GOVERNMENT ELECTRICITY DEPARTMENT.

From

The Chief Engineer for Electricity,  
157, Mount Road, Madras.

The Assistant Secretary to Government,  
Public Works Department, Madras.

No. 2803-J/50-4, dated 12-8-1950.

Sir,

Sub:- Stationery - Duplicating Machine - Pykara Electricity  
System - Copy of letter - furnished.

Ref:- Government Post Copy of Telephonic Message No. 4198-G/50-1,  
dated 7-8-1950.

Edm. W.

I forward herewith a copy of my letter No. 2803-J/50-1,  
dated 26-6-1950 as desired by you.

Encl:- One Copy of letter.

KSR. 12/8.D. 4.8.50

For Chief Engineer for Electricity.

Copy of letter No.2803-J/50-1, dated 26-6-1950, from the Chief Engineer for Electricity, 157, Mount Road, Madras, to The Secretary to Government, Public Works Department, Madras, through the Superintendent of Stationery, Guindy, Madras.

Sub:- Duplicating Machine - Pykara System - Central Office - Electrical Model - supply of - Sanction requested.

A foolscap size Gestetner Duplicator hand feed model is in use in the Pykara System since 1940 and it is reported that the pressure of work on the machine has increased considerably as can be seen from the particulars furnished below:-

|          |     |     |     | Stencils used. |
|----------|-----|-----|-----|----------------|
| 1946-47. | ... | ... | ... | 300            |
| 1947-48. | ... | ... | ... | 300            |
| 1948-49. | ... | ... | ... | 350            |
| 1949-50. | ... | ... | ... | 440            |

As the duplicator in use is a foolscap size machine much difficulty is felt in taking copies of returns and forms of double foolscap size. Printing could not be managed as the press is very busy with other work.

With a latest model of the machine, mechanically operated and with greater printing surface it will be definitely possible to overcome the difficulties when forms run out of stock and supply by the Government Press is delayed. Further with a mechanically operated machine, there will be a definite saving of human labour.

The Superintending Engineer, Pykara Electricity System, has suggested that the existing hand operated foolscap size machine may be transferred to the Division Engineer, Construction cum commercial, Pykara System who wants a duplicator for his office. The nature and pressure of work in that division are such that this division is unable to cope up with the increased work without a Gestetner Duplicator. It will therefore be advantageous in the interests of promptness and efficiency of administration, if the transfer of the existing machine is approved by Government.

It is understood that such Electrically-operated brief size Gestetner machines are in stock with the suppliers at present and it will cost about Rs.2,550/-per machine.

I request early sanction of Government for the purchase of a brief size machine, mechanically operated for Pykara System at a cost not exceeding Rs.2,550/- and also approval for the transfer of the existing machine to the Office of the Divisional Engineer (Electrical), Construction cum Commercial, Coimbatore.

The cost of the machine will be debited to XLI Receipts from Electricity Schemes - working expenses - I.C. Hydro Electric Schemes - Pykara Hydro Electric Scheme - Contingencies.

/TRUE COPY/

KSR.12/8.

SUPERINTENDENT.

EDUCATION DEPARTMENT (E).

Please see the letter from the C.E. for Electricity overleaf.

The proposal of the C.E. for the purchase of Electrically operated brief size Gestetner machine for use in the Pykara System is for consideration and issue of orders in P.W.D. (who is the concerned administrative department) in consultation with the Superintendent of Stationery and this Department. This may therefore be sent to P.W.D.

Electricity Department.

From  
The Chief Operation Engineer (South),  
157, Mount Road, Madras.

To  
The Secretary to Government,  
Public Works Department,  
Madras.

Through The Superintendent of Stationery,  
Guindy, Madras.

No. 2803-J/50-1 dated 26th June 1950.

Sub: Duplicating Machine - Pykara System - Central  
Office - Electrical Model - Supply of -  
Sanction requested.

A foolscap size Gestetner Duplicator hand feed  
model is in use in the Pykara System since 1940 and it  
is reported that the pressure of work on the machine  
has increased considerably as can be seen from the parti-  
culars furnished below:--

| Stencils used. |     |     |
|----------------|-----|-----|
| 1946--47       | ... | 300 |
| 1947--48       | ... | 300 |
| 1948--49       | ... | 350 |
| 1949--50       | ... | 440 |

As the duplicator in use is a foolscap size machine much  
difficulty is felt in taking copies of returns and forms  
of double foolscap size. Printing could not be arranged  
as the Press is very busy with other work.

With a latest model of the machine, mechanically  
operated and with greater printing surface it will be  
definitely possible to overcome the difficulties when  
forms run out of stock and supply by the Government Press  
is delayed. Further with a mechanically operated machine,  
there will be a definite saving of human labour.

The Superintending Engineer, Pykara Electricity  
System has suggested that the existing hand operated  
foolscap size machine may be transferred to the Divisional  
Engineer, Construction-cum-Commercial, Pykara System who  
wants a duplicator for his office. The nature and  
pressure of work in that division are such that this  
division is unable to cope up with the increased work  
without a Gestetner Duplicator. It will therefore be  
advantageous in the interests of promptness and effici-  
ency of administration, if the transfer of the existing  
machine is approved by Government.

It is understood that such electrically-operated  
brief size Gestetner machines are in stock with the  
suppliers at present and it will cost about Rs. 2550/-  
per machine.

I request early sanction of Government for the  
purchase of a brief size machine, mechanically operated  
for Pykara System at a cost not exceeding Rs. 2550/- and

P.T.O.

also approved for the transfer of the existing machine to the office of the Divisional Electrical Engineer, Construction-cum-Commercial, Coimbatore.

The cost of the machine will be debited to "XLI-Receipts from Electricity Schemes - working expenses - I.e. Hydro Electric Schemes - Pykara Hydro Electric Scheme - Contingencies."

Sub :- Duplicator - Electrical model Gestetner Duplicator - Pykara System, Central Office - Purchase sanctioned -  
Read :- From the C.O.E. Madras No.28033/50-1 Dated 26-6-1950.  
From the Supdt. of Stry.No.24163/50 Dated 29-8-1950.

ORDER / MS. NO. 2632 EDUCATION DATED 20.9.50.

Sanction is accorded to the purchase of an Electrical model Gestetner Duplicator at a cost not exceeding Rs. 2,550/- for use in the Pykara System.

2. Sanction is also accorded for the transfer of the foolscap size Gestetner Duplicator hand feed model now in use in the Pykara System to the Divisional Engineer, Construction-cum-commercial, Pykara System.

3. The Superintendent of Stationery is requested to arrange for the purchase of the Duplicator sanctioned in para

above.

4. The cost of the machine should be debited to "XLI-Receipts from Electricity Schemes - working expenses - I.e. Hydro Electric Schemes - Pykara Hydro Electric Scheme - Contingencies."

NOTE:- Please see the letter from the C.O.E., Madras and the endorsement thereon by the Supdt. of Stry on page 9 & 10 cf. In the circumstances stated, sanction may be accorded to the purchase of an electrical model Gestetner Duplicator recommended by the Supdt. of Stry and to the transfer of the foolscap size Gestetner duplicator hand feed model to the Divisional Engineer, Construction-cum-Commercial, Pykara System. The draft order above is for approval. R.M.D. and Finance may see for acceptance.
