Under the reorganised scheme of Secondary Education it will be noticed that instruction in theory and practice under Domestic Science constitutes a very integral and substantial part of girls' education, whether it is under the ordinary or bifurcated course. In order to facilitate both oral and practical instruction it has been found necessary to provide a separate block for Domestic Science. We had accordingly prepared plans and estimates for the construction of Domestic Science block on the Government approved type and submitted the same to the Director of Public Instruction, Madras, for his kind approval and recommendation to the Government for inclusion in the list of approved works for the year 1951-52. The total cost of the scheme is Rs.19,988/-.

We understand that the Director has been pleased to recommend our scheme to the Government.

We request that in view of the essentiality of the scheme it may be found possible for the Government to be pleased to place it under Part II in the approved list of works and include it in the Budget for 1951-52 and give us permission as a special case, to proceed with the construction of the same in anticipation of Government grant by our Engineering Contractors Messrs. Cannon Dunkerley & Co. (Madras) Ltd., so that the block may be available for use by the children in the beginning of the academic year in June 1951. Our Engineering Contractors have been uniformly kind to us and have given us accommodation from time to time and we are sure they will extend us the same facility now.

Thanking you,

Yours faithfully,
For THE NATIONAL HIGH SCHOOL, TRIPPLICANE
