Dear Sir,

For about a period of seven months in 1948, our institution, the Mrs. A.V.N. College, had the good fortune of having you as the Chairman of her Committee of Management. It is on her behalf that I am writing this letter for your kind and sympathetic consideration.

When the Director of Public Instruction visited us last year, I showed him round and fully explained to him the needs of the institution as well as our schemes of expansion. And this year, we have made our applications for building and equipment grants, and I may add in this connection that this is the first application for a building grant on behalf of the College Department, ever since its inception more than 70 years age.

I expect the application would come up to you very shortly with the Director's remarks, and I request that you may be pleased to accord the necessary sanctioning orders.

With respectful regards,

I remain,
Dear Sir,
Yours sincerely,
S. Parthasarathi

Dear Sir,

When we met at Waltair, I represented to you the circumstances relating to our institution's application for certain grants-in-aid.

76023

The Director of Public Instruction visited us last year, and I showed him round and fully explained our plans of expansion and the extent to which we should rely on Government aid for implementing them. He was convinced of both the need, as well as the desirability, of our schemes, and promised his full support.

We started the new B.Sc. and B.Com. courses last July and we have now applied for building and equipment grants. I expect them to have been submitted to the Government by now, with the remarks of the Director.

I would now renew my request that you may be pleased to sanction in full, the grants applied for. These grants represent the minimum requirements of the institution in respect of both accommodation and equipment.

In this connection, I have to state that this is the first time an application for a building grant is made for the College Department of our institution. Further, you are no doubt aware, Sir, at what enormous rate the strengths have been growing of late in the colleges, and how there has arisen a consequent demand for expansion on an unprecedented scale. After remaining a Second Grade institution for over 70 years with an average strength of about a couple of hundreds in the College Department, our College was obliged to start B.A. courses five years ago, at the instance of the Old Boys and the public, and B.Sc. and B.Com. courses this year; while the strength of the college department has rapidly increased during this period to about 800, ie.,four times the normal strength of the past.

We are hard put to it both for accommodation and equipment, and are now working in three sessions from morning 7 to evening 5. And unless buildings for class rooms and laboratories

are ready

are ready by July next, we shall not be able to cope with the strain on our present limited laboratory, accommodation and resources. So I request that you may treat our applications sympathetically and sanction the full half-cost grants.

I request also for early orders, so that we may proceed with our building and equipment programmes.

With best regards,

I remain,
Dear Sir,
Yours sincerely,
S. Parthasarathi

Please see the two letters from the Principal, Mrs. A.V.N. College, Vizagapatam, on pp 1 and 3-5 ante. He states that he has subd. applications for equipment and building grants for the college and requests that they may be sanctioned. The application for a grant for equipment is separately under consideration. The building grant application, when received by the Govt. with the DPI's remarks thereon, may be considered on merits. ~~No separate action is called for on this~~ ~~May be lodged~~. With reference to the Government Memo. referred to above, I have the honour to state that in the circumstances stated by the Correspondent in his letter Rc.No.1-49-50 dated 29.6.49, and in view of the fact that the 4 marginally noted items of expenditure have been disallowed under equipment they may be admitted to aid under building grant and a half grant thereon sanctioned. The estimated ~~list~~ cost of the 4 items works out to Rs-24,000 and a ½ grant of Rs. 12,000/- may be included in the Part II B.E. of 1950-51 under 37(C) education-University. Grants to non Government Arts Colleges (1) excluding Post War Reconstruction c (1) B.Building voted.

Grant will however be authorised for payment after the schemes are examined by the Principal, College of Engineering and the Joint Consulting Architect to the Government.

In this connection, I have to state that the management have ~~kk~~ already submitted an application for building grant for the construction of science blocks at an estimated cost of Rs.81,000/-. The scheme is being submitted to Government in the current quarterly list to be submitted during this month.

College, Visakhapatnam, (2) Islamiah College, Vaniyambadi, and (3) the Madura College, Mathurai.	30,000	30,000

Explanatory Note.

Schemes relating to the provision of gas tanks, etc., in the laboratories of the Colleges are treated as building schemes. A description of the three schemes to be considered here is given below :—

Item (1)—*Mrs. A.V.N College, Visakhapatnam.—Provision of an additional gas tank, gas and water fittings, electric motor pump to the overhead tank and remodelling the chemistry laboratory.*—The total estimated cost of the scheme to the College is Rs. 24,000. In order to cope with the strain on the limited laboratory in the College, it is considered urgent and necessary to provide for these fittings. This Department suggested that a half-grant of Rs. 12,000 might be sanctioned to the College for this scheme in 1950-51, necessary provision being made under Part II of the Estimates for 1950-51. Finance objected to the proposal on grounds of financial stringency. It has been ordered in circulation that a half-grant of Rs. 12,000 may be sanctioned for this purpose in 1950-51, the proposal being considered as a Part II Scheme for 1950-51.

Item (2)—*Islamiah College, Vaniyambadi—Replacement of the existing gas plant and installation of an electric water pump.*—The estimated expenditure on this scheme is Rs. 5,000. In view of the urgency, this department suggested the payment of a half-grant of Rs. 2.500 to the College for this purpose in 1950-51, the proposal being considered as a Part II Scheme for 1950-51. Finance agree with this Department's suggestion. It has also been ordered in circulation that the proposal may be treated as a Part II Scheme for 1950-51.

Item (3)—*The Madura College, Mathurai—Provision of a gas plant in the laboratory.*—The estimated cost of this scheme is about Rs. 30,979. This Department suggested a half-grant of Rs. 15,490 for this scheme for payment in 1950-51, the proposal being treated as a Part II Scheme for 1950-51. But Finance objected to the proposal on grounds of financial stringency. This Department pressed for the scheme as being urgent and necessary in view of the new Science courses opened in the College. It has been ordered in circulation that a half-grant of Rs. 15,490 may be sanctioned for the Madura College for its gas tank scheme in 1950-51, the proposal being treated as a Part II Scheme for 1950-51.

This Department accordingly suggests that a provision of Rs. 30,000 may be made in the Budget Estimate for 1950-51 under Part II for grants for the above three items, as shown in the summary at the top

Explanatory Note.

Schemes relating to the provision of gas tanks, etc., in the laboratories of the Colleges are treated as building schemes. A description of the three schemes to be considered here is given below :—

Item (1)—*Mrs. A.V.N College, Visakhapatnam.—Provision of an additional gas tank, gas and water fittings, electric motor pump to the overhead tank and remodelling the chemistry laboratory.*—The total estimated cost of the scheme to the College is Rs. 24,000. In order to cope with the strain on the limited laboratory in the College, it is considered urgent and necessary to provide for these fittings. This Department suggested that a half-grant of Rs. 12,000 might be sanctioned to the College for this scheme in 1950-51, necessary provision being made under Part II of the Estimates for 1950-51. Finance objected to the proposal on grounds of financial stringency. It has been ordered in circulation that a half-grant of Rs. 12,000 may be sanctioned for this purpose in 1950-51, the proposal being considered as a Part II Scheme for 1950-51.

Item (2)—*Islamiah College, Vaniyambadi—Replacement of the existing gas plant and installation of an electric water pump.*—The estimated expenditure on this scheme is Rs. 5,000. In view of the urgency, this department suggested the payment of a half-grant of Rs. 2,500 to the College for this purpose in 1950-51, the proposal being considered as a Part II Scheme for 1950-51. Finance agree with this Department's suggestion. It has also been ordered in circulation that the proposal may be treated as a Part II Scheme for 1950-51.

Item (3)—*The Madura College, Mathurai—Provision of a gas plant in the laboratory.*—The estimated cost of this scheme is about Rs. 30,979. This Department suggested a half-grant of Rs. 15,490 for this scheme for payment in 1950-51, the proposal being treated as a Part II Scheme for 1950-51. But Finance objected to the proposal on grounds of financial stringency. This Department pressed for the scheme as being urgent and necessary in view of the new Science courses opened in the College. It has been ordered in circulation that a half-grant of Rs. 15,490 may be sanctioned for the Madura College for its gas tank scheme in 1950-51, the proposal being treated as a Part II Scheme for 1950-51.

This Department accordingly suggests that a provision of Rs. 30,000 may be made in the Budget Estimate for 1950-51 under Part II for grants for the above three items, as shown in the summary at the top

PERSONAL.

Dear Friend,

You will remember that when you were here last, I requested you to look into the matter of our application for half-grant towards the erection of a gas plant installation in the College. You were kind enough to make a note of the point, but I have not heard anything from the Government so far about it. As the budget has been presented, I should be very grateful if you will direct that orders on the point be issued as soon as possible.

I should like to draw your attention to one aspect of our application. It is that, should it not be possible for any reason for the Government to approve of our application during the coming financial year, they will be good enough to give us the approval now, but include it for the purpose of grant in the following year. I trust you will appreciate how modest our request is!

With kind regards,

Yours sincerely,

Mahadevan

The items of work for which a half grant (amounting to Rs 12,000) is proposed to be sanctioned after including necessary provision in the Part II budget for next year are detailed at X on page 1 above. In view of the present financial stringency, only those schemes which are considered to be really and immediately essential for the proper running of any department are considered as Part II Schemes for the next year. The present proposal does not satisfy the above criteria. Finance may therefore suggest that the proposal to provide a sum of Rs 12,000/- in the next year's budget towards building grant for Mrs.A.V.N.College may be deferred.
