of the University of Madras, 1946-7
Extracts of paragraphs 2--6 on p.31-32.

84228A

Medical Inspection.

The General Inspection Commission, after a careful scrutiny of the reports of Medical Inspection and after interviewing a good many of the Medical Officers of colleges has come to the conclusion that the medical inspection must be lost if there is no proper follow-up work at home. It may be hoped, however, that when physical Instructors are appointed, they will work in close co-operation with Medical Officers and make it a part of their duty that as far as possible the treatment suggested by the Doctor is carried out in each case." This hope has unfortunately not materialised even though in some colleges a good deal of attention is paid to the medical inspection and the reports. There is no follow-up of defective cases; they are not periodically re-examined, nor are effective steps taken to cure them. Under the circumstances, the Commission has regretfully come to the conclusion that such a system of medical inspection will yield no substantial benefits.

In view of the continuous and detailed work necessary for effective medical inspection and the large numbers now in colleges, the time has come when there should be a permanent and full-timed Medical Officer on the staffs of colleges. In co-educational institutions there should be an additional part-time woman Medical Officer to look after the women students.

The permanent Medical Officer should be a medical greaduate whose duty will be not only to look after the welfare of the students but also to see that proper sanitary conditions are maintained in the college and the hostels. There should be a uniform system of medical inspection in all colleges, periodical inspection (at least twice in the year of all students both senior and junior, co-ordination of all students both senior and junior, co-ordination between the work of the physical Director and the Medical Officer, careful maintanance of records of height, weight chest measurements, and particulars of the health of each student according to a well-thought-out form. The duties of the Medical Officer attached to a college should:-

(a) To conduct a thorough examination of every student at the beginning of every academic year, and to record its redults;

(b) To watch and note his progress at least once during the academic year, preferably at the end of the second term;

(c) In cases where ~~any~~ any defects have been brought to light to follow them up so that remedial measures may be taken either by the parents or by admission into a hospital.

(d) To inspect the college and its surroundings and to see that proper standards of sanitations are maintained; that where canteens are provided, the kitchens and water-supply are kept in proper condition;

(e) To attend on resident students and staff in case of illness;

(f) To look after the sanitation of the hostels, and particularly the kitchens, bathrooms and sanitary conveniences;

(g) To be present in the college every day during a fixed period either in the afternoon or forenoon, in order that students may easily consult him;

P.T.O.

(h) To advise the physical Director in regard to the exercises suitable for different sutdnets and where necessary to recommend exemptions;

(i) To arrange for admission to a hospital in cases of serious illness of students and to see that they are properly look after;

(j) To maintain a dispensary wherever feasible and to secure medical stores for students on a co-operative basis.

(h) To condut classes in First aid and Ambulance Work, and where necessary to teach subjects such as Physiology and Hygiene either as part of the carriculum of studies in the College or as an extra-curricular activity for such students as wish to learn them.

Thus the duties proposed for a full time Medical Officer are so many and of such importance that he should be considered one of the important members of the staff; hence it should not be considered excessive to offer him the grade and salary of a professor.

The Medical Officer may be allowed to have consultative practice mainly to keep himself in touch with all aspects of medical work; but it should be closely understood that his main duty is to the college, the associated hostels and the staff and students. The financial burden on the college will not be heavy if a reasonable fee is collected from students and an additional fee from members of the hostel. In view of the great advantages that are likely to accrue from such a shcme, it is hoped that the Government will see its way to include this item also in its scheme of grant-in-aid.

I invite the attention of Government to my letters ROC.No. 513-F/47 dated 13-11-47 and 22-12-1947 in reply to Government Memo. No.46894 A/47-4 Edn dated 28-6-47 submitting proposals for the establishment of clinics attached to Government Arts Colleges in connection with the Medical Inspection of students in Colleges. It will be seen from my proposal that all the points covered by the University Commission report have been fully dealt with in the proposal. If my proposal is accepted it would satisfy fully the requirements of the University Commission. I therefore, request that my previous proposal may be considered now.

Yours faithfully,

---

p 7-8 cf

I(a) With reference to Government Memo No. 46894 A/47 dated 28-6-47 calling for proposals for the establishment of clinics attached to Government Arts colleges etc., I have the honour to state as follows:--

I(1) The Principals of all Government Arts colleges whowere requested to offer their opinion on the matter are in general agreement regarding ~~this~~ the desirablity of ~~the~~ establishing clinics attached to Arts colleges.

I(2) In case such clinics are started, the following essential conditions have to be satisfied.

(1) Accommodation:-- There should be at least three separate rooms, one for consulting purposes, one for stores and surgical cases and the third for dispensary. It is also necessary that there should be a small infirmary attached with one or two beds to meet the need of emergency cases.

see para 5 of p 15-17

(2) Staff:-- There should be a fulltime Doctor with a small staff consisting of one compounder and one servant to assist him. In case there are also lady students anotherpart-time doctor to attend to lady students may be required. The Doctor in charge o the clinic may also be entrusted with the medical inspection of the students. In case physiology is introduced as a subject i the college classes--(Vide para IV of this letter)--the Docto in charge of the clinic may also be drafted in as a member o staff to do part-time lecturing on Physiology, in which case get a combined status as a part-time Lecturer and Medical

p 10 11

p.

The Doctor may also be permitted private practice.

(3) Equipment:-- A small hospital equipment consisting mainly of enamelled basins, bed-parss, urinals, surgical dressings, thermometre, hypoderine syringes, towels, bed-covers, knives, dressing farceps, scissors, legiture silks, cat-guts, wash basins etc. with a small collection of essential drugs and medicines. In short the equipment for rural dispensaries established by gent. would do at the initial stage. Govt.

II. Cost of the scheme.

The financial implication of the scheme will roughly be as follows:--

Receipts:- (a) By way of medical inspection fees.	3,000
(b) 5% of fee-income contemplated in the Memo. No. 46894A/47-4 Edn. dated 28-6-47.	20,000
	23,000

I 7-8cf

I 7-8cf

Expenditure:--	
I. Non-Recurring.	
(a) Building-- A block containing three separate rooms.	4,000
(b) Equipment--	500
	4,500
Total for one college.	
Total for 11 colleges--	49,500 or 50,000

N. Re.

I-N

Recurring charges:-	
(1) Staff. --One doctor, one compounder and one servant. 200 plus 50 plus 30 = 280 280 x 12.	3,360
(2) Drugs and medicines. 120 x 12.	1,440
Total for 1 college.	4,800
Total for all 11 arts colleges.	52,800
Add another Rs. 20,000 on account of the appointment of a lady doctor.	20,000
Grant-total-Recurring expenditure.	72,800 or 70,000

P

Re

III. Since it is obvious from the above estimates that the income realised from the levy of medical inspection fees and the income derived from the 5% of the additional fee-income contemplated is not sufficient to meet the entire recurring expenditure it is imperative that the rate of fees to be set apart from the excess fee-income should be raised to at least 10%, the balance being met by government or on the alternative the entire expenditure may be met from out of the excess fee income. This may come to about 20%.

IV. In conclusion, I may state that the Doctor in charge of the clinics may also be profitably used for teaching Physiology in the college classes. The subject of Physiology is growing in importance both as a pure science and in relation to medicine. The inspection commission of the university as well as the Inter-university Board have strongly urged the introduction of Physiology as a subject of

p.t.o.

study in colleges. The Madras University regulations provide for the introduction of Physiology as a subject. At present only the Madras Christian college is doing Physiology for the subsidiary course. No college in the Madras University is as yet affiliated for the main in Physiology. The womens' Christian college has introduced the subject but it is done in connection with the Home science, greater emphasis being laid on one aspect of study namely Nutrition.

V. As regards Medical Inspection in Engineering colleges, the Principals of all the Engineering colleges are of the opinion that no further scheme of medical inspection is necessary since all the Engineering colleges have a Medical officer attached to them.

Colleges--Arts colleges--Raising of tuition fees and establishment of clinics--Remarks of the surgeon-General, Madras.--Submitted.

I 7-8cf

Ref:- Government Memo No. 46894 A/47-4 Edn. dated 28-6-47.

In continuation of my letter RC No. 513 F/47 dated 13-11-47, I have the honour to submit herewith a copy of the remarks of the Surgeon-General with the Government of Madras on my proposals regarding the establishment of clinics in Arts colleges.

D.S. Reddi.

Director of Public Instruction.

(True copy)

Copy of Letter No. 100943-2-P.W. dated 12-12-1947 from the Surgeon-General with the Government of Madras, Madras to the Director of Public Instruction, Madras.

Subject:-- Establishment of clinics in Arts colleges.
Reference: Your letter RC No. 513 F/47 dated 29-11-1947.

---

p 9 10 ab

The estimates of expenditure furnished in your letter to Government represent the minimum demands needed for the establishment of the clinics in Government Arts colleges to provide Medical aid to students. The need for constructing a block of 3 rooms for housing the clinic may however be examined with reference to the accommodation existing in each individual institution, with a view to explore the possibility of avoiding the expenditure on such construction in case it is possible to locate the proposed clinic somewhere in one or the other of the existing buildings in any of the colleges.

(para 2)

P.T.O.

12

2. In colleges, where only girls are admitted, it is presumed that a woman medical officer will be appointed under the scheme.

3. A part-time lady Doctor for colleges which admit girls in addition to boys is not considered necessary, as the idea of the clinic is only to give first aid and as the male doctor in charge of the clinic can certainly render the necessary medical aid to the girls as well.

for one temps of 9 grants

4. If however it is intended that medical examination of the lady students of all the Arts colleges should be conducted and records kept, then only one Lady Doctor may be appointed for the purpose of all the colleges which admit ladies.

5. It is observed that a fixed pay of Rs. 200/- has been proposed for a doctor without a time-scale and that the doctor is allowed private practice. If he is allowed private practice, then he cannot be a full-time doctor. It seems desirable that a private medical practitioner is appointed for the purpose and the hous of his attendance fixed so as to ensure his attendance at stated hours. In this case, the pay of Rs. 200/- proposed by you would be a reasonable recommendation for the duties expected to be performed by him.

sd/ x x x x x x x

Sir,

SUB:- COLLEGES - Government Arts - Scheme of Medical Inspection of students.
REF:- Govt. Memo No.84228A3/48-A. Edn., dated 9-3-1949.

p13 ante

1(a) With reference to Government memo referred to above, I have the honour to submit my remarks seriatim on the points mentioned in the Surgeon General's letter No.100943-2, P.W., dated 12-12-1947.

p11-12 ante

bottom of p11 ante

p9-11 ante

1.(b) The Surgeon General has agreed with my proposal to have three rooms at least for housing the clinic attached to each College. As explained to Government already in my letter Rc.513F/47 dated 13-11-47 these three rooms are absolutely necessary for the proper working of the clinic. As every college at present is short of accommodation due to increased admissions and courses, it will not be possible to locate the clinic in the existing building except in the case of the Queen Mary's College, where there is already a dispensary. A block of three rooms has therefore to be constructed in the compound of other colleges. Taking the present market rates each block of the simplest type on average may cost about Rs.8000/-. At this rate if all the nine Government Colleges (excluding the Queen Mary's College) located in Government buildings were to be provided with clinics the cost of construction of the blocks would come to Rs.72,000/-. The two other Government Colleges viz., the Cuddapah College and the Government College for Women, Guntur, which are not held in Government buildings, will have to be provided additional accommodation for the location of the clinic.

K I

para 2 on p12 ante

2. At present only Women doctors are appointed for conducting the medical inspection even of the Women students reading in Men's colleges. Under the scheme only Women Doctors will be appointed in Women's Colleges.

p12 ante

3 & 4. As has been stated even at present only Women Doctors examine the women students in men's colleges. It is desirable that this practice should be continued as apart from other reasons, the present scheme is for intensive medical examination with follow-up work which necessitates maintenance of records and necessary data.

p12 ante

A I

p9-10 ante

5. At present I do not propose the appointment of full-time Doctors. They will be for the time being part-time servants attached to the college and will be paid a remuneration of Rs.200/-p.m. They will be required to attend and stay in the College on all working days at specified hours. For 3 days in a week they may be at the clinic and for the remaining 2 days they may do class work as indicated in para 2.(1) of my letter Rc.513F/47 dated 13-11-47. There should therefore be

P.T.O.

10

~~therefore be~~ no objection to allow the Doctors private practice. However, after the scheme is put into practice it may become necessary in time to appoint Full-time Doctors.

Ref:-- Government T.M. by Post dated 25-5-1950. p 39 ante

I have the honour to state that it may be possible to get the part-time services of doctors on a remuneration of Rs.100/- p.m. for the clinics but it is doubtful whether suitable doctors will be forthcoming as the remuneration proposed to be paid is low. I, however, recommend that the remuneration to be paid to the doctors may be fixed atleast at Rs.150/- p.m., so that it may attract qualified and experienced doctors to serve in the clinics.

Yours faithfully,

For Director of Public Instruction.

R.C.No. 989 FL1/48 dated 14--9--1950.

Sir,

Sub: GOVERNMENT ARTS COLLEGES--Scheme for medical inspection of Students--Approval of.
Ref: Government Memorandum No. 84228 A/48-16 G dated 6--9--19 50-

****

p 47 ante

The following Government Arts Colleges have more than 500 students on their rolls during the current year:--

1. Government Arts College, Rajahmundry.
2. " " " Ananthapur.
3. Presidency College, Madras.
4. Government Arts College, Madras.
5. " " " Kumbakonam.
6. " " " Coimbatore.
7. " Victoria College, Palghat.
8. " Brennen College, Tellicherry.
9. " College, Mangalore.

2. The cost of the scheme, non-recurring and recurring will be as follows:--

NON-RECURRING.

		Rs.
Building:	Construction of 3 Blocks at the rate of Rs. 8,000/- per college for 9 colleges	72,000--0--0
Furniture:	at the rate of Rs. 500 per college 500 x 9	4,500--0--0
		76,500--0--0

RECURRING.

Remuneration to a part time Medical officer at Rs. 1,200 per annum as suggested by the Government for 9 Colleges 1200 x 9	10,800--0--0
One compounder at Rs. 50/- per mensem (50 x 12 x 9)	5,400--0--0 *
One Servant at Rs. 30/- per mensem (30 x 12 x 9)	3,240--0--0 *
Drugs and Medicines at the rate of Rs. 500/- per college 500 x 9	4,500--0--0
* Excludes Dearness and other compensatory allowances.	23,940--0--0 or 24,000--0--0

3. In this connection I have the honour to inform Government that all the nine Government Arts Colleges have lady students as their rolls. If separate part-time lady Medical Officers are to be appointed for rendering medical aid to them, the cost of the scheme will increase. The existing practice of appointing lady medical officers to conduct the annual medical inspection of the lady students will be continued till such time their number in the colleges increases, justifying the appointment of

separate part time lady medical officers as in the case of male students.

Yours faithfully,

for Director of Public Instruction.

****

As there is acute shortage of accommodation for the location of the Clinics in most of the Government Arts Colleges in the State, it is not possible to implement the scheme during this academic year. The Joint Consulting Architect to Government has furnished me with a type-design for the construction of blocks in the Colleges within the amount sanctioned by the Government and the same has been referred to the Surgeon General with the Government of Madras for remarks. On receipt of his remarks, necessary steps will be taken for the construction of blocks in all the 9 Colleges and the scheme will be implemented early in the next academic year.

2. Under the circumstances no provision for meeting any expenditure on this new scheme is made in the Revised Estimate for 1950-51 and I request that I may be permitted to incur the expenditure sanctioned in the G.O. referred to above next year (1951-52) for implementing the scheme.

Yours faithfully,

Sir,

Sub:- Colleges--Government Arts Colleges-Scheme for Medical Inspection of students--Clarification of certain points--Requested.

Ref:- G.O.Ms.No.3048 Education dated 15-11-1950.

G/594

I presume -

1) that the staff sanctioned in the G.O. quoted above is for the academic year 1951-52 with the begining of whi the scheme came into effect;

2) that the monthly remuneration of Rs.100/- per mensem sanctioned in the G.O. for the part-time Medical Office is payable for all the 12 months of the year, including the period of vacation, as otherwise there is no guaran that his services will be available during the followin year.

and 3) that the menials attached to the clinics may be continu in service and paid during Vocation since the posts are sanctioned on a time scale of pay.

G/594

I solicit the favour of orders as to whether the presumption is correct.

Yours faithfully,

For Director of Public Instruction.

ARR.9.4. 10.4.52

68

2

Edn.(G) Dept.

Please see the letter from the D.P.I. overleaf. The D.P.I. may be informed that ~~the~~ his presumption in items 1 and 3 overleaf are correct.

As regards item 2 it seems unnecessary to pay ~~1000~~ Rs.100/- p.m for two months during vacations, to the part time doctors. ~~when they will be there will be no student in the hostels~~ College simply to reserve them for the next school year. The nine Colleges ~~to~~ in which the scheme of medical inspection has been introduced are located in big towns where there would be quite a number of doctors who would compete for the part-time post. In the circumstances, it appers better ~~if t~~ to inform the D.P.I. that he may address the Govt. if and when it is found difficult to secure neither the services of the partime doctors continually nor of other doctors.

Fin. may see for remarks.

The Secretary to Government,
Education Department, Madras.

Roc. No. 527 G5/52 dated 13--9--1952.

(Rough slip below)

Sir,

SUB: MEDICAL INSPECTION-Colleges-Government Arts Colleges-Scheme for medical inspection of students.

p594 (V) – Ref: G.O. Ms. No. 3048 Education dated 15-11-1950.

...

While sanctioning the scheme of medical Inspection of students in Government colleges the Government have in the G.O. cited sanctioned the scale of pay to compounders as 35-1-60, i.e the scale of pay which was prevailing to compounders sanctioned in G.O. No. 78 Finance dated 6-2-1947. Government have subsequently enhanced the scale of pay of compounders to 45-2-55-1-75 with effect from 1-9-50 in G.O.Ms. No. 3850 Health dated 13--11--1950. (X)

2. The Principal, Government Victoria College, Palghat has represented to me that the difference in the scales of pay of compounders in Government Colleges and Medical Department may be brought to the notice of Government with a view to considering the application of the same scale to both.

3. The request of the Principal to have a uniform scale of pay to compounders irrespective of the fact as to the various departments where they are employed is quite reasonable. I therefore recommend that the Government may be pleased to sanction the scale of pay of Rs. 45-2-55-1-75 to compounders sanctioned for the scheme of Medical Inspection of students in Government Colleges in the scale with effect from 1-9-52.

Yours faithfully,

for Director of Public Instruction.

Sir,

Sub: Medical Inspection - Government Arts Colleges - Scale of pay of Compounders employed in Clinics attached t Government Arts Colleges.

Ref: Government Memo No.40292 G/52-4 Edn., dated 11-12-1952.

The revised scale of pay sanctioned to compounders employed in the clinics attached to Government Arts Colleges is shown as Rs.45-5-55-1-75 in the Government Memo quoted above. But the scale of pay recommended to Government in my letter Rc.No. 527-G5/52 dated 13-9-1952 is Rs.45-2-55-1-75. I request to be informed whether the figure "5" appearing between "45" and "55" in the Government memo is correct or an error for "2".

Your s faithfully,

for Director of Public Instruction.

Sub: Medical Inspecton - Government Arts Colleges - Supply of drugs for the clinic proposal to increase the provision

Ref: G.O.Ms.No.3048 Education, dated 15-11-50. V/594

***

I have the honour to invite your kind attention to the G.O. cited sanctioning the scheme of medical inspection of the students of 9 Government Arts Colleges in the State. In this scheme, there is sanction for drugs and medicines at the maximum rate of Rs.500/- per clinic per annum. Representation has been received from one of the Principals that this amount is too insufficient to meet the cost of drugs and medicines actually required for one year. The question whether the need for increased sanction is essential was examined. The Principals of 4 Colleges who were consulted have all replied that it is absolutely necessary to revise the present amount of Rs.500/- and suggested that Rs.1000/- per annum is necessary. The medical inspection in these Colleges commenced in June or July 1951 and they have all stated that from practice it has been found that the clinic can function satisfactorily only if sufficient drugs and medicines are stocked and that Rs.1000/- is only the minimum requirements.

In the circumstances stated I recommend that thescale of Rs.500/- per year for drugs and medicines may be raised to Rs.1000/- per annum per clinic in the Government Arts Colleges and orders may kindly be ~~and~~ issued to that effect at an early date.

Yours faithfully,

for Director of Public Instruction.

Memo. No. 48086/G/52-2 Edn., dated 20/4/53.

Sub:- Colleges - Govt.Arts Colleges - Scheme of medical inspection of students - Supply of drugs for the clinics.

Ref:- From the D.P.I., No.580-G/52 dated 27-10-52.

It has been suggested that if students are asked to bear the cost of medicines where prolonged treatment is to be given to any particular student or where any major ailment has to be cured, it may be sufficient to limit the Government's expenditure on medicines to Rs.500/- per annum. It has been suggested also that even if the existing allotment of Rs.500/- per annum is to be increased, a higher limit may be prescribed for the larger Colleges while for the others the existing limit of Rs.500/- per annum may remain unaltered as the number of students in Colleges varies, the total requirements under medicines will also vary. The D.P.I. is requested to offer his remarks on these suggestions and to furnish the actual expenditure for the last two years incurred on medicines in the clinics opened in the Government Arts Colleges under G.O. Ms.No.3048, Edn., dated 15-11-1950.

ROC No. 580 G5/52 dated 16th September 1953.

Sir,

Sub: Colleges - Government Arts' Colleges - Scheme for Medical inspection of students - supply of drugs for the clinics.

p 5 ante

Ref: Government memorandum No. 48086/G52-2 Education dated 20-4-1953.

....

p 15 infra

I submit herewith a statement of actual expenditure incurred on the purchase of medicines required for the clinics attached to the Government Arts' Colleges for the last two years (1951-52 and 1952-53). It may be seen from it that during 1952-53 the presidency College was having the highest strength of 1452, that 844 cases were treated at a cost of Rs.210 and that the average expenditure per hundred cases was only about Rs.25/-. Even if this rate were doubled, the total expenditure on medicines will only be Rs.425/- approximately which is less than Rs.500/- the existing maximum limit. The proposal to raise the maximum from Rs.500/- to Rs.1000/- per annum may therefore be deferred.

Yours faithfully,

for Director of Public Instruction.

Extract of notes from the file dealing with the E.P.H. Report of the General Inspn. Commn. of the City of Madras for 1946

The scheme for a school medical service has been deferred for the present.

to

T.G.
1-9-48.

3-9-48. A copy of note prepared on the scheme is put up at (A1). It will be seen from 'P' at p.1 of the note that the scheme for a school medical service was intended to apply to Govt. colleges also. With regard to medical inspection of students of private colleges, H.M.(Edn.) minuted in connection with this scheme, that it should be left to be done by the managements concerned, and that, for some time to come, the Govt. should not accept any responsibility ~~called for now, on the recommendations of the Commission~~ in the matter. In the circumstances stated, no action is called for now, on the recommendations of the Commission. Perhaps the recommendations may be taken into account when next the scheme for the medical inspection of students of colleges and schools is revived.

I.B.M.
5-9-48.

2. With regard to the existing arrangements for medical inspection in colleges, according to section 18 of XXVI of the Laws of the University, every first or second grade College should have attached to it a medical officer of the qualifications ~~ment~~ prescribed by the Syndicate in order to conduct the medical inspection of students of the college~~s~~. With reference to this provision, there is a scheme of compulsory medical inspection in force in all Arts colleges for men and women situated in the Madras University area. A fee of Re.1/- for each medical inspection is collected from each student in the Junior Intermediate or in the Junior B.A. class for this purpose.

Engineering Colleges - No regular medical inspection of students is conducted. But the following arrangements are in force.

(1) Engineering College, Guindy.

No medical inspection fee~~s~~ is levied. Provision is made for medical attendance by a Sub-Asst. Surgeon who resides in the college~~s~~ compound. There is a dispensary and inpatient ward to accommodate 4 beds in cases of serious illness.

(2) Engineering College, Coimbatore.

No medical inspection fee is levied. A Sub-Asst. Surgeon and a dispensary have been sanctioned for the college.

(3) Engineering College, Cocanada.

A part-time Doctor (M.B.B.S.) on an honorarium of Rs.120 p.m. has been sanctioned. It has been reporte that ~~an~~ the annual medical inspection of the students also will be conducted by this part-time Doctor~~s~~. No ~~machine~~ medical inspection fee is levied.

(4) Engineering College, Anantapur.

The opening of a dispensary and the appointment of a Sub-Asst. Surgeon have been sanctioned. Pending establishment of the dispensary the appointment of a part-time Doctor has been santioned. No medical inspection fee is levied.

I.B.M.
17-9-48.

P.T.O.

We may take up the scheme, as for Govt. colleges, ~~the~~ in advance: the problem there is manageable and the scheme can be made more or less ~~xuf~~ self-sufficient by the levy of fees. D.P.I. may be asked to send up proposals with reference to the Committee's recommendations

Main note seen by H.M.(Edn)

M.V.S.

18/11/48

[Issued as Memo. No. 84228A-1/48A Edn. d. 22.11.48] p3 cf

From the D.P.I. No.989-F/48, dated 13-12-48, 2-2-49, 20-3-49, 12-4-49 and 12-5-49.

---

p 5, 9-12, 15-17, 21 & 23 cf

The D.P.I. has submitted proposals for attaching small clinics to all Govt. Arts Colleges for the purpose of conducting medical inspection of students, ~~etc~~. The Director states that all the four Govt. Engg. Colleges have ~~a~~ Medical Officers attached to them and that no further scheme of medical inspection is necessary. Thus the present proposals are restricted only to ~~the~~ Government Arts Colleges.

para V on p 11 cf

ibid

2. The Director proposes that to begin with a part-time Doctor may be appointed for each of the Govt. Arts Colleges on a remuneration of Rs.200/- p.m. They are to attend and stay in the college at specified hours on all working days. They will work in the clinics to be attached to the colleges for 3 days in a week and for the remaining 2 days in the week, the Director suggests that they may be drafted for teaching Physiology, which subject is growing in importance at present. They will also conduct the medical inspection of the students. In course of time, after the scheme is in operation, full-time doctors will have to be appointed. Where there are women students, a part-time lady doctor also has to be appointed. In addition, a compounder and a ~~xxxxx~~ servant will also have to be appointed for each clinic.

para III on p 10 cf

ibid

ibid

ibid

are housed in Govt. buildings and that addl. accommodation has to be taken on rent in the case of the two colleges at Cuddapah, and Guntur, which are not in Govt. buildings. The cost of constructing a block of three rooms is estimated at Rs.8,000/- each and the probable annual rent for the additional accommodation to be taken on rent for the above two colleges will, it is stated, be between Rs.720/- to Rs.1,000/- for each building.

4. A non-recurring expenditure of Rs.500/- p.a. on equipment for each clinic will also be necessary.

5. The total cost to Govt. on account of the proposals works out roughly to Rs.75,000/- recurring and Rs.77,500/- non-recurring. The expenditure involved in the proposals is sought to be met from 5% of the addl. fee income to Govt., consequent on the increase in the tuition fees and the income from medical inspection fees. The Director considers that the receipts from medical ~~xaxx~~ inspection fees together with 5% of the addl. income to Govt. due to increase in the tuition fees will not be sufficient to cover the expenditure on the present proposals and that therefore either 10% of the addl. fee income should be set apart for the present purpose, the balance of the expenditure being met from provincial revenues, or that, in the alternative the entire expenditure involved in the proposal should be met from out of the excess fee income which may come to about 20%.

The total excess income was estimated Rs 1,50,000. Of this 20% was allotted for scholarships please see I/8 NF

6. The proposals of the D.P.I. may ~~generally be accepted~~ be accepted in principle in this Dept. and the remarks of Finance invited u.o.

Finance (E.III).

The file deals with the proposals for attaching small clinics to all Government Arts Colleges for the purpose of conducting medical inspection of students. The typed notes of E & P.H. from page 2 above may be perused. It is stated that the existing arrangements in the Government Engineering Colleges in this respect are adequate, and that no further scheme of medical inspection is necessary. The present proposals are, therefore, restricted only to Government Arts Colleges. Under the proposed arrangement, there will be a small clinic in each of the Government Arts Colleges, with a staff of one part-time Doctor (man or woman or both, as the case may be) on a remuneration of Rs. 200/- per mensem, a compounder and a servant. It is further stated that the doctors will work in the clinics for 3 days in a week, and for the remaining 2 days in the week, they may be drafted for teaching Physiology in the College. The financial implications of the proposal are as follows:-

1A - p 2 above

para 1 p 2 above

cf para 2 p 2 above

- do -

84

cf p 10 C.F.

E & P.H. have stated in this connection that the additional fee income that will accrue to the Government on account of the increase in the tuition fees, is estimated at Rs. 2,42,600/- during the current year, and that about 31% of this additional fee income will cover the recurring expenditure of Rs. 75,000/- on the medical inspection scheme.

p 4 above

2/. Under the existing arrangement, there is a scheme of compulsory medical inspection in force in all Arts Colleges for men and women situated in the Madras University area. A fee of Re. 1/- for each medical inspection is collected from each student in the Junior Inter or in the Junior B.A. class for this purpose. The arrangements obtaining in the Government Engineering Colleges are in items (1) to (4) in para 2 on page 1 above. The present proposals have presumably arisen from the report of the General Inspection Commission of the University of Madras for 1946-47 - c.f. extracts on pages 1-2 C.F. The proposals seem to have

para 2 p 1 above

- do -

pp 1-2 C.F

been accepted by E & P.H. Department mainly on the consideration that the additional recurring cost involved in the present proposal, can be met out of the excess fee-income anticipated on account of the increase in the tution fees ordered in G.O.No. 1246 Education dated 14-6-47. From page 7 N.F. of G.O.No.937 Education dt. 20-4-48, it is observed that 20% of this additional fee income was alloted for scholarships and 5% for purposes connected with medical inspection and visual instruction. Apart from that, there is no further information in the file as to what other purposes that excess ⊗ fee income was intended. It, therefore, seems doubtful whether the present proposals will be self supporting. If the scheme is not self supporting, the balance of expenditure will have to be met from provincial revenues and there is no information regarding the expenditure to be borne by the Government. It seems that the necessity for the present proposal will have to be considered in the light of the existing financial position of the province. Judged from this angle, it seems that proposals of this kind cannot be undertaken at this stage even though they may be desirable from the general point of view. In view of the existing financial stringency even P.W.R. schemes etc., eligible for financial assistance from the Government of India are being deferred. Attention is also invited in this connection to the instructions issued in Finance U.O.Note No. 32137 B.G.4 dated 16-6-49, for the introduction of new schemes in the course of a financial year. The present proposals do not satisfy any of the criteria laid down therein. In view of all these considerations, and in ~~the~~ view of the pressing need for all round economy, Finance may advise that the proposals in this file may be deferred for better times.

ASSISTANT SECRETARY TO GOVERNMENT
19 JUL 1950
FINANCE DEPARTMENT

Fin (E.II)

(Pre. Finance note on pp 4-6 above)

Further notes and the orders in circulation on pp 7-11 above may be perused. The file deals with the proposals for attaching small clinics to all Govt. Arts Colleges for the purpose of conducting medical inspection of students.

63724

A. on p 4 above

Regarding the honorarium to be paid to the part-time doctors the D.P.I. originally ~~suggested~~ a monthly remuneration of Rs. 200/-. H.M. (E&L) considers that it should be possible to get part-time doctors on a monthly remuneration of Rs. 100/- both in the mufassal and in the city.

A. on p 15 of

X on p 10 above

On a further reference, the D.P.I. has now stated that it may be possible to get part-time doctors on a remuneration of Rs. 100/- p.m. for the clinics but it is doubtful whether suitable

p.39 of

p.45 of

---

p.45 of.

A and B on p 11 above

doctors will be forthcoming as the remuneration proposed to be paid is low and he has therefore recommended a monthly remuneration of Rs. 150/- to attract qualified and experienced doctors to serve in the clinics.

58

The additional expenditure to Government will then be Rs. 68,200/- recurring and Rs. 77,500/- non-recurring for all the 11 Government Arts Colleges, including the cost of buildings for nine colleges. If the remuneration is fixed at only Rs. 100/- p.m. the cost will be Rs. 61,600/- recurring and ---- Rs. 77,500 non-recurring.

p.46 of X

2. Education have invited the remarks of this Department regarding the financial procedure to be followed in the present case.

A. on p 12 above

K. on p 6 above

Submitted that this Department previously suggested that the proposals for attaching small clinics to all Government Arts Colleges might be deferred for consideration as a Part II Scheme for 1951-52. This Department may still suggest that the proposals may be considered as a Part II Scheme for 1951-52, in view of the present financial stringency. When we have introduced special measures of economy in this year, it is not desirable to introduce new schemes involving large expenditure. Orders may be taken in circulation again on this point. The previous orders were passed before the recent economy drive.

26/7/50

28/7

3. If, however, it is decided in circulation that the scheme should be introduced in this year, the procedure for 'new service' items has to be followed. That is, it will have to be placed before the S.F.C. and the Cabinet. The approval of the Legislature also has to be obtained, even though there are now savings under the grant on account of the economy drive. But the expenditure may be initially met by advances granted from the proposed Contingency Fund, pending approval of the Legislature in due course ~~(The Contingency Fund~~

Summarising Note

The file deals with the proposal for attaching small clinics to all Government Arts Colleges for medical inspection of students. Under the proposals submitted by the D.P.I, there will be a small clinic in each of the Government Arts Colleges with a staff of one part-time doctor (man or woman or both, as the case may be), a compounder ~~for~~ and a servant. It is proposed that the doctors will work in the clinics for 3 days in a week, and that for the remaining 2 days, they may be drafted for teaching Physiology in the Colleges if that subject is taught. The D.P.I. suggested that the doctors might be paid a remuneration of Rs.200 p.m. On this basis the cost works out to Rs.75,000 recurring and Rs.77,500 non-recurring, which includes provision for buildings for Clinics in 9 Colleges at Rs.8000 each. Finance ~~suggested~~ advised that the Scheme was not urgent and might be treated as a Part II Scheme for 1951-52. H.M.(E.& L.) however, considered that it would not be fair to postpone the scheme as the Govt. had already earmarked a percentage of the increased fee income for purposes of medical inspection of students. (The Government had increased tuition fees in Arts Colleges by 25% from the academic year 1947-8 and it was then ordered that a reasonable amount out of the extra income received should be set apart for medical inspection of students). It was, however, suggested that it should be possible to get part~~tion~~-time doctors on Rs.100 p.m. The D.P.I., on consultation, stated that it might be possible to get doctors on Rs.100 p.m. but recommended that the remuneration might be fixed atleast at Rs.150 p.m. so that it might attract qualified and experienced doctors. ~~If it~~ If ~~it~~ the remuneration is fixed at Rs.150 p.m. the recurring cost will be Rs.68,200 per annum and if it is fixed at Rs.100 p.m. the recurring cost will be Rs.61,600.

Sub:- Medical Inspection - Colleges - Govt. Arts Colleges - Scheme for medical inspection of students.

Ref:- From the D.P.I., Roc. No.527 G5/52 dated 13-9-52.

The Govt., in G.O.Ms. No.3048, Edn., dated 15-4-50, while sanctioning the introduction of the scheme of Medical inspection of the students of certain Govt. Arts Colleges, inter alia ~~sanctioned~~ fixed the scale of pay of Compounders employed in each of the Clinics attached to the Colleges at Rs. 35-1-60 admissible to them under G.O.Ms. No.78, Finance, dated 6-2-47. But, the Govt. in G.O.No.3850, Health, dated 13-11-50, have enhanced the scale of pay of Compounders to Rs.45-2-55-1-75 with effect from 1-9-50.

At the instance of the Principal, Govt. Victoria College, Palghat, the Director ~~requests~~ recommends that the Compounders in the Govt. Colleges may also be granted the same scale of pay with effect from 1-9-52. For the sake of uniformity in the scale of pay of the Compounders irrespective of their employment in the various Departments, the Director's recommendation may be accepted. ~~it seems but fair that the Director's recommendation may be accepted and the Compounders employed in Govt. Colleges are also granted the same scale of pay sanctioned to compounders in the Medical Department.~~

Finance (E.III) Department.

Please see the notes of Education on p.1 above.

In G.O.Ms.No.3048, Education, dated 15/11/1950, the Government sanctioned the introduction of the Scheme for the medical inspection of the students of nine Govt. Arts Colleges in the State. The Govt. also sanctioned among others, one compounder on Rs.35-1-60 for each of the clinics attached to nine colleges. But in G.O.No.3850, Health, dated 13/11/1950, the scale of pay of compounders in the Health Dept has been enhanced to Rs.45-2-55-1-75 with effect from 1/9/1950. On the representation of the Principal, Govt. Victoria College, Palghat, the D.M.S. has requested the Govt. to allow the scale of pay of Rs.45-2-55-1-75 to the compounders, sanctioned for the scheme of Medical Inspection of Students in Govt. Colleges with effect from 1/9/1952. For the sake of uniformity in the scale of pay of the compounders irrespective of their employment in the various Departments, Education propose to accept the recommendation of the D.M.S. Health agree to the proposal.

Sub. Medical Inspection - Colleges - Govt. Arts Colleges scheme for medical inspection of Students Supply of drugs for the Clinic proposals to increase the provision.

6

Ref: From the D.P.I. Rc. 580 G5/52 dated 27/10/52

p.54 c/f (V)

para 1 of G.O. (V)
p.59 c/f

para 2 (vi) of G.O.
c/f p.59 c/f (V)

p.1 c/f

The Govt., in G.O. (Ms) 3048 Edu d 15/4/50 while sanctioning the introduction of the scheme of medical inspection of Students of Certain Govt. Arts Colleges, inter alia fixed an expenditure of Rs 500/- as the maximum rate per year for the purchase of drugs and medicines for each of the ~~College~~ clinics attached to the Colleges. At the instance of ~~the~~ Some Principals of Govt. Arts Colleges the D.P.I now suggests that, as the present amount of Rs 500/- is too insufficient to meet the cost of drugs and medicines actually required for one year, the sum may be raised to Rs 1000/- per year per clinic in the Colleges. The extra expenditure on this account will be Rs 4500/- p.a. recurring. In the Circumstances Stated by the D.P.I, his recommendation may be accepted.

Please see the note of Education on p.1 above.

The scheme sanctioned in G.O.No.3048 Edn. dated 15-11-50 has been in force for ~~a year~~ two years only and it would seem too early to raise the limit for expenditure on medicines with reference to the experience gained in a year. Finance may suggest that information may be obtained from the D.P.I. regarding the actual expenditure incurred on medicines in the various colleges and the limit may be fixed on the basis of the average of the above expenditure. ~~This~~ limit may be inforce for a period of three years and the question of revising the limit to be fixed now may be considered if necessary, at the end of three years after obtaining a report from the D.P.I. in this regard.

FINANCE DEPARTMENT

2/4/53 X

The attention of Edn. may in this connection be invited to their note at X on p.15 n.f. of G.O. 820 Edn. d. 9-4-1952. If students are also asked to bear the cost of medicines where prolonged treatment ~~other than [illegible]~~ is to be given to any particular student or where any major ailment has to be cured, it may be sufficient to limit the Govt.'s expr. on medicines to Rs. 500 per annum.

1/4/53

2

9
108

2 Even if the existing allotment of Rs. 500 p.a. is to be increased, it does not seem necessary to fix a uniform higher limit for all colleges, as the no. of students in each college varies & the total requirement under medicines will therefore vary. For the larger colleges alone, a higher limit may be approved while for the others the existing limit of Rs. 500 p.a. may remain unaltered.
