SUB:-SCHOLARSHIPS FOR ADVANCED STUDIES OVERSEAS Madras GOVERNMENT 1947 SPONSORED SCHOLAR - MR. A. Madangopal Menon.

Sir,

I am directed to refer to the correspondence with ~~your~~/this Ministry letter/~~xxxxxxxxxxx~~ No. F4-2/S-23/47S.II Dated 7-10-48 on the above subject and to state that it has been brought to the notice of this Ministry that for lack of knowledge of exact requirements of the Provincial Government in regard to the courses of studies of their scholars particularly from the point of view of the posts they are expected to take up on their return, the University authorities in the U.K./U.S.A. have been experiencing difficulties in planning their work properly.

2. It is, therefore, requested that this Ministry may kindly be furnished in duplicate with following information regarding Mr. A. Madangopal Menon to enable us to obviate these difficulties, as far as possible, and effect better coordination between his training abroad and your actual requirements with particular reference to his employment on his return.

a) Details of courses of studies to be done by the scholar (details in the nature of a syllabus may kindly be furnished.

b) Details of practical training to be undergone by the scholar.

P.T.O

8

c) Particulars of the post, including the exact duties involved, which he would be expected to take up on his return.

3. Mr. A.Madangopal Menon went abroad/awai~~ting~~ and ~~admission~~ is doing studies in/~~has been selected~~ ~~for~~ Electrical Engineering

4. An immediate reply is requested.

KHR.20-12.

3/21/XII

p.t.o.

10

Copy of letter referred to overleaf.

It is observed that while the scholar was selected for advanced studies in "Electrical Engineering-Generation, Transmission and Utilisation of Electrical Power" with a view to being absorbed in the teaching personnel for the Engineering Colleges, the subject that he is actually specialising is "Electrical Machinery". This may have been due to the difficulty of getting admission in U.K. Colleges for the proper course of studies. However, overseas scholars trained in the subject of "Electrical Machinery", details of which are given in the Ministry's letter, will also be required for recruitment to the staff of the new Engineering Colleges.

The proposed course of study from Ist October 1948 to 30th September 1949 for doing Research work at the Bristol University for the Degree of Master of Science is satisfactory, since training in methods of research is one of the objects of sending the scholars abroad.

It would be desirable to make arrangements, so that the scholar gets as much practical training as possible before he returns to India. I would suggest a practical training under any agency controlling Power Generation, and Transmission on a large scale.

Subject:- Scholarships for advanced studies overseas in respect of Mr.A.Madan Gopal Menon, 1947-48 Madras Government sponsored scholar.

Sir,

I am directed to refer to the correspondence ending with this Ministry's letter of even number dated 3rd August,1949, on the above subject and to forward herewith a copy of letter No.EB.952 dated 22nd August,1949, from the High Commissioner for India in London together with an application for extension submitted by Mr.Menon. It will be observed that the scholar has applied for an extension in the period of his scholarship upto October, 1950, whereas the High Commissioner and the Scholar's Professor ~~[illegible]~~ recommend extension upto 31st July, 1950.

2843
p15 ante
pp 22-23 infra

2. In this connection I am to invite the attention of the Provincial Government to this Ministry's letter of even number dated 13th May, 1948, which indicated that an extension would be needed in this case in view of the fact that the scholar was admitted to the M.Sc.Course, which is of two years duration, in July, 1948. In the circumstances the Government of India are prepared to grant the scholar an extension of *4 months in the period of his scholarship, from March, 1950, to July, 1950, to enable him to complete his M.Sc.course. As no clear indication is given by the scholar or his Professor as to the work to be done after 31st July, 1950, and upto 31st October, 1950, the Government of India are not disposed to grant him an extension for this period, but would have no objection to the scholar continuing in the United Kingdom for the period provided he bears himself the cost of his maintenance etc.

(13) 22

Copy of letter No.E.B.952 dated 22nd August,1949, from The High Commissioner for India, Education Department, India House, Aldwych, London W.C.2. to the Secretary to the Government of India, Ministry of Education, New Delhi.

Subject:- Scholarships for advanced studies overseas, Madras Government 1947 Sponsored Scholar- Mr.A.Madan Gopal Menon.

I am directed to forward, in duplicate for an extension in the period of Mr.A.M.G.Menon's scholarship, up to October, 31st 1950, His scholarship is due to terminate in February, 1950, but he finds that it will not be possible for him to complete his course within that period.

A copy of Professor Rowcliff's letter of the University of Bristol, is enclosed. Professor Rowcliff's letter mentions that Mr.Menon arrived here in February, 1948, in the middle of a session, and his attendance from February, to July, 1948, was unofficial. Therefore, it can not be regarded as part of the two years residence, which is necessary to qualify for the degree of M.Sc.

The student will not be able to complete the work by February, 1950, and even if he were, he will not have completed the two years official residence required by the University. In view of these circumstances, and also in view of the fact that his work and conduct have been eminently satisfactory, I am to hope that if he cannot be granted a scholarship up to October, 31st, as he requests in his application, he may be granted at least an extension up to July, 1949.

*****

(a) Academic courses. Please see separate sheet attached.

(b) Practical training.

6.

Final date upto which extension is required. 31st October 1950.

7. Reasons why extension is considered essential

Please see separate sheet attached.

(P. T. O.)

8. Details of the work to be done during the period of extension. (give full details).

Institution or University to be attended.	Duration From To	Subject with exact branch	Details of the course to be followed.	Degrees, diplomas or certificates if any obtained.

(a) Academic courses.

Please see separate sheet attached.

(b) Practical training.

8a. Will you be paid by the Institution, Factory, etc. in which you will work?.......No.......

If 'Yes' then at what rate?.......–.......

Signature of the Scholar A.M.Menon

9. Recommendations of the Professor, or other University authority supervising the work of the scholar.

Please see letter attached from the Professor of Electrical Engineering, University of Bristol.

10. Recommendations of the Educational Liaison Officer.

As Mr. A. M. G. Menon's work and conduct have been very satisfactory, and as the extension asked for is to satisfy University requirements, his application is strongly recommended for an extension at least up to ~~August~~ July 1950.

J.N. KHOSLA.
Deputy Secretary.

Decision on the application (to be filled in by the Ministry of Education).

---

5 (a) & 7 :-

Academic Courses :- From April '48 to July '48 (Summer term) I attended the Faculty of Engineering as an occasional student for the one term and took the Final Year Honours papers in Electrical Engineering and passed. The Professor of Electrical Engineering who was satisfied with my work recommended me for the Graduate membership of the Institution of Electrical Engineers. I was duly admitted as a Graduate to the Institution as from the 1st of January '49.

I commenced research work on Induction motors in September 1948 at the Faculty of Engineering. Throughout the session '48 to '49 I also attended the lectures of the Professor of Electrical Engineering to the Final Year Hons. class. A fair amount of experimental work has been done todate on several types of motors and a few interesting results have been incidentally investigated. The nature of the research demanded a lot of preliminary work as well and some time was spent on this. The main line of research is now well under way and several interesting results are in prospect; but, the finalisation of these results entails the tests being performed on several more motors and comparative studies being made. For this purpose, the Professor has arranged for me to work from September 1949, in one of the works of a manufacturer of electric motors. I am hoping to work on several motors of varied sizes and types for the achievement of useful general conclusions.

The work herein involved is considerable and an extension for a few more months beyond February 1950 is essential for the completion of the experimental and theoretical sides of the work. The results will in no way be completed by the date of normal termination of scholarship, and the work so far performed would be of benefit only if the extension is granted.

5 (b).

Practical Training :-

During the summer vacation of 1948, I worked at the English Electric Company's Stafford Works for a period of nine weeks from 5th July to 3rd September '48 and studied the constructional details of the electrical machinery manufactured there. During the period, I worked in the

(P.T.O)

following sections : ① Transformer testing ② Switchgear Testing ③ Rectifier Assembly and ④ Large Winding.

During the summer vacation 1949, I worked at the Portishead Generating station of the British Electricity Authority for a period of eight weeks from 20th June to 13th August '49. Much useful training was obtained in the working of this big thermal station of installed capacity 250 MW. I worked in the Boiler House, the Turbine Room, the Control Room, the Laboratory and the Efficiency Office during the training period.

Work to be done during Extension Period :-

8 (a) Academic Courses :-

I am hoping to pursue the research and obtain extremely useful conclusions which would prove of advantage in the design of induction machines. A new type of test which has been devised in this connection will be fully tried out and its reliability investigated under varied conditions i.e. as applied to various sizes and types of machines. The finalised results will be assembled and published, if it proves useful, as I have every hope it will be. I am also looking forward to obtaining the degree of M.Sc. of the Bristol University for the work.

8 (b) Practical Training :-

In all probability, I shall be busy throughout the next year on the academic work. But, if it should be possible at any time, I shall try to secure further training with one of the manufacturers of electrical machinery.

COPY.

UNIVERSITY OF BRISTOL.

Faculty of Engineering,
Merchant Venturers' Technical College,
BRISTOL, 1.

GHR/PS.

15th. August, 1949.

The Secretary,
Education Department,
Office of the High Commissioner for India,
India House,
Aldwych, London. W.C.2.

Dear Sir,

Re: A.M. Menon.

In the latter part of 1947 we expressed our willingness to consider Mr. A.M. Menon for admission as a research student to this University. Before we had finally agreed with you to admit him, your department had arranged for him to arrive here, which he did in February 1948.

As this was in the middle of a session, his attendance from February to July 1948 was unofficial, and cannot be regarded as part of the two years' residence, which is necessary to qualify for the Degree of M.Sc.

Mr. Menon's work and conduct since he has been here has been eminently satisfactory, and I have little doubt that he will, in due course, present a thesis which will qualify him for the degree of M.Sc. He will not, however, be able to complete the work by February 1950, and even if he were able, he would not have completed the two years' official residence required by the University.

As his arrival here in the middle of a session is due to arrangements made by your office, and as we are very satisfied with Mr. Menon, I have no doubt that you will extend his scholarship until 31st. July 1950 at least, in order that he may qualify for the degree of M.Sc.

As Mr. Menon will planly require a little time to settle his affairs in this country, it would be helpful if he could be allowed another two or three months beyong 31st. July. This earlier date is, however, necessary for the purpose of satisfying the requirements of the University.

Mr. Menon is attaching separately a technical record of his work, which has my approval.

Yours faithfully,

(SGD.) G.H. RAWCLIFF.

No.F.4-2/S-23/47-S.II,
Ministry of Education,
Government of India,
New Delhi 2, the [illegible] Nov, 1949.

From

The Secretary to the Govt. of India.

To

The High Commissioner for India,
Education Department, India House,
Aldwych London W.C.2.

Subject:- OVERSEAS SCHOLARSHIPS (PROVINCIAL) MR. A. MADANGOPAL MENON - MADRAS GOVT. 1947 SPONSORED SCHOLAR - [illegible] FOR EXTENSION OF THE PERIOD OF SCHOLARSHIP.

Sir,

With reference to your letter No.E.5.565 dated [illegible] 1949 and in continuation of this Ministry endorsement of even number dated 17th Sept, 1949 on the above subject, I am directed to convey the sanction of the Government of India to the extension of the period of scholarship of Mr. A. Madangopal Menon, 1947-48 Madras Government sponsored scholar upto 31st July, 1950 so as to enable him to complete his studies/training by that date.

The return passage of the scholar may kindly be arranged in a way to enable the scholar to sail to India on completion of his studies. The Govt. of India however have no objection to the scholar [illegible] to stay on in the U.K. till 31st October, 1950 provided he bears the entire cost thereafter 31st July, 1950.

Yours faithfully,

(T. [illegible])
for Secretary.

Copy for information to:-
1. The Secretary to the Govt. of Madras, Department of Education and Public Health Madras with reference to his letter No.74678/C/48-4 dated 18th October 1949. The Govt. of India will share with the Provincial Govt. 50% of the additional cost on account of extension upto July,1950.
2. [illegible]
3. Finance Clerk S.II.

By order,

([illegible])
for Secretary.

University, College or Works Report on the work of the Scholar during the period under review :—

Entirely satisfactory progress, conduct and attendance throughout complete course.

(Sgd) G.H. RAWCLIFFE.

Professor of Electrical Engineering
and Dean of Engineering Faculty.
University of Bristol

21. 2. 1950.

FOR OFFICIAL USE ONLY.

DEPARTMENTAL OBSERVATIONS.

Mr. A. Madan Gopal Menon has had a very good career in this country;apart from his theoretical work he has gained very valuable practical experience of the work in some of the larger Engineering concerns in the U.K.

Mr. Menon would like to be considered for a technical post on his return to India where he could get an opportunity to use to advantage the specialised knowledge he has acquired in this country.

(Sgd) J.N.KHOSLA.

Government Memo. No. 14471-C2/48-6 Edn. dated 18.8.'48.

Sir,

May I inform you that I returned from England on the morning of 2nd. August '50 after completion of my university studies and training under the Government scholarship scheme. During my stay in England, I did research work on Electrical machinery at Bristol University and also at a manufacturer of electrical machinery - Messrs. Newman Industries, Bristol. I secured the degree of M.Sc. in Engineering on the basis of a thesis as well as the graduate membership of the Institution of Electrical Engineers, London. I also had practical training at the English Electric Company and the Portishead Generating station of the British Electricity Authority. I have also visited several other manufacturers of electric machinery, and generating stations in the U.K.

During my stay abroad, I have been paying particular attention to the practical design and operation of electrical machines as I am also interested in the design of machines in connection with their manufacture. Both my research work and training fit me best for work in the Executive Branches of Electrical Engineering.

Prior to my leaving Madras in '48, I was employed as Junior Engineer, Government Electricity Department, Madras from 10.9.'46 to 15.1.'48. For details of my work and training, I would invite your attention to the annual report forms and the employment forms submitted by me to Government through the Education Department, India House, London.

Yours faithfully,

A.M.Menon

Overseas Scholarships. 1947-8.
Sri A. Madana Gopal Menon - Extension.

From the G. of I. Ministry of Edn.
No. F-4-2/5-28/47-S2 of 17.9.'49.

p21 cf

Sri A. Madana Gopal Menon was selected in 1947-8 for advanced studies in "Electrical Engg- Generation, Transmission & Utilisation of Electric Power" and is intended for absorption in the teaching personnel of the Engg College. He is working for the M.Sc degree of the Bristol University, U.K. and his scholarship commenced on 26-2-'48. He has now applied for extension in the period of scholarship for eight months till the end of October 1950. The High Commissioner and the scholar's Professor recommend extension atleast upto 31st July 1950, which is considered necessary for the scholar to qualify for the M.Sc degree. The G. of I. are prepared to grant extension upto this period. They state that as no clear indication is given as to the work to be done after 31st July 1950 they are not disposed to grant him an extension beyond July 50 but that they have no objection to the scholar ~~to~~ staying on in the U.K. ~~if~~ provided he meets the cost himself. This Govt may agree with the G. of I. At the time of his admission to the M.Sc Course it was expected that some extension would be necessary to complete the M.Sc course as the scholar joined the course a few months late. The G of I will meet half the cost of extension for the five months. A draft letter to the G of I is submitted for approval. Finance may see before circulation.
