"The following is a statement of results of the B.A. Honours and M.A. Degree Examinations in Mathematics held in March-April 1950.

B.A. Honours.	M.A.
Total number of students. 24	10
Number who have withdrawn 10	-
Number who have taken the examination. 14	10
Number passed in I Class 4	-
-do- II " 3	2
-do- III " 5	3
" recommend for the B.A. degree 1	-
Number failed 1	5

"Of the five students who had withdrawn from the Honours Examination of 1949, four appeared in 1950. Two of them passed in I class, one in third class and one failed.

" The results may be considered satisfactory. The large number of withdrawals is presumably due to the apprehension of bad results in the Mathematics Honours similar to those in the University last year. Some of these students are quite good and could have passed if they had sat through.

" On representation from this department last year, the Principal requested for an additional Assistant Professor for the purpose of intensive tutorial work for the Honours students. A post was sanctioned for a year and the person appointed took charge towards the close of November 1949. Due to the delay in sanctioning this post, the senior students could not however have the benefit of intensive work for more than two and a half months.

"It is felt that the honours students should be given
