the works and claim before the end of 1950-51, the subsidy admissible towards the expenditure actually incurred on the execution of the work till then. The balance may be claimed in 1951-52 after completing the work. If on any account the local bodies concerned do not claim the amount provided for it will be open to the Director of Public Instruction to recommend the utilisation of the savings for payments to other schemes for which the provision made is found insufficient.

4. Necessary provision has been made for the payment of subsidies to local bodies towards the construction of buildings specified above under "37.h.Education - Secondary - Grants to Local bodies for Secondary Education - A.Ordinary Areas -2 Buildings" in the Estimates of Expenditure for 1950-51.

ANNEXURE NO.13.

Explanatory Remarks.

37 (h) Education--Sedondary--Grants to Local Bodies for Secondary Education--A.Ordinary areas--(h).A.2--Buildings--Voted.

p 3 infra

In regard to item No.4, the estimates have been revised and the Municipal Council has applied for the enhancement of the subsidy with reference to the cost of the revised estimates.

p 4 infra

Item 17 and 23:- The estimate and plan have not yet been forwarded to Director for approval. In regard to item 18, the plan and estimate which were returned to Special Officer for revision and retransmission have not yet been received back from him.

p 4 infra

In regard to items 22, 27, 28 and 29 the Local Bodies have not yet furnished their replies regarding the information in regard to the amounts of subsidy that can be claimed by them during the current year.

In regard to item 25 the Commissioner has reported that no, amount can be claimed during the current year.

Items 30 to 52 are new schemes. Government have laid down in their Memo.No.27236-B1/47-17 Education dated 15-6-48, the principle that these grants should be distributed on district war basis--the Districts which have not hitherto been in receipt of building grants being given preference to districts for which building grants have been given in the past. In Director's reply Rc.No.1421-G2/48 dated 17-9-1948 the names of Districts which were served previously after 9-12-41 were reported to Government. Subsequently, schemes were sanctioned by Government in their orders Nos.2613 Edn. Dated 19-10-48: 567 Edn. Dated 1-3-49 and 1134.Edn. Dated 12-4-49. As in the case of last year all the schemes are submitted now to Government for their consideration and selection. In regard to items 44, 45 and 46 Government have stated that the question of sanctioning subsidies to these schemes in the current year is under their consideration. As regards itmes 31, 42, 43 the management applied for grant in respect of these schemes last year also.

(W)
(N)

p 5 infra

Though much progress has not been made so far in respect of the existing schemes owing to some difficulties or other, it is evident that the local bodies are very enthusiastic and eager to push through the schemes.

The provision that may be made in Part II of the Budget Estimate 1950-51 under this head may therefore kindly be decided with reference to the schemes that they would like to select.

Part II scheme for 1950-51

(Subject- Subsidies to local bodies for the construction of buildings for secondary schools)

Summary

Head of account	Item of expenditure	Non recurring	
		Ultimate cost.	Cost in 1950-51.
		Rs	Rs
37 h. Education -Secondary Grants to local bodies for secondary education -A Ordinary areas -2 Buildings - Voted.	Subsidies to district boards and municipal councils for the construction of buildings for secondary schools	1,00,000	70,000

Subsidies are paid to local bodies towards onehalf of the cost of construction of buildings for secondary schools under their control subject to a maximum of Rs 35,000 for each scheme. The distinction hitherto made between schools opened prior to 1930 and after has been removed and all schools are now eligible to aid subject to the restriction that subsidies for the construction of buildings for secondary schools for boys should be made only when a special case is made out that a subsidy is essential i.e. when the district board or the municipal council concerned is unable to meet the entire cost of construction of buildings from its own funds or with the aid of donations if any collected from the public.

2. According to the procedure prescribed for the preparation of budget estimates under this head, provision is made in Part I for schemes in respect of which a portion of the subsidy due has been paid or is likely to be paid before the end of the year preceding the budget year and for other schemes in Part II. The total estimated outstanding liabilities in respect of part paid schemes on 1st April 1950 is estimated at Rs 14,350 0. Provision has been made ~~in Rs~~ for these schemes in Part I estimate.

3.

3. The following are the new schemes for which subsidies are required in 1950-51.

Name of the Dt Bd or Municipal Council	Description of scheme	~~Est. Cost~~ Estimated Cost	Max. subsidy admissible	Amount of subsidy proposed to be provided for in the Budget for 1950-51.

37. h—Education—Secondary Grants to local bodies for secondary education—A. Ordinary areas—2. Buildings—Voted.	Subsidies to district boards and municipal councils for the construction of buildings for secondary schools.	1,01,000	70,000

Subsidies are paid to local bodies towards one-half of the cost of construction of buildings for secondary schools under their control subject to a maximum of Rs. 35,000 for each scheme. The distinction hitherto made between schools opened prior to 1930 and after has been removed and all schools are now eligible to aid subject to the restriction that subsidies for the construction of buildings for secondary schools for boys should be made only when a special case is made out that a subsidy is essential, i.e., when the district board or the municipal council concerned is unable to meet the entire cost of construction of buildings from its own funds or with the aid of donations, if any, collected from the public.

2. According to the procedure prescribed for the preparation of budget estimates under this head, provision is made in Part I for schemes in respect of which a portion of the subsidy due has been paid or is likely to be paid before the end of the year preceding the budget year and for other schemes in Part II. The total estimated outstanding liabilities in respect of part-paid schemes on 1st April 1950 is estimated at Rs. 1,43,500. Provision has been made for these schemes in Part I estimate.

3. The following ~~are the new~~ schemes for which subsidies are required in 1950-51:—

4. Only essential and not extravagant schemes have been selected for aid having due regard to the policy of Government to defer all costly building schemes till the cost of building materials and labour comes down to normal. As only a portion of the building schemes will be completed in the first year of execution and subsidy is payable on the post-execution system, it is considered sufficient to provide for part-payment of the maximum subsidy admissible in respect of schemes numberd (1), (4) and (5).

5. This department recommends that a subsidy of Rs. 70,000 may be provided in the next year's budget, as shown in the summary at the top of this note.

The Local Bodies concerned should take steps to execute the works and claim before the end of ~~1949-50~~ 1950-51, the subsidy admissible towards the expenditure actually incurred on the execution of the work till then. The balance may be claimed in 1951-52 after completing the work. Subsidies - Buildings - Secondary schools under local bodies Part II scheme for 1950-51

Subsidies are now paid to local bodies towards ~~towards~~ one half of the cost of construction of buildings for secondary schools under their control subject to a maximum of Rs 35,000 for each scheme. The distinction made between schools opened prior to 1930 and after has been removed and all schools are now eligible to aid subject to the restriction that subsidies for the construction of buildings for secondary schools for boys should be made only when a special case is made out that a grant is essential.* The D.P.I. has recommended that this condition should be relaxed this year, but as it is unlikely that it will be accepted in the present financial stringency, the financial postion of the local bodies concerned has been examined inrespect of applications received for the grant of subsidies for new schemes in 1950-51 and subsidies have been refused whereever it ~~has been~~ found that the local bodies concerned can finance the schemes from their own funds.

Para 3 of the Part note at (N)

2. Budget procedure requires that provision should be made in Part I for schemes for which a portion of the subsidy has already been paid or is likely to be paid before the end of the year preceding the budget year and in Part II for other schemes. According to the Director's estimate there will be 16 part paid schemes for which the amount of subsidy that will be outstanding at the end of this year will be Rs 1,43,500. Provision will have to be made for these schemes in Part I estimate separately.

3. Out of the schemes for which subsidies were sanctioned in the beginning of this year, the D.P.I. has not suggested ~~xxxx~~ any provision for payment in the current year inrespect of schemes Nos 17,18,22 23, 25, 27, and 28. Only inrespect of scheme No 25,* the Commissioner has definitely reported that no subsidy will be claimed in the current year and he

he has been informed in Memo No 71895 B1/49-1 Edn dated 24-9-49 that the application for subsidy and loan cannot be considered in connection with the estimates for 1950-51 as the approval of the D.P.I. has not yet been obtained to the revised estimates. The estimates inrespect of schemes nos 17,18 and 23 have not yet been finally approved by the D.P.I. and no report has been received from the local bodies concerned inregard to the progress made in the execution of the schemes (nos 22, 27, 28 & 29). As it is not possible to say now whether these schemes will be part paid schemes or not at the end of this year, it seems unnecessary to treat them as Part II schemes. Necessary provision may be made in Part I assuming that they will be commenced in the current year. Necessary instructions may be issued to the local bodies to take up the work and claim a portion of the ~~grant in the~~ subsidy ~~in~~ before the close of the current year. The position is the same inrespect of schemes nos 44, 45 and 46 for which orders sanctioning subsidies in the current year are under issue.

The question whether schemes Nos 42,43, 47,48,49, 51 and 52 should go forward as Part II schemes or not has not yet been ~~finally~~ finally decided. Finance have suggested that most of them should be deferred and the connected files have subd separately for taking orders ~~will be taken~~ in circulation. If it is decided to admit any of them to aid, necessary provision will be suggested for inclusion in the Part II estimate.

The proposal in this file is to treat as a Part II scheme for 1950-51 the question of giving subsidies to the undermentioned local bodies for the construction of buildings for secondary schools specified against them: —

Name of the Dt Bd or Municipal Council	Description of scheme	Maximum subsidy admissible.	Amount proposed to be provided for in 1950-51.
		Rs	Rs
1. Municipal Council, Chicacole	Construction of a building for the high school	35,000	30,000
2. Municipal Council, ~~Tiruppur~~ Tirupattur	Construction of a shed with Mangalore tiled roofing	4,650	~~4,6.50~~ 4650
3. Municipal Council, Cannanore	Construction of an additional hall in the Municipal high school	5,750	5,750
4. District Board, East Godavari ~~Board High school Kapileswarapuram~~	Board Middle school Kapileswarapuram construction of a building	19,850	9,850
5. District Board, Chingleput	Board High School Poonamalle -Construction of a music pavilion	~~7.00~~ 700	700
		65,950	50,950

p 2 ante

The Finance Department have agreed to the above proposal. As orders have already been taken in circulation (including Hon. Finance) on the application of the respective local bodies for considering the above schemes as Part II for 1950-51, it seems unnecessary to circulate again. H.M. (Edn and Law) may however see with reference to the point raised in the ~~lined~~ top file. — (dislinked)
