EDUCATION DEPARTMENT

FROM

THE DIRECTOR OF PUBLIC INSTRUCTION, MADRAS.

To

The Secretary to Government,
Education Department,
MADRAS.

Rc.No.2275 -14/50 dated 19th September 1950.

Sub:--Physical Education--Games--Amendment to Grant-in-aid Code--Proposals --Submitted.

Ref:--(i) Government Memorandum No.36076-c/46-15 Education dated 18-4-49.

(ii) G.O.Ms.No.302 Education dated 4-2-50.

In my letter Rc.No.4350-E-2/46 dated 10-8-48, I submitted proposals that Government might be pleased to amend the Grant-in-aid Code so as to make necessary provision in the rules for giving grants in connection with approved expenditure on Physical Training and games not exceeding two-thirds of the difference between the expenditure and games fee collections during the year and that if such a provision was made it was essential that the games amount account should be kept separate including any contribution made by the management and the accounts should be audited by the School auditor as in the case of other items approved for purposes of assessment of grant.

2. In this connection I may add that the cost of games and sports materials have risen considerably. The physical activities of the students have gained much popularity larger and larger numbers of students participate in the activities and physical education is becoming more important in the field of education. In the circumstances, I recommend that Government may be pleased to amend the Grant-in-aid Code so as to include the expenditure on Gymnasium and games, (item No.14 on the expenditure side of the Financial Statement in Appendix F), while fixing the amount of grant under rule 32 of the Grant-in-aid Code. The expenditure relating to Games Fund will be governed by the Rules issued by me in regard to the administration of the above fund.

3. I shall submit necessary draft amendments to the Grant-in-aid Code as soon as the proposal is approved by Government.

Yours faithfully,

FOR DIRECTOR OF PUBLIC INSTRUCTION

The Secretary to Government, Education Department, Madras.

Item 14 of Appendix F
on p 15 of BKM 40

Under the provisions of the Grant-in-Aid Code, grants are given to secondary schools under private managements, towards approved expenditure on physical training and games when such expenditure exceeds the amount of games fees collected from pupils and staff. The maximum grant payable for this purpose is limited to the amount of games fees collected during the year and it should not exceed one half of the difference between the expenditure and the games fees collections during the year. Teaching grants to aided secondary schools are however assessed on the basis of two thirds of the net cost of maintenance of the school in the preceding financial year. With a view to ^{remove} ~~rectify~~ this anomaly and with a view to encourage physical education, the question of raising the basis of assessment of grants towards expenditure on physical education from one half to two thirds of the net cost was considered as a Part II scheme for 1950-51. But the proposal was negatived by the S.F.C. ~~as~~ it was not pressed at the cabinet meeting. The D.P.G. was informed that the proposal ^{should be} ~~was~~ deferred.

2. The D.P.G. has now renewed his proposals for the enhancement of the basis of assessment of grants towards physical education. He has proposed that the expenditure on gymnasium and games may be treated as an item of approved expenditure for purposes of assessment of teaching grant in which case the schools concerned will become eligible for a two third grant on behalf of this expenditure also. At present teaching grants to aided secondary schools are assessed on the basis of the ~~five~~ audited financial statements submitted by managements with reference to rule 32(1) of the Grant-in-Aid Code. While the expenditure on gymnasium and games is shown in the

financial statement, it is not taken into account for purposes of assessment of teaching grants. As it has already been accepted by that the basis of assessment of grants towards physical education may be enhanced from one half to two thirds of the net cost, the Director's proposal that expenditure on physical education may be treated as an item of approved expenditure for purposes of assessment of teaching grants, may be accepted. The Director had already reported that the proposal involved a recurring expenditure of one lakh per annum.

3. The file may be sent to Finance Ua for remarks.

The notes on pp 1-2 above may be perused. Fin (Exp. A)
The D.P.G. has again come forward with the proposal that expenditure on physical education may be treated as an approved item of expenditure for purpose of assessment of teaching grant. When the proposal was made last year, this Dept. considered that the criteria laid down for admission of schemes as Part II schemes were not satisfied in this case and that the proposal which involved a recurring expenditure of Rs 1 lakh p.a. might be deferred. However the proposal came up as a Part II Scheme for 1950-51, but was negatived by the S.F.C. It is submitted that the same considerations which weighed with this fact in rejecting the scheme last year hold good this year also. The scheme cannot be considered immediately essential. In the circumstances, Finance may advise that the proposal be deferred.

may be deferred
16-10-50

The file relates to the proposal of the D.P.G. that expenditure on gymnasium and games (physical education) ^{in aided secondary schools} may be treated as an item of approved expenditure for purposes of assessment of teaching grants to the institutions concerned.

The maximum grant payable for this purpose is at present limited to the amount of games fees collected during the year and it should not exceed one half of the difference between the expenditure and the games fees collections during the year ^{however assessed} while teaching grants are assessed on the basis of two thirds of the net cost of maintenance of the secondary schools concerned in the preceding financial year. The question of enhancing the basis of assessment of grants towards expenditure on physical education from one half to two thirds of the net cost was considered as a Part II Scheme for 1950-51, but was turned down by the S.F.C.

2. Finance Dept. has now pointed out that the proposal ^{now} renewed by the D.P.G. can not be considered ~~as~~ immediately essential and that the considerations which weighed with this fact in rejecting this scheme last year hold good this year also. It may also be pointed out that the proposal was not pressed last year after it was negatived by SFC. Grant for dearness allowance is also limited to one half of the expenditure by the S.F.C. In view of this and in view of the present financial stringency it is for consideration whether the proposal may be deferred. If ~~it is ordered that the prop. Dept.~~ ^{the proposal is to be pressed} ~~the file will have to~~ ^{may press for the acceptance of the proposal, the file may} be circulated to H.M. (Fin) also after even to H.M. (Edn. Dept.)
