with effect from 1st June 1947. The Government also decided that no new school should be permitted to come into existence unless it undertook to adopt at least the scales of pay approved for teachers in schools under local bodies.
