Sir,

EDUCATION-opening of a Geological and Technical in
Salem- requested.

1969
1 - JAN 1950

Salem District abounds in rich minerals consisting of Magnesite, corundum, Bauxite, Mica, Iron ores and lime stone. Considering the above facts, this Board has resolved to open Geological and Technical college in any taluk situated in Salem District. In enclosing herewith a copy of non-official District Board resolution No.16/16 dated 16-12-1949 and 17-12-1949, I request you to take necessary action for the opening of a college on an early date.

Sir,

EDUCATION- University - opening of a Geological and
Technical college in Salem District by Government-
requested.

13434
Pic of Q
Memo 5868F/
D-28m
1-3-50

In its non-official resolution No.16 (16) dated
16-12-49 and 17-12-49, this Board resolved to open a
Geological and Technical College in the Salem District and
Government were requested for necessary action but Govern-
ment in their memo No.5868 F/50-2 Edn. dated 1-3-50 did
not approve the proposals.

Salem being a district rich with minerals consisting
of Magnesite, corundum, Bauxite, Mica, Iron ores and Lime
stone and the district being very backward in Education the
Board is of opinion that the existence of Geological and
Technical college in the district will go a long way towards
improvement. Hence the Board in its resolution No.27(27)
dated 12-5-50 has resolved to request Government to open a
Geological college at an early date.

I enclose a copy of the Board's resolution to the
effect and request that Government be pleased to consider
the opening of a Geological and Technical College in Salem
District favourably.

Development Department (J)

Sub: Education - Opening of a Geological & Technical College.

Ref: From the President, District Board No. 33914-49 dated 2.1.1950.

To A.S.

Please see the letter from the District Board, Salem at p.1 c.f. and the remarks of E.P.H. at the bottom of p.1 c.f.

2. Geology is at present being taught in the Presidency College at Madras. It may be noted that candidates desirous of taking up geology in Salem District can come up to Madras and study here. The question of opening a separate college for Geology at Salem, arises only when the Presidency College is unable to meet the demands of Salem. It does not appear that there is so much keen competition for geology course in the Presidency College as to necessitate the opening of a College at Salem. It may not be practicable also to open Colleges for geology alone simply because that Salem abounds in rich mineral wealth. There seems to be, at any rate, no pressing need for the opening of such a college at Salem. It is for the E.P.H., however, to examine this in detail even though the subject 'Geology' is one allotted to Development. With these remarks this may be returned to E.P.H.

The resolution is based on the occurrence of minerals in the dist. and not on any alleged want of facilities for education in geology. If the dist. Board can maintain an institution for imparting instruction in geology, it is free to do so but the subject, so far as facts are concerned, is the for E.P.H.

2 proposals for too ambitious! E.P.H.

EA 1048/13/20/51

Please see Development Department note on p.1 ante.

~~There appears to be no~~ There appears to be no necessity for a separate College for Geology in Salem District in view of the fact that the Presidency College, Madras, is able to meet the demands of all the districts in the Presidency, including the Salem District, in the matter of education in Geology courses in the College classes. Besides, it may be pointed out that the District Boards and Municipalities should ~~according to the statute~~ ^{concentrate} in the main on elementary education and also may run high schools, but should not normally undertake collegiate education; expenditure on this latter type of education will result in a drain on their resources, to the serious detriment of their normal activities. It is not ~~known~~ ^{certain} whether the District Board, Salem, ~~is~~ ^{will be} able to meet the expenditure on the proposed college, in addition to ~~its~~ ^{its} obligations mentioned above and without any detriment to the elementary and secondary education in the District. The proposal of the District Board, Salem, may therefore be negatived. It is ~~for~~ ^{for} orders whether the President, Salem Dt. Board, may be informed that the Govt. do not approve the proposal of the District Board, Salem, to open a Geological and Technical ~~Education~~ ^{College}. May be sent to L.A. and Finance for remarks, prior to circulation.

Education (F)

Education - Opening of a Geological College by Govt. at Salem -

C.No.13434/50. *Pic* From the President, District Board, Salem, Roc.No.El.8300/50 dated 27-5-1950.

The District Board, Salem, at its meeting held on 12.5.50 has passed a resolution that the Govt. may be requested to open a Geological College soon in Salem soon. The President, Salem Dt. Board, has forwarded a copy of that resolution and requests the Govt. to open a Geological College there. It may be pointed out that the Salem District Board had previously requested the sanction of Govt. for the opening of a Geological and Technical College at Salem by the District Board. The above proposal was examined and negatived. - Please see in this connection the notes and orders on p.p.1-3 n.f. of memo. No.5868-F/50-2 Edn., dated 1.3.50 and the memo. to the ~~Govt.~~ President, District Board, Salem on p.p. 3-4 c.f. No fresh reasons have now been given by the President, District Board for Govt. opening a Geological College in that District. There is no necessity for a separate Geological College at Salem, in view of the facilities available for the study of such an subject in the Presidency College, Madras. It will also be very uneconomical to undertake the starting of such a college ~~at~~ by the Govt. in the present financial stringency. In the circumstances, there is no case at all for Govt. opening a Geological and Technical College at Salem. The P.D.B. Salem, may be informed accordingly. *LA*, Development and Finance may see for remarks.
