Sir,

Sub: Grants - Teaching - Local Bodies - Secondary Schools Recommendations of the Retrenchment and Re-organisation Committee. (B)

REF: G.O.Ms.No.2669-Education dated 23--8--1949 and Director's R.C.541-G2/49 dated 21--9--1949. Sent to Finance

2E
8/12/31

In continuation of paragraph one of the Director's letter referred to above, I wish to bring to the notice of Government that there are three Taluqs in the East Godavari Agency area (i.e.) Nugur, Yellavaram and Chodavaram in which Middle Schools are to be opened. But it is doubtful whether the special subsidy scheme under question applies to Agency area. I invite your attention in this connection to the last paragraph of my letter R.C.1993-G2/48 dated 25-10-1948 in reply to Government Memorandum No.66289-B1/48-3 En dated 13-10-1948 and 21-10-1948.

Yours faithfully,

for Director of Public Instruction.

GOVERNMENT OF MADRAS

Public (Miscellaneous-II) Department.

Dated, Fort St. George, 20th November, 1949.

OFFICE MEMORANDUM.

Sub: Agency - Development of - Ameliorative schemes - Programme for implementation - Conference.

Ref: Memorandum No.353/48-1, Public (Refugees), dated the 31st May, 1948.

ASST. SECRETARY TO GOVERNMENT
24 NOV 1949
EDUCATION AND PUBLIC HEALTH DEPT.

91773

With a view to bring about a speedier development of the Agency tracts and the amelioration of the ~~xxxxxxxxxx~~ backward communities therein, the Government considered that the activities of the developing Departments in those areas should be expanded and that, for this purpose, a programme for putting into operation, by suitable stages, development schemes in the various Departments should be formulated. The Agents to Government, East Godavari, West Godavari and Visakhapatnam were therefore requested in Memorandum No.353/48-1 Public (Ref), dated the 31st May, 1948 to prepare and submit to Government at an early date such a programme in consultation with the Heads of Departments concerned for implementation in three years.

2. The schemes forwarded by the Agents have been found to be incomplete and wanting in details in many cases. Hence extracts from the summary of their schemes were forwarded to the different Departments of the Secretariat concerned ~~xxx xxx xxxxx~~ for finalising their portions of the plan in consultation with the Heads of Departments concerned and the Agents, if necessary. The progress ~~for~~ so far made in the finalisation of the three year plan has been very slow and there seems to be little chance of formulating a three year programme and starting its execution during the current year as originally intended.

3. The Government have therefore decided to convene a conference of the Agents to Government and the Heads of Departments noted in the margin* to devise ways and means of expediting the matter. The conference will be held in the Secretariat on the 7th December, 1949 and will be continued on the next two days. The Secretaries of the Departments of the Secretariat concerned (or Joint or Deputy Secretaries as the case may be) are also requested to attend the Conference. The agenda and time table for the Conference will be communicated separately. Hon'ble Premier will preside over the Conference on the opening day when the general discussions will take place and thereafter, the Hon'ble Ministers concerned will preside while their respective subjects are under discussion.

* Commissioners of Land Revenue and Irrigation
Director of Public Instruction.
Director of Public Health.
Surgeon-General
Registrar of Co-operative Societies.
Director of Agriculture.
Chief Conservator of Forests.
Director of Animal Husbandy.
Chief Engineers, and
Director of Industries and Commerce.

4. A brief indication of the points to be discussed at the Conference is given below:-

~~xxxxxxxxxxx~~
(a) Formulation of a 10-year plan: It is considered that in the circumstances explained in para 2 above, and in view of the present financial stringency, the original proposal of a three-year plan has to be dropped and that a Ten-year plan should be formulated.

p.t.o.

The work in the Agency tracts may be classified under two broad divisions: (i) Ameliorative or uplift work for the benefit of the tribes, and (ii) Economic development of the Agency tracts. The scope of each of these divisions is indicated below:-

(i) Ameliorative: This will mainly benefit the hillmen. It will cover ordinary medical relief, provision of drinking-water supply, education, removal of indebtedness and provision of credit facilities on reasonable terms through co-operative organisations, particularly multi-purpose co-operative societies as in the Central Province~~s~~, and generally improving the economic condition of the hillmen by assisting them to take to settled cultivation and become good agriculturists. The intention of the Constituent Assembly is that, within a period of 10 years from the commencement of the New Constitution, the Scheduled Tribes, like the Scheduled Castes, should be brought up to the level of the general population in the Plains areas. Having regard to all the difficulties and financial considerations, it appears that the result in view would be achieved with a greater degree of certainty and be more enduring if the period for the plan is fixed as 10 years. The reports received from the Agents do not satisfy the requirements of such a plan in as much as they do not contain (1) an assessment of the needs of the entire area under each ameliorative measure (schools, hospital etc.,) (2) details and (3) estimates of cost. A decision may be taken regarding the total number of hospitals, dispensaries, schools, etc., to be provided according to a uniform formula adjusted with reference to any marked variations in local conditions in each taluk of each Agency. The aim should be to reach these targets under each item progressively during the 10 year period, targets being also fixed under each head for each year. Rough estimates of cost under each head for each year can then be easily prepared to enable the necessary financial provision to be made. In the selection of works for execution, the order of priority with a view to secure, as far as possible, equitable treatment for all the taluks in the implementation of the programme may be prescribed.

(ii) Development of the Agency: This will benefit not only the Agency tribes but also the Province generally, and incidentally directly lead to increased food production. It will effectively secure the uplift of the hillmen and improvement of their economic condition. The main items of work under this are colonisation schemes, improvement of forests, plantations, etc., and exploitation of the mineral resources, and to facilitate this, large scale development of communications and anti-malarial operations are indispensable. A ten year plan for this may be too ambitious unless the finances of the Province improve considerably and funds earmarked for the purpose are augmented by raising loans. However, a skeleton tentative ten-year plan may be drawn up, and every year as much as possible of the programme allotted for that year may be executed. As regards agricultural development, colonisation schemes are the most vital. All these schemes need not be on a co-operative basis and plainsmen may also be admitted without being compelled to join any co-operative organisation, so that private enterprise may be attracted. In choosing works for execution, the most promising items should come first and be implemented, subject only to the availability of funds, irrespective of where the area of operations will be located. Development schemes should naturally be provided for in all the four territorial divisions in the Agency, viz., North Visakhapatnam Agency, South Visakhapatnam Agency, East Godavari Agency and West Godavari Agency. This Development programme may be continued as long as is necessary after the 10 year period, as they cannot come to a stop after 10 years.

(b) Appointment of a Special Officer: It is considered

p.t.o.

---

that, for the detailed formulation and rapid execution of these plans, a Special Officer of the grade of Collector for all the Agency tracts together, designated as the Agency Development Officer is very essential and that he may be appointed immediately ~~xx xxx~~ after the Conference.

(c) Constitution of a separate Fund: It has also been suggested that to ensure the implementation of the Plan, there should be a separate Fund for financing the schemes, both on the ameliorative side and on the development side, which can be utilised without having to face the risk of lapse of budget sanction at the end of each financial year.

5. The Agents to Government, East Godavari, West Godavari and Visakhapatnam are requested to attend personally the Conference on the 7th December, 1949 and on the two subsequent dates.

6. The Agents to Government are requested to draw up immediately for use at the Conference a provisional 10-year plan on the lines indicated in the preceding paras in consultation with the district, Heads of Departments concerned, to the extent possible, and send copies of it to Government sufficiently in advance of the date of the conference. Copies of the programme should reach Government before the 3rd December, 1949. The Secretariat Departments concerned will address the Agents and the Heads of Departments separately regarding the statistics and other information which the Government would particularly want them to make available for the discussions at the Conference.

(7)

Public (Miscellaneous) Department.

Recommendations made by the Conference of officials and non-officials which met in the Secretariat on the 7th and 8th December 1949 for considering the formulation of a Plan for the amelioration of the hill-tribes and the development of the Agency tracts. (The opening speech delivered by the Hon.Finance Minister has already been published in the newspapers).

---

(1) A senior officer of the grade of a Collector should be appointed as the Special Agency Development Officer and made exclusively responsible for the formulation of the detailed plans on the ameliorative side as well as on the development side and for the execution of the approved Plans, the routine administration of the Agency tracts in the three districts continuing to be in the hands of the Collectors as now. An advisory non-official Committee should be attached to the Special Officer.

(2) On the ameliorative side, the duration of the plan should be 10 years for all the Departments concerned. On the development side, the schemes should be settled as soon as possible after a survey by a team consisting of technical experts and the Agency Development Officer, and as much progress as possible should be achieved in implementing them during the 10 years. Development work would have to go on till all the approved schemes have been completed.

(3) (a) Medical. - (1) Starting with existing hospitals and dispensaries as focal points, and having regard to the nature of communications in the various areas, a scheme of itinerating dispensaries to cover the whole area will be worked out by the Surgeon-General.

(2) There will be a fresh approach to the problem when colonies are started under the development scheme.

(b) Public Health:-

(i) To the extent it can fit in with the scheme of medical relief through itinerating dispensaries, the Director of Public Health will draw up a plan to cover the whole area conjointly with that scheme.

(ii) A separate scheme (covering a shorter period) will be sent up dealing specifically with the problem of "yaws".

(iii) There will be a fresh approach to the problem when colonies are started under the development scheme.

(c) Roads:- It should suffice if the Post-war plan already drawn up is compressed into a period of 10 years. Necessary modifications should be made when colonies are located under the development scheme.

(d) Other departments concerned with ameliorative work:-

It may be left to the Heads of Departments to formulate plans, or modify existing ones as the case may be, as for a period of ten years, arranging for their own departmental 'surveys' for the purpose wherever necessary.

(4) (i) Agreed that the scheme of starting colonies with the ~~helep~~ help of plainsmen, with due safeguards provided for the interests of the hillmen, and with due care exercised in the selection of colonists, should be approved. (Sri Kodandaramayya and

p.t.o.

Sri Padal, among the non-official representatives, dissented from this; Sri Anaharachariar, however, agreed with the general decision).

(ii) Agreed that the first and essential preliminary to this scheme is a joint survey to be made by a team of experts - the Special Agency ~~Division~~ Development Officer, an Engineer, a Forest Officer, an Agricultural Officer, a Public Health Officer, a Geological expert, a Medical Officer to look after the team, etc. In fact the selection of the sites will be the work of the entire team.

(iii) Agreed that for agricultural colonies it need not be made a condition that intending colonists should form themselves into a co-operative society.

5. Agreed that a separate Fund should be set up for financing the schemes, 'ameliorative' and 'development'; that a modest sum representing the requirements for the first two years may first be put into it and further amounts put into it from year to year according to the requirements of the schemes and the progress made in them.

6. A senior Collector should be appointed as Agency Commissioner who will be in exclusive charge of the schemes - 'ameliorative' and 'development'; the Agents (Collectors) of the districts will have nothing to do with these schemes; the district officers of the various departments will deal directly with the Agency Commissioner in respect of his work; and he will also deal directly with the Heads of Departments and with Government; the existing administrative machinery in the districts will otherwise be left undisturbed; only, it should be open to the Agency Commissioner to suggest transfers of Revenue subordinates whose work has not proved satisfactory and the Agent (Collector) of the district should normally be bound to comply with such requests. It was considered desirable also that an advisory non-official Committee should be attached to the Agency Commissioner.

7. Agreed that in regard to Act I of 1917, Multi-pupose Co-operative Societies, Legislation for control of money-lending and scaling down of hillmen's debts, action might be taken as proposed in the 'Note for the Agency Conference' which was circulated.

CS.21/12-

***

Public(Miscellaneous) Department.

U.O.Note No. 926/48-22 dated 25-1-1950.

Sub: Agency - Amelioration of conditions of hill tribes- Development of Agency tracts - Recommendations of Agency conference - Implementation- Instructions.

Ref: Public(Miscellaneous) U.O.Note No.926/48-25,dated 23 rd December 1949.

--

On the 7th and 8th December 1949 a conference was was held in the Secretariat to consider the question of the ameliorative schemes for the hill tribes in the Agency Areas and the development of those areas. The recommendations of the Conference have been communicated to the Departments of the Secretariat with this department's U.O.Note No.926/48-25, dated 23-12-49 and the Departments were informed that the question regarding the further procedure to be followed for the formulation of the ameliorative and development plans is under separate examination and that the decisions arrived at in this regard would be communicated to them.

2.In respect of development of the agency tracts, further notion will be taken after the Specil Officer of the grade of a Collector has taken charge and he and a team of experts undertake their preliminary tours and surveys. On the ameliorative side, Heads of Departments may be asked to formulate their proposals for a ten year plan and submit them to the appropriate Departments of the Secretariat. By the time they are ready the Special Officer would have taken charge and after 'co-ordination' in consultation with him Departments will be able to proceed to implement them.

3. Action has been taken separately for the creation of the post of the Special Officer referred to above.

4.It has been recommended by the Agency Conference that on the Ameliorative side the duration of the plan should be ten years for all the Departments concerned instead of three years originally proposed. Departments of the Secretariat are requested to inform the Heads of Departments under their control of the recommendations of the Agency Conference and ask them to formulate their ameliorative plans for a Ten year programme and submit them to the Departments concerned through the Special Officer who will be appointed shortly. The materials collected by the Heads of Departments for the original Three Year Plan may be made use of in formulating the Ten Year Plan.

5.Departments of the Secretariat may in this connection be referred to this Department's U.O.Note No.   d/   in which they were requested to examine the recommendations of Dr.Aiyappan contained in his "Report on the Socio Economic Conditions of the Aboriginal Tribes of the Province of Madras", It is considered that it is not necessary to deal with two separate schemes for the amelioration of the conditions of the hill tribes, viz., the Ten Year Plan and Dr. Aiyappan's recommendations and that unnwcessary overlapping can be avoided if in formulating their Ten year ameliorative plans Heads of Departments take into consideration the relevant recommendations made by Dr.Aiyappan in this regard. The Heads of Departments should make specific reference in their Ten Year Plans to the relevant recommendations of Dr.Aiyappan relating to items with which they are concerned and state whether they have been accepted by them and if not, reasons for their non-acceptance.

The Departments of the Secretariat are requested to issue necessary instructions to the Heads of Departments concerned under them.

7. Separate instructions will be issued regarding the procedure to be followed for dealing with the recommendations of Dr.Aiyappan for ameliorating the conditions of backward communities other than Agency tribes.

P.K. Hanumantha Rao,
Assistant Secretary to Government

A copy of the recommendations of the conference held on the 7th and 8th December 1949 to consider the question of the ameliorative schemes for the hill tribes in the Agency Areas and the development of those areas, is forwarded to the D.P.I. As suggested therein, the Director is requested to formulate a plan for a ten year programme for the opening of Government secondary schools in taluks in the Agency Areas which are not served by such schools in consultation with the Special Agency Dev. Officer ~~and submit it to Govt. through the Special Agency Development Officer~~. To begin with the target should be confined to the opening of middle schools which may be converted to High Schools when the appropriate enrolment can be expected. The D.P.I is informed that the materials collected in connection with the original three Year Plan and with reference to the Govt. Memo cited above, may be made use of in formulating the ten Year Plan. He is also requested to take into consideration the relevant recommendations made in this regard by Dr. Aiyappan in his "Report on the Socio-Economic conditions of the Aboriginal Tribes of the Province of Madras" ~~The Director should~~ make specific reference in the ten Year Plan to the relevant recommendations. ~~of Dr. Aiyappan relating to this scheme and state whether they have been accepted and if not the reasons therefor for not their non-acceptance~~.

copy of last years Part I note at (E)

It is usual to consider as a Part II scheme every year the question of permitting local bodies to open new secondary schools for boys in taluks not served even by a middle school and to convert one of the middle schools into a high school in taluks where there are middle schools but not even a high school by sanctioning as a special case teaching grants towards the entire net cost of running these schools for a period of five years from the opening of the schools subject to a maximum limit and also grants towards the cost of purchase of initial equipment to the extent of Rs 3,000 for each school - payable in two instalments of Rs 1500 each. In connection with the recommendations of the Retrenchment and Reorganisation Committee, that there is no need for meeting the full cost of the schools opened recently, the D.P.I. was asked to report whether the concession may be withdrawn inrespect of schools to be newly opened in future or whether it may be restricted to three-fourths of the net cost for a period of three years from the opening of the schools instead of five years. The D.P.I. has recommended the special aid may be restricted to three years . He is not in favour of limiting the teaching grant to three-fourths of the net cost- The file has been sent to Finance u.o.

Para 3 of G.O. No 2669 Edn (B)
23/8/49

2. The D.P.I. previously reported that there is only one taluk in the plains which has not even a high school Viz Gudalur in the Nilgiris Dt and the question of converting the newly opened middle school at Gudalur into a high school need not be considered as a Part II scheme for

1950-51 as the present strength of the middle school does not warrant the opening of the high school department as the strength may not be economic. The Director now reports that besides Gudalur taluk in the Nilgiris , there are three taluks in the East Godavari Agency-Nugur, Yellavaram and Chodavaram which are not served even by a middle school and in which middle schools are to be opened- He however doubts whether the special subsidy scheme applies to the Agency area. The Agency area can be said to be more backward than any taluk in the plains and there is ample justification to grant special aid if the Agency Dt Bd proposes to open new middle schools in the taluks referred to by the Director. 3 The Agency Dt Bd East Godavari is financially poor and it will require the Govt to meet the entire cost of opening and maintaining the new schools. The best course seems to be for the Govt to open schools in these taluks under their own management and claim aid from the Post war Development Fund if the secondary schools newly opened by Govt are admitted to aid from that fund.- Attention is in this connection solicited to G.O. No 1984 Education dated 11-4-49 in which the Govt have opened a secondary School at Venkatapuram

A

p/c

(A)

4 There is no time to call for proposals from the D.P.I. inregard to the opening of Govt middle schools in the three taluks in the East Godavari Agency referred and consider them in connection with Part II schemes for 1950-51. The D.P.I. may be asked to consider the necessity for the opening of Govt middle schools in these taluks and submit proposals for consideration in connection with Part II schemes for 1951-52 if necessary

Public (Miscellaneous) II Department.

Notes of E & P.H. from page 1 above may be perused.

The proposals at A and B above may be agreed to in this Department subject to the following remarks:

ASSISTANT SECRETARY 24-10-49 1619 25 OCT 1949 CHIEF SECRETARIAT

---

(17)

2. It is seen from the Administration Report of the Visakhapatnam Agency for 1948-49 that there is no high school in any of the Agency portions of the taluks of Golukonda, Palakonda, Parvatipur, Srungavarapukota, Salur, Viravalli of Visakhapatnam and in the Gudem taluk, (of the same dt) the whole of which is in the Agency tract. It also seems doubtful whether there is at least one middle school for each of these areas. ~~in Visakhapatnam.~~ The question of opening schools in these places also deserves consideration.

cf para 12 on p 3 (T)

3. If it is considered that this may be treated as part of the 10 year Plan, then E & P.H. may be informed (i) that it has been suggested in the connected file that H.M. (Fin.) may convene a conference of H.Ms., Secretaries and Heads of Department~~s~~ concerned & the 3 Agents to formulate a 10-year Plan for the improvement of the condition of the Agency people and that the conference, if approved ~~of~~ by H.M. (Fin.), may be held in the 2nd or 3rd week of November 1949 and (ii) that the D.P.I. may be asked to have necessary materials ready for discussion at the proposed conference. With these remarks the file may be passed on to Finance.

I ~~[illegible]~~ would suggest this: we must work according to a plan in the Agency tracts.
15.11.49.

File 0d to this (Fin)

Yes.
The conference will be held in December 7th, 8th, 9th as ordered by H.M. (Fin.) & H. Dv.

E & H.

E & P.H. (B.)

The proposal in this file relates to the question of opening of middle schools in taluks which are not

C No 81

served by such schools under the system of payment of special subsidy to the private or local body agency which comes forward to open such schools. The D.P.I. has reported that there are three taluks in the Agency area which do not have even a single ~~high~~ middle school. Taking into consideration the backwardness and poverty of the areas concerned, this Deptt proposed that the secondary schools may be opened directly under Govt. management and that as it will be too late to consider the proposal as a Part II Scheme for 1950-51, the D.P.I. may be asked to submit proposals for the opening of Govt. middle schools in these taluks for consideration in connection with the Part II Scheme for 1951-52.

p.1 cf

p 2 ante.

2. Public and Finance have agreed to the proposals. Public however are of the opinion that the question of opening middle schools in talugs in the Agency tracts which are not served by such schools should be according to a plan. They also suggest that the D.P.I. may be requested to collect necessary materials in this regard for discussion at the conference proposed to be held in December to formulate a ten year plan for the improvement of the condition of the Agency people. It is for consideration whether the D.P.I. may be informed accordingly and he may be requested to have the necessary information ready for formulating a ten year scheme in this regard also.

The Agency Conference held on the 7th and 8th Dec. 49 recommended the formulation and implementation of a Ten Year

Plan (instead of the Three Year Plan) for the amelioration of the condition of the Agency tribes and the development of the Agency tracts. Copies of the recommendations of the Conference ~~had~~ already been communicated to the Depts. of the Sectt. with this Dept's u.o. note No. 926/48-25 d 23.12.49. The procedure to be followed in the matter of the formulation of the Ten Year Plan has been indicated in this Dept's u.o. note No. 926/48-32 d 25.1.50, copies of which have also been communicated to all the Depts. of the Secretariat. With these remarks the file may be returned to E&P.H.

[Issued as Memo No. 81291B1/49-5 Edn d/6-3-50]

p 13 cf

W.r.t. to memo on p 13 cf

The D.P.I. has not yet submitted the plan for a ten year programme for the opening of Government Secondary Schools in taluks in the Agency Areas which are not served by such schools. As the question of opening these schools will have to be considered as a Part II Scheme for 1951-52, the Director may be requested to state whether the Plan has been formulated and if so to forward it for consideration by Govt.

p 20 cf C. No. 33765 From the D.P.I. Re. No. 271 K4/50 d/27-10-50

pages 16 and 20 cf

The D.P.I. has reported that ~~the plan for~~ a ten year programme, for the opening of Government secondary schools in taluks in the Agency Areas, which are not served by such schools, has not yet been formulated, as the remarks of the Special Agency Development Officer, have not yet been received. The Director has stated that he is not in a position to say whether the plan could be sent in time for consideration as a Part II Scheme for 1951-52. The proposal is not ripe for consideration in connection with the next year's budget.

p 20 cf

After the 10 year's programme is drawn up, the question of opening new Govt Secy schools in the Agency may be considered as a Part II scheme for 1952-53 or if need be as one for introduction during the course of the next year. The file may now be closed. The matter may be taken up again when the DPI addresses Govt in the matter
