Sub: Buildings - College of Engineering, Guindy - Hostel
Building, Bath rooms etc., - Important and urgent
repairs - execution - increase in the powers of the
Principal - reg:

Para 97(5)(V)(3) of the Madras P.W.D. Code enjoins that the maintenance and repairs of all the buildings in the New Engineering College, Guindy, should be undertaken by this Department. But Note 5 under para 97(5)(ii) of the above Code empowers the Principal of the Engineering College, Guindy, to carry out departmentally upto a limit of Rs.1000/- all general petty construction works in respect of the buildings excluding residences attached to the College. The Principal, College of Engineering, Guindy, has now reported that under the present system urgent and important repairs to buildings, such as hostels, bath rooms, lavatories dining halls etc., in the premises of the College are not being attended to by the P.W.D. promptly and that complaints to this effect are being received by him frequently. To overcome the above difficulty and for the speedy and timely execution of such works, he has suggested among other things, that all the maintenance works done by P.W.D. in the Engineering College may be transferred to his control.

2. The Executive Engineer, South Presidency Division, who was consulted in the matter states that the main reason for the delay is want of funds and that if sufficient amount is placed at his disposal, he will carry out all the special and ordinary repairs without delay and complaint. I consider that it is not quite desirable to transfer all the maintenance work now done by P.W.D. in the Engineering College to the Principal. But I am of the opinion that if the existing powers of the Principal to execute departmentally all general petty construction and repairs to the buildings are enhanced, it may solve the difficulty pointed out by the Principal to a considerable extent. I therefore ~~recommend~~ suggest that the Principal, College of Engineering, Guindy, may be empowered to execute departmentally all general petty construction and repairs to buildings in the College upto a limit of Rs.5,000/-. This limit is the same as that allowed for other departmental officers in the Mofussil - vide para 97(1) to (3) of the above Code.

I therefore request that necessary orders of Government may please be issued in the matter.

P.W.D.

The request at A above is one for consideration for Chief Engineer, P.W.D. (Buildings).

Edn. Dept. May be transferred to Edn.

23.5

The proposal to empower the Principal Engineering College Council to exercise departmentally all the powers of the Government in regard to the construction and operation of the college is a part of the Government's policy to decentralize the management of the college and to give it more autonomy.
