Madras 29-3-1950

From

The Director of Public Instruction,
Madras.

To

The Secretary to Government,
Education Department.

Sir,

Sub:- Engineering Colleges - selection of students - Report -

I have the honour to enclose herewith a report from the Principal, College of Engineering, Guindy, on the selection of students for admission into the Engineering Colleges in the current year.

2. The Principal has reported in detail the procedure followed by the committee in the matter of selection of students. On page 7 of the report the Principal has pointed out the wide divergence of marks among candidates selected from various districts and he has also furnished the reason for their divergence. I may also point out another instance of irregular procedure followed by the selection committee. It will be found from the proceedings of meeting of the selection Committee held on 3-8-49 that 10 candidates who had made certain representations to the committee were straightaway selected. While the selection of two - a jew and a parsi - could be justified as under the rules issued by Government no ratio of seats for candidates from these communities had been prescribed the selection of the others without references to the claims of those who were in the Reserve list was not correct. The proper procedure would have been to include the name of these candidates in the Reserve list with reference to their marks and then make the selection if they were eligible.

3. In a separate letter, the Principal, College of Engineering Guindy has reported to me that the two non-official members unnecessarily eracting in a manner that a lot of ground had to be gone over and over again and the Secretary and Principal put to unnecessary strain. It is also stated that in regard to the rules, the non-official members would insist on widely divergent interpreations thus retarding the quick disposal of the selection. The Principal feels that the appointment of non-official members does not serve any useful purpose as they are not conversant with the work of the college or aware of the difficulties of the students. I agree with the Principal that there is no need to have non-official members in the selection committee and that from next year the selection may be made by a committee consisting of the principals of the four Engineering Colleges with the Deputy Director in charge of collegiate Education as chairman. I consider that an official particularly a nominee of the Director of Public Instruction should be the chairman as he would be able to guide the other members in the observance of the rules issued by Government. I recommend that Government may kindly agree to my proposal.

4. In G.O.No.2096 Education dated 29-6-49 Government directed that seven seats in the Engineering Colleges shall be filled by the Director at his discretion in consultation with Government . I may point out that in the current year, as many as 13 seats had to be filled in by Government -vide orders issued in Government Memo. No.3363 L/49-3 P.U.D. dated 29-6-49, G.O. No. 2432 Education dated 27-7-49 and memo. No.59763 A/49-1 Education dated 16-8-1949. There is thus a case for increasing the

P.T.O.

number of discretions seats for next year and I sugge at least 20 seats may be reserved for this purpose.

Yours faithfully,

For Director of Public Instruction.

DIRECTOR OF PUBLIC INSTRUCTION
27 FEB 1950
MADRAS

From
Lieut-Col.S.Paul., B.E.,
Principal & Secretary, Selection Committee,
College of Engineering,
Saidapet P.O., Madras.

To
The Director of Public Instruction,
Cathedral P.O.,
Nungambakkam,
Madras.

Sir,

There was considerable difference of openion between the members of the newly constituted Selection Committee about the interpretation of the Government Orders and instructions issued by the Government for the selection of candidates for admission to the four Engineering Colleges, this year. The admission report would have been prepared, under normal circumstances, long before this date and submitted to the Director of Public Instruction. During the conduct of the meetings it was generally agreed amongst the members that the Chairman of the Selection Committee would give a draft report about the procedure followed in the selection of candidates with all the legal implications underlying the Government orders and instructions . Accordingly a letter requesting the Chairman to kindly send the draft report was sent on 22.8.1949. The Chairman replying to the letter required certain particulars to be furnished to him to enable him to get the rm draft report readyent It was pointed out to the Chairman that he had all the relevant particulars and that all the Government Orders had already been given to him and sent by post at various times, except the names of students actually admitted in the various engineering colleges. However, he insisted on getting some particulars over again and these were sent to him from time to time and the final list of the candidates actually admitted into the various colleges was obtained from the Director of Public Instruction, the last communication being sent on 28-12-1949. The Chairman did not send the draft as promised. It was, therefore, felt that no useful purpose would be served by waiting further to get the required draft report from the Chairman and the following admission report based on the procedure followed by the Selection Committee is herewith submitted.

Introduction:- It might be surmised from the above remarks that the Government were not aware of the details of selectionof candidates for the four Engineering Colleges. At every turn the Hon'ble Minister for Public Works and the Director of Public Instruction were informed about the manner in which

e selection was being carried out. The names of the candidates selected by the selection committee as well as those in the Reserve List were submitted to them immediately without any delay. In addition the complete statement showing the selection, allocation to districts and communities on a linguistic basis has been furnished in this Office letter No.29-B/49, dated 3-9-1949, in reply to a reference made by the Government in their Memo No.49672-2-/49A.Edn., dated 3-8-1949 to answer Assembly questions. It would, therefore, be seen that the Government have the full picture of the admission made to the four Engineering Colleges during this year and this has been made known to them very early in the academical year.

Selection Committee:— The Selection Committee as constituted newly this year for selection of candidates for admission to the four Engineering Colleges of this Presidency in G.O.No.Ms.1880-Edn., dated the 8th June, 1949, was as follows:—

1. Sri D.Muni Kanniah, B.A.,B.L., Chairman. } Unofficial members
2. " P.S.Kailasam, B.A.,B.L., }
3. Prof. V.H.Sadarangani, Principal, College of Engineering, Kakinada.
4. Prof. A.Viswanath, Principal, Arthur Hope College of Technology, Coimbatore.
5. Sri N.S.Krishnaswamy Iyyengar, Principal, College of Engineering, Anantapur.
6. Lt-Col. S.Paul., Principal, College of Engineering, Guindy, Secretary.

The two unofficial members who constituted the Committee last year were replaced by the two new unofficial members this year.

Rules for Selection:— In G.O.No.2096-Edn., dated 29th June, 1949, and Memo.No. 50250-1/49A-Edn., dated 6-7-1949 the Government have reviewed the position as to whether the rules for admission to the four Engineering colleges should be modified from what was existing in the previous years. In general the rules are the same, except that some slight modifications have been made which are detailed below:—

1. In selecting candidates the total marks obtained in the intermediate examination or its equivalent was considered last year. This was changed this year to the total marks obtained in the Mathematics, Physics and Chemistry group.
2. Candidates who passed the Intermediate examination in parts and who passed the Part III at the first instance were also considered this year but a deduction of 25 marks was made to the candidates who passed part III in the second sitting.
3. Candidates who passed the intermediate examination after the second chance were not considered.
4. Weightage was given to extra academical awards to students who had a combination of subjects consisting of Mathematics, Physics and Chemistry, i.e., for ~~th~~ first class B.A.(Hons). and B.Sc.(Hons)., 50 marks was added to the marks obtained in Part III of the Intermediate, and 25 marks for second class B.A.(Hons)., and B.Sc.(Hons)., No weightage was given last year.
5. No weightage was given to the B.A., and B.Sc., candidates who appeared for the examination more than once.
6. No minimum standard of attainment was insisted for any community, as it was done in the previous years.
7. No weightage was given for proficiency in games and for extra-curricula activities. Same as last year.
8. Seven seats were reserved by the Government. These seats were increased to 13 by a subsequent order, please see Govt.Memo.No.3363-1/49-3, dated 29-6-1949, Govt.Memo No.59763-A/49-1-Edn., dated 16-5-1949, Govt.Order No.(Ms)2432-Edn., dated 27-7-1949 and telephonic message dated 9-10-1949 of the Director of Public Instruction, Madras.

In a further communication Memo.No.51500/3/49-Edn., dated 16th July, 1949, the

overnment have instructed that the selection for Muslims, Christians and Harijans should be made ona provincial basis with reference, as far as possible, to their distribution in the regions and districts. They further instructed that the two seats reserved for backward communities last year should be merged with the six seats reserved for Non-Brahmins to be selected by merit provided that the quota of two seats would be maintained for the backward communities.

10. In addition, in the general rule it was ordered that any vacancies due to want of suitable candidates from a particular community shall be filled according to merit subject to the condition that the regional and district quota are not affected. This is a change from last year.

Method of selection:— The last date for the receipt of applications was extended from 5th June to 25th June, 1949, owing to the late publication of the intermediate, results. All the 2,027 applications that were received in time were duly tabulated according to the linguistic area into their respective communities districtwar and the registers were ready for the Selection Committee long before the due date of the first meeting which was scheduled for 14th July, 1949.

It was usual in previous years to have a tentative list of candidates made out 50 per cent more than the number of candidates that would be selected from each community with reference to their marks and in certain cases hundred per cent more than the required number. This preliminary list is generally verified by the members of the Selection Committee at their first meeting. However, this year the Chairman insisted that typed copies of the 2,027 names according to linguistic areas by communities and districtwar should be given to each member of the Selection Committee before he would agree to start the first meeting. In addition he was not prepared to consider the preliminary list which was prepared at great trouble by Professor V.H.Sadarangani and I prior to the first meeting of the Selection Committee. The work of preparing a preliminary list took nearly three to four days and would have lightened the work of the Selection Committee to a large extent as was followed last year.

The first meeting of the Selection Committee was held on 14th July, 1949, at 6 P.M., in the Principal's Office, Engineering College, Guindy. In this meeting mainly the registration of applications, whether the totals tallied with the actuals received and whether the tabulation had been done correctly was checked by the members of the Selection Committee. In addition fresh tabulated statements were prepared on the spot by the Selection Committee as the tabulated statements which already were/prepared according to previous practice was not accepted by the Chairman.

In the previous year the total number of candidates for preliminary was based on the total number of seats sanctioned for the four engineering minus the number of seats reserved for war personnel as well as for others and states. When the preliminary selection was over and it was asce

there were vacancies under the above heads these seats were once aga
as general vacancies amongst the various communities. The statemen
pared were drawn up according to this proceedure but it was considered
factory and the Chairman actually dealt with the reserve seats for war pe
well as for provinces and states in the first instance and decided on the n
seats available for preliminary selection. It would be seen that the result
same whichever method is adopted except that the preparation of new statements
meant further delay in the process of selection.

The number of seats actually authorised for the four engineering colleg
were 375. There was only one war service candidate and 23 seats reserved for
vinces and states making a total of 24 thus leaving 351 seats for preliminary se
tion. These 351 seats were divided into the various linguistic areas communit

Subsequent Selection Committee meetings were held on 15th and 16th July,
beginning at about 6 P.M. On Sunday the 17th July, the Selection Committee meeti
was scheduled to start at 11 A.M., When the members assembled, there was considera
able difference of opinion about the proceedure that had been followed in selecti
the candidates on the two previous days and it was decided to clarify certain do
raised by the members of the Committee. Accordingly, the Chairman and the Sec
tary were deputed to go and interview the Hon'ble Minister for Public Works in order
to clear their doubts. In the discussion with the Hon'ble Minister it was clearly
explained that the admissions as was done in the previous year was fair and square
and there was no complaint whatsoever of any kind and that the Government were sat-
isfied. There were, however, some hardships to certain candidates and separate in-
structions had been issued for the same. In the word "districtwar" which had been
introduced in the Government order for vacancies that may arise in any one community
for want of candidates, the Hon'ble Minister made it clear that it was not the in-
tention of the Government that the selection should be done according to the commu-
nal ratio even in districts. In giving this district representation he emphasis
that there should not be divergence of marks from district to district. With
these points clarified the Committee proceeded with the selection.

Further meetings of the Selection Committee was held on the 18th, 19th, 20th
21st and 22nd and the entire selections except those which were under consideration
by Government were made by the Selection Committee. A communication was received
from the Government that the number of seats in the Kakinada Engineering Co
was increased from 100 to 110 and that of the Anantapur Engineering Col
75 to 85, vide Govt.Memo.No.59554-1/49-A-Edn., dated 6-8-1949 and Govt.
54932-A3/49-A-Edn., dated 22-7-1949. In order to select the candidat

extra seats the Selection Committee which now consisted only of the two unofficial members and the Secretary met on 3rd and 6th August and completed the selections. In these meetings the candidates recommended by the Government for selection were also considered. Copies of the minutes of these two meetings as recorded by the Chairman are enclosed herewith for information.

Allocation to Colleges:- The candidates selected in the preliminary selection for 351 seats was put up on the College Notice Board on 22.7.1949. In making the allocation to the various Colleges, as far as possible the requests of the candidates for particular colleges were complied with. Following the previous years practice the Guindy Engineering College for which requests were specially made had candidates from ~~ax~~ all over the Presidency, priority being given to those whose parents were in Madras. This was necessary as the residential hostel at Guindy cannot accommodate the number of students on the rolls as there is considerable congestion in the same. The Kakinada Engineering College and the Anantapur Engineering College consisted primarily of students from the Andhra area, but necessarily certain number of students from other areas had also to be posted to these colleges as the number of seats ordered in G.O.No.Ms.997 Edn., dated ~~30.7.1949~~ for the Andhra area is less than the number of seats available in the two Colleges. In addition, as pointed out above, a certain number of students with nativity of Andhra districts were already allocated to the Engineering College, Guindy, for reasons stated above. The seats available in the two Colleges in the Andhra area therefore was far in excess of the number of Andhra students actually selected.

The allocation to the Coimbatore Engineering College was mainly from students of the Coimbatore and adjacent districts including the West Coast area. As far as possible every effort was made togive the students their requests and if at all any requests were not complied with, it was because such requests were not asked for in the first instance but later on after the selection and allocation had been done.

~~Indo~~Ink In the preliminary list put up on the notice Board it would be seen that there are only 350 candidates shown as against 351. This is due to the fact that one applicant from Guntur District had declared himself as belonging to the Non-Brahmin Community whereas he actually belonged to the Brahmin Community, and is not a clerical error but a wrongly declaration in the application form. The mistake was noticed and his selection, was therefore, automatically cancelled according to the rules of admission. Three hundred and fifty names are, therefore, shown in the preliminary list and the vacancy was subsequently included in the general vacancies that were considered for additional seats when further

selection was done by the Selection Committee.

The detailed selection with all tabulated statements are appended herewith as follows:—

1. Appendix A:— Details of applications received.
2. " B:— Number of applications received districtwar and communitywar.
3. " C:— Statement showing the reserved seats for provinces and states.
4. " D:— Allocation of total number of seats under various categories Collegewar.
5. " E:— Total number of seats available for preliminary selection for the various linguistic areas communitywar.
6. " F:— Seats available for various districts on a population basis.
7. " G:— Number of candidates selected from various districts communitywar.
8. " H:— Number of students selected from various linguistic areas communitywar
9. " I:— List of students selected but not joined from the various linguistic areas.
10. " J:— List of candidates selected from the reserve list communitywar.
11. " K:— List of candidates provisionally selected for admission to the B.E., course districtwar.
12. " L:— List of candidates allotted to the various colleges from the different linguistic areas communitywar.
13. " M:— List of candidates selected for the additional twenty seats ref- G.O.No.59554-1/49-A-Edn., dated 6-8-1949 and, Govt.Memo No. 54932-A3/49-A-Edn., dated 22-7-1949.
14. " N:— List of canidates selected by the Government of Madras collegewar.
15. " O:— List of candidates actually admitted in the various colleges communitywar and districtwar.
16. " P:— List of candidates admitted for reserve seats collegewar.
17. " Q:— Number of seats available and number of candidates selected from the various linguistic areas communitywar.
18. " R:— The marks obtained by the last candidates in the preliminary selection from the various linguistic areas communitywar.
19. " S:— List of candidates put up on the reserve list from the linguistic areas communitywar.

All the detailed information about the selection can be obtained from the appendices stated above. In appendix G the total number of seats available from the various districts on a population basis as well as the number of candidates actually selected in the preliminary selection are given. It would be noticed that there is discrepency in the two figures in some cases the candidates being below the number in some cases above the number. In previous years it was necessary to come down to 60% for district representation on a population basis to prevent disparity of marks between candidates thereby keeping up the standard of selection. This proceedure was also accepted by the Government. This year for other considerations, such as total number of applications received from a district, and the fact that the figures for population dated back to 1931 and that there was likely to be wide divergence from 1931 to 1949 the representation for districts have been varied. In no case however the minimum figure was reached. Whereas there has been an increase in district representation in certain cases amounting to as much as hundred per cent. For example Krishna District which should have had a representation of 10 has been given a representation of 17. Madras has always had a high representation every year and this has been explained in previous admission reports, in 1948 the total number of candidates being 26 as against 5 and this year

22 as against 5.

In appendix R the list of marks obtained by the last candidate in the preliminary Selection from various districts community-war is given. From this statement it would be seen that there is a wide divergence of marks among candidates elected from various districts. If the Selection Committee had not followed the practice of giving district representation on a communal basis this wide divergence would not have occured as pointed out in the beginning. However, in order to minimise as far as possible this wide divergence the candidate with higher marks who were not selected in the preliminary list were put in the reserve list in the order of merit from the various communities for vacancies that might arise by candidates who did not take advantage of the selection.

Conclusion:-The work of the admissionk this year has been increased considerably. It was felt that the work of the admission last year although strenuous was not so taxing as it was this year. This is due to the fact that a lot of workx which was not necessary had to be done over xxxxx and over again. The Ministerial staff and the special staff sanctioned for admission work had to work very late hours in most cases going home at about 11 and 12 at night. In the preparations of typed copies of all the applications in various categories four typists had to work three days continually in order to have these ready before the preliminary meeting of the Selection Committee. The help of several members of staff had to be obtained in order to verify and check applications from time to time as required by the members of the Selection Committee. The confidential nature of the selection was impaired to a great extent on account of this procedure. When the admissions were over it was felt by everyone concerned that the admission work looked like a work which normally would take about three months tox complete. In spite of this hard work and the manner in which the selections were conducted this year the candidates were interviewed in all the colleges on the 1st August and regular classes were started on the 3rd August. A certain amount of delay however occured in candidates not turning up and not sending communications so that vacancies might be filled up from candidates on the reserve list. This was inevitable and has been so for several years.

In previous years recommendations had been made by the Selection Committee that a honorarium of one thousand rupees may be given to the Ministerial staff who worked and assisted in the admission work. In a separate letter in reply to a reference from the Director of Public Instruction it has been suggested that

Proceedings of the Selection Committee on Wednesday the 3rd August, 1949.

A meeting of the Selection Committee was held on Wednesday the 3rd August, 1949, at 6 P.M., to consider the selection of candidates to the additional seats. The two unofficial members, i.e. Sri D.Muni Kaniah, and Sri P.Kailasam, together with the Secretary and Principal, College of Engineering, Guindy, attended. The following points were considered:—

Strength: 375

Selected	350 -/- 1	351	(including Budukottah—not yet selected).
		7	
		358	

Reserve seats—nominations received:—

Travancore & Cochin:	2	
Coorg:	2	
Orissa:	2	
East Africa:	2	about capitation fees)
Ceylon:	1	(Clarify about the selected candidate: D.A.David/
Refugees:	3	(At Anantapur)
	12	

Reserve seats—vacancies:—

Indonesians:	4	(No communication received)
Ceylon:	1	(Only 1 application received from Indian with nativity certific-/ ate from Ceylon)
	5

Proceedings of the Selection Committee on 6th August, 1949. 13 23

A meeting of the Selection Committee was held on 6th August, 1949, at 6 P.M., to consider the following. The two unofficial members and the Principal, College of Engineering, Guindy, attended the same.

1. Two selections for the two Harijan vacancies, i.e., 1 in Kakinada and 1 in Anantapur have been made:—

(1) Satischandra Nayak.
(2) H.Atmaram Dass.

} who were selected on 3.8.1949 are posted for these vacancies on merit consideration.

****

2. For the remaining ten vacancies, i.e. 6 additional vacancies and 4 Indonesian vacancies the following have been selected:—

1. 843	Shree Amaruddeen.	Guntur	244
2. 684	C.Muthiah.	Trichinopoly	
3. 1095	T.Balasubramanayam.	Madras

The Secretary to the Government
of Madras,
Education and Public Health Dept.,
Fort St. George, Madras.

9513

Sir,

I have pleasure in enclosing herewith the report of the Selection Committee appointed under G.O. Mis. No.1880-Edn. dated 8-6-1949 to select candidates for admission to the four Engineering Colleges for the Academic year 1949-50, receipt of which please acknowledge.

Yours faithfully,

D. Munikanniah

Chairman of the Committee.

Encl: 1 Report.

ADDITIONAL BOOK. Register Number _____ C.F.

The Committee for selection of candidates for admission into the Government Engineering Colleges for the Academic year 1949-50 was constituted by the Government by the Government Order Mis. No.1880 Education d/8-6-1949. The principals of the four Engineering colleges and Sri P.S. Kailasam, B.A., B.L., are the members and Sri D. Munikanniah, B.A., B.L., Advocate, Madras has been appointed Chairman of the committee.

The last date for the receipt of applications for admission to the various Engineering colleges was 5-7-1949. The total number of applications received are 2128. 25 of these applications have not been considered by this committee as they were transferred to the Overseers' register presumably at the request of the applicants. Of the remaining applications those received from outside the province are 15 in number. Applications directly received from the following amount to 48.

1. Refugees	8
2. Ex-service personnel	1
3. Indian Nationals abroad	3
4. Ceylon	1
5. Hyderabad	3
6. Cochin	9
7. Mysore	5
8. Travancore	18.

Also 7 applications from Coorg, 2 applications from Cochin and 1 from East Africa were received through the State authorities. Appendix A gives the details of the number of applications received from the linguistic areas and also the number according to communities in each linguistic area.

The sanctioned strength of the four colleges as xon 5--7--1949 is as follows:--

1. Guindy	125
2. Arthur Hope College	75
3. Anantapur	75
4. Kakinada	100

	375
	===

76

38 77

The total number of seats has been increased as the strength of the engineering colleges at Guindy, Anantapur and Kakinada has been raised from 125, 75 and 100 to 126, 85 and 110 respectively.

The seats available for various linguistic areas and communities for the total strength of ~~396~~ 350 is shown in appendix B.

Of the 2125 applications, 17 applications were rejected as they were received later than the last day for receipt of applications. 52 applications were also rejected as they were from students who have been overaged.

The age limit for applicants was fixed at 22 years. But no age limit was fixed for the Ex-service personnel. For candidates from Agency districts and for Orissa and for Muslims, the age limit was 24 years; for Pakistan and Hyderabad refugees, it was 25 years. Though, ordinarily the age limit for harijans was 24 years, it has been relaxed as rules permitted the same.

When the committee began its sittings for selection of candidates, the total number of seats available in all the four colleges was only 375. Of these, 7 were reserved by the Government for being nominated by them. 17 seats were reserved for students outside the province under Govt. Memorandum No.21446/14/47-A - Edn. and the proceedings of the Director of Public Instruction RC No.1330 K2/48 dated 18-6-1948. Though 10% of the seats were available for the Ex-service personnel, only one seat has been allotted, as there were no more applicants than one.

(P) 3-4 Thus only 350 seats were available for distribution in districts. In accordance with G.O. Mis No.997 Edn. d/22-7-1943, 50.8% of the seats were allotted to 13 districts in Tamil area, 38.1% of the seats were allotted to 11 districts

78

(41) ...3...

39 29

in Andhra area and 11.1% of the seats to West Coast districts. The quota of seats in each district on the population basis and the total number of seats available will be found in Appendix C, both on percentage basis and on the actual calculations.

C/

(2)/1-2 cf

Calculations based upon G.O. Mis No.Edn.1254 d/17-5-1949 which deals with communal proportion in regard to admission to the Engineering colleges resulted the distribution of seats as hereunder.

	N.B.	N.B.B.	B	M	IC	H
Tamil area						
Total 178	76	26	25	18	13	25
Andhra area						
Total 133	57	19	19	9	10	19
West Coast						
Total 39	18	5	5	3	3	5

(P)/7-8 According to G.O. Mis No.2096 Edn. d/29-6-1949, no minimum standard need be laid down for Harijan candidates. Further, memorandum No.15500-3/49-A-Edn.d/16-7-1949 (P)/13 enjoins upon the committee to select muslims, Christians and Harijans on a provincial basis with reference as far as possible to the distribution in the regions and districts. In accordance with these orders the committee selected all the 15 Harijan applicants in the Tamil area, the only available 9 applicants in the Andhra area and 4 Hrijans who are the only applicants in the West Coast.The selections of the Indian Christians was also on the provincial basis only; but as the number of applicants exceeded the number of seats, the selection has taken place on the merit of the candidates as judged by their marks in the interme iate examination. A similar procedure was adopted in the case of the selection of the Muslim applicants. However, their distribution in the regions and districts has been kept up as far as possible to accord with representation on population basis. Appendix D gives the number of candidates

vide Part III

D/

selected on the above basis from Muslims, Christians and Harijans.

On a consideration of the total number of applications received from each district and with a view to preserve a fair decent minimum standard in each linguistic area, a redistribution of the seats for the districts in each area had to take place. Appendix E gives the number of seats for each district according to this plan and allotment for the remaining communities of these seats in each district according to communal proportion. In selecting the candidates the orders in memorandum No.51500-3/49 Edn.dated 16-7-1949 to merge the 2 seats reserved for backward communities with the 6 seats reserved for non-brahmins and to make up the deficit in each area so as not to affect the Backward communities have been observed strictly. The result of the selections which will be found in Appendix F will reveal that the backward communities gained a great deal by reason of this rule.

Reserve lists were also prepared for each of the communities in each area on a provincial basis. No limitations on district basis in selecting the applicants from the Reserve list were allowed to operate. Similarly reserve lists for the reserve seats were also drawn up.

By reason of the increase in seats in Kakinada and Anantapur colleges the committee had again to consider the selection of applicants for the additional vacancies. That occasion was availed of to consider a few complaints of applicants whomx have suffered, though qualified by merit, for no fault of theirs and because the committee did not have the full information before them. Appendix G gives the list of 10 such

applicants who have been selected in this manner.

The Government in its memorandum 54932-A-4/49-Edn. d/26-7-1949 which created additional seats desired that 6 more names suggested by it should be selected for the additional vacancies. The committee therefore opined that in as much as the applicants have been selected already on merit and that for different communities different levels and standards have been reached, these seats will have to be filled according to discretion only. The committee had also to consider telephonic message d/5-8-1949 in pursuance of Govt. Memo. No.57090-e-2/49 Edn.d/3-8-1949 and allot to the best muslim candidates from Guntur and Kurnool districts which had no representation. For the remaining vacancies applicants from the reserve lists were selected having regard to the communal proportion and with a view to give adequate representation to the districts.

The needs of the Agency tracts were also met by providing for their representation in Visakhapatnam and East Godavari districts. The representation for Pudukottah and Nandur were also considered.

In considering the applications from B.A. and B.Sc. candidates the weightage was given only in accordance with Govt. Memorandum No.50250-1/49Ed. -A dated 6-7-1949 and that the marks in Part III formed the basis of consideration in the selections.

All the Harijan seats allotted for Harijans could not be filled up for want of candidates. The rest of the seats thus available were treated as vacancies to be filled by merit and when filled on a provincial basis but on linguistic considerations yielded the following results:

Tamil area	Andhra area	West Coast
14 Brahmins 1 N.B.	6 Brahmins 2 N.B. 1 N.B.S.	2 Brahmins 2 N.B.

The total number of applicants selected are 396 thus exceeding the total by one which could not but be allotted to the Guindy College.

The results of the Intermediate Examinations were announced by the Madras University late because of the re-Examination necessitated by leakage of examination papers. The Committee had therefore to exert and get on with the work of selection rather expeditiously. At some of the meetings of the committee, the principals of Kakinada, Coimbatore and Anantapur could not be present, as they had to be in their Colleges, which had already reopened. Their further assistance, if available, would have really benefitted the committee in its deliberations as their experience was rich and replete with practical solutions.

Even at the time the selections were made, and before the principals of colleges other than Guindy left on their duty in their colleges, the selections for some of the reserve lists was also made on the understanding that the candidates from those reserve lists will be allotted in that order to each of the colleges ie that out of four names in the serial order one will have to be treated as reserved for each college and that the principals will post the candidates from the reserve lists. This had to be done as it was felt convenient to call reserves and also as nothing then to the knowledge of the committee was opposed to it. But after the principals of other colleges left, the remaining members of the committee were confronted by the Secretary of with G.O. Miscellaneous No.1958 - Education dated 16-6-1949, whereby the Director alone is empowered to select from the reserve list. Though the committee insisted on all the rules being communicated to all the members of the

committee even at its first sitting, this order somehow was not made available to them and when made aware of caused surprise and confusion. There was no reason for not making this order available to the members earlier, but, however, the committee did direct the selection from the reserve list in accordance with this order when they came to know of it. Further, the Secretry withheld for a time the publication of some selected lists and of the reserve lists without proper or valid grounds and in the circumstances, the non-official members of the committee had to resent at the treatment accorded to them by the Secretary. This interference with the work of the committee has been felt as not conducive to speedy disposal of work. The committee did not also have in full measure the co-operation of the Secretary.

The non-official members of the committee who have subscribed to this report take this opportunity of thanking the principals of the other Ben colleges who have been members of the committee for their willing co-operation and also the staff for the valuable assistance given to the committee.

P.S. Kailasam

Member.

Chairman.

(53)

EDN. DEPT. (G).

SUB: ENGINEERING COLLEGES - Committee for selection of candidates.-

Till 1947-48, selection of students for admission to the Govt. Engineering Colleges used to be made by a Committee of the Principals of these colleges. In June 1947 it was decided that non-officials should also be associated with the selection of candidates for admission to these institutions, and accordingly the Govt. appointed (1) Sri N. Somasundaram, Advocate, and (2) Sri S.B. Pattabhi Rama Rao, Zamindar of Kapileswarapuram as non-official members on the Selection Committees for 1947-48 and 1948-49. For the admissions in 1949-50, the Govt. appointed Sri D. Munikanniah and Sri P.S. Kailasam, Advocates, as the non-official members on the Committees.

In the report on the selection of candidates for admission to the Govt. Engineering Colleges in 1949-50, the Principal, Engineering College, Guindy, who is the Secretary of the Selection Committee, has stated that there have been several differences of opinion, interpretation of rules etc. between himself and the non-official members. The Chairman of the Committee has also submitted a report on the selections made this year and has complained likewise against the Principal.

The D.P.I. has proposed that in future no non-officials need be appointed on these Committees. The Director's proposal is that the Committee may consist of the four Principals with the Dy. D.P.I. in charge of Collegiate education as Chairman.

11/5/50

This may be ordered

11.5.50.

This is sent to me by mistake perhaps. But if I may say so I agree with X above with a rider that 2 non Officials also may be associated with the Committee.

H.M. (P.W.).

H.C.M.

Sec may see S.B. Pattabhi Rama Rao B.A. B.L. and N.K. Visayakam B.A. B.L.
H.C.M. may be appointed as non-official members
I am sure DPI as chairman

The views expressed by H.M. E & L are not in accordance with the existing practice. But the D.P.I would prefer an exclusively official Committee. I would like to know how H.M. feels about it. Hon. Dy. 2 non-officials are to continue? or prefer a change. Since there has been misunderstanding between them & the Principals

M.S. 15
