ABSTRACT

⑥

Schools — Admission of pupils belonging to
Haryan communities in schools under Public
management not specially intended for those
communities — Report for 1948-49 — Recorded.

The percentage of the number of schools in which Harijan pupils were freely admitted to the number of schools accessible to them rose from 77.1 in 1947-48 to 82.2 in the year under report. The disparity between the number of schools in which Harijan pupils were admitted and the number of schools accessible to them was mainly due to the following usual circumstances, viz., (i) proximity of schools specially intended for Harijans (ii) non existence of Harijan pupils in the schools zones and (iii) in the absence of both the above circumstances, the reluctance of Harijan parents to send their children to school in preference to work. The managements of the schools and the inspecting officers have been working making all possible efforts to induce Harijan children to go to school in larger and larger numbers. The year under report has on the whole recorded an improvement over the last year in the admission of Harijan pupils.

Yours faithfully,

For Director of Public Instruction.
