EXPLANATORY NOTE.

The Government were paying fixed lump-sum subsidies towards the cost of maintenance of secondary schools opened by local bodies before 1930. This system was abolished as from 1st January 1947 and the system of payment of teaching grants to all recognized schools under local bodies on the basis of ^{one} half of the approved net cost of maintenance of the institutions in the preceding financial year, was introduced instead. In the case of schools newly opened in taluks not served even by a high school, teaching grants are made as a special case on the basis of the entire net cost of maintenance of the schools for a period of five years from the opening of the schools subject to a maximum of Rs. 3,300 per annum for a middle School and of Rs. 4,000 per annum for a high school.

2. The procedure adopted for the provision of full ^{Secondary schools} for the payment of teaching grants to ~~schools newly recognized~~ ^{newly opened by local bodies and recognized} by the D.P.I. during a year is to consider the proposal in connection with the budget for the ensuing year, as the teaching grant for the year in which the schools ^{are} opened, is normally payable only in the next year. Following that procedure, the D.P.I. has recommended that provision may be made in the next year's budget for payment of teaching grants to 83 secondary schools under local bodies newly recognized by him

during the current year 82 under the system of ordinary aid and one under the system of special aid. The provision suggested for inclusion in the next year's budget is Rs. 1,93,000 against Rs. 1,73,000 made in the current year's budget. This is due to the increase in the number of schools to be newly admitted to aid from sixty in 1949-50 to 83 in 1950-51.

3 This Dept. accepts the Director's recommendation and recommends that a provision of Rs. 1,93,000 may be made in the next year's budget as shown in the summary at the top.

Explanatory Note.

The Government were paying fixed lump-sum subsidies towards the cost of maintenance of secondary schools opened by local bodies before 1930. This system was abolished as from 1st January 1947 and the system of payment of teaching grants to all recognized schools under local bodies on the basis of one-half of the approved net cost of maintenance of the institutions in the preceding financial year, approved net cost of maintenance of the institutions in the preceding financial year, was introduced instead. In the case of schools newly opened in taluks not served even by a high school, teaching grants are made as a special case on the basis of the entire net cost of maintenance of the schools for a period of five years from the opening of the schools subject to a maximum of Rs. 3,300 per annum for a middle school and of Rs. 4,000 per annum for a high school.

2. The procedure adopted for the provision of funds for the payment of teaching grants to secondary schools newly opened by local bodies and recognized by the Director of Public Instruction during a year is to consider the proposal in connection with the budget for the ensuing year, as the teaching grant for the year in which the schools are opened is normally payable only in the next year. Following that procedure, the Director of Public Instruction has recommended that provision may be made in the next year's budget for payment of teaching grants to 83 secondary schools under local bodies newly recognized by him during the current year, 82 under the system of ordinary aid and one under the system of special aid, viz, the Board Middle School, Darsi (Nellore district). The provision suggested for inclusion in the next year's budget is Rs. 1,93,000 as against Rs. 1,73,000 made in the current year's budget. The increase in the provision proposed for next year is due to the increase in the number of schools to be newly admitted to aid from 60 in 1949-50 to 83 in 1950-51.

3. This department accepts the Director's recommendation and recommends that a provision of Rs. 1,93,000 may be made in the next year's budget as shown in the summary at the top.

18425/41 Grants - Teaching - Secondary schools under local bodies-
Part II scheme for 1950-51.

Under the system of payment of teaching grants to secondary schools under local bodies introduced from 1-1-47 grants are ~~payable~~ payable to all recognised secondary schools on the basis of onehalf of the approved net cost of maintenance of the institutions during the preceding financial year. In the case of schools newly opened in taluks not served even by a high school, teaching grants are made as a special case on the basis of the entire net cost of maintenance of the school, for a period of five years from the opening of the school, subject to a maximum of Rs 3,300 per annum for a middle school and of Rs 4,000 per annum for a high school. The procedure adopted for provision of funds for payment of teaching grants to schools newly recognised by the Director ^{is to consider the proposal} during a year in connection with the budget for the ensuing year as a new scheme of expenditure (Part II) as the teaching grant for the year in which the schools are newly opened are normally payable only in the next year.

2. The D.P.I. recommends that provision may be made in Part II of the B.E. for 1949-50 for payment of teaching grants amounting to Rs 1.93 lakhs (roundly) for 83 new schools - (82 under the system of ordinary aid and one under the system of special aid) The provision recommended for the schools under ordinary aid is Rs 1.9 lakhs against 1.73 in the previous year. The increase is due to the increase in the number of schools newly opened (83 in 1950-51) as against 60 in 1949-50.

3. With reference to the recommendation of the Retrenchment and Reorganisation Committee the D.P.I. was consulted as to whether any modification ^{could} be made in the system of special aid. He has recommended that the number of years for which teaching grants are to be made on the basis of the full net cost may be reduced from five to three years, but ~~not~~

he considers that the reduction in the basis of assessment of teaching grant from full to three-fourth net cost should not be made simultaneously. This is under separate consideration.

Any decision arrived at will be applied to the payment of teaching grant to the Board Middle school at Darsi which has been recommended for special aid. *File sent to Fin*

The Director's proposals may be put forward as a Part II scheme for 1950-51. The remarks of the Finance Department may be invited u.o. prior to circulation. It may be mentioned that this is a recurring Part II scheme.
