Budget 1949-50 Grant No. - Education Supplementary Expenditure - Grants to Universities - Rejected Receipts

VERY URGENT. Finance (B.G) Department.

U.O.Note No.3670/50 Dated 17th Jan.1950.

Sub: Supplementary Estimates of expenditure for 1949-50.

Under paragraph 105 of the Madras Budget Manual, proposals for appropriation and surrender of funds, or supplementary appropriations are due in the Finance Department not later than the 25th February. According to the calendar of dates of Budget procedure for 1950-51, demands for supplementary grants will have to be presented to the Legislature on the 20th March 1950. In order to enable the Finance Department to scrutinise fully and in time the proposal for supplementary demands, Departments of the Secretariat are requested to send as early as possible before the 20th February 1950 all proposals for reappropriation and surrender of funds and for supplementary appropriations including token grants for expenditure on 'new services' which were sanctioned in the course of the current year and for which supplementary grants were not obtained in the first batch presented to the Legislature in November 1949. Draft explanatory notes, in the usual form on supplementary estimates of expenditure explaining fully the necessity for the additional appropriations should also be sent by the same time. These notes should cover also the items of expenditure in respect of which departments have already sent notes to the Finance Department for obtaining token grants. In the case of 'new service' Schemes, the reasons for treating them as 'New Services' should also be indicated in the explanatory Notes.

P.T.O.

2. Departments of the Secretariat are also informed that in cases where they require supplementary appropriations under more than one sub-head of appropriation under the same grant, they should, as far as possible, prepare a consolidated note for all such sub-heads, giving the additional appropriation required under each sub-head and the reasons for the additional appropriation. Clean copies of the explanatory notes on the demands for supplementary estimates for 1949-50 as accepted by the Finance Department should reach the Finance Department not later than the 1st March 1950, as the demands have to be consolidated and the supplementary statement has to be approved at a meeting of the Cabinet, before it is printed and sent to the Legislature. It will not be possible for the Finance Department to take into account copies of notes on supplementary estimates, or corrections to the supplementary estimates, which are received after the 1st March 1950, with the result that the Departments which fail to send proposals in time may be called upon to give an explanation before the Public Accounts Committee later.

T.N.S. Raghavan,
Secretary to Government.

To the Departments of the Secretariat.(all sections) including Finance.
To the Secretariat of the Madras Legislature.

GRANT XV - EDUCATION.

ESTIMATE OF THE AMOUNT REQUIRED FOR FURTHER EXPENDITURE.

Voted. Rs.200/-

Total of sums charged. Rs.Nil.

SUMMARY.

Major head.	Minor head.	Sub-head of Appropriation.	Estimated amount of further expenditure for 1949-50. Charged. Rs.	Voted. Rs.
(i) 37-Education.	a.University - Grants to Universities.	B.Andhra University.	....	100/-
(ii) 37 Education.	a.University - Grants to Universities.	C.Annamalai University.	....	100/-
		Total		200/-

EXPLANATORY NOTE.

(b) - In January last, the Government sanctioned the payment of a grant of Rs.20,000/- to the Andhra University during the current year towards the cost of library equipment required for the various departments of the J.V.D.College of Science and Technology. No provision exists in the B.E. for 1949-50 for expenditure on this grant. It is expected that the grant for this item is likely to be drawn within the current year. Hence the additional appropriation required (Rs.20,000/-) has been applied for separately. The expenditure on this is on a "New Service," A token sum of Rs.100/- is therefore now included in the Supplementary Estimate for this item.

Item (ii) - In 1942, the Government approved the scheme relating to the drainage for the Annamalai University at an estimated cost of Rs.2.31 lakhs, but the execution of the work was ordered to be deferred till the restoration of normal times. The University later on reported that they were desirous of starting the work and the Government have accordingly made a provision of Rs.1.5 lakhs for expenditure on grant on this scheme, in the B.E. for 1949-50. This year, the University has submitted a revised and more comprehensive estimate for a drainage scheme costing Rs 7.035 lakhs, which has been approved by Govt. The Govt. have increased the grant for the purpose to one-hu

of the actual cost, subject to a maximum of Rs.3.5 lakhs. The University has not yet begun the work. It is not known definitely as to how much expenditure the University will spend on this scheme during the current year. [Roughly, a provision of Rs.25,000/- has been suggested separately in the final estimates under grants to Universities for this item and it is proposed to surrender the balance of budget provision of Rs.1.25 lakhs.] As the expenditure on this is one a "new service", a token sum of Rs.100/- is now included in the Supplementary Estimate. Any expenditure on grant for this scheme will be adjusted against the budget provision already made.

GOVERNMENT OF MADRAS

DEMANDS FOR GRANTS FOR FURTHER EXPENDITURE

AND

DETAILED SUPPLEMENTARY ESTIMATES THEREOF

FOR THE YEAR

1949-1950

As presented to the Legislature on the 20th March 1950

INTRODUCTORY MEMORANDUM TO THE SECOND SUPPLEMENTARY STATEMENT OF DEMANDS FOR GRANTS FOR FURTHER EXPENDITURE IN THE YEAR 1949-50.

The procedure to be normally followed under the new Constitution for the presentation to the Legislature of Demands for Supplementary Grants is prescribed in Article 205 of the Constitution. So far as the current year, viz., the year ending 31st March 1950, is concerned, however, the procedure will be governed by the special provision contained in Article 390-A [introduced by the Constitution (Removal of Difficulties) Order No. III issued by the President on the 26th January 1950]. This Article reads as follows :—

"If in respect of the said financial year (i.e., the financial year ending on the 31st day of March 1950) further expenditure from the revenues of a State specified in Part A of the First schedule becomes necessary over and above the expenditure theretofore authorized for that year, the Governor of the State shall cause to be laid before the House or Houses of the Legislature of the State a supplementary statement showing the estimated amount of that expenditure, and the provisions of sections 78, 79 and 80 of the Government of India Act, 1935, shall subject to necessary modifications have effect in relation to that statement and that expenditure, as they would have had effect in relation to the annual financial statement and the expenditure mentioned therein if this Constitution had not come into force."

The procedure to be followed in regard to demands for supplementary grants for this official year will therefore be the same as that followed hitherto.

2. The supplementary statement now presented to the Legislature relates to—

(*a*) Schemes of expenditure already provided for in the budget for 1949-50 and schemes approved by the Legislature in connection with the first supplementary statement of demands for grants voted in November 1949, for which additional provision is now required with reference to the expenditure already incurred or expected to be incurred before the end of the year ; and

(*b*) 'New Service' schemes sanctioned by the Government in the latter part of this year which were not included in the first supplementary statement of demands for grants for this year.

In the latter class of cases, the demand proposed is for the actual additional appropriation required to meet the expenditure in the current year on individual schemes, after taking into account the savings now anticipated in the concerned Grants. Where sufficient savings are expected, the demand proposed is only for a token sum of Rs. 100.

3. One main reason for the large number of demands for supplementary grants now presented is that owing to various causes, the savings originally anticipated on account of retrenchment measures have not been fully realized and the expenditure under many Grants is therefore now expected to exceed the net appropriation made in the Budget.

MADRAS,
17*th March* 1950.

T. N. S. RAGHAVAN,
Financial Secretary.

				1,15,000
(xi) Do.	e. Charges in England	Stores for India		11,600
		Grand Total ..		8,23,800

Explanatory Note.

Item (i).—In October and December 1949, the Government sanctioned the employment of the necessary staff for attending to the rent reduction work in the Ceded districts. As the cost involved in the work exceeds Rs. 25,000 per annum this is treated as on a ' new service '. A sum of Rs. 100 is included in the supplementary estimate. The actual expenditure in the current year will be met from savings within the Grant.

Item (ii).—Under section 8 of the Madras Estates (Abolition and Conversion into Ryotwari) Act, 1948, the Government have constituted two Tribunals (each consisting of a District Judge a Subordinate Judge and a Deputy Collector with necessary subordinate staff) with headquarters at Vizianagaram town and Mathurai. A sum of Rs. 26,300 being the anticipated expenditure on this account has been provided in the supplementary estimate.

Item (iii).—The increased expenditure is due to the sanction of a special pay of Rs. 50 per mensem to the Assistant Director of Survey and Land Records, Central Survey Office, the creation of the post of a second Deputy Director of Survey and Land Records and the purchase of a Cograph instrument and two micrometer theodolites.

Item (iv).—The Government have sanctioned recently the employment of 3 senior draftsmen and 50 junior draftsmen in the Central Survey Office, Madras, for a period of one year from the date of appointment for the work connected with the preparation of three sets of survey maps of the survey numbers comprising the roads under the control of the Highways Department to be supplied to that department. It is not likely that any appreciable amount of expenditure will be incurred in the current financial year on account of the staff. But as the expenditure on account of the employment of the special staff is on a ' new service ', a token sum of Rs. 100 is included in the supplementary estimate.

Item (v).—Under section 21 of the Madras Estates (Abolition and Conversion into Ryotwari) Act, 1948, the estates taken over by the Government have to be surveyed or resurveyed as the case may be. The Government sanctioned the formation of two survey parties to begin with for the survey of those estates. The parties were formed on 1st September 1949. The expenditure anticipated in 1949-50 on account of the parties is Rs. 4,03,800.

Items (vi) *and* (vii).—The Zamindari Abolition Act provides for the appointment of a Director of Settlements and Settlement Officers to carry out the survey and settlement operations in estates and to introduce ryotwari settlement therein. The Government have therefore sanctioned the employment of the following staff :—

(1) A Director of Settlements in the senior scale of I.C.S. with one Personal Assistant in the Deputy Collector's grade and necessary subordinate staff ;

(2) Six Deputy Collectors (with requisite subordinate staff) to discharge the functions under sections 9 and 10 of the Zamindari Abolition Act ;

(3) One Special Officer in the grade of a District Collector to train the Settlement Officers and Assistant Settlement Officers ;

(4) Two Settlement Officers (Collector's grade) and six Assistant Settlement Officers.

The anticipated expenditure in 1949-50 on account of this staff is about Rs. 1,54,000.

The expenditure was approved by the Legislature by the grant of a token sum of Rs. 100 in November 1949. As savings are not available to meet the expenditure, the entire amount required is included in the present supplementary estimate.

Item (viii).—The increase in expenditure is due to the appointment of temporary Panchayat and Town Surveyors and increase of the pay of chainmen from Rs. 12 per mensem to Rs. 15—1/2 (A)—20 per mensem. The additional expenditure in the year is estimated at Rs. 26,800 and a sum of Rs. 24,500 is included in the supplementary estimate. The balance will be met from savings within the Grant.

Item (ix).—Under section 38 of the Zamindari Abolition Act, the Government will have to pay every year tasdik allowance to a religious, educational or charitable institution which owns an inam estate or part thereof. The Madras Estates Land (Reduction of Rent) Act, 1947, also provides that the Government should make good the loss in income sustained by such institutions on account of rent reduction operations. As the exact amount that will be spent on this account during 1949-50 is not known, a token sum of Rs. 300 (Rs. 100 under each head) has been included in the supplementary estimate.

A sum of Rs. 3,09,000 was provided in the current year's budget under ' Other charges '. The Board of Revenue has now estimated that based on the progress of expenditure an additional sum of Rs. 63,000 will be required under the head in the current year. The amount is accordingly included in the supplementary estimate.

Item (x).—The additional appropriation asked for is based on the Collectors' requirements. The last item includes a sum of Rs. 2,600 being the arrears of cash grant due to the Coimbatore Municipality for 1946-47, 1947-48 and 1948-49, for the maintenance of the new Beggar Home maintained by it.

Item (xi).—The additional appropriation asked for is based on the latest report from the High Commissioner for India, London.

(2) Grant II—Excise.

Estimate of the amount required for further expenditure.

	Rs.
Voted	1,31,900
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
(i) 8. Excise ..	b. District Executive Establishment.	I. Ordinary Areas—B. Prohibition staff— 2. Pay of establishments..	..	100
(ii) Do.	Do.	4. Contingencies	..	1,31,800
		Total	..	1,31,900

Explanatory Note.

Item (i).—The Government recently sanctioned an additional staff of—

30 Sub-Inspectors of Prohibition,

16 Petty officers,

794 Prohibition guards,

14 Jeep drivers,

and necessary equipment for the strict enforcement of Prohibition in the Ceded districts. The extra cost on account of the above staff and equipment comes to Rs. 6,07,400 per annum recurring and Rs. 80,300 non-recurring. No expenditure is, however, likely to be incurred during the current year on this account. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (ii).—An additional amount of Rs. 1,84,900 is required for the purchase of warm clothing, jeeps, buses and lorries for the use of the Prohibition staff and for payment of taxes, etc., to be incurred during the current year. Out of this, a sum of Rs. 53,100 has been met by reappropriation from savings within the Grant and the balance of Rs. 1,31,800 is included in the supplementary estimate.

(3) Grant III—Stamps.

Estimate of the amount required for further expenditure.

(ii) Do. ..	Do.	D. Office contingencies.	*700*	..
		Total ..	*700*	100

Explanatory Note.

Item (i).—During the year, sanction was accorded to the employment of additional staff as detailed below :—

(*a*) In January 1949, the Board of Revenue submitted proposals to the Government for the employment of special forest staff for work connected with the enforcement of the Madras Pr servation of Private Forests Act, 1946, on the basis of one Ranger, two Foresters and one peon for every 200 square miles of forest to which the Act applies. The Board of Revenue also proposed the employment of an Assistant Conservator of Forests in the case of forests in Visakhapatnam district. The Board's proposals were examined in consultation with the Chief Conservator of Forests and the Government finally decided that it would be sufficient if the Special staff was employed in those districts in which the extent of private forests was more than 500 square miles. The following staff has, therefore been sanctioned in August 1949 for employment in three districts namely, Malabar, Visakhapatnam and Chittoor for work connected with the enforcement of the Madras Preservation of Private Forests Act, 1946.

Malabar—
- 8 Rangers on Rs. 100—250 each per mensem.
- 16 Foresters on Rs. 50—85 each per mensem.
- 8 Peons on Rs. 18—25 each per mensem.

Visakhapatnam—
- 1 Assistant Conservator of Forests on Rs. 300—700 per mensem.
- 10 Rangers on Rs. 100—250 each per mensem.
- 20 Foresters on Rs. 50—85 each per mensem.
- 1 Camp Clerk on Rs. 45—90 per mensem.
- 2 Lower Division Clerks on Rs. 45—90 each per mensem.
- 1 Upper Division Clerk on Rs. 80—110 per mensem.
- 13 Peons on Rs. 18—25 each per mensem.

Chittoor—
- 8 Rangers on Rs. 100—250 each per mensem.
- 16 Foresters on Rs. 50—85 each per mensem.
- 8 Peons on Rs. 18—25 each per mensem.

The staff mentioned above is estimated to cost Rs. 1,61,600 per annum exclusive of travelling allowance. The total expenditure in the current year is estimated at Rs. 33,700 roundly.

(*b*) Consequent on the passing of the Zamindari Abolition Act and the notification of certain estates under the Act, the Government have had to take over the forests in these estates. In order to investigate the question and suggest :—

(i) the staff required for the maintenance of the forests in the zamindaris taken over on the 7th September 1949 ;

(ii) the staff, etc., required for the other zamindaris that may be taken over in the course of the year ;

(iii) to arrange for the maintenance of a separate *pro forma* account for each estate for a period of three years as required under the Zamindari Abolition Act ; and

(iv) to make proposals for the ultimate management of these forests completely by the Forest Department, the Government have sanctioned a post of Conservator of Forests on a scale of pay of Rs. 1,000—100/2—1,200, two posts of Assistant Conservators of Forests on Rs. 300—40/2—500—50/2—700 and subordinate staff.

The additional staff is estimated to cost Rs. 45,672 per annum. The expenditure in the current year is estimated at Rs. 14,000 only as the staff was employed only from December 1949.

These were treated as schemes of "new service" and a token grant of Rs. 100 is included in the supplementary estimate. The actual expenditure in the current year will be met by reappropriation from the savings within the Grant.

Item (ii).—A peon in the Nellore Forest Division was dismissed from service as a measure of disciplinary action. He filed a suit in the court of the Subordinate Judge, Nellore, for a decree for past salary and damages for wrongful dismissal. The suit was dismissed. Against this, he

filed an appeal to the High Court of Madras and the High Court decreed that the Government should pay the ex-peon Rs. 432 towards damages and Rs. 230–12–3 towards half the cost of appeal.

In 1948–49, the Chief Conservator of Forests applied for a provision of Rs. 700 to meet the expenditure on this account. A supplementary appropriation of Rs. 700 was therefore obtained in March 1949 to meet the expenditure, but the expenditure was not incurred in that year. The Chief Conservator of Forests has applied for an additional appropriation to meet the expenditure as there is no provision under 'charged' in the Budget for 1949–50. A sum of Rs. 700 has therefore been included in the supplementary estimate.

(5) Grant V—Registration.

Estimate of the amount required for further expenditure.

	RS.
Voted	1,06,200
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
			RS.	RS.
11. Registration.	b. District charges	A. Ordinary areas— 2 Pay of establishments ..	*Nil*	1,06,200

Explanatory Note.

In the Budget for 1949–50, a lump sum deduction of Rs. 2,99,000 was made for savings anticipated on account of retrenchment measures. The Inspector-General of Registration who thoroughly examined the question suggested that the strength of reserve sub-registrars might be reduced from 74 to 60 and that no further retrenchment was possible in any other category or grade. The Government accepted the recommendation of the Inspector-General. As a result, the expenditure in the current year is expected to be larger than the net provision made in the budget. The amount required after taking into account savings under other heads is included in the supplementary estimate.

(6) Grant VI—Motor Vehicles Acts.

Estimate of the amount required for further expenditure.

	RS.
Voted	1,12,700
Total of sums charged	*Nil.*

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
			RS.	RS.
(1) 12. Charges on account of Motor Vehicles Acts.	a. Charges of collection ..	B. Mufassal		10,200
(2) Do.	b. Inspection of Motor Vehicles.	B. Other charges		8,000
(3) Do.	d. Other charges—Administrative charges.	1 Central Road Traffic Board.		11,700
		2 Road Traffic Board—City ..		9,400
		3 Regional Transport Authorities—Mufassal.		37,400
		4 Charges recoverable from Governments, departments, etc.		36,000
		Total		1,12,700

Explanatory Note.

Item (1).—The increased expenditure is due to the grant of house rent allowance to the staff.

Item (2).—The additional appropriation is on account of the increase in the expenditure on travelling allowance of Motor Vehicles Inspectors consequent on the increase in the number of motor accidents requiring frequent journeys by the Inspectors and relaxation of some restrictions for the drawal of travelling allowance.

Item (3).—The additional appropriation is for meeting the extra expenditure on account of the creation of a Regional Transport Officer's office at Nellore and the employment of additional staff, the travelling allowance of the members of the Provincial Transport Advisory Committee, and the dearness allowance sanctioned to the Transport Commissioner from 1st January 1949. Increased expenditure on the staff for the control of motor vehicles also has occurred consequent upon the reduction of the Government of India's contribution from Rs. 42,100 to Rs. 6,100 in the current year with reference to the lifting of controls.

(7) Grant VII—Other Taxes and Duties.

Estimate of the amount required for further expenditure.

	RS.
Voted	10,52,100
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				RS.
(i) 13. Other taxes and duties.	b. Charges under the Electricity Acts.	A. Chief Electrical Inspector— 1 Pay of officers		2,200
(ii) Do.	c. Entertainments tax.	Payment of net proceeds to local bodies. ..		2,52,200
(iii) Do.	d. Betting tax ..	Commission payable to the Madras Race Club. ..		1,000
(iv) Do.	e. Commercial taxes —Sales tax.	Pay of Officers		21,400
		Pay of establishments		2,70,900
		Allowances and Honoraria		2,83,200
		Contingencies		2,21,200
		Total		10,52,100

Explanatory Note.

Item (i).—The increase is mainly due to the sanction of additional establishment for the office of the Chief Electrical Inspector to Government for auditing the accounts of the company electric licensees on behalf of the Government, for work connected with the legislation for the nationalization of electrical undertakings, etc., and to the continuance of the staff sanctioned for purposes of restriction and control of electricity.

Item (ii).—The expected increase in payment is consequent upon increased receipts under the Entertainments Tax. The additional appropriation included in the supplementary estimate has been fixed after allowing for the savings available under other heads.

Item (iii).—The additional appropriation is based on the actual expenditure up to the end of December 1949.

Item (iv).—The additional amount required is to meet the expenditure due to the expansion of the Commercial Taxes Department, including the special staff sanctioned for the compilation of the Commercial Taxes Manual, one additional Commercial Tax Officer for East Godavari district, etc.

(8) Grant VIII—Irrigation.

Estimate of the amount required for further expenditure.

	RS.
Voted	500
Total of sums charged	*Nil.*

Summary.

(iv) Do.	Miscellaneous Expenditure—d. Establishment.	Pay of officers and establishments.	..	100
(v) 18. Irrigation—Other Revenue Expenditure financed from Ordinary revenues.	Minor Irrigation—Revenue Department—g. Works—Voted.	D. Tank restoration and improvements to tanks, channels, spring ponds, etc.	..	100
		Total ..	..	500

Explanatory Note.

Item (i).—This scheme comprises the formation of a new tank across the Marrivagu near the Yerukollu village in Udayagiri taluk and is intended to irrigate about 81 acres and also to help in giving copious supplies to the existing irrigation wells in the village, thus affording scope for cultivating garden crops under them on a larger scale than at present. The estimated cost of the scheme is Rs. 1,29,426.

Item (ii).—This scheme for the restoration of the abandoned tank in Kaikalathur village and to excavate a channel to feed the tank from above the existing anicut across Ellar odai is expected to bring under cultivation 350 acres. The estimated cost of the scheme is Rs. 1,92,000.

Item (iii).—This scheme is expected to protect existing irrigation of second crop on about 220 acres. Also an area of 50 acres can be reclaimed and brought under cultivation. The estimated cost of the scheme is Rs. 91,075.

Item (iv).—In connexion with the preliminary investigation of the Krishna-Pennar Project, the Government sanctioned in December 1949 a special division for preparing the designs of coffer dam, alignments of spillway and sluices and plans and estimates for canals, appurtenant works, machinery, etc., for inclusion in the preliminary report on the project on the same lines as Ramapadasagar. The special division has been attached to the Central Designs Office which was also newly sanctioned in July 1949. The cost involved is Rs. 44,856 per annum.

A token sum of Rs. 100 in respect of these items is included in the supplementary estimate, as the expenditure is on a 'new service.' The expenditure in the current year will be met by reappropriation from savings within the grant.

Item (v) (*a*).—During the course of this year, the Government have sanctioned the formation of seven executive divisions with the necessary staff for work connected with the Tank Improvement Scheme under the control of the Board of Revenue (Food Production). The total cost on account of this additional staff comes to Rs. 8,88,870 per annum (recurring) and Rs. 93,700 (non-recurring). They have also sanctioned an estimate for Rs. 36,200 for the execution of repairs and improvements under the Tank Improvement Scheme to the Tupili tank and its supply channel in Gudur taluk, Nellore district, and another estimate for Rs. 32,530 for the execution of repairs and improvements under the same scheme to the tank in Kolagallu village, Bellary taluk, Bellary district.

(*b*) The Vattambedu tank in Venkatagiri estate, Sulurpet taluk, Nellore district, breached in several places during the heavy rains of 1946. As a result, an extent of only about 500 acres out of the registered ayacut of 838 acres is now under wet cultivation. It is expected that if the breaches are closed and certain improvements are effected, the tank will not only successfully irrigate the entire ayacut of 838 acres but also bring under irrigation an additional extent of about 500 acres of waste lands. The anticipated additional yield of foodgrains is estimated at 540 tons. The total estimated cost of the scheme (including direct and indirect charges) is Rs. 75,460. The Venkatagiri estate has already been taken over by the Government. As the scheme is urgent and essential from the Grow More Food point of view, the Government have sanctioned its execution under the Tank Improvement Scheme.

(*c*) The Government have also sanctioned improvements to the Kaniyampad tank in the Udayagiri taluk, Nellore district, at a cost of Rs. 39,032.

As the expenditure on all the above items is treated as on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The actual expenditure in the current year will be met from the allotment already made in the budget for Tank Improvement Schemes.

(9) Debt Charges.

Estimate of the amount required for further expenditure.

	RS.
Voted	Nil.
Total of sums charged	*8,35,200*

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
			RS.	
22. Interest on Debt and Other Obligations—A. Interest on Ordinary Debt—Rupee Debt.	b. Floating loans	(i) Discount on treasury bills. (ii) Interest on other floating loans.	*30,700*	..
22. Interest on Debt and Other Obligations—A. Interest on Other Obligations.	a. Interest on Depreciation Reserve and other Reserve Funds.	(i) Interest on Deposits of Depreciation Reserve of Government Commercial undertakings (Road Transport Schemes).	*62,300*	..
22. Interest on Debt and Other Obligations—D. Transfers	a. *Deduct*—Interest transferred to Commercial Departments.	(i) Irrigation, Navigation, etc., Works.	*39,000*	..
		(ii) Electricity Schemes ..	*7,03,200*	..
		Total ..	*8,35,200*	..

Explanatory Note.

Floating Loans—Discount on treasury bills and interest on other floating loans.—The entire expenditure on development schemes and other capital works had to be financed during this year by short-term borrowings, namely, by sales of three months' treasury bills and the taking of ways and means advances from the Reserve Bank, as the Government of India declined to give a loan and it was too late to go to the open market by the time the Government of India intimated their decision. This has resulted in increased interest charges under this head.

Interest on Other Obligations—a. Interest on Deposits of Depreciation Reserve of Government Commercial undertakings.—No provision was made in the budget estimate for 1949–50 for the adjustment of interest on the deposits of Depreciation and Accident Reserve Funds constituted for the Government Bus Service. In accordance with commercial practice, it has been decided to adjust interest at 4 per cent on the balances at the credit of the Depreciation and Accident Reserve Funds. The necessary provision is included in the supplementary estimate.

Transfers—Deduct—Interest transferred to Commercial Departments.—Owing to the reduction in the total outlay on which interest is charged, it is now expected that the amount debitable to Commercial Departments by credit to this head will be less than that originally provided in the budget. Hence a total additional appropriation of Rs. 9,10,200 is required out of which Rs. 1,68,000 is proposed to be met from the anticipated savings under other items. The balance of Rs. 7,42,200 is included in the supplementary estimate.

			B. Other items—		
			Leave Salaries and Deputation pay.	*4,200*	..
			Grand total ..	*32,600*	4,17,900

Explanatory Note.

Item (i).—The increase in expenditure is mainly due to the appointment of another Deputy Secretary and Assistant Secretary with additional staff for the work connected with the proposed formation of the Andhra Province and the introduction of the new Constitution. One Superintendent for the Government House Estate was also appointed on an increased salary in lieu of a care-taker. The increase is also due to the non-realization of savings to the extent anticipated on account of retrenchment.

Item (ii) (1) *to* (3).—The additional appropriation is intended to cover mainly the expenditure on additional temporary staff sanctioned to cope with increased work and expenditure under leave salary and tour charges. The attendance of officers of the department at the meetings held at New Delhi in connection with the National Cadet Corps, etc., was one contributory factor for the increase in the expenditure on travelling allowance, etc.

Item (ii) (4).—The increased expenditure under 'contingencies' is due to several unforeseen items, e.g., (1) purchase of new cycles, (2) carrying out of repairs to all the clocks in the Department, (3) advertisements in dailies and (4) purchase of rattan boxes, etc.

Item (iii)—*Allowances*.—The increase is due to the change in the personnel of the Deputy Secretary and the Additional Deputy Secretary. The present officers are drawing more dearness allowance than their predecessors for whom provision was made.

Other charges.—The increase is due to (*a*) increase in the circulation of copies of the Madras Information Journal and increased cost of production of the journal, (*b*) purchase of speedographic camera and photographic materials for the Information and Publicity Section and (*c*) publication of a Souvenir in connection with the Republic Day Celebrations' purchase of furniture, etc.

Item (iv) (1).—The increased expenditure is due to the appointment of an Additional Deputy Secretary.

Item (iv) (2).—The increased expenditure is due to the employment of additional staff.

Item (iv) (3).—The increased expenditure is due to (1) the grant of travelling allowance to the Secretary for his journey to Hyderabad and back and (2) the payment of dearness allowance, etc., to the Additional Deputy Secretary and staff.

Item (iv) (4).—The increase is due to (1) the purchase of new furniture, etc., to meet the immediate requirements of the department consequent on the employment of additional staff during the year and (2) replacement of old bicycles for office use.

Item (v) (2).—The increase is due to the appointment of temporary additional staff for compilation of laws for the excluded and partially excluded areas, for the revision of Local Rules and Orders and for the adaptation of Laws.

Item (v) (3).—The increase is due to the provision made for allowances to the officers who underwent Legal training in Delhi and for the temporary additional staff appointed for the purposes mentioned in item (2) above.

Item (v) (4).—The increase is due to the expenditure incurred for the purchase of reference books, furniture, etc., for the additional staff.

Item (vi).—The increased expenditure is due to the following causes which were not anticipated when the budget estimate for 1949-50 was framed :—

Sub-heads 1 *and* 2.—Formation of temporary sections for work connected with "Village Panchayats Bill" and Amendments to Madras District Municipalities Act, 1920.

Sub-head 3.—Grant of dearness allowance to officers drawing a pay of more than Rs. 1,000 and to temporary staff sanctioned for work connected with "Village Panchayats Bill" and Amendments to Madras District Municipalities Act, 1920.

Sub-head 4.—Purchase of books of Statutory Rules, furniture and equipment and expenditure in connection with the party given to the Members of the Local Finance Enquiry Committee.

Item (vii).—Increased expenditure has occurred in the circumstances set out below ;—

The savings on account of retrenchment have not materialized to the extent originally anticipated. One new circulation van was purchased at a cost of Rs. 8,553 and large expenditure was incurred on improvements and repairs to another van. The arrangements connected with the proposed formation of the Andhra Province, the celebration of the Republic Day and the visit of His Excellency the Governor-General led to more expenditure on postage and telegrams. Certain additional staff was also sanctioned to cope with the increase of work in the Central Despatch Branch.

Item (viii).—The increased expenditure is mainly due to the grant of leave to a Translator necessitating the appointment of a substitute, revision of the scales of pay of peons, the continuance of four additional posts of Assistant Translators and the creation of two additional posts of Assistant Translators, for about a period of three months in this year for the translation of the "Constitution of India."

Item (ix) (1).—The increased expenditure is due to change in the personnel of the Inspector of Municipal Councils and Local Boards, his Personal Assistants and the Deputy Inspectors of Municipal Councils and Local Boards, payment of leave salary to Personal Assistants and Deputy Inspectors and the appointment of an additional Personal Assistant.

Item (ix) (2).—The Government sanctioned additional staff for the office of the Inspector of Municipal Councils and Local Boards to cope with the general increase of work, elections to district boards, etc. The increased expenditure is due to this and also to payment of supervisory special pay to section heads, enhancement of the amount of shorthand special pay and increase in the number of typewriting special pays and in the rate of pay of peons.

Item (ix) (3).—The increase is due to grant of higher rate of Madras House Allowance to officers, payment of transfer travelling allowance of officers, increased touring of officers, change in the rate of travelling and dearness allowance, payment of other compensatory and dearness allowance to the additional staff, etc.

Item (ix) (4).—The increased expenditure is due mainly to the enhancement of postal rates, increased correspondence, purchase of essential articles of furniture, etc.

Item (x)—*Items* (1), (2) *and* (3).—The additional appropriation is intended mainly to cover the expenditure on account of the appointment of a Director of Prosecutions with a staff of 2 Orderlies in the current year and the grant of dearness allowance to officers. There has also been some increase in expenditure in regard to the pay of the Chairman and Member of the Tribunal.

Item (x) (4).—Increased expenditure has occurred on account of the payment of batta to witnesses consequent upon an increase in the number of enquiries made.

Item (xi) (1).—The additional appropriation is required to meet—

(*a*) Increased expenditure on account of the employment of additional staff on account of general increase of work relating to recruitment to different services including the recruitment of 100 posts of Assistant Inspectors of Labour.

(*b*) payment of arrears of pay to two of the Superintendents consequent on the fixation of their pay in the revised scale of pay, and

(*c*) provision for leave allowances.

Item (xi) (2).—Additional expenditure has arisen on account of—

(*a*) the payment of remuneration to Examiners in connection with the written tests held for the recruitment of Assistant Inspectors of Labour which was not anticipated before ; and

(*b*) the payment of remuneration to Examiners for recruitment to Group IV Services (Ministerial) for which there was a large number of candidates.

Item (xi) (3).—The increase in expenditure has occurred under " Service Postage " consequent on the increase in the postal rates and under " Examination Contingencies."

Item (xii).—A sum of Rs. 4,43,400 was provided in the current year's budget under the sub-heads mentioned. The Board of Revenue has now estimated that based on the progress of expenditure, an additional sum of Rs. 69,600 will be required in the current year. The increase is due mainly to the following causes :—

(i) sanction of additional posts for the work connected with the Settlement of Estates—Fourth Member of the Board of Revenue, 1 Additional Secretary and 1 Assistant Secretary with the necessary subordinate staff.

(ii) sanction of Special Officer and staff for the work connected with the revision and reprinting of the Board's Standing Orders.

(iii) payment of arrears of dearness allowance to officers and

(iv) installation of larger P.B.X. telephone connection and purchase of furniture.

Item (xiii).—The additional appropriation is required to meet the increased expenditure consequent on the employment of substitutes in the leave vacancies of the permanent incumbents in the office of the Agent for Government Consignments and to meet the balance of contribution payable for 1948–49.

Item (xiv).—The additional appropriation is based on the latest report from the High Commissioner for India, London.

Explanatory Note.

Item (i).—In January 1948, the Government announced their intention that non-gazetted Government servants who did not participate in the general strike during December 1947 should be given one advance increment but that further orders in the matter would follow after examining the financial details. It was subsequently observed that several anomalies would arise if an advance increment was allowed and that it would also substantially add to the work in the administrative departments concerned. After examining the various aspects of the question, the Government decided in February 1950 that instead of an advance increment, a bonus equal to the value of one increment for one year should be given and that members of the ministerial staff who did not participate in the strike (excluding for this purpose clerks, etc., who at the time of the strike belonged to associations other than the Non-Gazetted Government Officers' Association) should alone get this benefit. The bonus will be calculated with reference to the amount of the next increment to be drawn in the non-gazetted post held by the Government servant concerned on 14th December 1947. The total expenditure involved may not exceed Rs. 1 lakh and will be spread over several heads.

The matter had been pending for more than two years and orders had to be issued urgently. The scheme is treated as on a ' new service ' and a token sum of Rs. 100 has been included in the supplementary estimate.

Item (ii).—Larger expenditure than originally estimated is now anticipated by Collectors in respect of law charges.

Items (iii), (vi) *and* (ix).—In September 1949, under the Madras Estates (Abolition and Conversion into Ryotwari) Act, 1948, the Government took over one batch of estates (including under-tenure estates). The Government have sanctioned the necessary managerial and executive staff for the administration of those estates. As the actual expenditure could not be estimated earlier, a token grant of Rs. 100 was obtained in November 1949. Provision is now included for the additional appropriation actually required after taking into account savings under the head accommodating "recoveries". The Government have also since decided to sanction the payment of dearness allowance to some of the employees at the rates admissible to other persons in Government employment. This sanction takes effect only from the date of the order granting the allowance, i.e., from 25th February 1950. Provision has been made for the small expenditure to be incurred in the current year on this account.

Item (iv).—The Government have the monopoly of bartering rice for the coir produced by the Laccadive and Amindivi islanders. In November 1947, the rate of exchange of coir was raised from 3½ thulams of coir (98 lb.) to 3 thulams of coir (84 lb.) per mura of rice (25 Madras measures) and this increased rate was in operation till the end of 1949. As this rate of exchange was favourable to the islanders, there has been an appreciable increase in the quantity of coir sold to the Government (Rs. 3,90,725 in 1948–49 as against Rs. 2,92,591 in 1947–48). Moreover, rice that is bartered to the islanders for coir has to be bought in the current year at a higher price. The provision of Rs. 2,20,000 for "the purchase and supply of rice" made in the budget for 1949–50 did not take these factors into account. It is now estimated that a further amount of Rs. 1,60,000 would be required in the year for this transaction.

The construction of certain buildings for housing rice depots and an elementary school in the Amindivi islands was sanctioned as early as September 1946. These items of work were not taken on hand all at once and some works could be taken up only during this year. It is estimated that a further amount of Rs. 14,500 would be required for the purpose.

The total additional appropriation required is thus Rs. 1,74,500. As a sum of Rs. 13,500 can be met from savings within the grant, a sum of Rs. 1,61,000 only has been included in the supplementary estimate.

Item (v).—The Government have decided that the pay of the shroffs, III grade, in the Revenue Department may be fixed in the scale of pay at Rs. 30—1—45 per mensem and that they may be allowed the benefit of refixation of pay with advance increments (based on past service) as from 1st January 1947, but with no claim for arrears. The ultimate extra recurring cost involved will be Rs. 31,000 per annum. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (vii).—Under the Rent Reduction Act, the Government have to collect the reduced rents. For this purpose, the Government have sanctioned the employment of Special Revenue Inspectors in the districts and the Collectors have discretion to employ the Revenue Inspectors subject to certain financial limits. Provision for this supervisory staff has been included in the supplementary estimate.

Item (viii).—In August 1949, the Government sanctioned, with retrospective effect from 1st April 1949, the grant of jamabandi allowance to village headmen and karnams of both ryotwari and proprietary villages, at the following rates :—

(1) Re. 1 for each karnam per day for a maximum period of five days.
(2) Re. 1 for each village headman for one day only.

The estimated additional expenditure on the grant of the allowance during 1949–50 is Rs. 54,000, but it can be met from savings within the grant. A token sum of Rs. 100 is included in the supplementary estimate. as the expenditure is treated as on a 'new service'.

Item (x).—The Araku Valley Colonization Scheme was sanctioned in 1944. In the scheme, provision was made for expenditure of Rs. 53,200 for temporary buildings, Rs. 1,97,200 for permanent quarters and office buildings and Rs. 1,00,000 for houses for Government servants. Actually some temporary buildings only were put up and the construction of permanent buildings was deferred due to the high cost of materials.

The future policy in regard to the Araku Valley Colonization Scheme was considered in September 1948 and the Government decided that the construction of buildings for staff and hospital need not be proceeded with. Subsequently, the Araku Valley Development Committee which examined the question of construction of hospital and quarters for the staff of all departments working in the Araku Valley, considered that the cost of maintenance of temporary structures now in existence was relatively high and that officers and their families were put to a lot of difficulties during the rainy season. The Committee therefore suggested that for the present temporary structures with galvanized iron sheets on the model built in the Machkund Project area might be put up for the Araku Valley Colonization Scheme also. The Government accepted the Committee's recommendation and decided to construct the following buildings at an estimated cost of Rs. 2·62 lakhs and requested the Chief Engineer to submit detailed proposals with necessary plans and estimates :—

One G-type shed for a hospital at Rs. 7,000.

Three quarters for officers at Rs. 8,000 each.

Eight F-type sheds for 16 officers at Rs. 14,000 each.

Seventeen G-type sheds (each intended for six clerks or peons) at Rs. 7,000 each.

The plans and estimates have not been received. As the construction of quarters for the staff of some Departments, e.g. (Co-operation, Irrigation, etc.), was not contemplated previously, this proposal is treated as a 'new service'. A token appropriation of Rs. 100 is therefore included in the supplementary estimate.

Item (xi).—In May 1949 two country crafts which set sail for Androth island (attached to the Malabar district) were forced to get back and got stranded on the main land, due to bad monsoon weather which usually lasts from May to September every year. Another country craft got stranded at Beypore. As the crew of these three crafts and their passengers numbering 41 in all had nothing to fall back upon in the mainland, they were granted, as is usual in such cases, subsistence allowance at the rate of Rs. 15 per mensem each, till the weather got fair enough for the crafts to set sail again.

Similarly, two other boats which set sail for the Amindivi islands (attached to the South Kanara district) with passengers and rice for distribution to the islands were forced back to the main land. The Government sanctioned an expenditure of Rs. 2,500 on the grant of relief to the 36 islanders stranded on the mainland, including compensation to the owner of the boat which was damaged by the bad weather.

The total amount involved in these cases was Rs. 4,500 and this sum is included in the supplementary estimate.

Item (xii).—Eight jeeps belonging to the Agricultural department were transferred in December 1948 to the eight Special Deputy Collectors for wells for their use on work connected with the well subsidy schemes, with instructions that the Special Deputy Collectors should lend the jeeps to the District Agricultural Officers whenever required. As this arrangement did not work satisfactorily, Government have sanctioned the purchase of eight new Land Rovers for the exclusive use of the Special Deputy Collectors for work connected with well subsidy schemes and have ordered the return of the jeeps with the Special Deputy Collectors to the District Agricultural Officers concerned. The Board of Revenue has been asked to effect the purchase of the eight Land Rovers through the agency of the Deputy Transport Commissioner, Madras. The price of the Land Rovers has been estimated at about Rs. 80,000. The expenditure will be met from the lump-sum provision made under "25. General Administration—w. District Administration and Miscellaneous—F. Grants for sinking of wells for Grow More Food schemes" for 1949–50.

As the expenditure is on a "new service" a token sum of Rs. 100 is included in the supplementary estimate.

Item (xiii).—The additional appropriation is based on the latest report from the High Commissioner for India, London.

(12) Grant XII.—Administration of Justice.

Estimate of the amount required for further expenditure.

			Allowances		1,00,800
			Contingencies		92,400
			Compensations		34,800
			Total ..	..	16,95,400

Explanatory Note.

In the budget for 1949–50, credit was taken for large savings on account of probable retrenchment under pay of establishments, allowances and contingencies. Owing to a variety of causes, these savings have not fully materialized. On the other hand, there has been increased expenditure under this major head on account of the separation of the Judiciary from the Executive in the districts of Anantapur, Bellary, North Arcot, Chingleput, Chittoor and Tirunelveli. The increase in postal rates, the grant of dearness allowance to officers drawing more than Rs. 1,000 per mensem, payment of larger compensation to local bodies in lieu of magisterial fines, revision of the scales of pay of Saristadars of District and City Civil Courts, appointment of an additional District Judge and staff for each of the Krishna and Tirunelveli districts, etc., have also resulted in larger expenditure than anticipated.

The additional appropriation required is included in the supplementary estimate.

(14) Do.	b. Jail manufactures	B. Other manufactures—I. Jails other than Certified Schools. ..		2,700
				3,34,000
		Total ..	..	28,39,700

Explanatory Note.

Items (1) *to* (9) *and* (11).—The additional appropriation is required to meet the expenditure occasioned by the confinement of a large number of security prisoners and those convicted for Prohibition offences; the purchase of provisions and other rationed articles at current market rates from Co-operative Societies instead of on contract and the consequent increase in feeding charges; the purchase of chassis and station wagons for the Camp Jail, Kaggalu, and the Alipuram Jail, Bellary; the purchase of cows and bulls to improve the jail dairies; the transport of prisoners due to the general amnesty granted on the Indian Republic Day; and the increase in the number of under-trial prisoners.

Item (10).—In March 1947, the Inspector-General of Prisons submitted proposals for the revision of the scales of pay of certain posts in the Jail department including certified schools. But the Government negatived the proposal excepting those cases to which no new scale was fixed under the general revision sanctioned from January 1947. In February 1949, the Chief Inspector of Certified Schools submitted that the previous orders of the Government should be reconsidered at least so far as the teachers and instructors in the Certified Schools were concerned on the ground that the teachers and instructors employed in those schools were less advantageously placed, than their compeers in the educational and other departments of the Government. The Government accepted the revision proposed by the Chief Inspector of Certified Schools.

The additional expenditure involved is Rs. 8,200 per annum recurring. As the expenditure is on a 'new service' a token sum of Rs. 100 is included in the supplementary estimate. The actual expenditure in the year will be met from savings within the Grant.

Item (12).—The Madras Society for the Protection of Children was receiving a maintenance grant calculated at the rate of Rs. 18 per head per mensem in respect of each of the pupils detained in the Certified School under that Society. In August 1949, the Society requested that the rate of maintenance grant should be increased to meet the increased cost of maintenance of the pupils, as the average cost for the year 1949 rose to Rs. 20–15–6 per child per mensem. The recommendation of the Chief Inspector of Certified Schools for the upward revision of the existing rate to Rs. 21 was accepted by Government and orders were issued in October 1949.

The additional expenditure involved in the proposal is Rs. 3,600 per annum recurring. The expenditure is on a 'new service'. The balance of the additional appropriation is required to meet the increased grant payable to the Madras Children's Aid Society for food, clothing, etc., and towards the revised pay of staff in that society.

Item (13).—On the recommendation of the Inspector-General of Prisons, the Government have sanctioned the following proposals in January 1950:—

(i) Creation of 2 grades of District Probation Officers (5 posts in the scale of Rs. 200—10—300 and 36 posts in the scale of Rs. 150—5—200),

(ii) enhancement of conveyance allowance of District Probation Officers in the city from Rs. 10 per mensem to Rs. 20 per mensem and

(iii) raising the upper limit of travelling allowance that may be drawn in the month by the officers in the mufassal from Rs. 75 per mensem to Rs. 100 per mensem.

These involve an additional expenditure of Rs. 45,300 per annum recurring and constitute a 'new service'. The additional appropriation included is to meet the net extra expenditure required in this year.

Item (14).—The additional appropriation is required to meet the extra expenditure on Jail manufactures due to the increase in the price of raw materials including cotton.

(14) Grant XIV—Police.

Estimate of the amount required for further expenditure.

	Rs.
Voted	87,92,900
Total of sums charged	*Nil.*

Summary.

(viii) Do. ..	f. Criminal Investigation Department.	B. Pay of Establishments		100
(ix) Do. ..	1. Works	Works		100
		Total ..	..	87,92,900

Explanatory Note.

Item (i).—In order to enable the Police department to obtain information regarding admission and treatment of casualties and absconding patients, to issue requisitions for wound certificates, to serve summons, arrange to record dying declarations and to hold inquests, etc., the Government have sanctioned the opening of a Police outpost in the General Hospital, Madras, and the employment of a temporary staff of one Sub-Inspector of Police, one Head Constable and six Constables. The expenditure involved is Rs. 8,800 per annum.

Item (ii).—To cope with the labour and agrarian troubles, the Government have sanctioned the employment of a temporary staff of 28 Head Constables, 132 Constables, including 16 Constables for the Vacancy Reserve, for strengthening the Taluk Police in the various Police stations in the Tiruchirappalli district. The expenditure involved is Rs. 7,500 per annum.

They have also sanctioned the opening of three Police stations at Kottur, Kalappal and Valivalam and an outpost at Nedumbalam and the employment of Police staff to deal effectively with Communist and Kisan troubles in the Tanjore district. The expenditure involved is Rs. 7,100 per annum.

Item (iii).—The Government have approved the proposals of the Inspector-General of Police that the Sub-Inspectors in Police stations which are not heavy enough for bifurcation may be given relief by entrusting Head Constables with certain additional duties and responsibilities and that the Head Constables, to be designated as Assistant Station-house Officers, may be granted a special allowance of Rs. 10 each per mensem. The expenditure involved is Rs. 9,100 per annum. The large lump-sum credit taken in the budget originally for savings in the expenditure on travelling allowance has not been realized and further, there has been increased expenditure consequent on the movement of the Armed Reserves to disturbed localities. These factors account for the additional appropriation required under this head.

Item (iv).—In view of the worsening of the Communist situation, the Government have sanctioned the purchase of 10 Land Rovers at a cost not exceeding Rs. 9,000 each for use in the districts bordering the Hyderabad State, as the vehicles in use have been condemned as not roadworthy. The expenditure involved is Rs. 90,000.

Item (v).—The additional appropriation is based on actual requirements including provision for arrear payments.

Item (vi).—The Government have sanctioned an increase in the strength of recruits in the Central Recruits' School, Vizianagaram, from 250 to 450 to provide for recruitment of Constables for Prohibition Police and the employment of an additional staff of 7 Assistant Law Instructors, 7 Assistant Drill Instructors, 2 Scavengers and 2 Watermen. The expenditure involved is Rs. 22,800 per annum.

Item (vii).—The Government have sanctioned the employment of a temporary additional staff of 1 Sergeant, 8 Assistant Drill Instructors and 8 Assistant Law Instructors for the Police Training College, Vellore, consequent on the recruitment and training of a batch of 200 Probationary Sub-Inspectors. The expenditure involved is Rs. 39,200 per annum.

Item (viii).—The Government have sanctioned the employment of a temporary staff of 2 Inspectors, 10 Sub-Inspectors, 26 Head Constables and 2 Constables in the Special Branch, C.I.D., Madras,and 1 Lower Division Clerk in the Crime Branch, Madras,to deal effectively with Communist activities in the districts of Krishna, East Godavari, West Godavari and Guntur. The expenditure involved is Rs. 60,600 per annum.

Item (ix).—The Government have sanctioned the payment of a sum of Rs. 49,262 to the South Indian Railway Administration towards the market value of the Railway relinquished land in Vellore town in the North Arcot district required for the construction of quarters for the Armed Reserve.

As the expenditure on items (i), (ii), (iv) and (vi) to (ix) is on 'new services', a token sum of Rs. 100 for each is included in the supplementary estimate. The actual expenditure in the current year has been met from savings within the Grant.

Explanatory Note.

Item (i).—In January, last, the Government sanctioned the payment of a grant of Rs. 20,000 to the Andhra University, during the current year, towards the cost of library equipment required for the various departments of the J. V. D. College of Science and Technology. The actual expenditure during the current year will be met by reappropriation from savings within the grant. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (ii).—In 1942, the Government approved the scheme relating to the drainage for the Annamalai University at an estimated cost of Rs. 2·31 lakhs, but the execution of the work was ordered to be deferred till the restoration of normal times. The University later on reported that they were desirous of starting the work and the Government accordingly made a provision of Rs. 1·5 lakhs for a grant for this scheme, in the Budget Estimate for 1949–50. The University authorities forwarded in May 1949 a revised and comprehensive estimate for a drainage scheme costing Rs. 7·035 lakhs and this has been approved by the Government. The Government have increased the grant for the purpose to one-half of the actual cost, subject to a maximum of Rs. 3·5 lakhs. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (iii).—In December 1949, the Government sanctioned the payment during the current year to the management of the Sarah Tucker College, Palayamkottai, of an advance grant of Rs. 40,000 for the building scheme of the college. The Government have also recently sanctioned a grant of Rs. 14,500 to the Bhimavaram College, West Godavari district for the construction of laboratory buildings and lecture hall. The expenditure on these schemes will be met by reappropriation from savings within the grant. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (iv).—In February 1950, the Government sanctioned the payment during the current year of an additional grant of Rs. 1,13,500 to the Loyola College, Madras, towards the additional expenditure incurred by the management on the construction of the Chemistry Laboratory, the Auditorium and the Library Hall. The entire amount is debitable to the Central block grant. The Government of India have approved this item of expenditure. As the amount is payable in the first instance by this Government, it is included in the supplementary estimate. The Government of India's grant will be credited as receipts.

Item (iv)-(A).—This represents the grant which the Government propose to sanction to the Madras Institute of Technology towards the purchase of equipment for the Institute.

Item (v).—Managements of aided secondary schools were permitted to grant advance increments to teachers in those schools giving weightage for their past service if they could afford to do so and they were informed that the expenditure on this account would be taken into account for purposes of assessment of teaching grant. They were also ordered to adopt the enhanced rates of dearness allowance to teachers from 1st January 1948. The teaching grant payable consequently increased. The additional allotment required on this account is Rs. 14,99,500 and this sum is included in the supplementary estimate.

Item (vi).—(*a*) During the recent cyclone in the Andhra Desa, buildings of all grades of educational institutions were damaged particularly those belonging to elementary schools. As it was necessary to carry out the repairs to those buildings immediately, the Director of Public Instruction, was empowered to permit the managements concerned to carry out the repairs. The Government undertook to sanction grants towards half the cost of repairs to or reconstruction of the buildings subject to the limits already fixed for new constructions. The cost to the Government on this account can be estimated only after the repairs are carried out and the grant is claimed.

(*b*) In view of the need for constructing new buildings and for carrying out extensions and improvements to existing secondary schools under private managements to meet the departmental requirements, the Government are admitting to aid building schemes more liberally than before. Grants amounting to Rs. 3,91,850 were sanctioned during the current year for certain new schemes which had to be taken up urgently.

As the expenditure on these schemes is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The amount required for part payment in the current year has been met from savings within the grant.

Item (vii).—As in the case of secondary schools under private managements, grants amounting to Rs. 91,350 were sanctioned in the current year for certain urgent schemes for the construction of buildings for secondary schools under local bodies. The amount required for part payment of grant for these schemes in the current year has been met from savings within the grant. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (viii).—The additional appropriation is required on account of the sanction of five scholarships and supply of midday meals to children in the elementary schools in the Laccadive and the Amindivi Islands.

Item (ix).—The large increase under this item is due mainly to the increase in the number of teachers in aided elementary schools and the revision of teaching grant and admission of the rate of dearness allowance as for Government servants. An additional appropriation of Rs. 28,44,900 is required under this head. A sum of Rs. 6,34,200 is proposed to be met by reappropriation from savings within the Grant. A sum of Rs. 19,800 is also available under heads accommodating "recoveries" as a set off. The balance of Rs. 21,90,900 is included in the supplementary estimate.

Item (x).—To meet the great rush for admissions, the Government sanctioned the opening during the current year of additional sections in certain Government training schools and the employment of additional staff for those sections. The additional expenditure on account of the sanction will be about Rs. 21,000 per annum.

Item (xi).—The Government sanctioned an expenditure of Rs. 44,300 being the amount required in the current year for the disbursement of stipendiary grants to the junior students admitted in the new training schools during 1948–49 and 1949–50.

Item (xii).—While sanctioning the general revision of pay of Government servants in 1947, an additional pay of Rs. 5 per mensem called Craft Allowance was allowed to School Assistants, Deputy Inspectors of Schools (Senior Scale), Secondary grade teachers, etc. The case of Junior Deputy Inspectors of Schools was left out by oversight. Recently Junior Deputy Inspectors were also granted this allowance. The extra cost on account of the grant of the allowance is expected to be about Rs. 17,000 per annum. The expenditure in the current year is expected to be about Rs. 2,000.

As the expenditure on each of the three schemes—items (x) to (xii)—is on a "New Service", token sums are included in the supplementary estimate. The actual expenditure in the current year has been met from savings within the Grant.

Explanatory Note.

Item (i).—The increased expenditure is mainly due to the continuance of the staff for the work connected with the Employees' State Insurance Act and for the upkeep of Famine Stores in the Medical Stores Depot, Madras, payment of rent for storage of famine stores at the medical stores depot and property tax for the second half year of 1948–49 during 1949–50, increase in the amount of customs duty expected to be incurred during the year on the basis of the value of the medical stores imported from abroad and reduction in the amount to be recovered from the Central Government owing to the abolition of certain posts sanctioned for resettlement work.

Item (ii).—The increase is mainly due to the employment of additional staff during the course of the year, accrual of increments, grant of leave to senior officers drawing higher rates of pay and enhancement in the postal rates with effect from the 1st April 1949.

Item (iii).—In the budget for 1949–50, a lumpsum deduction was made for savings anticipated on account of retrenchment measures. Owing to a variety of causes, these savings have not materialized. As a result, the expenditure in the current year is expected to be larger than the net provision made in the budget. The amount required is included in the supplementary estimate under the heads, 'Pay of Establishments' and 'Allowances'. The excess under 'Medicines and hospital necessaries' is mainly due to purchase of X-Ray apparatus for the Government Hospital for Women and Children, Madras, and a Deep X-Ray Plant for the King George Hospital, Visakhapatnam, purchase of special drugs required for the treatment of poor patients, local purchase of certain items not available at the Medical Stores Depot at higher rates and the increase in the price of drugs and dressings.

Item (iv).—The increase is mainly due to: (1) increase in the number of in-patients and out-patients, (2) opening of additional wards in certain Government hospitals, (3) provincialization of the Victoria Hospital for Women and Children, Visakhapatnam, (4) local purchase of medical stores, drugs, etc., not available at the Medical Stores Depot, Madras, at higher rates, (5) purchase of khadi and hospital linen from the Firka Development department at higher rates instead of from the Jail department at lower rates as heretofore, (6) adjustment during the current year of the cost of famine relief stores purchased during the previous years, (7) opening of new X-Ray departments and dental clinics in certain District Headquarters Hospitals, (8) purchase of an ice-plant for the Erskine Hospital, Mathurai, (9) purchase of essential hospital requisites such as microscopes, etc., required for use in certain mufassal medical institutions and (10) increase in the cost of diet articles.

Item (v).—The excess is due to increase in the cost of medicines purchased and the disbursement during the current year of the pay of menials employed in island dispensaries for the previous year on account of transport difficulties.

Item (vi).—The excess is due to increased amount of maintenance grants claimed by local bodies owing to the increased cost of maintaining the medical institutions under their control and to arrear claims for grants relating to previous years having been disbursed during the current year.

Item (vii).—The excess is due to a change in the system of payment of grants to private Tuberculosis Sanatoria in the State on a net cost basis with effect from the current year. The proposal was approved by the legislature in November 1949.

Item (viii).—The increased expenditure is mainly due to payment for articles indented for in 1948–49 but received during the current year, local purchase at higher rates of articles not available with the Medical Stores Depot, Madras, purchase of furniture and fittings for the new Anatomy, Physiology and Pharmacology departments in the Stanley Medical College, Madras, and purchase of two buses for the Men and Women Students' Hostels of the Madras Medical College.

Item (ix).—The increased expenditure is due to the grant of Travelling Allowance to the Members of the Central Board and Students' Selection Committee, payment of house allowance to the Sub-Warden, payment of travelling allowance and other compensatory allowances to the Special Officer for the Reorganization of Indigenous Medicine, payment of stipends to village vaidya students and the purchase of laboratory tables.

Item (x).—The increase in the expenditure is due to (1) grant of gazetted status to Civil Assistant Surgeons, Class II, (2) the post of Superintendent in the Government Mental Hospital, Waltair, being held by a supernumerary Civil Surgeon drawing higher rate of pay, (3) employment of additional staff during the course of the year, (4) transfer of menials paid from contingencies to regular establishments, (5) increase in the number of patients in the three mental hospitals, (6) increase in the cost of diet articles, (7) transfer of criminal mental patients from the Mental Jail, Cuddalore, to the Mental Hospital, Madras, (8) introduction of new methods of treatment of mental patients and (9) local purchase of medicines and drugs at higher rates due to their non-availability with the Medical Stores Depot, Madras.

Item (xi).—The expenditure was approved by the legislature by the grant of a token sum of Rs. 200 in November 1949. The amount required after reappropriating the savings available under the grant is included in the supplementary estimate.

2. *Other items.*—Token sums of Rs. 100 each on account of the following "New Service" schemes have also been included in the supplementary estimates :—

(*a*) Opening of a separate cancer ward in the Government General Hospital, Madras, at an estimated cost of Rs. 38,400 per annum recurring and Rs. 39,600 non-recurring. [Item (iii).]

(*b*) Opening of a separate Dental department attached to the Medical College and General Hospital, Madras, for the training of candidates for the B.D.S. Degree course at an estimate cost of Rs. 50,100 per annum recurring and Rs. 3,55,000 non-recurring. [Item (iii).]

(*c*) Grant of study leave in India or abroad, as the case may be, to 30 officers who are holding regular appointments in the Madras Medical Service for post-graduate studies in various specialities at an estimated cost of Rs. 1,26,200 non-recurring. [Item (iii).]

(*d*) The Government have decided to implement the first stage of the 10-year plan for the control of tuberculosis in the City of Madras. The scheme involves an expenditure of Rs. 35,000 per annum recurring and Rs. 12,500 non-recurring. [Item (iii).]

(*e*) Provincialization of the Victoria Hospital for Women and Children, Visakhapatnam, at an estimated cost of Rs. 49,500 recurring. [Item (iv).]

(*f*) Employment of additional staff in the College of Indigenous Medicine consequent on the opening of the third-year course of the College at an estimated cost of Rs. 57,300 per annum recurring. [Item (ix).]

(*g*) Purchase of a bus at an estimated cost of Rs. 15,000 for the conveyance of the students of the College and School of Indigenous Medicine to the various City State Hospitals for training in modern medicine. [Item (ix).]

Explanatory Note.

Item (i).—It has been decided to reorganize the Nutrition Bureau of the Health Department on the lines of a scheme drawn up by the Director, Nutrition Research Laboratories, Coonoor. The main financial features of the reorganization scheme are :

(*a*) the reduction of one lower division clerk (or steno-typist), one Health Inspector and one peon in the staff of each of the two regional units at Tiruchirappalli and Anantapur ;

(*b*) the provision of a laboratory-cum-propaganda-cum-demonstration van for the Central Bureau and for each of the two regional units ;

(*c*) the appointment of three drivers and three cooks-cum-cleaners for the vans ;

(*d*) the appointment of an additional Health Inspector and an additional peon for the Central Bureau ; and

(*e*) a lump-sum allotment of Rs. 2,500 for each of the two regional units and the Central Bureau for supply of subsidiary foods.

The scheme has been treated as on a 'new service'. Though the net additional cost is ultimately Rs. 30,100 recurring and Rs. 86,000 non-recurring, there will be little or no additional expenditure during the current year. A token sum of Rs. 100 is, therefore, included in the supplementary estimate.

Item (ii).—Till 1937, the Government of Madras were meeting the expenditure on the pay and allowances amounting to about Rs. 30,000 per annum of the Director and the Assistant Director of the Pasteur Institute, Coonoor, and were also making an annual contribution of Rs. 3,500 to the institute. After examining the financial position of the institute, the Government discontinued their aid from 1939 onwards on the ground that such an aid was unnecessary, as the institute was able to accumulate surpluses. The Government, however, while withdrawing the grant, stated, that they would consider the question of granting a special grant, if the institute should at any time be in need of funds for research work, etc. It has since been reported that after the withdrawal of the grant by the Government, the financial position of the institute rapidly deteriorated and that it has incurred a gross loss of about Rs. 39,000 on an average in the manufacture and sale of anti-rabic vaccine. Having regard to the research work done at the institute and the various other activities of the institute constituting services rendered by it to the public and the Government of Madras, the Government have decided to sanction an annual grant of Rs. 6,000 to the institute for a period of three years from the current year onwards and have issued orders accordingly. The scheme has been treated as on a 'new service' and a token sum of Rs. 100 is included in the supplementary estimate.

Item (iii).—The World Health Organization, Geneva, has a world programme of assistance for malaria control *inter alia* in terms of personnel or material with a view to organize demonstration programmes of residual D.D.T. spraying in selected rural areas. They have since selected Ernad taluk in Malabar district as their field of operations in this Province. The W.H.O. in collaboration with the United Nations International Children's Emergency Fund has sent an expert team consisting of a Malariologist and a Public Health Nurse to survey the area selected, organize and carry out control measures and assess the results and cost of the campaign. During the period of its stay the team will train State personnel so that the trained men can continue the programme and extend it to other areas after the W.H.O. team is withdrawn. The assistance from the W.H.O. will in addition to the services of its personnel consist of supplies of D.D.T. and other equipments and stores. This Government have agreed to the W.H.O. programme for malaria control in Ernad and have also sanctioned some staff which will work in conjunction with the W.H.O. team.

The total estimated cost to this Government on account of the provision of parallel Indian team together with transport, etc., will be roughly Rs. 1,17,000. The amount required for expenditure during 1949–50 is estimated at Rs. 37,800 recurring. The expenditure is on a 'new service'. The amount required is included in the supplementary estimate.

Item (iv).—The block grant of Rs. 25,000 which was sanctioned during 1948–49 for the promotion of the medical research in this State could not be utilized during that year by the Provincial Research Committee and it lapsed. The Committee has, therefore, approached the Government for permission to draw the amount during the current year. It is now expected that an expenditure of Rs. 5,000 only will be incurred before 31st March 1950 as the research work by the Committee was started only in January 1950. A token appropriation of Rs. 100 is included in the supplementary estimate. The actual expenditure will be met by reappropriation from the savings under the grant.

Item (v).—(*a*) In September 1949, the Government approved the composite scheme submitted by the Chief Engineer, Public Works Department, for the provision of protected water-supply to Kayalpatnam and ten other villages in Tiruchendur taluk (Tirunelveli district). The probable capital cost of the scheme is estimated at Rs. 57·5 lakhs and the annual maintenance cost at Rs. 30,000. The capital cost is to be met from the Rural Water-supply Fund and the maintenance cost by the local authorities concerned. The scheme has been treated as on a 'new service'. The probable expenditure that will be spent on the scheme during the current year is Rs. 1 lakh.

(*b*) With a view to quicken the pace of execution of well works under the Rural Water-supply Scheme, the Government have sanctioned the purchase of 75 pump-sets at a cost not exceeding Rs. 1·45 lakhs. The recurring expenditure for the maintenance of these sets is estimated at about Rs. 1·19 lakhs per annum. These pump sets are intended exclusively for well works under the Rural Water-supply Scheme and will be maintained by the Industries department. The Board of Revenue has been asked to purchase these pump-sets at an early date. The expenditure is treated as on a 'new service'.

(*c*) The additional appropriation required for all the schemes, after allowing for savings under other heads, is included in the supplementary estimate.

Item (vi).—In December 1949 the Government approved the proposal made by the Chief Engineer, Public Works Department, to obtain and instal, as a pilot plant, one micromesh filter unit for the filtration of the Madras City water-supply, at a cost not exceeding Rs. 1 lakh. Though the Corporation should legitimately finance the scheme, the Government have agreed to meet the cost of this plant to the extent of Rs. 1 lakh. The Chief Engineer has been asked to take the necessary steps for the procurement and installation of the unit. As the expenditure is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate.

(xvi) Do.	p. Charges in England ..	High Commissioner for India—Stores for India	..	48,100
		Total ..	..	77,04,200

Explanatory Note.

Item (i) (*a*).—For providing transport facilities to the workers in the Agricultural Research Station, Lam, Guntur district, who are not provided with quarters and are living in the suburbs, the Government have sanctioned the purchase of a factory-built station wagon at an estimated cost of Rs. 12,500. A recurring expenditure of Rs. 3,700 per annum has also been sanctioned for its maintenance.

(*b*) The Government have sanctioned a scheme for the extension of the Paddy Breeding Station at Mangalore, as its present area was found insufficient. Necessary staff including an Assistant Paddy Specialist has been sanctioned for the purpose. The cost of land, buildings, etc., for the scheme amounts to Rs. 66,000 (non-recurring). In addition, a recurring expenditure of Rs. 23,850 has been sanctioned on account of staff and working expenses. The anticipated expenditure during the current year is Rs. 67,040.

As the expenditure on each of the above two schemes is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The actual expenditure in the current year has been met by reappropriation from savings within the grant.

Item (ii).—In 1946, the Government accorded sanction for the opening of Poultry Farms in the Agricultural Research Stations at Anakapalle, Samalkot, Palur, Aduthurai and Koilpatti. The question of extending the scheme for the development of the poultry in other Agricultural Research Stations was discussed and approved by the Provincial Livestock Improvement Board at its meeting held on 24th January 1948. In accordance with the recommendation of the Provincial Livestock Improvement Board, the Director of Agriculture submitted detailed proposals to open poultry farms in 15 more Agricultural Research Stations. According to the scheme, each of the 15 poultry farms is to have a poultry unit with 20 laying hens, and the work will be confined to the multiplication and distribution of exotic birds to the public. The cost involved is Rs. 2,670 non-recurring and Rs. 1,710 per year recurring for each station, or a total expenditure of Rs. 40,050 non-recurring and Rs. 25,650 per annum recurring. The Government have sanctioned the scheme.

As the expenditure is on a 'new service' a token sum of Rs. 100 is included in the supplementary estimate. The actual expenditure in the current year has been met from savings within the grant.

Item (iii).—An additional appropriation of Rs. 43,500 is required to meet the increased expenditure on account of the employment of 466 lower division clerks in Agricultural depots in lieu of store-keepers. A sum of Rs. 2,000 is available under heads accommodating recoveries as a set off. Allowing for this an additional appropriation of Rs. 41,500 is included in the supplementary estimate.

Item (iii)-(A).—This appropriation is in respect of the grant sanctioned to the Agricultural Forms Limited, Tirunelveli towards the cost of reclaiming about 1,900 acres of land for food production. One-half of this grant will be adjusted against the Government of India's Grow More Food grant.

Item (iv).—On account of the adverse seasonal conditions, pests have assumed a serious form in various parts of the State. This has resulted in increased expenditure.

Item (v).—The additional appropriation is required to meet the large expenditure on the purchase of cotton seed for distribution to ryots.

Item (vi).—The additional appropriation is required on account of the employment of Plant Protection staff to maintain the purity of the seeds of improved strains.

Items (vii) *to* (x).—The additional appropriation is required for meeting the expenditure on the opening of four liaison sugarcane farms.

Item (xi).—The additional appropriation is required for meeting the expenditure on the acquisition of land for the Agricultural College and Farm at Bapatla.

Items (xii) *to* (xv).—The following are the main reasons for the increased expenditure :—

(*a*) With a view to cope with the increased work connected with the Engineering activities of the Agricultural Department, the Government sanctioned the employment during the current year of 21 upper division clerks in the offices of the District Agricultural Officers.

(*b*) In order to make available to the ryots oil-engines on hire for lift irrigation, sanction has been accorded for the purchase of 200 oil engines and the employment of 200 pump set drivers. In pursuance of the two-year plan of intensive cultivation, the Government have also sanctioned the purchase of necessary agricultural machinery such as tractors, pump sets, etc.

(*c*) The Government have sanctioned the purchase of two land rovers at a total cost not exceeding Rs. 20,040 (Rupees twenty thousand and forty only) for the use of the two Assistant Agricultural Engineers in charge of the Regional Tractor workshops at Coimbatore and Bapatla and a recurring expenditure of Rs. 5,200 towards the pay and allowances of two drivers and for the maintenance charges.

Item (xvi).—The additional appropriation is based on the latest report from the High Commissioner for India, London.

		Total ..	..	7,97,700

Explanatory Note.

Item (i).—The Editor of the *Indian Veterinary Journal* requested some financial help in the form of a discretionary grant to ease the financial position of the journal. As the journal is the only non-official veterinary journal in India catering to the needs of the Veterinary profession in the country and has been doing very useful work for the advancement of the Animal Husbandry in the country, the Government have sanctioned a grant of Rs. 1,000 to the journal. This is treated as on a 'new service' and a token sum of Rs. 100 is included in the supplementary estimate.

Item (ii).—The additional appropriation is required to meet the expenditure on account of the appointment of 30 additional compounders in the Animal Husbandry Department.

Item (iii).—The Provincial Livestock Improvement Board recommended that better facilities should be provided for Touring Veterinary Assistant Surgeons to treat cases while at headquarters. The Director of Animal Husbandry suggested that each Veterinary Assistant Surgeon should be provided with a building with a compound to serve as his office and a centre for treating the animals. He further proposed that the buildings required for the purpose might be rented for the present and that the present headquarters might be shifted to convenient centres. The Government accepted the proposal of the Director of Animal Husbandry and accorded sanction for an expenditure of Rs. 83,000 non-recurring and Rs. 54,360 per annum recurring. In view of the large cost involved, the expenditure is treated as on a 'new service'. The additional appropriation included in the supplementary estimate is to meet the expenditure anticipated in the current year.

Item (iv).—The additional appropriation is required on account of the adjustment in the current year of the payment previously made to the deputationists by the Indian Embassy in the U.S.A.

Item (v).—The Meat Dehydration Factory at Ranipet was taken over by this Government from the Government of India in January 1948 for the installation of the Serum Institute since renamed as the Veterinary Biological and Research Institute. The Government accorded sanction in the current year to the purchase and erection of a cold storage room at the Institute at a total cost of Rs. 16,260 non-recurring and Rs. 240 per annum recurring towards annual servicing charges. This expenditure is treated as on a 'new service'. It has also been found necessary to purchase a large number of animals for the manufacture of a sufficient quantity of Anti-Rinderpest serum and virus required for the Visakhapatnam Mass Inoculation Scheme, etc., and to incur larger expenditure on the purchase of scientific stores and drugs intended for the Institute and on the maintenance of livestock. Necessary additional appropriation is included in the supplementary estimate.

Item (vi).—The additional appropriation is for meeting the increase in the expenditure on maintenance of cattle in the Hosur Cattle Farm and the purchase of birds, wire-netting, etc., for the District Poultry Farms and Poultry Research Stations.

Item (vii).—The Government have had under consideration for sometime the question of rendering assistance to private cattle breeders in this State. It was decided at a departmental conference that assistance to private cattle breeders should be given in the form of subsidies and loans under certain specified terms and conditions. The Government accepted the recommendations and accorded sanction to an annual provision of Rs. 1 lakh (Rs. 60,000 as subsidies and Rs. 40,000 as loans). In view of the large sum involved, this is treated as on a 'new service'. A token sum of Rs. 100 is therefore included in the supplementary estimate.

Item (viii).—The sheep on the Nilgiris are of a woolly type and the quality of the wool found on them is considered to be the best in India. The Joint Director of Animal Husbandry submitted a scheme for the starting of a sheep farm to improve the breed with 200 ewes and 10 rams. The Government approved the scheme and accorded sanction for an expenditure of Rs. 49,800 non-recurring and Rs. 21,500 per annum recurring, for the purpose. In view of the large cost involved, the expenditure is treated as on a 'new service'. The additional appropriation included in the supplmentary estimate is to meet the expenditure anticipated in the current year.

Item (ix).—The additional appropriation is required for the purchase of necessary dead stock for the District Poultry Farms and Poultry Demonstration Units at Veterinary Institutions and for the sinking of a well in the farm at Cuddapah.

Item (x).—The additional appropriation is required to meet the expenditure on account of the purchase and maintenance of a motor lorry in connexion with the scheme for the salvage of dry cows, and repairs to cattle-sheds. The rise in the price of cattle food has also added to the expenditure.

Item (xi).—In July 1949, the Director of Animal Husbandry proposed the employment of additional staff which he considered was essential to run the dairy *cum* livestock farm at Visakhapatnam. The Government accepted the proposal of the Director of Animal Husbandry with modifications and sanctioned the minimum additional staff at an estimated cost of Rs. 24,200 per annum recurring. As the expenditure exceeds Rs. 20,000 per annum recurring, it is treated as on a 'new service'. The balance of the additional appropriation included in the supplementary estimate is to meet the expenditure on the purchase of livestock and dairy plant and the construction of buildings required for the Visakhapatnam Dairy Farm.

Item (xii).—The additional appropriation is required on account of the opening of two sub-centres at Coimbatore and Guntur.

		Total ..	..	15,05,200

Explanatory Note.

Item (i).—The Government sanctioned the post of a Deputy Registrar of Co-operative Societies with a peon to work under him for giving lectures and practical training in co-operation to the students admitted for the B.Com. (Hons.) Course in Co-operation in the Pachayappas and Loyola Colleges. As the expenditure is treated as on a 'new service,' a token sum of Rs. 100 is included in the supplemen ary estimate. The actual expenditure has been met by reappropriation from savings within the Grant.

Item (ii).—The increased expenditure is due to the sanction of additional staff for the audit of the accounts of co-operative societies, supervision of stores societies, organization of housing societies and for sanctioning loans to building societies, organization of special types of societies such as the Marudu Land Colonization Society, for the training of Senior Inspectors appointed by direct recruitment as a special case, and for deputation under Fundamental Rule 127 for audit and supervision of societies.

Item (iii).—The additional appropriation is mainly intended to cover the expenditure on the payment of travelling allowance, dearness allowance and other compensatory allowance to the additional staff mentioned under item (ii).

Item (iv).—The increase under this item also is consequent on the appointment of the additional staff referred to in item (ii) above.

Item (v).—The additional appropriation is on account of contributions towards the capital cost of workshops for demobilized soldiers.

Item (vi).—The Government have sanctioned the employment of 23 Senior Inspectors of Co-operative Societies and 23 peons for the supervision of jaggery manufacturing co-operative societies for ex-addicts in the districts of Tirunelveli, Ramnad, West Godavari, Chingleput and Visakhapatnam. The Government have also sanctioned a scheme for the training of ex-tappers in improved methods of jaggery manufacture and in that connexion sanctioned the employment of a Deputy Palm Gur Organizer, 25 Palm Gur Instructors, one Senior Inspector of Co-operative Societies and one peon. A recurring expenditure amounting to Rs. 84,000 for the free supply of equipment to the ex-tappers, propaganda by Palm Gur Instructors, contingencies and demonstration by Palm Gur Instructors and a non-recurring expenditure of Rs. 1,625 for the purchase of appliances for the Palm Gur Instructors was also sanctioned. The expenditure on the appointment of 23 Senior Inspectors and the scheme for the training of ex-tappers is treated as on 'new service.' A token sum of Rs. 100 is included in the supplementary estimate. The Government of India have sanctioned a subsidy to meet half the recurring expenditure. The actual expenditure during the current year has been met from savings within the grant.

Item (vii).—Owing to the sanction of the scheme for the development of Palm Gur Industry, there has been an increased expenditure on travelling allowance. The daily allowance admissible to non-gazetted officers has also been revised. On account of these reasons and the intensive tours made by the staff, an additional appropriation of Rs. 52,500 is required under this head.

Item (viii).—The additional appropriation is on account of the purchase and maintenance of jeeps, purchase of loud speaker equipment for the propaganda vans, free supply of jaggery manufacturing equipment to ex-tappers, propaganda and demonstration by Palm Gur Instructors under the Palm Gur Development Scheme referred to in item (v) above, grant of subsidies to Gramasanghams, and expenditure on Hope Cultural Centres.

Item (ix).—Additional appropriation is required to meet the expenditure on account of the grant of subsidy to mufassal co-operative institutes towards the cost of non-official lecturers, the grant of subsidy to the Provincial Co-operative Union for the production of films on Co-operation, the grant of subsidy to co-operative societies for the construction of godowns, the grant of subsidy to co-operative central banks for the employment of additional supervisors for the intensive supervision of rural credit societies particularly with a view to enabling them to undertake multipurpose activities and the expenditure on the scheme for relief of distress among handloom weavers. The subsidy to co-operative societies for the construction of godowns was treated as on a 'new service.' The Government also sanctioned subsidies to Loan and Sale Societies, Milk Supply Societies, Fruit Growers' Co-operative Societies, Cottage Industries Societies, Cattle Breeding Societies, Land Colonization Societies, Harijan and Backward Class Societies, and to Central Banks in Rayalaseema to write off irrecoverable loans and to certain societies formed for ex-tappers such as Cattle Breeding Societies and Milk Supply Societies. The subsidies sanctioned to (i) Cattle Breeding Societies in Kannivadi village of Mathurai district and Kurli village of Anantapur district, (ii) Harijan and Backward Class Societies and (iii) Yengendiyur, Vadanapalle and Marudayur Coir Workers' Societies in the Malabar district are treated as on 'new services.' The subsidy to the Central Banks in the Rayalaseema to enable them to wipe out their net bad and doubtful debts and the expenditure on the scheme for relief of distress among handloom weavers through the agency of weavers co-operative societies are also treated as on 'new service.' The amount required as additional allotment under this head is Rs. 6,37,800. A sum of Rs. 1,30,000 is available under heads accommodating recoveries, as a set off. Allowing for this amount an additional appropriation of Rs. 5,07,800 is included in the supplementary estimate

Item (x).—In March 1949, the Government sanctioned a subsidy of Rs. 9,000 to the Bhadrachalam, Kunavaram and Cherla Co-operative Societies in the East Godavari district for running 15 depots in the Agency Areas. The amount could not be drawn during 1948–49 and the Government permitted its drawal during 1949–50. In August 1949, the Government sanctioned a subsidy of Rs. 3,320 to the stores in the Polavaram Agency. Hence an additional appropriation of Rs. 12,300 is required under this head and this amount is included in the supplementary estimate.

Item (xi).—The additional appropriation is based on the latest report from the High Commissioner for India, London.

(21) GRANT XXI—INDUSTRIES.

Estimate of the amount required for further expenditure.

(vi) 43-A. Capital Outlay on Industrial Development.	a. Investments in Government Commercial Undertakings.	B. Fish Liver Oil Industry ..	..	100
		Total ..	*25,800*	500

Explanatory Note.

Item (i).—The Government have sanctioned a comprehensive scheme drawn up by the Provincial Firka Development Officer for the development of village industries. The scheme envisages the free distribution of models of improved labour-saving tools and implements to enterprising village artisans in the selected areas. Steps will also be taken to supply at cost price raw materials worth Rs. 12 lakhs required by the artisans. A model centre of village industries for demonstrating the results achieved by the scheme, for organizing courses of training and for undertaking surveys and researches connected with village industries will also be set up at an estimated cost of Rs. 1 lakh, recurring and Rs. 1 lakh, non-recurring. To guide the artisans in the selected areas in the use of the improved tools and implements which will be supplied under the scheme, eight instructors with a lower division clerk and a peon for each of them will be appointed. The scheme involves an expenditure of Rs. 1,33,900 per annum, recurring and a net non-recurring expenditure of Rs. 6,00,000.

Item (ii).—In connexion with the investigation of lignite deposits in the South Arcot district, it was decidedt hat intensive survey of underground water conditions at different horizons in the lignite-bearing areas should be undertaken in co-operation with the Geological Survey of India. The Geological Survey Department had to be provided with a sturdy motor vehicle for the purpose. The purchase of a Land Rover with a trailer at a cost of Rs. 11,000 was therefore sanctioned.

Item (iii).—In December 1948, the Government sanctioned an expenditure of Rs. 18,700 for the exploration of the occurrence of coal deposits in the Godavari valley by putting down a bore-hole to a depth of 1,000 feet near Rajahmundry. This sanction was not utilized, as a suitable bore site could not be selected and as it was felt that a single boring would not indicate what exactly the area contained. In consultation with the officers of the Geological Survey of India, a revised scheme for putting down three bore-holes to a depth of 2,000 feet each at an estimated cost of Rs. 94,000 has been sanctioned. The scheme is expected to last for a period of two years and involves an expenditure of about Rs. 16,000 on staff.

Item (iv).—For the speedy execution of certain building works under the post-war schemes of the Industries Department, the Government have recently sanctioned the temporary employment of an additional staff of one Special Engineer, one Divisional Accountant, three Supervisors, one draughtsman, one Lower division clerk and five peons. The expenditure involved is estimated at Rs. 25,600 per annum.

Item (v).—This item represents the book adjustment to be made in respect of interest on the capital invested in the Andhra Paper Mills, in accordance with commercial principels,

Out of an additional amount of Rs. 38,600 required under this head, an expenditure of Rs. 12,800 has been met from savings within the Grant. The balance is included in the supplementary estimate.

Item (vi).—In order to extract the maximum quantity of oil from fish liver, the Government have sanctioned the purchase of one liver extraction plant including centrifugal oil purifier and one gear type pump and one P. H. meter for the Government Oil Factory, Kozhikode at an estimated cost of Rs. 22,010.

As the expenditure on items (i) to (iv) and (vi) above is on 'new services', a token sum of Rs. 100 for each is included in the supplementary estimate. The actual expenditure in the current year has been met from savings within the Grant.

(22) Grant XXII—Cinchona and Fisheries.

Estimate of the amount required for further expenditure.

	Rs.
Voted	300
Total of sums charged	*11,600*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50. *Charged.*	Voted.
(1)	(2)	(3)	(4)	(5)
			Rs.	Rs.
(i) 43. Industries and Supplies.	d. Cinchona Plantations ..	D. Anamalais Plantations		100
(ii) Do.	Do. ..	E. Interest on Capital Outlay.	*11,600*	..
(iii) Do.	e. Fisheries	G. Inland Fisheries—(iii) Exploitation of Mettur Reservoir Fisheries.	..	100
(iv) Do.	Do.	S. Scheme for the collection of marine fishery statistics.	..	100
		Total ..	*11,600*	300

Explanatory Note.

Item (i).—A private planter prepared about 500 acres of forest land on the Anamalais for cinchona cultivation by the short-term Russian Method on behalf of the Government of India. He actually planted cinchona in only 200 acres of the area. At the instance of the Government of India, this Government agreed to plant cinchona in the remaining 300 acres in the estate by the normal long-term method on this Government's account. The total expenditure including interest on capital outlay, etc., involved in planting 300 acres is estimated at Rs. 9·6 lakhs, spread over a period of 12 years from 1946–47 to 1958–59. The expenditure in the current year is estimated at Rs. 94,300. Part of the expenditure is debitable to "72. Capital Outlay on Industrial Development —a. Investments in Government Commercial Undertakings—A. Cinchona" under grant XXXIV. As the expenditure on the scheme is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate. The actual expenditure in the current year will be met by reappropriation from savings within the Grant.

Item (ii).—The cinchona plantations are treated as a commercial undertaking and interest at a rate fixed by the Government from time to time, is charged each year on the capital invested in it. The additional appropriation included in the supplementary estimate is required to meet the interest charges consequent upon the progressive increase in capital outlay.

Item (iii).—In February 1950, the Government accepted the proposals of the Director of Fisheries for the intensive exploitation of the fisheries of the Mettur reservoir and for marketing the fish caught in the reservoir in neighbouring towns like Salem, Erode and Dharmapuri. A van will be purchased for the quick transport of the fish caught in the reservoir. The proposal involves a non-recurring expenditure of Rs. 9,000 on the cost of the van and a recurring expenditure of Rs. 23,633 per annum on the cost of staff, contingencies, etc. The receipts anticipated in the scheme by the sale of fish are Rs. 1,12,500 per annum. As the expenditure on the proposal constitutes a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate.

Item (iv).—The Indian Council of Agricultural Research proposed a scheme for investigating the possibility of estimating the total catch of marine fish by the random sampling method under the conditions obtaining along the Malabar Coast in the Madras State involving the total cost of Rs. 59,260 (Rs. 23,630 for field work in the State and Rs. 35,630 for statistical work at the Headquarters of the Council) which will be borne entirely by the Council. According to the scheme, the field work will be done by the staff which will be appointed specifically for the purpose by the Madras Government. This Government accepted the proposal of the Indian Council of Agricultural Research and sanctioned the necessary staff for the scheme in August 1949. Though the expenditure is to be entirely reimbursed by the Council, yet it will have to be borne initially by this Government. The scheme is therefore treated as on a 'new service' and a token appropriation of Rs. 100 is included in the supplementary estimate.

(23) Grant XXIII—Labour including Factories and Harijan Uplift.

Estimate of the amount required for further expenditure.

		Total ..	..	2,96,000

Explanatory Notes.

Item (i).—In view of the importance of Civil Aviation and the necessity for the Madras State to keep pace with the rest of India in this respect and in order to enable the Madras Flying Club to keep its rightful place in Civil Aviation, the Government have sanctioned the follow ng financial assistance to the Madras Flying Club after carefully examining the financial position of the Club :—

(1) a lump-sum grant of Rs. 34,295 equivalent to 50 per cent of the deficit incurred by the Club during 1948–49 ; and

(2) a fixed subsidy of Rs. 25,000 per annum and a contribution of Rs. 7–8–0 per pilot hour restricted to the trainees of this State subject to a maximum of Rs. 50,000 per annum from 1949–50, the Government reserving the right to revise the rates and the maximum from time to time.

The expenditure is treated as on a 'new service.' The lump-sum grant of Rs. 34,295 and the fixed subsidy of Rs. 25,000 for the year 1949–50 will be disbursed to the Club before 31st March 1950. As there is no provision in the budget and as no portion of the amount can be met by reappropriation, a sum of Rs. 59,300 is included in the supplementary estimate.

Item (ii).—An additional amount of Rs. 3,100 is required in the current year mainly on account of the general increase in expenditure under travelling allowance consequent on a large number of tours undertaken by the Inspectors of Circles and the Chief Inspector of Boilers for inspection of boilers.

Item (iii).—The increased expenditure is due to the appointment of more examiners and the grant of enhanced rates of remuneration to them and increase in the contingent charges.

Item (iv).—A special staff was sanctioned in December 1948 for the compilation of Industrial Statistics in accordance with the directions of the Government of India issued under the Industrial Statistics Act, 1942. The cost of this staff is about Rs. 72,800 per annum. A post of a whole-time officer (Statistics Authority) was also sanctioned in April 1949. In June 1949 some staff was sanctioned for enquiry into the socio-economic effects of prohibition. The cost of this staff is about Rs. 23,000 per annum. In August 1949, the Economic Adviser was deputed to attend the 7th International Conference of Agricultural Economists held at Stressa (Italy) as a delegate of the Madras Government. An amount of Rs. 5,000 was provided for this purpose. For purchasing furniture for the newly sanctioned staff an amount of Rs. 5,020 was sanctioned in March 1949. As the articles could not be purchased during the last financial year the amount was spent during the current year only. This department took part in the All-India Khadi Industrial and Swadeshi Exhibition, 1949–50, held in Madras and an amount of Rs. 3,000 was sanctioned for this purpose. During the Tenth Session of the All-India Agricultural Economic Conference, a pictorial brochure was got printed and an amount of Rs. 3,000 was sanctioned. Two officers of this department were deputed in October 1949 for Statistical Training at the International Training Centre for Asia and the Far East at New Delhi and Calcutta for a period of 14 weeks. The additional cost on account of the travelling and other allowances and the pay and allowances etc. of the substitutes appointed by the Government is estimated at Rs. 3,500. The total amount of further expenditure in the current year on account of the Public (E. & S.) Department is estimated at Rs. 1,11,300. The amount is included in the supplementary estimate.

Item (v).—Sanction was accorded in April and November 1948 for the opening of 22 new branches by the Women's Welfare Department, at the rate of two branches in each of the eleven firkas selected by the Firka Development Department for intensive rural reconstruction work. But out of these 22 branches, only 20 branches have been opened so far and the question of sanctioning the opening of the other branches is under separate consideration.

The Government have now authorized the Women's Welfare Organizer, Madras, to open three centres in each of the 20 villages One of these centres will be termed as the model centre and will be located in the selected village itself. The other two centres will be located in villages situated within a radius of one to one and a half miles from the selected village. The model centre will have a library, reading room, an exhibition and sales depot and an information bureau. In addition to being the meeting place for all the women of the three centres attached to that village for their annual functions and entertainments, it will also be the central place where the women of the villages can go for any assistance and information.

The following expenditure has to be incurred in this connexion :—

(i) Rs. 1,000 (one thousand) only per annum recurring for each firka to meet the expenditure in connexion with the materials for spinning, weaving, tailoring, etc.

(ii) Rs. 1,000 (one thousand) only non-recurring for each firka for the purchase of necessary equipment such as the spinning apparatus, weaving looms, sewing machines, etc., and medicine for maintaining a small dispensary.

The Government have also sanctioned the appointment of two qualified midwives for each of the eleven firkas on the scale of Rs. 40—3—55—1—70 for a period of one year in the first instance. These midwives will work together with the Women's Welfare Organizers in the branches. The Women's Welfare Organizers will arrange for the training of these midwives.

The total cost in connection with the running of this new scheme will be Rs. 31,727 per annum recurring,. and Rs. 10,000 non-recurring. But so far as this financial year is concerned, the pay of the staff, etc., will be payable only during 1950-51. Only the expenditure in connexion with the payment of contingencies, etc., will have to be met during the current financial year. It is not possible to forecast with accuracy the amount of expenditure that will be incurred during 1949-50. As the expenditure on the scheme is on a 'New service' a token sum of Rs. 100 is included in the supplementary estimate.

Item (vi).—In order to relieve the overcrowding in the Stri Sadana Training Home and Shelter, Madras, the Government agreed in August 1949 to the proposal of the Chief Inspector of Certified Schools that some of the inmates of the Home might be given in marriage to young men who desired to marry them. The Government sanctioned an expenditure of Rs. 150 for each girl to be spent at the discretion of the Chief Inspector towards the purchase of clothes, jewellery, vessels, etc., and stipulated that before finalising any proposal for marriage, the Chief Inspector should get the consent of the parents or guardians of the girl. It is reported that 18 marriages were performed up to the end of December 1949 and that 12 more marriages are expected to be performed before the end of March 1950. The total expenditure on this account in the current year is therefore estimated at Rs. 4,500.

The total expenditure on the maintenance of the Home in the current year including the above sum of Rs. 4,500 for marriages is now expected to be more than the budget provision by Rs. 10,000 owing to the increase in the number of inmates during the year. An additional appropriation of Rs. 10,000 is therefore included in the supplementary estimate.

Item (vii).—In pursuance of the recommendation of the Development Commissioner appointed in November 1947 for formulating a co-ordinated plan for the Economic Development of the Rayalaseema, the Government have abolished the Ceded districts Economic Development Board and constituted a Rayalaseema Development Board. The Board consists of both officials and non-officials with the Hon'ble the Minister for Land Revenue as its Chairman. The Government have also appointed a Development Commissioner to act as Secretary to the Board and necessary staff to work under him. The Development Commissioner is also ex-officio Joint Secretary to Government in the Development Department. The total expenditure in the current year on account of the Development Commissioner and the staff under his control is estimated at Rs. 30,700. Of this, a sum of Rs. 23,200 will be met by re-appropriation from savings. The balance amount of Rs. 7,500 is included in the supplementary estimate.

Item (viii).—In December 1949, a conference was held to consider the question of formulating and implementing ameliorative schemes for the hill tribes in the Agency areas and schemes for the development of these areas. The Conference recommended among other things that a Special Agency Development Officer of the grade of a Senior Collector should be appointed immediately and that he should be made exclusively responsible for the formulation and implementation of the detailed plans for all the Agency tracts. Sanction was accordingly given for the creation of the post of a Special Agency Development Officer and of the posts of one steno-typist and two peons.

As the expenditure per annum exceeds Rs. 20,000, the proposal is treated as a 'newservice' and a token sum of Rs. 100 is included in the supplementary estimate.

(25) Grant XXV—Civil Works—Works.

Estimate of the amount required for further expenditure.

			Total ..	..	1,700

Explanatory Note.

Item (i).—As early as May 1947, the Inspector-General of Prisons pointed out that the overcrowding in the Sub-Jail, Tiruchirappalli, seemed to be chronic, that with the introduction of Prohibition the overcrowding would become acute and that therefore it was imperative that urgent steps should be taken to increase the accommodation in the Sub-Jail. As the matter could not be put off any longer, the Government sanctioned in the current year the construction of two Association blocks in the Sub-Jail, Tiruchirappalli, at an estimated cost of Rs. 31,300.

Item (ii).—In 1946, the Inspector-General of Police proposed the construction of 203 sheds in various districts for accommodating the motor vehicles belonging to the Police Department. As the cost of a permanent shed was Rs. 4,500 while that of a semi-permanent shed was only Rs. 2,750, it was ordered that 50 semi-permanent sheds should be constructed in 1948-49 and that the balance should be spread over a period of four years. As the financial year had elapsed before the proposal was approved and as the construction of sheds was considered an urgent necessity to prevent the deterioration of the vehicles, the Government have sanctioned the construction of 50 semi- permanent sheds in the current year at a total cost of Rs. 1,60,000 allowing for fluctuations in cost.

Item (iii).—The Government have sanctioned an expenditure of Rs. 30,400 towards dismantling, transporting by road and rail and re-erection of six Twin Nissen huts allotted to certain Government colleges. An expenditure of Rs. 20,800 is expected to be incurred in the current year.

Item (iv).—The Government have sanctioned an expenditure of Rs. 43,000 on the construction of a separate laboratory for the Highway Engineering Department of the Engineering College, Guindy, as it is considered essential for the Highway Engineering Course. The expenditure in the current year is expected to be Rs. 2,000.

Item (v).—In order to provide the additional accommodation required in the Queen Mary's College, Madras, as a result of the opening of B.Sc. Course, the Government have sanctioned an expenditure of Rs. 40,000 on the construction of an additional block of two rooms. An expenditure of Rs. 10,000 is expected to be incurred in the current year.

Item (vi).—In order to provide additional laboratory accommodation required for the Government Arts College, Madras, as a result of the transfer of the Intermediate classes from the Presidency College, the Government have sanctioned an expenditure of Rs. 45,000 on the construction of a new block for the Intermediate laboratories of the Arts College.

Item (vii).—In order to provide more accommodation for the staff of the Engineering College, Guindy, within the college compound, the Government have sanctioned the conversion of one block of the students' hostel into quarters for staff at a cost of Rs. 53,400.

Item (viii).—The Headquarters Hospital, Guntur, is situated in the heart of the town. It is bounded on two sides by public roads and on the third side by the Andhra Christian College. It can expand only on the fourth side where vacant lands are available. In 1945 the Government approved for the expansion of the hospital the acquisition of 2½ acres in this area at a cost between Rs. 50,000 and Rs. 62,500. The Revenue Department took up acquisition proceedings but before they could complete them, they had to revalue the land at Rs. 2,10,350 with reference to the prevailing price of lands in the vicinity which because of their central location came to be sold at very high prices. But despite the high price, the acquisition had to be proceeded with, since the land in question was the only one available for the expansion of the hospital and if it was sold away and built up, the expansion of the hospital would be blocked unless built-up areas were to be acquired later on at still higher prices. The Government have accordingly sanctioned the acquisition of 2·53 acres at a cost of Rs. 2,10,350. In view of the large increase in the cost of the scheme, the expenditure has been treated as on a 'new service'.

Item (ix).—As there are no circuit houses or Public Works Department Inspection bungalows at present in Mathurai and as one is considered absolutely necessary in such a big town, the Government have sanctioned an expenditure of Rs. 94,000 for that purpose.

Item (x).—The Engineering College, Anantapur, is at present located in the Meat Dehydration Factory buildings which were purchased from the Government of India. As the College is situated some miles away from the town, it is impracticable to have necessary additional hostel accommodation in rented premises. It has also been considered essential to provide additional accommodation for the staff as they have to be in the college premises for most of the day and as it will not be either convenient or desirable to secure accommodation for them in the town. The Government have, therefore, sanctioned an expenditure of Rs. 4,64,000 on the provision of the additional temporary accommodation immediately required.

Item (xi).—A site of about 46 acres in the Agricultural College Estate, Coimbatore, was allotted to the Arthur Hope College of Technology for the location of its permanent buildings. As this site is not found sufficient, an expenditure of Rs. 4,96,000 for the acquisition of 49·66 acres of private land has been sanctioned.

Items (xii) *and* (xiii).—It was considered necessary that the Arthur Hope College of Technology, Coimbatore, should be removed from its present premises in the Argus Engineering Company buildings which are quite unsuitable and housed elsewhere from the beginning of the next a cademic year. The Government have therefore sanctioned (1) an expenditure of Rs. 5,53,500 on the construction of temporary buildings in the site allotted for the College in the Agricultural College Estate, and (2) an expenditure of Rs. 5,00,000 on the execution of some items of permanent works.

Item (xiv).—The Engineering College, Kakinada, is at present located in some military buildings which were purchased from the Government of India. The lands on which the buildings stand were not, however, purchased. They were originally requisitioned under the Defence of India Act and they have now to be acquired before 31st March 1950 under the provisions of the Requisitioned Land (Continuance of Powers) Act, 1947. The Government have, therefore, sanctioned an expenditure of Rs. 46,210 for the acquisition of the lands.

Item (xv).—The Engineering College, Anantapur, is temporarily located in the Dehydration Factory buildings. For the construction of permanent buildings for the College, an additional site of 206 acres of private land is required. The Government have accordingly sanctioned an expenditure of Rs. 40,000 on the acquisition of the land.

Item (xvi).—With a view to allow road traffic, the Railway bridge at Baliapatam between Azhikkal and Taliparamba road in the Malabar district is being provided with R.C. decking by the South Indian Railway Administration at the cost of this Government. In order to make the decked bridge useful, it is necessary to form approach roads to the bridge on either side of it from the main road. As this work is urgently required in the interests of law and order in the area, an expenditure of Rs. 1,18,300 has been sanctioned. The work will be carried out by the Highways Department. The work is eligible for financial assistance from the block grant from the Government of India for Post-War Development schemes in the current year.

Item (xvii).—(*a*) In May 1949, the Chief Engineer (Highways) reported that in view of the acute shortage of steel and the consequent delay and uncertainty in its supply by the Government of India, the progress of works was being hampered and that, in order to avoid it, it was desirable to purchase the available material from the various Engineering parks as and when it was offered, and keep it in stock for use, when required. The Government accepted the need for building up the stock and accordingly sanctioned an expenditure up to a limit of Rs. 2,00,000 on the purchase of available steel for bridge works for use in the Highways Department.

(*b*) The Government have sanctioned the purchase of spare parts, tyres, tubes, etc., for the road rollers, lorries and other heavy plant and machinery in the Highways Department at a cost of Rs. 3 lakhs as this was considered to be absolutely essential for the running of the department.

As the expenditure on all the above items is treated as on 'new services', a token sum of Rs. 100 each is included in the supplementary estimate. The actual expenditure in the current year will be met from the savings within the Grant.

(26) GRANT XXVI—CIVIL WORKS—ESTABLISHMENT AND TOOLS AND PLANT.

Estimate of the amount required for further expenditure.

	RS.
Voted	400
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				RS.
(i) 50. Civil Works.	e. Establishment—Public Works Department.	A. Chief Engineers—Pay of Establishments.	..	100
(ii) Do.	Do.	E. Executive Establishments— I. Ordinary Areas— 3. Pay of Establishments —Temporary.	..	100
(iii) Do.	Do.	FF. Government Designs Engineer— 1. Pay of officers	..	100
(iv) Do.	Do.	K. Charges recoverable from Governments, Departments and others.	..	100
		Total ..	..	400

Explanatory Note.

Item (i).—The volume of work in the Chief Engineer's (Irrigation) office which has been increasing from 1942, has now become enormous on account of the large projects under execution or investigation, like the Lower Bhavani, Malampuzha, Mettur Canals and Krishna-Pennar Projects. In order to cope with the increase in work, the Government have sanctioned the employment of two Junior Superintendents, four upper division clerks, one lower division clerk, one special grade draughtsman, one draughtsman, I grade, two draughtsman, II grade, one mechanical supervisor and three tracers. The cost involved is Rs. 46,400 per annum.

Item (ii).—With a view to augment the production of foodgrains in the State from the ayacut under the minor irrigation sources in charge of the Public Works Department, the Government have sanctioned the formation of four subdivisions with necessary clerical staff, two in the Chingleput district with headquarters at Kancheepuram and Tiruvallur, one in the South Arcot district with headquarters at Tindivanam and one in the Tirunelveli district with headquarters at Sermadevi, for carrying out repairs and improvements to the tanks. The cost involved is Rs. 1,03,300 per annum.

Item (iii).—In view of the advancement of the science of irrigation in recent years and the ideas in the designs and methods of construction and the necessity for incorporating the important plans and designs and the information gathered by men sent by this Government to America, through a separate agency, the Government have sanctioned a Central Designs Office consisting of a Designs Engineer, five Assistant Engineers, twelve Supervisors and necessary technical and clerical staff. The cost involved is Rs. 1,12,000 per annum.

Item (iv).—In 1948, the Government accepted an offer from the Post-War Services Reconstruction Committee of a sum of Rs. 41,280 for the construction of two wards of 20 beds each in the Government Tuberculosis Sanatorium, Tambaram, for the use of ex-servicemen. The Committee subsequently offered a further sum of Rs. 40,000 for the construction of quarters for the additional staff whose employment had been necessitated by the increase in the bed strength of the sanatorium by the addition of the twin ward. The further donation offered by the Committee was accepted by the Government on the understanding that the quarters would be built by the Public Works Department according to plans and estimates prepared by them at a cost not exceeding Rs. 40,000, that no centage charges would be levied and that the buildings on completion would become the property of the Government.

The financial commitment to the Government on this proposal is, therefore, only on account of the main enance of the new buildings. As the proposal involves the waiver of centage charges, it has been treated as on a 'new service'.

As the expenditure on each of the above items is treated as on a 'new service', token sums are included in the supplementary estimate, the actual expenditure in the current year having been met from savings within the Grant.

(27) Grant XXVII—Civil Works—Grants-in-aid.

Estimate of the amount required for further expenditure.

	Rs.
Voted	43,50,900
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949-50.	
			Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
(i) 50. Civil Works.	g. Grants-in-aid ..	(1) Excluding Post-War Reconstruction—C. Grants to local bodies for roads and bridges (other than village communications).	..	10,90,800
(ii) Do.	Do. ..	F. Central Road Fund Account—Communications.	..	100
(iii) Do.	Do. ..	(ii) Post-War Reconstruction—H. Grants to local bodies for new road works.	..	32,60,000
		Total ..	..	43,50,900

Explanatory Note.

Item (i).—The increase in expenditure under the head is due to sanction of grants to district boards for unemployment relief works in the Anantapur, Bellary, Chittoor, Kurnool, Krishna and Visakhapatnam districts and for certain works required urgently in the course of the year for maintenance of law and order in the South Kanara, Malabar and Guntur districts. The additional appropriation also includes a grant of Rs. 22,725 to the Malabar District Board for two road works, viz., (1) granite metalling the road from Nadaparam to Kanakamala and (2) widening the culvert at M. 6/1 and reconstructing the culvert at M. 6/2 of Menaprom-Kuthuparamba road, required on the borders of India and French Mahe for strategical reasons; and a half grant of Rs. 79,500 to the Kozhikode Municipal Council for the work of dustless surfacing the beach road estimated to cost of Rs. 1,59,045, exclusive of the contribution of Rs. 5,955 by a private company.

Item (ii).—The work of metalling the 'Amalapuram-Yadarlanka road' in the East Godavari district was considered urgent to facilitate the movement of foodstuffs. The Government of India have agreed to meet the entire cost of the work amounting to Rs. 58,000 from the allocations to Madras from the Central Road Fund. Although there is no liability to this Government on this account, the expenditure constitutes a 'new service', as it has to pass through the accounts of this Government. A token sum of Rs. 100 is, therefore, included in the supplementary estimate.

Item (iii).—A lump-sum provision of Rs. 35 lakhs was made under this head in the budget for the current year on a half-grant basis. In accordance with the subsequent decision of the Government to sanction full grants fo Post-War Road Development works, a grant of Rs. 70 lakhs was sanctioned for these works. A further grant of Rs. 1·73 lakhs has been sanctioned to the Krishna District Board for the work 'Metalling Vuyyur-Talaprole road *via* Indupalle' required for security purposes. It is, however, estimated that the total grant likely to be required in the current year will be only Rs. 67·60 lakhs. A demand for an additional appropriation of Rs. 32·60 lakhs is, therefore, included in the supplementary estimate.

A list of works for which the entire grant of Rs. 67·60 lakhs will be utilized, will be found in a separate appendix—*Vide* pages 55–71 below.

(13) 52. A. Other Revenue Expenditure connected with Electricity Schemes.	a. Establishment charges.	(i) Excluding Post-War Reconstruction.— 2. Pay of Establishments ... —		.. 4,000
(14) Do.	Do.	4. Charges payable to or recoverable from Governments and departments. —		3,29,000
		Grand total ..		26,18,100

Explanatory Note.

Item (1).—The increase is due to expansion of the system and increased cost of Operation sub-station staff including new sanctions, extra maintenance cost on account of high cost of labour and materials increased provision for purchase of power and provision for write-back of original erection, overhead and dismantling charges.

Item (2).—The increase is mainly due to large number of service connections for agricultural, industrial and domestic services, increase in the anticipated outstandings at the end of the year under billing suspense irrespective of current consumption bills to be issued in March 1950 and advance payments to suppliers for the stores ordered.

Item (3).—The increase is mainly due to general expansion of the system.

Item (4).—The increase is due to large number of service connection works taken up and less number of them anticipated to be closed and to provision made for large number of incomplete workshop jobs expected to be transferred from capital account at the end of the year.

Item (5).—The Ceded Districts scheme has come into operation in June 1949 and no budget provision exists for this in the current year. The expenditure anticipated is included in the supplementary estimate.

Item (6).—The increase is due to larger expenditure under pay and dearness allowance of work-charged establishment, consumables, repairs, etc.

Item (7).—The increase is due to larger made for contribution to the Depreciation and Special Reserve Funds under the Visakhapatnam scheme.

Item (8).—The increase is due to larger consumption of coal, rise in the cost of coal, increased work-charged establishment on account of installation of diesel sets and to provision for unexpected cyclone works.

Item (9).—The increase is mainly due to calculation of depreciation at 8·3 per cent while the provision made in the budget estimate was calculated at 2·5 per cent.

Item (10).—The Anantapur municipal electrical undertaking was taken over by the Government on 15th July 1949 and no provision exists for this scheme in the budget estimate for the year. The expenditure anticipated has been included in the supplementary estimate.

Item (11).—The Government have sanctioned the scheme for taking over the Rajahmundry company electrical undertaking and no provision exists for this scheme in the budget estimate for the year. The anticipated expenditure is included in the supplementary estimate.

Item (12).—The Sandur State electrical undertaking has been taken over by the Government during the year and no provision exists for this scheme in the budget estimate for the year. The expenditure anticipated is included in the supplementary estimate.

Item (13).—The increase is mainly due to additional staff sanctioned for the office of the Chief Engineer for Electricity for the reorganization of the Accounts branch of the Electricity department.

Item (14).—The increase is mainly due to less recoveries from capital works.

2. The total additional amount required for all the items is Rs. 26,18,100 under "Voted" and this amount is included in the supplementary estimate. This amount also includes the cost of the staff sanctioned for the office of the second Chief Operation Engineer and Chief Engineer for Electricity which was treated as on a 'new service'.

(29) Grant XXIX—Famine.

Estimate of the amount required for further expenditure.

	d. Miscellaneous ..	2. Irrigation works		3,300
		3. Other expenditure		22,13,700
		Total		22,46,000

Explanatory Note.

The Budget Estimate for 1949–50 provided for normal expenditure on Famine Relief. But owing to the adverse seasonal conditions in various districts including the floods and cyclones in the northern areas measures had to be taken for the relief of distress. The additional appropriation included in the supplementary estimate is to meet the expenditure so far sanctioned by the Government.

(30) Demand XXX—Pensions.

Estimate of the amount required for further expenditure.

55. A. [Commutation of pensions financed from Ordinary Revenues.	Amount transferred from 83. Payments of commuted value of pensions.	....	..	2,42,900
		Total ..	..	2,42,900

Explanatory Note.

According to the latest estimate of the High Commissioner for India in London, an additional appropriation of Rs 2,43,9 0 is required to meet payments of commuted value of pensions in England to the late Secretary of State's Officers as a consequence of the termination of their services. But a sum of Rs. 1,000 s availabl under "55. h. *Deduct*—Pensionary charges transferred to commercial departments" as a set off. Allowing for this amount, an additional appropriation of Rs. 2,42,900 is included in the supplementary estimate.

(31) Grant XXXI—Stationery and Printing.

Estimate of the amount required for further expenditure.

	RS.
Voted	14,29,100
Total of sums charged	*41,900*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
			RS.	RS.

(iii) Do.	d. Government Presses, Madras—	B. Productive Branches—2. Pay of Establishments.	..	100
(iv) Do.	Do.	J. Printing work done for the Secretarial staff of the Governor and the High Court.	*41,900*	..
		Total ..	*41,900*	14,29,100

Explanatory Note.

Item (i).—Till recently, the transport of stationery articles was done through the agency of a cart contractor which cost the Government about Rs. 25,000 per annum. This was dispensed with in June 1949 and the work is now being done departmentally. For this purpose, the Government sanctioned the purchase of a lorry at a cost of Rs. 11,000 and the employment of additional staff costing about Rs. 1,500 per annum. The running of a departmental lorry is expected to prove more economical in the long run. As the expenditure is treated as on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate. The actual expenditure will be met from savings within the Grant.

Item (ii).—An additional appropriation of Rs. 18,00,000 is required towards payments to be made to contractors for supply of paper and stationery required for printing electoral rolls under the new Constitution. A sum of Rs. 3,42, 00 is proposed to be met by reappropriation from savings within the Grant. A sum of Rs. 29,100 is also available under "recoveries" as a set off. Allowing for this amount an additional appropriation of Rs. 14,28,900 is included in the supplementary estimate.

Item (iii) (*a*).—Certain temporary staff was sanctioned in the Government Press for work connected with the printing of preliminary electoral rolls under the new Constitution. The extra cost on account of the additional staff is Rs. 59,300.

(*b*) In 1946, the Madras Government Press Workers' Union made several demands for bettering the service conditions of the workers in the Government Press and one of them was that all temporary workers paid from contingencies and day extra staff should be made permanent. In consultation with the Superintendent, Government Press, the Government sanctioned the permanent retention of certain contingent staff which had been in existence for over ten years and employed on regular duties. The extra cost involved is Rs. 27,300 per annum besides pensionary charges.

As the expenditure on each of the above items is on a 'new service,' a token sum of Rs. 100 is included in the supplementary estimate. The actual expenditure in the current year has been met by reappropriation from savings within the Grant.

Item (iv).—The additional appropriation of Rs. 41,900 is necessitated by the adjustment in the current year of the difference between the actual expenditure and the amount adjusted in 1948–49.

(vii) 63. Extraordinary charges.	a. Charges in India ..	Food Production	..	100
		Total ..	*2,23,000*	500

Explanatory Note.

Item (i).—The Government sanctioned the employment of certain additional staff in the Government Bus Service and the Government Automobile Workshop to cope with the increase in the maintenance and repair work. The extra expenditure involved is Rs. 66,700 per annum. As the expenditure is on a "new service," a token sum of Rs. 100 is included in the supplementary estimate. The actual expenditure in the current year has been met by reappropriation from savings within the grant.

Item (ii).—No provision was made in the Budget Estimate for 1949–50 towards "Interest on Capital Outlay." As it is necessary to make an adjustment in the accounts in respect of interest on capital outlay in accordance with commercial practice, the necessary appropriation is included in the supplementary estimate.

Item (iii).—A sum of Rs. 5,500 was provided in the current year's Budget under this head. The Board of Revenue has now estimated that an additional sum of Rs. 100 will be required in the current year. The estimate is based on the Collectors' requirements. The amount is accordingly included in the supplementary estimate.

Item (iv).—The Government of India are establishing the National Defence Academy at Kharakvalsa near Poona, with a view to train the future officers for the three Defence Services, viz., Army, Navy and Air Force. The cadets for training will be drawn from the whole country and their selection will be made by a combination of a Federal Public Service Commission Examination and the Services Selection Board Test. The Academy is to be national in character and every part of the country will have a vital stake in it.

The Government of India proposed that a minimum sum of Rs. 5 lakhs might be contributed by this Government for the construction of a block of buildings for this Academy. The contribution of Rs. 5 lakhs is to be spread over a period of three years. The Government have agreed to contribute the amount asked for.

The expenditure is on a "new service", as similar expenditure has not been incurred before. A token appropriation of Rs. 100 is included in the supplementary estimate.

Item (v).—The former States of Banganapalle and Pudukkottai came under the administrative control of this Government towards the end of 1947–48, while the former State of Sandur came under such control only from the 1st April 1949. The three areas were fully merged with the Madras State by an order issued under section 290 (A) of the Government of India Act, 1935, with effect from the 1st August 1949. In accordance with the instructions of the Auditor-General of India and the procedure followed by the Government of India in respect of the States taken over by them, the transactions relating to the three merged areas have so far been shown separately in the Deposit Section of the Accounts of this Government without being included in the regular

service heads of revenue and expenditure. This has been done mainly because from the point of view of budgetary and accounting convenience it was considered, that the transactions should be included in the regular accounts only from the beginning of the next financial year (1950–51). The Auditor-General has since decided that adjustments should be made in the final accounts of the current year in respect of expenditure incurred in these areas since their regular merger with this State. Consequently a token sum of Rs. 100 is included in the supplementary estimate. It is expected that the amount to be actually adjusted will be covered by the savings anticipated in the grant as a whole.

Item (vi).—On the 23rd August 1949, the Government of India extended to this State the Administration of Evacuee Property (Chief Commissioners' Provinces) Ordinance, 1949 (Central Ordinance No. XII of 1949) by the Central Ordinance No. XX of 1949. This has since been replaced by the Administration of Evacuee Property Ordinance, 1949 (Central Ordinance No. XXVII of 1949). In order to enforce this law in this State, the Member of the Board of Revenue, who is, for the time being, the Commissioner of Land Revenue, all Collectors and all Revenue Divisional Officers have been appointed as Custodian, Deputy Custodians and Assistant Custodians of Evacuee Property, respectively, in addition to their other duties. As there is no Revenue Divisional Officer in Madras City, a senior Deputy Collector has been appointed as the Assistant Custodian of Evacuee Property for Madras City. Some special staff has also been employed under the Custodian of Evacuee Property and the Assistant Custodian of Evacuee Property, Madras City, in connexion with the enforcement of the above Ordinance. The whole scheme has been treated as a 'new service', and a token sum of Rs. 100 is therefore included in the supplementary estimate. The actual expenditure during the current year is Rs. 9,900 and this has been met by re-appropriation from savings, within the grant.

The expenditure may be recovered, under the provisions of the Ordinance by the levy of suitable fees from the income accruing from the evacuee properties.

Item (vii).—In order to implement the revised Food Production policy of the Government of India, the Board of Revenue submitted proposals for the employment of additional staff (Statistical Assistants, clerks, etc.) to assist the Collectors in assessing the results of the Intensive Cultivation Schemes and compiling correct statistics of increased production. The Government sanctioned the employment of the necessary staff to the end of the current year at an estimated cost of Rs. 41,700. As the expenditure is on a 'new service', a token appropriation of Rs. 100 is included in the supplementary estimate. The actual expenditure on this account will be met from savings within the grant.

(33) Demand XXXII-A—Payments of Compensation to Landholders on the Abolition of the Zamindari System.

Estimate of the amount required for further expenditure.

	Rs.
Voted	1,62,00,000
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949–50. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				Rs.
65. Payments of compensation to landholders, etc., on the abolition of the Zamindari system.	a. Payments of compensations to landholders, etc.	I Compensation		1,37,00,000
		II Interim payments		25,00,000
		Total		1,62,00,000

Explanatory Note.

The sum included in the supplementary estimate represents the provision for the interim payments to be made for the estates already taken over by the Government under the Madras Estates (Abolition and Conversion into Ryotwari) Act, 1948 and for the payment of advance compensation in respect of those estates in accordance with the provisions of new section 54-A of the Act inserted by the Madras Estates (Abolition and Conversion into Ryotwari) Amendment Act, 1950. No provision was made in the current year's budget for these items of expenditure. The payments expected to be made in the current year are Rs. 107 lakhs as advance compensation for the main estates, Rs. 30 lakhs as advance compensation for the under-tenure estates included in those main estates and Rs. 25 lakhs for interim payments for all the estates.

(ii) Do.	Do.	II. Main canals and branches		3,93,900
		Total ..		33,17,500

Explanatory Note.

Item (1).—This scheme is for the extension of irrigation under Kolanapalli lanka channel of Undi canal by extending and improving the channel and its two branches. It is expected to bring under cultivation 954 acres of waste lands and to provide better irrigation facilities for 547 acres of land already under cultivation. The estimated cost of the scheme is Rs. 1,18,854.

Item (2).—As a result of the execution of this scheme, a block of about 598 acres in Vemuladevi village, which is at present lying waste, can be brought under cultivation. The estimated cost of the scheme is Rs. 65,444.

Item (3).—This scheme will bring under irrigation about 400 acres of dry lands in Uchaguntapalem, etc., villages in Kovur taluk of Nellore district. The estimated cost of the scheme is Rs. 42,935.

Item (4).—As a result of the execution of this scheme, it is expected that the outturn on the area liable to submersion (viz., 1,591 acres) can be increased and that, in addition, an extent of about 400 acres can be brought under wet cultivation of second crop. The estimated cost of the scheme is Rs. 7,67,634.

Item (5).—The sanctioned estimate provides for four penstocks of 8 feet diameter each to be constructed in the masonry dam of the Lower Bhavani Project for the purpose of power generation at a later stage. The expenditure will ultimately be transferred to the power scheme, when it is taken up for execution by the Electricity Department.

Item (6).—A special staff has been sanctioned for preparing a detailed scheme for settling the population who will be displaced from the villages to be submerged by the Tungabhadra Project reservoir. The cost on account of the staff works out to Rs. 10,500 per annum.

Item (7), (i) *and* (ii).—The additional appropriation is required for early completion of the work which is in full swing. Some items of tools and plant have already been received and paid for. Certain items of machinery have been received and their cost is to be adjusted. Some more items of machinery are anticipated and are expected to be paid for. Added to this, the area is one which is badly affected by famine conditions. As such, the work is proposed to be carried out expeditiously.

All the above items except item (7) have been sanctioned only in the current year. A token sum of Rs. 100 in respect of them is included in the supplementary estimate as the expenditure is on a 'new service.' The actual expenditure in the current year will be met by reappropriation from savings within the grant.

(35) Grant XXXIV—Capital Outlay on Industrial Development.

Estimate of the amount required for further expenditure.

	RS.
Voted	100
Total of sums charged	*Nil.*

Summary.

Major head.	Minor head.	Sub-heads of appropriation.	Estimated amount of further expenditure for 1949-50. Charged.	Voted.
(1)	(2)	(3)	(4)	(5)
				RS.
82. Capital Account of other works outside the Revenue Account.	Post-War Reconstruction—A. Original Works.	Industries Department—Construction of buildings for the Polytechnics	..	100
		Total		100

Explanatory Note.

The provision for the expenditure on the construction of buildings and the purchase of tools and plant required for the various Polytechnics was made in the Budget for 1949–50 under the major head '43. Industries' included in Grant XXI. Industries. As the estimated cost of the construction of buildings for the Polytechnics exceeded Rs. 5 lakhs, it was decided in the course of the year that the expenditure might be debited to the Capital Account. A supplementary grant for a token sum of Rs 100 was accordingly obtained from the Legislature in November 1949 under Grant XXXV. Civil Works outside the Revenue Account. As the buildings on completion will be under the administrative control of the Industries Department, the expenditure on the construction of buildings as well as the expenditure on the purchase of machinery, etc., will, under the rules of accounting now in force, be finally debited to the head '82. Capital Account of other works outside the Revenue Account' which is now proposed to be included under Grant XXXIV. Capital Outlay on Industrial Development.

As the scope of this Grant as originally voted by the Legislature is thus technically enlarged, a token sum of Rs. 100 is included in the supplementary estimate under the Grant. The actual expenditure in the year will be met from savings within the Grant.

(36) Grant XXXV—Civil Works outside the Revenue Account.

Estimate of the amount required for further expenditure.

(v) Do.	Do.	B. Medical Major works—Improvements to the compound wall of the King George Hospital, Visakhapatnam.	..	100
		Total ..	..	500

Explanatory Note.

Item (i).—In 1947, the Government generally approved a comprehensive scheme for improvements and extensions to the Andhra Medical College and the King George Hospital, Visakhapatnam, with a view to increase the number of annual admissions to the M.B.B.S. course in the College from 55 to 100. This is one of the schemes designed consistent with the recommendations of the Health Survey and Development Committee and undertaken as part of the Post-war Development Programme of this Government. Some of the works comprising the scheme have already been sanctioned and are under execution. The work relating to the enlargement of the surgical and medical wards so as to increase the bed strength of the hospital to 1,000 included in the scheme has to be taken up now.

In connexion with the question of increasing the number of annual admissions to 50 in the Guntur Medical College, which had to be deferred by the Government, one of the conditions stipulated by the Andhra University was that the construction of three medical wards in the King George Hospital, Visakhapatnam, should be started immediately and completed within a period of two years so as to increase the bed strength of the hospital to 1,000. The Government agreed to this condition, admitted 50 students to the Guntur Medical College in July 1949 and have since obtained necessary plans and estimates amounting to Rs. 17·25 lakhs for the work. The construction of the three medical wards has to be completed within a period of two years as stipulated by the Andhra University not only to facilitate the training in clinical subjects of the students admitted to the Guntur Medical College but also to permit the increase in the number of admissions to the Andhra Medical College from 55 to 100. In view of the extreme urgency of the scheme, orders were issued sanctioning the execution of the work so as to enable its being taken up immediately and completed within the stipulated period of two years.

Item (ii).—In 1944, the Government sanctioned the opening of a Dental school for the admission of eight students per year for the B.D.S. degree course. The scheme could not, however, be given effect to, as a qualified Professor of Dentistry was not then available. Subsequently, the Government were able to secure the services of a qualified Professor on a contract basis for a period of three years. He took charge of his appointment in March 1949 and at the instance of the Government he submitted a scheme for the establishment of a Dental College and Dental Hospital in Madras at an estimated cost of Rs. 1·22 lakhs, recurring and Rs. 5·66 lakhs, non-recurring. His scheme contemplated the admission of 25 students per annum in the proposed Dental College and the provision therein, at a later stage, for the training of Dental Technicians and Dental Hygienists and also for a post-graduate course of two years. In view of the large financial implications of the scheme, the Government did not approve it; but they decided that it would be sufficient to establish a separate Dental Department attached to the Medical College and the General Hospital, Madras. In accordance with this decision, the Surgeon-General submitted a revised scheme which involved a recurring expenditure of Rs. 50,100 per annum and a non-recurring expenditure of Rs. 3·55 lakhs. Under this revised scheme 15 students (10 under-graduates and 5 post-graduates) are to be admitted to the B.D.S. degree course. An annual income of Rs. 22,000 by way of receipts from students admitted to the course and patients attending the hospital is expected. The net cost of the scheme, therefore, works out to Rs. 28,100, recurring and Rs. 3·55 lakhs non-recurring. The scheme includes *inter alia* construction of additional buildings so as to expand the present dental unit accommodation in the out-patient block of the Government General Hospital, Madras, at an estimated cost of rupees two lakhs.

Under the Dentists Act, 1948, persons without proper dental qualifications, who now form the bulk of the profession, are debarred from practice. It was, therefore, considered imperative to implement the scheme immediately and start the course from the next academic year so that sufficient number of persons might be trained quickly to reinforce the profession. Orders were accordingly issued approving the scheme.

As the expenditure on items (i) and (ii) is on 'new services', a token sum of Rs. 100 for each is included in the supplementary estimate.

Item (iii).—As it was found difficult to accommodate the basic training section in the Teachers' College, Saidapet, in the existing buildings, the Government have sanctioned an expenditure of Rs. 49,952 on the construction of additional buildings. The expenditure on the work is to be

met from the lump-sum provision of Rs. 2 lakhs made in the current year's Budget for the construction of buildings for basic schools to be maintained by the Government. As the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate, the actual expenditure in the current year having been met from savings within the Grant.

Item (iv).—As the Director of Public Instruction anticipated savings in the provision made for basic education in the current year's Budget, he submitted proposals for the construction of two more buildings for Government basic training schools in the current year at a cost of Rs. 1·55 lakhs each, so as to utilize the savings.

The proposals were approved and orders have been issued sanctioning the construction of the buildings. It will be possible to meet the entire expenditure involved from the existing budget appropriation. But, as the expenditure is on a 'new service', a token sum of Rs. 100 is included in the supplementary estimate.

Item (v):—In 1947, the Government approved an estimate of Rs. 20,000 for constructing a compound wall of 6 feet height to fill in a gap of about 983 feet in the existing compound wall of the King George Hospital, Visakhapatnam and for raising the existing compound wall to that height. Subsequently the Surgeon-General forwarded for the approval of the Government a revised estimate of Rs. 31,000 for the work, consequent on certain proposed realignment and the adoption of the current schedule of rates. Orders were issued sanctioning the revised estimate and treating the scheme as part of the scheme 'Additions and alterations to the King George Hospital, Visakhapatnam' for purposes of a grant from the Government of India. In view of the large increase in the cost of the scheme, the expenditure has been treated as on a 'new service'. A token sum of Rs. 100 is therefore included in the supplementary estimate.

(37) Grant XXXVI—Capital Outlay on Electricity Schemes.

Estimate of the amount required for further expenditure.

	RS.
Voted	18,65,500

		Total ..		18,65,500

Explanatory Note.

Item (1).—In November 1949, the Government approved the estimate of Rs. 1,11,600 for carrying out improvements and special repairs to 24 Lower Grade Clerks' quarters, six Higher Grade Mechanics' quarters and six Higher Grade Clerks' quarters at Mettur dam. The expenditure that is likely to be incurred during the current year is Rs. 10,000.

Item (ii)—*Revenue Advances—Cost of survey marks—A. Collectors and B. Survey Officers.*—The budget provision under ' A. Collectors ' is Rs. 1·20 lakhs, and that under ' B. Survey Officers ' is Rs. 2,500. Based on the actual disbursements during the first nine months, an additional expenditure of Rs. 80,000 under ' A. Collectors ' and Rs. 36,500 under ' B. Survey Officers ' is anticipated in the current year. A sum of Rs. 400 has been provided by reappropriation under ' B. Survey Officers.' Supplementary appropriations of Rs. 80,000 under ' A. Collectors ' and Rs. 36,100 under ' B. Survey Officers ' are therefore necessary.

Item (iii)—*Other Advances* —The budget appropriation is Rs. 9,41,000. The reasons for the supplementary appropriation of Rs. 3,28,400 required are briefly as follows :—

(1) *Advances to milk supply societies and unions.*—A provision of Rs. 9·06 lakhs was made under this head in the Budget for 1949–50. The Government have since fixed Rs. 10 lakhs as the maximum limit in any year for the grant of interest-free loans to milk supply societies and unions for the purchase of milch animals and permitted the Registrar of Co-operative Societies to exceed the budget appropriation, subject to the above limit. A sum of Rs. 8·70 lakhs was disbursed to the end of December 1949 and the Registrar of Co-operative Societies has stated that the maximum amount of Rs. 10 lakhs fixed by the Government will be disbursed before the 31st March 1950. An additional appropriation of Rs. 94,000 is therefore necessary.

(2) *Advances to Weavers' Co-operative Societies towards the share capital of members.*—In November 1949, the Government sanctioned a scheme to relieve distress among the handloom weavers through the agency of weavers' co-operative societies. According to the scheme, necessary amounts will be placed at the disposal of the Registrar of Co-operative Societies for payment to the Primary Weavers' Co-operative Societies to enable them to give interest-free advances to members joining the societies towards share capital. The scheme has so far been introduced in the districts of Cuddapah, Bellary, Chittoor, North Acrtot, Malabar, Coimbatore (Erode), Kurnool, Guntur, West Godavari and Chingleput. Proposals are under consideration for extension of the scheme to certain other districts also. The Registrar of Co-operative Societies has estimated that a total sum of Rs. 50,000 will be required during the current year.

(3) *Advances to Government servants for subscriptions to Gandhi National Memorial Fund.*—In January 1949, the Government sanctioned the grant, of advances to Government servants in order to enable them to take lump-sum contribution to the Gandhi National Memorial Fund. As orders were issued late in the year, no provision was made in the Budget for 1949–50 for this purpose. Based on the actual disbursements during the year, an additional appropriation of Rs. 31,100 is required.

(4) *Other items.*—Advances sanctioned for various purposes are shown under this head, such as advances to Government servants for the purchase of mosquito nets, advances to the Irrigation Cess Fund, advances for the execution of Labour well works, advances for the reconstruction of houses damaged by cyclone, advances for Intensive Khadi Scheme, advances to jaggery manufacturing societies and advances for other special purposes which may be authorized by the Government from time to time, to meet particular needs. The additional appropriation required in respect of all advances on account of these miscellaneous items is Rs. 1,53,300.

The total supplementary appropriation required under ' Other Advances ' is Rs. 3,28,400.

Item (iv).—In June 1949, the Government sanctioned an interest-free loan of Rs. 1,500 to the Superintendent, Government Press, for the purchase of the assets of the Government Press Restaurant under liquidation for running a canteen for the workers in the Press. The loan is repayable in five instalments of Rs. 300 each. As a loan of this kind had not been sanctioned in the past the expenditure is treated as on a ' new service.' A token sum of Rs. 100 is therefore included in the supplementary estimate.

(41) Grant XL—Loans and Advances Bearing Interest.

Estimate of the amount required for further expenditure.

		Total ..	..	67,49,300

Explanatory Note.

Item (i).—The additional appropriation is required to cover the deduction made in the Budget for probable savings. The savings have not been realized.

Item (ii)—The additional appropriation is to meet the loan of Rs. 15,000 sanctioned to the Kovvur Panchayat Board towards the cost of acquisition of sites for markets and the loan of Rs. 80,000 proposed to be sanctioned to the Vaniamcolum Panchayat Board (Malabar district) for acquisition of a private market and building and to cover the deduction made in the budget for probable savings (Rs. 3,000). The anticipated saving has not been realized.

Item (iii).—The additional appropriation is required to cover the deduction made in the budget for probable savings (Rs. 32,500) as the saving has not materialized, and to meet the loans sanctioned or proposed to be sanctioned in the current year to certain municipal councils for improvements of roads by way of providing dustless surface and cement concrete surface which were considered essential and urgent to be carried out during the current year and to Srivilliputtur Municipal Council for the construction of three bridges.

Item (iv).—The additional appropriation is consequent on the sanctioning of large amounts of advances to certain municipal councils and to the West Godavari and Chittoor District Boards and an advance of Rs. 1,000 made to the Monegar and Rajah of Venkatagiri Choultries.

Item (v).—In March 1949, the Government approved the grant of cheap loans to private electric licensees to develop rural loads as the money market was reported to be generally depressed and the licensees found it very difficult to raise further capital required for construction work, etc. The decision was taken with a view to expediting connections for agricultural purposes in particular. The scheme was treated as a ' new service ' as similar loans to private electric licensees were not given in the past. A loan of Rs. 8,26,700 repayable in fifteen equal annual instalments of Rs. 70,508 inclusive of interest was sanctioned to the South Madras Electric Supply Corporation, Ltd., Tiruchirappalli and it was disbursed in April 1949. It has since been decided to grant a further loan of Rs. 3,11,000 to the same licensee. The South Arcot Electricity Distribution Co., Ltd., has also been granted a loan of Rs. 7 lakhs repayable in fifteen equal annual instalments, the first instalment becoming payable on 1st April 1953. The supplementary estimate provides for these three loans.

Item (vi).—During 1949 the Government sanctioned three commodity loans aggregating Rs. 48,00,000 to Messrs. The Fertilisers and Chemicals, Travancore, Ltd., to be adjusted towards the cost of ammonium sulphate and super phosphate supplied to the Government.

As only a sum of Rs. 15,95,700 is available for reappropriation to this head from the savings under the grant, the balance is included in the supplementary estimate.

Item (vii).—In July 1949, the Government sanctioned a scheme for the rehabilitation of the 3,300 displaced persons from Pakistan (about 695 families) in this State. The scheme provides for two kinds of loans to the displaced persons :—

(1) business loans, i.e., loans up to Rs. 3,000 for each family for starting the particular trade selected for the family in the light of its previous experience in Pakistan ;

(2) house loans, i.e., loan for constructing a house, the amount of loan being fixed with reference to the estimated cost at Rs. 34,800 for a block of 12 houses including a well for the block in the case of brick-in-cement-mortar houses, with asbestos sheets roofing and Rs. 7,000 for 12

houses plus Rs. 2,000 for a well in the case of houses with mud walls and thatched roofing. The business loans are recoverable with interest at 3 per cent per annum in equal monthly instalments as specified below, there being no recoveries during the first six months after the disbursement of the loan.

Amount of the loan.	*Number of instalments.*
Below Rs. 1,000	36
Rs. 1,000 to 1,500	48
Above Rs. 1,500	60

The house loan is recoverable with interest at the same rate in 120 equal monthly instalments commencing from the 13th month after the disbursement of the loan.

In November 1949, the Government sanctioned the construction of 75 bunks in Madras City for allotment to the displaced persons allotted to Madras City for rehabilitation. Of these 75, only 40 bunks have been constructed at a cost not exceeding Rs. 300 per bunk. The cost of the bunk allotted to each displaced person will be treated as a shop loan advanced to him and it will be recovered in equal monthly instalments with interest at 3 per cent per annum in five years, the recovery commencing from the 10th month after the allotment of the bunk.

The loans will be advanced by the Madras Government but the Government of India have undertaken to bear 50 per cent of the *bona fide* losses incurred under the scheme. The Relief Camps had, as desired by the Government of India, to be closed down by 31st October 1949 and they have actually been closed down with effect from 1st November 1949. As no loan of this kind was granted in the past, the proposal is treated as a 'new service'. As no savings are available under the grant, the entire amount required is included in the supplementary estimate.

APPENDIX.
