Sub:- Government Press - Annual inspection of the Press by  
the Collector of Madras - report submitted.

Ref:- Government Memorandum No.924-C2-/49-1 Edn., dated  
6-1-1950.

The suggestion referred to in the Government Memo quoted above, was put by me to the Committee and it was accepted by the Committee. It is desirable that during an inspection of the Press, attention is paid not only to the prompt disposal of business and the proper maintenance of the registers, but also to technical matters like (a) the condition of the machines and the care spent on them; (b) arrangements for repairs; (c) workmanship; (d) checking of outturn (which involves technical knowledge); (e) estimate of materials, etc., etc. The Collector of Madras cannot have any knowledge of these technical matters and it is, therefore, desirable that he takes the assistance of a technical person. It may be pointed out that Sri Dandapani Iyer of the Hindu Press and Sri Satyanarayana of the Hindi Prachar Sabha's Press were appointed members of the Committee presumably for similar reasons. The Collector of Madras may, therefore, be asked to take the assistance of a suitable person who has experience of Presses, in doing his inspection. The work should not take more than two or three days and it should be possible to find a person who will do the work without any remuneration.
