Explanatory note

Basic lg. schools under private management,
which have been recognised and admitted for
aid, are eligible for a grant from provincial
funds, towards the expenditure, incurred on the
purchase of equipment, required for the schools.

The D. P. S. anticipates, that a sum of Rs. 2,500

Part II Scheme - 1950-51 - Aided Basic Training Schools - Equipment grant.

Please see the communication from the D.P.I. on pp.1-3 ^{ante} regarding the provision of funds for payment of equipment grant to Basic Training Schools under private managements during 1950-51. The Basic Training Schools (run by private agencies) mentioned on p.3 ^{ante} have already been recognised and admitted for aid by the D.P.I. The Director anticipates that a sum of Rs.2,500/- will become payable to two training schools during 1950-51 and recommends that provision for this expenditure may be included in Part II Estimates for 1950-51. It is not clear why this expenditure should not be included in part I estimates for 1950-51, the institutions having been admitted for aid already. It is for consideration whether this Department may suggest that provision for the above expenditure may be included in the Part I Estimates.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system has a solution for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied.
