Sir,

Sub:--Training Colleges or classes attached to existing aided Colleges--B.T. Degree Courses--Opening of--Proposals--Submitted to Government.

-----

25 SEP 1949

24014

During the last 10 years, the number of secondayr Schools has nearly increased threefold from 400 to 1100; but the number of trained Colleges has practically remained the same, with the result that to-day there is an acute shortage of trained teachers to meet the demand.

2. There are at present more than 1200 untrained teachers on the staff of aided Secondary Schools, under Government 9 ranges reserved for men and 7 for women Officers are vacant, 3 posts of school Assistants are also vacant. 20 posts of School assistants have been temporarily filled up by untrained hands. Local bodies in similar difficulties have been requesting for the loan of services of trained teachers. The Special Officer, District Board, Kurnool reported that there were 30 vacancies for L.T. Assistants and requested the Director to lend the services of at least 6 L.T. Assistants to the Board. The Special Officer, District Board, Cuddapah and the Commissioner Hindupur Municipality requested the Director to spare the services of L.T.s. in the cadre of Deputy Inspectors and School Assistants. These requests could only be turned down, except in the case of Cuddapah where as a special case, Government was requested to sanction the loan of services of just one man, Sri S. Lakshminarasayya, to the Board.

3. For lack of sufficient trained teachers many of the superannuated teachers are being exempted and allowed to continue and quite a good number of untrained persons also have had to be entertained. The present shortage coupled with the need to meet the normal requirements of the replacement etc., makes it highly necessary that additional training facilites should be provided.

4. This year the four training Colleges in Madras two for men and two for women had to refuse admission to a large number. Only 358 out of the 769 applicants, have been admitted.

	No. received	No. admitted.
L.W.T.C. Madras	173	98
Meston Trg. College.	183	61
St. Christophers	115	49
Teachers College, Saidapet.	298	150
	769	358

Besides 769 who registered their application within the prescribed time, a number of candidates sought admission after the Colleges reopened and most of them were refused admission. Each of the four colleges in Madras has admitted the maximum number permitted by the University with reference to the accommodation available. It will not be desirable to seek to increase the number as that will only tend to result in

P.T.O.

in deterioration of work.

A 5. As an emergency measure, special courses have been instituted for secondary grade trained graduates at Rajahmundry and Saidapet but this will not appreciably solve the problem. The only thing to do is to open new training Colleges. In my estimate two such Colleges for the Andhra area, two for Tamil Nad one for Malabar and one for South Kanara, are immediately necessary.

6. Government could themselves no doubt open these various training Colleges, but it will involve considerable capital expenditure on the construction of buildings and on the equipment of laboratories and it is possible that their present financial position may not favour such a course on the part of Government.

7. I should therefore suggest that these B.T. Courses are best organised as part of the Arts Colleges whereever possible This will mean considerable saving in initial expenditure on buildings and equipment and large savings in recurring expenditure on staff. The possibility of starting these courses immediately without waiting for building and equipment is a clear advantage as the need is urgent.

B 8. I have already consulted some of the private managements and find they are willing to do so with Government Aid. They want aid on the 2/3 basis at least, such as is admitted to Secondary Schools. As the provision of training facilities is really connected with secondary education, I think Government should agree to the provision of grant on the 2/3 net cost basis, and I suggest that Government may be pleased to accept the present position temporarily for five years till the present shortage is overcome in a large measure. At the end of this period, the position can be reviewed and revised, if necessary.

9. Similarly on the question of equipment also, I suggest the provision of a maximum of Rs.2,500/- towards "Books" and Rs.1,500/- towards other teaching aids for every college that starts the txxxxxx training course.

10. In this connection, I may point out that the Ramakrishna Vidyalaya, Perianaickenpalayam, have submitted proposals for the starting of a training section there. Even if Government are prepared to encourage this Scheme, it will not be of much help in regard to my proposals here, because the Vidyalaya is to offer training with "Basic" as the optional and it is to be done all in Tamil. Graduates with Basic Training are not what we want for the Schools in general.

11. I request the favour of immediate orders, as it is necessary for the managements to seek "University affiliation" before this October.

Yours faithfully,

For Director of Public Instruction

GOVERNMENT OF MADRAS
Education and Public Health Department
Memorandum No.62485-A/49-2-Education, dated the 18th Octr. 1949

Subject:- Opening of new training Colleges.

Ref:- Letters from the Director of Public Instruction, No.1239-K2/49, dated 17-9-49 and 4-10-1949.

The Government agree with the Director of Public Instruction that there is urgent need to train a large number of B.Ts. for employment as teachers in secondary schools and that the existing facilities for training are quite inadequate. But this dearth of training facilities may last only a few years, say 5 years, and there may not be need to continue all the training colleges proposed after the necessary number of B.Ts. are trained. The Director himself seems to have realised this and has suggested in his letter No.422-D2/49, dated 21-9-1949 that training classes may be attached to existing aided colleges on payment of grants at 2/3 net cost basis. If Government were to start training colleges the cost will be more. They may also have to construct permanent buildings involving huge cost. The Director is accordingly requested to see whether instead of Government themselves opening new training colleges, private colleges cannot be persuaded to undertake this task. A comparative statement of approximate costs for Government colleges and aided colleges, as training centres may be furnished.

It has been brought to the notice of Government that the St.Aloysins College, Mangalore, has necessary additional accommodation to start a training section.

If the Colleges are opened by the aided managements during 1950--51, provisions has to be made in the Budget Estimate for 1951--52 for the payment of teaching grants to these institutions for the period during which they function in 1950--51. But with a view to encouraging the managements concerned to open the classes during 1950--51 an advance grant of Rs 2,500/- towards the purchase of books and furniture and Rs 1,500/- towards the cost of other teaching aids may have to be sanctioned to each of these institutions during 1950--51 and necessary provisions therefore may now be made in the Part II of the Budget Estimate for 1950--51. The cost of the scheme in the coming and future years shall be as detailed in the Annexure. I, therefore, request that the Government may kindly approve the scheme.

In order to meet the urgent need for an increased number of trained teachers to be employed in secondary schools in this province, the D.P.I. has proposed that the ~~mr~~arrangements of certain institutions be aided by the Govt. towards the opening of degree courses in training, in their institutions. The managements of the following institutions proposed to open such courses:-

(1) Andhra christain College, Guntur.
(3) Dr. Alagappa Chettiar's College, Karaikudi.
(2) Maharajah's College, Vizianagaram.
(4) St.Aloysius College, Mangalore, and
(5) Rajah's High School, Kollengode.

C.No.74014/49. From the D.P.I.No.Rc.422-D2/49 dated 21.9.1949.

In order to meet the urgent demand for an increased number of trained teachers, the D.P.I. ~~suggests the opening of new~~ considers that additional training colleges in B.T. course are necessary - 2 for the Andhra Desa, 2 for the Tamil Nad, one for Malabar and one for S.Kanara. He is of opinion that as it will be costly for the Govt. to start new training colleges, ~~the question~~ it should be left to private managements to open them. He states that the managements of some ~~of the certain~~ aided colleges have expressed their willingness to open training colleges as part of their Arts Colleges, provided the Govt. would give them two-thirds teaching grant instead of one-half. The D.P.I. recommends the above proposition and states that ~~towards equipment,~~ each such training college may be given aid to the extent of Rs.2500/- towards the purchase of books and Rs.1500/- for other teaching aids. He ~~therefore~~ requests immediate orders of Govt. on his proposal, as it is necessary for the managements to seek "University affiliation" before October 1949. It may be pointed out that it is for the managements of the aided colleges to move the University for the necessary affiliation. ~~and Govt. cannot interfere in the matter.~~ As regards grants, the D.P.I. may be informed that it is too early for Govt. to pass any orders on the proposal, as it will have to be considered as a Part II scheme for 1950-51 if necessary and then final orders passed. Subject to orders, the draft below is for approval. Finance may see prior to circulation.

As regards the opening of the basic training section at the Ramakrishna Vidyalaya, Perianaickenpalayam, the Director states that even if Govt. help the above scheme, it will not be of much use ~~to encourage his present proposal~~, because the Vidyalaya is to offer training with "Basic" as the optional and that it has to be done in Tamil, and that graduates with basic training are not now required by the schools in general. ~~In the circumstances, the~~ This view seems to

If the above training colleges are opened by the managements concerned in 1950-51, ~~the D.P.I. suggests that~~ they will ha to be paid teaching grant in 1951-52 in respect of the period they work in 1950-51, and also in subsequent years. The D.P.I. suggests that with a view to encourage the management to open the colleges in 1950-51, an advance grant will have to be paid to them, viz. for the purchase of books, furniture, and other teaching aids and also for grant of stipends to Harijan and backward class students, during 1950-51. He estimates the grant to be paid to each college for the above items during 1950-51 at Rs.5,800/- x i.e. Rs. 23,200/- for all the four colleges mentioned above. He therefore suggests that necessary provision may be made in the B.E. for 1950-51 under Part II for payment of the ~~above advance~~ advance grant of Rs.23,200/-. He has also furnished a statement showing the extra expenditure the Govt. will have to incur by way of teaching grant, on the basis of two-thirds net cost (instead of the present half-grant rate), in 1951-52 and in subsequent years. He has estimated the expenditure to Govt. in 1951-52 at ~~Rs.~~ 68,400/- and in ~~195~~ subsequent years at Rs.1,19,200/- for all the four colleges. As the extra expenditure to Govt. will be less if private/~~colleges~~ agencies are encouraged to start ~~aided~~ training Colleges than if the Govt. were themselves to start training colleges, it is for consideration whether the D.P.I.'s proposal for the opening of these four new training colleges by private managements in 1950-51 may be approved and considered as a Part II scheme for 1950-51 and if so, whether a provision of Rs.23,200/- may be made in the B.E. for 1950-51 towards payment of advance grant to these institutions in ~~1950-51. The necessity for more training colleges is established from the facts stated at page 1 cf. We have allowed 1100 secondary schools to come into existence, with training colleges which are sufficient to supply staff for only 400.

In the existing financial stringency, it would be expedient to establish training colleges in aided institutions. The DPI proposals for these are therefore strongly pressed.

PART II SCHEME FOR 1950-51 - Opening of B.T. or B.Ed. Training Colleges by Aided managements

In connection with the Part II Schemes for 1950-51, the D.P.I. has proposed the opening of training colleges or classes in the following aided colleges:--

p.17 CF

Andhra Xian College, Guntur.
Maharajah's College, Vizianagaram.
Dr.Alagappa Chettiar's ~~Xixk~~ College, Karaikudi.
St.Aloysius College, Mangalore.

It is stated that if the colleges are opened by the aided managements during 1950-51, provision has to be made only in the B.E. for 1951-52 ~~x~~ for the payment of teaching grants to these institutions for the period during which they function in 1950-51. However, with a view to encouraging the managements concerned to open the classes during 1950-51 it is proposed to include necessary provision in Part II of the Budget for 1950-51 ~~a provision in the B.E. for 1950-51 has been recommended~~ for an advance grant of Rs 2,500/- towards the purchase of books and furniture and Rs 3,300/- towards the cost of other teaching ~~x~~ aids, stipends etc. to each of the institutions.

p.19 CF
1500
1800
3300

The proposal is estimated to cost Rs 23,200 during 1950-51 and Rs 1,19,200/- recurring ultimately per annum ~~to Govt.~~ by way of grant to these ~~xx~~ aided institutions. E.& P.H. department have recommended the proposal of the D.P.I. for the reason that there is a dearth of qualified teachers at present for appointments in schools and colleges and in the existing financial stringency, it would be expedient to establish training colleges in aided institutions.

p.19 CF

p.7 above

2. In the current year 358 candidates have been admitted in the 4 training colleges in Madras. It is also stated that special courses instituted for secondary grade trained graduates at Rajahmundry and Saidapet as an emergency measure will not appreciably solve the problem. However, the number of persons that will be trained in these two places in a year is not known. With the starting of the emergency training centres at Rajahmundry and Saidapet coupled with the restriction of the number of new schools to be opened in 1950-51 in view of the financial stringency, the position may be expected to ease to some extent.

According to the instructions issued in Finance Memo. No.57293-A-PWR-3, dated 12-10-1949, only those schemes ~~whix~~ which will involve very little recurring expenditure and which are considered to be really and immediately essential for the proper running of any department should be considered as Part II Schemes for 1950-51. The present proposal involving an extra cost of Rs 23,200/- during 1950-51 and an ultimate recurring cost of Rs 1,19,200/- per annum does not seem to satisfy the above criteria. It may also be stated in this connection that even important P.W.D. and ~~R~~Reconstruction schemes ~~x~~ are being deferred in the interests of allround economy. In view of all these considerations, Finance may advise that the proposal be deferred ~~for~~ to better times.

The D.P.I. has proposed the opening of B.T. Sections in five Aided Colleges, in order to make up the deficiency in the Graduate trained teachers for secondary schools. The cost of the proposal for 1950-51 is only Rs.29,000/-. Finance is not agreeable to the scheme on the presumption that the existing 4 Government Training Colleges have admissions for 358 candidates in addition to 60 candidates

G2
74014

under special courses at Rajahmundry and Saidapet. Finance appears to have ignored the statistics furnished by the D.P.I. on page 1 c.f. Arising from the increase in secondary schools from 400 to 1,100 while the training colleges have remained practically the same ~~time~~, the position now is:

(1) that there are 1,200 untrained teachers in aided secondary schools;

(2) ~~2,000~~ 20 untrained school assistants and 10 vacancies in Government schools;

(3) similar deficiencies in local bodies;

(4) the natural wastage arising from superannuation, deaths, etc., which cannot be made up by reemployment to any extent.

It would therefore appear that the existing Colleges and arrangements are not sufficient to meet the demand arising for trained teachers. Of the two alternatives, i.e. to set up Government institutions or to aid private institutions, the latter is very much cheaper. I would suggest therefore that we accept the proposals of the D.P.I.
