Sub: Basic Education - Construction of buildings for
Basic Schools - provision of funds for 1950-51 -
Part II schemes.

The Government in their order No. Ms. 1427 Education dated 6-5-1949 directed that subsidies and grants equivalent to one-half of the cost of the buildings be paid to local bodies and private agencies for buildings for Basic schools subject to a maximum of Rs. 4000/- for Junior Basic Schools and Rs. 7000/- for Senior Basic schools constructed during 1949-50. This has since been raised to Rs 9000/- for Junior Basic Schools and Rs. 15,000/- for Senior Basic schools. A provision of Rs. ten lakhs has been made in the Budget Estimate for 1949-50 for this purpose.

Only very few applications for grant or subsidy on this account have been received this year; the reason being that managements had not provided funds for this pupose in their budgets for 1949-50. Now that they know that Government will be giving them subsidy or grant for the construction of buildings for Basic schools, they will most probably be setting apart some provision for the construction of buildings for Basic Schools during the next year. One of the main requirements of a Basic school is adequate and satisfactory accommodation. This problem can be tackled gradually if provision is made every year for the payment of grant or subsidy for the construction of buildings for Basic schools, so that the public can take initiative progressively in the matter of providing the accommodation necessary for Basic schools. Hence I recommend that Government may be pleased to provide to a sum of Rs. ten lakhs (Rs. five lakhs for local bodies and Rs five lakhs for aided managements) for purposes of subsidy and grant for the construction of buildings for Basic schools during 1950-51.

I am including the necessary provision under Part II schemes of the Budget Estimate for 1950-51 and request that my proposal may be approved by Government.

EXPLANATORY NOTE

The policy of Govt. is to convert all the ele. schools into Basic schools. Schools under the Basic System cannot function efficiently without suitable buildings of their own. A provision of Rs.10/- lakhs was made in the current year's budget for the payment of subsidies and grants to local bodies and private agencies for the construction of buildings for Basic schools. It was originally ordered that subsidies and grants should be limited to one-half of the cost subject to the maximum of Rs.4,000/- or 7,000/- according as the institution is a junior or a senior basic school.

2. It was brought to the notice of Govt. that with a view to induce managements of schools to provide build-ings for Basic schools the system of grant should be revised. Orders have been issued raising the grants to 3/4 of the cost of buildings subject to a maximum of Rs.9,000 or Rs.15,000/- as the institution is a junior or

The D.P.I. has been asked to take prompt action for the utilisation of the allotment made in the current year's provision.

3. The D.P.I. suggests that a similar provision (Rs.10,00,000) should be included in the Budget for 1950-51 for the payment of subsidies and grants to local bodies and private agencies for the construction of buildings for Basic schools. The subsidies and grants will be distributed with reference to the revised maximum referred to in para 2 above. In view of the fact that the Govt. are anxious to introduce the scheme of Basic Education as quickly as possible and Basic schools cannot function efficiently without suitable buildings, this Dept. may suggest that the provision asked for by the D.P.I. may be included in the Budget for 1950-51.

4. The Finance department has stated as follows :-
"The Govt. of India have informed this Govt. that no grant at all for P.W.R. schemes will be given in 1950-51. The Finance Dept. therefore suggests that no provision need be made for this scheme in 1950-51."
