Note No.70980/47 Re-30, dated 9th January 1948.

Subject: Retrenchment and Reorganisation - Education Department - Recommendations of the Retrenchment and Reorganisation Committee.

The Retrenchment and Reorganisation Committee at its meeting held on 8-1-1948 met the Director of Public Instruction and two of his Deputies (Messrs. Sadasiva Reddi and Ranganatha Mudaliar) and discussed questions relating to Education. The recommendations of the Committee consequent on the above discussions are extracted at flag (Q). The recommendations may be communicated to the E. & P.H. Department for necessary action. That Department may be requested to communicate to this (Retrenchment and Reorganisation) Department the orders of the Government on the Committee's recommendations. They may also be requested to work out the financial effect of the recommendations of the Committee and of the final orders of the Government and intimate to this Department for incorporation in the Retrenchment and Reorganisation Committee report.

MINUTES OF THE MEETING OF THE RETRENCHMENT AND REORGANISATION COMMITTEE HELD ON 8-1-1948.

Sri T.K. Duraiswami Ayyar,
Sri V. Ponnuswami Pillai,
Sri L. Venkatakrishna Ayyar,
Sri K. Suryanarayana Rao, M.L.C.,
Sri K.P. Krishnan Nair,
C.O. Coorey, Esq., M.B.E., I.C.S., Secretary,
Sri C.S. Krishnaswami Ayyangar, Assistant Secretary.

1. EDUCATION DEPARTMENT: The Committee met the Director of Public Instruction and two of his Deputies (Messrs. Sadasiva Reddi and Ranganatha Mudaliar) and discussed questions relating to Education.

P.T.O.

2. As regards denominational institutions it was agreed that they need not exist as such and that wherever accommodation can be found for the pupils, these institutions may be abolished. Where it is not possible to find accommodation for the pupils of such institutions in other existing institution, the institution may be continued but thrown open to all communities without any special facilities for any particular community. This will apply to the Muhammedan Colleges in Madras and the Muhammadan and Depress Classes Schools throughout the Province.

3. With reference to separate institutions for girls, so far as elementary schools are concerned the Committee felt that there was no need for separate institutions.

4. All uneconomic schools be they Government, or aided, for boys or girls which have less than 20 pupils per class on the average should be closed. If a Local body or a private agency comes forward to start and run a school or is prepared to manage an existing Government school, it should be enabled to do so. The Government should not open a school in an area which is already provided for or where a private agency is likely to open one. Uneconomic practising schools attached to training institutions may be closed.

5. While there is no need to have a special Woman Officer as Deputy Directress or Inspectress to look after girls' education, the Committee considered it desirable to have a woman as one of the Deputy Directors in the Headquarters. All the above were agreed to by the Director of Public Instruction and his Deputies. The Director of Public Instruction considered that it would be an advantage if all the polytechnic schools and the Engineering colleges were placed under a Director of Technical Education, attached to the Education Department.

6. The Director said that it was necessary to retain the posts of Divisional Inspectors of Schools, as they were the final authority in most matters, connected with elementary education, and they were checking the work of the District Educational Officers with reference to Secondary Education. If the posts are abolished, there will be a very large number of appeals from District Educational Officers with reference to all matters and the staff at the headquarters will have to be considerably strengthened in the form of additional Deputy Directors. The Committee considered that, with reference to recognition of schools, opening of new sections and higher classes as well as distribution of grants, if there was a Committee to assist the District Educational Officers, either for the taluk or for the District as a whole, most of the work relating to elementary education could be finalised in the District itself. Other work will not require the retention of the Divisional Inspectors of Schools and the remaining work could, after delegation of most of the powers to the District Educational Officers, be looked after by the Deputy Directors working in the headquarters.

7. There are 4 clerks provided for the Regional Inspectors of Physical Education. They are now attached to the offices of the Divisional Inspectors. The Committee recommended that there was no need for this provision.

MINUTES OF THE MEETING OF THE RETRENCHMENT AD
COMMITTEE HELD ON 9-1-1948.

Present:--

Sri T.A. Ramalingam Chettiar, M.L.A. (Central) Chairman,
Sri T.K. Duraiswami Ayyar,
Sri V. Ponnuswami Pillai,
Sri L. Venkatakrishna Ayyar,
Sri R. Suryanarayana Rao, M.L.C.,
Sri K. P. Krishnan Nair,
C.O. Coorey, Esq., M.B.E., I.C.S., (Secretary) and
Sri C.S. Krishnaswami Ayyangar, (Asst. Secretary).

Minutes of the last meeting read and confiremd with slight alterations.

2. Technical Education - Further discussion. There are two Engineering Colleges with equipment, working at Madras and Chidambaram. Three have been started at Coconada, Coimbatore and at Guindy (to be shifted to Anantapur). They will have to be provided with buildings and equipment. It is said that equipment is difficult to get and will be very costly. The students admitted to these colleges are given basic education in Civil Engineering, Mechanical Engineering and Electrical Engineering, Highways Engineering and Tele-communications. Such of those as take up Industrial Engineering will have to be provided with practical training in factories as apprentices. There is no provision for such training at present. In view of these facts, the Committee considered that the Government should review the whole situation, both with regard to the cost, recurring and non-recurring, the possibility of providing the Colleges with buildings and equipment and the possibility of finding means of training students in the fields of industry, which they want to develp and decide whether they should go forward with all or any of these colleges.

Th Water Supply: The Committee considered that the provision of protected water supply in villages and urban areas was the first requisite of public health and it should be given priority over every other scheme before Government. If the funds at the disposal of the Government are not sufficient to provide for the proposals on hand at any time, the Government will be justified in raising a loan for the purpose of financing these proposals and spread repayment over a long term of years, providing a sinking fund in the meanwhile. In case the portion to be contributed by local bodies is large and according to the present arrangements, their resources are not sufficient, the repayment of the loans to be given to them may be spread over a longer period.

Abolition of the post of Assistant Director of Public Health.

There are now 5 Assistant Directors. Three of them are designated as in charge of particular functions like epidemics, statistics and vaccination etc. They are not specialists in those services and they have no special qualifications. Another Assistant Directress is in charge of maternity and child welfare schemes . This post will have to be continued.

One other Assistant Director is in charge of malaria operations in the whole province, as malaria is widespread all over the Province it is not possible to give malarial training to every District Health Officer and so, there is need for continuing this officer.

As regards the other 3 Assistant Directors of Public Health, there is no specialised work done by them. The Committee considered that the reduction of the number into two will be amply justified, seeing the nature of the work they do. If they are posted one for the North and one for the South and attached to the Office of the Director of Public Health they can do the necessary inspection work and attend to other duties now performed by these 3 officers. The work of statistics is only a matter of collating the information obtained from others.

The Committee discussed the following scheme with the Surgeon-General and the Director of Public Health. In each taluk, there may be a ~~xx~~ half a dozen centres chosen. There will be a midwife, a health inspector and a compounder located at each centre with provision for 4 beds, two for labour cases and two for other emergent cases. There should be 2 doctors attached to the taluk hospitals each of whom will be allotted 3 centres; they will make a circuit of area, working in each centre one day, thus making two circuits every week, spending 2 days in all in each centre every week. There will be provision in the Taluk headquarters for a fair number of beds. There will be a paid medical officer in charge of the Taluk hospital with an Assistant either paid on honorary. Under this proposals medical relief and public health work in the rural areas will be combined at a cost very much cheaper than the scheme proposed by the Government. The Committee contemplated that at least 3 times the number of centres can be served without extra cost. The Surgeon-General and the Director of Public Health said that they would consider the subject and meet the Committee again for a further discussion.

Above the rural centres, there is no definite idea for the amalgamation of the functions of the Medical and Public Health Departments. In the present setting, where medical relief is the predominant idea and public health is occupying a subordinate position, the Committee did not recommend the amalgamation of the two departments.

As regards staff, the present system has been evolved as it was found that the D.M.Os were unable to look after both medical and sanitary work. The Committee commended the present system of consulting the Surgeon-General in all important schemes relating to Public Health matters This might be made the rule and not a matter of discretion.

In view of the present cost of construction of buildings and equipment and the difficulty in obtaining building materials and equipment, the provision of facilities for separate Colleges at Madura and Guntur might by deferred.

An enquiry as regards the present system of supply of drugs, diet articles and hospital equipment the extension of the self dieting system etc. is~~,~~ necessary with a view to effect economy and to prevent leakages and to obtain materials at the cheapest rates possible. A small committee or a special officer might be appointed to go into the matter and report as speedily as possible, so that new arrangements might come into force from 1-4-1948.

In hospitals all posts of doctors except posts declared to be duty-posts by the Surgeon-General might be filled up by honorary medical practitioners. The status of these honorary officers might be Assistant Surgeons, Assistant Physicians and in suitable cases, surgeons or Physicians. This system might also be extended to the taluk hospitals as far as possible.

In the matter of appointing Lay Secretaries, the Committee considered that it would be a better arrangement if officers in other services were taken for service in hospitals for a period. The Officer will be on the grade suitable to the institution, in which he is appointed, for instance, a Junior Deputy Collector might be appointed as Lay Secretary in the General Hospital and a Tahsildar in the District Hospital.

The Committee considered that those who can afford to pay should be made to pay for their accommodation in hospital wards. There should be ~~made~~ provision for paying wards in all central and district hospitals, of at least three grades, A, B, and C. The charges levied might be suitably fixed to serve the different classes of the population, who will make use of these wards. This will be a source of income to the State. A large portion of the expenditure incurred on the hospitals might be met from these charges. There is likely to be a greater demand for C Class wards than for A and B Class wards and there might therefore be a larger provision of these wards.

The present system of rural medical relief has not been a success and it might be abolished and if the funds now spent on it are utilised for giving relief on the lines suggested above, much progress can be made on satisfactory lines.

PUBLIC HEALTH STAFF.

The staff sanctioned for Nutrition Research and Survey need not be appointed and the possibility of transferring the Nutrition Officers in the Food Department to the Public Health Department might be considered.

Nutrition Research is now being conducted by the Public Health and Food Departments separately, while the basic research is conducted at Coonoor. Only a minimum set of officers for both Public Health and Food Departments will be needed for investigation and survey.

The post of Research Officer sanctioned for the Director of Public Health might be kept in abeyance and the possibility of having the research done in the King Institute might be tried.

Engineering Supervisors attached to Regional Malaria Centres might be abolished as their work could be done without difficulty ~~xxxxxx~~ through other arrangements. The Director of Public Health agreed to all the above proposals.

The Director of Public Health also agredd that the first class health officer posted as Assistant Professor of Hygiene in the Medical College and who has been posted for field training in the Poonamalle Health Unit might be appointed to be in charge of the unit and the post of II Class Health Officer sanctioned for being in charge of the unit might be abolished.

Next meeting of the Committee was fixed at 11-30 A.M. on 10-1-1948.

T.A. Ramalingam Chettiar,

CHAIRMAN.

EDUCATION.

At the meeting of the Retrenchment and Reorganisation Committee held on the 6th November 1947 Sub-Committees were formed for scanning the working of the different departments. A Sub-Committee consisting of Sri T.K. Duraiswami Aiyar (Chairman), Sri R. Suryanarayana Rao, M.L.C. and Sri V. Ponnuswami Pillai was appointed to examine the organisation and working of the Education, Public Health and Medical Departments.

2. Messrs T.K. Duraiswami Iyer and R. Suryanarayana Rao visited the office of the Director of Public Instruction on the 12th and 13th November, ~~1~~ 1947 and had discussions with the Director of Public Instruction and his Deputies. During the course of the discussion it emerged that during the war, Education Department had not expanded commensurate with the increase in administrative work. On the question of abolition of the Divisional Inspectors of schools, the Director of Public Instruction was positive that their abolition was not desirable and such a step would lead to inefficiency. He also furnished the sub-Committee with a note on the organisation of the Inspectorate, the powers delegated to the Divisional Inspectors as also the powers proposed to be delegated to them. A copy of the note is enclosed for the information of the Committee. One feature of the Education Department to which we wish to draw the attention of the Committee is, besides the Regional Divisional Inspectors of Schools who enjoy delegated powers, there are practically six other officers in the office of the Director of Public Instruction to assist him in the work. They are:--

(i) Deputy Director (Finance and Secondary Education)
(ii) Deputy Director (Personnel and Collegiate Education)
(iii) Deputy Director (Elementary Education and Training)
(iv) Personal Assistant
(v) Central Inspectress of Schools; and
(vi) Special Officer for Basic Education.

(iv), (v) and (vi) are of the grade of District Educational Officers while the Deputy Directors are higher in grade even to that of the Divisional Inspectors of Schools. We took considerable pains to understand why in spite of the Deputy Directors in the Director's Office, these intermediaries, viz., Divisional Inspectors of Schools are required. The Secretary of the Committee has also furnished us with relevant extracts of notes relating to the abolition of the Divisional Inspectors of Schools. We have also perused these notes with great care and feel that the case for the retention of the Divisional Inspectors of Schools is rather weak. We are inclined to take the view that efficiency in administration would not suffer much, even if the contention of the Director of Public Instruction is accepted, if the Divisional Inspectors of schools are abolished. More powers may be delegated to the District Educational Officers and such residuary and appellate powers as are now exercised by the Divisional Inspectors may be usefully transferred to the Deputy Directors. In spite of the existence of the Divisional Inspectors of Schools, the total number of papers received in the office of the Director of Public Instruction has risen from 44,351 in 1942 to 1,10,532 in 1947 (November '46 to Nov. '47). We cannot help feeling that even the orders of the Divisional Inspectors of Schools in the exercise of powers delegated to them, have not presumably been final and appeals against their orders, as they would be against the orders of the District Educational Officers, seem to continue unabated. The Director of Public Instruction avers that the powers delegated to the Divisional Inspectors cannot be given to the District Educational Officers and that their retransfer to the Director would mean the creation of additional Deputy Directors and this would hardly be conducive to economy or efficiency. As the Deputy Directors are even now, except

in regard to a very few matters, already revising the orders of the Divisional Inspectors, such increase in work as is apprehended may not be much. Moreover, we do not agree that at least a few of the powers now exercised by the Divisional Inspectors cannot be transferred to the District Educational Officers. A perusal of the powers now exercised and those proposed to be transferred will show that the District Educational Officers can as well be entrusted with some or most of the powers now exercised by the Divisional Inspectors of Schools. In fact placing a greater reliance on the District Officer may awaken in him a greater sense of responsibility and self-reliance which may in turn lead to greater efficiency of administration. The District Educational Officer should be made the pivot of the educational administration and delegation of powers on a large scale should be made to him and he should be held primarily responsible for the spread of elementary education and its efficient administration.

3. The state has a primary responsibility for fostering higher learning and promoting research. It should, however, divest itself steadily of responsibility for the starting and ~~xxxxxxx~~ supporting of Arts Colleges which provide routine instruction. In view of the fact that during, say, a period of ten years the number of pupils in elementary schools has shown an increase of barely 25% while those in secondary schools show an increase of about 65% and those in Colleges about 100%, the case for the general tax-payer, especially in ~~xxxxx~~ the context of stringent financial conditions, making a substantial contribution to the upkeep of colleges is very weak indeed. There is no strong case for the Government conducting a college for women at Guntur and Madras. As for the relation of Government to university education since the University is responsible for the maintenance of standards and the Government occupies only the position of the manager there is no need for any elaborate Government administrative machinery to look after University education.

4. As regards the Central Inspectress of Schools who is now supposed to attend to problems relating to Women's education, we would suggest she may be made the Deputy Directress of women's Education dealing with all the problems relating to Secondary and Collegiate education, training of women. We doubt whether there is need for a Personal Assistant in addition to the Deputies. As regards the Special Officer for Basic Education we were not able to gather much information as the post has just been created. We doubt very much if a Special Officer for Basic Education alone is necessary in view of the declaration made by the Hon.Minister for Education that all Elementary schools will be converted into Basic -- Schools.

5. We are of the unanimous opinion that the maintenance of denominational institutions of any grade in a secular state is not desirable and the existing institutions should cease to be as such. If in respect of some institutions there are some endowments ear-marked for the education of a particular community or communities, the income accruing from these endowments may be utilized for granting scholarships, boarding grants and such other facilities.

6. We understand that there are Personal Assistants to the District Educational Officers to assist them in their work. As Personal Assistants are generally not competent to take decisions, issue orders and enforce them, they practically act as Managers of offices. Their abolition is desirable. Wherever and whenever work in a district increases, we would suggest the bifurcation of jurisdiction as we learn it has already been done in the case of Tinnevelly, Guntur and Vizagapatam districts.

7. Two of our members Messrs T. K. Doraiswami Iyer and R. Suryanarayana Rao discussed with the Director of Public Instruction about the control of the Engineering Colleges. They greatly appreciate the handicap from which the Director of Public Instruction suffers in controlling the Engineering Colleges without technical assistance of any kind. Their impression is that the Director was not averse to the transfer of control of the Engineering Colleges to any other Department. Mr. R. Suryanarayana Rao proposes to deal with the subject of Technical Education including Engineering in a separate note for the consideration of the Committee. The question of control of Engineering Colleges may then be considered.

8. The Director kindly told us that certain proposals were under consideration which would lead to some economy. In the field of elementary education he proposes to combine the boys' and girls' Ranges. At present there are 31,190 boys' elementary schools and 4,173 girls' elementary schools. The Inspectorate consists of 221 Senior Deputy Inspectors of Schools and 175 Junior Deputy Inspectors of Schools as also 53 Sub-Assistant Inspectresses of Schools making a total of 449 inspecting officers. With the abolition of separate Ranges and placing the whole elementary education under the District Educational Officers, there is every likelihood of supervision and control over elementary education becoming more efficient. Moreover, this policy will put a stop to the opening of separate schools for boys and girls with a separate inspecting agency. Incidentally this will also lead to the reduction in the number of Inspectresses of Schools as in future they will have to deal mostly with girls' secondary and training schools. Already it is proposed to reduce the number of Circles from 8 to 5. There may be scope for further reduction. The Headmistress of girls' high schools need not ordinarily be of gazetted rank.

9. At present there is separate Inspectorate for Muslim schools where the medium of instruction is Urdu and also where religious instruction is provided for Muslim children. In view of the re-orientation of Educational policy of the State, we feel separate Inspectorate is unnecessary especially when the Government have declared that the medium of instruction will be the regional language.

10. We note that the number of Secondary Schools for boys and girls is increasing rapidly. We find the basis of assessment of teaching grant for all aided Secondary Schools have been altered from half of the approved net cost to two-thirds of the approved net cost. The new basis is likely to impose a growing strain on the finances of the Province. At present the number of Government Secondary Schools for boys and girls is 19 and 52 respectively, while the non-Government Secondary Schools is 699 and 130 respectively. In view of the condition of the provincial finances, all uneconomic schools, be they Government or aided, for boys or girls, ~~shouldxx~~ should be

closed. Any secondary school which has less than 20 pupils in each class on the average may be considered 'uneconomic'. We understand there are some girls' schools specially opened for the benefit of the Muslim community which ought not to exist. We would also suggest that if a local body or a private agency comes forward to start and run a school or is prepared to manage on existing Government school it should be enabled to do so. The Government should not yield to pressure and open a school in an area which is already provided for or where a private agency is likely to open one. Uneconomic practising schools attached to training institutions may be closed.

11. We know there has been a great deal of controversy on the opening of bifurcated courses. While it is not our purpose to enter into the merits of the question, on the grounds of economy alone we would suggest the postponement of the introduction of the bifurcated courses as we learn the minimum cost for each school on this account would come to Rs.7,100.

12. From a communication received from the Director it is seen he has proposed that the Anglo-Indian and European Schools should for all purposes be brought under the Madras Grant-in-Aid Code doing away with the favoured position they enjoy at present. Apart from other considerations, we strongly support his recommendation even on grounds of economy.

13. The scheme for sending students abroad for studies should be formulated with reference to our immediate needs so that when the trainees return their services may be immediately availed of. Random method of selection followed at present without any reference to our immediate needs results in unnecessary expenditure which may be usefully avoided. Highest priority, however, should be assigned to schemes for establishing on very sound basis institutions which provide the best kind of training for our advanced students without their being driven to the necessity of going abroad for the purpose.

14. From what we have seen, heard and read there appears to be no blue print of a planned development. We have in our mind the present policy of starting colleges and high schools as also the introduction of compulsory elementary education. The scheme of Basic education provides another instance. We would suggest that an integrated plan of development should be prepared taking into account the existing provision and the future growing needs. Such a plan should be slowly and steadily implemented consolidating at every step the ground gained.

15. The Government is rightly committed to the provision of compulsory elementary education within as short a period as possible; but in view of the financial condition of the province and in view of the proposal to provide what has been called basic education it is a matter for consideration if the Government cannot go slow with the scheme involving heavy expenditure of providing compulsory elementary education of the kind to which we have been hitherto accustomed. Further, the Government is precluded from providing compulsory elementary education to all the children of school-going-age but has, on the other hand to extend the system only piecemeal and by stages. One feels that there is much to be said for not spending large sums on a project that cannot be carried though in its entirety for the benefit of the entire population but has to be necessarily restricted to limited areas of the presidency. While elementary education may be considered a basic necessity financial considerations operate as a decisive check and since it is not a well established reference that increased production of wealth follows automatically the prevalence of elementary education, measures for

P.T.O.

9.15

adding to the production of wealth are an essential preliminary to the spread of elementary education. Though it may seem very hard the conclusion, in the context of the financial conditions of the presidency, is irresistable that higher priority ought to be assigned to measures for increased productivity than to schemes for the establishment of compulsory elementary education. In the circumstances there is much to be said for considerable caution in respect of the scheme of compulsory education till the advent of more normal conditions.

16. The question of opening new professional colleges such as the Engineering Colleges engaged our attention. According to the figures furnished by the Director of Public Instruction it is estimated that ultimately about 310 students will pass out of the four Engineering Colleges. We have also been kindly furnished with a copy of Principal Rudra's reply to an enquiry on the subject sent at our request by the Director. Mr.Rudra pleads not only for the retention of the existing colleges but also for their expansion to satisfy the requirements of technical personnel for the post-war schemes. The following paragraph of his letter may be read with benefit.

> "(10) There are other considerations which justify the retention of all the technical institutions started by the Government. At a Conference of the Hon'ble Minister for Works, Mines and Power of the Government of India -------the Chief Engineer, P.W.D., gave an estimate of Rs.280/- crores for the schemes that must be undertaken by the province to solve the food problem. The Chief Engineer for Electricity also outlined the schemes that his Department must undertake, but did not give an estimate of these schemes. The Director of Industries pointed out the unsatisfactory position of the province with regard to minerals, but did not give an estimate of the cost of exploitation of these minerals. The schemes of the Chief Engineer, P.W.D., the Chief Engineer for Electricity and the Director of Industries may easily cost over Rs.300 crores."

On the basis the cost of schemes and the cost of production of technical personnel should have some relation, Mr.Rudra suggests that at least an expenditure of 1% of the cost of the schemes is reasonable. So according to him an expenditure of Rs.3 crores is justifiable. But he is himself doubtful if it would be possible to spend such a large amount in the next five years because it is extremely difficult to get materials and equipment. Accepting all these promises it will be conceded that if the Engineering Colleges are to be run efficiently, they should be properly equipped. As things are there is no possibility of doing so in the near future. Therefore is it wise to provide training in ill-equipped institutions and turn out half-baked technical personnel or is it enough to increase the strength in the existing technical institutions providing such additional equipment as may be absolutely necessary and available? We have no hesitation in subscribing to the latter proposition. Mere buildings alone without equipment are of no use. This aspect should receive the immediate consideration of the Government before the new colleges become fait accompli. While the proposals for the opening of new colleges when the necessary equipment is available may not be ruled out altogether we feel our present needs can be satisfied by increasing the strength in the existing colleges. Courses of studies provided should also conform to the equipment available.

T.K. Duraiswami Aiyar,
Chairman, Education, Public Health and Medical Department
Sub-Committee of the Retrenchment and Reorganisation Committee.

A note on Technical Education including Engineering.

10

One of the terms of reference to the Sub-Committee of which I am a member is the continuance of the control of the Engineering Colleges by the Education Department or its transfer to the P.W. Department. In the report of the Sub-Committee on the Education Department the reaction of the Director of Public Instruction to remove the control of the Engineering Colleges from his Department has already been stated. But the question is not of Engineering Colleges alone but all technical and technological institutions training technical personnel of all grades so that a co-ordinated system may be evolved to meet the growing needs of the province. The present position is as follows:

(1) Engineering Colleges are under the Education Department. They are all of the University Standard.

(2) Polytechnics and Industrial Schools which prepare for the Diploma standard and the artisan standard are under the Department of Industries. The examinations for the Diploma standard are conducted by the Technological Diploma Examination Board while for the artisan standard by the Inspectors of Industrial Schools who work under the Director of Industries. The Chairman of the Diploma Board is the Joint Director of Industries.

Institutions under (1) are under the control of the Director of Public Instruction who is not conversant with any technological education. Nor has he been provided with technical assistance to exercise effective control and supervision. Institutions coming under (2) are under the control and supervision of the Director of Industries who has under him a number of qualified technologists to assist him.

It is needless to emphasise that the success of any programme of planned development depends largely on the technical personnel of all grades available. What that programme should be and how it should be implemented are matters entirely within the purview of the Ministry for Industries and Planning. It is that Ministry which is in a position to assess the needs of the various approved plans and arrange for the training of the personnel required.

It will be surprising to know that for some reason the Ministry for Education has undertaken this task and appointed a Standing Advisory Board on Technical Education with the following terms of reference:

(1) To advise the Government on all matters of technical and technological education of all grades including the University standard, diploma standard and artisan standard on a properly co-ordinated basis to meet the requirements and developments of this province and India as a whole and

(2) to examine the technical and technological education of this province in all its aspects and make recommendations with a view to re-organise it on a basis that will make it more useful, efficient and up-to-date.

The Board as it is constituted is unwieldy having as many as 26 members with the Hon. Minister for Education as the Chairman and the Principal of the Guindly College as the Secretary. One noticeable feature of this Board is the Hon. Minister for Industries and Planning who is in charge of the training of technical personnel is not a member of the Board though he may be required to implement the recommendations of the Board. The Director of Industries of the Joint Director of Industries represents the Industries Department. How can there be co-ordination between different standards of technical education unless the Hon.Minister concerned is at least a member of the Board? As already pointed out the Hon. Minister for Education is only concerned with the Engineering Colleges and from what the Director of Public Instruction informed the Sub-Committee the Department of Education is not equipped to supervise and control Engineering education. Therefore, the transfer of the Engineering Colleges to some other Department is desirable. Should that Department be the P.W. Department? Are Engineers prepared in the Engineering College meant only to satisfy the needs of the P.W.D.? Are not other departments of national activity in need of

Engineers? Will the P.W.D. be able to assess the needs of other nat[illegible] building activities as well? Moreover, how can co-ordinated development of all grades of technical and technical education possible unless the whole system of technical training including the Engineering Section is under one Department and under one Minister? Therefore the following scheme is suggested for consideration.

(1) Technical and technological education of all standards including the Engineering section should be under one Ministry, preferably the Ministry in charge of Industries and Planning.

(2) There should be a Director of Technical Education working directly under Government.

(3) There should be a Board of Technical Education (a small body) presided over by the Hon. Minister in charge of technical education of which the Director of Technical Education will be the Secretary.

(4) This Board will discharge the functions now allotted to the Standing Committee on Technical Education.

(5) This Board may act either as the Technological Diploma Examination Board or set up a small examination board.

EDUCATION

The Medical Colleges and the Agricultural College are now placed under the direct control and administration of the Medical Department and the Agricultural Department respectively, but the Engineering Colleges are now under the control and supervision of the Education Department. If the same procedure is to be adopted with reference to all colleges, the P.W. Department, which will employ most of the students passing through the Engineering colleges and from which most of the teaching staff is deputed will be a better department to exercise central supervision over the Engineering Colleges. In the light of the above remarks it is for the Government to consider the position of all the technical and technological institutions and how they should be managed.

The Committee has been informed that even though there is an Advisory Board consisting of the Chief Engineers, the Board is not said to be meeting or doing any advisory work.

There is a strong feeling in the country that Elementary Education has not received due attention and so far as progress is concerned, higher education, both secondary and university, have made much more progress than elementary education within recent times. Pupils have increased by about 23% in elementary schools, 104% in secondary schools and 126% in the colleges within a period of 10 years. The Committee feels that there should be a planned expansion of elementary education so that, there may be a target for the next five years and universal compulsory elementary education may be attained within a reasonable time.

Any additional resources available should be earmarked for the expansion of elementary education.

The chief difficulty in expanding elementary education is the paucity of qualified teachers. Every effort should be made to get the large body of teachers that will be necessary for expansion. The training schools with the model schools attached are very costly and they have not been able to attract many students. The need for passing through a training course involves two years additional course after taking the S.S.L. Certificate and it costs a considerable amount of money to the State and to the students. Even after they go through the training schools, the students who take the certificates cannot look forward to any more attractive career than those who have stopped with the S.S.L.C. This explains, to a certain extent, along with the poor prospects available for teachers, the very small number of people who come forward for undergoing training in the Training Schools.

P.T.O.

The Committee considers that the present system is not likely to provide the large number of teachers that are needed for the expansion of elementary education. They would therefore suggest that teaching may be made one of the optionals for the S.S.L.C. course and the theoretical part of the training in the Training Schools may be imparted in the S.S.L.C. course itself. Those who take this optional course may be appointed as teachers; after they practise teaching for a year satisfactorily, they may be granted a Diploma and be considered to be fully trained teachers. There can be no objection to this arrangement, as the Government themselves have decided to have what is called the bifurcation in High Schools and many schools are providing for teaching Secretarial and Managerial Courses.

There are various causes for inefficiency in Elementary Schools. The Model Schools have not been satisfactory and they only serve as fields for training at the expense of the students. These ought to be abolished. There are a large number of one teacher and two-teacher schools, whose work cannot be expected to be satisfactory and there is a lot of wastage in these schools. These may be amalgamated. The minimum for a school ought to be fixed at least at 3 teachers with 5 classes.

If these views are accepted, the Training Schools and the Model Schools will become unnecessary.

The textbooks now adopted in the schools are prescribed not always on the reasons of merit and quality. The Textbook Committee approves of a very large number of books and it is open to the Managements and the Headmasters to select any of these books. The books are not prepared on national lines or with special reference to the needs, except that they approximate to the syllabus in a way. The Committee considers that it will be more satisfactory if at least the textbooks in languages are prepared under the supervision of the Government, so as to include all matters they desire to be taught in a national setting and the books are published by themselves. This is not a new idea, as the University is publishing ~~xxxxxxxxxxxxxxxxxxxxx~~ the text-books for the training schools. Incidentally, it will be a source of income to the Government. For the preparation of the books, the Government may utilise the services of competent experts for a remuneration.

SPECIAL OFFICER FOR INDIAN MEDICINE: The Committee considers that the appointment of the Special Officer for the Reorganisation and Development of Indian Medicine, apart from the Principal of the College, is not necessary. The qualifications of the present incumbent do not seem to justify his being considered an expert in matters arising in relation to Indian Medicine. He is also a retired officer of the Mysore Government. He seems to be, in any case, unnecessary, as the Principal is more competent to give advice than he is. There seems to be also no necessity even in the interests of reorganisation for this office.

At the meeting of the Standing Finance Committee held on the 9th April 1948, the Hon'ble the Premier stated that no final orders on any recommendation of the Retrenchment and Reorganization Committee should be issued without the question being considered by the Full Cabinet. The Departments of the Secretariat are requested to observe these instructions while dealing with the recommendations of the Retrenchment and Reorganization Committee.

2. A list of cases in which the recommendations of the Retrenchment & Reorganization Committee have not been accepted by the Government (so far known to this Deptt.) is enclosed. The Departments of the Secretariat concerned may be requested to obtain orders in circulation, including the Hon'ble the Premier, whether these cases also should be reopened and if so, to take necessary action in the matter. They may also be requested to intimate the final orders of the Government on each item to this Department for information and for being placed on the table of the Retrenchment and Reorganization Committee and for incorporation in the Committee's Report.

Sub: RETRENCHMENT & RE-ORGANIZATION - Recommendations of the Committee - Abolition of the posts of Divl. Inspectors of schools.

Ref: Government Memo No.1155 A.4/48-A Edn., dated 22nd April 1948.

I have the honour to state that the proposal for the abolition of the posts of Divisional Inspectors has already been examined on several occasions and I had also explained in detail the need for retaining them. I would invite attention to my letter R.O.C.No.11095 K3/47 dated 11-10-1947. These posts were created (i) to ensure greater co-ordination and control of elementary education and also the better safeguarding of public funds, (ii) the head office could not satisfactorily perform all the duties and that the safeguarding of public funds required an intermediate agency between the Director and the District Officers. In their Memo. government have suggested further delegation of powers to the District Educational Officers. I would point out that the District Edl. Officers are already vested with considerable powers and any further delegation especially to junior officers would be undesirable. If on the otherhand all the powers now entrusted to the Divisional Inspectors are/taken to be over by me, the administration will become much more centralized than it is. The control that will be exercised by this office would not be effective. I may also in this connection inform Government that the Divisional Inspectors have been entrusted with numerous enquiries which cannot obviously be given to the District Educational Officers, nor can they be undertaken by the Deputies in the headquarters office as they are also heavily worked.

2. These posts are necessary also for the following reasons:-

(a) The personal contact with leaders of public opinion can be achieved in a satisfactory manner only by more experienced and senior officers of the department. The local inspecting officers who are too busy with the day-to-day administrative details cannot do this.

(b) It is necessary that surprise visits to schools offices should be made by such an agency as the Divisional Inspectors to check slackness on the part of subordinate officers and improve the general tone of the administration.

(c) Enquiries etc., can be made with speed and greater knowledge of local conditions.

(d) In a big Province like Madras, the head office cannot effectively control the educational work of areas far from the metropolis and for such control, it is necessary to have intermediate officers like the Divisional Inspectors.

3. I would finally point out that if the tone of the

administration of the department has to be improved, as is the intention of Government, the retention of these posts is essential as it is through ~~those~~ that the Director can exercise greater check. The savings that could be made by the abolition of these posts ~~and~~ the creation of more officers in the headquarters office will not be appreciable but the loss of efficiency that will be caused owing to lack of contact will be serious.

I have the honour to state that there is already a proposal to constitute a Taluk Education Board for each taluk for the administration of Elementary Education with the Deputy Inspector of schools as the Secretary and Executive Officer of the Board. I consider that it is unnecessary to constitute another District Committee to assist the District Educational Officers. In my letter R.O.C. No.11095 K3/47 dated 10-5-1948, I have already specified the nature of work done by the Divisional Inspectors and this work cannot be entrusted to a non-official committee which can only be an advisory body. In the circumstances, I would point out that the continuance of the Divisional Inspectors is quite essential for the efficient administration of the Department.

R.O.C.No.3054-C1/48 dated 3-1-1949.

Sir,

Sub: ~~Recruitment~~ Retrenchment and Reorganisation Committee Report - Education Department - Allocation of work among the Director, Joint Director and Deputy Directors.

762

REF: Government D.O. No. 64936-A1 dated 13--9--1948.

In submitting herewith a statement showing the existing distribution of work among the Joint Director and the two Deputy Directors, I may state that the recommendations of the Retrenchment and Reorganisation Committee with regard to allocation of work between the Director and the Joint Director and the appointment of a Woman Officer to one of the posts of Deputy Directors are not practicable for the reasons stated below:

2. Allocation of work between the Director and the Joint Director.

(i) The Committee's recommendation that one of the two officers, Director and Joint Director, should be in - charge of University Education and Colleges and the - other in charge of all other education cannot be acted upon with the present limited staff if it were the intention of the Committee that "University Education and Colleges" should constitute a separate charge to the exclusion of other work. The volume of work relating to "University Education and Colleges" in this office is far less than that relating to other grades of Education. It is - therefore necessary that the officer in charge of "University Education", which is comparatively light, should be entrusted also with some items of work relating to general administration and other grades of education. At present the Joint Director is in charge of University Education except grants to aided Colleges besides carrying on the duties of the Deputy Director (Personnel) and passing final orders on certain matters relating to other grades of education - Vide My letter R.C.3054-C1/48 dated 20-9-48 The prevailing distribution of work among the officers is about the best in the circumstances and does not need to be altered. As between the Director and the Joint Director, no rigid and unalterable allocation of work is possible or necessary as the over-all responsibility has been laid by government on the Director himself.

(ii) The Committee has obviously held the view that the Director and the Joint Director should be complementary to each other and that both put together should have been conversant with all grades of education. The recommendation that the Director or the Joint Director should be in charge of University Education and Colleges, seems to lack significance as the Committee has not expressly stated that either should be recruited only from the Collegiate branch, if the other has been promoted from an administrative post, though this would seem hardly feasible. The view that an officer with experience of College work would be able to deal with the subject "University Education and

....2

ASST. SECRETARY TO GOVT. EDUCATION AND PUBLIC HEALTH DEPTT. 6 JAN 1949

46

47

and Colleges" better than one with administrative experience, is not quite correct. This subject includes teaching, equipment and building grants to aided colleges and also matters relating to Engineering Colleges. Any Officer with experience of University Education as the head of a Government College could become ~~xxx~~ conversant with all these matters only after holding and gaining experience in an administrative post in this office. At present the Director passes final orders in matters ~~xxx~~ relating to this subject. It does not therefore seem necessary to stipulate that this subject should be in charge of one who has had touch with University Education because the Director, even if he had been promoted from an administrative post, would always be in a position to deal with this subject by reason of the knowledge and experience gained by his association with University bodies in the capacity of an ex-officio member thereof. Moreover it is the Director that is a member of the Syndicates of the three Universities and it is not desirable to amend all the three Acts for replacing him by the Joint Director. Finally as all Colleges are under the control of the Universities on the academic side the main work in this office is administrative and for this, a person with administrative experience is more suitable than one with College experience only.

(iii) Unlike in the case of University Education on which the advice and assistance of Universities are available, the Director has to play a decisive role himself in matters relating to other grades of education which are of far greater scope and complexity than University Education. This is true in the case of the Joint Directors' work also. It is not therefore correct to equate the difficulties which would be felt by Directors promoted from the Collegiate branch with those felt by Directors promoted from administrative posts. The difficulties of the former class of Directors would be greater and more real and for this reason the point which arises for consideration out of the Committees' recommendation is as to how best Principals of Colleges likely to be promoted to the posts of Director and Joint Director could be made to fit in those posts, rather than the mere allocation of work between these two officers.

3. Appointment of a Woman Officer as a Deputy Director:-

After the creation of the Joint Director's post there are only two Deputy Directors in this office. As the bulk of the Deputy Directors' work relates to boys' education, it is not possible to appoint a Woman Officer to either of the two posts without disturbing the present administrative set-up and separating matters relating to girls education. In this connection I invite the attention of Government to my letters R.C.1109 A/45 dated 29-9-1945 and R.C.397-C1/48 dated 10-2-48 (diposed of in their Memorandum No.43741 C/45-3 Edn dated 10-11-1945 and No.71097-A.3 Edn dated 2-4-48 respecitvely) and submit that the reasons given against the revival of the post of the Deputy Directress and against the removal of the existing restriction on the appointment of a Woman to any of the posts in the administrative section of the Men's Branch hold good in regard to the Committee's proposal also.

pp 73-79 inpn not putup

pp 81-82 inpn

With the amalgamation of boys and girls ranges of the subordinate inspectorate, the inspectresses have been relieved of the charge of elementary education of girls and the officers of the Mens Branch are now responsible for the supervision and organisation of girls' education in the primary ~~xxx~~ stage. The need for having a woman Deputy Director for purposes of girls' education has thus considerably diminished. Also there remains the difficulty of finding successive woman officers equal to the post of a Deputy Director, the duties and responsibilities of which are orduous. For these reasons, I am of opinion that the Committees recommendation to appoint a Woman Officer to one of the posts of Deputy Directors is not practicable.

4. The Committee has recommended a staff of five officers (Viz. a Director, a Joint Director, two Deputy Directors and a Personal Assistant) for the Central Officer. This staff, I submit, is not adequate to cope with the normal work of this office and ene additional officer is indispensable.

Yours faithfully,

for DIRECTOR OF PUBLIC INSTRUCTION.

RETRENCHMENT AND REORGANISATION COMMITTEE'S REPORT-- Recommendation in regard to the post of clerk provided for each of the 4 Regional Inspectors of Physical Education.

Reference:-Government Memorandum No.81942-A/48-1 Edn., dated 4th November 1948.

—

With reference to the Government Memorandum, I have the honour to state that the Regional Inspectors of Physical Education have no separate offices and their offices are attached to the offices of the Divisional Inspectors concerned. Consequently the clerk sanctioned for the Regional Inspector of Physical Education has been absorbed in to the office establishment of the concerned Divisional Inspectors and in all the Divisions except Godavari the work of the Regional Inspector of Physical Education is distributed among all the clerks in the offices and likewise the clerk of the Regional Inspector is given work from other sections in the offices concerned. In Anantapur Division, however, the following work relating to the Regional Inspector of Physical Education is done by the clerk sanctioned for the Regional Inspector, besides other work of the Divisional Inspector's office.

1. Pay, Travelling Allowance and contingent bills
2. Statement of Receipts and expenditure
3. Statement of work done
4. Issue of inspection notices and submission of reports on Physical Education classes.
5. Assistance in all correspondence relating to the Regional Inspector of Physical Education.

38

2. The Divisional Inspector, Godavari Division reports that the entire work of the section relating to Regional Inspector of Physical Education is done by the clerk exclusively besides attending to the Registration of papers received in one of the sections of the office.

3. The number of papers received and disposed of in each of the years 1945 to 1948 as furnished by the Divisional Inspector is as follows:-

YEAR.	No.of papers received and disposed of.			
	Godavari Division.	Anantapur Division.	Madura Division	Coimbatore Division.
1945	753	542	1440	478
1946	440	250	2160	352
1947	441	272	(No separate figures)	314
1948	596 (upto Novr.1948)	297	Do.	526

4. The Divisional Inspectors report that the clerical work in their offices has considerably increased and if the post of the clerk of the Regional Inspector of Physical Education is retrenched, it will not be possible for the other clerks in the office to attend to the work (which is reported to be sufficient for a full time clerk)as they are already overworked. It will not be possible also for the Regional Inspector of Physical Education to attend to the clerical work besides attending to his inspection work.

5. In the circumstances I recommend that the four clerks provided for the Regional Inspectors of Physical Education may be retained.

Yours faithfully,

FOR DIRECTOR OF PUBLIC INSTRUCTION.

R.C.No.1109-A/45 dated 29..9..1945.

SIR,

Sub:-Proposals for strengthening the Directing and Inspecting Agencies in this Department.
Ref:-Your D.O.No.29317-Edn.-A-1 dated 2.8.1945.

I have the honour to submit for the favourable consideration of Government the following proposals for strengthening the Directing and Inspecting Agency of this Department as a Part II Scheme for 1946-47 after examining the suggestions contained in your D.O.quoted above.

Directing Agency:-

(a) Revival of the post of Deputy Directress: The post of Deputy Directress in this office was abolished in 1932, as a measure of retrenchment and since that year this office has been paying the closest attention possible to the improvement of Women's Education in all its phases. Women's education in this Presidency has not only had no set back but has, on the other hand considerably expanded during these years. The question of policy in regard to Elementary Education is the same whether the schools be for boys or for girls, there does not seem to be very much more that a Deputy Directress might be able to do in the organisation or re-organisation of Women's Education and having regard to the fact that co-education is increasing and that there have been no complaints from the officers in the Women's branch in regard to administrative or other matters. I do not therefore consider that the revival of the post of Deputy Directress is essential either for organisation or administration.

(b) Employment of an additional Personal Assistant.-

There is however an urgent need for relief to the Deputy Director in charge of finance and Secondary Schools. The number of secondary schools has greatly increased and the budget has increased also considerably. The work in connection with Elementary Education is also increasing tremendously on account of the introduction of compulsion, feeding, medical inspection etc. It is therefore essential that relief must be given to two Deputy Directors. I recommend,therefore, that the Government may be pleased to sanction the post of an additional Personal Assistant in this office in the Madras Educational Service in the scale of Rs.200-700 from 1.5.1946, together with two peons.

The cost for the employment of an additional Personal Assistant will be as follows.--

Cost in 1946-47:-

Pay of additional Personal Assistant.	200 x 10 ..	2,000/-
Pay of two peons(1 Door peon and 1 House peon).	12 x 2 x 10	240/-

Ultimate cost:-

Average pay of 1 M.E.S. Post	422 1/9 x 12 ..	5,065/-
Average pay of 2 peons.	176 x 2 ..	352/-
	Rs. 5,400/- in round figures.	5,417

Inspecting Agency:-

(a) Employment of an additional Inspectress of Girls' Schools:-

There are now seven Inspectresses of Girls' Schools for the Province including the one post sanctioned this year (G.O.No.554-Edn., dated 10.4.45). While addressing Government for sanction for one post of Inspectress last year I made it clear that there is a real need for 2 additional Inspectresses with reference to the number of secondary and Training schools for women, and the average number of schools assigned to each Inspectress for inspection (vide my letter R.C.No.837-A/44 dated 29.9.1944). I have submitted the necessary statistics in my above letter. The Government sanctioned the opening of 7 new secondary schools for girls in the current year (G.O.No.694-Education dated 1.5.1945). The average number of schools to be inspected by each Inspectress now is 31 against a standard of 21 schools for each Inspectress suggested by the Retrenchment Committee in 1932. The work of the existing Inspectresses is considerably heavy and they require immediate relief so that they may do intensive educational work. The addition of one more Inspectress will reduce the average number to 28. I consider that there is an urgent need for an additional Inspectress for the Province, particularly in view of the furtherance of women's education according to the post-war planning. The progressive scheme of compulsory Elementary Education will require the close attention of the Inspectresses. Secondary Schools are increasing every year and there will be a very large increase in the number of Elementary Schools for girls. I request therefore that the Government may be pleased to sanction the creation of an additional post of Inspectress in the Madras Educational Service together with the office staff with effect from 1.5.1946. I shall regroup the circles soon after the additional Inspectress's post is sanctioned and submit a report to Government.

The cost of the proposal is worked out below:-

Cost in 1946-47:-

Recurring:-	Pay of Inspectress in the Madras Educational Service. ..	200 x 10 ..	Rs. 2,000/-
	Pay of Head Clerk.	55 x 10 ..	550/-
	Pay of 5 clerks including a Typist.	30 x 5 x 10..	1,500/-
	Pay of 3 peons.	12 x 3 x 10..	360/-
	Travelling Allowance..	..	2,500/-
	Rent at Rs.100/- a month.	100 x 10. ..	1,000/-
	Contingencies.	..	1,000/-
Non-Recurring:-	Office equipment.		2,500/-
	Total		11,410/-
		or Rs. 11,400/-.	

Ultimate Cost.

Average pay of	Inspectress.	346 2/3 x 12 ..	4,160
Do.	Head Clerk.	65 3/4 x 12 ..	789
Do.	5 clerks including typist.	42 1/12 x 5 x 12 ..	2,525
Do.	3 peons	14.7 x 3 x 12 ..	528
Travelling Allowance..			2,500
Rent ..		..	1,200
Contingencies. ..		..	1,000
		Rs. 12,700/-.	12,702/-

(b) Additional District Educational Officers.

On examining the position in each District I feel that two more Educational Districts should be formed with two District Educational Officers. Guntur and Tinnevelly Districts are the heaviest in the Presidency with a vast jurisdiction and a very large number of schools. The number of Elementary Schools in Guntur District is the maximum viz. 2154 and Tinnevelly with 1845 schools comes next. The number of Secondary schools in Tinnevelly District is the maximum viz. 41 in the Presidency. Guntur has 33 schools which is also a very large number. There are 7 special schools in Guntur District and 4 special schools in Tinnevelly District. There are 10 Deputy Inspectors and 17 Junior Deputy Inspectors in Guntur District and 9 Deputy Inspectors and 12 Junior Deputy Inspectors in Tinnevelly District. The amount of Teaching grant disbursed to elementary schools in Guntur and Tinnevelly Districts in the current year is Rs.6,59,300 and Rs. 7,49,494/- respectively. The Inspection and administrative work of the District Educational Officers, Guntur and Tinnevelly, has so enormously increased that they are put to considerable strain. With the introduction of the compulsory elementary education scheme, they have to spend more time on the working and expansion of the scheme. The work of each of the District Educational Officers,Guntur and Tinnevelly, is far too heavy for a single officer. I request therefore that the Government may be pleased to sanction the bifurcation of the two Districts in question for educational purposes and the employment of two District Educational Officers additionally with the requisite staff. The sanction may take effect from 1.5.1946. Soon after the proposal is approved, I shall submit the redistribution of work for the sanction of Government.

The financial effect of the proposal is worked out below--

Existing sanctioned staff.

Dt.Edl.Officer's Office at Guntur.	Dt.Edl.Officer's Office at Tinnevelly.
1 Head Clerk.	1 Head Clerk
7 Clerks.	6 Clerks
2 Typists.	2 Typists
1 Attender.	1 Attender
3 Peons.	3 Peons.

The normal staff of a District Educational Officer's office consists of 1 Head Clerk, 4 clerks, 2 Typists and 3 Peons. In order to distribute staff equally to the new District offices on the above basis it will be necessary 1. to convert the posts of Attenders (Vide G.O.440-Edn.,dated 20.3.1944) into posts of clerks and 2. to sanction the following additional staff.--

1 Head Clerk }
2 Typists } For the additional District in Guntur.
3 Peons. }

R.C.No.397-C1/48 dated 10th February 1948.

Sir,

MADRAS EDUCATIONAL SERVICE--Removal of statutory bar to appointment of women to certain posts.
Reference:-Government Memo.No.71097-A-1 dated 3.2.1947.

I have the honour to state that at present women are not eligible for appointment to the following posts in the Madras Educational Service.

Class I.	..	Director of Public Instruction
Class II.	..	Deputy Directors of Public Instruction Divisional Inspectors Personal Assistant to the Director of Public Instruction. District Educational Officers Superintendent of Sanskrit Schools Secretary to the Commissioner for Govt. Examinations. Headmaster, Madrasa-i-Azam.
Grade III.	..	Principals, vice-Principal, Professors, Lecturers in the Arts and Training Colleges for Men.
Class IV.	..	All posts in the Law College.
Class V.	..	All posts in the Engineering Colleges.
Class VI.	..	Manual Training Expert.

In regard to the question of removing the above restriction in regard to the appointment of women in the Men's Branch, I have the honour to submit the following remarks.

2. Though it is not possible to generalize, I may submit that, as a rule, women officers are exceptionally good as teachers and good for secretarial work; but they make poor administrators. I consider that it is very undesirable at present to throw open administrative posts to women officers. Experience shows that except for a few cases, the women officers have not come upto expectations even as Inspectresses of Girls' Schools. Where duties involve strenuous touring and dealings with the public generally, women officers have not been found quite suitable. I therefore consider that there is no need to remove the existing restriction to the appointment of women to any of the administrative posts in the Men's Branch of the M.E.S.

3. However, I do not see any objection to throwing open to women the Madras Educational Service posts in the Training Colleges for Men, except that of the post of the Principal. In this connection I would also suggest that the present restriction in regard to the appointment of men to the M.E.S. posts in the Women's ~~Training~~ Colleges(except that of Principal) may be removed so far as appointments to the Training College for women are concerned,

2.

Remarks: The Divisional Inspector, Anantapur, reports that the work in the Office will be particularly heavy from July to December when all schools reopen after summar vacation. - a copy of his letter Roc.No. 738 C1/49- dated 8.9.49 is also furnished for information.

The Divisional Inspector, Mathurai reports that, since the amalgamation of the Office of the Regional Inspector of Physical Education, with his office, the Regional Inspector ceased to be an independent Officer and no tapals are addressed to or emanated from him and hence he is unable to distinguish the number of papers relating to the Regional Inspector of Physical Education to be excluded from the papers received by him. The number of papers received and disposed of furnished by him above includes papers relating to Physical Education also. He further reports that the figures in regard to No. of papers received and disposed of do not include statistics reports, returns, bills etc. emanated from his office. It is also reported that

Sub: Retrenchment and Reorganisation Committee Report - Abolition of the Posts of Clerks - Regional Inspector of Physical Education
Ref: Government Memorandum No. 1155-A-14/48-A Education dated 26th August, 1949

In continuation of this office Roc No. 734-G1/49 dated 2-9-49, I submit that this office clerks are given separate branch of works as detailed below :--

General Section.	Public Services etc.
'A' Section	Accounts and Grants.
'B' Section	Secondary Education
'C' Section	Elementary schools under Public-management, return of visits etc.
'D' Section	Elementary Education - Aided schools and Compulsory Education.
'E' Section	Special Education, Training, Basic, Adult and Physical Education.

In the recent years the work in the General Section and B section has increased enormously. Particularly in the General Section during August 1949, the following number of references were received.

Week ending.	6--8-1949	..	125 papers
"	13--8-1949	..	168 "
"	20--8-1949	..	119 "
"	27--8-1949	..	138 "
			550 "

For the week ending 3--9--1949 -- 148 papers were received.

As it is, the clerk maintaining the General Personal Register is finding it extremely difficult to register the tappals received on any particular day on the day itself and it sometimes takes 2 days for registering and putting up back references.

As it is, every section has tight work and it is not found possible to apportion a part of this section work to any other clerk. As a matter of fact, I have been collecting statistics to show the increase in work during the recent 3 years though the clerical establishment sanctioned in 1937, when the officers were newly created, continued to be the same even after the heavy increase and I was about to submit proposals for the sanction of one additional lower division clerk for this office before the Govt. memorandum was received.

Further in an Office like the Divl. Inspector of Schools, constant reference are received from the Dt.Educational Officers requesting clarification and orders on certain knotty problems, in which cases a clerk dealing with the reference will have to put up the precedents, Govt. Orders and also a note discussing all aspects and points raised for orders. Taking into cosideration the onerous nature of the work done, an additional clerk for the office is found necessary in addition to the retention of the clerk of the Regional Inspector of Physical Education, who is also doing one complete branch of work in this office.

Though from the statistics furnished to Govt. it will be seen that each clerk has only about 15 or 16 papers for day on an average, scrutiny of the references, consolidation and putting up of notes and drafts take longer time and papers are now being attended to without delay because the office works for 9 to 10 hours each day i.e. both in the mornings and evenings outof office hours and also on Holidays which involves greater strain on the establishment.

The sanction of an additional Lower Division Clerk for the office will go a long way to relieve the present strain on the office establishment, relieve the congestion and facilitate disposal of papers with greater speed.

PUBLIC(SERVICES)DEPARTMENT.

G.O.Note No.3101/48-17 dated 19-1-1950.

Sub: PUBLIC SERVICES - Regional or intermediary officers between Heads of Departments and District Officers - Retention - Orders passed.

In connexion with the question whether or not the recommendation of the Retrenchment and Reorganisation Committee for the abolition of the four posts of Divisional Inspectors in the Educational Department should be accepted, it was considered that the need for retention of the several Regional or Intermediary officers between Heads of Departments and District officers in the Province should be examined as a general question. For the purpose, a list of such officers in each department together with the remarks of the administrative department of the Secretariat concerned was obtained and a comprehensive note was prepared for the consideration of the Government. The administrative department concerned generally recommended the retention of such posts under them. The Departments of the Secretariat are informed that the Government have decided that the four posts of Divisional Inspectors in the Education Department be retained and have also accepted the recommendation of the Departments of the Secretariat in respect of the other posts.

POLICE DEPARTMENT

6 Dy.Inspectors-General.

Of the 6 D.I.Gs four are in charge of ranges, one in charge of the City (Commissioner of Police) and the other in charge of Railways and C.I.D.

The powers and duties of a D.I.G. are as follows:-

(1) He should endeavour by frequent personal inspection to establish and maintain efficiency and discipline to ensure ~~unfix~~ uniformity of procedure and practice and to secure co-operation between the Police of his several districts as well as harmonious working between the Police and the Magistracy.

(2) He should control, instruct and advice D.S.Ps. while being careful not to supersede them in any of their proper functions or relations to their subordinates.

(3) He has powers in the matter of appointments, postings, leave, rewards, punishments ~~and approx in respect of~~

The Committee agrees with the I.G. of Police that, in the present disturbed state of the country, it is not desirable to interfere with the setup of the Police organisation. For this reason, the Committee has refrained from making any recommendations for retrenchment and re-organisation in the Police Department just at present. The Committee, however, considers that, when normal circumstances are established in course of time, it should be possible to reduce the strength of the Police staff. The Inspector-General of Police has agreed to examine this question in proper time. For the present, the Committee only recommends that the Headquarters of the Northern range Dy.Inspector General may be shifted to Vijayawada and that of the Western Range to Coimbatore for more effective control."

Instead of reducing the strength of the D.I.Gs we have actually added one recently to be in charge of the Special Armed Police units and entrusted him with the control of the S.A.P.Units, M.S.P. and Home Guards in the districts When we return to normal times we can re-examine the need to retain the territorial or regional D.I.Gs. but in the present conditions they have to continue to ensure preservation of law and order.

	and appeals in respect of the members of the Police Subordinate Service and the Ministerial staff in Police Offices in districts. (4) He is responsible for the prevention of crime and should see that adequate arrangements are made for dealing with any unusual out-break in his Range. It is also his duty to exercise a constant scrutiny over the course of investigation of cases to see that Gazetted Officers take an addquate part therein, and to watch the investigation of ~~xxxpxxix~~ complicated and important cases in his Range.		
		LOCAL FUND AUDIT DEPARTMENT	
1 Dy.Examiner and 3 Assistant Examiners.	The Deputy Examiner is in immediate charge of the head office which deals with administrative matters and is also in charge of the Central Circle with his headquarters at Madras. The Asst.Examiners are in charge of other 3 circles each comprising 6 to 9 districts.	The Retrenchment and Re-organisation Committee did not make any recommendations regarding these posts.	The District Inspectors in charge of audit offices at the district headquarters are not gazetted officers. The circle officers cannot be deemed to be Regional or Intermediary officers between the Head of the Department and District Officers. It is essential for the proper administration of the Department that these circle officers should be continued. If the circle officers are dispensed with, it will be necessary to give gazetted rank to the present District Inspectors and this will result in considerable extra expenditure.

(1)	(2)	(3)	(4)
		FIRE SERVICES DEPARTMENT	56
3 Chief Regional Fire Officers.		The Committee has recommended that the posts of the D.F.S., C.R.Fx Os., Divisional and District Officers in the M.F.S. may all be abolished and the department merged with the Police Department.	The Cabinet has since decided to transfer the control of the M.F.S. to the I.G. of Police and abolish the posts of the D.F.S. P.A. to D.F.S. and C.R.F.Os and Dvl.Officers with effect from 30-9-1949, the date on which the present contract with the M.F.S.Officers expires. Sanction was accorded for the continuance of the post of the P.A. to D.F.S. as P.A. to I.G. of Police F.S.Branch till 30-12-1949.
		FIRKA DEVELOPMENT DEPARTMENT.	
2 Regional Firka Development Officers (Northern and Southern Ranges.	The R.F.D.Os (North and South Ranges) have to tour the firkas in their Ranges and also supervise and conduct the training courses for constructive workers at the two training centres in West Godavari and Mathurai Dists.	The R.&.R. Committee did not make any recommendation regarding these posts.	Their services are quite essential.
3 Honorary Regional Khadi Officers.	There are three Hony.Regional Khadi Officers - one for the Andhra area, another for Tamilnad area and the third for the Kerala area. These Hony. Regional Kahdi Officers do not draw any pay from Govt. but draw T.A. upto Rs.100/-p.m.	The R.&.R.Committee did not make any recommendations regarding these posts.	The day-to-day administration of each centre is being conducted by the Centre Khadi Officers under the Instruction and guidance of Honorary Regional Khadi Officers. The retention of these "Hony" posts so long as this scheme continues to be in operation is quite necessary.

(1)	(2)	(3)	(4)
		FISHERIES DEPARTMENT.	
Two Dy.Directors of Fisheries.	Two posts of Dy.Directors of Fisheries were created in December 1944 to assist the Director in all technical matters in Fisheries and to help him to formulate schemes for the development of fisheries and for their proper execution. The duties of Dy.Directors hitherto were allotted on a functional basis i.e. on for Inland Section and the other for Marine Section. The Director has suggested that the Dy.Directors should work on a regional basis, i.e. one for the North and the other for the South so as to have a closer control and supervision of all the developments relating to Fisheries throughout the Province.	The Retrenchment and Reorganisation Committee has recognised the need for the retention of the two posts of Dy. Directors and has also agreed to the proposal that these Dy.Directors should work on a regional basis.	The Govt. have accepted the recommendations of the R.&.R.Committee. The Dy. Directors for Marine and Inland Sections have since been designated as Dy. Director (South) and Dy. Director (North) with effect from 1-7-49. They are technical officers of the Deptt. who advise the Director of Fisheries and there is no case for their abolition.
		AGRICULTURAL DEPARTMENT.	
Regional Dy. Directors of Agriculture.		In April 1949 it was orginally decided to retain all the nine posts of Regl.Dy.Directors of Agriculture and orders issued ~~xxxxxxxx~~ accordingly in G.O.No.2048 Dev. D/14-4-49. Further the general question ~~xxx xxxxxxxxx~~ whether the present structure and strength of the organisational and field staff including the post of Regional Dy.Director should be continued was also been recently considred by the Cabinet -October'49 - It has been decided to continue the existing strength.As a measure of retrenchment only the post of Regl.Dy.Director, Tungabhadra Project,Bellary Dt. is proposed to be abolished. -Vide G.O.Ms.1346 F&A D/7-11-49	
		CO-OPERATIVE DEPARTMENT.	
Joint Registrars of Co-operative Societies.	Joint Registrars cannot be called regional or intermediary officers. The work is divided among the Registrar and the Joint Registrars on a functional ~~basis and the Joint~~

basis and the Joint Registrars exercise all the powers of Registrar so far as their functions are concerned subject to the overall direction of the Registrar.

Dy.Commissioner of Prohibition (Amelioration)

The Dy.Commissioners of prohibition (Amelioration) is a Joint Registrar of Cooperative Societies. His Jurisdiction ~~xx~~ extends throughout the Presidency. He is entrusted with the Prohibition (Amelioration) work which comprises roughly of (i) Provision of substitutes for drink and counter-attractions to drink (ii) Provision of employment to extappers on co-operative scheme like jaggery societies land colonisation societies, milk supply societies and (iii) Co-ordination of the beneficial activities of all other departments of Government (a) by the organisation of rural uplift schools in which officers of the various departments of Govt. participate~~x~~ and (b) by the joint visits of the officers of ~~xf~~ various departments to villages which respond to rural uplift work.

The R.&.R.Committee recommended the abolition of the post of the Jt. Registrar and Dy.Commissioner of Prohibition (Amelioration) and the entrustment of the Amelioration work to the Joint Registrar of Co-operative Societies separately proposed by the R.C.S. for development of cottage industries Co-operative Societies. It ~~R~~recommended the abolition of certain other posts also and the transfer of the Amelioration work connected with Prohibition from the Board of Revenue to the R.C.S.

The R.C.S.pointed out that the Amelioration work did not only consist of the organisation of cottage industries Co-operative Societies but embraced social and recreational activities and the work of finding alternative employment to ex-tappers and stressed that an officer of the status of a Joint Registrar should be in sole charge of the work. At an informal meeting of H.Ms. held on 9-9-48 it was decided to continue the ~~t~~hen existing posts of the amelioration branch of the Prohibition Department (with the exception of Ballad singers and village guides) with some slight modifications. It was also decided that the amelioration work should be transferred to the Co-operative department from 15-10-1948.

The Government have since ordered in G.O.Ms.No.4325 Dev. dated 24-8-1949 that status quo should be maintained.

FOREST DEPARTMENT.

5 Conservators of Forests (4 in charge of Circles and 1 in charge of working Plans work)

The R.&.R.Committee recommended that there was no necessity for 4 conservators of Forests and that they may be reduced to 1 or 2. The Committee agreed to the retention** of the Conservator for working plans work.

		FACTORIES DEPARTMENT.	
Dy.Chief Inspector of Factories.	The Dy.C.I.F. is an intermediary officers between the Chief Inspectors of Factories and the Inspectors of Factories.		There is no full time post of Chief Inspector. As the Chief Inspector has many other functions, e.g. Commissioner of Labour, Commissioner for Workmen's Compensation, Registrar of Trade Unions, etc. the Dy.Chief Inspector is like an Asst. of the Commissioner of Labour and therefore the post cannot be abolished.
		ANIMAL HUSBANDRY DEPARTMENT.	
Livestock Development Officer.	It is an intermediary post between the Jt.Directors of Animal Husbandry and Dt.Officers.	Recommended abolition of the post.	It has been decided to continue to have the post.The question whether the post of Jt.Dy.A.H. and/or L.D.O. should be retained is again under consideration. The file is in circulation and is now with H.Pr.
		HIGHWAYS DEPARTMENT.	
6 Superintending Engineers(5 for 5 territorial circles and 1 for Spl. Circle for Bridge Works).		The Committee has recommended the abolition of the 5 regional S.Es and the 2 posts might be continued at headquarters to assist the C.E. It has agreed to the retention of the post of S.E.(Bridges).	The C.E.has agreed to the reduction of one territorial Circle and orders have since been issued in G.O.No.4627 P.W. d/30-11-48 abolishing the post of S.E-Bellary Circle. The post of S.E. was abolished w.e.f. the A.N. of 16-1-1949. As regards the other S.Es the decision on the main question of abolishing Regl.Officers is awaited. P.W.D.consider that the retrenchment that was possible has been effected by abolishing one post and that nothing more can be done in the dept. as now organised.

The Superintendent Engineers are intermediary officers between the C.E. and District Officers.The technical work done by S.E.specially in regard to irrigation cannot be done by	The Committee agree with the C.E.(Buildings and Irrigation) that the 7 S.Es. who are now doing irrigation work should not be reduced. 	ELECTRICITY DEPARTMENT.		
Superintending Engineers.	The S.E. is a Regional Officer (i.e.) intermediate in status and powers between the Head of the Department and the District Officer. He is not a purely administrative ~~officxxxrxxHxxxixxxxx~~ functionary but is in fact the hub round which the system functions. Each operating system or each major constructions or group of construction works is in charge of a S.E. and all matters relating to administration, accounts and stroes are centralised in the S.E's office. In addition to his techinical duties connected with operation and maintenance of the System construction and Commercial work, the S.E. of the System is in charge of revenue collections and disbursements, co-ordinates inter-system power working and initiates - planning and preparation of Schemes.	No recommendation.	The posts should be retained.
	FOOD DEPARTMENT (Civil Supplies)		
4 Dy.Commissioner of Civil Supplies. 1 Asst.Commissioner (Movement) and 4 Entomologists.	They have no separate offices of their own, but are attached to Board's office, with jurisdiction over specific areas for specific items of work, to assist and advise the Commissioner of Civil Supplies in his executive work. They are not intermediary officers and they have no district officers under them.		They cannot be treated as Regional Officers. They have been sanctioned for specific items of work and their continuance is necessary in the interests of administrative efficiency ~~encxx~~

The lorries in each unit in the mofussil are in charge of a Non-Gazetted Asst. Transport Officer, with two Gazetted Area Transport Officers above them at Coimbatore and Vijayawada. (4) The C.S.T. Unit in the City works under the City Transport Officer, who is also under the general control of the P.R.T.O.	They are not Regional Officers. Not an intermediate officer.
		EDUCATION DEPARTMENT.	
4 Divisional Inspectors.	The Divl.Inspectors act as Intermediary Officers between the D.E.Os and the Director of Public Instruction. These posts were created in 1936. Their main work is to carry out the Govt.'s policy particularly in regard to Elementary education, to keep a strict watch over the manner in which public funds are expended, to prevent wasteful expenditure on ineffective and inefficient schools and to supervise the work of D.E.Os and their subordinate staff. They are also to exercise the powers that would be delegated to them by the D.P.I. and perform such other work as would be assigned to them. They have to conduct enquiries into the conduct of subordinate officers including D.E.Os to exercise the power of appellate authority in all cases of appeal against the orders of the D.E.Os and the subordinate Inspecting Officers. The Divl.Insprs are in charge of general	The R.&.R.Committee considers that so far as elementary education is concerned, an advisory Committee composed of influential non-officials may be constituted, either for the Taluk or the District as a whole to assist the D.E.O. in dealing with matters like the recognition of schools, the opening of new schools, and new sections and the distribution of grants.	The D.P.I. says:- For constant and effective supervision of the D.E.Os and for conducting into the numerous complaints which are being sent to me by Govt. an intermediate officer is essential. In fact, we require one more officer in that grade to reduce the jurisdiction of the four Divil.Inspectors. The D.E.Os. enjoy considerable powers as it is and any further delegation to junior officers will be disastrous. On this account, therefore, the suggestion to delegate the

Thus the four posts of Divl.Inspectors and their staff may be retrenched.	the powers of the Divl. Inspectors to the D.E.Os cannot be accepted. If on the other ~~kk~~ hand all the powers now enjoyed by the Divl.Inspectors are taken over by me, administration will become even more dangerously centralised than it is. The control that can be exercised by this office would be weak and ineffective. For quick despatch of business, intermediary officers who are frequently touring in their jurisdiction and are easily accessible to the public as well as local officials and who can also gather information on the spot are essential. The work of ~~kxxxkxx kx xxx~~ Divl.Inspectors cannot be entrusted to non-official Committees.

The E.&.P.H. considered that the post should be retained.

The previous H.M.(Education) minuted as follows:-

"Advisory Committees cannot be entrusted with the work of making decisions. The work of the department has grown enormously and it is necessary that to avoid congestion at the Director's office certain of the appeals should be stopped at a middle stage. Most of the decisions have to be taken by the D.E.O., and that must have at least one appeal with the Divisional Inspector. Besides, we have in the new agreements prescribed appeals for teachers in aided institutions. The number of Secondary Schools has nearly doubled and this means a great deal of work and so, I think the status quo may continue."

Each of these Asst. Directors is in charge of a range comprising of 8 or 9 districts for purposes of inspection and control of Public Health Administration. In regard to functions also certain specified subjects have been allotted to each of them. They have thus a functional as well as territorial distribution of work. They have their headquarters at Madras and make inspection tours within their respective ranges.	The R.&.R.Committee has recommended that one of these 3 posts of A.Ds.P.H. may be retrenched. The Committee is of the view that as these A.Ds.P.H.are not specialists in functions attached to them and are only senior first class Health Officers promoted as A.Ds.P.H. there is no justification for any functional distribution of work among them and that the reduction of their number from three to two is amply justified.	The D.P.H.is very strongly opposed to the proposal on the ground that the territorial duties of the range A.Ds.P.H. are already too heavy, that their position has become worse after the abolition of the post of A. D.P.H.(Est) in 1947 and that the retrenchment of another post will result in deterioration of the Public Health administration. (Orders have since been issued retrenching one post of A.D.P.H.)
(4) A.D.P.H. (Maternity & C.W.). - (P) (5) A.D.P.H. (Mal.& Mosquito borne diseases) -(T)	These are special posts held by officers who have got specilised knowledge in the subjects dealt with by them. Their jurisdiction extends throughout the Province.	The retention of these posts is quite necessary and that was also the view of the R.&.R. Committee.	
(6) A.D.P.H. (Professor of Hygine,Madras Medical College)(P) (7) A.D.P.H.(Professor of Hygine Stanley Medical College)(T)	These two officers are holding professorial appointments in the Medical College.		Need not be considered in view of what is stated in column (2)

(1)	(2)	(3)	(4)
(8) A.D.P.H. (Ests.& P.W.R.)-(T)	Temporary post sanctioned first in connexion with war work and continued later on for assisting the D.P.H. in the work relating to establishment and Post-War schemes. Post abolished in 1947.		
(9) A.D.P.H. (Nutrition) (T)	This is also a specialist post sanctioned in implementation of the Post-war Scheme for Nutrition Research. The post is kept in abeyance for the present. The work connected with this post is being carried by a Nutrition Officer of the grade of I Class Health Officer.

REVENUE DEPARTMENT.
COMMERCIAL TAXES DEPARTMENT

3. Dy.Commissioners of Commercial Taxes.	In 1943 two posts of Dy.Commissioners of C.T. were created and in 1945 one more post was added. Each Dy. Commissioner in charge of a division comprising 8-10 Districts. Their main duties are to inspect the offices of the C.T.Os., D.C.T.Os and A.C.T.Os check the work of individual officers, investigate cases of individual assessing officers, to conduct disciplinary enquiries and to scrutinize the diaries of Commercial Tax Officers. They are intermediary supervising and controlling officers between the Commissioner of Commercial Taxes and the C.T.Os.	The R.&.R. Committee has not recommended abolition.	The Board of Revenue says:- "Government are basing all their hope on the Commercial Taxes Acts to fill up the big gap caused by the Province-wide Prohibition. It is therefore very essential that the structure of the Commercial Taxes Department is well founded . The C.T.Os are only of Dy. Collectors grade and it may not be desirable to rely on them for every thing without close supervision and control.Apart from this, the duties and powers of the Dy.Commissioners cannot be entrusted to the C.T.Os. in the interests of fair and efficient administration. All of them can neither be carried out by the Commissioner of Commercial Taxes so long as he happens to be the Commissioner of Land Revenue also and unless the staff in the Commercial Taxes Branch of the Board's Office is tripled. Another point for consideration is, the post of the Dy.Commissioner is necessary in the organisation of the department to avoid stagnation in the category of C.T.Os and the consequential degeneration.

112

(1)	(2)	(3)	(4)
			In the circumstances the posts of Deputy Commissioners who are intermediary supervising and controlling officers between the Commissioner of Commercial Taxes and the Commercial Tax Officers are essential. At any rate they should not be distrubed till the department, which is still in its infancy, gets stabilised." The Revenue Department agrees that the posts should be retained.
	EXCISE & PROHIBITION DEPARTMENTS.		
Assistant Commissioner for distilleries.	He is a presidency officer having the whole Presidency as his jurisdiction and under him there are at present no district officers but only local officers directly in charge of distillery and allied institutions. He is not a regional or an intermediary officer.	The R.&.R. Committee did not make any recommendation regarding this post.	The Revenue department agree with the Board that it is necessary to continue the post.
2 Dy.Commissioners of Prohibition (Enforcement).	There are two Dy.Commissioners, one for the northern division comprising the 8 Excise Telugu Prohibition Districts and the other for the Southern division comprising the remaining 8 Excise Prohibition Districts.	The R.&.R. Committee did not make any recommendation regarding these posts.	The Board ~~of~~ considers that for the effective enforcement of prohibition, it should have the assistance of the Deputies. There has been an increase in the duties of the Commissioner recently with the reduction in the number of members of the Board of Revenue from 4 to 3. A post of a fourth member has been created but it is for a specific ~~purpose~~ purpose viz. for work connected with Zamindari abolition. Without the assistance of the Dy.Commissioners, it will be impossible for the Commissioner to ensure close supervision of the 16 District~~x~~ Prohibition Officers. The Revenue department agree that it is necessary to continue the posts.

(1)	(2)	(3)	(4)
	LOCAL ADMINISTRATION DEPARTMENT		61
4 Deputy Inspectors of Municipal Councils and Local Boards.	Three of these posts were created as early as 1947 in order to reduce the volume of work in the Secretariat and to relieve the Inspector of a large volume of routine work, by delegating certain powers then exercised by Government and the Inspector to the Deputy Inspectors as also to render the supervision of the work of local bodies more effective and to improve the standard of administration of local boards and Municipal Councils by a systematic and periodical inspection of offices of local bodies. Since then several powers exercised by the Government and the Inspector have been delegated to the Deputy Inspectors. To cope with the increase in the volume of work a fourth post of Deputy Inspector was also created in 1944.	The R._.R.Committee has recommended that when Dt.Boards are abolished or re-constituted on a different basis and a new Panchayat Act is passed, the posts of the Inspector of Municipal Councils and Local Boards and his deputies may be abolished.	As the Cabinet has decided in connection with the New Village Panchayat Bill that Panchayats should compulsorily be constituted for every village or groups of small villages, there will in future be many more panchayats than at present. As the decision of the Government is that panchayats should continue to be supervised by Deputy Inspectors, etc., it is absolutely necessary that the posts of Deputy Inspectors should be retained. H.M.(L.A.) has minuted that reduction in the present strength of Deputy Inspectors of Municipal Councils and Local Boards is not possible.

65. Edn and P.H Dept

The printed Report of the Madras Retrenchment and Reorganisation Committee has since been recd. According to the instructions issued by the Finance dept only those recommendations which are in the printed Report and not all those contained in the minutes of the Committee communicated to depts from time to time need be examined. The recommendations with which this section is concerned (other sections have separate files in respect of recommendations with which they are concerned) are:—

(1) appointment of a joint Director of Public Instruction.

— (2) abolition of the post of Inspectresses in the Director's office and the appointment of a woman as one of the Dy. Directors

(3) abolition of the posts of Devl Inspctrs of Schools and their Staff.

(4) amalgamation of the inspectorate for boys and girls' schools.

— (5) abolition of the posts of 4 clerks under the four Regional Physical Directors

(6) transfer of control of Engg: colleges from the Edn to the Public Works dept

(1) and (4) above

Orders have been issued in accordance with these recommendations. The question of the distribution of work between the D.P.I and the Joint D.P.I is being

examined separately

(2) above

The previous noting on this recommendation was based on the assumption that what the Committee suggested was the appointment of a Dy Directress in the place of the existing Inspectress. This assumption was based on the remarks in para 4 of the Srb. Committees report on page 12 of Pt I. From the printed report it is observed that the Committees intention was to abolish the post of Inspectress altogether and to appoint a woman in one of the sanctioned posts of Dy Directors. The D.P.I has been asked to offer his remarks on this recommendation and his reply is awaited. A draft reminder is submitted.

[Issued as D.O. No. 1155-A-10/48-EdII dated 15-11-48.]

(3) above

This is to be discussed at an informal meeting of the Ministers and it has been ordered that the Chief Secy himself prepare a consolidated note in respect of such intermediate officers in all depts. A draft note about Divl Inspectrs of Schools is submitted. It may be sent to the Public dept.

(5) above

This requires a further reference to the D.P.I. Extracts of notes have been taken and a separate file has been started

(6) above

The orders in circulation are that the matters dealt with in this file should be discussed at an informal meeting of the Ministers. After the replies of the D.P.I. are received to letters

to A and B are read. A note for the informal meeting of the Ministers will be submitted. For the present the note regarding Divl Inspectrs may be sent to Public and this case may lie over till the Directors replies are read.

The Director has sent this reply about the allocation of work among the Director, Joint Director and Dy. Directors and about the appointment of a woman as Dy. Director. His reply about the abolition of the posts employed under the Regional Physical Director has not been read. He is being reminded in the D.O. This may lie over till that reply is read:

From the D.P.I.,T.M.(by post) No.3054-C1/48, dated 26--4--1949;

Notes from page 7 ante may be perused. Further action is necessary only in regard to items (2), (5) and (6) on page 7 ante.

Item (2):- Abolition of the post of Inspectress in the Director's Office and appointment of a woman as one of the Dy. Directors:- After the creation of the post of Jt. Director, there are now only two posts of Dy. Directors. The D.P.I. states that as the bulk

of the Dy. Director's work relates to boys' education, it is not possible to appoint a woman officer to either of the two posts without disturbing the present administrative set-up and separating matters relating to girls' education. In connection with a proposal to revive the post of Dy. Directress in 1945 the Director stated that since the post of Dy. Directress was originally abolished, his office had been paying the closest attention possible to the improvement of women's education in all its phases and that women's education had not ~~only~~ any set back but had, on the other hand, considerably expanded during these years. The Director opined that as the question of policy in regard to Elementary Education is the same whether the schools be for boys or for girls, there might not be very much more that a Dy. Directress might be able to do in organisation or reorganisation of women's education. The Director further stated that having regard to the fact that co-education was increasing and that there had been no complaints from the officers of the women's branch in regard to administrative or other matters, the revival of the post of Dy. Directress was not necessary. The Director now also states that with the amalgamation of boys' and girls' ranges of the subordinate inspectorate, the inspectresses have been relieved of the charge of elementary education of girls and the officers of the Men's branch are now responsible for the supervision and organisation of girls' education in the primary stage and as such, the need for having a woman Dy. Director has thus considerably diminished. The Director adds that there remains the difficulty of finding successive woman officers equal to the post of a Dy. Director, the duties and responsibilities of which are arduous. The Director therefore considers that the recommendation of the Retrenchment Committee that a woman may be appointed to one of the posts of Dy.Directors is not practicable. In the circumstances, the Govt. need not accept the Retrenchment Committee's recommendation to abolish the post of Inspectress in the D.P.I.'s office and to appoint a woman to one of the posts of Dy. Directors.

(5) Abolition of the 4 posts of clerks under the four Regional Physical Directors:- The D.P.I. states that the Regional Inspectors of Physical Education have no separate offices and that their offices are attached to those of the Divisional Inspectors concerned. Consequently, the Director states the posts of clerks sanctioned for the Regional Inspectors of Physical Education have been absorbed into the office establishment of the concerned Divisional Inspectors and that in all the Divisions except Godavari the work of the Regional Inspector of Physical Education is distributed among all the clerks in the offices and likewise the clerk of the Regional Inspector is given work from other sections in the offices concerned. The Director states that the clerical work in the offices of the Divisional Inspectors has increased and that if the posts of clerks of the Regional Inspectors of Physical Education are retrenched, it will not be possible for the other clerks in their offices to attend to the work. The Director therefore recommends that the four posts of clerks for the Regional Inspectors of Physical Education may be retained. In the circumstances, the Govt. may accept the Director's recommendation.

(6) Transfer of control of the Engineering Colleges from the Education Department to the P.W.D.:- A separate file has been started on this subject and extracts from this file have been added to that file. It is now in circulation. No further action is necessary regarding this item in this file.

The file may be sent to Finance for remarks before circulation.

28/8/49.

24/8/49

128

Almost all the arugments advanced by the Director for avoiding the revival of the post of Deputy Directress can be accepted for ~~what they are~~ the revival. If the distinction between boys and girls in elementary schools has been eliminated, there is no reason that the same should be done at the level of Deputy Directress in which a woman can do the same work as a man without disturbing the administrative set-up. On the other hand, there is necessity at least for one woman in the set-up to make up for elimination of women officers to girls education and to duly represent the special aspects of female education ~~wh~~ which may tend to be ignored by men. There is also the question of the large body of women teachers whose interests and grievances can only be properly looked after by a woman. The difficulty of finding women officers cannot be presumed until the recruits available in the service and, if necessary outside, are actually considered. I am therefore inclined to agree with the Retrenchment Committee that a woman should be appointed to one of the posts of Deputy Directors.

B

In respect of the posts of four clerks of the Regional Physical Directors, the Director should be asked to give details of the currents disposed by the staff of the Divisional Inspectors/which these clerks have been absorbed.

A draft memo to the D.P.S with reference to M above is subd.

In this connection it may be mentioned that the question of effecting retrenchment in the offices of the Divl. Inspectors of Schools was considered separately and the Finance dept noted as follows: "Finance may also suggest that at least as a token of implementing the cut one pot of lower

division clerk in each of the offices of the 4 Divl Inspectors of Schools be retrenched".

The D.P.I had stated that no retrenchment is possible in his dept and that it would be a great mistake to curtail existing educational facilities. The Deputy Secy, Finance, noted that the retrenchment suggested by the dept was unnecessary. In the circumstances it is for consideration whether any further Statistics need be called for. E & P.H. (A).

There are 2 recommendations ~~after~~ of the Retrenchment and Reorganisation Committee ~~from~~ in this file on which final orders have to be taken. They are

(1) abolition of the post of Inspectress in the Director's office and appointment of a woman officer to one of the two posts of Dy. Directors.

(2) abolition of the four posts of clerks under the four Regional Physical Directors.

Item (1).

The D.P.I. has recommended that no change in the existing arrangement is necessary. Secy. has taken the view that a woman should be appointed to one of the two posts of the Dy. Directors, and Fin. have agreed with the view. It is presumed that Secy.'s intention is that if this recommendation is accepted the post of Inspectress of Schools in the Director's office may be abolished.

In this connection it may be mentioned that there has been a reallocation of subjects among the various officers in the Dir's office. On account of heavy work in his office the Director has proposed the

appointment of an addl. Dy. Director and this is being treated as a Part II Scheme for 1950-51. If this materialises, it may be possible to appoint a woman officer to the proposed 3rd post of Dy. Director ~~without any change in the existing arrangements which is not favoured by the D.P.I.~~ It is therefore for consideration whether the issue of final orders on this recommendation of the Rn & R. Committee may not be kept pending until orders are passed in the Part II Scheme referred to above. If this is agreed to, Fin. may see the file again. [Issued as Memo. No. 1155A-18/48 A Edn. dt. 22.2.50.]

This file relates to some of the recommendations of the Retrenchment Committee as so far as they relate to Education Dept. Orders have been issued on all the recommendations dealt with in this file except one viz. abolition of the post of Inspectress in the Director's office and appointment of a woman as one of the Dy. Directors. The Director was against this proposal. The previous Secretary, Mr. Lobo Prabhu, however took the view that all the arguments advanced by the Director for avoiding the appointment of a Deputy/Directress could also be advanced in favour of the proposal. In the meanwhile the Director had proposed the appointment of an additional Deputy Director and it was decided that the question of appointing a woman as a Dy. Director could be held over till a decision arrived at on that proposal. It has been decided that the addl. post need not be created now. So the old question of appointing a woman to one of the existing posts of Deputy Director has to be considered now.

Much water has flowed under the bridge since the above decision was taken. It has been decided that under the New Constitution women cannot be prevented from holding any appointment in the Men's branch of any service. It has also been decided that the post of Jt.Dir. which was created in the place of one of the Dy.Dire. should be

-2-

abolished and that the post of Dy.Director should be revived. The Director has also asked for an addl. P.A. in his office. It does not seem that this is the time for making any further changes in the D.P.I's office. Under the New Constitution a woman can be appointed as Dy.~~Dir.~~ Directress if any competent woman officer is available and there is no statutory bar to that appointment.

~~It seems that no further action is necessary in this file. The papers may perhaps be recorded. H.M.(E.&.L) and the Hon. Minister may see. Fin. may see before circulation.~~

It seems that in these circumstances the matter need not be placed before the full Cabinet. The papers may be recorded. The file may be circulated to H.M.(E&L), H.M.(Fin) and the Hon'ble Chief Minister. Finance may see before circulating.

Summary note

EDN. DEPT.(G).

This file relates to some of the recommendations of the Retrenchment Committee so far as they relate to Edn. Dept. Orders have been issued on all the recommendations dealt with in this file except one viz., abolition of the post of Inspectress in the Director's office and appointment of a woman as one of the Deputy Directors. The Director was against this proposal. The previous Secretary, Mr. Lobo Prabhu, however took the view that all the arguments advanced by the Director for avoiding the appointment of a Dy.Directress could also be advanced in favour of the proposal. In the meanwhile the Director had proposed the appointment of an additional Deputy Director and it was decided that the question of appointing a woman as a Dy.Director could be held over till a decision was arrived at on that proposal. It has since been decided that the addl. post need not be created now. So the old question of appointing a woman to one of the existing posts of Deputy Directors has to be considered.

~~Much water has flowed under the bridge since the above decision was taken.~~ It has been held that under the New Constitution a woman cannot be prevented from holding any appointment in the Men's branch of any service. It has also been decided that the post of Joint Dir. which was created in the place of one of the Dy.Directors. should be abolished and that the post of Dy.Director should be revived. It does not seem that this is the time for making any further changes in the D.P.I.'s office. Under the New Constitution a woman can be appointed as Dy.Directress if any competent woman officer is available and there is no statutory bar to that appointment.

2. ~~As stated above~~, At present there is already a woman officer in the D.P.I's office for the Central Inspectress. She is available to the D.P.I. for advice on all matters relating to Women's Education. The Senior officers in the Women's Section are: -

1) Mrs. G. Sankunni	- due to retire on	5-8-50
2) Mrs. M.A. Dweltz	"	30-4-51
3) Mrs. Moses	"	1-5-52
4) Mrs. Swarnambal	"	22-3-53
5) Mrs. Jeevaratnammal	"	15-4-51
6) Mrs. Satyabhama Achuthan	"	30-12-51
7) Mrs. O.C. Srinivasan		9-5-54

Even if it is decided that one post of Dy. Director should be reserved for a woman, it is doubtful whether any of the officers mentioned above

able to cope with the onerous work of a Dy D.P.S,
will be available for the job. In the circumstances it seems that
the question of appointing a woman as Dy.Directress need not be taken up now.

3. The Fin.Dept. to whom the file was sent seems to have no objection to the question being shelved. That dept presume that the question of abolishing the post of Inspectress of Schools in the Director's office will be taken up when a woman officer is appointed as Dy.Directress. This question can be considered as and when a woman is actually appointed as Dy.Directress. The papers may be recorded. H.M.(E.& L.), H.M.(Fin.) and H.M.C.M. may see.

Govt Muslim colleges - Men and Women

As regards denominational institutions it was agreed that the need not exist as such and that wherever accommodation can be found for the pupils, these institutions may be abolished. Where it is not possible to find accommodation for the pupils of such institutions in other existing institution, the institution may be continued but thrown open to all communities without any special facilities for any particular community. This will apply to the Muhammadan Colleges in Madras and the Muhammadan and Depressed Classes Schools throughout the Province.

E. & P. H. Deptt.

As regards denominational schools a separate note has been submitted.

In regard to Muslim colleges, the Govt. Muslim College for Men and the Govt. Muslim College for Women, the position is as follows:-

Muslim College for Men: The College has been in existence for a long time and is specially intended for Muslims through Non-Muslims are also admitted into it. According to the Service Rules only Muslims could be appointed to the staff of the college if suitable members of that community were available. This restriction has been recently removed and non-Muslims can also be appointed as members of the staff now.

The Govt. have under consideration a proposal to shift the Intermediate classes in the Presidency College to the Govt. Muslim College from next year so as to enable the former college to devote more time for research. No final decision has been arrived at on this question. If this proposal materialises the Govt. Muslim College will cease to be a college specially intended for Muslims. The statistics available show that admissions have been made to the college to capacity in the Intermediate Classes

But in the B.A., the B.Sc. and the B.A.(Hons.) Classes the strength is rather poor as shown below:-

Junior B.A.	...	27
Senior B.A.	...	25
B.A.(Hons.) III	...	8
do. IV	...	4
do. V	...	6
B.Sc. ...	...	43

p.t.o.

The poor strength in these classes is probably due to the fact that the courses of study ~~are~~ provided are not sufficiently varying to attract students not belonging to the Muslim community. In the B.A.Class, the optionals are only Urdu, Arabic, Persian, Malayalam, Tamil & Telugu for Part II; & Economics, & History and Islamic History and Culture for Part III. For B.Sc. recently Mathematics, Physics and Chemistry (main) have been provided. For B.A. Hons. the only groups provided ~~is~~ are Islamic History and Culture and Arabic.

The question whether the college for Muslim Men should be abolished is a matter of policy. In the file relating to the maintenance of separate schools for Muslims, H.M. (Edn.) has minuted as follows:- "With regard to Muslim Men's and Women's colleges, there is a proposal to close ~~Men's~~ Women's College. With regard to Men's College, it is thrown open to non-Muslims also. In fact about 30 per cent of the Muslim College are now non-Muslims. There is a proposal to take off the Intermediate Class from the Presiency College to the Muslim College. If that is done, reservation in the Intermediate will go and so, that college in a few year's time will lose its separate nature."

MUSLIM COLLEGE FOR WOMEN:- There is a proposal to transfer the college to a private individual for running it as a general college for women. If this proposal is finally approved, the college will cease to be one specially intended for Muslims.

OBM 16/2/48

The Question may be reviewed from the point of view of the proposal to close down Women's College; meanwhile we have to decide; we can wait & decide, if necessary.

Deputy directors of Public Instructions

While there is no need to have a special Woman Officer as Deputy Directress or Inspectress to look after girls' education, the Committee considered it desirable to have a woman as one of the Deputy Directors in the Headquarters. All the above were agreed to by the Director of Public Instruction and his Deputies. The Director of Public Instruction considered that it would be an advantage if all the polytechnic schools and the Engineering colleges were placed under a Director of Technical Education, attached to the Education Department..

Deputy Directors of Public Instruction — Edn and P.H Dept

Eo No: 21003 Edn
16.12.46

A post of Dy. Directors of Public Instruction in the I.E.S. existed from 1920 to 1932. It was held in abeyance during the period from 1932 to 1945. when the Govt abolished the post in the I.E.S and relegated the post to the Ll. E.S. In H.Q the post of Dy. D.P.I was also kept unfilled till 1947. Several attempts were made to fill the post but in vain. Meanwhile the question of appointing a woman officer in the D.P.I office was gone into fully in consultation with the D.P.I. He considered that if Govt wanted to appoint a woman officer it would be better to call her Inspectress of Girls' Schools to the post in turn to enable them to gain experience of office work and also to advise on matters relating to women's education. The Govt sanctioned a post with that designation in place of the Dy Directors.

The Inspectress is now drawing pay in the U. E.S scale of Rs 230-700. The scale of pay sanctioned to Dy Directors is Rs 600-100/2-1000. Of the designation of the post is changed as suggested by the Committee the scale of pay allowed to Dy Directors will have to be allowed for the Dy Directors also. She will also have to be granted a special pay of Rs 50 p.m which is allowed to Dy Directors.

In the circumstances stated above it does not seem advisable to accept the committee's recommendation. Fr orders.

Director of Technical Edn

In 1946 the D.P.I proposed the appointment of a Dy Director of Technical Edn with a view to assist him in matters re: to technical edn.

Eo No. 601 Edn

This dept supported the proposal but it was ordered to be deferred. The Committee only says that the D.P.I. considered as at S on the previous page. It has not made any specific recommendation. For orders whether the original proposal to appoint a Dy Director of Tech. Edn will be re-opened.

There is already an Inspectress at the Central Office. Changing the designation will only create greater expenditure and I do not think we need do it at present. With regard to the Deputy Director of Technical Education, there is already an officer for technical education in the Education Department. There is much to be said in favour of bringing in all types of education within the Education Department. Already the Degree Courses in the Engineering Colleges are under the Education Department. The Technical ~~Colleges~~ High Schools when properly organised will provide for a great deal of technical courses and that will be under the Education Department. Only certain courses of a medium size are now under the Industries Department. In the interest of coordination and proper working, it will be good if they are all brought under the Education Department. There will not be any extra cost. In fact, there will be economy if they are brought within the Education Department as there is already a technical education officer in the Department.

Divisional Inspectors

The Director said that it was necessary to retain the posts of Divisional Inspectors of Schools, as they were the final authority in most matters, connected with elementary education, and they were checking the work of the District Educational Officers with reference to Secondary Education. If the posts are abolished, there will be a very large number of appeals from District Educational Officers with reference to all matters and the staff at the headquarters will have to be considerably strengthened in the form of additional Deputy Directors. The Committee considered that, with reference to recognition of schools, opening of new sections and higher classes as well as distribution of grants, if there was a Committee to assist the District Educational Officers, either for the taluk or for the District as a whole, most of the work relating to elementary education could be finalised in the District itself. Other work will not require the retention of the Divisional Inspectors of Schools and the remaining work could, after delegation of most of the powers to the District Educational Officers, be looked after by the Deputy Directors working in the headquarters.

Edn and P.H Dept.

The question of the abolition of the posts of Divl inspectors of Schools was fully examined more than once in connection with the D.P.I and this dept agreed with the D.P.I that the posts should be retained. Yes, this is a matter which may well be discussed at an informal meeting of ministers. I think we must go into the matter comprehensively. Now for every Dept. there are regional officers. There are D.I.Gs. in the Police Dept. There are Regional Deputy Directors in the Agricultural Dept., and perhaps also in the Forest Dept. There are also regional officers in the Industries Dept. also if I remember right and there are Divl. Inspectors. There are Superintending Engineers in the P.W.D. Dept. I think the policy of Govt. with regard to regional officers may be discussed together. The Chief Secretary, in consultation with the various Depts. may prepare a note and submit it for the informal meeting of ministers as suggested by H.M.(Fin.) and the matter may be considered comprehensively.

2. Technical Education - Further discussion. There are two Engineering Colleges with equipment, working at Madras and Chidambaram. Three have been started at Coconada, Coimbatore and at Guindy (to be shifted to Anantapur). They will have to be provided with buildings and equipment. It is said that equipment is difficult to get and will be very costly. The students admitted to these colleges are given basic education in Civil Engineering, Mechanical Engineering and Electrical Engineering, Highways Engineering and Tele-communications. Such of those as take up Industrial Engineering will have to be provided with practical training in factories as apprentices. There is no provision for such training at present. In view of these facts, the Committee considered that the Government should review the whole situation, both with regard to the cost, recurring and non-recurring, the possibility of providing the Colleges with buildings and equipment and the possibility of finding means of training students in the fields of industry, which they want to develp and decide whether they should go forward with all or any of these colleges.

The question whether the new Eng colleges should be discontinued was examined in detail recently and it was decided that the Govt need not go back on their previous decisions - please see one of the papers in Go No. 2501 Edn dt 20.11.47. Further, it is one of the functions of the Standing Advisory Board for Tech. The Medical Colleges and the Agricultural College are now placed under the direct control and administration of the Medical Department and the Agricultural Department respectively, but the Engineering Colleges are now under the control and supervision of the Education Department. If the same procedure is to be adopted with reference to all colleges, the P.W. Department, which will employ most of the students passing through the Engineering colleges and from which most of the teaching staff is deputed will be a better department to exercise central supervision over the Engineering Colleges. In the light of the above remarks it is for the Government to consider the position of all the technical and technological institutions and how they should be managed.

The Committee has been informed that even though there is an Advisory Board consisting of the Chief Engineers, the Board is not said to be meeting or doing any advisory work.

Edn and P.H Dept

The question of the transfer of the control of the Eng: colleges from the Edn dept to the P.W. dept was considered previously and decided. Please see the papers in G.O No. 1900 P.W & 30.6.47. It does not seem necessary to re-open the question.

A above may be true. But the Govt. have recently constituted a Standing Advisory Board for Technical Education. The functions of the Board are

(2) to examine the technical and technological education of this Province in all its aspects and make recommendations with a view to re-organise it on a basis that will make it more useful, efficient and up to date.

The Govt. can have the advice of the Board on all important matters connected with Eng: education and it is immaterial whether the college Advisory Board functions or not.

Sir,

REF:-Government Memorandum No.24447 A-3, Education, dated 15-6-1946 and Memo. No.24447 A-4-5, Edn., dated 15-7-1946.

...

I have the honour to state that the posts of four Divisional Inspectors of Schools were created in the year 1937 for the following reasons:--

2. (1) To ensure greater co-ordination and control of elementary education and also the better safe-guarding of public funds.

(2) Unlike all other Provinces there were no intermediate Officers - a superior inspecting agency between the District Educational Officers and the Director of Public Instruction in the Madras Presidency. This arrangement weakened control and had thrown an impossible task upon the Head-office.

(3) Absence of Class I Provincial Service in this Province and reduction in the scale of pay of the Madras Provincial Educational Service resulted in the filling up of the posts of District Educational Officers by men drawing low salaries between Rs.200/- and Rs.450/-. It was impossible for these Officers on their own initiative to supervise satisfactorily the work of local bodies, to make their influence successfully felt to safeguard public money and to prevent ineffective expenditure; and

(4) The Head Office could not satisfactorily perform all these duties and that the safeguarding of public funds required the immediate strengthening of the inspectorate.

3. For the same reasons, I consider that the posts of Divisional Inspectors should be retained and that they cannot be abolished without serious loss of efficiency. It may, however, be stated that while Madras spends the highest amount on Education as compared with any other Province in India and also spends a higher percentage of Government funds

on

on Elementary Education, the Madras Inspectorate is less strong in the matter of higher control than that of any other Province. The Education budget since the time of appointment of the Divisional Inspectors, i.e., in 1937, has risen from 2½ crores to ~~crores~~ 6¾ crores today. It may be seen that the expenditure has more than doubled within a period of ten years. The salary of the District Educational Officers is so meagre that it will be undesirable to make them entirely responsible for the control of expenditure on our schools. Further, what little money will be saved by the abolition of the posts of Divisional Inspectors will be wasted by the lack of efficient supervision and check over our schools and subordinate officers. If, in case, it becomes absolutely necessary to abolish the posts of Divisional Inspectors of Schools, I can without any hesitation state that it will become imperative to create an equal number of posts of Deputy Directors on the same scale of pay in the headquarters office. It may be mentioned in this connection that many of the administrative duties previously discharged by the Director have been delegated to the Divisional Inspectors -- vide: the statement attachment - and to administer those duties more officers will be required in the headquarters office. But on point of principle it is not desirable to create more posts of Deputy Directors in the Director's office in the place of Divisional Inspectors. More harm than good will result by adopting this procedure as the schools and the subordinate officers spread throughout the length and breadth of this Presidency will be left without local check. The main purpose for which the posts of Divisional Inspectors have been created, viz., to exercise effective control over wasteful expenditure will be frustrated. The inspection work of the District Educational Officers will also suffer if Divisional Inspectors of Schools are removed from the field. Their work will become slack and the general condition of our schools will deteriorate.

4. District Educational Officers and Inspectresses: As has been already pointed out, our administrative machinery is a very modest one. A strong inspectorate is the only means by which wasteful

wasteful expenditure and misuse of public funds can be effectively checked. Government are aware that there has been striking advance in almost every branch of education and the net increase of work is considerable. The ~~new~~ new post-war schemes sanctioned by Government, viz., introduction of compulsion, the scheme of mid-day meals, the establishment of training schools, etc., all these schemes will certainly place a vast amount of work on the District Educational Officers. Arrangements for the first five-year period have been made or are being made and according to the plan it will take another fifteen years to complete the post-war schemes of education. Government have recently abolished the Taluk Advisory Committees. The work of these Committees is now being done by the District Educational Officers. Already a large number of secondary schools have been started. The number of secondary schools on 1-4-1946 was 789 and with the sanctions recently accorded, the number of such schools will be about 850. The gradual introduction of compulsion, the steady increase in the number of secondary schools, the problems that have risen as a result of recent expansion and changes in policy have become more intricate and complex than they were at any time before and the cumulative effect of all these has thrown additional work of a very exacting nature on the District Educational Officers. As a result of expansion, Government have been pleased to bifurcate recently the districts of Guntur and Tinnevelly and sanction additional District Educational Officers for these bifurcated districts. Government have been also pleased in recent years to sanction two additional posts of Inspectresses of Girls Schools raising their number from 6 to 8. The bifurcated courses of studies will have to be introduced with effect from 1947-48. It may be necessary in a very short period of time to bifurcate a few more districts like Tanjore into two educational districts and to increase the number of Inspectresses also.

5. In my letter to Government, R.C.No.510 B-1/46 dated 29-6-1946, I have submitted proposals for the strengthening of staff both under "Direction" and "Inspection" apart from other

other proposals for the creation of new posts of District Inspectors of Elementary Schools in the Madras Educational Service and Subject Inspectors of Secondary and Training Schools. -- Retrenchment in the cadre of District Educational Officers and Inspectresses of Girls Schools is, therefore, unthinkable.

6. Schools under Government management are run with the minimum staff sanctioned by Government from time to time. With regard to Government Colleges, the general complaint from the University is that the staff of Government Colleges is inadequate. There is, therefore, no question of superfluous posts in Government Schools and Colleges. With the phenomenal increase of work especially after the introduction of post-war schemes of education in this Province, it will be an unwise policy to effect any retrenchment. If any step in this direction is taken it will, in my opinion, impair the efficiency of administration. To effect retrenchment in any Gazetted post in the Education Department will be disastrous to the progress of education in this Province. I may also be permitted to state here that the expenditure on inspection in relation to total expenditure on education is meagre being 4-1% in the current year's budget as against 5% of the gross annual expenditure as admitted in the Sargent Report.

I have the honour to be,
Sir,
Your most obedient servant,

S Ku Sarma

Director of Public Instruction.

There is no need for Divisional Inspector of Schools in the Educational Department for the following reasons:--

1. The Divisional Inspectors have not got any original inspection or administrative work. They are only acting as post offices more often causing delay and obstruction in the correspondence between the Dist. Educational Officers and Director of Public Instruction. The powers delegated to the Divisional Inspectors are so simple that they can be safely transferred to the Dist. Educational Officers again as they were exercising most of them before.

3. Their in-coming has made the position of the Dist. officers of the Education Department anomolous as it is a notorious fact that they have exercised the very ordinary powers of the Dist. Edl. Officer with the result that the morale of the Dist. Educational Officers has considerably been affected.

4. A higher officer ordinarily serves as a check over the subordinates. But in the case of Dist. Edl. Officers who are men in the Gazetted ranks in charge of educational of a Dist., the existence of the Divisional Inspectors has made the Dist. Educationals descend to a mean level of pampering to the needs of the Divisional Inspectors and their ministerial Heads. It is a notorious fact that except in the case of a few upright men, the Dist. Edl. Officers are dancing attendance on the managers of the Divl. Inspectors with the result that Deputy Inspectors who are subordinates of the Dist. Educational Officers are helpless creatures supplying the needs of the managers and the Divisional Inspectors if they are corrupt as in the case of Madura. It is very rare that men scrupulously honest like Ramanatha Mudaliar are found.

5. The previous Congress Government was quite satisfied about the abolition of the Divisional Inspectors' offices. They ~~had~~ even took away the provision for Divisional Inspectors in the Revised Budget estimate for 1939--40. But unfortunately they had to leave their jobs on account of the War.

Sir,

At a time when the Ministry is hard put to balance the budget it is really strange and surprising that ever so many superfluous and altogether unnecessary highly paid posts continue to be retained in the several departments. It is especially so in the Educational department, wherein several posts, such as Divisional Inspectors of Schools, Additional Deputy Directors of Public Instruction, Additional Personal Assistants etc., were first created, not with a view to find men to do the work on hand, but only to favour the select few with certain prize-jobs. The Divisional Inspectors of Schools do not have any specific statutory duties to discharge, but serve only as transmitting Post Offices between the D.E.O's and the D.P.I. As subordinate officers have to submit, in all matters including minor things of a routine nature, an extra copy or two for retention in the Divisional Inspector's office, this involves a lot of unnecessary wastage of time, energy, and stationery. Further the delay in transmission from the Intermediary office is only proverbial. Again, as they are not obliged to finish any definite work within a stipulated period of time, they are ever engaged in extensive tours all over their respective jurisdictions, where they get their worst creature comforts attended to, by merciless fleecing of the poor subordinates under their control. These are a hard-worked lot, and in reply to their repated clamour for better wages, the little relief proposed is spoken, not in terms of percentage increases as one would expect, but only in terms of units, as -- Rs 3 or 4 and the like, something like a Dakshina or free gift offered to commemorate events like the Birthday or marriage function of a native Rajah. With a host of clerks, peons and other menials under the office manager, these Divisional Inspectors are regular white elephants growing fat at public expense. These were proposed to be abolished for good even during the last Congress Ministry, but because of the latter's sudden relinquishing of office, they managed to get a further lease of life. Ever since the assumption of office by the present ministry there have been talks of the matter being taken up again, but nothing of the kind has happened so far. It is high time the matter is tackled in right earnest, and the white elephants wiped out altogether, at least with a view to release funds which are badly needed to afford some scanty relief to the hard worked and ill paid subordinates.

Dear Mr. Avanasilingam,

Kindly excuese for addressing this in your personal name, instead of in official name, for fear that this may not reach your hands for consideration. I tried to meet you at Madras, when I was there last month, but pressure of work and want of time forbade me from meeting you.

95

My object to meet you was in connection with useful retrenchment in the Educational Department, by suggesting the abolition certain of certain unnecessary offices which serve no purposes except as a resthouse for a few favoured High Officials, with wide jurisdiction for pleasure trips at Government costs. Such unnecessary offices and waste of poor taxpayers' money on them might have been thought useful by the previous foreign Government, which a popular Government as it is now, cannot afford to maintain, unless some proff of usefulness of their maintenance is found.

57680

Comming to the point, I wish to state that the Offices of the Divisional Inspectors (Educational) do not serve any useful purposes either to the department of education, or to the general public. These offices were the creatures of the previous Government, through the D.P.I who wanted to provide with appointments for his few favourites. These Offices do not do any original work except the work of general interium post office, of transmitting the orders and other correspondence from higher authorities to lower and vise versa.

The following particulars may go to prove the above observation of mine.

1. The Divisional Inspectors' Offices are only post offices as mentioned above with the inconveniences of delaying the papers (correspondences). Direct correspondences by the D.E.Os with the D.P.I. will be much quicker and prompt. They have no original work, except the Inspection of the D.E.Os offices. Even these inspections are only very formal than real, as the teaching grant accounts are audited by the Govt. Audit Department. The other current registers etc. can be audited by the D.E.Os themselves as was before the creation of Divisional Inspectors Offices.

2. The Divisional Inspectors, in order to show some work for them have taken over some the of the powers vested in the D.E.Os. For instance, the power of granting exemptions to teachers is now in the hands of the Divisional Inspectors, who grant exemptions to all unqualified teachers, owing to dearth qualified teachers, without any exceptions and personal knowledge of the exempted teacher's work, simply on the recommendations of the D.E.Os. This could be done by the D.E.OS themselves, as hitherto since they are the men on the spot. This could save waste of time, ehergy and stationery.

3. The power of appointment of training school teachers has been taken over from the D.E.OS by the Divisional Inspectors. Proper justice is not done to the teachers, owing to very wide jurisdiction and a number of such schools under the Divisional Inspectors. The D.E.OS, with smaller jurisdiction and with one or two such schools under them , who are now inspecting the schools and the teachers' works, can do better justice and effective work than the Divisional Inspectors,

4. In the matter of finances, the D.E.OS are corresponding direct with the Director of Public Instructions. But they are to send duplicate copies of such direct correspondances to the D.I. Inspectors, which are mere wate of stationery, time and labour. In other matters also the D.E.OS can afford to communicate direct to the D.P.I.

5. In the matter of post-war reconstruction work, viz. the introduction of compulsory education etc., the Divisional Inspectors cannot be of much use as they have no touch with people

people and villages of the interior parts of their wide jurisdiction. Even here they have to depend on the D.E.OS, who have the first-hand knowledge in the matter.

From the above detailed particulars, it will be seen that the existance of the Divisional Inspectors Offices is nothing but a sheer waste of public money, without any advantage in turn for the amount spent on them, either to the public or the Government. It will also be seen that the works done by the D.E.OS, in the past are now being done by the Divisional Inspectors, formally, though it is the D.E.OS who actually do them. By abolishing these very costly offices, doing nothing in particular, along with the other offices attached to these, (Physical Inspectors Offices) will result in a saving of more than a lakh of rupees per year. The clerical staffs may be spread over the many D.E.Os offices, who may require them for the work. The Offi[illegible] may be retained as D.E.OS on their existing salaries until they retire or showed on to some colleges as professors according to requirements.

I finally request you to kindly give proper consideration to the unchallenged facts mentioned here and do the best under the circumstances beneficial to the country and people for whose benefit you have all accepted offices at great personal sacrifices with poor remunerations, while the former members of Government did very little work and drew fat salaries.

Yours faithfully,

ASST. SECRETARY TO GOVERNMENT

To

The Honourable Minister for Education,
M a d r a s.

Sir,

Sub:--RETRENCHMENT - Education Department - Certain Points - Suggested.

Through the Columns of "THE HINDU" daily, I noticed, that the offices of the Government of Madras are proposed to be re-organised with a view to effect possible retrenchment by abolishing superfluous offices and reducing the scales of pay of the Gazetted officers.

This is a very right course in the right direction in a most opportune time. Although there may be so many superfluous offices in several branches of the Government of Madras, yet I wish to confine myself, for the present, with the Educational Department.

At the eve of the PREVIOUS CONGRESS MINISTRY in this province, there was a proposal to abolish the offices of the Divisional Insector of schools in this province; as they were felt to be really superfluous; but the proposal was not given effect to during the Advisers' regime of these recent seven or eight years for reasons best known to them but not to be expressed openly in writing now. There are four such offices in this province for the last TEN years with one officer of the Deputy Director of Public Instruction's cadre getting about more than THOUSAND Rupees a month in addition to about THOUSAND Rupees Travelling Allowance etc amounting to about TOUSAND RUPEES every month. Each of these officers has got a jurisdiction of about half a dozen districts. Each one of the offices consists of a very big establishment with a MANAGER as the administrative head of the office and about ten clerks including two upper division clerks. It is about TEN years since theses offices are in existance and yet the nature of the usefulness or the constructive work done by them is found to be absolutely NIL, excepting inspection of the District Educational Officers' offices and touring all over the vast jurisdiction for the purpose of presiding over the meetings and opening of buildings etc arranged by their subordinate officers and non-officials, not to speak of the transferring of the officers such as Junior Deputy Inspectors, clerks etc under their control. All these four officers in this province drain out from provincial funds about FOUR TO FIVE LAKHS OF RUPEES every year for practically no work. They are no doubt meant to assist the Director of Public Instruction in many ways. Besides these Divisional Inspectors, there are two or three Deputy Directors attached to the Director of Public Instruction's Office in Madras. The advancement of Education both Elementary and Secondary etc was a bit better also prior to the formation of the Divisional Inspectors' offices in 1937 or so. But subsequent to that, nothing substantial has been shown towards the improvement of Education of various type, except-

P.T.O P.T.O

excepting that progress is being shown by means of statistics by manipulating figurs in papers in black and white. The formation of new offices like the one under reference has been very much helpful for cooking up things like this. But alas ! These were allowed to continue so long without being questioned. It is high time, therefore, that the question of the abolition of these offices is taken up for atleast now though belated as a first step for retrenchment in the Education Department. This is really felt to be a FIFTH wheel of the EDUCATIONAL COACH. This richly deserves to be immediately done away with without hestitation.

Secondly, there is one gazetted officer for each District as District Educational Officer with so many Deputy Inspectors and Junior Deputy Inspectors for each taluk under him. There is a qualified Head Head-Clerk with a number of clerks in the District Educational Officer's office and yet a new office has been created as PERSONAL ASSISTANT TO EACH DISTRICT EDUCATIONAL OFFICER. This Personal Assistant is really superfluous and could be styled as glorified Headclerks and could be. The post could be safely abolished, in which case about 25 posts of this sort could be retrenched. Thereby an avoidable expenditure of about a LAKH of rupees could be saved and could be usefully utilised for better purposes.

The above suggestions are a few among so many in the matter of RETRENCHMENT POLICY, and could be immediately attended to and safely towards the benefit of Education and Economy.

Yours truly,

AN EXPERIENCED EDUCATIONLIST &
WELL WISHER OF EDUCATION.

1) There are four posts of Divl. Inspns. of Schools (Madura, Anantapur, Coimbatore and Guntur) on the scale of pay of Rs.600-100/2-1,000 (ave. pay: Rs.848.9). If the posts of Divl. Inspns. are abolished, the total annual savings that will accrue will be about Rs.1,19,400. But the work now done by them will devolve on the D.E.O.'s and the D.P.I. The offices of the Dir. and the D.E.O.'s may have to be strengthened for that reason. Setting apart roughly one-half of the pay of estts. and the expre. under 'contingencies' for strengthening these offices, the net savings will be about Rs.90,000.

Posts of P.A.'s to D.E.O.'s on Rs.150 each were sanctd. by the Govt. of India in 1943 for propaganda work in connection with recruitment of candidates for trg. as war technicians. The P.A.'s were also expected to relieve D.E.O.'s of ~~a large portion~~ some of their administrative work so as to enable the latter to devote more time to intensive propaganda in schools. The expre. on these posts

as debited to the War Dept. The posts were abolished from 1-12-45.

In Septr. last, the D.P.I. reported that there was a strong ~~necessity~~ case to continue the P.A.'s posts in view of the addl. work that has devolved on the D.E.O.'s. The "recreation" of these posts was treated as a Part II scheme for 1946-47 and as it was found that there had been a considerable increase of work in recent years in the D.E.O.'s Offices, the posts were temporarily sanctd. for a period of one year from 1.4.46. The necessity to continue the posts beyond ~~that~~ the period will be examined in ~~December 47~~.

P.T.O.

From the Director of Public Instruction, C.L.No.38/46 dated the 29th July 1946.

The file relates to the question of the abolition of the posts of Divisional Inspectors. Please see H.M.'s minute on page 1 ante, the Memo to the D.P.I. on page 9 C.F. and his reply on pp15-18 C.F.

2. In 1936 the Government sanctioned four Divisional Inspectors of Schools in the scale of Rs.600-100/2--1000, two of them having Madras as their headquarters. At the same time, the temporary post of Deputy Director of Public Instruction for Elementary Education and the post of D.E.O., Madras, were abolished and the duties of the posts were entrusted to the Divisional Inspectors at Madras.

3. The note for the Finance Committee on pp 19-20 of the notes with G.O.No.2695 Education, dated 17--12--1936, sets out at length the reasons for creating the posts. Please see also the letter of the D.P.I. (late Sir Meverel Statham) on pp3-5 of the G.O. in which he commended the proposals to Government.

4. The main reasons for sanctioning the posts were:-

(1) that the department was overcentralised and effective control could not possibly be exercised over all the details of administration by the head office unless there was some delegation;

(2) that some selection posts were most desirable as an incentive to good work by departmental officers, especially as no class I Provincial Service had been created in the Province as had been done in other Provinces; and

(3) that the posts were necessary for the sake of administrative efficiency.

The main work of the Divisional Inspectors, it was stated in the G.O. sanctioning the posts, was to carry out satisfactorily Government's policy in regard to elementary education, to keep a strict control over the manner in which public funds were expended, to prevent wasteful expenditure on ineffective and inefficient schools and to supervise the work of

of the D.E.Os and their subordinate staff. Some of the powers till then exercised by the D.P.I. and some of the powers exercised by the D.E.Os were delegated to the Divisional Inspectors. The delegations are enumerated on pp19-20 c.f. The annual recurring cost on account of the Divisional Inspectors and their staff is Rs.1,19,400.

5. The question of the abolition of the posts was raised during the time of the last Congress Ministry. Mr Varkey, then Education Minister, wanted to abolish the posts and to create instead two additional Deputy Directors and a D.E.O. for Madras. His proposals are set out on pp28-35 of G.O.No.2657 Education, dated 27--11--39. By those proposals he expected to effect a saving of Rs.17,400 a year. The late Sir Meverel Statham opposed the proposals of Mr. Varkey -- pp.38-42 of the G.O. By the time his letter was received, the Ministry went out of office and it was decided that the posts should not be abolished.

6. From 1--7--41, a post of D.E.O. separately for Madras was sanctioned. In 1942, the post of Deputy Director for Elementary Education was also revived - Vide G.O.No. 621 Education dated 4--5--42. ~~D.E.O.~~ A separate D.E.O. for Cuddapah and another D.E.O. for Vizagapatam were also sanctd., since 1939.

7. The present D.P.I. considers that the posts of Divisional Inspectors cannot be abolished without serious loss of efficiency and that, if they are abolished, it will become imperative to create an equal number of Deputy Directors' posts but that they will not be able to exercise effective supervision over D.E.O.s. (pp.15-18 c.f.).

8. Since the creation of the posts of Divisional Inspectors, the District Educational Councils which were granting recognitions and assessing grants-in-aid to aided elem. schools were abolished. The Taluk Advisory Committees that took the place of D.E.Os. have also ceased to exist. The work that the D.E.Os. were doing has now devolved on the Inspecting staff. The Government have recently sanctioned two additional D.E.Os. and two Inspectresses. Personal Assistants have also been allowed for the D.E.Os. The work in the D.P.I.'s Office has also

increased and an additional P.A. to the Director has been sanctioned to cope with the increased work. If the Divisional Inspectors posts are abolished as pointed out by the Director, additional superior staff will have to be sanctioned for the D.P.I.'s Office, with the resulting over-centralisation (which is stated to be undesirable). It will also be necessary to sanction more D.E.Os. with the result that there will be no savings but possible loss in efficiency. Further, the Government have embarked upon a policy of compulsory elementary education which requires effective supervision for its success. Various reforms, in fact a thorough overhaul of the Department, is also under contemplation and the Director has to devote almost all his time in rendering advice to Government about the proposed changes and it will be impossible for him to exercise effective supervision over the D.E.O.'s work. It seems that, on the other hand, the time has arrived when the Director may very well be relieved of some further routine work by suitable delegation of powers either to Deputy Directors or Divisional Inspectors, so that he may devote his time largely to questions of policy and organisation.

9. In view of the post-war schemes and the number of reforms under contemplation or execution and the enormous amount of expenditure involved, this does not seem an opportune moment to weaken the Inspection staff by the abolition of the posts of Divisional Inspectors.

While examining the proposals of Dr. Musafer Karamchand, Principal, Govt. College Kumbakonam regarding the retrenchment of certain posts in the Madras Educational Service, Edn. 4. In regard to Government Memorandum No. 68309 Re-1 dated 16-12-46 I may state that Government in their U.O. No. 24447-A.1-Education dated 8-5-1946 called from me a similar statement. After collecting all the relevant figures I submitted a statement to Government covering several pages in my letter to Government (Education and Public Health Department) R.C.No. 6450-K2/46 dated 11-9-46. I request that this statement may kindly be made use of. I may futher add that the posts in the Education Department were not at all created ~~to~~ in consequence of the war to serve only War time needs. The Department expanded as a result of opening more schools. Many sections for the advancement of Education both primary and secondary have been implemented and some of these are treated as Post-War Schemes These cannot be curtailed now . As the position in the Department is peculiar no posts can be reduced. On the other hand there is need for more posts as new Colleges and Schools come into existence. Hence I am not recommending the reduction of posts sanctioned after 1939-40.

Sub: Economies in expenditure--Need for continuance of new posts created after 1939-40.

Ref: Fin.(Reorg) Dept. Memo No.68309-Re-1 dated 16-12-46 and Letter No.R.C. 11095-K 3/47 dated 21-5-47 from the Director of Public Instruction.

In para 4 of his letter cited above, the Director of Public Instruction has stated that the statement submitted by him to the E & P.H. Department with reference to their U.O. No. 24447-A-1 Edn. dated 8-5-1946 may be made use of. This statement is defective in the following respects:--

(a) In many cases the period of sanction of posts has expired. There is no information whether the posts are being continued.

(b) In certain cases the date on which the present sanction expires is not specified.

(c) Full reasons have not been given for the continuance of each post, or each set of posts.

(d) In many cases it is observed that entries under the head "posts newly sanctioned during the war" have been shown under the head "posts sanctioned after the war".

As the statement does not therefore give a clear idea of the posts created in and after 1939-40, which are still in existence, the Director of Public Instruction is requested to send a fresh statement furnishing up-to-date information, in the form annexed to the above memo, by 15-6-47.

Memorandum No. 5732A-A-1, 4-27-8-47.

Sub:- Posts and Divisional Inspectors of Schools and Personal Assts. to D.E.Os and certain posts in Govt. Training Schools.- Suggestion for abolition.

From the D. P.I.,-No.1109-K 3/46 dt 13.6.47.

The view has been put forward that, particularly as large administrative questions in the field of education are being dealt with by the Deputy Directors in the office of the D.P.I., there is no justification for the retention of the posts of Divisional Inspectors of Schools, that they may be abolished, and that the powers now exercised by the Divisional Inspectors may be delegated to the D.E.Os. It has been suggested that, in that case, in order to give relief to the D.E.Os., whose work would become more responsible, it may be desirable to continue their Personal Assistants, but that, if the Divl. Inspectors' posts are retained (with or without a reduction in their number), the posts of Personal Assistants to the District Educational Officers would be superfluous and need not be continued. The D.P.I., is requested to examine the suggestions in detail and offer his remarks at an early date.

2.(i) It has been reported that there will be no need to continue beyond 1946-47 the post of the Secondary grade assistant in the Govt. Training School for Masters, Parvatipur, sanctioned in G.O. No.1074, Education, dated 10-7-'45. The Director is requested to state whether the post will cease to exist after the expiry of the present period of sanction or whether any formal orders will be required in the matter.

(ii) It has also been reported that the school Assistant employed in the Govt. Training School, Madras, with reference to the Orders in G.O.No.1018, Education, dated 21-5-'46 will no longer be necessary and that it might be abolished from 22-5-'47. It is presumed that this post has been discontinued from 22-5-'47. The Director is requested to confirm.

(iii) The post of the school assistant in the Govt. Training School, Malappuram, sanctioned in G.O.1074, Education, dated 10-7-'45, is reported to be unnecessary. The Director is requested to state whether the post has since been discontinued and if not, to take necessary action

p.t.o.

for its abolition.

(iv) The Inspectress of Girls' Schools, Madras, has remarked that one of the school assistants in the Govt. Training School, Vellore, might be kept vacant from April '47, to be ~~renewed~~ in July 1947 if an extra section is opened in 1947-48. The Director is requested to state whether the post has been kept vacant or whether it is being continued; and if so, to justify the need for its continuance.

3. The Director is also requested to state whether the post of a temporary lower division clerk in the office of the Deputy Inspectress of Schools, Madras, sanctioned in the Director's Proceedings Dis No: 2269/46 dt 5.7.46 has been abolished with effect from 1.4.47.

To
The D.P.I., Madras.

4 A The post of clerk is ~~now~~ attached to each Regional Inspector of Physical Education. ~~As~~ The work of the ~~Inspectors~~ Inspectress is to report on the general facilities provided for physical Education in the schools visited by them and the reports should be based on facts seen and ascertained ~~by the Inspector~~ during inspection. ~~It is therefore pointed out/suggested~~ that there should be no ~~necessity~~ real need for a clerk for the Inspectors. If copies of reports have to be taken, the Inspector could himself prepare carbon copies while writing the original or get copies ~~attached~~ typed in the offices of Divisional Inspectors of schools. It is therefore suggested that the post of clerk attached to Regional Inspectors ~~can~~ may be abolished. The D.P.I. is requested to offer his remarks on this suggestion.

Sir,

REF:-Government Memorandum No.57324-A-1, E.P.H., dated 27-8-1947.

...

The suggestions made in the above Memorandum are dealt with below seriatim:--

Para 1: Neither of the posts can be abolished without serious dislocation of administration. The proposal for the abolition of Divisional Inspectors has already been examined on several occasions and the need for the retention of these posts has been explained in detail in my letters D.O.No.Cl.38/46 dated 10-8-1946 with reference to Government Memo.No.24447 A-3, Education, dated 15-6-1946 and R.C.No. 490 K3/47, dated 18-4-1947 in reply to Government Memo.No. 69361 R.E.46/1, dated 20-12-1946. In this connection attention is also invited to my letter R.C.No.10141 K-3/46 dated 11-6-1947 bearing reference to Government Memo.No.69086-RE-1/46 dated 19-12-1946 in which a very wide delegation of powers has been proposed to the Divisional Inspectors and District Educational Officers. For constant and effective supervision of the District Officers and for conducting enquiries into the numerous complaints which are being sent to me by Government, an intermediate Officer is essential. In fact, we require one more Officer in that grade to reduce the jurisdiction of the four Divisional Inspectors. The District Educational Officers enjoy considerable powers as it is and any further delegation to junior Officers would be disastrous. On this account, therefore, the suggestion to delegate the powers of the Divisional Inspectors to the District Educational Officers cannot be accepted.

If, on the other hand, all the powers now enjoyed by the Divisional Inspectors are taken over by me, administration will become even more dangerously centralised than it is. The control that can be exercised by this office would be weak and ineffective. For quick despatch of business, intermediate Officers who are frequently touring in their jurisdiction and are easily accessible to the public as well as local officials and who can also gather information on the spot, are essential.

As regards

As regards the abolition of Personal Assistants in the alternative, the work of the District Educational Officers has become so heavy that the posts cannot be abolished - vide: in this connection G.O.No.671, Education, dated 3-4-1947. These posts cannot be dispensed with as the District Educational Officers have very heavy work and cannot find time for the routine work now done by the Personal Assistants.

Para 2:

Clause (i): Sanction has been accorded for the continuance of the post in G.O.No.1233, Education, dated 13-6-1947.

Clause (ii): The post has been abolished with effect from 24-7-1946 as no training section was opened.

Clause (iii): Sanction has been accorded to the continuance of the post in G.O.No.1233, Education, dated 13-6-1947.

Clause (iv): The post has been kept vacant from 20-1-1947.

Para 3: The post has been abolished with effect from 1-4-1947.

Para 4: The proposal for the abolition of the post of the clerks attached to the Regional Inspectors of Physical Education cannot be accepted as there is sufficient work for the clerks. As the Regional Inspector is a touring officer, the work for the clerk in the office is maintenance of records, preparation of T.A. bills, pay bills, statement of work, besides the fair-copying of the inspection reports and despatch of papers. These could not be done by the Inspector himself; nor can this additional work be undertaken by the limited establishment of the Office of the Divisional Inspectors.

From the Director of Public Instruction No. R.C. 11095-K3/47 Dt 21.5.1947.

In Fin. Memo. No. 68309 Re-1 Dt 16.12.46, all Heads of Dept. were requested to submit to this Dept. in the form annexed (to the above memo) showing the new appointments created in and upto 1939-40 which have not been already abolished, with a brief description of the duties performed by each class of officer and a report on the feasibility of abolishing the post and that full reason must be given if it is considered that it is necessary to continue the appointment either indefinitely or upto any specified time. The Director of Public Instruction in the letter cited above states that the statement at (G) submitted by him to Edn. Dept. may be made use of for the purpose of the Memo at (j).

2. The statement at (G) is a bald statement showing lists of posts sanctioned in the Education Dept during the war and after the war. The statement is defective in the following respects:—

(a) In many cases the period of sanction of the post has expired. There is no information whether the post are being continued or not.

(b) In certain cases the date on which the present sanction expires is not specified.

(c) Full reasons have not been given for the continuance of each post or each set of posts.

The D.P.I. has stated in general terms that the posts in the Edu. Dept. were not at all created in consequence of the war to serve only war time needs, that the Dept. expanded as a result of opening new schools, that the Post. war schemes cannot be curtailed and that many posts sanctioned after 1939-40 can be reduced. In many cases the entries under the heads "posts newly sanctioned during the war" have been shown under the head "posts sanctioned after the war"

(d)

3. From the replies of other Heads of Dept. received in this Dept. it is seen that they have given a brief reason necessitating the creation of the post and also reasons for continuing the post either indefinitely or upto any specified time. The particulars furnished in the statement at (G) serve no purpose as regards the information called for in the Memo at (j). ~~and~~

The statement at (G) may be sent to the D.P.I. with the request that up-to-date information may be furnished in the form annexed to the Memo at (j).

A Draft memo. is subd. for approval. (Paras 1 to 3 of the D.P.I's letter, in the C/S will be dealt with separately).

Fin.(Reorganisation)Dept.

Economies in Expenditure--New posts created since 1939-40--Review.

The file of statements at (W) shows the posts created in the Education department since 1939-40. Certain suggestions received by the Chairman of the late Reorganisation Committee for effecting retrenchment in the Education Dept. are at flag (D).

One
2. Suggestion is that the posts of Divisional Inspectors of Schools may be abolished. The feasibility of abolishing all Regional posts, including the Divisional Insprs. of Schools, was recently examined in consultation with Heads of Departments; the latter have strongly protested against the proposal and the matter will be placed before the Reorganisation Committee after it is reconstituted (The posts of Divisional Inspectors are not included in the list at (W) as the posts were created before 1939-40.)

3. Another suggestion is that the posts of Personal Assistants to the Director of Public Instruction are unnecessary as he is already assisted by a number of Dy. Directors . These posts of Personal Assistants have not been included in the list at page 184 of (W). E & P.H. may be requested to put up the G.Os in which the posts were created and to offer their remarks whether the two posts could be abolished.

4. There is also a suggestion that the posts of Personal Assistants to District Educational Officers are unnecessary. It is seen from the statements that District Educational Officers were given this assistance in order to enable them to cope with increase work on account of introduction of compulsory elementary education, work relating to Teachers' Provident Fund, etc. Additional clerical staff has also been sanctioned for the offices of District Educational Officers and Dy. Inspectors of Schools for this work.

The Personal Assistants are of the grade of Senior Dy. Inspectors of Schools, and it seems that as work involved in a D.E.O's Office cannot be highly technical, and all along was managed by a head clerk of Upper Division Clerk's status, the Personal Asst. can be dispensed with. If it is considered that an Upper Division Clerk II Grade is not enough as Head Clerk of D.E.O's Office in the present state of things, and that a higher post is necessary, a post of Upper Division Clerk in the I Grade can be sanctioned. E & P.H. may be requested to consider the suggestion.

5. Additional posts in Schools and Colleges have been sanctioned on account of increase in the pupil strength of the institutions and in accordance with the scale of teaching staff admissible. No reduction in such staff will ordinarily be possible.

6. There are Regional Inspectors of Physical Education to whom one Clerk and peons have been sanctioned. In his first note to the late Retrenchment Committee, written after a personal inspection of an office of Divisional Inspector of Schools, Additional Secretary remarked that the need for a clerk for a Regional Inspector required justification. He pointed out that the work of the Inspectors is to report on the general facilities provided for physical education in the schools visited by them, and that as the reports should be based on facts seen and ascertained by the Inspector during inspection, there should be no necessity for a clerk. If copies of reports have to be taken, the Inspector could himself prepare carbon copies while writing the original. At any rate, as the Regional Inspectors are attached to the office of Divisional Inspector of Schools in which there are typists doing fair copying work, copies of reports prepared by Regional Inspectors of Physical Education can be prepared by these typists. The clerks attached to Regional Inspectors can therefore be abolished unless there are other strong grounds for retaining them. E & P.H. may be requested to offer their remarks.

7. A steno-typist is allowed to the Professor of Electrical Engineering in the Engineering College, Guindy, and the Principal states that the post should be continued for two more years. It is not known why this professor alone has been given a Steno-typist. E & P.H. may be requested to consider whether the post of Steno-typist may not be withdrawn.

12.9.47

(2) A. on page 58 of (W) Secondary Grade Asst. Government Training School- Parvatipur.

The Divisional Inspector of Schools, Rajahmundry Division, has remarked that there is no need for the continuance of this post as the section will be relieved at the end of the year 1946-7. It is presumed that the post will cease to exist automatically after the expiry of the sanction and that no further orders are required in this matter.

12.9.47

(3) A on page 102 ~~G.O.~~ of (W) School Assistant in the Govt. Training School, Madras.

The Divisional Inspector of Schools, Madura Division remarked that the post of School Assistant may be abolished after 22-5-1947 as it is no longer necessary. It is presumed necessary action to abolish this post has been taken.

12.9.

(4) "B" on page 107 ~~G.O.~~ of (W) Secondary grade teacher, Govt. Training School, Malappuram. South Malabar District.

The Divisional Inspector of Schools has stated that the Headmaster of the School does not favour the continuance of the post as admissions to the post-war section are from non-mopillas and that the section may be discontinued. E & P.H. may be requested to take necessary action to abolish the post if it has not already been abolished.

(5) 'A' on page 141/ of (W) School Assistant, Govt. Secondary and Training School for women, Vellore.

The Inspectress of Girls School IV Circle, Madras, has remarked that one of the School assistants will be superfluous from April 1947 and ~~revised~~ renewed in July 1947 if an extra section of the emergency Secondary Training Class has to be opened if more than 40 students join for the bifurcated course of the S.S.L.C.

It is presumed that the above post has been kept vacant from April 1947 to June 1947. E & P.H. may also be requested to find out whether the post is to be renewed from July 1947.

(6) Item 'A' on page 176/ of (W) Temporary lower division clerk in the office of the Superintendent of Sanskrit Schools, Madras.

It is presumed that the post has been abolished with effect from 1-4-47 by the D.P.I. (~~would have~~ ~~Govt~~ may not have any information as D.P.I. is competent to sanction temporary posts subject to certain conditions).

11?] The question of the individual posts mentioned in para 7 may be considered by E & P.H.

8 With the larger no: of students seeking admission to the various colleges it is not likely that any retrenchment would be possible in the teaching & clerical staff in the various colleges. But if any proposals for further teaching staff are made, it may be considered whether the existing staff really has full work. My impression is that the Professors, Asst-Professors & Lecturers in first colleges have very much less work

9 I think that Clerks for the Regional Inspectors of Physical Education are really superfluous & should be abolished.

10 As regards the D.P.I.'s office there cannot be a real need for a no: of Deputy Directors dealing with particular branches of work under the supervision of the D.P.I. & for two Personal Assistants. The possibility of dispensing with the P.A.s may be examined.

11 [My own opinion is that Divisional Inspectors of Schools are quite unnecessary particularly as the D.P.I. has the assistance of a no: of Deputy who deal with the larger administrative questions, and that with larger delegation of powers to the D.E.Os in what are really routine matters the posts of Divisional Inspectors can easily be abolished. This has been suggested a no: of times & my impression is that even the Govt. will come to the tentative conclusion that they could be abolished. If this is done the work of the D.E.Os would become more responsible though its volume would not increase much (they would only pass final orders in matters in which they now report to the Divisional Inspector) & it is perhaps desirable to retain the personal Assistants of the grade of Senior Deputy Inspectors to the D.E.Os to give relief in routine matters. If however the Divisional Inspectors of Schools are retained (whether with or without a reduction in their number) the posts of P.A.s to D.E.Os seem to be superfluous.] E & P.H. may kindly examine the question in all its bearings.

Finance 6830 9/46 Re. 530/12.7.47

The points raised by Finance are examd. below: paras 5 and 8 of notes on pp. 4 & 6 above; no special remarks seem called for.

Please see the notes at pp. 5 & 6/N. 1824 - D. 1.7.47.

(2)

The points raised by Finance are examined below:-

1. Paras 2, 4 and 11 on pp.3-4 and 7 ante.

G.O.No.2695-Edn. d/ 17-12-36, in which the posts of Divisional Inspectors of Schools were first created is in L.F. The suggestion to abolish the posts has been noted on in detail in that file. The question was once before raised in 1937-39 but then the Govt. decided that the posts should not be abolished. The D.P.I. in his letter in the L.F. opened that if it became absolutely necessary to abolish the posts it would become imperative to create an equal number of Dy. Directors on the Divl.Inspectors' scales of pay in addition to the existing Dy.Directors and even that arrangement would result in more harm than good as the schools and subordinate officers throughout the presidency would be left without any local check. A further D.O. received from the Director is at pp.9-12 C.F. of G.O.2129 Edn. d/ 8.11.46 and it may be perused.

The posts of P.A.'s to the D.E.O.'s were sanctioned in G.O.No.672 Edn., d/ 28.3.46, for the period from 1.4.46 to 1.4.47. They were continued for a further period of one year, except in the case of Chingleput in G.O.No.671 d/ 3.4.47 for the reasons stated in the letter at (T) 1-3 c.f. However, the remarks of the Director on the suggestion at R on p. 7 ante may first be obtained. A draft memo. is submitted.

2. Paras 3 & 10 of notes on pp. 4 & 7 ante.

The items of work now attended to by the P.A. to the D.P.I. will be seen enumerated at p. 18 of G.O.1532 P.(S) d/ 22.5.47. The P.A.'s ~~to the~~ post has been in existence from the date even prior to 19.4.1898. The D.P.I. has been consistently holding the view that the P.A. has more or less the same type of work as his Dy. Directors. As late as Dec. 1946 he stated that the post was absolutely necessary. A post of additional P.A. to the D.P.I. was there during 1946. It was abolished by the beginning of 1947 and a woman officer designated "Inspectress at the Central Office" was appointed in its place and also in the place of the vacant post of Dy.

Directress of Public Instruction - G.O.2403 Edn. d/ 16.12.46, put up below. The abolition of the Inspectress' post cannot be thought of. More than one interpellation were made asked in the Legislative Assembly in the matter and the members urged the necessity for the existence of a woman officer in the Dir.'s Office.

3. There are three Dy.Directors of Pub.Instruction-one for Personnel and Colleges, another for Secy. Edn. and Finance and the third for Ele.Edn. The Director submitted a proposal at the close of last year for ~~this~~ the apptt. of a Joint D.P.I. so that he could be able to relieve the Dir. of some exceedingly heavy work. The Govt. however turned down the proposal. In that connection the Dir. reported that all the officers in his office were already overworked and could not be expected to give any relief to the Dir. In connection with the preparation of Part II of this budget for the current year he had also proposed the apptt. of a Dy. Dir. for Tech. Edn. The Govt. deferred that proposal also. In view of these, any retrenchment in the number of gazetted posts in the D.P.I.'s office cannot be effected. On the other hand, there seems to be necessity for the apptt. of another officer. In fact, the D.P.I. in a D.O. written to the Hon.Minister some time ago, mentioned, in a complaining manner, that almost every one of his proposals for additional staff had been negatived, and that, as a result, his office was working under the greatest strain and ~~strongly~~ struggling to see that important items were not ~~under~~ unduly delayed.

4. Paras 5 and 8 of notes on pp.4 & 6 above: No special remarks seem called for.

5. Item (1) Under para 7 on page 5 ante.

The circumstances under which a stenotypist was sanctioned for the Prof. of Electrical Engineering ~~above~~ alone are explained in the Principal's ~~six~~ letter on pp.5-7 c.f. G.O.No.141 Edn. d/ 21.1.46. The sanction accorded in the G.O. has already expired and the D.P.I. reports that the Principal has applied for the continuance of the post and that the proposal will be submitted to Govt. The need for the continuance of the post will be examined again in consultation with Finance.

6. Para 7. items (2) to (5) on pp. 5-6 ante.

A para has been added to the Draft memo. submitted below.

7. Para (7) Item 6. on p. ante

It may be ascertained from the D.P.I. whether the post of the temporary Lower Division clerk sanctioned in the office of the Supt. of Sanskrit Schools has been abolished with effect from 1.4.47. as presumed by the Fin. on p. 6 ante.

A para is added to the Draft memo submitted below.

8. Clerks attached to Regional Inspectors of Physical Education.

The omission to note on this item is regretted. In connection with the implementing of the Post War Scheme No.36, the D.P.I. has been asked to bring forward proposals for the appointment of Supervisory staff for Physical Education as a Part II Scheme for 1948 - 49 and they are awaited. Please see para 3 of G.O. No. 943 Education dated 7-5-1947. The question of ~~the~~ abolition of the ~~clerks of the~~ post of clerk attached to Regional Inspectors of Physical Education may be considered when the proposals are received. If, however, it is considered that D.P.I. should be consulted on the point raised by the Finance Department, the ~~attention now~~ may additional made to the draft is for approval.

DIVISIONAL INSPECTORS OF SCHOOLS AND PERSONAL ASSISTANTS TO DISTRICT EDUCATIONAL OFFICERS.

The suggestions of this Department at R on p 7 above were put to the Director of Public ~~Information~~ Instruction. The Director is of the view that neither the Divisional Inspectors nor the Personal Assistants to District Educational Officers can be dispensed with. E & P.H. have agreed with the Director of Public Instruction. It may be stated in this connection that one of the questions suggested for examination by the Sub-Committee of the Retrenchment and Reorganisation Committee for Education, Public Health and Medical Departments is "whether Divisional Inspectors of schools and Personal Assistants to District Educational Officers are necessary". The members of the Committee are visiting various offices including those of Divisional Inspectors and District Educational Officers. The recommendations of the Sub-Committee in this matter may be awaited.

If Dt Administrative officers are to be appointed Divisional Inspns will be unnecessary. 9.XII.47.

PERSONAL ASSISTANTS TO THE DIRECTOR OF PUBLIC INSTRUCTION.

As regards the Director of Public Instruction's Office, this Department raised the question as to whether the two personal Assistants cannot be dispensed with in view of the fact that there are a number of Deputy Directors. E & P.H. have stated that retrenchment in the number of gazetted posts in the D.P.I's office cannot be effected. The chairman of the Committee has suggested to the above Sub-Committee, that instead of the D.P.I. with a large number of Deputies dealing with all educational matters, there might be one officer for University Education and another with two Deputies, one for the north and the other for the south, for dealing with all questions relating to Elementary and Secondary education. The members of the Sub-Committee recently visited the office of the D.P.I. Their recommendations may be awaited in this matter also

STENO-TYPIST FOR THE PROFESSOR OF ELECTRICAL ENGINEERING, ENGINEERING COLLEGE, GUINDY.

This Department requested E & P.H. to consider whether the post of steno-typist may not be withdrawn. E & P.H. have stated that the Principal has applied for the continuance of the post and that the question will be examined again in consultation with this Department. E & P.H. may be requested to send the concerned proposal specifically to the Finance (Reorganisation) Department before final orders are issued.

CLERKS ATTACHED TO REGIONAL INSPECTORS OF PHYSICAL EDUCATION.

The note of this Department in paras 6 and 9 on pages 4 and 7 above and the remarks of the D.P.I. on page 14 c.f. may be perused. It is stated that the items of work to be done by a clerk in the office are:-

(a) maintenance of records,
(b) preparation of T.A. bills, pay bills, statement of work,
(c) fair copying of the inspection reports,
(d) despatch of papers.

It can be safely stated that the work relating to maintenance of records and preparation of statement of work is only nominal and insignificant. As regards fair-copying of the inspection reports, the Additional Secretary, Finance after a personal inspection of an office of Divisional Inspector of Schools, is of the opinion that the inspection reports should be based on facts seen and ascertained by the Inspector during inspection and that if copies of reports have to be taken, the Inspector can himself prepare carbon copies while writing the original. There is no force in the argument of the Director. The despatch of papers can be attended to in the despatching section of the office of the Divisional Inspector of schools. Pay bills have to be prepared ordinarily once a month and that too/a small esta

Divisional Inspectors of Schools & Personal Assistants to Dt. Educational Officers.	Neither of the posts can be abolished without serious dislocation of administration. The proposal for the abolition of Divisional Inspectors has already been examined on several occasions and the need for the retention of these posts has been explained in detail in my (previous) letters ~~D.O.No.C1.38/46 dated 10-8-46 with reference to Govt. Memo No.24447 A-3, Education, dated 15-6-46 and R.C. No.490 K3/47, dated 18-4-1947 in reply to Govt. Memo No.69361 R.E.46/1, dated 20-12-1946.~~ In this connection attention is also invited to my letter R.C. No.10141 K-3/46 dated 11-6-47 bearing reference to Govt. Memo No.69086-RE-1/46 dated 19-12-46 in which a very wide delegation of powers has been proposed to the Divisional Inspectors and District Educational Officers. For constant and effective supervision of the District Officers and for conducting enquiries into the numerous complaints which are being sent to me by Govt. an intermediate Officer is essential. In fact, we require one more Officer in that grade to reduce the jurisdiction of the four Divisional Inspectors. The District Educational Officers enjoy considerable powers as it is and any further delegation to junior officers would be disastrous. On this account, therefore, the suggestion to delegate the powers of the Divisional Inspectors to the District Educational Officers cannot be accepted. If, on the other hand, all the powers now enjoyed by the Divisional Inspectors are taken over by me, administration will become even more dangerously centralised	~~My own opinion is that~~ The Divisional Inspectors of schools are quite unnecessary particularly as the D.P.I. has the assistance of a number of Deputies who deal with the larger administrative questions and ~~that~~ with larger delegation of powers to the D. E.Os. in what are really routine matters, the posts of Divisional Inspectors can easily be abolished. This has been suggested a number of times and ~~xhax my impression is that~~ even the Govt. once came to the tentative conclusion that they could be abolished. If this is done, the work of the D.E.Os. would become more responsible though its volume would not increase much, (They would only pass final orders in matters in which they now report to the Divisional Inspector) and it is perhaps desirable to retain the personal assistants of the grade of Senior Dy. Inspectors to D.E.Os. to give relief in routine matters. If, however, the Divisional Inspectors of schools are retained (whether with or without a reduction in their number) the posts of P.As. to D.E.Os. seem to be superfluous. ~~E & P.H. may kindly examine the question in all its bearings~~. It may be stated in this connection that one of the questions suggested for examination by the Sub-Committee of the Retrenchment and Reorganisation Committee for Education, Public Health and Medical Departments is "whether	120

(1)	(2)	(3)	(4)
	than it is. The Control that can be exercised by this office would be weak and ineffective. For quick despatch of business, intermediate Officers who are frequently touring in their jurisdiction and are easily accessible to the public as well as local officials and who can also gather information on the spot, are essential. As regards the abolition of personal Assistants in the alternative, the work of the District Educational Officers has become so heavy that the posts cannot be abolished - vide: in this connection G.O.No.671, Education dated 3-4-1947. These posts cannot be dispensed with as the District Educational Officers have very heavy work and cannot find time for the routine work now done by the Personal Assistants.	Divisional Inspectors of schools and Personal Assistants to District Educational Officers are necessary." The members of the Committee are visiting various offices including those of Divisional Inspectors and District Educational Officers. The recommendations of the Sub-Committee in this matter may be awaited. If Dt. Administrative Officers are to be appointed Divisional Inspectors will be unnecessary.	
Clerks attached to Regional Inspections of Physical Education	The proposal for the abolition of the post of the clerks attached to the Regional Inspectors of Physical Edn. cannot be accepted as there is sufficient work for the clerks. As the Regional Inspector is a touring officer, the work for the clerk in the office is maintenance of records, preparation of T.A. bills, pay bills, statement of work, besides the fair-copying of the inspection reports and despatch of papers. These could not be done by the Inspector himself; nor can this additional work be undertaken by the limited establishment of the office of the Divisional Inspectors.	It is stated that the items of work to be done by a clerk in the office are:-- (a) maintenance of records, (b) preparation of T.A. bills, pay bills, statement of work (c) fair copying of the inspection reports, (d) despatch of papers. It can be safely stated that the work relating to maintenance of records and preparation of statement of work is only nominal and in-

		insignificant. As regarding f/ fair-copying of the inspection reports, the Additional Secretary, Finance after a personal inspection of an office of Divisional Inspector of Schools, is of the opinion that the inspection reports should be based on facts seen and ascertained by the Inspector during inspection and that if copies of reports have to be taken, the Inspector can himself prepare carbon copies while writing the original. There is no force in the argument of the Director. The despatch of papers can be attended to in the despatching section of the office of the Divisional Inspector of schools. Pay bills have to be prepared ordinarily once a month and that too for a small establishment of one Regional Inspector and one or more peons. As regards T.A. bills it may perhaps be necessary to prepare a number of bills in a month but this work by itself cannot justify the employment of a separate clerk. This item can be attended to by the ministerial establishment of the Divisional Inspector of Schools or the D.E.O. The clerks attached to the Regional Inspectors of Physical Education have little work to do and the posts may be abolished.	121

Sir,

With reference to the advertisement in the papers, calling for suggestions regarding the reforms to be made in the Educational Department, I wish to submit the following suggestions with the full hope that they would be found worthy of your consideration and adoption.

1. Personal Assistnts posts. There are now 2 personal assistants to the Director of Public Instructions, in addition to Deputy Directors. Since there are Dy.Directors, doing most of the works of the Director, there is no necessity for personal assistants at all, at such a fat salaries, who do no important and original work except passing papers to the Director, or putting up notes, which is being done by the office Managers or Head-clerks in most other departments. As these posts are superflous they can be abolished.

2. Physical Education Section. There are Advisor to Govt., Woman specialists and some Regional Inspectors with wide area for travelling and drawing fat travelling and daily allowances. It is not known, the nature of important and useful work turned out by these high paid gentries. None of them seem to possess any special knowledge in physical culture. They simply tour about from place to place to witness conduct sports, which is being organised and arranged by school authorities. They do not suggest any improvement in the physical training system already in existance in the schools and colleges, nor do they possess any such qualification to impart special instructions since they are general officials selected for this created section. Instead of these worthless and no-nothing gentlemen, military men of Avildar rank may be appointed to each High School and College to train the student who form the future generation of the Country. The suggested military men can really talk

the younger generation strong and bold to live a long healthy life and to be fit to stand in front for the defence of our mothem Country in case of emergency. Therefore it will be found that the existing officials of this physical culture section are unnecessary and a mere waste, and can be safely abolished at once. The monies wasted on them already was a loss to the Government without any good advantage or result.

5. Divisional Inspectors. This is another wasteful section with high paid officials having wide jurisdiction for pleasure trips without any original or important work to do. These offices are only interium postoffices transferring papers from higher to lowere offices and vise versa. They have no detailed knowledge of the teachers or their work in their jurisdiction, as they do not inspect schools. Their only work is appointment and transfers of teachers and of granting exemption to teachers without knowing the work or character of the exemted. There are much scope for corruption and red-tapism in this matter. Much money, time and labour will be saved by abolishing this useless and top-heavy section. If the D.E.Os of the Province are privately consulted and asked to give their opinion honestly, I hope they would speak to the uselessness of the above section, though they may not openly give their views as they have to speak on instructions from their superiors, who are interested in safeguarding the postes of their favourites and sections.

4. Personal Assistants of D.E.Os. These are another unneces ary posts. They do not turn out any original work, except boss over the hard worked staffs. The offices of the D.E.Os are understaffed and as such the number of clerks may be increased in the place of high paid personal assistants.

5. College teaching staffs. The professors of colleges have not got sufficient work per day except an hour or two of lecturing work. They are paid very high salaries, out of proportion to their labour. One lecturer for each subject may be conveniently abolished as they are more than 3 for each subject and out of proportion to the strength and classes of colleges.

6. Salaries of Elementary School Teachers. The present scale of salaries to these poor teachers are very low and they are -- actually starving. Their salaries are not regularly disbursed each month. Their condition is very melancholy. The District Boards under whose care these are left, are not able to manage the schools and teachers under them as they are numberless beyond the capacity of the control of the Dt. Boards. The Schools may be kept under the direct control of the Govt. through Deputy Inspectors or may be kept under the control of Panchayat Boards. The monies allotted by the Government for compulsory education, is not being spent for the benefit of the pupils, properly. Much monies are wasted and they are not properly accounted for, for want of proper supervising Officers. Aided-school teachers may be paid monthly salaries instead of making quartely grants to them. This system of payment by months, will simplyfy the office work, as most of the rules and practice now in vogue may become unnecessary.

In this way much reform and retrenchment can be effected and introduced in the Revenue Department and other departments of Government, as lot of mushroom groth has set in and requires to be weeded out as there are lot of corruptions and hinderence to the public than any real help either to the Government or the public at large.

Yours faithfully,

T. R. Kamath

To

The Honourable Minister for Education,
M a d r a s.

Sir,

Sub:--[illegible] - Education Department - Certain Points -
suggested.

Through the columns of "THE HINDU" daily, I noticed, that the offices of the Government of Madras are proposed to be re-organised with a view to effect possible retrenchment by abolishing superfluous offices and reducing the scales of pay of the Gazetted officers.

This is a very right course in the right direction in a most opportune time. Although there may be so many superfluous offices in several branches of the Government of Madras, yet I wish to confine myself, for the present, with the Educational Department.

At the eve of the PREVIOUS CONGRESS MINISTRY in this province, there was a proposal to abolish the offices of the Divisional Inspector of schools in this province; as they were felt to be really superfluous; but the proposal was not given effect to during the Advisers' regime of these recent seven or eight years for reasons best known to them but not to be expressed openly in writing now. There are four such offices in this province for the last TEN years with one officer of the Deputy Director of Public Instruction's cadre getting about more than THOUSAND Rupees a month in addition to about Two Hundred Rupees Travelling Allowance etc amounting to about THOUSAND RUPEES every month. Each of these officers has got a jurisdiction of about half a dozen districts. Each one of the offices consists of a very big establishment with a MANAGER as the administrative head of the office and about ten clerks including two upper division clerks. It is about TEN years since these offices are in existence and yet the nature of the usefulness or the constructive work done by them is found to be absolutely NIL, excepting inspection of the District Educational Officers' offices and touring all over the vast jurisdiction for the purpose of presiding over the meetings and opening of buildings etc arranged by their subordinate officers and non-officials, not to speak of transferring of the officers such as Junior Deputy Inspectors, clerks etc under their control. All these four officers in this province drain out from provincial funds about FOUR TO FIVE LAKHS OF RUPEES every year for practically no work. There-are They are no doubt meant to assist the Director of Public Instruction in many ways. Besides these Divisional Inspectors, there are two or three Deputy Directors attached to the Director of Public Instruction's office in Madras. The advancement of Education both Elementary and Secondary etc was a bit better also prior to the formation of the Divisional Inspectors' offices in 1937 or so. But subsequent to that, nothing substantial has been shown towards the improvement of Education of various type, except-

P.T.O P'd

exceptng that progress is being shown by means of statistics by manipulating figurs in papers in black and white. The formation of new offices like the one under reference has been very much helpful for cooking up things like this. But alas ! There were allowed to continue so long without being questioned. It is high time, therefore, that the question of the abolition of these offices is taken up for atleast now, though belated, as a first step for retrenchment in the Education Department. This is really felt to be a FIFTH wheel of the EDUCATIONAL COACH. This richly deserves to be immediately done away with without hesitation.

Secondly, there is one gazetted officer for each District as District Educational Officer with so many Deputy Inspectors and Junior Deputy Inspectors for each taluk under him. There is a qualified Head-Clerk with a number of clerks in the District Educational Officer's office and yet a new office has been created as PERSONAL ASSISTANT TO EACH DISTRICT EDUCATIONAL OFFICER. This Personal Assistant is really superfluous and could be styled as glorified Headclerks ~~will~~ -would-be-. The post could be safely abolished inwwhich case about 25 posts of this sort could be retrenched. Thereby an avoidable expenditure of about a LAKH of rupees could be saved and could be usefully utilised for better purposes.

The above suggestions are a few among so many in the matter of RETRENCHMENT POLICY, and could be immediately attended to and axed solely towards the benefit of Education and Economy.

2. All the above temporary posts are to be retained permanently as they are all essential with reference to the increase in strength of the students year by year. They are also necessary to satisfy the regulations of the University. Hence there is no feasibility of reducing the existing temporary staff. More over in view of the increased admissions during the academic year 1946-1947, additional appointments of Assistant Professors (both in seience and language subjects), demonstrators and attenders have been applied for, for which orders are still awaited. Owing to the shortage of staff the College work is handicapped to a large extent.

Sir,

With reference to proceedings Rc. 11095-K 3/46 dated 8-1-47 I am submitting herewith the particulars called for in respect of the new posts created since 1939-40. The posts which have since been made permanent have been ~~xxx~~ excluded.

All the posts newly created in this institution were purely on account of the demand of the public for increased facilities for Education and introduction of new courses etc. All the posts may therefore, have to be eventually made permanent as they are all essential in the interest of education and were created to meet the nominal requirements but not due to any extra work on account of the war situation etc.

I therefore request that all the posts may kindly be continued and made permanent as early as possible.

RC/11095/K3/46

Sir,

Subject:— Economies in expenditure.
Reference:— Your Proceedings R.O.C.No. 11095 K.3/46 dated 8--1--1947.

****

I am herewith submitting the statistics called for in your Proceedings quoted above.

In this connection, I may be permitted to state that all the posts in this college created after 1939--40 are in consequence of

(1) the starting of the B.Sc. courses in Physics (main) and chemistry (main) with Mathematics, Electrical Engineering, Zoology, chemistry or Physics as subsidiaries.

(2) of Electrical Engineering course under Part III

of the Intermediate course.

(3) of Geography under Part III of the Intermediate.

(4) of Economics main and History under Part III of the B.A. courses and

(5) of Hindi under Part II of the Intermediate and B.A. courses and of study.

In 1946--47 two posts one in English and one in Mathematics and a peon for the library (sanctioned in G.O. No. Ms. 2387 Edn., dated 13--12--1946) were created in consequence of the increased admissions sanctioned in Proceedings R.C.No. 1116 K/46 dated 17.6.46 of the Director of Public Instruction, Madras.

As it is many Departments of this college especially of the 2nd language sections are, if at all, understaffed. Therefore it is not feasible to abolish any of the posts and they have got to be continued so long as this college provides for the present course of studies, and the present strength of the various classes is maintained.

As regards (the duties performed by each class of officer) the Lecturers do teaching and correction work and in addition supervise the work of the assistant Lecturers and Tutors or Demonstrators as the case may be.

2. The Assistant Lecturers do teaching and correction work.

3. The Demonstrators and Tutors in addition to supervising and guiding the work of the students doing their practical, composition or Library classes also do 2 hours of lecture work. Sometimes they are given more lecture work. They have to correct anything - between 150 to 200 practical note books or composition books as the case may be. The Demonstrators and attenders assist the Lecturers etc. in making arrangements for practical classes.

Prior to the creation of the posts of Regional Inspectors of Physical Education, (formerly known as Divl. Physical Directors for sometime and Regional Physical Directors till recently) there was only one Inspecting Officers, namely the Senior Physical Director to the Govt. of Madras besides the Adviser to Govt. on Physical Edn. With the increasing importance attached to Physical Edn in the School curriculum, and the introduction of the Scheme of Compulsory Physical Edn both in the Sec. and Training Schools, with effect from 1940-41, the need for the expansion and the intensification of the Inspectorate of Physical Edn was felt, and the posts were created with effect from 1-7-1942. These Inspecting officers are to exercise technical supervision over the organisation of Physical Edn in Secondary and Training Schools, and offer suggestions for its programme and improvement. They are required to inspect and guide the Physical Edn in Sec. and training Schools, visit as many Secondary, Training, Higher and Lower Ely. Schools as possible during inspection tours, conduct Refresher classes in Physical Education for T.T.Is employed in sec. and Training schools, conduct special Physical Edn. classes for ely. school teachers and others, Scrutinize the annual games budgets of Sec. and Training Schools etc..

The purpose with which these posts were originally Created still exists and they may therefore be permanently retained together with the posts of a clerk and a peon attached to each.

The posts specified in Col. 4 which have been on a temporary basis since 1-6-42, may be made permanent, as the office of the Dt. Edl. officer with its present Staff in North Vizagapatam Dt., is absolutely necessary.

The Addl. Clerks posts in the Seven Ranges specified in col. 1, may be made permanent in view of the fact that the work in the offices of the Dy. Inspectors of Schools has been considerably increased, due to introduction of Compulsory Edn. T.P.F. Scheme, in Aided Ely. Schools etc.

Till 31-5-33, two range offices one at Narasannapet and the other at Chicacole were existing. On Taluk wise basis, the office of the D.I. of Schools Narasannapet Range, was amalgamated with Chicacole, which is situated at the then Composite Taluk Headquarters. Since Narasannapet Taluk has been formulated on 1-7-45, a separate range office is sanctioned temporarily for two years. It is now recommended that the office of the Deputy Inspector of Schools, Narasannapeta Range with the existing staff may be made permanent.

It is recommended that the post of the Addl. Peon in the Govt. Trg. School, Parvatipur, may be made permanent from 1-7-47 as the Addl. Peon is absolutely necessary in view of the fact that there are extra Sections also and one peon is not enough. 1/54

The Temporary clerks' post in both the Govt. Trg. School, Parvatipur and Chicacole may be sanctioned permanently from 1-7-47, as the work in the training schools also became heavy and the services of a clerk are permanently required.

Already abolished in G.O. No MS. 2855 P.W.D. d. 7-11-45.

As already explained in this office Rc. No. 222/A/46 d. 20-1-47 and Rc. 222/A/46 d. 17-3-47 there is need for the continuance of the Personal Asst's Post beyond 31-3-47 permanently or even temporarily for a period of 3 years from 1-4-47, in view of the fact that the work in the D.E.O's office, is greatly increased both in quality and quantity in connection with Compulsory Ele. Edn. Midday meals and T.P.F. correspondence etc.

As the teaching of Music forms part of the scheme for training schools, the post has to be made permanent.

It is proposed that the post may be continued for 2 years more in views of the opening of Addl. Ele. Section, proposed separately by this office.

Proposal is submitted separately for the sanction of a Secondary section permanently or temporarily for this district from the School-year 1947-48 as there is no provision at all for Sec. grade training in the North Vizagapatam Dt. Hence the post may have to be continued.

There is no need for the continuance of this post as the Section will be relieved at the end of the year 1946-47.

Proposals are submitted separately for the opening of 2 Addl. Training Sections in July 1947, in connection with Post-War Reconstruction. The two posts which are sanctioned upto the end of the school-year 1946-47 may be ordered to be continued.

Proposal for permanent retention was Separately Submitted with reference to Dive. Inspector's Pros. Rc-458 A/45 d. 31-1-47.

For another year if the emergency Sec. grade Trg. class is to be continued in Govt. Trg. school. Pentapadu.

— do — in Govt Trg. School. Eluru.

The previous sanction dated from June 1942. They are already having 5 years existence in two terms of sanction. The fact that these posts are in existence for 5 years is proof enough to show that there is distinct need for their continuance. Their permanent retention is therefore, recommended.

The remarks made above apply Mutatis Mutandis to this post. this also requires to be permanently retained Especially the school is having only one clerk.

The post is intended for the Sec. Trg. Section newly created under the Post-war reconstruction scheme. The continuance of the post is incumbent on the continuance of the Sec. Trg. Section involving two years' Course. Its continuance for a further period is necessary in case the Sec. Trg. Section is continued for such period as the Trg Section would continue.

The post refers to the Emergency Training Class opened in the Govt. Trg. School, Masulipatam in July 1947. The continuance of the post is contingent on the continuance of the Emergency Trg. class for another term. Proposals in this regard are due to the D P I before 1-3-47 with ref to his Pros Rc. 8702 Ki46 d. 23-1-47.

The posts deserve to be made permanent as they are quite essential in view of the increased work in offices and institutions. These were sanctioned from 1-6-48.

The clerk is necessary for the school and the post may be continued permanently. It was sanctioned from 11-2-43.

Even after the bifurcation of the District educationally for 2 years from 1-5-46, the work in this office has abnormally increased and one additional clerk and attender were considered necessary and asked for, but only one clerk on a fixed pay for 3 months was sanctioned by the Director of Public Instruction. By this, no experienced clerk could be appointed, as the pay is fixed. Hence it is recommended that a clerk's post in the time scale of Pay and one attender's post, may be sanctioned for at least 2 more years from 1-5-47 (~~with statistics enclosed justification of this~~).

Proposals were submitted separately to the Dirl. Inspr. of schools for Confirming the Personal Assistant's post from 1-4-47 (Please See 247-A/46 d. 5-2-1947).

As the jurisdiction of the Deputy Inspector Guntur Muslim Range, is the whole district and as there is sufficient work, the Junior Deputy Inspector's Post needs to be confirmed.

As the Junior Deputy Inspector's Post deserves to be confirmed the post of the peon deserves to be made permanent.

The post was sanctioned from 1-7-44 and it is quite essential. It deserves to be made permanent.

The post was sanctioned temporarily for one year, as a result of the creation of an additional emergency Secondary training section in the School. It has to be continued in case this emergency training class is run in additional sections next year also.

The post was sanctioned for the school year 1946-47 only. It may be confirmed, as music is an important compulsory subject.

The school was sanctioned temporarily for one year from 4-12-46. It may be confirmed as Basic Training is quite necessary for most of the teachers.

29

158

The temporary posts sanctioned originally with effect from 1-6-42 have to be made permanent as the continuance of the posts is inevitable due to the heavy work involved in the expansion of Ely. Edn., Spread of compulsory Education, Introduction of Compulsory T.F.F. scheme to aided school teachers, opening of T.S.Rs and assessment of grants and quarterly payment and such others works

The post has to be made permanent to give relief to the Head master and Asstts. in respect of clerical work and to Concentrate their attention solely to teaching work.

The bifurcation of the District Educational Office into two has been ordered due to unwieldy position of a Single office to manage all schools in the district. It has ultimately to be made permanent.

The post is permanently sanctioned as Music is included in the curriculam.

SUBMITTED to the Director of Public Instruction, M a d r a s in continuation of this office RC. No.26.G1/47 dated 19-1-1947 and with reference to his Pros. RC. No.11095-K3/46 dated 8-1-1947, 1-2-1947 and 17-2-1947.

2. From the statements received from the District Educational Officers in the Division, it will be seen that there is real need for the continuance of various kinds of posts sanctioned in and after -- 1939-40 due to the enormous increase in work consequent on the introduction of new schemes.

3.

3. The retention of the posts of Personal Assistants to the District Educational Officers in the Division has been separately recommended in this office RC. No.452.G1/45 dated 6-2-1947 in reply to Pros. RC. No.848.A/40 dated 4-5-1946.

4. Sanction of permanent retention of the posts of additional clerks in the Deputy Inspectors of Schools offices has been recommended separately in this office RC.No.108.G1/47 dated 8-3-1947 in reply to Pros. RC.No.123.K.3/47 dated 8-2-1947.

5. The continuance of the posts of clerks in certain Government Institutions is being recommended separately in this office RC.No.69.G1/47 in reply to Pros. RC.No.105-K/47 dated 31-1-1947.

6. The recommendations of the District Educational Officers in regard to the retention of continuance of posts of L.T. Assistants, Secondary Grade Teachers and other special teachers and Attenders are upheld.

7. The staff sanctioned for several offices and institutions is the utmost minimum, but inadequate for the efficient and speedy discharge of Government work. It may not be out of place to state here that work has been on gradual increase particularly in offices where the need for additional staff cannot be disregarded.

1. Personal Asst. to the District Educational Officer, Chittoor.	1.	G-O. Ms.672 Edu-. dated 28=3=46 (1 year from 1-4-46)	31-3-1947-	Permanently proposed.	Proposals for further continuance of the Personal Assistant's Post submitted in detail in this office Roc.No.555=A/45 dated 4=12=46 and in I.Dis.No.24-A/47 dated 20-1-47 in response to Proceedings Rc.No.848-A/40 dated 4-5-46 of the Director of Public Instruction, Madras and Proceedings Rc.No.452-G1/46 dated 20-11-46 and 17-1-47 of the Divisional Inspector of Schools, Anantapur.
2. Deputy Inspector of Schools, Muslim Range, Chittoor.	1.	G.O.Ms.794 Edu., dated 12-4-46 and 2) G.O.1408 Edu., & P.H. dated 20-7-46	31-5-46	Permanently necessary	In this District there are 61 Muslim boys elementary schools spread over the whole District which gives enough work for 1 Muslim Deputy Inspector. The continuance of a separate Muslim Range for Chittoor will help the efficient supervision and control of the Muslim Elementary schools in the District and will expedite the disposal of the papers relating to Muslim schools. Hence the recently reconstituted Chittoor Muslim Range may be permanently sanctioned.
3. Part-time Music teacher, Government Training School, Chittoor.	1.	G.O.Ms.851 Edn., & P.H. dated 22-4-46 from the school year 1946=47 on a fixed pay of Rs.30/= per mensem without Dearness allowance.	Sanctioned from the school year 1946=47.	May be retained permanently.	The post of the part-time music teacher may not be abolished as its continuance is necessary in view of the fact that music is introduced as an optional subject in the Training school curriculam.

This post was sanctioned for opening an additional Secondary Training class (emergency course) in the Government Secondary Training school, Chittoor for 1946-47. But for want of strength the second section was not opened and so a request was already made in this office Roc.No.175-B/46 dated 5-8-46 to keep the second section in abeyance for the year 1946-47. The need for the further sanction of this L.T. post will depend upon the number of candidates seeking admission for the emergency course if opened from July 1947.
5. 1 School Assit. and 1 Secondary grade teacher of the Govt. Sec.Training Schoool, Chittoor.	1 School Asst. for 2 years from the date of appointment ie., 21-9-45 2) Secondary grade teacher for 1 year from 46-47 (school year)	G.O.No.Ms.1202 Edu., dated 7-8-45.	30-6-47- 30-6-47	5 Years.	Post-war Higher Elementary Grade sections have now been sanctioned upto the school year 1946-47. One Higher elementary class junior section was started in 1945-46 and that section continues now for 1946-47 as the senior Higher elementary section. Another Higher elementary Junior section was started in 1946-47 as sanctioned in Government memo No.26892-C.1/46-2 dated 12-6-46 communicated in Proceedings Rc-No.11-A/45 dated 23-6-46 of the ,Director of Public Instruction, Madras. As the sanctions accorded for the staff expire by 30-6-47 the post of an L.T. may kindly be sanctioned for 1947-48 for the senior Higher Elementary class of 1947-48 as the present juniors will be promoted to that class as seniors. As there is need for a larger output of teachers it is recommended that these classes and the necessary staff for them may be continued for another period of 5 years.

These four new Middle Schools were opened on 2.7.45 and now they are in a flourishing condition such that the Schools are not proposed to be developed into Complete High Schools. These Schools have been recommended to be included in the Post War Scheme for 1947-48 for opening Higher forms in these Schools. Besides, the Public in all these places are very much interested in the education of their girls and they are also anxious to have these Schools developed soon into High Schools and the opening of forms IX at least in 1947-48 will not fail. Hence all the posts in the 4 Schools have to be continued and made permanent.

RC 11095 K3/46

Department and Class of posts.	Number in each class.	G.O. in which the posts were sanctioned.	Date on which present sanction expires.	Date up to which it is considered necessary to continue the posts with full reasons.
Education Department.				
(1) Govt. Secondary School for girls, Salem.				
School Assistant.	1	G.O.No.1336, Edn. dated 9-7-1946.	26-6-1948.	It needs permanent retention as the strength in the High School Forms are on the increase and there is no possibility of reducing sections.
Secondary Grade Teachers.	5	G.O.Ms.1690 Edn. dated 3-9-46 and 1281 Edn. dated 22-8-45.	4 posts till end of 47-48 and 1 up to 1-10-1947.	There are 13 sections in Form III and below and there are only 13 Secy. grade posts including these 5 posts. Hence the posts require to be continued.
Physical Training Instructress.	1	G.O.Ms.1160, Edn. dated 12-6-1946.	Till the end of 1947--48.	As the strength of the school is 615, the Physical Trg. Instructress's post has to be continued.
P e o n.	1	G.O.Ms.1903 Edn. dated 3-10-1946.	Till 1st June 1948.	There are only 3 peons for the school, excluding 1 for laboratory. As there are 3 separate blocks, the peon shown in Col.(2) is necessary and may be continued.
(2) Govt. Training School for Muslim women, Shevapet.				
School Assistant.	1	G.O.1400 Edn. dated 25-9-44.	16-10-1947.	Its continuance is necessary for the Training Sections.
Religious Instructress.	1	G.O.939 Edn. Ms. dated 5-4-1946.	30-6-1948.	The post is necessary being a muslim school.
(3) Govt. Secy. & Trg. School for women, Palghat.				
School Assistant.	1)	G.O.1074 Edn. dated 17-7-45.	12-8-1947. 31-5-1947.	Necessary as long as the additional Training Classes opened under Post-War scheme exists.
Secondary Grade teacher.	1)			
(4) Govt. Middle School for Muslim girls, Coimbatore.				
Headmistress.	1	G.O.No.Ms. 689 Edn. dated 3-5-1944.	By the end of the school year 1946-47.	As a Muslim Secondary School for girls is necessary in Coimbato and needs to be made permanent, all the post may be retained.

School Assistant.	3	G.O.851 Edn.dated 6-6-1945.	2 posts in June 1947 &	All the posts need retention as the strength and classes in the school are on the increase.
		G.O.No.1911 Edn, dated 7-10-46.	1 post in June 1949.	
		G.O.643 Edn.dated 5-5-1942.		
Secondary Grade teachers.	4	G.O.No.1593,Edn. dated 17-8-1946 & 1280 Edn.dated 22-8-1945.	2 posts on 1-8-1948 & 2 on 1-7-47.	
Physical Training Instructress.	1	G.O.1160 Edn.dated 12-6-1946.	1-9-1948.	
Drawing Mistress.	1	G.O.1077 Edn.dated 18-7-1945.	3-2-1948.	
Tamil Pandit.	1	G.O.851 Edn.dated 6-6-1945.	1-6-1947	
(8) Govt.Secy.& Trg.School for women, Coimbatore.				
Headmistress.	1	G.O.Ms.616 E.& P.H. dated 4-5-1942.	30-6-1947	This is practically a double school, the Secondary Section consisting of Class I to Form VI,having 2 Divisions in each class. The Training Section consists of 4 classes. The strength of the school is nearly 1000. And so there is sufficient justification for the permanent retention of these posts.
School Assistant.	1	Pros.Rc.6448/C3/46, dated 21-1-47 of the Director of Public Instruction.	25-4-1947	
Physical Training Instructress.	1	G.O.Ms.655 Edn. dated 26-4-1945.	31-5-1947.	
Drawing Mistress.	1	G.O.Ms.1614 E.& P.H. dated 16-10-42 and Ms.1055 Edn.dated 14-7-1945.	30-6-1948

C l e r k.	1	G.O.Ms.1809,dated 1-2-1944 and Ms. 1029 Edn. dated 24-5-1946.	30-6-1948	The school has a strength of about 1000, and for the collection of fees and other work for a big institution, there is work for more than two clerks and hence the posts need retention.
Attender.	1	Pros.Rc.No.449/A of 45,dated 24-8-46 of the Director of Public Instruction.	31-8-1947	
P e o n.	1	G.O.Ms.797 Edn. dated 23-5-1944.	4-6-1947.	One peon has full-time out-door work, such as tappals and frequently drawing and remitting money. The other two peons have to attend to the normal school and office work, the school buildings being scattered on both sides of the main road. As there are only 2 peons on the whole except the laboratory peon, for such a big institution, the one peon's post shown in Col.(1) is quite necessary for the school.
Office of the Inspectress of Girls'Schools,Fifth Circle.				
C l e r k. (on a fixed pay of Rs.30/- for 6 months from 27-11-1946).	1	Pros.Rc.No.7278 K3/46, dated 30-10-1946 of the Director of Public Instruction.		As the present number of clerks in the office is quite inadequate to meet the increasing work, it is requested that the post may be retained as one in time-scale of pay.

				The above two posts were sanctioned in view of the increase in work in both the offices. The work has not in any way lessened though the war is over. At the same time the work in the office of the Inspectress of Girls' Schools, VII Circle, Madura has increased owing to the introduction of compulsory elementary education Scheme which besides the others, result in the opening of more training schools; increase in the number of Elementary schools and relative increase in the correspondence. The office of the Inspectress of Girls' Schools VII Circle-Madura is in need of two more clerks for which separate correspondence opened -Vide R.C.402 A/46 dated 18.7.46. Hence it is kindly requested that the above two posts may be continued in this circle permanently.

To

Sir,

Sub: Economics in Expenditure - Need for continuance of new posts created after 1939-40 - Statistics submitted.
Ref: Pros.Rc.No.11095-K3/46 dated 8.1.47 of the Director of Public Instruction, Madras.

I have the honour to submit below the particulars called for in the prescribed form:-

Department and class of posts. (1)	No. in each class. (2)	G.O. or Pros. in which the post was sanctioned. (3)	Date on which present sanctioned expires. (4)
1. Lower Division Clerk.	One	G.O.No.Ms.1425 Edn. and P.H. dated 14.9.1945 Communicated in Pros. Rc.No.311-A/44 d/-2.10.45 of the D.P.I., Madras.	1.4.1948
2. A temporary clerk on fixed pay for 6 months.	One	Dis.No.2269/46 dated 5.7.46 of the D.P.I., Madras.	1.2.1947

(5)
Date upto which it is considered necessary to continue the post with full reasons.

1. The post has to be continued till it is made permanent. A single Head Clerk and Typist, sanctioned permanently for this office, about 18 years ago were found inadequate for the present volume of work, especially the administration of about 250 Teachers' Provident fund subscribers. The Director after sanctioning a temporary clerk under his special powers for different fixed periods covering a total period of 2½ years, addressed Government for the sanction of a Lower Division Clerk on time-scale. The Superintendent has jurisdiction over the Presidency and the staff sanctioned to this office is the least with reference to conditions prevailing in similar offices.

2. This post has been sanctioned for a period of 6 months with effect from 1.8.47 to verify and bring all the Teachers' Provident fund records upto date. In this office Rc.No.76/46 dated 16.1.47 request has been

(5)

submitted with detailed reasons for extending the post only for a period of 2 months for completing the work and sanction has since been received.

PARTICULARS OF POST CREATED AFTER 1940 called for:-

Department and Class of posts.	No. in each class.	G.O. in which the posts were sanctioned.	Date on which the present sanction expires.	Date up to which it is considered necessary to continue the post with full reasons.
Education Department. Office of the Woman Specialist in Physical Education, Madras.	1) Asst. to the Woman Specialist in Physical Education.(Madras Edn. Subordinate Service.) 2) Typist. (Madras Ministerial Service). 3) Peon. (The Madras Inferior service).	The posts were sanctioned in the first instance for 2 years from 1-7-1942 in G.O. No.611, Misc., of 4-5-1942 Then extended from 1-7-44 for 3 years in G.C.No. 279-Edn., of 23-2-1944	The present sanction expires by 1-7-1947.	These three posts were not created, due to war, on account of increased and extra work, but for the improvement in Physical Education for Women. The post of Woman Specialist in Physical Education carries with it 1) the office work, 2) teaching work-lecturing and play activity of the Physical Training Class for Women, Saidapet, 3) Supervision of the work of the Physical Training Hostel, 4) teaching work in the L.W.T.C., 5) taking women students for practice teaching to the city high schools, 6) taking students for play activities and games competitions and tournaments to city schools and colleges, and 7) Inspection of the high and Training Schools for girls throughout the Presidency. It was so impossible for a single Officer to do all these. If she were to go on inspection, she cannot do the teaching work at the College. While remaining at Madras, she could not inspect the schools. Consequent on the increased work and theconduct of the Physical Education Class every year instead of in alternate years as before and the heavy touring work undertak-

work undertaken, Government were pleased to sanction the posts of 1) Asst. to the Woman Specialist in Physical Education, 2) Typist and 3) peon and the schools were either inspected by the W.S.P.E. or by the Asst. to the W.S.P.E. and one of the two officers had to remain at Headquarters to attend to the work of the Physical Training Class at the Y.M.C.A. College, Saidapet. Apart from the Physical Trg. Class, there is absolute need for an Assistant.

When the Officer were to go on tour, the peon had to accompany her and the other peon had to remain at Headquarters and thus it is seen that the second peon is absolutely necessary.

Due to the increased correspondence to students, parents, teachers and managements of schools and the Inspecting Officers, the typing work in the office increased very heavily and a single clerk of the office cannot attend to typing and the increased heavy office work also. Hence, the typist post is absolutely necessary.

Under these circumstances, it is very necessary that these posts are continued and are made permanent In fact, even for the office work, an additional clerk is necessary and proposal in this regard will be submitted separately.
