--:o:--

The Government have in their order quoted above sanctioned the medical inspection of pupils studying in Municipal Schools and to ~~the~~ render medical aid to poor pupils. As the employment of local private practitioners to render gratuitous services was found not possible it was suggested to the council to appoint two medical practitioners <sup>for two months</sup> on an honorarium of Rs.100/- each per mensem and the council has in its resolution No.891 dated 30-11-1949 sanctioned the same. A copy of the note to the Council together with a copy of the resolution thereon is submitted for favour of information. The Council has in its resolution referred to above sanctioned the scheme to be extended to the aided schools also. For the inspection of grown up girl pupils the woman sub assistant surgeon of the Municipal Women and Children Dispensary may be employed without prejudice to her duty hours on an honorarium of Rs.200/- . I request that the scheme as modified and adopted by the council now may kindly be sanctioned so that the scheme of medical inspection of all children studying in Municipal area may be put into effect early.

NOTE FOR THE COUNCIL:

The Scheme of Medical Inspection of School children suggested by the Chairman and approved by the Council was based on the presumption of obtaining gratuitous services of local medical practitioners. The numbers of boys and girls under inspection in two Municipal High Schools and 12 Elementary Schools are about 4,600 and 750 respectively. It will normally call forth the continuous attention of not less than three doctors for a period of atleast two months to complete the examination alone. As it is rather not possible and proper in these days to get the gratuitous services of doctors for <sup>such</sup> ~~not~~ purposes, it is suggested that two Medical Practitioners (Western Medicine) may be appointed for a period of two months on a consolidated honorarium of Rs.100/- each per mensem and they may be commissioned to complete the examination of all children in 2 months.

Medical Inspection of girls (grown up) may be entrusted to Women Sub Assistant Surgeon, Dr. Miss. Eapen with the sanction of the District Medical Officer. She may be required to do the inspection of children in without prejudice to her normal dispensary duties, to treat them, to prepare an indent of medicines required therefor and to arrange dispensing for them to the poor. She may be paid an honorarium of Rs.200/- with the sanction of competent authorities for the extra services she may hereto render in this regard.

The Dispensary for Women and Children may be supplied with the required medicines for the purpose and it is suggested that no central pharmacy need be opened temporarily for treating School children.

Sanction may be accorded for printing forms and purchase of stationery required for the purpose.

Government in their order No.M.A.3292 Edn. & P.H. dated 23-12-1948 had sanctioned Rs.3,000/- for Medical Inspection of all Municipal School Children while according their approval of

(p.t.o.)

of the Scheme sanctioned by the Council in Municipal Council  
Resolution No. 521 dated 13-8-1948.

Decision of Council is solicited.

The draft order and the note of Edu. on p1-2 will may be perused.

The S.G. has not been consulted in the matter and it is for consideration whether the Edu. dept. need be requested to consult the S.G. with regard to the Woman S.A.S. in the <sup>M.L.</sup> Woman & children Dispensary being asked to undertake the work of the examination of school children and, payment of an honorarium for her. This dept. may perhaps suggest that it may be made clear in the draft order that the two private medl. practitioners should be paid Rs 100/- P.M. each, only for two months and that the Woman S.A.S. should be paid only Rs 200/- as honorarium.
