: 2 :

Supply of copying ink pencils is necessary for each of these Radio Stations newly opened and functioning and I request the Government to sanction the supply.

3. From the practical experience it is found that the rate of supply i.e. 1 pencil per station for 2 months is inadequate, considering the scriptory work involved in communication traffic work. I consider that it is necessary to raise the supply of copying ink pencils (hard) at the rate of 12 pencils per station per annum and I request the Government to sanction the supply.
