29-10-1949 and Memo.No.82446 C2/49-2
dated 15-12-1949.

With reference to the above I submit that the Printing Manual was printed in 1938 and the copies of same have run out of stock. I consider that this Manual requires revision which cannot at present be done. Since several newly formed offices very badly require copies of this Manual for their daily use and as copies of the Manual are also required for use in this office, I would suggest that the present Manual be reprinted to meet urgent requirements as corrected only upto 1938.

2. If Government consider it necessary to revise the Manual up-to-date, I may be permitted to submit proposals for the staff necessary for the completion of the work.

Sir,

Ref: Government Memorandum No.82446 E/50-3, Edn.,
dated 8-3-1950. *p 11 if.*

I submit that the 1938 edition of the Printing Manual is now proposed to be reprinted for meeting the requirements of this office and certain demands of the newly created offices, and it cannot be accurately estimated as to the exact number of copies required. It is however submitted that 100 copies would do for the purpose. If Government think that the requirements of other departments would justify printing of an increased number orders for printing such an increased number may be intimated.
