Rc.No.1382 K2/49 dated 23rd February 1950.

Sir,

Sub:--COLLEGES--Presidency College, Madras--Temporary
Posts of Attenders in Chemistry Department.
Continuance of--

Under the powers delegated to me two posts of Attenders on fixed pay of Rs.24/- per mensem were sanctioned for the Chemistry Department in the Presidency College, Madras from the academic year 1948-49 and the existing sanction for the posts expires on 31-3-50. The Principal reports that inspite of the transfer of Intermediate classes to the Government Arts College, Madras, there is no decrease in the volume of practical work in the laboratory consequent on the increase in the strength of B.Sc. classes and that there is a need for two additional attendars. I am convinced that there is a real need for the two posts in question and request sanction for their continuance in the usual time scale of pay of Rs.24-35 from 1-4-50 till the end of the academic year 1950-51 i.e. till June 1951.

Yours faithfully,

S. Srinivasan

I have the honour to submit that on the transfer of

Intermediate	2nd Class	286

The Statement of work given below will indicate
the hours of work per week on the increase strength of 180 in B.Sc.
Pass and B.Sc. Honours are more than the hours of work devoted
on the Intermediate classes.

- (i) Hours of work of both the Intermediate 16 hours per week
Junior and Senior Classes per week in 4 batches.
- (ii) Hours of work for the increased strength 16 hours (subs) @
of 180 in B.Sc. Pass and B.Sc. Hons. Classes 28 hours (Main) *

* per week two batches.

The Professor of Chemistry reports: "In the Intermediate
classes there was no issue of Chemicals and apparatus from the
stores. They get them from the Laboratory through weekly indents by
the staff (aided by the Laboratory attenders). This is not in the
case of students taking the degree courses. They have direct dealings
with the stores through the countersignature of their indents
by the Professors of Assistant Professors in charge. The issues by
the stores have increased tremendously. The reagents get exhausted
much sooner than when Intermediate classes were here and they

are prepared almost on a daily basis. It has been found impossible for the attenders to look for other work on such days. Hence the desirability of retaining this attendance post permanently. In the anticipated reorganisation it may be found necessary to continue these posts of attenders. The subsidiary classes are now held in the Intermediate Laboratory and in the batches working simultaneously the other attenders' services are also essential.

Under the above circumstances it is necessary that two attenders' posts be continued on the same basis.

Revision may also be recorded to continue the posts from 1-4-50 pending sanction of Government at the previous order to employ these posts are only upto 31-3-50.
