The Secretary to Government,
Education Department,
Fort St. George, Madras.

G.No. 2593 B6/50 dated 28/8/1950.

Sir,
SUBJECT: ELEMENTARY EDUCATION-Building grants-Aided Schools-Sinking of Wells-Maximum monetary limit of grant-fixation of-Suggestion for amending Rule 8 of Chapter iii of the rules relating to elementary schools-Submitted.
G.O. No. Ms. 848 Education Dt. 25/3/49, Govt. have fixed Rs. 7000/- and 4000/- as maximum building grants that should be paid to higher and lower elementary schools respectively. I suggest that similar upper limit in regard to payment of grants on wells constructed for the use of elementary schools may also be fixed.

At present managements of schools submit proposals for the sinking of wells involving costly constructions which is unnecessary in view of the ordinary use to which an elementary school well will be put. As a check against any extensive or costly construction and as a directive to the managements to go in for simple construction which while answering all purposes of the School would economise expenditure both from their and Government funds, I suggest that maximum grant from Government to which any scheme of construction of wells would be entitled may be fixed at Rs. 500/- I also suggest that no distinction in this regard need be made between higher and lower elementary schools.

If this is accepted, amendment to Rule 8 of Chapter iii of the rules relating to Elementary Schools as suggested below may be approved.

After the first sentence of the rule, add:

"The managements should go in only for simple constructions which would just answer the needs of the school. Grant on any scheme will be limited to Rs. 500/-"

Yours faithfully,

[Signature]

KPN:29/8

For DIRECTOR OF PUBLIC INSTRUCTION

ELEMENTARY SCHOOLS - Aided - Maximum grant for schemes relating to construction of wells.

From the DPI, No. 2593 B6/50, dated 28th August, 1950.

ORDER (MS) NO. 2870 Edw dated 17.10.50.

In view of the ordinary use to which wells in elementary schools will be put to, the Government consider that proposal for sinking wells involving ^{costly} constructions is unnecessary. ^{ensuring} In order to check extensive or costly constructions, and to direct the managements of elementary schools to ^{only} go in for simple construction of wells which, while answering all purposes of the school would ^{economise} expenditure both from their ^{own} and Government funds, the Government approve the proposal of the Director of Public Instruction that the maximum grant from Government to which any scheme of construction of wells would be entitled ^{to} be fixed at Rs 500/-, no distinction being made between higher and lower elementary schools.

The following notification will be published in the Fort St. George Gazette:

NOTIFICATION.

The following amendment shall be made to the rules relating to the grant of recognition and aid to elementary schools, published with Education Department Notification No. 243 dated 21-8-1939 at pages 556-568 of Part I-B of the Fort St. George Gazette dated the 29th August, 1939, as subsequently ~~amendment~~ amended.

Amendment.

Chapter III- Rules relating to grants for school

buildings, building sites and playgrounds. Rule 8 -

Grants for sinking wells: After the first sentence of this rule, add "The managements should ^{construct} ~~go in~~ only for simple ^{type of well} constructions which would ^{just} ~~just~~ answer the ^{requirements} ~~needs~~ of the school. Grant for any one well scheme ~~will~~ ^{shall} be limited to Rs 500/-".

Sample of

Elementary education - Aided schools - Fixation limits of grant for sinking wells.

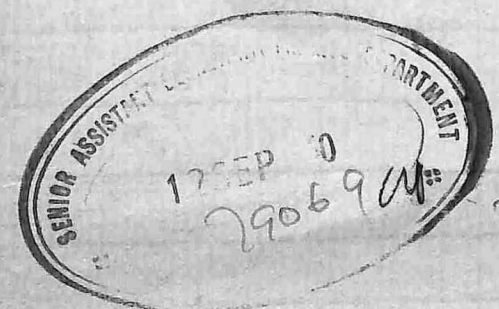

From the D.P.I. No. 2593 B6/50 dated 28-8-50

The maximum of building grants payable to Higher Elementary and Lower Ele. Schools have been fixed at Rs 7,000 and Rs 4,000 respectively. The D.P.I. considers that a similar upper limit in regard to payment of grants towards wells constructed for the use of elementary schools may also be fixed. This, he suggests, as a check against any extensive or costly construction which while answering all purposes of the school would economise expenditure both from their and Govt. funds. The Director proposes that the maximum of Govt. grant payable for any scheme of construction of wells may be fixed at Rs 500/- and that no distinction in this regard need be made between Higher Ele. and Lower Ele. Schools. The Director's proposal appears to be reasonable and may be approved.
